Matsushita Revises Previous Earnings Forecast for Full Fiscal Year 2003

- To Reflect Aggravated Stock Market and Taxation Changes -

Matsushita Electric Industrial Co., Ltd. (NYSE and PCX symbol: MC) today announced a downward revision of its forecast made on February 20, 2003 for pre-tax and net income for the full fiscal year ended March 31, 2003 (fiscal 2003), without changing its forecasts for sales and operating profit.*

Consolidated forecast

In today's announcement, Matsushita said that full year sales and operating profit, currently in the compilation process, would have been in line with the forecast made in February, citing the positive effects of various management initiatives over the past year, such as the aggressive introduction of competitive V-products, business and organizational restructuring and inventory and other asset reduction efforts. In the February forecast, the company announced that annual consolidated sales were expected to increase 6% to about 7,300.0 billion yen, with consolidated operating profit achieving a turnaround from the year-earlier operating loss.

At the pre-tax and net income levels, however, the company has revised its full-year forecast. At the pre-tax level, the revision reflects losses of approximately 37.0 billion yen incurred at the end of fiscal 2003 on valuation of investment securities, mainly bank stocks, due to aggravated stock market conditions in Japan. As a factor affecting the net income forecast, in late March, the Japanese legislature passed a proposed revision of tax laws to lower local enterprise income

taxes in light of a new pro-forma standard taxation system. The revised net income forecast reflects additional losses of approximately 27.0 billion yen, mainly including adjustments of net deferred tax assets that have been necessitated by the revision of the local tax law.

* *In order to be consistent with generally accepted financial reporting practices in Japan, operating profit is calculated as net sales less cost of sales and selling, general and administrative expenses.*

Table of Contents

- 2 -

The revised forecast for annual consolidated income before income taxes is now approximately 59.5 billion yen, down from the previous forecast of 96.0 billion yen, but still a substantial improvement from the pre-tax loss of 548.0 billion yen in the previous fiscal year. Consolidated net income for the fiscal year is now expected to turn to a loss of about 23.5 billion yen, in place of the previous forecast of a net income of 25.0 billion yen, improving from a net loss of 431.0 billion yen a year ago. The company stated that the revised earnings forecasts will have no material effect on the company's cash flows.

Non-consolidated parent-alone forecast

On a non-consolidated, parent company-alone basis, forecasts for sales and recurring profit remain unchanged at 4,160.0 billion yen (up 7% from the previous year) and 78.0 billion yen (a turnaround from the recurring loss a year ago), respectively. However, for primarily the same reasons as those given for the revision of the consolidated forecasts, parent-alone net income for fiscal 2003 is now expected to be approximately 27.0 billion yen (also a turnaround from a net loss a year ago), compared with the February forecast of 55.0 billion yen.

Matsushita also reaffirmed its intention to distribute a year-end cash dividend of 6.25 yen per common share, payable to shareholders of record as of March 31, 2003.

Matsushita Electric Industrial Co., Ltd. is one of the world's leading producers of electronic and electric products for consumer, business and industrial use, which it markets around the world under the Panasonic, National, Technics and Quasar brand names. Matsushita's shares are listed on the Tokyo, Osaka, Nagoya, Fukuoka, Sapporo, New York, Pacific, Euronext Amsterdam, Euronext Paris, Frankfurt and Dusseldorf stock exchanges. Disclaimer Regarding Forward-Looking Statements

This press release includes forward-looking statements (within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934) about Matsushita and its group companies (the Matsushita Group). To the extent that statements in this press release do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Matsushita Group in light of the information currently available to them, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Matsushita Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Matsushita undertakes no obligation to publicly update any forward-looking statements after the date of this press release. Investors are advised to consult any further disclosures by Matsushita in its subsequent filings with the U.S. Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the United States, Europe, Japan and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; currency rate fluctuations, notably between the yen, the U.S. dollar, the euro, Asian currencies and other currencies in which the Matsushita Group operates businesses, or in which assets and liabilities of the Matsushita Group are denominated; the ability of the Matsushita Group to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the ability of the Matsushita Group to realize expected benefits of various restructuring activities in its business and organization currently in progress; the ability of the Matsushita Group to achieve its business objectives through joint ventures and other collaborative agreements with other companies; the ability of the Matsushita Group to maintain competitive strength in many product and geographical areas; any changes in the Matsushita Group's financial and operational position or business environment due to its business restructuring; current and potential, direct and indirect trade restrictions imposed by other countries; and fluctuations in market prices of securities and other assets in which the Matsushita Group has holdings; as well as future changes or revisions to accounting policies or accounting rules.

Matsushita Electric to Strengthen Global Brand Strategy

by Focusing on Its Panasonic Brand Name

Introducing a new brand slogan: Panasonic ideas for life

Osaka, Japan Matsushita Electric Industrial Co., Ltd., known for its Panasonic and National brand names, announced today that the company would position Panasonic as its main global brand in order to strengthen brand competitiveness worldwide. A new global brand campaign will be launched with a new brand slogan "Panasonic ideas for life" which reflects the customer-focused strategy behind the development of Panasonic products. The slogan will be incorporated in all of the company's corporate communications and advertising messages worldwide.

The change in brand strategy comes from the company's strong needs to consolidate its brand communication efforts under the "Panasonic" brand which covers over 90% of sales outside Japan. The brand slogan "Panasonic ideas for life" represents the commitment of all the employees, from R&D and manufacturing to marketing and services, to supplying products and services based on valuable ideas which can enrich people's lives and advance the society.

Matsushita Electric adopted the brand name "National" in Japan in 1927 at the initiative of the founder Konosuke Matsushita. The "National" brand name became a very popular household name in Japan and was also increasingly used in overseas markets. The "Panasonic" brand was first introduced in 1961 in the U.S. where the "National" brand name had been registered by others and therefore, could not be used. Building on the successful brand recognition of "Panasonic" in the U.S., the company started using the "Panasonic" brand name in Europe in 1979 and in other regions in the late 80's for products other than home appliances for which "National" brand name continued to be used.

Under the new global brand strategy, the brand name for all home appliance products in Southeast Asia, the Middle East and China will be changed to "Panasonic" from "National" by the end of March 2004. The "National" brand will, however, continue to be used in Japan where the brand was originally born.

Matsushita Announces New Group Management System

Matsushita Electric Industrial Co., Ltd. (MEI [NYSE and PCX symbol: MC]), best known for its Panasonic brand products, today announced that it will implement a new Group management system, while also strengthening its corporate governance structure.

Following business and organizational restructuring that took effect beginning from January 2003, MEI has introduced various Group management reforms, such as the implementation of autonomous management in each business domain, and the introduction, at all business domain companies, of a global consolidated management system and new evaluation standards for business results.

Over the years, MEI has also been proactive in strengthening its corporate governance, in line with its basic philosophy of contributing to society as a public entity. As such, MEI was one of the first Japanese companies to include Outside Directors in its Board of Directors, and also established an Advisory Board.

With the start of autonomous management at each of the Matsushita Group's business domain companies in the current fiscal year, MEI will implement the following initiatives to expedite optimum management operations under the new Groupwide business and organizational structure.

1. Introduction of a new Group management system tailored to the Company's new organizational structure.
2. Establishment of MEI-specific corporate governance system.
3. Placement of greater emphasis on business results as evaluation standards, in the interest of shareholders. (the remuneration system for Directors and Executive Officers will be revised, linking compensation to capital cost management (CCM) and cash flows results.)

Table of Contents

- 2 -

1. Introduction of an Executive Officer System Tailored to Groupwide Domain-based Management

Under the Group's new operational structure, MEI will empower each of the business domain companies by delegating authority in order to realize autonomous management. At the same time, from the viewpoint of Groupwide corporate strategy, an Executive Officer System will be introduced to integrate the comprehensive strengths of all Group companies in Japan and overseas, as outlined below:

- A. From among the senior management at the Group's main business units, Executive Officers will be elected, each to assume responsibility as the Group's executive regarding execution of business.

Executive Officers will be given such titles as Senior Managing Executive Officer, Managing Executive Officer and Executive Officer, depending on the extent of responsibility and achievement of each individual.

- B. The Board of Directors of MEI will elect Executive Officers based on each candidate's achievements, abilities and caliber. Candidates will be chosen mainly from the senior management of business domain companies, such as internal divisional companies and subsidiaries, as well as from management personnel responsible for overseas subsidiaries and certain senior corporate staff who guide the direction of the Group pertaining to important business matters.
- C. To make clear the execution responsibility for each Executive Officer, the term of office will be one year.
- D. Executive Officers will be equal, in terms of rank and status, to members of the Board of Directors.
- E. The Managing Directors Meeting, an organization for consulting on corporate strategy issues, is currently comprised of only MEI Managing Directors and above. This will be reorganized, however, to include MEI Managing Directors and above, as well as Managing Executive Officers and above. This new meeting will be called the Group Managing Directors & Officers Meeting, with participation by top management from each major business domain company.

Table of Contents

- 3 -

2. Establishment of MEI-specific Corporate Governance System

In line with the domain-based autonomous management structure, MEI will realign the role and structure of its Board of Directors to enable swift and strategic decision-making, as well as optimum monitoring, on Groupwide matters.

- A. Upon delegating authority for business operations to Executive Officers, the Board of Directors of MEI will focus mainly on deciding corporate strategies and monitoring and supervising business domain companies, based on the new business performance evaluation standards, from an investor's point of view. This will clarify the supervisory responsibilities held by the Board of Directors, and the responsibilities for execution of business held by Executive Officers.
- B. However, given the diversified scope of MEI's business fields, the Company does not intend to completely isolate supervisory functions from execution functions, so that it may continue optimum decision-making and supervision based on actual situations and developments at operational fronts. Therefore, MEI will not change its policy of having management personnel, who are well-versed in day-to-day operations at operational fronts, participate in Board of Director meetings. To this end, the Board of Directors of MEI will be balanced in terms of the backgrounds of its members. MEI will choose persons with backgrounds in different areas, such as corporate strategy, management of domain companies critical to corporate strategy, and supervision related to general business matters. Outside Directors will continue to be included in the Board of Directors. Furthermore, members of the Board of Directors will be reduced in number.
- C. The terms of office for members of the Board of Directors will be shortened to one year, compared to the current two years, in order to clarify their responsibilities as Director, and allow for a dynamic Board of Directors organization.
- D. Representative Directors will be limited to Senior Managing Directors and above, thereby reducing the number of Directors with representative authority. (Currently, Representative Directors consist of Managing Directors and above.)

Table of Contents

- 4 -

3. New Remuneration System for Directors and Executive Officers

Members of the Board of Directors and Executive Officers, being equal in rank and status, will be evaluated based on the same criteria, specifically CCM and cash flows, the results of which will directly affect their compensation.

This new remuneration system is intended to achieve continuous growth and enhanced profitability on a long-term basis for the Group as a whole, while increasing shareholder value.

Furthermore, since the new system accomplishes the goal of increasing corporate value in the interest of shareholders, stock options for Directors and senior executives will be discontinued.

4. Strengthening of the Corporate Auditor System

MEI will further strengthen its corporate auditor system, pursuant to amendments to the Japanese Commercial Code regarding corporate auditors, which took effect in May 2002.

Specifically, to strengthen auditing functions at business domain companies, MEI will implement initiatives including the placing of full-time Senior Auditors at MEI internal divisional companies, and the establishment of a Group Auditors Meeting to promote collaboration with subsidiaries' corporate auditors.

5. Effective Date

The aforementioned changes will be implemented after the 96th Ordinary General Meeting of Shareholders of MEI, to be held in late June.

Disclaimer Regarding Forward-Looking Statements

This press release includes forward-looking statements (within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934) about Matsushita and its group companies (the Matsushita Group). To the extent that statements in this press release do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Matsushita Group in light of the information currently available to them, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Matsushita Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Matsushita undertakes no obligation to publicly update any forward-looking statements after the date of this press release. Investors are advised to consult any further disclosures by Matsushita in its subsequent filings with the U.S. Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the United States, Europe, Japan and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; currency rate fluctuations, notably between the yen, the U.S. dollar, the euro, Asian currencies and other currencies in which the Matsushita Group operates businesses, or in which assets and liabilities of the Matsushita Group are denominated; the ability of the Matsushita Group to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the ability of the Matsushita Group to realize expected benefits of various restructuring activities in its business and organization; the ability of the Matsushita Group to achieve its business objectives through joint ventures and other collaborative agreements with other companies; the ability of the Matsushita Group to maintain competitive strength in many product and geographical areas; current and potential, direct and indirect trade restrictions imposed by other countries; and fluctuations in market prices of securities and other assets in which the Matsushita Group has holdings; as well as future changes or revisions to accounting policies or accounting rules.

Matsushita Announces Proposed Change of Accounting Auditors

Matsushita Electric Industrial Co., Ltd. (NYSE and PCX symbol: MC), best known for its Panasonic brand products, today announced a proposed change of the accounting auditors which, as certified public accountants, conduct accounting audits for Matsushita, pursuant to Paragraph 1 of Article 193-2 of the Securities Exchange Law of Japan.

For this proposed change in accounting auditors, a resolution was adopted by the company's Board of Directors on April 22, 2003, and consented to by the Board of Corporate Auditors at its meeting held today. The proposed change will be submitted for, and subject to, approval at the company's ordinary general meeting of shareholders scheduled to be held in late June 2003.

1. Reason for change of accounting auditors

The term of Matsushita's current accounting auditors, Shin Nihon & Co., will expire at the conclusion of the ordinary general meeting of shareholders, scheduled to be held in late June. Furthermore, as part of reorganizations taking place in the international accounting industry, the division of Shin Nihon & Co. that has been responsible for auditing Matsushita's financial statements has split from Shin Nihon & Co., and formed a new firm, AZSA & Co. In order to substantially maintain Matsushita's current auditing structure, the company will propose the appointment of AZSA & Co. as its new accounting auditors.

2. New audit firm

Company name	: AZSA & Co.
Location of head office	: Kawara-machi, Chuo-ku, Osaka, Japan

3. Current audit firm

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

Company name : Shin Nihon & Co.
Location of head office : Azuchi-machi, Chuo-ku, Osaka, Japan

4. Effective date

The appointment of AZSA & Co. will take effect on the day of the ordinary general meeting of shareholders of MEI, scheduled to be held in late June 2003.

Note: AZSA & Co. is a member firm of KPMG International.

ANNOUNCEMENT OF FINANCIAL RESULTS

(Note: Dollar amounts for the most recent period have been translated for convenience at the rate of U.S.\$1.00 = 120 yen.)

MATSUSHITA REPORTS MARCH 2003 ANNUAL RESULTS

- Business Turns to Recovery on Increased Sales, Restructuring Effects -

Matsushita Electric Industrial Co., Ltd. (NYSE and PCX symbol: MC) today reported its annual financial results for the year ended March 31, 2003 (fiscal 2003).

Consolidated Results*

Consolidated group sales for fiscal 2003 were up 5% to 7,401.7 billion yen (U.S.\$61.68 billion), from 7,073.8 billion yen in the previous fiscal year. In explaining increased revenues, the company cited strong sales of new products, such as V-products, particularly in the areas of video and audio equipment within the AVC Networks category, and Components and Devices. Of the total, domestic sales increased 4% to 3,453.8 billion yen (\$28.78 billion), from 3,313.9 billion yen. Overseas sales also improved, up 5% to 3,947.9 billion yen (\$32.90 billion), from 3,759.9 billion yen a year ago. Excluding the effects of currency translation, overseas sales were up 4% from the previous year on a local currency basis.

The overall business environment in fiscal 2003 was characterized by persisting instability. In the domestic market, factors such as continuing deflationary trends, stagnant consumer spending and depressed capital investment impeded economic recovery. Overseas economies were negatively affected by slowed growth in the United States, and increased instability caused by the war in Iraq.

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

- * From this fiscal year (fiscal 2003), the company has included certain subsidiaries of Victor Company of Japan, Ltd. in its consolidated reporting. Consolidated results for fiscal 2002 have been restated retroactively. (see Notes to consolidated financial statements on pages 12-14)

Table of Contents

- 2 -

During this fiscal year, Matsushita carried out several groupwide initiatives to achieve a V-shaped recovery from the previous year's operating loss. Such initiatives included the introduction of competitive V-products that can gain the top share in high-volume markets and contribute to overall company performance. The company also implemented groupwide organizational restructuring, whereby a new business domain-based structure took effect from January 1, 2003. The new structure focuses on global consolidated management by each business domain company within the Matsushita group. In line with this new domain-based global consolidated management policy, Matsushita has included overseas subsidiaries of Victor Company of Japan, Ltd. in its consolidated reporting.

As a result of the aforementioned initiatives, Matsushita's business results marked gains, led by video and audio equipment of the AVC Networks category and products in the Components and Devices category. Furthermore, sales of Home Appliances achieved an upward turn from the previous year's negative growth.

Consolidated operating profit* for the year increased to 126.6 billion yen (\$1.06 billion), as compared with an operating loss in the previous year of 199.0 billion yen. Matsushita attributed this turnaround to sales increases achieved through the aggressive promotion of competitive new products, especially of V-products, and the favorable effects of business restructuring implemented in the previous fiscal year, which were more than sufficient in offsetting negative pressures on operating profit, such as increasingly severe global competition.

Regarding pretax income, the company also posted a substantial improvement, but incurred losses on valuation of investment securities, mainly bank stocks, due to aggravated stock market conditions in Japan. As a result, income before income taxes for fiscal 2003 was 68.9 billion yen (\$574 million), compared with a pretax loss of 537.8 billion yen a year ago.

* In regards to operating profit, see Notes to consolidated financial statements on pages 12-14.

Table of Contents

- 3 -

In late March 2003, the Japanese legislature passed a proposed revision of tax laws to lower local enterprise income taxes in light of a new pro-forma standard taxation system. As a result, the company recorded losses relating to adjustments of net deferred tax assets that have been necessitated by the revision of the local tax law. Accordingly, the company recorded a net loss of 19.5 billion yen (\$162 million), as compared with last year's net loss of 427.8 billion yen.

The company's consolidated annual net loss per common share for fiscal 2003 was 8.70 yen (\$0.07) on a diluted basis, compared with a net loss per common share of 206.09 yen on the same basis a year ago.

Consolidated Sales Breakdown by Product Category

The company's annual consolidated sales by major product category are summarized as follows:

AVC Networks

AVC Networks sales increased 4% to 4,396.1 billion yen (\$36.63 billion), from 4,236.4 billion yen in the previous year. Within this segment, sales of video and audio equipment increased 7% from a year ago. Despite slow sales of audio equipment in overseas markets, strong sales were recorded in PDP TVs, DVD recorders and other digital AV equipment.

In information and communications equipment, continued slow sales of hard disk drives (HDDs) and other PC peripheral equipment were offset by sales gains in car AVC equipment and strong overseas sales of cellular phones, resulting in a 1% increase in overall sales from the previous year.

Home Appliances

Sales of Home Appliances were up 3% to 1,210.2 billion yen (\$10.09 billion), compared with 1,178.2 billion yen in the previous year. This improvement was mainly due to domestic sales increases of HFC-free refrigerators, vacuum cleaners and microwave ovens, as well as overseas sales gains in air conditioners and refrigerators.

Table of Contents

- 4 -

Industrial Equipment

Sales of Industrial Equipment were 285.2 billion yen (\$2.38 billion), down 1% from 288.7 billion yen in the previous year. Within this segment, sales of factory automation equipment increased, but sales declines of other industrial-use equipment led to lower overall sales.

Components and Devices

Sales of Components and Devices increased 10% to 1,510.2 billion yen (\$12.59 billion), compared with 1,370.5 billion yen in the previous year. This improvement in sales was due mainly to strong sales of semiconductors, general components and other products in domestic and overseas markets.

Non-Consolidated (Parent Company Alone) Results

Parent-alone sales increased 9% to 4,237.8 billion yen, compared with 3,900.7 billion yen in the previous year, mainly attributable to solid sales in video and audio equipment within the AVC Networks category and Components and Devices.

Regarding parent-alone earnings, despite continuing downward pressure on prices, sales increases, in addition to cost reduction efforts and the positive results of business restructuring, resulted in an operating profit of 52.8 billion yen, compared with the previous year's operating loss of 92.9 billion yen. Recurring profit increased to 80.1 billion yen, from a recurring loss of 42.4 billion yen in the previous year. The parent company recorded a non-recurring profit of 52.2 billion yen, including a one-time profit related to an exemption from the future benefit obligation with respect to the substitutional portion of the Employees Pension Funds that the company operates on behalf of the Government. The parent company incurred non-recurring losses of 43.9 billion yen, due mainly to losses on valuation of investment securities. These factors, and an additional negative effect from adjustments of net deferred tax assets necessitated by the revision of the local tax laws, resulted in a parent-alone net income of 28.8 billion yen, compared with a net loss of 132.4 billion yen in the previous year.

Consolidated Financial Condition

On a consolidated basis, total assets as of March 31, 2003 were 7,834.7 billion yen, an increase of 66.2 billion yen from March 31, 2002. The main reason for this increase was 315.0 billion yen recorded in "Other assets" of the consolidated balance sheet as the total of goodwill and certain other accounts, a result of transforming 5 subsidiaries, including Matsushita Communication Industrial Co., Ltd., into wholly owned subsidiaries on October 1, 2002. Regarding operating assets, such as inventories and property, plant

and equipment, the company was successful in its streamlining efforts. Total inventories as of the end of fiscal 2003 was 783.3 billion yen, down 120.1 billion yen from a year ago. Investment in property, plant and equipment totaled 251.5 billion yen, a reduction of 21% from the prior year.

Proposed Year-end Dividend

Matsushita's Board of Directors today resolved to propose a year-end cash dividend of 6.25 yen per common share, for approval at the ordinary general meeting of shareholders to be held in late June 2003. This compares with the year-end dividend of 3.75 yen per common share paid last year. If implemented, total dividends for fiscal 2003, including an interim dividend of 6.25 yen per common share paid in December 2002, will be 12.50 yen per common share, as compared with 10.00 yen for the previous fiscal year.

Outlook for Fiscal Year 2004

For fiscal 2004, ending March 31, 2004, Matsushita expects continued weak economic conditions in Japan and the United States, compounded by the effects of the war in Iraq and the SARS outbreak, to result in a severe business environment. Given such an environment, Matsushita will make groupwide efforts toward enhanced earnings and increased cash flows by introducing a new lineup of competitive V-products, and implementing autonomous management at each domain company. Matsushita currently expects fiscal 2004 sales on a consolidated basis to increase by about 1% to approximately 7,450 billion yen. Consolidated operating profit* is expected to increase by about 18% to approximately 150 billion yen. Consolidated income before income taxes is anticipated to improve to approximately 120 billion yen, up 74%, and net income is expected to improve to approximately 30 billion yen, from a net loss in the past fiscal year.**

* Annual consolidated operating profit and consolidated income before income taxes for fiscal 2004 are currently forecasted to be about 150 billion yen and 120 billion yen, respectively. The difference represents estimated expenses of about 50 billion yen associated with business restructuring charges and income of about 20 billion yen from other non-operating items.

** For the first half of fiscal 2004, the company currently expects consolidated sales to decrease 3% from the same six-month period of last year, to approximately 3,500 billion yen, with income before income taxes increasing 8% to approximately 60 billion yen.

Table of Contents

- 6 -

On a parent company alone basis, sales in fiscal 2004 are expected to decrease by 8% to approximately 3,900 billion yen. Recurring profit, however, is projected to increase 21% to approximately 97 billion yen, and net income is forecast to increase 73% to approximately 50 billion yen.

Matsushita Electric Industrial Co., Ltd., best known for its Panasonic brand products, is one of the world's leading producers of electronic and electric products for consumer, business and industrial use. Matsushita's shares are listed on the Tokyo, Osaka, Nagoya, Fukuoka, Sapporo, New York, Pacific, Euronext Amsterdam, Euronext Paris, Frankfurt and Dusseldorf stock exchanges. For more information, visit the Matsushita web site at the following URL: <http://www.panasonic.co.jp/global/>

Disclaimer Regarding Forward-Looking Statements

This press release includes forward-looking statements (within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934) about Matsushita and its group companies (the Matsushita Group). To the extent that statements in this press release do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Matsushita Group in light of the information currently available to them, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Matsushita Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Matsushita undertakes no obligation to publicly update any forward-looking statements after the date of this press release. Investors are advised to consult any further disclosures by Matsushita in its subsequent filings with the U.S. Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the United States, Europe, Japan and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; currency rate fluctuations, notably between the yen, the U.S. dollar, the euro, Asian currencies and other currencies in which the Matsushita Group operates businesses, or in which assets and liabilities of the Matsushita Group are denominated; the ability of the Matsushita Group to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the ability of the Matsushita Group to realize expected benefits of various restructuring activities in its business and organization; the ability of the Matsushita Group to achieve its business objectives through joint ventures and other collaborative agreements with other companies; the ability of the Matsushita Group to maintain competitive strength in many product and geographical areas; current and potential, direct and indirect restrictions imposed by other countries over trade, manufacturing, labor and operations; and fluctuations in market prices of securities and other assets in which the Matsushita Group has holdings; as well as future changes or revisions to accounting policies or accounting rules.

Notes to consolidated financial statements:

1. The company's consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States (U.S.GAAP).
2. In order to be consistent with generally accepted financial reporting practices in Japan, operating profit (loss) is presented as net sales less cost of sales and selling, general and administrative expenses. The company believes that this is useful to investors in comparing the company's financial results with those of other Japanese companies. Please refer to the accompanying consolidated statement of income and note 8 below for U.S.GAAP reconciliation.
3. From this fiscal year (fiscal 2003), the company has included certain subsidiaries, primarily overseas subsidiaries, of Victor Company of Japan, Ltd. in its consolidated reporting, in line with the company's new domain-based, global consolidated management policy implemented through the groupwide business and organizational restructuring in January 2003. The financial statements for fiscal 2002 were restated retroactively.
4. From this fiscal year (fiscal 2003), the company has applied SFAS No.142, "*Goodwill and Other Intangible Assets*." This statement requires that goodwill and intangible assets that have indefinite useful lives no longer be amortized, but tested at least annually for impairment. Intangible assets that have estimable useful lives will continue to be amortized over their useful lives. The effects on net loss and basic and diluted net loss per common share for fiscal 2002, if SFAS No.142 had been applied a year ago are as follows:

	Fiscal 2002
	[in millions of yen]
Reported net income (loss)	(427,779)
Addition: goodwill amortization	7,190
Adjusted net income (loss)	(420,589)
	[in yen]
Reported net income (loss) per common share, basic	(206.09)
Addition: goodwill amortization	3.46
Adjusted net income (loss) per common share, basic	(202.63)
	[in yen]
Reported net income (loss) per common share, diluted	(206.09)
Addition: goodwill amortization	3.46
Adjusted net income (loss) per common share, diluted	(202.63)

5. From this fiscal year (fiscal 2003), the company has applied FASB's Emerging Issues Task Force (EITF) Issue 01-9, "*Accounting for Consideration Given by a Vendor to a Customer or a Reseller of the Vendor's Products.*" As a result, the company presents some considerations that were heretofore recorded in selling, general and administrative expenses as reductions of sales.

Table of Contents

- 13 -

6. Comprehensive income (loss) was reported as a loss of 570,552 million yen (\$4,755 million) for fiscal 2003, and a loss of 503,233 million yen for fiscal 2002. Comprehensive income (loss) includes net income (loss), increases (decreases) in cumulative translation adjustments, unrealized holding gains (losses) of available-for-sale securities, unrealized gains of certain derivative instruments and minimum pension liability adjustments.
7. On October 1, 2002, Matsushita Electric Industrial Co., Ltd. transformed Matsushita Communication Industrial Co., Ltd., Kyushu Matsushita Electric Co., Ltd., Matsushita Seiko Co., Ltd., Matsushita Kotobuki Electronics Industries, Ltd. and Matsushita Graphic Communication Systems, Inc. into wholly owned subsidiaries, based on share exchange agreements that were executed on April 26, 2002, for which the company has applied SFAS No.141, *Business combinations*. As a result of these share exchanges, the company recorded 315,046 million yen in "Other assets" in the consolidated balance sheet as the total of goodwill and certain other accounts on October 1, 2002.
8. "Restructuring charges" in the consolidated statement of income include expenses associated with the implementation of early retirement programs. "Other income (loss), net" for fiscal 2002 includes business restructuring expenses, such as impairment losses and other expenses associated with the closure or integration of several manufacturing facilities. Under accounting principles generally accepted in the United States, these charges are included as part of operating profit (loss) in the statement of income. "Other income (loss), net" for fiscal 2003 includes a gain on the sale of Panasonic Disc Services Corporation in the United States.
9. Due to revised Local enterprise income taxes law in light of a new pro-forma standard taxation system was promulgated on March 31, 2003, the company revaluated deferred tax assets and increased provision for income taxes by 22,317 million yen in consolidated statement of income.
10. Following the enactment of the Welfare Pension Insurance Law in Japan, Matsushita Electric Industrial Co., Ltd. and certain of its subsidiaries obtained approval, during the period between June and August last year, from Japan's Ministry of Health, Labour and Welfare for exemption from the future benefit obligation with respect to the portion of the Employees Pension Funds that the company and certain of its subsidiaries operated on behalf of the Government (so-called the "substitutional portion"). Under accounting principles generally accepted in the United States, the relevant one-time profit (loss) may be recognized only on the settlement of the substitutional portion when the company returns the past benefit obligation to the Government, which the company currently expects to occur during the year ending March 31, 2004.
11. Matsushita Electric Industrial Co., Ltd. and most of its subsidiaries maintain Employees Pension Funds and lump-sum retirement benefit payment plans as defined benefit plans. Effective April, 2002, the company and certain of its subsidiaries amended their lump-sum retirement benefit payment plans, introducing cash balance pension plans. Several overseas subsidiaries also maintain defined contribution plans.

Matsushita Group

1. Outline of the Matsushita Group

Described below are the Matsushita Group's primary business areas, roles of major Group companies in respective businesses and relations between major Group companies and business segments.

The Matsushita Group, mainly comprising Matsushita Electric Industrial Co., Ltd. and 383 consolidated subsidiaries, is engaged in manufacturing, sales, and service activities in a broad range of electric/electronic and related business areas, maintaining close ties among Group companies both in Japan and abroad. Matsushita supplies a full spectrum of electric/electronic equipment and related products, which has been categorized into the following four segments: AVC Networks, Home Appliances, Industrial Equipment, and Components and Devices.*

With the recent introduction of business domain-based management, from fiscal 2004, these segments will be reclassified as five new segments: AVC Networks, Home Appliances, Components and Devices, Victor Company of Japan, Ltd. and Other.

* For major product lines in each segment, please refer to "Details of Product Categories" on page 16.

Management Policy

(1) Basic Policy for Corporate Management

Since its establishment, Matsushita has operated its business under its basic management philosophy, which sets forth that the mission of a business enterprise is Contributing to the progress and development of society and the well-being of people through its business activities, thereby enhancing the quality of life throughout the world. Matsushita, as a public entity, is committed to its relationship with all stakeholders.

(2) Basic Policy for Profit Distribution

Management has focused on the interests of its shareholders ever since the company's establishment. Its share dividend policy is based on a consistent distribution of dividends. In addition, on commemorative occasions, the company has rewarded its shareholders with such means as dividend increases and stock splits.

(3) Company's Policy on Reduction of the Share Trading Unit Size

The amendments to the Japanese Commercial Code that took effect in October 2001 allow listed companies to reduce the number of shares per unit for trading (share trading unit) on stock markets in Japan. Matsushita has given careful consideration as to whether or not it should avail itself to this eased restriction, but as of today, the company believes it is too early to do so.

Recognizing the importance of increased participation in capital markets by individual investors, Matsushita, over the years, has implemented various measures with individual shareholders in mind. Some of these include enhancement of the company's investor relations website, more detailed business reports and improved shareholder meeting arrangements. Although Matsushita is aware that a reduction in the trading unit size is an effective method for broadening its individual shareholder base, the company would incur significant cost in doing so, while the benefits of such a measure have yet to be verified. Matsushita would consider a possible change in the trading unit size only at such time as the aforementioned advantages and benefits can be verified.

(4) Corporate Management Strategies and Challenges

With the continuing advances in digital networking, society is becoming increasingly complex. To enhance its contribution to society in this new era, Matsushita introduced its three-year management plan, Value Creation 21 in April 2001, aiming at transforming Matsushita into a Super Manufacturing Company for the 21st century through structural reforms for achieving a smile-curve-shaped profit structure. To this end, the company has been challenging to create new business models that are able to demonstrate the synergistic effects between the business segments of devices, finished products, and services. From fiscal 2004, the company will also focus on two business performance evaluation standards for each business domain company Capital Cost Management to

measure capital efficiency, and cash flows, which indicates the company's ability to generate cash. These standards are more closely related to those used by capital markets, and are intended to result in management that increases corporate value.

- 21 -

<Major Activities Undertaken in Fiscal 2003>

To bring about a rapid recovery in business results, Matsushita launched 88 V-products in fiscal 2003 as a driving force that can capture the No. 1 share in the high-volume markets and contribute to the company's overall performance. As a result of this Groupwide commitment, sales of V-products reached approximately 1 trillion yen, allowing us to achieve increased market share in many product categories. As an engine for overall corporate growth, overseas operations also recorded increased sales and achieved earnings increases in all regions. As for its operations in China in particular, Matsushita has proactively expanded its business in this rapidly-growing market, resulting in nearly a 50% increase in sales over the previous year. Throughout fiscal 2003, Matsushita worked on Groupwide business and organizational restructuring and management system reforms, aimed at accelerating corporate growth, as follows:

- In January 2003, Matsushita launched a new organizational structure to eliminate duplication of businesses among the Group companies and clarify business domains as strategic business units. Under this new structure, each business domain company will integrate its R&D, manufacturing and sales, thereby establishing an autonomous structure that expedites self-completive business operations to accelerate its growth.
- To prepare a framework that enables each business domain company to implement autonomously responsible management, Matsushita established a new global consolidated management system that focuses on cash flows. Under this new management system, each domain company aims to maximize cash flows through efforts to achieve a leaner balance sheet, attaining speedy management with accelerated asset turnover on a consolidated basis.

<Initiatives for Fiscal 2004>

1. V-products

V-products introduced last year have resulted in increased market share. For fiscal 2004, Matsushita has selected 90 new V-products that will surpass last year's models in both quality and quantity. It expects sales for these to reach approximately 1.2 trillion yen. To maximize opportunities in the worldwide market, Matsushita will utilize global simultaneous product introductions.

2. Overseas Strategy

Matsushita will take various initiatives to strengthen overseas operations, aiming at double-digit sales growth, and operating profit amounting to at least 60% of Matsushita's consolidated total. Specifically, the company will accelerate operations in China, aiming for a 1 trillion yen business on a Groupwide basis in fiscal 2006.

3. R&D Strategy

Through selection of key technology areas, Matsushita will accelerate strategic concentration of technological management resources, including development staff. By doing so, Matsushita will step up the development of black box technologies to set the company apart from the competition. Matsushita will leverage the benefits from these initiatives to increase our competitiveness and profitability.

Table of Contents

- 22 -

4. Global Brand Strategy

Matsushita will position the Panasonic brand as a globally unified brand for overseas markets under the slogan of "Panasonic ideas for life." The brand slogan represents the commitment of all the employees, from R&D and manufacturing to marketing and services, to supplying products and services with valued ideas, which can enrich people's lives and advance the society. In the context of this slogan, the company will devote itself to increasing its brand value.

In fiscal 2004, each business domain company will dynamically strengthen its management, under new management structures and systems. The company has set this year as its "second foundation year" to achieve a momentous progress in the Group's business performance, by establishing a line-up of strong businesses, aiming for attaining the position of Global No.1 in major business fields.

(5) Corporate Governance

Based on its basic philosophy of contributing to society as a public entity, Matsushita over the years has been committed to the enhancement of its corporate governance. As such, it was one of the first Japanese companies to invite outside directors on its Board of Directors and also established an Advisory Board comprised of distinguished outside leaders.

In fiscal 2004, Matsushita will implement further reforms to establish an optimum management and governance structure tailored to the Group's new business and organizational structure. Under the new structure, the Head Office will empower each of the business domain companies by delegating authority in order to expedite autonomous management. At the same time, an Executive Officer System, for execution of business at various domestic and overseas Group companies, will be introduced, enabling the Head Office to carry out corporate strategies that integrate the Group's comprehensive strengths. In addition, Matsushita will realign the role and structure of the Board of Directors to conduct swift and strategic decision-making, as well as optimum monitoring, on Groupwide matters. Specifically, the Board of Directors will concentrate on corporate strategies and supervision of business domain companies, as opposed to Executive Officers, who will have responsibilities relating to day-to-day operations. Furthermore, taking into consideration the diversified scope of Matsushita's business operations, the company will maintain a system where Executive Officers, who are most familiar with the specifics of respective operations, take an active part in the Board of Directors. At the same time, the Board of Directors itself will be reduced in number, with terms shortened to one year. While also strengthening the company's existing Corporate Auditors System, and through the aforementioned initiatives, Matsushita will continuously enhance the Group's corporate governance based on its management philosophy.

	% of sales	03/02	% of sales	04/03	
Sales	7,401.7	105%	7,450.0		101%
Operating profit	126.6	1.7%	150.0	2.0%	118%
Pretax income	68.9	0.9%	120.0	1.6%	174%
Net income (loss)	-19.5	-0.3%	30.0	0.4%	

Note: In order to be consistent with generally accepted financial reporting practices in Japan, operating profit (loss) is presented as net sales less cost of sales and selling, general and administrative expenses. The company believes that this is useful to investors in comparing the company's financial results with those of other Japanese companies. Under accounting principles generally accepted in the United States, restructuring charges are included as part of operating profit (loss) in the statement of income. The difference between consolidated operating profit and consolidated income before income taxes for fiscal 2003 financial results can be confirmed in the company's press release. The company's annual consolidated operating profit and consolidated income before income taxes for fiscal 2004 are currently forecasted to be about 150 billion yen and 120 billion yen, respectively. The difference represents estimated expenses of about 50 billion yen associated with restructuring charges and income of about 20 billion yen from other non-operating items.

Disclaimer Regarding Forward-Looking Statements

This press release includes forward-looking statements (within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934) about Matsushita and its group companies (the Matsushita Group). To the extent that statements in this press release do not relate to historical or current facts, they constitute forward-looking statements.

These forward-looking statements are based on the current assumptions and beliefs of the Matsushita Group in light of the information currently available to them, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Matsushita Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Matsushita undertakes no obligation to publicly update any forward-looking statements after the date of this press release. Investors are advised to consult any further disclosures by Matsushita in its subsequent filings with the U.S. Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the United States, Europe, Japan and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; currency rate fluctuations, notably between the yen, the U.S. dollar, the euro, Asian currencies and

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

other currencies in which the Matsushita Group operates businesses, or in which assets and liabilities of the Matsushita Group are denominated; the ability of the Matsushita Group to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the ability of the Matsushita Group to realize expected benefits of various restructuring activities in its business and organization; the ability of the Matsushita Group to maintain competitive strength in many product and geographical areas; current and potential, direct and indirect restrictions imposed by other countries over trade, manufacturing, labor and operations; and fluctuations in market prices of securities and other assets in which the Matsushita Group has holdings; as well as future changes or revisions to accounting policies or accounting rules.

Matsushita Electric Announces Planned Share Repurchase

Matsushita Electric Industrial Co., Ltd. (NYSE and PCX symbol: MC) announced that its Board of Directors today resolved to submit a proposal at the ordinary general meeting of shareholders, to be held in late June 2003, regarding the repurchase of the company's own shares in conformity with provisions of Article 210 of the Japanese Commercial Code. The company noted that this share repurchase is part of continuing efforts to enhance corporate value through shareholder-oriented management.

The details of the share repurchase, including aggregate number of repurchaseable shares and aggregate amount and period of repurchase, are as follows:

Details of Share Repurchase

1. Class of shares: Common stock
2. Aggregate number of repurchaseable shares: Up to 200 million shares
3. Aggregate repurchase amount: Up to 200 billion yen
4. Period of repurchase: Between late June 2003 and late June 2004

Reason for Share Repurchase

To enable flexible and agile capital management in a rapidly changing economic environment.

(Note)

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

The above share repurchase is subject to shareholder approval at the ordinary general meeting of shareholders, scheduled for late June 2003.
