(Expressed in U.S. Dollars)

### 1. Nature of Operations

GLOBALINK LTD. was incorporated in the State of Nevada on February 3, 2006. GLOBALINK has focused its efforts in the Internet Hotel booking services arena. The Company has developed a proprietary online hotel booking program for connecting users with available rooms in hotels across the world. In order to gain the access to the hotels, GLOBALINK LTD. acquired OneWorld Hotel Destination Service Inc in Vancouver, B.C. Canada on October 31, 2008. OneWorld Hotel Destination Service Inc is a hotel booking company which has established strong relationships with major hotel chains such as Radisson, Hilton and Sheraton. Its clients include travel agents in major cities such as Vancouver, Toronto, Calgary, and Montreal. After the acquisition the Company intends to put the OneWorld operations into the online platform.

Our hotel travel booking web site for the business-to-business stage is now under testing prior to the official launching. The initial 39,000 available hotel rooms have been uploaded to the site, and will facilitate travel agencies to book rooms directly via the internet without having to personally call the office for booking. Official launching is anticipated to be in the early second quarter of 2011. Initially the web site will only facilitate the company s travel agency customers, who already have or will set up accounts with us (B to B). B to B is defined as business interactions between one business entity (OneWorld) to other business entities (the travel agencies in the travel industry). Our next stage of the web site development will be to facilitate non-business customers such that any individuals wishing to book rooms themselves may do so from our web site instead of booking through their travel agencies (B to C). B to C is defined as business interactions between a business entity (OneWorld) and the individual customers, be they an individual or corporation, whose business is not related to the travel industry. We anticipate this 2nd stage of the web site would be ready for launching during the last quarter of 2011.

#### 2. Accounting Policies

The financial statements have been prepared in accordance with generally accepted accounting principles accepted in the United States of America and reflect the following policies:

Translation of foreign currencies

Monetary assets and liabilities in foreign currencies are translated into United States dollars at the prevailing year-end exchange rates. Revenue and expense items are

translated at the average rates in effect during the month of transaction. Resulting exchange gains and losses on transactions are included in the determination of earnings for the year. The exchange gain for the period from January 1 to December 31, 2011 was \$19,161.

b)

#### Financial instruments

The company s financial instruments consist of accounts receivable, accounts payable, directors fees payable and advances from shareholders. It is management s opinion that the company is not exposed to significant interest rate risk arising from these financial instruments and that their carrying values approximate their fair values.

c)

#### Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles accepted in the United States of America requires management to make estimates and assumptions which affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses for the year reported. Actual results could differ from those estimates.

d)

#### Stock-based compensation

Accounting Standards Codification 718, Accounting for Stock-based compensation requires companies to record compensation cost for stock-based employee compensation to be measured at the grant date, and not subsequently revised. The company has chosen to continue to account for stock-based compensation using the provisions of ASC 718. In addition the company s policy is to account for all stock based transactions in conformance with ASC 718.

e)

#### Income taxes

Deferred income taxes are reported for timing differences between items of income or expense reported in the financial statements and those reported for income tax purposes in accordance with Accounting Standards Codification regarding Accounting for Income Taxes, which requires the use of the asset/liability method of accounting for income taxes. Deferred income taxes and tax benefits are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and for tax loss and credit carryforwards. Deferred tax assets and liabilities are measured using enacted

tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred taxes are provided for the estimated future tax effects attributable to temporary differences and carryforwards when realization is more likely than not.

f)

Net income per share of common stock

We have adopted Accounting Standards Codification regarding Earnings per Share, which requires presentation of basic and diluted EPS on the face of the income statement for all entities with complex capital structures and requires a reconciliation of the numerator and denominator of the basic EPS computation to the numerator and denominator of the diluted EPS computation. In the accompanying financial statements, basic earnings per share of common stock is computed by dividing net income by the weighted average number of shares of common stock outstanding during the period. We do not have a complex capital structure requiring the computation of diluted earnings per share.

g)

### Revenue recognition

Revenue is recorded when the corresponding expense can be recognized. Specially, room revenue is recorded when the client checks into the room. Due to this matching principle revenue is reported by the net proceeds of the services performed as required by Accounting Standards Codification 605.

h)

#### Accounts receivable

Trade receivables are carried at original invoice amount. Accounts receivable are written off to bad debt expense using the direct write-off method. Receivables past due for more than 120 days are considered delinquent. Management determines uncollectible accounts by regularly evaluating individual customer receivables and considering a customer s financial condition, credit history, and current economic conditions and by using historical

experience applied to an aging of accounts. Recoveries of trade receivables previously written off are recorded when received.

i)

### Translation adjustments

The Company has translations adjustments due to a subsidiary operating in Canada. The translation adjustment arises from the currency differences in the US dollar and the Canadian dollar. The Company reports all figures in US dollars and reports the currency translation adjustment through the equity section of the consolidated balance sheet.

#### 3. Fixed assets

Furniture, fixtures and equipment are recorded at cost. Depreciation is provided annually at rates calculated to write off the assets over their estimated useful lives as follows, except in the year of acquisition when one half of the rate is used. The Company uses an accelerated method of depreciating their assets over their useful lives.

Computer equipment acquired

#### 4. Advances from Shareholders

Advances from shareholders are for the reimbursement of expenses incurred on behalf of the company by the three principal shareholders and they bear no interest due. These notes are short term advances which are paid generally within one year. The balance at December 31, 2011 was \$43,523 and \$44,523 for June 30, 2012.

#### 5. Federal income tax:

We follow Accounting Standards Codification regarding Accounting for Income Taxes. Deferred income taxes reflect the net effect of (a) temporary difference between carrying amounts of assets and liabilities for financial purposes and the amounts used for income tax reporting purposes, and (b) net operating loss carryforwards. No net provision for refundable Federal income tax has been made in the accompanying statement of loss because no recoverable taxes were paid previously. Similarly, no deferred tax asset attributable to the net operating loss carryforward has been recognized, as it is not deemed likely to be realized.

The provision for refundable Federal income tax consists of the following:

#### 12. New accounting pronouncements:

In December 2010, the FASB issued updated guidance on when and how to perform certain steps of the periodic goodwill impairment test for public entities that may have reporting units with zero or negative carrying amounts. This guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2010, with early adoption prohibited. The adoption of this standard update did not impact the Company s consolidated financial statements.

In May 2011, the FASB issued guidance to amend certain measurement and disclosure requirements related to fair value measurements to improve consistency with international reporting standards. This guidance is effective prospectively for public entities for interim and annual reporting periods beginning after December 15, 2011, with early adoption by public entities prohibited. The Company is currently evaluating this guidance, but does not expect its adoption will have a material effect on its consolidated financial statements.

In June 2011, the FASB issued new guidance on the presentation of comprehensive income that will require a company to present components of net income and other comprehensive income in one continuous statement or in two separate, but consecutive statements. There are no changes to the components that are recognized in net income or other comprehensive income under current GAAP. This guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2011, with early adoption permitted. The Company is currently evaluating this guidance, but does not expect its adoption will have a material effect on its consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

#### Trends and Uncertainties

During 2008, we started generating revenue upon completion of the acquisition of OneWorld Hotel Destination Services, Inc. We acquired all of the common shares of OneWorld for 2,000,000 common shares and a promissory note. In addition, we are seeking to expand our revenue base by adding new customers and increasing our marketing and advertising.

Due to the recession in 2009, the registrant halted the plan to raise extra capital which is for the completion of the online hotel room reservation web site and the expansion of the Hotel booking business. The registrant decided to allocate the majority cash flow to maintain the operation of One World because of the recession in 2009. The officers and directors also agreed not to receive cash compensation for their management work in the registrant including the continuation of the development of the website in-house by the directors, the defraying of marketing, promotion and travel.

While the economy is gradually recovering today, One World currently generates sufficient cash flow to maintain its own daily operation. However, in order to realize effective marketing and promotion, the registrant will need to raise the addition capital through the sale of capital stock in the future. The use of funds would be rationed for marketing and promotion purposes, expansion of the OneWorld operation and working capital needs.

There are several known trends that are reasonably likely to have a material effect on our net sales or revenues alongside our income from continuing operations and profitability.

We expect to experience significant fluctuations in our future operating results due to a variety of factors, many of which are outside our control. Factors that may adversely affect our quarterly operating results include but are not limited to:

- Our ability to develop and complete the hotel booking website.
- Our ability to attract customer to use our web site and maintain user satisfaction;
- Our ability to attract hotel suppliers to provide their hotel rooms in our web site.
- Our ability to hire and train qualified personnel.
- Our ability to resolve any technical difficulties and system downtime or Internet disconnection.
- Governmental regulations on use of Internet as a tool to conduct business transaction.

- Change of customer s acceptance to use Internet to book hotel rooms.

We may also incur losses for the foreseeable future due to costs and expenses related to:

- The implementation of our hotel booking web site business model;
- Marketing and other promotional activities;
- Competition

21

- The continued development of our website;

| - High cost to maintain the hotel booking web site, and  |
|--|
| - Hiring and training new staff for customer services.   |
| We cannot be sure that we will be successful in addressing these risks and uncertainties and our failure to do so could have a materially adverse effect on our financial condition. In addition, our operating results are dependent to a large degree upon factors outside of our control. There are no assurances that we will be successful in addressing these risks, and failure to do so may adversely affect our business.                                       |
| Capital and Source of Liquidity.   |
| Prior to the acquisition of OneWorld, all of Globalink s operating capital had either been advanced by current shareholders or from proceeds for the issuance on common shares.  |
| For the six months ended June 30, 2012, Globalink received advances from shareholders of \$1,000. As a result, we had cash flows from financing activities of \$1,000 for the period. Comparatively, for the six months ended June 30, 2011, Globalink repaid advances from shareholders of \$15,540, resulting in cash flows used in financing activities of \$15,540. Globalink did not require as much money for operations this quarter due to decreased operations. |
| For the six months ended June 30, 2012, Globalink used \$45,240 for translation adjustments, resulting in \$45,240 used in investing activities for the period.  |
| Globalink did not pursue any investing activities for the six months ended June 30, 2011.  |
| Results of Operations  |
| For the three months ended June 30, 2012, Globalink received revenues of \$76,015. We had wages and salary expenses of \$64,923 and other administrative expenses of \$27,118. As a result, we had a deficit for the period of \$16,026.   |

Comparatively, for the three months ended June 30, 2011, Globalink received revenues of \$79,911. We had wages and salary expenses of \$60,632 and other administrative expenses of \$39,895. We had other income and expenses of \$23,788, resulting in a deficit for the period of \$44,404.

The \$28,378 decrease in the deficit between June 30, 2011 and June 30, 2012 came primarily from increased other expenses.

For the six months ended June 30, 2012, Globalink received revenues of \$182,742. We had wages and salary expenses of \$123,229 and other administrative expenses of \$56,840. As a result, we had income for the period of \$2,673.

Comparatively, for the six months ended June 30, 2011, Globalink received revenues of \$142,646. We had wages and salary expenses of \$112,826 and other administrative expenses of \$65,155. We had other expenses of \$6,242, resulting in a deficit for the period of \$41,577.

The \$44,250 difference between the six months ended June 30, 2011 and 2012 was a result of increased revenues for Globalink for the six months ended June 30, 2012.

We are currently working on the hotel booking website. The initial structure and preliminary functions are done. More work will be required before the site can be used and tested. Actual hotel listings will need to be incorporated.

Management expects sales and gross revenue will grow significantly over the current year volume after the web site is launched. We anticipate that it will not be a straight-line growth pattern but an exponential increase. This anticipation can be realized if we spend the necessary funds in promotion through internet advertising, radio and television clicks and news media advertising. On the whole, the more we direct funds into promotion, the bigger the increase in sales as a return.

In order to achieve our goal, the registrant may seek additional funds. The funds distribution to various sectors will depend on the actual funds raised and on the time needed to raise such sums. The larger portion of the raised funds will be allocated towards marketing and promotion.

Although there are signs of gradual stability, management believes that the affects of the recent economic crisis is a long ways from being over. However, our One World operation has been well-established over the past ten years that we are capable of continuously sustain our existence during the current crisis. We will survive under future crisis by maintaining a skeleton staff, reduce promotion and advertising to a bare minimum and management officers providing services temporarily en gratis.

Off-Balance Sheet Arrangements

Globalink had no material off-balance sheet arrangements as of March 31, 2012

**Contractual Obligations** 

Globalink has no material contractual obligations.

| New Accounting Pronouncements  |
|--|
| The registrant has adopted all recently issued accounting pronouncements. The adoption of the accounting pronouncements, including those not yet effective, is not anticipated to have a material effect on the financial position or results of operations of the registrant.   |
| Item 3. Quantitative and Qualitative Disclosures about Market Risk   |
| Not applicable for smaller reporting companies.  |
| Item 4. Controls and Procedures  |
| During the three months ended March 31, 2012, there were no changes in our internal controls over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.   |
| Evaluation of Disclosure Controls and Procedures   |
| Under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) and Rule 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended, as of March 31, 2012 |
| During the edgarization process, the incorrect footnotes to the financial statements were inserted into the Form 10-Qs   |

recently filed for the quarters ended June 30, 2010 and September 30, 2010. As a result, the registrant implemented

new review procedures to ensure the accuracy in the required filings.

Based on this evaluation, our chief executive officer and chief principal financial officers have concluded such controls and procedures were not effective as of March 31, 2012 to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Act is recorded, processed, summarized and reported, within the time periods specified in the Commission s rules and forms and to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is accumulated and communicated to the issuer s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.
