NOTES TO CONDENSED FINANCIAL STATEMENTS (unaudited)

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited financial statements were prepared in accordance with instructions for Form 10-Q and, therefore, do not include information or footnotes necessary for a complete presentation of financial condition, results of operations, and cash flows in conformity with U.S. generally accepted accounting principles US GAAP. All adjustments, consisting of normal recurring accruals, which, in the opinion of management, are necessary for fair presentation of the financial statements, have been included. The results of operations for the period ended June 30, 2010, are not necessarily indicative of the results which may be expected for the entire fiscal year or for any other period. For further information, refer to the financial statements and footnotes thereto for the year ended December 31, 2009 included in PureSpectrum Inc.'s Form 10-K.

Certain prior year amounts have been reclassified to conform to the 2010 presentation.

NOTE 2 - RECENT ACCOUNTING PRONOUNCEMENTS

The Company's management does not believe that recent codified pronouncements by the Financial Accounting Standards Board FASB will have a material impact on the Company's current or future financial statements.

NOTE 3 - SUMMARY OF ORGANIZATION

PureSpectrum, Inc. (the "Company"), formerly International Medical Staffing, Inc., is a Delaware corporation incorporated on March 21, 2007. The Company is in the business of developing, marketing, licensing, and contract manufacturing of lighting technology for use in residential, commercial, and industrial applications worldwide.

The Company is authorized to issue 950 million shares, consisting of (a) 900 million shares of common stock, par value \$0.0001 per share and (b) 50 million shares of preferred stock, par value \$0.0001 per share, which may be issuable in one or more series. Each common share is entitled to one vote and shareholders have no preemptive or conversion rights. As of June 30, 2010, and December 31, 2009, there were 351,691,363 and 215,455,090 common shares issued and outstanding, respectively. The Company's Board of Directors may, without further action by the shareholders, direct the issuance of preferred stock for any proper corporate purpose with preferences, voting powers, conversion rights, qualifications, special or relative rights and privileges which could adversely affect the voting power or other rights of shareholders of common stock. As of June 30, 2010, and December 31, 2009, there were no shares of the Company's

Edgar Filing: PURESPECTRUM, INC. - Form 10-Q

preferred stock issued or outstanding.

NOTE 4 - GOING CONCERN

The accompanying financial statements have been prepared in conformity with US GAAP, which contemplate continuation of the Company as a going concern and the realization of assets and liquidation of liabilities in the normal course of business. The Company has incurred net losses from operations of \$5,109,113 for the six months ended June 30, 2010. In addition, at June 30, 2010, the Company has an accumulated deficit of \$19,320,272 and negative working capital of \$826,114.

These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern.

The Company recorded its first revenues in October 2009 and is no longer a development stage company. The Company has not yet generated sufficient working capital to support its operations. The Company's ability to continue as a going concern is dependent, among other things, on its ability to minimize costs, enter into revenue generating contracts and obtain additional revenues to eventually attain a profitable level of operations.

The Company has been engaged in developing, marketing, licensing, and contract manufacturing of fluorescent lighting technology for use in residential, commercial, and industrial applications worldwide. There can be no assurance that the Company will be successful in the commercialization of the fluorescent lighting technology that will generate sufficient revenues to sustain the operations of the Company.

Management plans to obtain additional capital investments to enable the Company to continue operations and increase revenues in 2010. There is no assurance that management will be able to successfully generate revenue and/or reduce expenses sufficient to attain profitability, or continue to attract the capital necessary to support the business.

5

NOTE 5 - NET LOSS PER SHARE

Basic net loss per share is computed by dividing net loss attributable to common shareholders by the weighted average number of common shares outstanding for the period, without consideration for common stock equivalents. Diluted net loss per share reflects the potential dilution that could occur if securities were exercised or converted into common stock using the treasury stock method. Diluted net loss per share is computed by dividing the net loss by the weighted average number of common share equivalents outstanding for the period determined using the treasury-stock method. For purposes of this calculation, convertible preferred stock, stock options and warrants are considered to be common stock equivalents and are only included in the calculation of diluted net loss per share when their effect is dilutive.

NOTE 9 - OPERATING LEASES AND OTHER COMMITMENTS AND CONTINGENCIES

Rental of office space and data processing equipment under operating leases were approximately \$52,216 and \$45,050 for the six months ended June 30, 2010 and 2009, respectively.

NOTE 10 - RELATED PARTY TRANSACTIONS

A member of the Board of Directors is also a partner in the Company's primary outside legal counsel. During the six months ended June 30, 2010, the firm billed the Company \$18,412 in legal fees.

NOTE 11 - SUBSEQUENT EVENTS

On July 1, 2010, the Company issued 3,424,658 shares of common stock in exchange for the debt purchase of \$25,000.00 aged debt due to certain consultants.

On July 1, 2010, the Company issued 3,424,658 shares of common stock in exchange for the debt purchase of \$25,000.00 aged debt due to certain consultants.

During the month of July, 2010, the company issued Common Stock Purchase Warrants that totaled 3,698,191 to employees as a normal course of business and to a Board Member in recognition of their service to the company

On July 12, 2010, the Company issued 2,705,479 shares of common stock at an investor's request to convert \$18,750.00 plus \$1,000.00 accrued but unpaid interest of an Amended and Restated Convertible Promissory Note in the principal amount of \$37,500.00.

Edgar Filing: PURESPECTRUM, INC. - Form 10-Q

On July 9, 2010, the Company issued an Amendment to Common Stock Purchase Warrants to satisfy the account payable balance remaining from an Advance Agreement. The three original warrants, for a total amount of 1,000,000 shares each, were re-priced from their original price per share of \$1.00, \$1.25 and \$1.50 to \$0.0083. The Amendment required the immediate exercise of all aforementioned warrants. The Company issued the 3,000,000 available shares from the re-priced warrants on July 14, 2010 satisfying the account payable balance.

On July 15, 2010, the Company issued a Promissory Note in the amount of \$25,000. The Note is due August 15, 2010. In conjunction with the issuance of the Note, the Company issued to the lender a four year stock purchase warrant for 3,000,000 shares with an exercise price of \$1.00 per share.

On July 15, 2010, the Company issued a Promissory Note in the amount of \$25,000. The Note is due August 15, 2010. In conjunction with the issuance of the Note, the Company issued to the lender a four year stock purchase warrant for 3,000,000 shares with an exercise price of \$1.00 per share.

On July 29, 2010, the Company issued 11,587,280 shares of common stock in exchange for the cancellation of a \$231,745.60 Promissory Note.

On July 29, 2010, the Company issued an Amendment to Common Stock Purchase Warrants to satisfy the account payable balance remaining from an Advance Agreement. The three original warrants, for a total amount of 1,000,000 shares each, were re-priced from their original price per share of \$1.00, \$1.25 and \$1.50 to \$0.0083. The Amendment required the immediate exercise of all aforementioned warrants. The Company issued the 3,000,000 available shares from the re-priced warrants on July 29, 2010 satisfying the account payable balance.

On August 3, 2010, the Company issued 2,817,404 shares of common stock at an investor's request to convert the remaining balance of an Amended and Restated Convertible Promissory Note.

On August 3, 2010, the Company issued a Promissory Note in the amount of \$40,000. The Note is due September 3, 2010. In conjunction with the issuance of the Note, the Company issued to the lender a four year stock purchase warrant for 3,000,000 shares with an exercise price of \$1.00 per share.

On July 7, 2010, the Company issued a Common Stock Purchase Warrant for a total of 150,000 shares as agreed to in a Consulting Agreement.

In August, 2010, the company issued Common Stock Purchase Warrants for a total of 14,700,000 shares to two investors retrospectively.

On August 13, 2010, the Company issued a Promissory Note in the amount of \$40,000. The Note is due September 13, 2010.

On August 17, 2010 the Company issued 7,500,000 shares of common stock in exchange for the debt purchase of \$15,000 aged debt due to certain consultants

ITEM 2. - Management's Discussion and Analysis of Financial Condition and Results of Operations

From time to time, including in this quarterly report, the Company or its representatives have made and may make forward-looking statements, orally or in writing, including those contained herein. Such forward-looking statements may

Edgar Filing: PURESPECTRUM, INC. - Form 10-Q

be included in, without limitation, reports to stockholders, press releases, oral statements made with the approval of an authorized executive officer of the Company and filings with the Securities and Exchange Commission. The words or phrases "anticipates," "hopes," "expects," "will continue," "believes," "estimates," "projects," or similar expressions are intended to identify "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. The results contemplated by the Company's forward-looking statements are subject to certain risks and uncertainties that could cause actual results to vary materially from anticipated results, including without limitation, material availability and cost of materials, availability and cost of labor, demand for the Company's products, competitive conditions affecting selling prices and margins, capital costs and general economic conditions. Such risks and uncertainties are discussed in more detail in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2009.

The Company's forward-looking statements represent its judgment only on the dates such statements were made. By making any forward-looking statements, the Company assumes no duty to update them to reflect new, changed or unanticipated events or circumstances.

Plan of Operation

During the second quarter of 2010 and subsequent weeks, the Company has continued its efforts to develop, identify and introduce high-quality, high-performance dimmable energy efficient lighting products. While steady progress has been made in several critical areas, a lack of financial resources has prevented the Company from advancing product development and achieving sales volume according to expectations and prior projections. As a result of the Company being unable to secure and allocate appropriate financial resources for and to product development and product manufacturing, the Company will not be able to meet its previously disclosed revenue projection of \$66 million for 2010. As was disclosed in November 2009 and on several occasions subsequent to the initial release of the revenue projection, the expected revenue from sales was contingent upon the infusion of a minimum of \$6 million in additional capital to finance the completion of product development, product manufacturing and product delivery as well as certain other operational costs. As of the date of this filing, the Company has raised substantially less than the \$6 million which was needed to accommodate the product development schedules to enable the Company to generate the expected revenue. As a result, the Company's progress toward its goals has not been entirely interrupted but has been significantly impeded. The Company is continuing to pursue financing options which would provide the resources necessary to accelerate product manufacturing and delivery, but any revision to the revenue projection would be based on multiple contingencies at this time. The Company will release a formal revenue revision after funding has been secured and product delivery schedules can be finalized.

On July 6, 2010, the Company announced that it had entered into a letter of intent with Ultra-Tech Lighting, a New Jersey limited liability corporation, outlining a potential combination of the two energy efficient lighting companies. The initial terms of the proposed business combination were not released; as of this filing the transaction had not been completed but options to bring the transaction to closure were being explored. Due to the various scenarios which are being discussed between the two companies, no timeline for the completion of the transaction has been established.

During the second quarter, the Company established a foothold in New York's commercial real estate market through an electrical distributor that services the greater New York area. As a result of the efforts of the Company's sales staff and the distributor, several large commercial properties in New York initiated pilot programs to test the Company's step dimming ballasts and/or fixtures. New York City has embraced an institutional focus on enhancing energy

Edgar Filing: PURESPECTRUM, INC. - Form 10-Q

efficiency in its private and municipal buildings, and PureSpectrum's step dimming has been marketed as an ideal cost effective solution which will provide immediate energy savings for commercial properties. The Company has received exceedingly positive feedback from its prospective customers and hopes that several of these properties to purchase ballasts, linear fluorescent fixtures or step-dimming systems (step dimming in conjunction with motion sensors) to either retrofit or replace existing lighting. Accordingly, the Company also hopes to be able to pursue more commercial leads with its distributor in New York and replicate this urban commercial property outreach in other metropolitan areas focused on energy consumption reduction. The quest for increased energy efficiency in commercial and industrial lighting applications is growing and demand for dimmable linear fluorescent lighting is expected to expand during the coming years. PureSpectrum has been able to bring an affordable dimming solution to market in one of the world's largest commercial markets, and the Company continues to work diligently on completing additional dimmable linear fluorescent products which would enable the Company to offer a diverse commercial/industrial product line and take advantage of demonstrated needs in the marketplace. Clearly, the completion of the product line is contingent upon the aforementioned infusion of capital, but the Company earnestly believes the goal of being recognized as a market leader for dimmable energy efficient lighting is within reach.

9

Product development and manufacturing of both proprietary and non-proprietary Compact Fluorescent Lamps (CFL) have been impacted by the Company's ongoing financial stress. Several of the Company's proprietary CFLs have successfully completed testing for approval by the Federal Communications Commission and been submitted for UL testing. However, the completion of UL testing will be dependent upon the availability of sufficient financial resources. During the second quarter and subsequent weeks, several non-proprietary CFL products have been added to PureSpectrum's product mix and been listed as Energy Star certified. Orders have been submitted to the Company's manufacturing partners in China in order to inventory those CFL products in the United States. But the execution and delivery of those orders will be contingent on the availability of sufficient funding to absorb the cost of production. The Company has continued to sell its 20-watt dimmable CFLs on Amazon.com and through its distributors, and customer feedback regarding the performance of the 20-watt bulb has been positive. The Company has sold thousands of bulbs through Amazon.com and experienced very few returns, and the Company has received reorders from several utilities and retailers that purchased the 20-watt. Through the reception the Company received during appearances at LightFair International and the National Hardware Retailers Show in Las Vegas in the second quarter, the Company has reaffirmed the existence of a demand and the diversity of applications for high quality, high performance specialty CFL bulbs in the marketplace. As a result of relationships that have been established with distributors, the Company believes interest in its dimmable CFLs will increase when the Company is capable of offering a full line of bulbs to include multiple styles and wattages which address varying consumer demands.

The inability of the Company to raise capital, the inability of the Company to manufacture its products as a result of the costs thereof or defects in either the design and/or manufacturing processes and the resulting inability of the Company to finance purchases of products have had a direct impact on the Company's ability to make significant progress towards its stated revenue goal. Although the Company has not met its own ambitious expectations for revenue generation thus far in 2010, the Company is confident that it can generate substantial revenue in 2010 given appropriate resources and the availability of its full product line.

However, there is no assurance that the Company's sales and fundraising efforts

Edgar Filing: PURESPECTRUM, INC. - Form 10-Q

will prove successful in generating sufficient funding to finance operations going forward. Obviously, the Company's plan of operation also remains dependent on its access to additional investment capital. There is no assurance that the Company can achieve that access to capital within the necessary timeframe.

Results of Operations

Revenues

For the six months ended June 30, 2010, we recognized \$18,750 in revenues compared to no revenues for the six months ended June 30, 2009.

Expenses

For the six months ended June 30, 2010, our expenses were \$3,197,775 compared with \$3,075,086 for the six months ended June 30, 2009. These expenses were primarily comprised of professional and consulting fees (\$800,305 for 2010 compared to \$921,917 for 2009), compensation (\$689,931 for 2010 compared to \$690,141 for 2009), research and development expenses (\$249,090 for 2010 compared to 324,573 for 2009), other general and administrative expenses (\$849,905 for 2010 compared to \$731,814 for 2009), as well as share based compensation (\$608,541 for 2010 compared to \$406,641 for 2009). The increases in most categories reflect an overall expansion of our business in 2010 in an effort to bring proprietary products to market and identifying, evaluating and entering into agreements to purchase and resell non-proprietary products.

Income (loss)

For the six months ended June 30, 2010, our net loss was \$5,109,113 compared with a net loss of \$3,375,522 for the six months ended June 30, 2009.

10

Liquidity and Capital Resources

Our balance sheet as of June 30, 2010 shows that we had \$10,497 cash on hand. As of June 30, 2010, our current assets were \$1,366,489 and our current liabilities were \$2,192,605, resulting in negative working capital of \$826,114. Assuming that the average monthly sales volume of our products during the first six months of 2010 continues for the rest of 2010, we estimate that we will require approximately \$4,500,000 to fund our operations for the calendar year 2010. During this quarter, we have raised approximately \$1,678,000 through the exercise of warrants and the sale of shares of common stock and convertible notes in private placements. There is no assurance that we will be able to obtain the necessary funds required for continued operations. There is no assurance that additional financing will be available to us when needed or if available, that it can be obtained on commercially reasonable terms. If we are not able to obtain additional financing on a timely basis, we will not be able to meet our obligations as they become due and we will be forced to decrease or cease operations. The issuance of additional equity securities by us could result in significant dilution in the equity interests of our current stockholders. Obtaining additional loans, including commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

Going Concern

Our financial statements contain a note regarding concern about our ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of that uncertainty.

Edgar Filing: PURESPECTRUM, INC. - Form 10-Q

Off Balance Sheet Arrangements

There are no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in our financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date the financial statements and the reported amounts of revenue and expenses during the period. Accordingly, actual results could differ from those estimates. Note 1 of the "Notes to Financial Statements" in our annual report on Form 10-K for the year ended December 31, 2009, includes a summary of the significant accounting policies and methods used in the preparation of our financial statements. For the period ended June 30, 2010, there were no significant changes to our critical accounting policies.

ITEM 3. - Quantitative And Qualitative Disclosures About Market Risk

Not applicable.

ITEM 4(T). - Controls and Procedures.

(a) Disclosure Controls and Procedures.

As of June 30, 2010, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, management has evaluated the effectiveness of the design and operations of the Company's disclosure controls and procedures. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were not effective as of June 30, 2010 as a result of the material weakness in internal control over financial reporting discussed below.

(b) Changes in Internal Control over Financial Reporting.

There have been no changes in the Company's processes and procedures during the six months ended June 30, 2010, that materially affected or is reasonably expected to materially affect the Company's internal control over financial reporting. However, Gregory K. Clements was appointed Chief Financial Officer on June 15, 2010.

Management's Report on Internal Control over Financial Reporting.

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process designed by, or under the supervision of, our Chief Executive Officer and Vice President of Administration and Chief Financial Officer to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. Internal control over financial reporting includes policies and procedures that (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the Company's transactions; (ii) provide reasonable assurance that transactions are recorded as necessary for preparation of our financial statements and that receipts and expenditures of

Edgar Filing: PURESPECTRUM, INC. - Form 10-Q

the Company's assets are made in accordance with authorizations of our management and directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that a misstatement of the Company's financial statements would be prevented or detected.

The Company's management conducted an evaluation of the effectiveness of our internal control over financial reporting as of June 30, 2010 using the criteria set forth in the Internal Control over Financial Reporting - Guidance for Smaller Public Companies issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based upon the evaluation, Management concluded that the Company's internal control over financial reporting was not effective as of June 30, 2010, because of material weaknesses in its internal control over financial reporting. A material weakness is a control deficiency that results in a more than remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis by employees in the normal course of their assigned functions. Management concluded that we have several material weaknesses in our internal control over financial reporting because of inadequate segregation of duties over authorization, review and recording of transactions as well as the financial reporting of such transactions. Due to the Company's limited resources, management has not developed a plan to mitigate the above material weaknesses. Despite the existence of these material weaknesses, we believe the financial information presented herein is materially correct and in accordance with the generally accepted accounting principles.

12

PART II

ITEM 1. - Legal Proceedings

As of June 30, 2010, the Company was not involved in any legal proceedings.

ITEM 1A. Risk Factors

Not applicable.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

Not applicable

ITEM 3. Defaults Upon Senior Securities

Not applicable

ITEM 4 - [Removed and Reserved]

ITEM 5. - Other Information

There is no information that was required to be disclosed by the Company on Form 8-K during the second quarter of 2010, that was not reported.

ITEM 6. - Exhibits

- 31.1 Certification of Chief Executive Officer
- 31.2 Certification of Chief Financial Officer
- 32.1 Certifications of the Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the

Edgar Filing: PURESPECTRUM, INC. - Form 10-Q

Sarbanes-Oxley Act of 2002

13

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
