CHEMED CORPORATION AND SUBSIDIARY COMPANIES

Notes to Unaudited Financial Statements

1. Basis of Presentation

As used herein, the terms "We," "Company" and "Chemed" refer to Chemed Corporation or Chemed Corporation and its consolidated subsidiaries.

We have prepared the accompanying unaudited consolidated financial statements of Chemed in accordance with Rule 10-01 of SEC Regulation S-X. Consequently, we have omitted certain disclosures required under generally accepted accounting principles in the United States ("GAAP") for complete financial statements. The December 31, 2008 balance sheet data were derived from audited financial statements but do not include all disclosures required by GAAP. However, in our opinion, the financial statements presented herein contain all adjustments, consisting only of normal recurring adjustments, necessary to present fairly our financial position, results of operations and cash flows. These financial statements are prepared on the same basis as and should be read in conjunction with the Consolidated Financial Statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2008. Certain 2008 amounts have been restated to conform with current period presentation related to adoption of new accounting guidance for our convertible debt, as described in Note 5.

In June 2009, the FASB established the Accounting Standards Codification, "Codification", which established the Codification as the single source of authoritative nongovernmental U.S. GAAP. The Codification was effective for interim or annual financial periods ending after September 15, 2009. We have adopted the Codification and all references in our financial statements to authoritative U.S. GAAP have been changed.

2. Revenue Recognition

Both the VITAS segment and the Roto-Rooter segment recognize service revenues and sales when the earnings process has been completed. Generally, this occurs when services are provided or products are delivered. VITAS recognizes revenue at the estimated realizable amount due from third-party payers. Medicare payments are subject to certain limitations, as described below.

As of September 30, 2009, VITAS has approximately \$12.1 million in unbilled revenue (December 31, 2008 - \$13.9 million). The unbilled revenue at VITAS relates to hospice programs currently undergoing focused medical reviews ("FMR"). During FMR, surveyors working on behalf of the U.S. Federal government review certain patient files for compliance with Medicare regulations. During the time the patient file is under review, we are unable to bill for care provided to those patients. We make appropriate provisions to reduce our accounts receivable balance for potential denials of patient service revenue due to FMR activity.

The U.S. government revises hospice reimbursement rates on an annual basis using the Hospice Wage Index (HWI) and the Budget Neutrality Adjustment Factor (BNAF). The HWI is used to adjust reimbursement rates to reflect local differences in wages. The BNAF is an estimated inflation factor applied to the HWI. In August 2008, the U.S. government announced a 25% reduction in the BNAF for its fiscal 2009 (October 2008 through September 2009) pursuant to a three year phase-out of the BNAF. The February 2009 American Recovery and Reinvestment Act mandated a one year delay in the BNAF phase-out. As a result, included in the nine months ended September 30, 2009 results, is \$1.95 million of revenue for the retroactive price increase related to services provided by VITAS in the fourth quarter of 2008. Revenue for service provided in fiscal 2009 includes a reimbursement rate with the full BNAF increase.

We actively monitor each of our hospice programs, by provider number, as to their specific admission, discharge rate and median length of stay data in an attempt to determine whether they are likely to exceed the annual per-beneficiary Medicare cap ("Medicare cap"). Should we determine that revenues for a program are likely to exceed the Medicare cap

based on projected trends, we attempt to institute corrective action to influence the patient mix or to increase patient admissions. However, should we project our corrective action will not prevent that program from exceeding its Medicare cap, we estimate the amount of revenue recognized during the period that will require repayment to the Federal government under the Medicare cap and record the amount as a reduction to patient revenue. The Medicare cap measurement period is from September 29 through September 28 of the following year for admissions and from November 1 through October 31 of the following year for revenue. For the three-month period ended September 30, 2009, we recorded \$43,000 in Medicare cap liability related to a retroactive billing for 2006. During the nine-month period ended September 30, 2009, we reversed our estimated liability of \$235,000 due to improved admission trends. This relates to one program's projected liability that was recorded during the fourth quarter of 2008 and the first quarter of 2009. Finally, we paid \$302,000 for a retroactive billing related to our discontinued Phoenix operation during the third quarter of 2009. This amount was previously accrued and had no impact on our income statement. No revenue reduction for Medicare cap liability was recorded for the three or nine-month periods ended September 30, 2008.

-6-

3. Segments

Service revenues and sales and after-tax earnings by business segment are as follows (in thousands):

		Three months ended				Nine months ended				
		Sept	temb	er 3	30,		September 30,			
		2009			2008		2009			2008

VITAS		\$ 18,267		\$	17,561	\$	52,794		\$	45,180
Roto-Rooter		7,988			7,957		25,115			25,445
	Total	26,255			25,518		77,909			70,625
Corporate		(7,045)		(8,567)	(22,110)		(21,543)
	Net income	\$ 19,210		\$	16,951	\$	55,799		\$	49,082

4. Earnings per Share

Earnings per share are computed using the weighted average number of shares of capital stock outstanding. Earnings and diluted earnings per share for 2009 and 2008 are computed as follows (in thousands, except per share data):

For the Three Months Ended September 30,	Ne	et Income	Shares	Earnings er Share
2009				
Earnings	\$	19,210	22,461	\$ 0.86
Dilutive stock options		-	227	
Nonvested stock awards		-	56	
Diluted earnings	\$	19,210	22,744	\$ 0.84
2008				
Earnings	\$	16,951	22,503	\$ 0.75
Dilutive stock options		-	287	
Nonvested stock awards		-	28	
Diluted earnings	\$	16,951	22,818	\$ 0.74

-7-

Edgar Filing: CHEMED CORP - Form 10-Q

For the Nine Months Ended				Ear	rnings per
September 30,	Ne	et Income	Shares		Share
2009					
Earnings	\$	55,799	22,425	\$	2.49
Dilutive stock options		-	212		
Nonvested stock awards		-	42		
Diluted earnings	\$	55,799	22,679	\$	2.46
2008					
Earnings	\$	49,082	23,285	\$	2.11
Dilutive stock options		-	305		
Nonvested stock awards		-	30		
Diluted earnings	\$	49,082	23,620	\$	2.08

For the three and nine-month periods ended September 30, 2009, 1,325,417 and 1,655,418, respectively, stock options were excluded from the computation of diluted earnings per share as their exercise prices were greater than the average market price for most of the period. For both the three and nine-month periods ended September 30, 2008, 829,000 stock options were excluded, respectively, from the computation of diluted earnings per share.

Diluted earnings per share may be impacted in future periods as the result of the issuance of our 1.875% Senior Convertible Notes (the "Notes") and related purchased call options and sold warrants. Per FASB's authoritative guidance on the effect of contingently convertible instruments on diluted earnings per share and convertible bonds with an issuer option to settle for cash upon conversion, we will not include any shares related to the Notes in our calculation of diluted earnings per share until our average stock price for a quarter exceeds the conversion price of \$80.73. We would then include in our diluted earnings per share calculation those shares issuable using the treasury stock method. The amount of shares issuable is based upon the amount by which the average stock price for the quarter exceeds the conversion price. The purchased call option does not impact the calculation of diluted earnings per share as it is always anti-dilutive. The sold warrants become dilutive when our average stock price for a quarter exceeds the strike price of the warrant.

The following table provides examples of how changes in our stock price impact the number of shares that would be included in our diluted earnings per share calculation. It also shows the impact on the number of shares issuable upon conversion of the Notes and settlement of the purchased call options and sold warrants:

	Shares		Total Treasury	Shares Due	Incremental
	Underlying 1.875%		Method	to the Company	Shares Issued/
					(Received) by the
Share	Convertible	Warrant	Incremental	under Notes	Company
Price	Notes	Shares	Shares (a)	Hedges	upon Conversion (b)
\$ 80.73	-	-	-	-	-
\$ 90.73	255,243	-	255,243	(273,061)	(17,818)
\$ 100.73	459,807	-	459,807	(491,905)	(32,098)
\$ 110.73	627,423	118,359	745,782	(671,222)	74,560
\$ 120.73	767,272	313,764	1,081,036	(820,833)	260,203
\$ 130.73	885,726	479,274	1,365,000	(947,556)	417,444

⁽a) Represents the number of incremental shares that must be included in the calculation of fully diluted shares under U.S. GAAP.

(b) Represents the number of incremental shares to be issued by the Company upon conversion of the Notes, assuming concurrent settlement of the note hedges and warrants.

5. Long-Term Debt

We are in compliance with all debt covenants as of September 30, 2009. We have issued \$27.9 million in standby letters of credit as of September 30, 2009 for insurance purposes. Issued letters of credit reduce our available credit under the revolving credit agreement. As of September 30, 2009, we have approximately \$147.1 million of unused lines of credit available and eligible to be drawn down under our revolving credit facility, excluding the expansion feature.

In May 2008, the FASB issued authoritative guidance for accounting for convertible debt instruments that may be settled in cash upon conversion including partial cash settlement. This guidance requires all convertible debentures classified as Instruments B or C to separately account for the debt and equity pieces of the instrument. Convertible debentures classified as Instruments B may be settled in either stock or cash equivalent to the conversion value and convertible debentures classified as Instruments C must settle the accreted value of the obligation in cash and may satisfy the excess conversion value in either cash or stock. At inception of the convertible instrument, cash flows related to the convertible instrument are to be discounted using a market rate of interest. We adopted the provisions of the guidance on January 1, 2009 and applied the guidance retrospectively. Upon adoption, the Notes had a discount of approximately \$54.9 million. Retained earnings as of January 1, 2008 decreased \$2.3 million as a result of the cumulative effect of adoption.

The following amounts are included in our consolidated balance sheet related to the Notes:

	S	eptember 30,	D	ecember 31,	
		2009		2008	
Principal amount of convertible debentures	\$	186,956	\$	186,956	
Unamortized debt discount		(36,525)	(41,446)
Carrying amount of convertible debentures	\$	150,431	\$	145,510	
Additional paid in capital (net of tax)	\$	31,310	\$	31,310	

The following amounts comprise interest expense included in our consolidated income statement (in thousands):

	Three Months Ended September 30,			Nine Months Ended September 30,			
	2009		2008	2009		2008	
Cash interest expense	\$ 1,014	\$	1,319	\$ 3,438	\$	3,829	
Non-cash amortization of							
debt discount	1,668		1,668	4,921		4,920	
Amortization of debt costs	171		153	480		464	
Total interest expense	\$ 2,853	\$	3,140	\$ 8,839	\$	9,213	

The unamortized debt discount will be amortized using the effective interest method over the remaining life of the Notes. The effective rate on the Notes after adoption of the standard is approximately 6.875%. The gain on extinguishment of debt recognized in 2008 upon our repurchase of a portion of the Notes decreased by approximately \$802,000 upon adoption, due to a portion of the extinguishment being attributed to the equity component of our Notes.

6. Other Operating Expenses

For the nine-month period ended September 30, 2009 we recorded pretax expenses of \$4.0 million related to the costs of a contested proxy solicitation.

7. Other Income/ (Expense) -- Net

Other income/ (expense) -- net comprises the following (in thousands):

Total other income	\$ 1,733		\$ (1,908) \$	4,815		\$ (2,211)

8. Other Current Liabilities

Other current liabilities as of September 30, 2009 and December 31, 2008 consist of the following (in thousands):

	2009	2008
Accrued legal settlements	\$ 312	\$ 410
Accrued divestiture expenses	849	837
Accrued Medicare cap estimate	241	735
Other	11,590	10,198
Total other current liabilities	\$ 12,992	\$ 12,180

9. Stock-Based Compensation Plans

On February 19, 2009, the Compensation/Incentive Committee of the Board of Directors ("CIC") approved a grant of 53,199 shares of restricted stock to certain key employees. The restricted shares cliff vest four years from the date of issuance. The cumulative compensation expense related to the restricted stock award is \$2.3 million and will be recognized ratably over the four-year vesting period. We assumed no forfeitures in determining the cumulative compensation expense of the grant.

On February 19, 2009, the CIC approved a grant of 508,600 stock options to certain employees. The stock options vest ratably over three years from the date of issuance. The cumulative compensation expense related to the stock option grant is \$7.1 million and will be recognized over the three-year vesting period. We used the Black-Scholes option valuation method to determine the cumulative compensation expense of the grant.

On May 29, 2009, the Compensation/Incentive Committee ("CIC") approved a new stock-price target portion of the Company's Executive Long-Term Incentive Plan ("LTIP"), which covers our officers and key employees. The new stock price hurdles are as follows:

	Stock	Shares to
	Price	be
I	Hurdle	Issued
\$	54.00	22,500
\$	58.00	33,750
\$	62.00	33,750

Total 90,000

The stock price hurdles must be achieved during 30 trading days out of any 60 trading day period between May 29, 2009 and February 28, 2012.

-10-

10. Loans Receivable from Independent Contractors

The Roto-Rooter segment sublicenses with sixty-three independent contractors to operate certain plumbing repair and drain cleaning businesses in lesser-populated areas of the United States and Canada. We had notes receivable from our independent contractors as of September 30, 2009 totaling \$1.6 million (December 31, 2008 -\$1.6 million). In most cases these loans are fully or partially secured by equipment owned by the contractor. The interest rates on the loans range from zero to 8% per annum and the remaining terms of the loans range from two months to 5 years at September 30, 2009. During the three months ended September 30, 2009, we recorded revenues of \$5.3 million (2008 - \$5.3 million) and pretax profits of \$2.4 million (2008 - \$2.5 million) from our independent contractors. During the nine months ended September 30, 2009, we recorded revenues of \$16.0 million (2008 - \$16.5 million) and pretax profits of \$7.1 million (2008 - \$7.6 million) from our independent contractors

We have adopted the provisions of the FASB's authoritative guidance on the consolidation of variable interest entities relative to our contractual relationships with the independent contractors. The guidance requires the primary beneficiary of a Variable Interest Entity ("VIE") to consolidate the accounts of the VIE. We have evaluated our relationships with our independent contractors based upon the guidance provided by the FASB and have concluded that some of the contractors who have loans payable to us may be VIE's. We believe consolidation, if required, of the accounts of any VIE's for which we might be the primary beneficiary would not materially impact our financial position, results of operations or cash flows.

11. Pension and Retirement Plans

All of the Company's plans that provide retirement and similar benefits are defined contribution plans. Expenses for the Company's pension and profit-sharing plans, excess benefit plans and other similar plans were \$4.3 million and \$838,000 for the three months ended September 30, 2009 and 2008, respectively. Expenses for the Company's pension and profit-sharing plans, excess benefit plans and other similar plans were \$11.3 million and \$6.3 million for the nine months ended September 30, 2009 and 2008, respectively.

12. Litigation

VITAS is party to a class action lawsuit filed in the Superior Court of California, Los Angeles County, in September 2006 by Bernadette Santos, Keith Knoche and Joyce White ("Santos"). This case alleges failure to pay overtime and failure to provide meal and rest periods to a purported class of California admissions nurses, chaplains and sales representatives. The case seeks payment of penalties, interest and Plaintiffs' attorney fees. VITAS contests these allegations. The lawsuit is in its early stages and we are unable to estimate our potential liability, if any, with respect to these allegations.

Regardless of outcome, defense of litigation adversely affects us through defense costs, diversion of our time and related publicity. In the normal course of business, we are a party to various claims and legal proceedings. We record a reserve for these matters when an adverse outcome is probable and the amount of the potential liability is reasonably estimable.

13. Regulatory Matters

In April 2005, the Office of Inspector General ("OIG") for the Department of Health and Human Services served VITAS with civil subpoenas relating to VITAS' alleged failure to appropriately bill Medicare and Medicaid for hospice services. As part of this investigation, the OIG selected medical records for 320 past and current patients from VITAS' three largest programs for review. It also sought policies and procedures dating back to 1998 covering admissions, certifications, recertifications and discharges. During the third quarter of 2005 and again in May 2006, the OIG requested additional information from us. The Court dismissed a related qui tam complaint filed in U.S. District Court for the Southern District of Florida with prejudice in July 2007. The plaintiffs appealed this dismissal, which the Court of Appeals affirmed. The government continues to investigate the complaint's allegations. In March 2009, we received a letter from the government reiterating the basis of their investigation.

In May 2009, VITAS received an administrative subpoena from the U.S. Department of Justice requesting VITAS deliver to the OIG documents, patient records, and policy and procedure manuals for headquarters and its Texas programs concerning hospice services provided for the period January 1, 2003 to the date of the letter. In August 2009, the OIG selected medical records for 59 past and current patients from a Texas program for review. Based on the early stage of the investigation and the limited information we have at this time, we cannot predict the outcome of this investigation. We believe that we are in material compliance with Medicare and Medicaid rules and regulations applicable to hospice providers.

-11-

We are unable to predict the outcome of these matters or the impact, if any, that the investigation may have on our business, results of operations, liquidity or capital resources. Regardless of outcome, responding to the subpoenas can adversely affect us through defense costs, diversion of our time and related publicity.

14. Related Party Agreement

VITAS has two pharmacy services agreements ("Agreements") with Omnicare, Inc. and its subsidiaries ("OCR") whereby OCR provides specified pharmacy services for VITAS and its hospice patients in geographical areas served by both VITAS and OCR. The Agreements renew automatically for one-year terms. Either party may cancel the Agreements at the end of any term by giving written notice at least 90 days prior to the end of said term. VITAS made purchases from OCR of \$8.5 million and \$8.3 million for the three months ended September 30, 2009 and 2008, respectively. VITAS made purchases of \$24.6 million and \$24.8 million for the nine months ended September 30, 2009 and 2008, respectively. VITAS has accounts payable to OCR of \$417,000 at September 30, 2009.

Mr. Joel F. Gemunder, President and Chief Executive Officer of OCR and Ms. Andrea Lindell are directors of both OCR and the Company. Mr. Kevin J. McNamara, President, Chief Executive Officer and a director of the Company, is a director emeritus of OCR. We believe that the terms of these agreements are no less favorable to VITAS than we could negotiate with an unrelated party.

15. Cash Overdrafts Payable

Included in accounts payable at September 30, 2009 is cash overdrafts payable of \$9.8 million (December 31, 2008 - \$8.8 million).

16. Financial Instruments

On January 1, 2008, we partially adopted the provisions of the authoritative guidance on fair value measurements. This statement defines a hierarchy which prioritizes the inputs in fair value measurements. Level 1 measurements are measurements using quoted prices in active markets for identical assets or liabilities. Level 2 measurements use significant other observable inputs. Level 3 measurements are measurements using significant unobservable inputs which require a company to develop its own assumptions. In recording the fair value of assets and liabilities, companies must use the most reliable measurement available. There was no impact on our financial position or results of operations upon partial adoption of this authoritative guidance.

On January 1, 2009, the deferral period granted relative to the fair value measurement of our goodwill and indefinite lived intangible assets expired. There was no impact on our financial position or results of operations as a result of the expiration of the deferral.

The following shows the carrying value, fair value and the hierarchy for our financial instruments as of September 30, 2009 (in thousands):

		Fa	air Value Mea	sure
		Quoted		
		Prices in		
		Active	Significant	
		Markets for	Other	Significant
		Identical	Observable	Unobservable
	Carrying	Assets	Inputs	Inputs (Level
	Value	(Level 1)	(Level 2)	3)
Mutual fund investments of deferred compensation plans				
held in trust	\$22,441	\$22,441	\$-	\$ -
Long-term debt	150,501	153,916	-	-

For cash and cash equivalents, accounts receivable and accounts payable, the carrying amount is a reasonable estimate of fair value because of the liquidity and short-term nature of these instruments.

17. Subsequent Events

In May 2009, the FASB issued authoritative guidance on subsequent events which established general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or available to be issued. It requires the disclosure of the date through which subsequent events have been evaluated as well as the basis for that date. The guidance was effective prospectively for interim or annual financial periods ending after June 15, 2009. We have evaluated all subsequent events through October 30, 2009, the date of this filing, and determined there are no material recognized or unrecognized subsequent events.

-12-

18. Recent Accounting Statements

In June 2009, the FASB issued additional guidance related to the consolidation of variable interest entities, which makes significant changes to the model for determining who should consolidate an entity and also addresses how often this assessment should be performed. The determination of who should consolidate a variable interest entity will be based on both quantitative and qualitative factors relating to control, as well as risks and benefits of ownership. This guidance is effective in 2010 for calendar-year companies and is to be adopted through a cumulative-effect adjustment. We are currently evaluating the impact of adoption of these provisions on our existing accounting methods.

-13-

19. Guarantor Subsidiaries

Our 1.875% Notes are fully and unconditionally guaranteed on an unsecured, jointly and severally liable basis by certain of our 100% owned subsidiaries. The following unaudited, condensed, consolidating financial data presents the composition of the parent company (Chemed), the guarantor subsidiaries and the non-guarantor subsidiaries as of September 30, 2009 and December 31, 2008 for the balance sheet, the three and nine months ended September 30, 2009 and September 30, 2008 for the income statement and the nine months ended September 30, 2008 for the statement of cash flows (dollars in thousands):

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Executive Summary

We operate through our two wholly owned subsidiaries, VITAS Healthcare Corporation and Roto-Rooter Group, Inc. VITAS focuses on hospice care that helps make terminally ill patients' final days as comfortable as possible. Through its team of doctors, nurses, home health aides, social workers, clergy and volunteers, VITAS provides direct medical services to patients, as well as spiritual and emotional counseling to both patients and their families. Roto-Rooter's services are focused on providing plumbing and drain cleaning services to both residential and commercial customers. Through its network of company-owned branches, independent contractors and franchisees, Roto-Rooter offers plumbing and drain cleaning service to over 90% of the U.S. population.

The following is a summary of the key operating results for the three and nine months ended September 30, 2009 and 2008 (in thousands except per share amounts):

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2009		2008 2009			2008		
Consolidated service								
revenues and sales	\$ 296,794	\$	288,312	\$	886,987	\$	856,736	
Consolidated net income	\$ 19,210	\$	16,951	\$	55,799	\$	49,082	
Diluted EPS	\$ 0.84	\$	0.74	\$	2.46	\$	2.08	

For the three months ended September 30, 2009 and 2008, the increase in consolidated service revenues and sales was driven by a 6% increase at VITAS while Roto-Rooter revenues decreased by 4%. The increase in service revenues at VITAS was a result of increased admissions of 3.1%, the October 1, 2008 Medicare reimbursement rate increase of approximately 3.5%, partially offset by a 1.2% increase in the number of discharged patients. The remaining difference is related to the timing within the quarter of admissions and discharges as well as a mix shift to higher acuity days of care. Roto-Rooter was driven by an 8% decrease in job count offset by an approximate 5% price and mix shift increase. The Roto-Rooter changes include the impact of acquisitions in 2008 and 2009, offset by the conversion of one company-owned branch to an independent contractor in 2009. The impact of these transactions is not material. Consolidated net income increased mainly as a result of the increase in revenues. Diluted EPS increased as the result of increased earnings.

For the nine months ended September 30, 2009 and 2008, the increase in consolidated service revenues and sales was driven by a 6% increase in service revenues at VITAS while Roto-Rooter revenues decreased approximately 2%. The increase in service revenues at VITAS was driven by a 0.5% increase in ADC, the October 1, 2008 Medicare reimbursement rate increase of approximately 3.5%, a reversal of Medicare cap billing limitations recorded in previous periods, an \$1.95 million increase related to the retroactive price increase for services in the fourth quarter of 2008 and a mix shift to higher acuity days of care. ADC was flat between periods. Roto-Rooter was driven by an 8% decrease in job count offset by an approximate 7% price and mix shift increase. The Roto-Rooter changes include the impact of acquisitions in 2008 and 2009, offset by the conversion of one company-owned branch to an independent contractor in 2009. Consolidated net income increased mainly as a result of the increase in revenues. Diluted EPS increased as the result of increased earnings and a reduction in the average shares outstanding due to our stock repurchase program.

VITAS expects to achieve full-year 2009 revenue growth, prior to Medicare cap, of 5.7% to 6.2%. Admissions are estimated to be in the range of 98% to 100% of total 2008 admissions. Medicare contractual billing limitations are estimated at \$1.25 million in the fourth quarter of 2009. Roto-Rooter expects full-year 2009 revenue to range from 98% to 101% of 2008 full year revenue. This expected revenue growth is a result of increased pricing of 5.0% and a

favorable mix shift to higher revenue jobs, partially offset by a job count decline estimated at 7.0% to 8.0%. We anticipate that our operating income and cash flows will be sufficient to operate our businesses and meet any commitments for the foreseeable future.

-17-

Financial Condition

Liquidity and Capital Resources

Material changes in the balance sheet accounts from December 31, 2008 to September 30, 2009 include the following:

- A \$8.6 million increase in accounts receivable which results primarily from a \$10.3 million increase at VITAS resulting from Medicare related administrative delays in processing payments at certain of our programs offset by a decrease at Roto-Rooter related to a decrease in days sales outstanding.
- A \$17.9 million decrease in long-term debt which results primarily from an \$8.2 million net reduction in our revolving line of credit and a \$14.6 million payment on our term loan, offset by \$4.9 million amortization of bond discount.

Net cash provided by operating activities decreased \$9.0 million due primarily to the increase in accounts receivable, partially offset by the increase in net income and current tax liabilities.

We have issued \$27.9 million in standby letters of credit as of September 30, 2009, for insurance purposes. Issued letters of credit reduce our available credit under the revolving credit agreement. As of September 30, 2009, we have approximately \$147.1 million of unused lines of credit available and eligible to be drawn down under our revolving credit facility, excluding the expansion feature. Management believes its liquidity and sources of capital are satisfactory for the Company's needs in the foreseeable future.

Commitments and Contingencies

Collectively, the terms of our credit agreements require us to meet various financial covenants, to be tested quarterly. In connection therewith, we are in compliance with all financial and other debt covenants as of September 30, 2009 and anticipate remaining in compliance throughout 2009.

VITAS is party to a class action lawsuit filed in the Superior Court of California, Los Angeles County, in September 2006 by Bernadette Santos, Keith Knoche and Joyce White ("Santos"). This case alleges failure to pay overtime and failure to provide meal and rest periods to a purported class of California admissions nurses, chaplains and sales representatives. The case seeks payment of penalties, interest and Plaintiffs' attorney fees. VITAS contests these allegations. The lawsuit is in its early stages and we are unable to estimate our potential liability, if any, with respect to these allegations.

Regardless of outcome, defense of litigation adversely affects us through defense costs, diversion of our time and related publicity. In the normal course of business, we are a party to various claims and legal proceedings. We record a reserve for these matters when an adverse outcome is probable and the amount of the potential liability is reasonably estimable.

In April 2005, the Office of Inspector General ("OIG") for the Department of Health and Human Services served VITAS with civil subpoenas relating to VITAS' alleged failure to appropriately bill Medicare and Medicaid for hospice services. As part of this investigation, the OIG selected medical records for 320 past and current patients from VITAS' three largest programs for review. It also sought policies and procedures dating back to 1998 covering admissions, certifications, recertifications and discharges. During the third quarter of 2005 and again in May 2006, the OIG requested additional information from us. The Court dismissed a related qui tam complaint filed in U.S. District Court for the Southern District of Florida with prejudice in July 2007. The plaintiffs appealed this dismissal, which the Court of Appeals affirmed. The government continues to investigate the complaint's allegations. In March 2009, we received a letter from the government reiterating the basis of their investigation.

In May 2009, VITAS received an administrative subpoena from the U.S. Department of Justice requesting VITAS deliver to the OIG documents, patient records, and policy and procedure manuals for headquarters and its Texas programs concerning hospice services provided for the period January 1, 2003 to the date of the letter. In August

2009, the OIG selected medical records for 59 past and current patients from a Texas program for review. Based on the early stage of the investigation and the limited information we have at this time, we cannot predict the outcome of this investigation. We believe that we are in material compliance with Medicare and Medicaid rules and regulations applicable to hospice providers.

We are unable to predict the outcome of these matters or the impact, if any, that the investigation may have on our business, results of operations, liquidity or capital resources. Regardless of outcome, responding to the subpoenas can adversely affect us through defense costs, diversion of our time and related publicity.

-18-

Results of Operations

Three months ended September 30, 2009 versus 2008 - Consolidated Results

Our service revenues and sales for the third quarter of 2009 increased 2.9% versus services and sales revenues for the third quarter of 2008. Of this increase, \$12.1 million was attributable to VITAS offset by a \$3.6 million decrease at Roto-Rooter. The following chart shows the components of those changes (dollar amounts in thousands):

		Increas	se/(De	ecrease)		
	1	Amount		Percent		
VITAS						
Routine homecare	\$	7,347		4.9%		
Continuous care		4,905		15.8%		
General inpatient		(98)	-0.4%		
Medicare cap		(43)	-		
Roto-Rooter						
Plumbing		(721)	-2.0%		
Drain cleaning		(2,865)	-8.3%		
Other		(43)	-0.4%		
Total	\$	8,482		2.9%		

The increase in VITAS' revenues for the third quarter of 2009 versus the third quarter of 2008 was a result of increased admissions of 3.1%, the October 1, 2008 Medicare reimbursement rate increase of approximately 3.5%, partially offset by a 1.2% increase in the number of discharged patients. The remaining difference is related to the timing within the quarter of admissions and discharges as well as a mix shift to higher acuity days of care. In excess of 90% of VITAS' service revenues for the period were from Medicare and Medicaid.

The decrease in the plumbing revenues for the third quarter of 2009 versus 2008 is attributable to a 9.8% increase in the average price per job and a 9.4% decrease in the number of jobs performed. The average price per job for plumbing is attributable to an increase in the number of jobs requiring excavation work. Drain cleaning revenues for the third quarter of 2009 versus 2008 reflect a 7.9% decline in the number of jobs, while the average price per job increased 0.1%. The decrease in other revenues is attributable primarily to lower sales of drain cleaning products.

The consolidated gross margin was 29.6% in the third quarter of 2009 as compared with 29.8% in the third quarter of 2008. On a segment basis, VITAS' gross margin was 23.4% in the third quarter of 2009 and 23.6% in the third quarter of 2008. The Roto-Rooter segment's gross margin was 46.4% in the third quarter of 2009 and 45.1% in the third quarter of 2008. The increase in Roto-Rooter's gross margin was primarily the result of a \$646,000 decrease in health insurance expense over the prior year quarter, lower fuel costs due to lower gas prices and fewer technicians in training which improves the overall efficiency of our workforce.

Selling, general and administrative expenses ("SG&A") for the third quarter of 2009 were \$48.1 million, an increase of \$4.1 million (9.4%) versus the third quarter of 2008. The increase is primarily related to the impact of stock market gains which increase the liabilities of deferred compensation plans held in trust and an increase in stock-based compensation expense over the comparable prior-year period. Other income increased \$3.6 million in the third quarter of 2008 to \$1.7 million in the third quarter of 2009 due to the gain in the investments of deferred compensation plans held in trust which offsets the related expense in SG&A.

Our effective income tax rate decreased from 43.2% in the third quarter of 2008 to 39.3% in the third quarter of 2009. This decrease is due to the impact of non-deductible market losses on investments in our deferred compensation benefit trusts that occurred during the third quarter of 2008 but did not recur during the third quarter of 2009.

Net income for both periods included the following after-tax special items/adjustments that increased/ (reduced) after-tax earnings (in thousands):

	Three Months Ended September 30,						
		2009	-		2008		
VITAS							
Costs associated with the OIG investigations	\$	(213)	\$	(1)	
Corporate							
Stock option expense		(1,401)		(1,334)	
Noncash interest expense related to change in							
accounting							
for conversion feature of the convertible notes		(1,006)		(997)	
Impact of non-deductible losses and non-taxable gains							
on							
investments held in deferred compensation trusts		-			(1,237))	
Total	\$	(2,620)	\$	(3.569)	

Three months ended September 30, 2009 versus 2008 - Segment Results

The change in after-tax earnings for the third quarter of 2009 versus the third quarter of 2008 is due to (in thousands):

	Net In	come
	Increase/(Decrease)
	Amount	Percent
VITAS	\$ 706	4.0%
Roto-Rooter	31	0.4%
Corporate	1,522	17.8%
	\$ 2,259	13.3%

Nine months ended September 30, 2009 versus 2008 - Consolidated Results

Our service revenues and sales for the first nine months of 2009 increased 3.5% versus services and sales revenues for the first nine months of 2008. Of this increase, \$34.2 million was attributable to VITAS offset by a \$3.9 million decrease at Roto-Rooter. The following chart shows the components of those changes (dollar amounts in thousands):

		Increase/(Decrease)					
		1	Amount		Percent		
VITAS							
	Routine homecare	\$	20,085		4.6%		
	Continuous care		13,662		14.8%		
	General inpatient		(1,691)	-2.3%		
	Medicare cap		192		-		
	BNAF adjustment		1,950		-		
Roto-R	ooter						
	Plumbing		4,052		3.8%		
	Drain cleaning		(7,370)	-6.7%		
	Other		(629)	-1.7%		
	Total	\$	30,251		3.5%		

The increase in VITAS' service revenues for the first nine months of 2009 versus the first nine months of 2008 is primarily the result of the 2008 Medicare reimbursement rate increase of approximately 3.5%, a \$1.95 million

increase for the BNAF related to the fourth quarter of 2008, a net reversal of Medicare cap reserves of \$192,000, as well as favorable mix shift to higher acuity days of care and an ADC increase of 0.5% compared with the prior year period. The increase in ADC is a result of a 0.4% increase in routine homecare, an increase of 8.4% in continuous care and a 5.4% decrease in general inpatient. In excess of 90% of VITAS' service revenues for the period were from Medicare and Medicaid.

-20-

The increase in the plumbing revenues for the first nine months of 2009 versus 2008 is attributable to a 14.6% increase in the average price per job offset by an 8.9% decrease in the number of jobs performed. The average price per job for plumbing is attributable to an increase in the number of jobs requiring excavation work. Drain cleaning revenues for the first nine months of 2009 versus 2008 reflect a 7.4% decline in the number of jobs offset by a 0.9% increase in the average price per job. The decrease in other revenues is attributable primarily to lower sales of drain cleaning products and decreased revenue from independent contractor operations.

The consolidated gross margin was 29.7% for the first nine months of 2009 as compared with 28.9% for the first nine months of 2008. On a segment basis, VITAS' gross margin was 23.4% for the first nine months of 2009 and 21.8% for the first nine months of 2008. VITAS' gross margin increased as the result of the \$1.95 million BNAF adjustment related to fourth quarter of 2008, the net reversal of \$192,000 in the Medicare cap accrual and refinements to scheduled field labor. The Roto-Rooter segment's gross margin was 45.9% for the first nine months of 2009 and 45.6% for the first nine months of 2008.

Selling, general and administrative expenses ("SG&A") for the first nine months of 2009 were \$143.5 million, an increase of \$10.5 million (7.9%) versus the first nine months of 2008. The increase is due mainly to the impact of stock market gains which increase the liabilities of deferred compensation plans held in trust, an increase in stock-based compensation expense over the comparable period of 2008 as well as an increase in bad debt expense at VITAS. The expense associated with the increase in the liabilities of deferred compensation plans held in trust is essentially offset with gains recognized in other income/(expense). Also included in the first nine months of 2009 is a \$1.6 million increase in stock option expense.

Other operating expenses for the first nine months of 2009 of \$4.0 million are related to the expenses of a contested proxy solicitation.

Other income/(expense) increased from an expense of \$2.2 million for the first nine months of 2008 to income of \$4.8 million for the first nine months of 2009 due to the gain in the investments of deferred compensation plans held in trust.

Our effective income tax rate decreased from 40.3% for the first nine months of 2008 to 39.0% for the first nine months of 2009.

Net income for both periods included the following after-tax special items/adjustments that increased/ (reduced) after-tax earnings (in thousands):

		e Mont

VITAS has 4 large (greater than 450 ADC), 19 medium (greater than 200 but less than 450 ADC) and 21 small (less than 200 ADC) hospice programs. There are three continuing programs as of September 30, 2009, with Medicare cap cushion of less than 10% for the 2009 Medicare cap period.

Direct patient care margins exclude indirect patient care and administrative costs, as well as Medicare cap billing limitation.

Recent Accounting Statements

In June 2009, the FASB issued additional authoritative guidance related to the consolidation of variable interest entities, which makes significant changes to the model for determining who should consolidate an entity and also addresses how often this assessment should be performed. The determination of who should consolidate a variable interest entity will be based on both quantitative and qualitative factors relating to control, as well as risks and benefits of ownership. This guidance is effective in 2010 for calendar-year companies and is to be adopted through a cumulative-effect adjustment. We are currently evaluating the impact of adoption of these provisions on our existing accounting methods.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995 Regarding Forward-Looking Information

Certain statements contained in this report are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. The words "believe", "expect", "hope", "anticipate", "plan" and similar expressions ident forward-looking statements, which speak only as of the date the statement was made. These forward-looking statements are based on current expectations and assumptions and involve various known and unknown risks, uncertainties, contingencies and other factors, which could cause Chemed's actual results to differ from those expressed in such forward-looking statements. Variances in any or all of the risks, uncertainties, contingencies, and other factors from our assumptions could cause actual results to differ materially from these forward-looking statements and trends. In addition, our ability to deal with the unknown outcomes of these events, many of which are beyond our control, may affect the reliability of projections and other financial matters. Investors are cautioned that such forward-looking statements are subject to inherent risk and there are no assurances that the matters contained in such statements will be achieved. Chemed does not undertake and specifically disclaims any obligation to publicly update or revise any forward-looking statements, whether as a result of a new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Our primary market risk exposure relates to interest rate risk exposure through variable interest rate borrowings. At September 30, 2009, we had no variable rate debt outstanding. At September 30, 2009, the fair value of the Notes approximates \$153.8 million which have a face value of \$187.0 million.

Item 4. Controls and Procedures

We carried out an evaluation, under the supervision of our President and Chief Executive Officer and with the participation of the Executive Vice President and Chief Financial Officer and the Vice President and Controller, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the President and Chief Executive Officer, Executive Vice President and Chief Financial Officer and Vice President and Controller have concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report. There has been no change in our internal control over financial reporting that occurred during the quarter covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
