Item 8.01 Other Events.

On February 2, 2010, we received notice from Elm Road Services, LLC ("ERS") that, effective February 2, 2010, Bechtel Power Corporation ("Bechtel") had completed final performance testing of Elm Road Unit 1, the first of two 615-megawatt coal-fired generating units being constructed in Oak Creek, Wisconsin. That unit was placed into commercial operation on February 2, 2010. ERS has informed us that Bechtel is currently targeting turnover of the second generating unit in the fall of 2010.

MGE Energy owns, through its subsidiary, MGE Power Elm Road, LLC, an 8.33% interest in each of the Elm Road Units, which it has leased to Madison Gas and Electric Company pursuant to separate facility lease agreements. These leases were authorized by order of the Public Service Commission of Wisconsin in accordance with applicable provisions of Wisconsin law that authorized financing of new generation through facility leases. The base term of the Elm Road Unit 1 facility lease agreement commenced with the commercial operation of that Unit on February 2, 2010. See Note 6 of Notes to Consolidated Financial Statements in our quarterly report on Form 10-Q for the quarter ended September 30, 2009, for additional information regarding the Elm Road Units.
