The information set forth in the following table modifies and supplements the information set forth in the table appearing under the heading "Selling Security Holders" in the related prospectus. The information is based on information provided to the Company and Core Lab by or on behalf of the selling security holders on or prior to November 22, 2006 and has not been independently verified by the Company and Core Lab. Since the date on which each selling security holder identified below provided this information, any of these selling security holders may have sold, transferred or otherwise disposed of all or a portion of its securities in transactions exempt from the registration requirements of the Securities Act or pursuant to the prospectus to which this prospectus supplement relates. The selling security holders may from time to time offer and sell pursuant to the prospectus or supplements thereto any or all of the securities. Information about other selling security holders, if any, will be provided in one or more prospectus supplements or post-effective amendments to the registration statement of which the prospectus is a part.

(1) Because a selling security holder may sell all or a portion of the notes and common shares issuable upon exchange of the notes pursuant to this prospectus, an estimate cannot be given as to the number or percentage of notes and common shares that the selling security holder will hold upon termination of any sales. The information presented assumes that all of the selling security holders will fully exchange the notes for cash and Core Lab common shares and that the selling security holders will sell all Core Lab common shares that they received pursuant to such exchange.

(2) Includes Core Lab common shares issuable upon exchange of the notes and open short positions in the Core Lab common shares.

(3) The number of Core Lab common shares issuable upon exchange of the notes is calculated assuming the conversion of the full amount of notes held by such holder at the initial exchange price of \$94.76 per share, which equals an initial exchange rate of 10.5533 shares per \$1,000 principal amount of the notes. This exchange price is subject to adjustment as described under "Description of Notes - Exchange Rights - Exchange Rate Adjustments." Accordingly, the number of Core Lab common shares to be sold may increase or decrease from time to time. Fractional shares will not be issued upon exchange of the notes. Cash will be paid instead of fractional shares, if any.

(4) The selling security holder is an affiliate of a broker-dealer.

(5)

CNH Partners, LLC is Investment Advisor of the selling security holder and has sole voting and dispositive power over the notes or the Core Lab common shares issuable upon exchange of the notes. Investment principals for the advisor are Robert Krail, Mark Mitchell and Todd Pulvino.

(6)

Michael Brailov is the natural person who may exercise voting power and investment control over this selling security holder's notes and the Core Lab common shares issuable upon exchange of the notes.

(7) Carlo Georg, the Chief Investment Officer of KBC Alternative Investment Management Ltd., is the natural person who may exercise voting power and investment control over this selling security holder's notes and the Core Lab common shares issuable upon exchange of the notes.

Selling security holders who are registered broker-dealers are "underwriters" within the meaning of the Securities Act of 1933. In addition, selling security holders who are affiliates of registered broker-dealers are "underwriters" within the meaning of the Securities Act of 1933 if such selling security holder (a) did not acquire its notes or underlying common stock in the ordinary course of business or (b) had an agreement or understanding, directly or indirectly, with any person to distribute the notes or underlying common stock. To our knowledge, no selling security holder who is a registered broker-dealer or an affiliate of a registered broker-dealer received any securities as underwriting compensation.

#### PLAN OF DISTRIBUTION

The selling security holders and their successors, which term includes their transferees, pledgees or donees or their successors may sell the notes and the underlying Core Lab common shares directly to purchasers or through underwriters, broker-dealers or agents, who may receive compensation in the form of discounts, concessions or commissions from the selling security holders or the purchasers. These discounts, concessions or commissions as to any particular underwriter, broker-dealer or agent may be in excess of those customary in the types of transactions involved.

Core Lab's common shares may be sold in one or more transactions at:

- fixed prices;
- prevailing market prices at the time of sale;
- prices related to the prevailing market prices;
- varying prices determined at the time of sale; or
- negotiated prices.

These sales may be effected in transactions:

- otherwise than on such exchanges or services or in the over-the-counter market;
- through the writing of options, whether the options are listed on an options exchange or otherwise; or
- through the settlement of short sales.

These transactions may include block transactions or crosses. Crosses are transactions in which the same broker acts as agent on both sides of the trade.

In connection with the sale of the notes and the underlying Core Lab common shares or otherwise, the selling security holders may enter into hedging transactions with broker-dealers or other financial institutions. These broker-dealers or financial institutions may in turn engage in short sales of Core Lab's common shares in the course of hedging the positions they assume with selling security holders. The selling security holders may also sell the notes and the underlying Core Lab common shares short and deliver these securities to close out such short positions, or loan or pledge the notes or the underlying Core Lab common shares to broker-dealers that in turn may sell these securities.

The aggregate proceeds to the selling security holders from the sale of the notes or the underlying Core Lab common shares offered by them hereby will be the purchase price of the notes or Core Lab common shares less discounts and commissions, if any. Each of the selling security holders reserves the right to accept and, together with their agents from time to time, to reject, in whole or in part, any proposed purchase of Core Lab's common shares to be made directly or through agents. We will not receive any of the proceeds from this offering.

The outstanding Core Lab common shares are listed for trading on the NYSE. We do not intend to list the notes for trading on any national securities exchange or on the NYSE and can give no assurance about the development of any trading market for the notes.
