On September 19, 2011, Xcel Energy issued the press release on this topic and related matters attached hereto as Exhibit 99.01. The press release is incorporated herein by reference.

#### Compensatory Arrangements of Certain Officers

As a result of Ms. Madden assuming additional responsibilities overseeing Xcel Energy's finance function, Ms. Madden's base salary increased to \$435,000 and her target percentage under Xcel Energy's Executive Annual Incentive Award Plan (the Annual Plan) was increased to 65% of base salary. Ms. Madden's total annual incentive opportunity for 2011 under the Annual Plan will be based on her base salary and target percentage in effect on December 31, 2011. Ms. Madden's long-term incentive percentage was increased to 150% of her base salary.

As a result of Mr. Savage assuming additional responsibilities overseeing Xcel Energy's accounting and financial reporting function, Mr. Savage's base salary increased to \$225,000 and his target percentage under the Annual Plan was increased to 40% of base salary. Mr. Savage's total annual incentive opportunity for 2011 under the Annual Plan will be based on his base salary and target percentage in effect on December 31, 2011. Mr. Savage's long-term incentive percentage was increased to 70% of his base salary.

The Governance, Compensation and Nominating Committee granted 17,214 restricted stock units ("RSUs") to Ms. Madden and 5,824 RSUs to Mr. Savage effective September 19, 2011, which represent supplemental grants for nine different equity awards that are currently outstanding. These grants were made pursuant to the previously announced policy allowing newly promoted executive officers to be eligible to receive a supplemental grant of long-term incentive awards so that their level of long-term incentive is consistent with the length of time served in the new position.

The performance goals for the RSU awards that represent pro rata amounts of the 2009 and 2010 performance-based RSUs and 2009, 2010 and 2011 performance shares are consistent with those previously disclosed in footnotes four through nine of the Outstanding Equity Awards at Fiscal Year End Table contained in the Company's Definitive Proxy Statement on Schedule 14A (File no. 001-03034), filed with the Commission on April 5, 2011. The remaining grants of RSUs representing the pro rata amounts of the 2011 performance-based RSUs have either an environmental goal or an earnings per share growth goal, and the actual value of each award will range from 0% to 150% of the target level, depending upon actual performance. The performance period for all 2011 awards ends on December 31, 2013. The forfeiture and dividend provisions of the supplemental RSU grants are the same as the currently outstanding awards.
