DICK'S SPORTING GOODS, INC. AND SUBSIDIARIES  
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

Dick's Sporting Goods, Inc. (together with its subsidiaries, referred to as "the Company", "we", "us" and "our" unless specified otherwise) is a leading omni-channel sporting goods retailer offering an extensive assortment of authentic, high-quality sports equipment, apparel, footwear and accessories through a blend of dedicated associates, in-store services and unique specialty shop-in-shops. The Company also owns and operates Golf Galaxy, Field & Stream and other specialty concept stores as well as eCommerce websites at [www.DICKS.com](http://www.DICKS.com), [www.golfgalaxy.com](http://www.golfgalaxy.com), [www.fieldandstreamshop.com](http://www.fieldandstreamshop.com) and [www.caliastudio.com](http://www.caliastudio.com). When used in this Quarterly Report on Form 10-Q, unless the context otherwise requires or otherwise specifies, any reference to "year" is to the Company's fiscal year.

The accompanying unaudited consolidated financial statements have been prepared in accordance with the requirements for Quarterly Reports on Form 10-Q and do not include all the disclosures normally required in annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The interim consolidated financial statements are unaudited and have been prepared on the same basis as the annual audited consolidated financial statements. In the opinion of management, such unaudited consolidated financial statements include all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of the interim financial information. This unaudited interim financial information should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended January 30, 2016 as filed with the Securities and Exchange Commission on March 25, 2016. Operating results for the 13 and 26 weeks ended July 30, 2016 are not necessarily indicative of the results that may be expected for the fiscal year ending January 28, 2017 or any other period.

Recently Issued Accounting Pronouncements

Stock Compensation

In March 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-09, "Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting". This update simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities and classification on the statement of cash flows. ASU 2016-09 is effective for annual reporting periods, and interim periods therein, beginning after December 15, 2016, with early application permitted. If early adopted, an entity must adopt all of the amendments during the same period. The Company is currently evaluating the impact of the adoption of ASU 2016-09 on the Company's Consolidated Financial Statements.

Leases

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)". This update requires an entity to recognize lease assets and lease liabilities on the balance sheet and to disclose key information about the entity's leasing arrangements. ASU 2016-02 is effective for annual reporting periods, and interim periods therein, beginning after December 15, 2018, with early application permitted. A modified retrospective approach is required. The Company is currently evaluating the impact of the adoption of ASU 2016-02 on the Company's Consolidated Financial Statements.

Measurement of Inventory

In July 2015, the FASB issued ASU 2015-11, "Simplifying the Measurement of Inventory". This update requires an entity that determines the cost of inventory by methods other than last-in, first-out (LIFO) and the retail inventory method (RIM) to measure inventory at the lower of cost and net realizable value. ASU 2015-11 is effective for annual reporting periods, and interim periods therein, beginning after December 15, 2016. Prospective application is required. Early application is permitted as of the beginning of the interim or annual reporting period. The Company does not expect that the adoption of this guidance will have a significant impact on the Company's Consolidated Financial Statements.

Contracts with Customers

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers". This update requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Additionally, the update (1) specifies the accounting for some costs to obtain or fulfill a contract with a customer and (2) expands disclosure requirements related to revenue and cash flows arising from contracts with customers. In August 2015, the FASB subsequently issued ASU 2015-14, "Revenue from Contracts with Customers - Deferral of the Effective Date", which approved a one year deferral of ASU 2014-09 for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period.

In March 2016 and April 2016, the FASB issued ASU 2016-08, "Revenue from Contracts with Customers - Principal versus Agent Considerations (Reporting Revenue Gross versus Net)", and ASU 2016-10, "Revenue from Contracts with Customers - Identifying Performance Obligations and Licensing", respectively, which further clarify the guidance related to those specific topics within ASU 2014-09. In May 2016, the FASB issued ASU 2016-12, "Revenue from Contracts with Customers - Narrow Scope Improvements and Practical Expedients", to reduce the risk of diversity in practice for certain aspects in ASU 2014-09, including collectibility, noncash consideration, presentation of sales tax and transition. These updates permit the use of either the retrospective or cumulative effect transition method. Early application is permitted as of the original effective date for annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company is currently evaluating which transition approach it will utilize and the impact these standards will have on the Company's Consolidated Financial Statements upon adoption.

Reclassifications

Certain reclassifications have been made to prior year amounts for the period ended August 1, 2015 within the Consolidated Balance Sheets to conform to current year presentation.

2. Store Closings

The calculation of accrued store closing and relocation reserves primarily includes future minimum lease payments, maintenance costs and taxes from the date of closure or relocation to the end of the remaining lease term, net of contractual or estimated sublease income. The liability is discounted using a credit-adjusted risk-free rate of interest. The assumptions used in the calculation of the accrued store closing and relocation reserves are evaluated each quarter.

The following table summarizes the activity in fiscal 2016 and 2015 (in thousands):

	26 Weeks Ended	
	July 30, 2016	August 1, 2015
Accrued store closing and relocation reserves, beginning of period	\$11,702	\$12,785
Expense charged to earnings	852	1,066
Cash payments	(2,815 )	(2,230 )
Interest accretion and other changes in assumptions	(456 )	27
Accrued store closing and relocation reserves, end of period	9,283	11,648
Less: current portion of accrued store closing and relocation reserves	(3,483 )	(3,713 )
Long-term portion of accrued store closing and relocation reserves	\$5,800	\$7,935

### 3. Earnings Per Common Share

Basic earnings per common share is computed based on the weighted average number of shares of common stock outstanding during the period. Diluted earnings per common share is computed based on the weighted average number of shares of common stock outstanding, plus the effect of dilutive potential common shares outstanding during the period, using the treasury stock method. Dilutive potential common shares are stock-based awards, which include outstanding stock options, restricted stock and warrants.

#### 4. Fair Value Measurements

Accounting Standard Codification ("ASC") 820, "Fair Value Measurement and Disclosures", outlines a valuation framework and creates a fair value hierarchy for assets and liabilities as follows:

Level 1: Observable inputs such as quoted prices in active markets;

Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Assets measured at fair value on a recurring basis as of July 30, 2016 and January 30, 2016 are set forth in the table below (in thousands):

Description	Level 1	
	July 30, 2016	January 30, 2016
Assets:		
Deferred compensation plan assets held in trust <sup>(1)</sup>	\$61,845	\$ 53,040
Total assets	\$61,845	\$ 53,040

- (1) Consists of investments in various mutual funds made by eligible individuals as part of the Company's deferred compensation plans.

The fair value of cash and cash equivalents, accounts receivable, accounts payable, revolving credit borrowings and certain other liabilities approximated book value due to the short-term nature of these instruments at both July 30, 2016 and January 30, 2016.

The Company uses quoted prices in active markets to determine the fair value of the aforementioned assets determined to be Level 1 instruments. The Company's policy for recognition of transfers between levels of the fair value hierarchy is to recognize any transfer at the end of the fiscal quarter in which the determination to transfer was made. The Company did not transfer any assets or liabilities among the levels within the fair value hierarchy during the 26 weeks ended July 30, 2016 or the fiscal year ended January 30, 2016. Additionally, the Company did not hold any Level 2 or Level 3 assets or liabilities during the 26 weeks ended July 30, 2016 or the fiscal year ended January 30, 2016.

5. Intangible Assets

On July 20, 2016, the Company purchased intellectual property assets of The Sports Authority ("TSA") along with the right to acquire 31 TSA store leases for \$21.3 million. The TSA intellectual property assets, which include the name "The Sports Authority", TSA's domain names, TSA's owned trademarks and customer information, and lease designation rights are finite-lived intangible assets and will be amortized over each asset's designated useful life.

6. Subsequent Event

Dividend - On August 11, 2016, the Company's Board of Directors authorized and declared a quarterly cash dividend in the amount of \$0.15125 per share of common stock and Class B common stock payable on September 30, 2016 to stockholders of record as of the close of business on September 9, 2016.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

We caution that any forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995) contained in this Quarterly Report on Form 10-Q or made by our management involve risks and uncertainties and are subject to change based on various important factors, many of which may be beyond our control. Accordingly, our future performance and financial results may differ materially from those expressed or implied in any such forward-looking statements. Investors should not place undue reliance on forward-looking statements as a prediction of actual results. These statements can be identified as those that may predict, forecast, indicate or imply future results, performance or advancements and by forward-looking words such as "believe", "anticipate", "expect", "estimate", "predict", "intend", "plan", "project", "goal", "will", "will be", "will continue", "will result", "could", "may", "might" or any variations of such words or other words with similar meanings. Forward-looking statements address, among other things, our expectations, our growth strategies, including our plans to open new stores and develop our own eCommerce platform, our efforts to increase profit margins and return on invested capital, plans to grow our private brand business, projections of our future profitability, results of operations, capital expenditures, plans to return capital to stockholders through dividends or share repurchases, or our financial condition.

The following factors, among others, in some cases have affected and in the future could affect our financial performance and actual results, and could cause actual results for fiscal 2016 and beyond to differ materially from those expressed or implied in any forward-looking statements included in this Quarterly Report on Form 10-Q or otherwise made by our management:

The dependence of our business on consumer discretionary spending;

Intense competition in the sporting goods industry and in retail;

Our ability to predict or effectively react to changes in consumer demand or shopping patterns;

Lack of available retail store sites on terms acceptable to us, rising real estate prices and other costs and risks relating to a brick and mortar retail store model;

Omni-channel growth and our continued development of an eCommerce platform;

Unauthorized disclosure of sensitive or confidential customer information;

Risks associated with our private brand offerings and new retail concept stores;

Disruption of or other problems with the services provided by our primary eCommerce services provider;

Our ability to access adequate capital to operate and expand our business and to respond to changing business and economic conditions;

Table of Contents

Risks and costs relating to changing laws and regulations affecting our business, including consumer products, firearms and ammunition, data protection and privacy;

Our relationships with our vendors or disruptions in our or our vendors' supply chains, which could be caused by foreign trade issues, currency exchange rate fluctuations, increasing prices for raw materials or foreign political instability;

Litigation risks for which we may not have sufficient insurance or other coverage;

Product costs being adversely affected by foreign trade issues, currency exchange rate fluctuations, increasing prices for raw materials, political instability or other reasons;

Our ability to attract, train, engage and retain qualified leaders and associates and the loss of Mr. Edward Stack as our Chairman and Chief Executive Officer;

Our ability to secure and protect our trademarks and other intellectual property and defend claims of intellectual property infringement;

Disruption of or other problems with our information systems;

Disruption at our distribution facilities;

Wage increases, which could adversely affect our financial results;

Performance of professional sports teams, professional team lockouts or strikes, retirement or scandal involving sports superstars;

The seasonality of our business, as well as the current geographic concentration of Dick's Sporting Goods stores;

Our pursuit of strategic investments or acquisitions, including costs and uncertainties associated with combining businesses and / or assimilating acquired companies;

We are controlled by our Chairman and Chief Executive Officer and his relatives, whose interests may differ from those of our other stockholders;

Our current anti-takeover provisions, which could prevent or delay a change in control of the Company; and

Our current intention to issue quarterly cash dividends, and our repurchase activity, if any, pursuant to our share repurchase program.

The foregoing and additional risk factors are described in more detail in other reports or filings filed or furnished by us with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended January 30, 2016, filed on March 25, 2016. In addition, we operate in a highly competitive and rapidly changing environment; therefore, new risk factors can arise, and it is not possible for management to predict all such risk factors, nor to assess the impact of all such risk factors on our business or the extent to which any individual risk factor, or combination of risk factors, may cause results to differ materially from those contained in any forward-looking statement. The forward-looking statements included in this Quarterly Report on Form 10-Q are made as of this date. We do not assume any obligation and do not intend to update or revise any forward-looking statements whether as a result of new information, future developments or otherwise except as may be required by the securities

laws.

## OVERVIEW

The Company is a leading omni-channel sporting goods retailer offering an extensive assortment of authentic, high-quality sports equipment, apparel, footwear and accessories through a blend of dedicated associates, in-store services and unique specialty shop-in-shops. The Company also owns and operates Golf Galaxy, Field & Stream and other specialty concept stores as well as eCommerce websites at [www.DICKS.com](http://www.DICKS.com), [www.golfgalaxy.com](http://www.golfgalaxy.com), [www.fieldandstreamshop.com](http://www.fieldandstreamshop.com) and [www.caliastudio.com](http://www.caliastudio.com). When used in this Quarterly Report on Form 10-Q, unless the context otherwise requires or otherwise specifies, any reference to "year" is to the Company's fiscal year.

## Table of Contents

The primary factors that have historically influenced the Company's profitability and success have been the growth in its number of stores and selling square footage, the integration of eCommerce with its brick and mortar stores, positive consolidated same store sales, which include the Company's eCommerce business, and its strong gross profit margins. For example, in the last five years, the Company has grown from 455 Dick's Sporting Goods stores as of July 30, 2011 to 649 Dick's Sporting Goods stores as of July 30, 2016. The Company's eCommerce sales penetration to total net sales has increased from 2.4% to 8.8% for the year-to-date period ended July 30, 2011 and July 30, 2016, respectively.

In recent years, the Company has innovated its eCommerce sites with enhancements in the customer experience, new releases of its mobile and tablet sites, and development of capabilities that integrate the Company's online presence with its brick and mortar stores, including ship-from-store; buy-online, pick-up in-store; return-to-store and multi-faceted marketing campaigns that are consistent across the stores and eCommerce websites. On average, approximately 80% of the Company's eCommerce sales are generated within brick and mortar store trade areas.

The Company's senior management focuses on certain key indicators to monitor the Company's performance including:

**Consolidated same store sales performance** – Our management considers same store sales, which consists of both brick and mortar and eCommerce sales, to be an important indicator of our current performance. Same store sales results are important to leverage our costs, which include occupancy costs, store payroll and other store expenses. Same store sales also have a direct impact on our total net sales, cash and working capital. A store is included in the same store sales calculation during the same fiscal period that it commences its 14<sup>th</sup> full month of operations. Stores that were closed or relocated during the applicable period have been excluded from same store sales. Each relocated store is returned to the same store sales base during the fiscal period that it commences its 14<sup>th</sup> full month of operations at the new location. See further discussion of our consolidated same store sales in the "Results of Operations and Other Selected Data" section herein.

**Operating cash flow** – Cash flow generation supports the general operating needs of the Company and funds capital expenditures related to its omni-channel platform, distribution and administrative facilities, costs associated with continued improvement of information technology tools, costs associated with potential strategic acquisitions or investments that may arise from time to time and stockholder return initiatives, including cash dividends and share repurchases. We typically generate significant positive operating cash flows and proportionately higher net income levels in our fiscal fourth quarter in connection with the holiday selling season and in part to sales of cold weather sporting goods and apparel. See further discussion of the Company's cash flows in the "Liquidity and Capital Resources and Changes in Financial Condition" section herein.

**Quality of merchandise offerings** – To measure acceptance of its merchandise offerings, the Company monitors sell-throughs, inventory turns, gross margins and markdown rates on a department and style level. This analysis helps the Company manage inventory levels to reduce cash flow requirements and deliver optimal gross margins by improving merchandise flow and establishing appropriate price points to minimize markdowns.

**Store productivity** – To assess store-level performance, the Company monitors various indicators, including new store productivity, sales per square foot, store operating contribution margin and store cash flow.

## CRITICAL ACCOUNTING POLICIES

As discussed in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" of the Company's Annual Report on Form 10-K for the fiscal year ended January 30, 2016, filed with the Securities and Exchange Commission on March 25, 2016, the Company considers its policies on inventory valuation, vendor

allowances, goodwill and intangible assets, impairment of long-lived assets and closed store reserves, self-insurance reserves, stock-based compensation and uncertain tax positions to be the most critical in understanding the judgments that are involved in preparing the Company's consolidated financial statements. There have been no changes in the Company's critical accounting policies during the quarter ended July 30, 2016.

## RESULTS OF OPERATIONS AND OTHER SELECTED DATA

### Executive Summary

Earnings per diluted share of \$0.82 in the current quarter increased compared to earnings per diluted share of \$0.77 during the second quarter of 2015, due primarily to a decrease in diluted shares outstanding year-over-year.

Table of Contents

Net sales increased 8% to \$2.0 billion in the current quarter compared to the second quarter of 2015, due primarily to the growth of our store network and a 2.8% increase in consolidated same store sales.

eCommerce sales penetration in the current quarter increased to 8.5% of total net sales compared to 7.3% in the second quarter of 2015.

Gross profit decreased to 30.36% as a percentage of net sales in the current quarter from 30.37% during the second quarter of 2015.

In the second quarter of 2016, the Company:

Declared and paid a quarterly cash dividend in the amount of \$0.15125 per share of common stock and Class B common stock.

Repurchased approximately 1.3 million shares of common stock for \$57.0 million.

Purchased intellectual property assets of The Sports Authority ("TSA") along with the right to acquire 31 TSA store leases for \$21.3 million.

The following table summarizes store openings and closings for the periods indicated:

	26 Weeks Ended July 30, 2016			26 Weeks Ended August 1, 2015

Includes the Company's Golf Galaxy, Field & Stream and other specialty concept stores. In some markets we operate adjacent stores on the same property with a pass-through for customers. We refer to this format as a (1) "combo store" and include combo store openings within both the Dick's Sporting Goods and specialty store concept reconciliations, as applicable. As of July 30, 2016, the Company operated 72 Golf Galaxy stores and 21 Field & Stream stores.

## Table of Contents

Revenue from retail sales is recognized at the point of sale, net of sales tax. Revenue from eCommerce sales is recognized upon shipment of merchandise. Service-related revenue is recognized as the services are performed. A provision for anticipated merchandise returns is provided through a reduction of sales and cost of goods sold in the period that the related sales are recorded. Revenue from gift cards and returned merchandise credits (collectively the "cards") is deferred and recognized upon the redemption of the cards. These cards have no expiration date. Income from unredeemed cards is recognized on the unaudited Consolidated Statements of Income within selling, general and administrative expenses at the point at which redemption becomes remote. The Company performs an evaluation of the aging of the unredeemed cards, based on the elapsed time from the date of original issuance, to determine when redemption becomes remote.

Cost of goods sold includes: the cost of merchandise (inclusive of vendor allowances, inventory shrinkage and inventory write-downs for the lower of cost or market); freight; distribution; shipping; and store occupancy costs.

(2) The Company defines merchandise margin as net sales less the cost of merchandise sold. Store occupancy costs include rent, common area maintenance charges, real estate and other asset-based taxes, general maintenance, utilities, depreciation, fixture lease expenses and certain insurance expenses.

Selling, general and administrative expenses include store and field support payroll and fringe benefits, advertising, bank card charges, information systems, marketing, legal, accounting, other store expenses and all expenses associated with operating the Company's corporate headquarters.

(3)

Pre-opening expenses, which consist primarily of rent, marketing, payroll and recruiting costs, are expensed as incurred. Rent is recognized within pre-opening expense from the date of building turnover to the Company through the date of store opening.

(4)

(5) Includes Dick's Sporting Goods, Golf Galaxy, Field & Stream and other specialty concept stores.

13 Weeks Ended July 30, 2016 Compared to the 13 Weeks Ended August 1, 2015

### Net Sales

Net sales increased 8% in the current quarter to \$2.0 billion from \$1.8 billion for the quarter ended August 1, 2015, due primarily to the growth of our store network and a 2.8% increase in consolidated same store sales. The 2.8% increase in consolidated same store sales contributed \$49.8 million of the increase in net sales for the quarter ended July 30, 2016. The remaining \$95.1 million increase in net sales was attributable to new stores. The 2.8% increase in consolidated same store sales consisted of a 3.0% increase at Dick's Sporting Goods and a 4.3% decrease at Golf Galaxy. eCommerce sales penetration was 8.5% of total net sales during the current quarter compared to 7.3% of total net sales during the quarter ended August 1, 2015, representing an approximate increase of 26% in eCommerce sales.

The increase in consolidated same store sales was driven by broad-based increases within our apparel and hardlines categories, most notably the outdoor business, partially offset by a slight decrease within our footwear category. The footwear category was primarily driven by a decrease in golf footwear, partially offset by an increase in athletic footwear. The same store sales increase at Dick's Sporting Goods was driven by an increase in transactions of approximately 1.7% and an increase in sales per transaction of approximately 1.3%. Based upon the current quarter sales mix, every 1% change in consolidated same store sales would impact earnings before income taxes for the current quarter by approximately \$6.1 million.

### Income from Operations

Income from operations decreased to \$147.2 million in the current quarter from \$148.4 million for the quarter ended August 1, 2015.

Gross profit increased 8% to \$597.4 million in the current quarter from \$553.6 million for the quarter ended August 1, 2015, and decreased as a percentage of net sales by one basis point compared to the same period last year.

Merchandise margins and occupancy costs improved slightly during the quarter and were offset by increased shipping expenses. Occupancy costs increased \$14.9 million in the current quarter from the quarter ended August 1, 2015. Our occupancy costs, which after the cost of merchandise represent our largest expense within cost of goods sold, are generally fixed in nature and fluctuate based on the number of stores that we operate. As a percentage of net sales, occupancy costs increased at a lower rate than the 8% increase in net sales during the current quarter. The increase in shipping expenses during the current quarter was primarily due to the growth and increased penetration of eCommerce sales as compared to the Company's total net sales. Every 10 basis point change in merchandise margin would impact earnings before income taxes for the current quarter by approximately \$1.9 million.

## Table of Contents

Selling, general and administrative expenses increased 12% to \$441.7 million in the current quarter from \$395.9 million for the quarter ended August 1, 2015, and increased as a percentage of net sales by 73 basis points. This increase was primarily driven by higher store payroll costs as the Company continued to invest to enhance the shopping experience within its stores and higher administrative, payroll and related benefit costs to support planned future growth initiatives compared to the same period last year.

Pre-opening expenses decreased to \$8.5 million in the current quarter from \$9.2 million for the quarter ended August 1, 2015. Pre-opening expenses in any period fluctuate depending on the timing and number of new store openings and relocations. Pre-opening rent expenses for our self-developed store sites will generally exceed those for sites built to our specifications by our landlords, as we are in possession of the site for a longer period of time, which accelerates expense recognition but does not impact the timing of rent payments.

### Income Taxes

The Company's effective tax rate decreased to 38.0% for the quarter ended July 30, 2016 from 38.4% during the same period last year.

26 Weeks Ended July 30, 2016 Compared to the 26 Weeks Ended August 1, 2015

### Net Sales

Net sales increased 7% in the current period to \$3.6 billion, due primarily to the growth of our store network and a 1.7% increase in consolidated same store sales. The 1.7% increase in consolidated same store sales contributed \$56.9 million of the increase in net sales for the period ended July 30, 2016. The remaining \$183.0 million increase in net sales was attributable to new stores. The 1.7% increase in consolidated same store sales consisted of a 1.8% increase at Dick's Sporting Goods and a 1.8% decrease at Golf Galaxy. eCommerce sales penetration was 8.8% of total net sales during the current period compared to 7.9% of total net sales during the period ended August 1, 2015, representing an approximate increase of 20% in eCommerce sales.

The increase in consolidated same store sales was primarily driven by increases within our apparel and hardlines categories, most notably the outdoor business, partially offset by a slight decrease within our footwear category. The same store sales increase at Dick's Sporting Goods was driven by an increase in sales per transaction of approximately 1.2% and an increase in transactions of approximately 0.6%. Based upon the current period sales mix, every 1% change in consolidated same store sales would impact earnings before income taxes for the current period by approximately \$11.2 million.

### Income from Operations

Income from operations decreased to \$237.9 million in the current period from \$250.3 million for the period ended August 1, 2015.

Gross profit increased 7% to \$1,093.2 million for the current period from \$1,022.5 million for the period ended August 1, 2015, and decreased as a percentage of net sales by five basis points compared to the same period last year. Merchandise margins improved slightly during the current period compared to the same period last year and were more than offset by increased shipping expenses. Occupancy costs increased \$29.7 million in the current period from the period ended August 1, 2015. Our occupancy costs are generally fixed in nature and fluctuate based on the number of stores that we operate. As a percentage of net sales, occupancy costs increased at the same rate as compared to the 7% increase in net sales during the current period. The increase in shipping expenses during the current quarter was primarily due to the growth and increased penetration of eCommerce sales as compared to the Company's total net

sales. Every 10 basis point change in merchandise margin would impact earnings before income taxes for the current period by approximately \$3.6 million.

Selling, general and administrative expenses increased 11% to \$840.3 million in the current period from \$756.7 million for the period ended August 1, 2015, and increased as a percentage of net sales by 83 basis points. This increase was primarily driven by higher store payroll costs as the Company continued to invest to enhance the shopping experience within its stores and higher administrative, payroll and related benefit costs to support planned future growth initiatives compared to the same period last year.

Table of Contents

Pre-opening expenses decreased to \$15.0 million in the current period from \$15.6 million for the period ended August 1, 2015. Pre-opening expenses in any period fluctuate depending on the timing and number of new store openings and relocations. Pre-opening rent expenses for our self-developed store sites will generally exceed those for sites built to our specifications by our landlords since we are in possession of the site for a longer period of time, which accelerates expense recognition but does not impact the timing of rent payments.

## Income Taxes

The Company's effective tax rate was 38.0% for the period ended July 30, 2016 as compared to 38.5% for the same period last year.

## LIQUIDITY AND CAPITAL RESOURCES AND CHANGES IN FINANCIAL CONDITION

## Overview

The Company's liquidity and capital needs have generally been met by cash from operating activities with additional liquidity from the Company's revolving credit facility. Cash flow from operations is seasonal in our business. Typically, we use cash flow from operations to increase inventory in advance of peak selling seasons, with the pre-holiday inventory increase being the largest. In the fourth quarter, inventory levels are reduced in connection with sales during the holiday season and this inventory reduction, combined with proportionately higher net income, typically produces significant positive cash flow.

The Company has a \$1 billion revolving senior secured credit facility, including up to \$150 million in the form of letters of credit, (the "Credit Agreement") in the event further liquidity is needed. Under the Credit Agreement, subject to the satisfaction of certain conditions, the Company may request an increase of up to \$250 million in borrowing availability.

The Company generally utilizes its Credit Agreement for working capital needs based primarily on the seasonal nature of its operating cash flows, with the Company's peak borrowings occurring during its third quarter as the Company increases inventory in advance of the holiday selling season.

Liquidity information for the periods ended (dollars in thousands):

	July 30, 2016	August 1, 2015
Funds drawn on Credit Agreement	\$1,183,000	\$465,600
Number of days with outstanding balance on Credit Agreement	120 days	63 days
Maximum daily amount outstanding under Credit Agreement	\$278,000	\$191,700

The increase in funds drawn on our Credit Agreement during the 26 weeks ended July 30, 2016 compared to the same period last year was driven by continued capital return to shareholders and investments in the Company's growth.

Liquidity information as of the periods ended (dollars in thousands):

	July 30, 2016	August 1, 2015
Outstanding borrowings under Credit Agreement	\$152,000	\$—
Cash and cash equivalents	\$112,325	\$123,220
Remaining borrowing capacity under Credit Agreement	\$833,369	\$485,969
Outstanding letters of credit under Credit Agreement	\$14,631	\$14,031

The Company intends to allocate capital to invest in its future growth, specifically the development of its omni-channel platform and specialty store concepts, as well as to return capital to stockholders through dividends and share repurchases.

Table of Contents

Capital expenditures – We expect capital expenditures to be approximately \$275 million on a net basis, which includes tenant allowances provided by landlords, and approximately \$450 million on a gross basis in fiscal 2016. Normal capital requirements primarily relate to the development of our omni-channel platform, including investments in new and existing stores and eCommerce technology. The Company also plans to continue to invest in the improvement of its supply chain and corporate information technology infrastructure. We plan to open approximately 47 new stores and begin construction of our 5<sup>th</sup> distribution facility in fiscal 2016. We expect our new stores, as well as investments in our existing stores, to represent the majority of our total capital expenditures during fiscal 2016. The Company has a capital appropriations committee that approves all capital expenditures in excess of certain amounts and groups and prioritizes all capital projects among required, discretionary and strategic categories.

Share repurchases – On March 7, 2013, the Company's Board of Directors authorized a five-year share repurchase program of up to \$1 billion of the Company's common stock. Since the beginning of 2013, we have repurchased \$919.9 million of common stock and have \$80.1 million remaining under this authorization. On March 16, 2016, the Company's Board of Directors authorized an additional five-year share repurchase program of up to \$1 billion of the Company's common stock. During the 26 weeks ended July 30, 2016, the Company repurchased approximately 2.4 million shares of its common stock for \$107.0 million. Any future share repurchase programs are subject to the final determination of our Board of Directors and will be dependent upon future earnings, cash flows, financial requirements and other factors.

Dividends – During the 26 weeks ended July 30, 2016, the Company paid \$34.5 million of dividends to its stockholders. The declaration of future dividends and the establishment of the per share amount, record dates and payment dates for any such future dividends are subject to authorization by our Board of Directors and will be dependent upon future earnings, cash flows, financial requirements and other factors.

The Company currently believes cash flows generated by operations and funds available under its Credit Agreement will be sufficient to satisfy capital requirements, including planned capital expenditures, share repurchases and quarterly dividend payments to its stockholders through fiscal 2016. The Company may require additional funding should the Company pursue strategic acquisitions or undertake share repurchases, other investments or store expansion rates in excess of those presently planned.

Changes in cash and cash equivalents are as follows (in thousands):

	26 Weeks Ended	
	July 30, 2016	August 1, 2015
Net cash provided by operating activities	\$222,929	\$203,039
Net cash used in investing activities	(231,861 )	(155,191 )
Net cash provided by (used in) financing activities	2,267	(146,271 )
Effect of exchange rate changes on cash and cash equivalents	54	(36 )
Net decrease in cash and cash equivalents	\$(6,611 )	\$(98,459 )

### Operating Activities

Operating activities consist primarily of net income, adjusted for certain non-cash items and changes in operating assets and liabilities. Adjustments to net income for non-cash items include depreciation and amortization, deferred income taxes, stock-based compensation expense and tax benefits on stock options, as well as non-cash gains and losses on the disposal of the Company's assets. Changes in operating assets and liabilities primarily reflect changes in inventories, accounts payable and income taxes payable / receivable, as well as other working capital changes.

Cash provided by operating activities increased \$19.9 million for the 26 weeks ended July 30, 2016 compared to the same period last year. The increase in cash provided by operating activities was due primarily to a \$17.3 million increase in non-cash items and an \$8.5 million increase in operating assets and liabilities, partially offset by a \$5.9 million decrease in net income period-over-period.

The increase in operating assets and liabilities was due primarily to the following:

Changes in inventory and accounts payable increased operating cash flows by \$26.1 million compared to the prior year, primarily due to timing of inventory receipts.

## Table of Contents

Changes in accrued expenses increased operating cash flows by \$23.6 million compared to the prior year, primarily due to lower incentive compensation accruals in fiscal 2015 that were subsequently paid during the first quarter of fiscal 2016, compared to those balances accrued at the end of fiscal 2014 and subsequently paid during the first quarter of fiscal 2015.

Changes in accounts receivable decreased operating cash flows by \$28.1 million compared to the prior year, primarily due to timing of collections associated with vendor funded store initiatives.

## Investing Activities

Cash used in investing activities increased \$76.7 million for the 26 weeks ended July 30, 2016 compared to the same period last year primarily due to a \$53.7 million increase in gross capital expenditures. This increase in gross capital expenditures was primarily driven by incremental investments related to the Company's full-service footwear store initiative.

## Financing Activities

Cash provided by financing activities consists primarily of the Company's capital return initiatives, including its share repurchase program and cash dividend payments, and cash flows generated from stock option exercises. Cash provided by financing activities for the 26 weeks ended July 30, 2016 totaled \$2.3 million compared to cash used by financing activities of \$146.3 million for the comparable period of the prior year. The Company had higher net Credit Agreement borrowings and repurchased \$43.0 million fewer shares during the period ended July 30, 2016 compared to the prior year comparable period.

## Event Subsequent to Quarter-end

Dividend – On August 11, 2016, the Company's Board of Directors authorized and declared a quarterly cash dividend in the amount of \$0.15125 per share of common stock and Class B common stock payable on September 30, 2016 to stockholders of record as of the close of business on September 9, 2016.

## Off-Balance Sheet Arrangements

The Company's off-balance sheet arrangements as of July 30, 2016 primarily relate to store operating leases and purchase obligations for marketing commitments, including naming rights, licenses for trademarks, corporate aircraft and technology-related and other commitments. The Company has excluded these items from the unaudited Consolidated Balance Sheets in accordance with generally accepted accounting principles. The Company does not believe that any of these arrangements have, or are reasonably likely to have, a material effect on our financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or resources.

## Contractual Obligations and Other Commercial Commitments

The Company is party to many contractual obligations that involve commitments to make payments to third parties in the ordinary course of business. For a description of the Company's contractual obligations and other commercial commitments as of January 30, 2016, see the Company's Annual Report on Form 10-K for the fiscal year ended January 30, 2016, filed with the Securities and Exchange Commission on March 25, 2016. During the current quarter, there were no material changes with respect to these contractual obligations and other commercial commitments outside the ordinary course of business.

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the Company's market risk exposures from those reported in the Company's Annual Report on Form 10-K for the fiscal year ended January 30, 2016 filed with the Securities and Exchange Commission on March 25, 2016.

#### ITEM 4. CONTROLS AND PROCEDURES

During the second quarter of fiscal 2016, there were no changes in the Company's internal controls over financial reporting that materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

During the quarter, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Chief Executive Officer and the principal financial officer, of the effectiveness of the design and operation of the disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended. Based upon that evaluation, the Company's management, including the Chief Executive Officer and the principal financial officer, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report on Form 10-Q, July 30, 2016.

There are inherent limitations in the effectiveness of any control system, including the potential for human error and the circumvention or overriding of the controls and procedures. Additionally, judgments in decision-making can be faulty and breakdowns can occur because of simple errors or mistakes. An effective control system can provide only reasonable, not absolute, assurance that the control objectives of the system are adequately met. Accordingly, our management, including our Chief Executive Officer and principal financial officer, does not expect that our control system can prevent or detect all errors or fraud. Finally, projections of any evaluation or assessment of effectiveness of a control system to future periods are subject to the risks that, over time, controls may become inadequate because of changes in an entity's operating environment or deterioration in the degree of compliance with policies and procedures.

## PART II. OTHER INFORMATION

## ITEM 1. LEGAL PROCEEDINGS

Dick's Sporting Goods, Inc. and its subsidiaries are involved in various proceedings that are incidental to the normal course of their businesses. As of the date of this Quarterly Report on Form 10-Q, the Company does not expect that any of such proceedings will have a material adverse effect on the Company's financial position or results of operations.

## ITEM 1A. RISK FACTORS

For a discussion of risk factors affecting the Company refer to Part I, Item 1A. "Risk Factors" of the Company's Annual Report on Form 10-K for the year ended January 30, 2016, filed with the Securities and Exchange Commission on March 25, 2016. The discussion of risk factors sets forth the material risks that could affect the Company's financial condition and operations.

Reference is also made to Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations – Forward-Looking Statements" of this Quarterly Report on Form 10-Q, which is incorporated herein by reference.
