The number and percentage of shares beneficially owned is determined in accordance with Rule 13d-3 of the Securities Exchange Act of 1934, and the information is not necessarily indicative of beneficial ownership for any other purpose. Under such rule, beneficial ownership includes any shares as to which the selling stockholders has sole or shared voting power or investment power and also any shares, which the selling stockholders has the right to acquire within 60 days. The actual number of shares of common stock issuable upon the conversion of the convertible

debentures is subject to adjustment depending on, among other factors, the future market price of the common stock, and could be materially less or more than the number estimated in the table.

(1) This column represents shares of common stock issuable upon conversion of convertible debentures and exercise of warrants issued in our June 2005 private placement, which is an estimated number based on a conversion price as of a recent date of October 30, 2006 of \$.1256 divided into the principal amount of the debenture.

(2) Includes a good faith estimate of the shares issuable upon conversion of the convertible debentures and exercise of warrants issued in June 2005, based on current market prices. Because the number of shares of common stock issuable upon conversion of the convertible debentures issued in June 2005 is dependent in part upon the market price of the common stock prior to a conversion, the actual number of shares of common stock that will be issued upon conversion will fluctuate daily and cannot be determined at this time. Under the terms of the convertible debentures issued in June 2005, if the convertible debentures had actually been converted on October 30, 2006, the convertible debentures would have had a conversion price of \$.1256. The actual number of shares of common stock offered in this prospectus, and included in the registration statement of which this prospectus is a part, includes such additional number of shares of common stock as may be issued or issuable upon conversion of the convertible debentures and exercise of the related warrants issued in June 2005 by reason of any stock split, stock dividend or similar transaction involving the common stock, in accordance with Rule 416 under the Securities Act of 1933. However the selling stockholders have contractually agreed to restrict their ability to convert their convertible debentures or exercise their warrants issued in June 2005 and receive shares of our common stock such that the number of shares of common stock held by them in the aggregate and their affiliates after such conversion or exercise does not exceed 4.9% of the then issued and outstanding shares of common stock as determined in accordance with Section 13(d) of the Exchange Act. Accordingly, the number of shares of common stock set forth in the table for the selling stockholders exceeds the number of shares of common stock that the selling stockholders could own beneficially at any given time through their ownership of the convertible debentures and the warrants. In that regard, the beneficial ownership of the common stock by the selling stockholder set forth in the table is not determined in accordance with Rule 13d-3 under the Securities Exchange Act of 1934, as amended.
