Edgar Filing: IMERGENT INC - Form 10-K/A

On June 28, 2002, our stockholders approved amendments to our Certificate of Incorporation to change our corporate name to "Imergent, Inc." and to effect a one-for-ten reverse split of the issued and outstanding shares of our common stock and reduce the authorized number of shares of common stock from 250,000,000 to 100,000,000. These changes were effected July 2, 2002. As a result of the reverse stock split, every ten shares of our existing common stock was converted into one share of our new common stock under our new name, Imergent, Inc. Fractional shares resulting from the reverse stock split were settled by cash payment. References herein to numbers of shares and prices of shares have been adjusted to reflect the reverse stock split.

Stock Option Plans

1998 Stock Option Plan for Senior Executives

In December 1998, the board of directors adopted, and our stockholders approved, the 1998 Stock Option Plan for Senior Executives. This plan provides for the grant of options to purchase up to 500,000 shares of common stock to our senior executives. Options may be either incentive stock options or non-qualified stock options under Federal tax laws.

The board of directors administers this plan. The board has appointed a plan administrator to address the day-to-day administration of this plan. The board determines, among other things, the individuals who will receive options, the time period during which the options may be partially or fully vested and exercisable, the number of shares of common stock issuable upon the exercise of each option and the option exercise price.

The exercise price per share of common stock subject to an incentive option may not be less than the fair market value per share of common stock on the date the option is granted. The per share exercise price of the common stock subject to a non-qualified option may be established by the compensation committee, but shall not be less than 50% of the fair market value per share of common stock on the date the option is granted. The aggregate fair market value of common stock for which any person may be granted incentive stock options which first become exercisable in any calendar year may not exceed \$100,000 on the date of grant.

No stock option may be transferred by an optionee other than by will or the laws of descent and distribution or, if permitted, pursuant to a qualified domestic relations order and, during the lifetime of the optionee, the option will be exercisable only by the optionee. In the event of termination of

Edgar Filing: IMERGENT INC - Form 10-K/A

employment by reason of death, disability or by us for cause, as defined in each optionee's employment agreement, the optionee will have no more than 365 days after such termination during which the optionee shall be entitled to exercise the vested options, unless otherwise determined by the board of directors. Upon termination of employment by us without cause or by the optionee for good reason, as defined in the optionee's employment agreement, the optionee's options remain exercisable to the extent the options were exercisable on the date of such termination until the expiration date of the options pursuant to the option agreement.

We may grant options under this plan within ten years from the effective date of the plan. The effective date of this plan is December 31, 1998. Holders of incentive stock options granted under this plan cannot exercise these options more than ten years from the date of grant. Payment of the exercise price may be made by (1) delivery of cash or a check, bank draft or money order, in United States dollars, payable to our order, (2) through delivery to us of shares of common stock already owned by the optionee with an aggregate fair market value on the date of exercise equal to the total exercise price, (3) by having shares with an aggregate fair market value on the date of exercise equal to the total exercise price (A) withheld by us or (B) sold by a broker-dealer under the circumstances meeting the requirements of 12 C.F.R. ss. 220 or any successor thereof, (4) by any combination of the above methods of payment or (5) by any other means determined by the board of directors. Therefore, if it is provided in an optionee's option agreement, the optionee may be able to tender shares of common stock to purchase additional shares of common stock and may theoretically exercise all of his stock options with no additional investment other than the purchase of his original shares.

Any unexercised options that expire or terminate upon an optionee's ceasing to be employed by us become available again for reissuance under this plan.

As of June 30, 2002, options exercisable for an aggregate of 91,563 shares of common stock were outstanding pursuant to this plan at a weighted average exercise price of \$28.40 per share.

1998 Stock Compensation Program

In July 1998, the board of directors adopted the 1998 Stock Compensation Program. Our stockholders approved the program in December 1998. This program provides for the grant of options to purchase up to 100,000 shares of common stock to officers, employees, directors and independent contractors and agents. Options may be either incentive stock options or non-qualified stock options under Federal tax laws.

The board of directors administers this program. The board has appointed a plan administrator to address the day-to-day administration of this plan. The board determines, among other things, the individuals who will receive options, the time period during which the options may be partially or fully vested and exercisable, the number of shares of common stock issuable upon the exercise of each option and the option exercise price.

The exercise price per share of common stock subject to an incentive option may not be less than the fair market value per share of common stock on the date the option is granted. The aggregate fair market value of common stock for which any person may be granted incentive stock options which first become exercisable in any calendar year may not exceed \$100,000 on the date of grant.

No stock option may be transferred by an optionee other than by will or the laws of descent and distribution or, if permitted, pursuant to a qualified domestic relations order and, during the lifetime of the optionee, the option will be exercisable only by the optionee. In the event of termination of

Edgar Filing: IMERGENT INC - Form 10-K/A

employment for reasons other than the death or disability of the optionee, the option shall terminate immediately; provided, however, that the board of directors may, in its sole discretion, allow the option to be exercised, to the extent exercisable on the date of termination of employment or service, at anytime within 60 days from the date of termination of employment or service. In the event of termination of employment by reason of the death or disability of the optionee, the option may be exercised, to the extent exercisable on the date of death or disability, within one year from such date.

We may grant options under this program within ten years from the effective date of the plan. The effective date of this program is July 31, 1998. Holders of incentive stock options granted under this program cannot exercise these options more than ten years from the date of grant. Payment of the exercise price may be made by (1) delivery of cash or a check, bank draft or money order, in United States dollars, payable to our order, (2) through delivery to us of shares of common stock already owned by the optionee with an aggregate fair market value on the date of exercise equal to the total exercise price, (3) by having shares with an aggregate fair market value on the date of exercise equal to the total exercise price (A) withheld by us or (B) sold by a broker-dealer under the circumstances meeting the requirements of 12 C.F.R. ss. 220 or any successor thereof, (4) by any combination of the above methods of payment or (5) by any other means determined by the board of directors. Therefore, if it is provided in an optionee's option agreement, the optionee may be able to tender shares of common stock to purchase additional shares of common stock and may theoretically exercise all of his stock options with no additional investment other than the purchase of his original shares.

Any unexercised options that expire or that terminate upon an optionee's ceasing to be employed by us become available again for reissuance under this program.

This program permits us to grant, in addition to incentive stock options and non-qualified stock options: (i) rights to purchase shares of our common stock to employees; (ii) restricted shares of our common stock; (iii) stock appreciation rights; and (iv) performance shares of common stock.

However, we have not issued any other type of compensation under this program other than non-qualified stock options and have agreed not to do so in the future.

As of June 30, 2002, options exercisable for an aggregate of 8,432 shares of common stock were outstanding pursuant to this program at a weighted average exercise price of \$33.20 per share.

1999 Stock Option Plan For Non-Executives

In July 1999, the board of directors adopted the 1999 Stock Option Plan for Non-Executives. This plan was approved by our stockholders in May 2000. This plan is administered by the compensation committee of the board of directors. The compensation committee has appointed a plan administrator to address the day-to-day administration of this plan. The compensation committee determines, among other things, the individuals who will receive options, the time period during which the options may be partially or fully vested and exercisable, the number of shares of common stock issuable upon the exercise of each option and the option exercise price.

The exercise price per share of common stock subject to an option is determined on the date of grant, and is generally fixed at 100% of the fair market value per share at the time of grant. The exercise price of any option granted to an optionee who owns stock possessing more than 10% of the voting power of our outstanding capital stock must equal at least 110% of the fair market value of the common stock on the date of grant. Payment of the exercise

Edgar Filing: IMERGENT INC - Form 10-K/A

price may be made by (1) delivery of cash or a check, bank draft or money order in United States dollars, payable to our order, (2) through delivery to us of shares of common stock already owned by the optionee with an aggregate fair market value on the date of exercise equal to the total exercise price (3) by having shares with an aggregate fair market value on the date of exercise equal to the total exercise price (A) withheld by us or (B) sold by a broker-dealer under circumstances meeting the requirements of 12 C.F.R. ss. 220 or any successor thereof, (4) by any combination of the above methods of payment or (5) by any other means determined by the board of directors.

Options granted to employees under the 1999 Stock Option Plan for Non-Executives generally become exercisable in increments, based on the optionee's continued employment with us, over a period of up to three years. The form of option agreement generally provides that options granted under the 1999 Stock Option Plan for Non-Executives is not transferable by the optionee, other than by will or the laws of descent and distribution, and are exercisable during the optionee's lifetime only by the optionee. In the event of termination of employment for reasons other than the death or disability of the optionee, the option shall terminate immediately; provided, however, that the board of directors may, in its sole discretion, allow the option to be exercised, to the extent exercisable on the date of termination of employment or service, at anytime within 60 days from the date of termination of employment or service. In the event of termination of employment by reason of the death or disability of the optionee, the option may be exercised, to the extent exercisable on the date of death or disability, within one year from such date. Generally, in the event of our merger with or into another corporation or a sale of all or substantially all of our assets, all outstanding options under the 1999 Stock Option Plan for Non-Executives shall accelerate and become fully exercisable upon consummation of such merger or sale of assets.

The board may amend the 1999 Stock Option Plan for Non-Executives at any time or from time to time or may terminate the 1999 Stock Option Plan for Non-Executives without the approval of the stockholders, provided that stockholder approval is required for any amendment to the 1999 Stock Option Plan for Non-Executives requiring stockholder approval under applicable law as in effect at the time. However, no action by the board of directors or stockholders may alter or impair any option previously granted under the 1999 Stock Option Plan for Non-Executives. The board may accelerate the exercisability of any option or waive any condition or restriction pertaining to such option at any time.

Any unexercised options that expire or that terminate upon an optionee's ceasing to be employed by us become available for reissuance under this plan.

In May 2000, our stockholders approved an amendment to this plan to increase the number of shares available for grant under the plan from 200,000 to 500,000.

As of June 30, 2002, options exercisable for an aggregate of 74,660 shares of common stock were outstanding pursuant to this plan at a weighted average exercise price of \$33.50.

Galaxy Enterprises Stock Option Plan

Pursuant to the terms of the merger with Galaxy Enterprises, each outstanding option to purchase shares of Galaxy Enterprises common stock under Galaxy Enterprises' 1997 Employee Stock Option Plan was assumed by us, whether or not vested and exercisable. We assumed options exercisable for an aggregate of 166,582 shares of common stock of Galaxy Enterprises.

Each Galaxy Enterprises stock option and warrant we assumed is subject

Edgar Filing: IMERGENT INC - Form 10-K/A

to the same terms and conditions that were applicable to the stock option or warrant immediately prior to the merger, except that:

- o each Galaxy Enterprises stock option will be exercisable for shares of our common stock and the number of shares of our common stock issuable upon exercise of any given option or warrant will be determined by multiplying 0.63843 by the number of shares of Galaxy Enterprises common stock underlying such option or warrant; and
- o the per share exercise price of any such option or warrant will be determined by dividing the exercise price of the option immediately prior to the effective time of the merger by 0.63843.

As at June 30, 2002, outstanding options assumed in the Galaxy merger were exercisable for 44,373 shares of our common stock.

Compensation Committee Interlocks and Insider Participation

During fiscal 2002, membership of the compensation committee was comprised of the full board of directors. No interlocking relationships exist between our compensation committee and the board of directors or compensation committee of any other company, nor has any such interlocking relationship existed in the past. There are no interlocking relationships between us and other entities that might affect the determination of the compensation of our directors and executive officers.

Limitation of Liability and Indemnification Matters

Our certificate of incorporation and/or bylaws include provisions to (1) indemnify the directors and officers to the fullest extent permitted by the Delaware General Corporation Law including circumstances under which indemnification is otherwise discretionary and (2) eliminate the personal liability of directors and officers for monetary damages resulting from breaches of their fiduciary duty, except for liability for breaches of the duty of loyalty, acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, violations under Section 174 of the Delaware General Corporation Law or for any transaction from which the director derived an improper personal benefit. We believe that these provisions are necessary to attract and retain qualified directors and officers.

We have directors and officers liability insurance in an amount of not less than \$2.0 million. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons pursuant to the foregoing provisions or otherwise, we have been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Director Compensation

None of our current directors are awarded stock options or are compensated for their services as directors, but Mr. Poelman and Mr. Lewis are compensated as officers of our company and have been granted stock options in this capacity. All directors are reimbursed for reasonable expenses incurred in connection with attending meetings of the board of directors.

(1) Reflects warrants or options that will be exercisable or vested, as the case may be, as of October 18, 2002 or within 60 days thereafter.

(2) Beneficial ownership is determined in accordance with the rules of the SEC. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, shares of common stock subject to options held by that person that are currently exercisable or become exercisable within 60 days following October 18, 2002 are deemed outstanding. These shares, however, are not deemed outstanding for the purpose of computing the percentage ownership of any other person. Item 13. Certain Relationships and Related Transactions

During the fiscal year ended June 30, 2002 we derived approximately \$5,100,000, or 14%, of our total revenues, from the sale to our customers of a product which allows the customer to accept credit card payments for goods and services sold by them through their website. In the past, we have experienced difficulty in maintaining the arrangements that allow us to offer this product to our customers and have experienced difficulty in establishing such a product

for resale at our workshops held outside the United States. In addition, from time to time, credit card issuing organizations make changes that affect this product which could negatively impact, or preclude, our offering this product for sale in the United States in its present form. We presently obtain this product for resale from Electronic Commerce International, Inc. ("ECI"), the sole shareholder of which was John J. Poelman, our chief executive officer and one of our directors and stockholders, who, effective October 1, 2002, sold his interest in ECI to an unrelated third party. Were we to lose our access to this product or if its cost increases our business would be severely and negatively impacted and were we not to be able to obtain a comparable product for resale outside the United States our ability to successfully execute our international expansion would be compromised.

Total revenue generated by us from the sale of ECI merchant account solutions was \$5,106,494, \$6,403,478 and \$2,412,800 for the years ended June 30, 2002, 2001 and 2000, respectively. The cost to us for these products and services totaled \$994,043, \$975,257 and \$1,110,404 for the years ended June 30, 2002, 2001 and 2000, respectively. During the years ended June 30, 2002, 2001 and 2000, we processed leasing transactions for customers through ECI in the amounts of \$1,090,520, \$3,386,231, and \$2,450,292, respectively. As of June 30, 2002 and 2001, we had a receivable from ECI for leases in process of \$0 and \$90,109, respectively. In addition, we have \$26,702 and \$516,858 recorded in accounts payable as of June 30, 2002 and 2001, respectively, relating to the amounts owed to ECI for the purchase of its merchant account product.

On August 1, 2001, we entered into an agreement with ECI, pursuant to which, among other matters, we agreed to issue ECI a total of 83,192 shares of our common stock at a price of \$3.00 per share in exchange for the release by ECI of trade claims against us totaling \$249,575.

We offer our customers at our Internet training workshops, and through backend telemarketing sales, certain products intended to assist the customer in being successful with their business. These products include live chat and web traffic building services. We utilize Electronic Marketing Services, LLC. ("EMS") to fulfill these services to our customers. In addition, EMS provides telemarketing services, selling some of our products and services to those who do not purchase at our workshops and to other leads. Ryan Poelman, who owns EMS, is the son of John J. Poelman, Chief Executive Officer, a director and a stockholder of the Company. Our revenues realized from the above products and services were \$4,806,497, \$1,263,793 and \$0 for the years ended June 30, 2002, 2001 and 2000, respectively. We paid EMS \$479,984, \$78,435, and \$0 to fulfill these services during the years ended June 30, 2002, 2001 and 2000, respectively.

During our fiscal year ended June 30, 2002 we sold unregistered common stock to qualified investors in a private placement that closed during May 2002. The stock was sold at a price of \$.40 per share. Our officers and directors purchased stock in that sale as follows: Mr. Danks 225,000 shares; Mr. Poelman 200,000 shares; Mr. Lewis 200,000 shares; Mr. Heyman 100,000 shares; Mr. Wise 100,000 shares; and Mr. Rosenvall 100,000 shares. We loaned Messrs. Wise and Rosenvall \$20,000 each to assist in their participation in the private placement. Their full-recourse promissory notes carried interest at 5% and a repayment schedule of 24 months. Mr. Wise has repaid his loan, and Mr. Rosenvall is current in making the required monthly payments.

We engaged vFinance Investments, Inc. ("vFinance") as a financial advisor and placement agent for our private placement of unregistered securities that closed during May 2002. Shelly Singhal a former member of the Company's Board of Directors was a principal of vFinance at the time of the private placement. During the year ended June 30, 2002 the company paid vFinance \$61,500 in fees and commissions for their services. The offering was successful with adjusted gross proceeds to the Company of \$2,185,995.

We engaged SBI-E2 Capital USA Ltd. ("SBI") as a financial consultant to provide us with various financial services. Shelly Singhal a former member of the Company's Board of Directors is a managing director of SBI. During the year ended June 30, 2002 SBI provided us with a Fairness Opinion relating to our proposed merger with Category 5 Technologies, for which we paid \$67,437, and additional \$85,000 is still payable to SBI for that opinion as of June 30, 2002.

We also paid SBI \$58,679 for expenses and commissions relating to our private placement of unregistered securities that closed during November 2001. The offering was successful with adjusted gross proceeds to us of \$2,803,466.

Pursuant to an agreement dated February 15, 2002, SBI also rendered certain financial advisory services to us in connection with our private placement that closed in May 2002, including delivery of a fairness opinion with respect to such private placement. Pursuant to this agreement, we paid SBI a total of \$40,000 and issued to SBI and various of its designees an aggregate of 112,500 shares of our common stock.

During the 12 months ended June 30, 2001, we issued 12,500 warrants to Shelly Singhal for non-director services rendered. The warrants were valued at \$40,657.
