MTS Announces Financial Results for the Three and Nine Month Periods Ended September 30, 2008

Ra'anana, Israel -November 12, 2008 - MTS - Mer Telemanagement Solutions Ltd. (Nasdaq Capital Market: MTSI), a global provider of business support systems (BSS) for comprehensive telecommunication management and customer care & billing (CC&B) solutions, today announced its financial results for the three and nine month periods ended September 30, 2008.

Revenues for the third quarter of 2008 were \$2.1 million, compared with \$2.2 million for the same quarter last year. The Company's operating loss declined to \$224,000 in the third quarter of 2008 compared to an operating loss of \$1.5 million for the third quarter of 2007. Revenues for the nine month period ended September 30, 2008 were \$6.9 million, compared with \$7.1 million for the comparable period in 2007.

Net loss for the third quarter was \$222,000 or (\$0.03) per diluted share, compared with a net loss of \$1.7 million or (\$0.29) per diluted share in the third quarter of 2007. This decrease was mainly attributable to the Company's focus on reducing its operating expenses. Net loss for the nine months ended September 30, 2008 quarter was \$39,000 or (\$0.01) per diluted share, compared with a net loss of \$5.1 million or (\$0.88) per diluted share in the comparable period in 2007.

The Company ended the third quarter with approximately \$1.6 million in cash and cash equivalents, including marketable securities. During the third quarter of 2008 the company had a positive operating cash flow of \$268,000 compared to a negative operating cash flow of \$291,000 in the third quarter of 2007.

"MTS made a significant change in the last 12 months by implementing its restructuring plan, focusing mainly on reducing the Company's operating expenses and selling its non-core assets for which significant synergies or added values no longer exist. The results of this process are reflected in the financial statements of the Company" said Eytan Bar, CEO of MTS. "Even though the economic environment has entered a period of slowdown and the fluctuations in the exchange rate between the US dollar and other major currencies has negatively affected our profit and loss statement, we were able to decrease our operating expenses significantly and achieve improved financial results."

"We are committed to closely monitoring our operating expenses and reducing our overall costs as well as achieving revenue growth," continued Mr. Bar. "The Company has strengthened its main financial indicators and we intend to focus on our search for new opportunities and on expanding our core business," concluded Mr. Bar.
