PART I

Unless otherwise indicated, the term "Company" refers collectively to Bed Bath & Beyond Inc. and subsidiaries as of February 27, 2016. The Company's fiscal year is comprised of the 52 or 53 week period ending on the Saturday nearest February 28. Accordingly, fiscal 2015, fiscal 2014 and fiscal 2013 represented 52 weeks and ended on February 27, 2016, February 28, 2015 and March 1, 2014, respectively. Unless otherwise indicated, all references herein to periods of time (e.g., quarters and years) are to fiscal periods.

ITEM 1 – BUSINESS

Introduction

Bed Bath & Beyond Inc. and subsidiaries (the “Company”) is a retailer which operates under the names Bed Bath & Beyond (“BBB”), Christmas Tree Shops, Christmas Tree Shops andThat! or andThat! (collectively, “CTS”), Harmon or Harmon Face Values (collectively, “Harmon”), buybuy BABY (“Baby”) and World Market, Cost Plus World Market or Cost Plus (collectively, “Cost Plus World Market”). Customers can purchase products from the Company either in-store, online, with a mobile device or through a contact center. The Company generally has the ability to have customer purchases picked up in-store or shipped direct to the customer from the Company’s distribution facilities, stores or vendors. In the second quarter of fiscal 2015, the Company acquired Of a Kind, an e-commerce website that features specially commissioned, limited edition items from emerging fashion and home designers. The Company also operates Linen Holdings, a provider of a variety of textile products, amenities and other goods to institutional customers in the hospitality, cruise line, healthcare and other industries. Additionally, the Company is a partner in a joint venture which operates seven retail stores in Mexico under the name Bed Bath & Beyond.

The Company sells a wide assortment of domestics merchandise and home furnishings. Domestics merchandise includes categories such as bed linens and related items, bath items and kitchen textiles. Home furnishings include categories such as kitchen and tabletop items, fine tabletop, basic housewares, general home furnishings, consumables and certain juvenile products.

The Company’s strategy is centered on its customer-centric culture and its commitment to customer service:

- To do more for and with its customers wherever, whenever and however they wish to interact with the Company.
 - To provide its customers a seamless experience whether they interact with the Company in a store, through one of its contact centers, on a desktop, tablet, smartphone or through social media.
- To be viewed as the expert for the home, including the accompanying life stages that make a house a home, and to become the destination for customers’ needs and wants as they express their life interests and travel through their life stages, all through the expanding and differentiated products, services and solutions the Company offers.

The Company's objective is to be its customers' first choice for products and services in the categories offered, in the markets, channels and countries in which the Company operates, as those customers express their life interests and travel through their various life stages. The Company strives to accomplish this objective through excellent customer service, including new products, services and solutions, and by offering an extensive breadth and depth of differentiated merchandise at the right value. The Company is also enhancing its ability to achieve this objective through an ongoing commitment to world class information and interactive technology, comprehensive analytics and targeted marketing and communications.

History

The Company was founded in 1971 by Warren Eisenberg and Leonard Feinstein, the Co-Chairmen of the Company. Each has more than 50 years of experience in the retail industry.

The Company commenced operations in 1971 with the opening of two stores, which primarily sold bed linens and bath accessories. In 1985, the Company introduced its first store carrying a full line of domestics merchandise and home furnishings. The Company began using the name "Bed Bath & Beyond" in order to reflect the expanded product line offered by its stores and to distinguish its stores from conventional specialty retail stores offering only domestics merchandise or home furnishings. In 2002, the Company acquired Harmon, a health and beauty care retailer, which operated 27 stores at the time located in three states. In 2003, the Company acquired CTS, a retailer of giftware and household items, which operated 23 stores at the time located in six states. In 2007, the Company acquired Baby, a retailer of infant and toddler merchandise, which operated eight stores at the time located in four states. In 2007, the Company opened its first international BBB store in Ontario, Canada. In 2008, the Company became a partner in a joint venture which operated two stores at the time in the Mexico City market under the name "Home & More," which were rebranded as Bed Bath & Beyond in fiscal 2012. In June 2012, the Company acquired Linen Holdings, LLC ("Linen Holdings"), a provider of a variety of textile products, amenities and other goods to institutional customers in the hospitality, cruise line, healthcare and other industries, and Cost Plus, Inc. ("Cost Plus World Market"), a retailer selling a wide range of home decorating items, furniture, gifts, holiday and other seasonal items, and specialty food and beverages, which operated 258 stores at the time located in 30 states under the names of World Market, Cost Plus World Market or Cost Plus. In 2014, the Company opened its first international Baby store in Alberta, Canada. In 2015, the Company acquired Of a Kind, an e-commerce website that features specially commissioned, limited edition items from emerging fashion and home designers.

The Company accounts for its operations as two operating segments: North American Retail and Institutional Sales. The Institutional Sales operating segment, which is comprised of Linen Holdings, does not meet the quantitative thresholds under U.S. generally accepted accounting principles and therefore is not a reportable segment. Net sales outside of the U.S. were not material for fiscal 2015, 2014 and 2013.

Operations

The Company strives to do more for and with its customers by: offering an extensive breadth and depth of differentiated merchandise at the right value; presenting merchandise in a distinctive manner designed to maximize customer convenience and reinforce customer perception of a wide selection; and providing excellent customer service, including new products, services and solutions. The Company continues to expand, differentiate and leverage its assortment across all channels, concepts and countries in which it operates, to better engage with its customers wherever, whenever and however they express their life interests and travel through their life stages. Through its growing analytic capabilities and omnichannel marketing approaches, the Company strives to more efficiently and effectively understand and satisfy its customers' needs.

Pricing. The Company believes in offering its customers high quality and differentiated products, services and solutions at the right value. The Company regularly monitors price levels at its competitors in order to ensure that its prices are in accordance with its pricing philosophy. The Company believes that the application of its pricing philosophy is an important factor in establishing its reputation among customers.

Merchandising. The Company sells a wide assortment of domestics merchandise and home furnishings. Domestics merchandise includes categories such as bed linens and related items, bath items and kitchen textiles. Home furnishings include categories such as kitchen and tabletop items, fine tabletop, basic housewares, general home furnishings, consumables and certain juvenile products. The Company strives to tailor its merchandise mix as appropriate to respond to changing trends and conditions and extend the Company's ability to satisfy its customers' life interests as they travel through their life stages. The Company, on an ongoing basis, tests new merchandise categories and adjusts the categories of merchandise carried in-store, online or available for order in-store and may add new product categories or expand its merchandise assortment as appropriate. Enhanced capabilities on some of the Company's selling websites now allow for the sale of personalized product, vendor direct-to-consumer items and product that utilizes "less than truckload" shipping. Additionally, the Company continues to integrate the merchandise assortments among its concepts. The Company believes that the process of adding new product categories, integrating the Company's merchandise within concepts, and expanding or reducing the size of various product categories in response to changing conditions is an important part of its merchandising strategy.

The Company has developed a style of merchandise presentation where groups of related product lines are presented together. The Company believes that this approach to merchandise presentation makes it easy for customers to locate products and reinforces customer perception of a wide selection. Also, the Company continues to improve the functionality, general search and navigation features across its customer facing online websites and mobile applications so that customers can find products more effectively.

Advertising. In general, the Company relies on “word of mouth advertising,” its reputation for offering a wide assortment of quality merchandise at the right value and the use of paid advertising. Primary vehicles of paid advertising used by the Company include full-color circulars and other advertising communications distributed via direct mail or inserts, as well as digital media including email, mobile SMS, social, search, digital display and online affiliate advertising. The Company also utilizes its data to develop marketing communications across all platforms communicating content and product offerings to customers through increasingly personalized messaging linked to individual interests and life stages.

Customer Service. The Company’s longstanding culture of customer service encourages its associates to create a noticeably better shopping experience for each and every customer. Through its customer centric policies and emphasis on life interests and life stage events, the Company stresses the importance of each personalized customer relationship. The Company’s best-in-class registry services for wedding, baby, college and other life events provide a unique opportunity to deepen customer relationships by demonstrating a high level of customer service during important life stages. The Company continues to focus its efforts and investments on ensuring that it constantly improves every customer experience at every touch point and in every channel.

Suppliers

In fiscal 2015, the Company purchased its merchandise from approximately 9,100 suppliers with the Company’s largest supplier accounting for approximately 4% of the Company’s merchandise purchases and the Company’s 10 largest suppliers accounting for approximately 15% of such purchases. The Company purchases substantially all of its merchandise in the United States, the majority from domestic sources and the balance from importers. The Company purchases a small amount of its merchandise directly from overseas sources. The Company has no long term contracts for the purchase of merchandise. The Company believes that most merchandise, other than brand name goods, is available from a variety of sources and that most brand name goods can be replaced with comparable merchandise.

Distribution of Merchandise

A substantial portion of the Company’s merchandise is shipped to stores through a combination of third party facilities, including cross dock locations, or Company operated distribution facilities which are primarily located throughout the United States. The remaining merchandise for stores is shipped directly from vendors. Merchandise is shipped directly

to customers from one of the Company operated distribution facilities, a vendor or store. Shipments are made by contract carriers depending upon location.

See Item 2 – Properties for additional information regarding the Company’s distribution facilities.

Employees

As of February 27, 2016, the Company employed approximately 62,000 persons in full-time and part-time positions. The Company believes that its relations with its employees are very good and that the labor turnover rate among its management employees is lower than that generally experienced within the industry.

Seasonality

The Company's sales exhibit seasonality with sales levels generally higher in the calendar months of August, November and December, and generally lower in February.

Growth

The Company strives to do more for and with its customers by: offering an extensive breadth and depth of differentiated merchandise at the right value; presenting merchandise in a distinctive manner designed to maximize customer convenience and reinforce customer perception of a wide selection; and providing excellent customer service, including new products, services and solutions. The Company is pursuing its growth objectives by investing in its omnichannel capabilities, optimizing its store operations and market coverage, including international expansion; leveraging its combined expertise and product knowledge to provide products and services to hospitality, travel and other institutional customers; and continuously reviewing opportunities for strategic acquisitions.

The Company continues to expand, differentiate and leverage its assortment across all channels, concepts and countries in which it operates, to better engage with its customers wherever, whenever and however they express their life interests and travel through their life stages. Through its growing analytic capabilities and omnichannel marketing approaches, the Company strives to more efficiently and effectively understand and satisfy its customers' needs.

In the 24-year period from the beginning of fiscal 1992 to the end of fiscal 2015, the chain has grown from 34 stores to 1,530 stores plus its various websites, other interactive platforms and distribution facilities. The Company's 1,530 stores operate in all 50 states, the District of Columbia, Puerto Rico and Canada, including: 1,020 BBB stores and through bedbathandbeyond.com and bedbathandbeyond.ca, 276 Cost Plus World Market stores and through worldmarket.com, 105 Baby stores and through buybuybaby.com and buybuybaby.ca, 78 CTS stores and through christmastreeshops.com and andthat.com and 51 Harmon stores and through harmondiscout.com and facevalues.com. Total store square footage, net of openings and closings, grew from approximately 0.9 million square feet at the beginning of fiscal 1992 to approximately 43.3 million square feet at the end of fiscal 2015. In addition, as of February 27, 2016, the Company has distribution facilities totaling 6.1 million square feet. The Company plans to open a new distribution facility in Lewisville, Texas, in the fall of 2016. During fiscal 2015, the Company opened a total of 29 new stores, closed 12 stores and opened a new customer contact center in Layton, Utah and a new distribution facility in Las Vegas, Nevada. Additionally, the Company is a partner in a joint venture which operated a total of seven stores as of February 27, 2016 in Mexico under the name Bed Bath & Beyond.

The Company plans to continue to expand its operations and invest in its infrastructure to reach its long-term objectives. In connection with leveraging its merchandise offerings and optimizing its operations, the Company continues to expand, across selected stores, the number of specialty departments such as health and beauty care, baby,

specialty food, and beverage. Also, the Company is committed to the continued growth of its merchandise categories and channels and is growing the number of items it is able to have shipped directly to customers from a vendor. The continued growth of the Company is dependent, in part, upon the Company's ability to execute these and other key initiatives successfully.

The Company has built its management structure with a view toward its growth and believes that, as a result, it has the necessary management depth.

Competition

The Company operates in the fragmented and highly competitive retail industry. The Company competes with many different types of retailers, including omnichannel retailers, that sell many or most of the same products. Such competitors include, but are not limited to, department stores, specialty retailers, discount and mass merchandise retailers, national chains and online only retailers. In addition, the Company competes, to a more limited extent, with factory outlet stores. Other entities continue to introduce new concepts that include many of the product lines offered by the Company. There can be no assurance that the operation of competitors will not have a material adverse effect on the Company.

Tradenames and Service Marks

The Company uses the service marks “Bed Bath & Beyond,” “buybuy BABY,” “Christmas Tree Shops,” “andThat!,” “Harmon Face Values,” “Cost Plus,” “World Market,” “Cost Plus World Market” and “Of a Kind” in connection with its retail services. The Company has registered trademarks and service marks or is seeking registrations for these and other trademarks and service marks with the United States Patent and Trademark Office. In addition, the Company has registered or has applications pending with the trademark registries of several foreign countries, including having registered the “Bed Bath & Beyond” name and logo in Canada and Mexico and having registered the “buybuy BABY” name and logo in Canada. In addition, the Company owns a number of product trademarks. The Company also files patent applications and seeks copyright registrations where it deems such to be advantageous to the business. Management believes that its name recognition and service marks are important elements of the Company’s merchandising strategy.

Available Information

The Company makes available as soon as reasonably practicable after filing with the Securities and Exchange Commission (“SEC”), free of charge, through its website, www.bedbathandbeyond.com, the Company’s annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports, electronically filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934.

ITEM 1A – RISK FACTORS

FORWARD-LOOKING STATEMENTS

This Form 10-K contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. The Company's actual results and future financial condition may differ materially from those expressed in any such forward-looking statements as a result of many factors. Such factors include the following:

General economic factors beyond the Company's control and changes in the economic climate could adversely affect the Company's performance.

General economic factors that are beyond the Company's control could impact the Company's forecasts and actual performance. These factors include housing markets, recession, inflation, deflation, consumer credit availability, consumer debt levels, fuel and energy costs, interest rates, tax rates and policy, unemployment trends, the impact of natural disasters, civil disturbances and terrorist activities, foreign currency exchange rate fluctuations, conditions affecting the retail environment for products sold by the Company and other matters that influence consumer spending. Changes in the economic climate could adversely affect the Company's performance.

The Company operates in the highly competitive retail business where the use of emerging technologies as well as unanticipated changes in the pricing and other practices of competitors may adversely affect the Company's performance.

The retail business is highly competitive. The Company competes for customers, employees, locations, merchandise, technology, services and other important aspects of the business with many other local, regional and national retailers. Those competitors range from specialty retailers to department stores and discounters as well as online and multichannel retailers. Specifically, rapidly evolving technologies are altering the manner in which the Company and its competitors communicate and transact with customers; the Company's execution of its own omnichannel strategy to adapt to these changes, in relation to its competitors' actions as well as to its customers adoption of new technology, presents a specific risk. Further, unanticipated changes in pricing and other practices of the Company's competitors, including promotional activity and rapid price fluctuation enabled by technology, may adversely affect the Company's performance.

The Company's failure to anticipate and respond in a timely fashion to changes in consumer preferences and demographic factors may adversely affect the Company's financial condition and results of operations.

The Company's success depends on its ability to anticipate and respond in a timely manner to changing merchandise trends, customer demands and demographics. The Company's failure to anticipate, identify or react appropriately to changes in customer tastes, preferences, shopping and spending patterns and other life interest decisions could lead to, among other things, excess inventories or a shortage of products and may adversely affect the Company's financial condition and results of operations.

Unusual weather patterns could adversely affect the Company's performance.

The Company's operating results could be negatively impacted by unusual weather patterns. Frequent or unusually heavy snow, ice or rain storms, hurricanes, floods, tornados or extended periods of unseasonable temperatures could adversely affect the Company's performance.

A major disruption of the Company's information technology systems could negatively impact operating results.

The Company's operating results could be negatively impacted by a major disruption of the Company's information technology systems. The Company relies heavily on these systems to process transactions, manage inventory replenishment, summarize results and control distribution of products. Despite numerous safeguards and careful contingency planning, these systems are still subject to power outages, computer viruses, telecommunication failures, security breaches and other catastrophic events. A major disruption of the systems and their backup mechanisms may cause the Company to incur significant costs to repair the systems, experience a critical loss of data and/or result in business interruptions.

A breach of the Company's data security systems or those of its third party service providers could have a negative impact on the Company's operating results and financial performance due to possible loss of consumer confidence, as well as potential government penalties and private litigation.

The Company processes, transmits, stores and maintains certain information about its customers and employees in the ordinary course of business. In connection with certain activities, including without limitation credit card processing, website hosting, data encryption and software support, the Company utilizes third party service providers, and the Company believes it takes appropriate steps to require such providers to secure such information and to assess their ability to do so. The Company invests considerable resources in protecting this sensitive information but is still subject to a possible security event, including but not limited to cybercrimes or cybersecurity attacks which may not be detected for a period of time. A breach of its security systems or those of its third party service providers resulting in unauthorized access to stored personal information could negatively impact the Company's operating results and financial performance. Certain aspects of the business, particularly the Company's websites, heavily depend on consumers entrusting personal financial information to be transmitted securely over public networks. A loss of consumer confidence from such a breach could result in lost future sales and have a material adverse effect on the Company's reputation. In addition, a breach could cause the Company to incur significant costs to restore the integrity of its systems, could require the devotion of significant management resources, and could result in significant costs in government penalties and private litigation.

A failure of the Company's suppliers to adhere to appropriate laws, regulations or standards could negatively impact its reputation.

The Company purchases substantially all of its merchandise in the United States, the majority from domestic sources and the balance from importers. The Company purchases a small amount of its merchandise directly from overseas sources. The failure of one of the Company's domestic or foreign suppliers to adhere to labor, environmental, privacy, health and safety laws, regulations and standards could negatively impact the Company's reputation and have an adverse effect on the Company's results of operations.

Damage to the reputation of the Company in any aspect of its operations could potentially impact its operating and financial results.

The Company's reputation is based, in part, on perceptions of subjective qualities, so incidents involving the Company, its products or the retail industry in general that erode customer trust or confidence could adversely affect the Company's reputation and its business. As the Company increases the number of items it is able to have shipped directly from a vendor to a customer for home delivery or in home assembly, any deficiencies in the performance of these third party merchandise vendors and service providers could also have an adverse effect on the Company's reputation, despite the Company's monitoring controls and procedures. In addition, challenges to the Company's compliance with a variety of social, product, labor and environmental standards could also jeopardize its reputation and lead to adverse publicity, especially in social media. The use of social media by the Company and consumers has

also increased the risk that the Company's reputation could be negatively impacted. The availability of information and opinion on social media is immediate, as is its impact. The opportunity for dissemination of information, including inaccurate and inflammatory information and opinion, is virtually limitless. Information about or affecting the Company is easily accessible and rapidly disseminated.

Damage to the reputation of the Company in any aspect of its operations could potentially impact its operating and financial results as well as require additional resources to rebuild its reputation.

Changes in statutory, regulatory, and other legal requirements at a local, state or provincial and national level could potentially impact the Company's operating and financial results.

The Company is subject to numerous statutory, regulatory and legal requirements at a local, state or provincial and national level. The Company's operating results could be negatively impacted by developments in these areas due to the costs of compliance in addition to possible government penalties and litigation in the event of deemed noncompliance. Changes in the regulatory environment in the area of product safety, environmental protection, privacy and information security, wage and hour laws, among others, could potentially impact the Company's operations and financial results.

New, or developments in existing, litigation, claims or assessments could potentially impact the Company's operating and financial results.

The Company is involved in litigation, claims and assessments incidental to the Company's business, the disposition of which is not expected to have a material effect on the Company's financial position or results of operations. It is possible, however, that future results of operations for any particular quarterly or annual period could be materially affected by changes in the Company's assumptions related to these matters. While outcomes of such actions vary, any such claim or assessment against the Company could potentially impact the Company's operations and financial results.

Changes to accounting rules, regulations and tax laws, or new interpretations of existing accounting standards or tax laws could negatively impact the Company's operating results and financial position.

The Company's operating results and financial position could be negatively impacted by changes to accounting rules and regulations or new interpretations of existing accounting standards. The Company's effective income tax rate could be impacted by changes in accounting standards as well as changes in tax laws or the interpretations of these tax laws by courts and taxing authorities which could negatively impact the Company's financial results.

The success of the Company is dependent, in part, on managing costs of labor, merchandise and other expenses that are subject to factors beyond the Company's control.

The Company's success depends, in part, on its ability to manage operating costs and to look for opportunities to reduce costs. The Company's ability to meet its labor needs while controlling costs is subject to external factors such as unemployment levels, prevailing wage rates, minimum wage legislation, labor organizing activities and changing demographics. The Company's ability to find qualified merchandise vendors and service providers and obtain access to

products in a timely and efficient manner can be adversely affected by political instability, the financial instability of suppliers, suppliers' noncompliance with applicable laws, transportation costs, disruptions to its supply chain network serving the Company's stores, distribution facilities and customers due to labor disturbances and other items, and other factors beyond the Company's control.

Disruptions of the Company's supply chain could have an adverse effect on the Company's operating and financial results.

Disruption of the Company's supply chain capabilities due to political instability, weather, natural disaster, terrorism, product recalls, labor supply or stoppages, the financial and/or operational instability of key suppliers and carriers, or other reasons could impair the Company's ability to distribute its products. To the extent the Company is unable to mitigate the likelihood or potential impact of such events, there could be an adverse effect on the Company's operating and financial results.

The success of the Company is dependent, in part, on the ability of its employees in all areas of the organization to execute its business plan and, ultimately, to satisfy its customers.

The Company's ability to attract and retain qualified employees in all areas of the organization may be affected by a number of factors, including geographic relocation of employees, operations or facilities and the highly competitive markets in which the Company operates, including the markets for the types of skilled individuals needed to support the Company's continued success.

The success of the Company is dependent, in part, on its ability to establish and profitably maintain the appropriate mix of digital and physical presence in the markets it serves.

The Company's success depends, in part, on its ability to develop its digital capabilities in conjunction with optimizing its physical store operations and market coverage, while maintaining profitability. The Company's ability to develop these capabilities will depend on a number of factors, including its assessment and implementation of emerging technologies. The Company's ability to optimize its store operations and market coverage requires active management of its real estate portfolio in a manner that permits store sizes, layouts, locations and offerings to evolve over time, which to the extent it involves the relocation of existing stores or the opening of additional stores will depend on a number of factors, including its identification and availability of suitable locations; its success in negotiating leases on acceptable terms; and its timely development of new stores, including the availability of construction materials and labor and the absence of significant construction and other delays based on weather or other events. These factors could potentially increase the cost of doing business and the risk that the Company's business practices could result in liabilities that may adversely affect its performance, despite the exercise of reasonable care.

Disruptions in the financial markets could have an adverse effect on the Company's ability to access its cash and cash equivalents.

The Company may have amounts of cash and cash equivalents at financial institutions that are in excess of federally insured limits. While the Company closely manages its cash and cash equivalents balances to minimize risk, if there were disruptions in the financial markets, the Company cannot be assured that it will not experience losses on its deposits.

The Company's stock price has been and may continue to be subject to volatility, and this and other factors may affect elements of the Company's capital allocation strategy such as share repurchases and dividends.

The Company's stock price has experienced volatility over time and this volatility may continue, in part due to factors such as those mentioned in this Item 1A. Stock volatility in itself may adversely affect shareholder confidence as well as employee morale and retention for those associates who receive equity grants as part of their compensation packages. The impact on employee morale and retention could adversely affect the Company's business performance and financial results. Stock volatility and other factors may also affect elements of the Company's capital allocation strategy.

As part of its capital allocation strategy, since December 2004, the Company's Board of Directors has authorized several share repurchase programs, and in April 2016, the Board of Directors authorized a quarterly dividend program. Decisions regarding share repurchases and dividends are within the discretion of the Board of Directors, and will be influenced by a number of factors, including the price of the Company's common stock, general business and economic conditions, the Company's financial condition and operating results, the emergence of alternative investment or acquisition opportunities, changes in business strategy and other factors. Changes in, or the elimination of, the Company's share repurchase programs or its dividend could have an adverse effect on the price of the Company's common stock.

The Company's business would be adversely affected if the Company is unable to service its debt obligations.

The Company has incurred indebtedness under senior unsecured notes and has entered into a senior unsecured revolving credit facility. The Company's ability to pay interest and principal when due, comply with debt covenants or repurchase the senior unsecured notes if a change of control occurs, will depend upon, among other things, sales and cash flow levels and other factors that affect its future financial and operating performance, including prevailing economic conditions and financial and business factors, many of which are beyond the Company's control.

If the Company becomes unable in the future to generate sufficient cash flow to meet its debt service requirements, it may be forced to take remedial actions such as restructuring or refinancing its debt; seeking additional debt or equity capital; reducing or delaying its business activities, or selling assets. There can be no assurance that any such measures would be successful.

The Company has acquired several businesses and continues to evaluate potential business initiatives, including acquisitions, any of which could adversely impact the Company's performance.

The Company believes it carefully evaluates and plans for the integration of newly acquired businesses, as well as carefully prepares for and executes on other business combinations and strategic initiatives that are part of the success of its business. However, such activities involve certain inherent risks, including the failure to retain key personnel from an acquired business; undisclosed or subsequently arising liabilities; challenges in the successful integration of operations, aligning standards, policies and systems; and the potential diversion of management resources from existing operations to respond to unforeseen issues arising in the context of the integration of a new business or initiative.

ITEM 1B – UNRESOLVED STAFF COMMENTS

None.

ITEM 2 – PROPERTIES

Most of the Company's stores are located in suburban areas of medium and large-sized cities. These stores are situated in strip and power strip shopping centers, as well as in major off-price and conventional malls, and in free standing buildings.

The Company's 1,530 stores are located in all 50 states, the District of Columbia, Puerto Rico and Canada and range in size from approximately 5,000 to 100,000 square feet, but are predominantly between 18,000 and 50,000 square feet. Approximately 85% to 90% of store space is used for selling areas.

The table below sets forth the locations of the Company's stores as of February 27, 2016:

| | | | |
|---------------|-----|------------------------------|-----|
| Alabama | 24 | New York | 96 |
| Alaska | 2 | North Carolina | 45 |
| Arizona | 42 | North Dakota | 3 |

|------------|----|-------|-------|
| New Mexico | 10 | Total | 1,530 |
|------------|----|-------|-------|

The Company leases substantially all of its existing stores. The leases provide for original lease terms that generally range from 10 to 15 years and most leases provide for renewal options, often at increased rents. The Company evaluates leases on an ongoing basis which may lead to renegotiated lease terms, including rents during renewal options, or the possible relocation of stores. Certain leases provide for scheduled rent increases (which, in the case of fixed increases, the Company accounts for on a straight-line basis over the committed lease term, beginning when the Company obtains possession of the premises) and/or for contingent rent (based upon store sales exceeding stipulated amounts).

The Company has distribution facilities, which ship merchandise to stores and customers, totaling approximately 6.1 million square feet consisting of three owned and 15 leased facilities. In addition, the Company has entered into a lease for a new distribution facility in Lewisville, Texas, which is planned to open in the fall of 2016, which will be approximately 800,000 square feet.

As of February 27, 2016, the Company has approximately 813,000 square feet within 17 leased and owned facilities for procurement and corporate office functions. In addition, the Company has seven locations, totaling approximately 14,000 square feet, which are utilized primarily for institutional sales related functions.

ITEM 3 –LEGAL PROCEEDINGS

The Company is party to various legal proceedings arising in the ordinary course of business, which the Company does not believe to be material to the Company's business or financial condition.

ITEM 4 –MINE SAFETY DISCLOSURES

Not Applicable.

PART II

**ITEM 5 – MARKET FOR REGISTRANT’S COMMON EQUITY, RELATED SHAREHOLDER MATTERS
AND ISSUER PURCHASES OF EQUITY SECURITIES**

The following table sets forth the high and low reported closing prices of the Company’s common stock on the NASDAQ National Market System for the periods indicated.

| | High | Low |
|--------------|---------|---------|
| Fiscal 2015: | | |
| 1st Quarter | \$77.68 | \$69.65 |
| 2nd Quarter | 71.53 | 59.93 |
| 3rd Quarter | 63.33 | 52.89 |
| 4th Quarter | 54.52 | 41.94 |

| | High | Low |
|--------------|---------|---------|
| Fiscal 2014: | | |
| 1st Quarter | \$69.80 | \$60.51 |
| 2nd Quarter | 64.53 | 56.70 |
| 3rd Quarter | 73.69 | 62.40 |
| 4th Quarter | 79.45 | 71.12 |

The common stock is quoted through the NASDAQ National Market System under the symbol BBBY. On March 26, 2016, there were approximately 5,900 shareholders of record of the common stock (without including individual participants in nominee security position listings). On March 26, 2016, the last reported sale price of the common stock was \$49.40.

Since its 1992 initial public offering, the Company had not paid cash dividends on its common stock. Subsequent to the end of fiscal 2015, on April 6, 2016, the Company’s Board of Directors authorized a quarterly dividend program, and declared an initial quarterly dividend of \$.125 per share to be paid on July 19, 2016 to shareholders of record as of June 17, 2016. The Company expects to pay quarterly cash dividends on its common stock, in the future, subject to the determination by the Board of Directors based on an evaluation of the Company’s earnings, financial condition and requirements, business conditions and other factors.

Since 2004 through the end of fiscal 2015, the Company has repurchased approximately \$9.7 billion of its common stock through share repurchase programs. The Company’s purchases of its common stock during the fourth quarter of fiscal 2015 were as follows:

| Period | Total Number of Shares Purchased (1) | Average Price Paid per Share (2) | Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1) | Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (1) (2) |
|---------------------------------------|--|--|---|--|
| | | | | |
| November 29, 2015 - December 26, 2015 | 1,678,100 | \$ 53.21 | 1,678,100 | \$ 2,521,183,987 |
| December 27, 2015 - January 23, 2016 | 1,939,600 | \$ 47.01 | 1,939,600 | \$ 2,430,012,849 |
| January 24, 2016 - February 27, 2016 | 3,338,100 | \$ 43.90 | 3,338,100 | \$ 2,283,473,397 |
| Total | 6,955,800 | \$ 47.01 | 6,955,800 | \$ 2,283,473,397 |

Between December 2004 and September 2015, the Company's Board of Directors authorized, through several share repurchase programs, the repurchase of \$11.950 billion of its shares of common stock. The Company has authorization to make repurchases from time to time in the open market or through other parameters approved by the Board of Directors pursuant to existing rules and regulations. Shares purchased indicated in this table also include shares withheld to cover employee related taxes on vested restricted shares and performance stock unit awards.

(2) Excludes brokerage commissions paid by the Company.

Stock Price Performance Graph

The graph shown below compares the performance of the Company's common stock with that of the S&P 500 Index, the S&P Specialty Retail Index and the S&P Retail Composite Index over the same period (assuming the investment of \$100 in the Company's common stock and each of the three Indexes on February 26, 2011, and the reinvestment of dividends, if any).

ITEM 6 –SELECTED FINANCIAL DATA.

| Consolidated Selected Financial Data (in thousands, except per share and selected operating data) | Fiscal Year Ended (1) | | | | |
|---|-----------------------|----------------------|------------------|----------------------|----------------------|
| | February 27, 2016 | February 28, 2015 | March 1, 2014 | March 2, 2013 (2) | February 25, 2012 |
| Statement of Earnings Data: | | | | | |
| Net sales | \$ 12,103,887 | \$ 11,881,176 | \$ 11,503,963 | \$ 10,914,585 | \$ 9,499,890 |
| Gross profit | 4,620,310 | 4,619,779 | 4,565,582 | 4,388,755 | 3,930,933 |
| Operating profit | 1,414,903 | 1,554,293 | 1,614,587 | 1,638,218 | 1,568,369 |
| Net earnings | 841,489 | 957,474 | 1,022,290 | 1,037,788 | 989,537 |
| Net earnings per share - Diluted | \$ 5.10 | \$ 5.07 | \$ 4.79 | \$ 4.56 | \$ 4.06 |
| Selected Operating Data: | | | | | |
| Number of stores open (at period end) | 1,530 | 1,513 | 1,496 | 1,471 | 1,173 |
| Total square feet of store space (at period end) | 43,274,000 | 43,041,000 | 42,619,000 | 42,030,000 | 36,125,000 |
| Percentage increase in comparable sales | 1.0 | % 2.4 | % 2.4 | % 2.7 | % 5.9 |
| Comparable sales (in 000's) (3) | \$ 11,722,973 | \$ 11,517,454 | \$ 10,660,573 | \$ 9,819,904 | \$ 9,157,183 |
| Balance Sheet Data (at period end): | | | | | |
| Working capital | \$ 1,958,737 | \$ 2,140,922 | \$ 1,953,851 | \$ 2,216,323 | \$ 2,760,619 |
| Total assets | 6,498,940 | 6,758,993 | 6,356,033 | 6,279,952 | 5,724,546 |
| Long-term sale/leaseback and capital lease obligations | 109,274 | 106,948 | 108,046 | 108,364 | - |
| Long-term debt (4) | 1,500,000 | 1,500,000 | - | - | - |
| Shareholders' equity (5) (6) | \$ 2,559,540 | \$ 2,743,190 | \$ 3,941,287 | \$ 4,079,730 | \$ 3,922,528 |

(1) Each fiscal year represents 52 weeks, except for fiscal 2012 (ended March 2, 2013) which represents 53 weeks.

(2) The Company acquired Linen Holdings, LLC. on June 1, 2012 and Cost Plus, Inc. on June 29, 2012.

- (3) Comparable sales include sales consummated through all retail channels which have been operating for twelve full months following the opening period (typically four to six weeks). Of a Kind (acquired in the second quarter of fiscal 2015) is excluded from the comparable sales calculation and will continue to be excluded until after the anniversary of the acquisition. Linen Holdings is excluded from the comparable sales calculations and will continue to be excluded on an ongoing basis as it represents non-retail activity. On July 17, 2014, the Company issued \$300 million aggregate principal amount of 3.749% senior unsecured notes due August 1, 2024, \$300 million aggregate principal amount of 4.915% senior unsecured notes due August 1, 2034 and \$900 million aggregate principal amount of 5.165% senior unsecured notes due August 1, 2044.
- (4) The Company has not declared any cash dividends in any of the fiscal years noted above. On April 6, 2016, the Company's Board of Directors authorized a quarterly dividend program, and declared an initial quarterly dividend of \$.125 per share to be paid on July 19, 2016 to shareholders of record as of June 17, 2016.
- (5) In fiscal 2015, 2014, 2013, 2012 and 2011, the Company repurchased approximately \$1.101 billion, \$2.251 billion, \$1.284 billion, \$1.001 billion and \$1.218 billion of its common stock, respectively.
- (6)

ITEM 7 – **MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

OVERVIEW

Bed Bath & Beyond Inc. and subsidiaries (the “Company”) is a retailer which operates under the names Bed Bath & Beyond (“BBB”), Christmas Tree Shops, Christmas Tree Shops andThat! or andThat! (collectively, “CTS”), Harmon or Harmon Face Values (collectively, “Harmon”), buybuy BABY (“Baby”) and World Market, Cost Plus World Market and Cost Plus (collectively, “Cost Plus World Market”). Customers can purchase products from the Company either in-store, online, with a mobile device or through a contact center. The Company generally has the ability to have customer purchases picked up in-store or shipped direct to the customer from the Company’s distribution facilities, stores or vendors. In the second quarter of fiscal 2015, the Company acquired Of a Kind, an e-commerce website that features specially commissioned, limited edition items from emerging fashion and home designers. The Company also operates Linen Holdings, a provider of a variety of textile products, amenities and other goods to institutional customers in the hospitality, cruise line, healthcare and other industries. Additionally, the Company is a partner in a joint venture which operates seven retail stores in Mexico under the name Bed Bath & Beyond.

The Company accounts for its operations as two operating segments: North American Retail and Institutional Sales. The Institutional Sales operating segment, which is comprised of Linen Holdings, does not meet the quantitative thresholds under U.S. generally accepted accounting principles and therefore is not a reportable segment.

The Company sells a wide assortment of domestics merchandise and home furnishings. Domestics merchandise includes categories such as bed linens and related items, bath items and kitchen textiles. Home furnishings include categories such as kitchen and tabletop items, fine tabletop, basic housewares, general home furnishings, consumables and certain juvenile products.

The Company’s strategy is centered on its customer-centric culture and its commitment to customer service:

- To do more for and with its customers wherever, whenever and however they wish to interact with the Company.
 - To provide its customers a seamless experience whether they interact with the Company in a store, through one of its contact centers, on a desktop, tablet, smartphone or through social media.
- To be viewed as the expert for the home, including the accompanying life stages that make a house a home, and to become the destination for customers’ needs and wants as they express their life interests and travel through their life stages, all through the expanding and differentiated products, services and solutions the Company offers.

The Company’s objective is to be its customers’ first choice for products and services in the categories offered, in the markets, channels and countries in which the Company operates, as those customers express their life interests and

travel through their various life stages. The Company strives to accomplish this objective through excellent customer service, including new products, services and solutions, and by offering an extensive breadth and depth of differentiated merchandise at the right value. The Company is also enhancing its ability to achieve this objective through its ongoing commitment to world class information and interactive technology, comprehensive analytics and targeted marketing and communications.

Operating in the highly competitive retail industry, the Company, along with other retail companies, is influenced by a number of factors including, but not limited to, general economic conditions including the housing market, unemployment levels and commodity prices; the overall macroeconomic environment and related changes in the retailing environment; consumer preferences, spending habits and adoption of new technologies; unusual weather patterns and natural disasters; competition from existing and potential competitors across all channels of distribution; potential supply chain disruption; and the ability to find suitable locations at acceptable occupancy costs and other terms to support the Company's plans for new stores. The Company cannot predict whether, when or the manner in which these factors could affect the Company's operating results.

The results of operations for the fiscal year ended February 27, 2016 include Of a Kind since the date of acquisition in the second quarter of fiscal 2015.

The following represents an overview of the Company's financial performance for the periods indicated:

Net sales in fiscal 2015 increased approximately 1.9% to \$12.104 billion; net sales in fiscal 2014 increased approximately 3.3% to \$11.881 billion over net sales of \$11.504 billion in fiscal 2013. On a constant currency basis, which is a non-GAAP measure, net sales increased approximately 2.3%, as compared with fiscal 2014. Net sales and comparable sales of the Company's foreign operations are calculated on a constant currency basis by translating the current year's respective sales of its foreign operations at the same exchange rates used in the prior year. The non-GAAP measure of net sales on a constant currency basis is intended to provide visibility into the Company's operations by excluding the effects of foreign currency exchange rate fluctuations.

Comparable sales in fiscal 2015 increased by approximately 1.0%, as compared with an increase of approximately 2.4% for both fiscal 2014 and fiscal 2013. On a constant currency basis, comparable sales for fiscal 2015 increased by 1.4%. For fiscal 2015, comparable sales consummated through customer facing online websites and mobile applications increased in excess of 25% over the corresponding period in the prior year, while comparable sales consummated in-store declined approximately 1% over the corresponding period in the prior year. For fiscal 2014, comparable sales consummated through customer facing online websites and mobile applications increased in excess of 50%, over the corresponding period in the prior year, while comparable sales consummated in-store were relatively flat to the corresponding period in the prior year.

Comparable sales include sales consummated through all retail channels which have been operating for twelve full months following the opening period (typically four to six weeks). The Company is an omnichannel retailer with capabilities that allow a customer to use more than one channel when making a purchase, including in-store, online, with a mobile device or through a contact center, and have it fulfilled, in most cases, either through in-store customer pickup or by direct shipment to the customer from one of the Company's distribution facilities, stores or vendors.

Sales consummated on a mobile device while physically in a store location are recorded as customer facing online websites and mobile applications sales. Customer orders reserved online and picked up in a store are recorded as in-store sales. In-store sales are reduced by sales originally consummated from customer facing online websites and mobile applications and subsequently returned in-store.

Stores relocated or expanded are excluded from comparable sales if the change in square footage would cause meaningful disparity in sales over the prior period. In the case of a store to be closed, such store's sales are not considered comparable once the store closing process has commenced. Of a Kind is excluded from the comparable sales calculation for fiscal 2015, and will continue to be excluded until after the anniversary of the acquisition. Cost Plus World Market was excluded from the comparable sales calculation through the end of the fiscal first half of 2013, and is included beginning with the fiscal third quarter of 2013. Linen Holdings is excluded from the comparable sales

calculations and will continue to be excluded on an ongoing basis as it represents non-retail activity.

Gross profit for fiscal 2015 and fiscal 2014 was \$4.620 billion; fiscal 2015 gross profit was 38.2% of net sales compared with 38.9% of net sales for fiscal 2014. Gross profit for fiscal 2013 was \$4.566 billion or 39.7% of net sales.

Selling, general and administrative expenses ("SG&A") for fiscal 2015 were \$3.205 billion or 26.5% of net sales compared with \$3.065 billion or 25.8% of net sales for fiscal 2014 and \$2.951 billion or 25.7% of net sales for fiscal 2013.

· Interest expense was \$87.5 million, \$50.5 million and \$1.1 million in fiscal 2015, 2014 and 2013, respectively.

The effective tax rate was 36.6%, 36.3% and 36.6% for fiscal years 2015, 2014 and 2013, respectively. The tax rate included discrete tax items resulting in net benefits of approximately \$14.8 million, \$20.0 million and \$20.0 million, respectively, for fiscal 2015, 2014 and 2013.

For the fiscal year ended February 27, 2016, net earnings per diluted share were \$5.10 (\$841.5 million), an increase of approximately 1%, as compared with net earnings per diluted share of \$5.07 (\$957.5 million) for fiscal 2014, which was an increase of approximately 6% from net earnings per diluted share of \$4.79 (\$1.022 billion) for fiscal 2013. For the fiscal years ended February 27, 2016 and February 28, 2015, the increases in net earnings per diluted share are the result of the impact of the Company's repurchases of its common stock, partially offset by the decrease in net earnings as a result of the items described above. Included in net earnings for the fiscal years ended February 27, 2016 and February 28, 2015, respectively, are net benefits of approximately \$0.06 per diluted share for certain non-recurring items, including a favorable state audit settlement and approximately \$0.04 per diluted share for certain non-recurring items, including a credit card fee litigation settlement.

Capital expenditures for fiscal 2015, 2014 and 2013 were \$328.4 million, \$330.6 million and \$320.8 million, respectively. A significant portion of the current year capital expenditures were for technology related projects with the remaining portion for new stores, existing store improvements, the new customer contact center in Layton, Utah, the new distribution facility in Las Vegas, Nevada and other projects. The Company continues to review and prioritize its capital needs and remains committed to making the required investments in its infrastructure to help position the Company for continued growth and success.

Several additional key initiatives include: continuing to add new functionality and assortment to its selling websites, mobile sites and applications; improving customer data integration and customer relations management capabilities; continuing to enhance service offerings to its customers; continuing to strengthen and deepen its information technology, analytics, marketing and e-commerce groups; and creating more flexible fulfillment options that will improve the Company's delivery capabilities and lower the Company's shipping costs. These and other investments are expected to, among other things, provide a seamless and compelling customer experience across the Company's physical and digital shopping environments.

During fiscal 2015, the Company opened a total of 29 new stores, closed 12 stores and opened a new customer contact center in Layton, Utah and a new distribution facility in Las Vegas, Nevada. The Company plans to continue to actively manage its real estate portfolio in order to permit store sizes, layouts, locations and offerings to evolve over time to optimize market profitability and will renovate or reposition stores within markets when appropriate. In fiscal 2016, the Company expects to open approximately 30 new stores company-wide, most of which are planned for new markets, close approximately 15 stores and open a new distribution facility. Additionally, during fiscal 2016, the Company expects to continue to invest in technology related projects, including the deployment of new systems and equipment in its stores, enhancements to the Company's digital, web and mobile capabilities, ongoing investment in data analytics and the continued development and deployment of a new point of sale system.

During fiscal 2015, 2014 and 2013, including the shares repurchased under an accelerated share repurchase agreement in fiscal 2014, the Company repurchased 18.4 million, 33.0 million and 18.3 million shares, respectively, of its common stock at a total cost of approximately \$1.101 billion, \$2.251 billion and \$1.284 billion, respectively.

Subsequent to the end of fiscal 2015, on April 6, 2016, the Company's Board of Directors authorized a quarterly dividend program, and declared an initial quarterly dividend of \$.125 per share to be paid on July 19, 2016 to shareholders of record as of June 17, 2016. The Company expects to pay quarterly cash dividends on its common stock, in the future, subject to the determination by the Board of Directors based on an evaluation of the Company's earnings, financial condition and requirements, business conditions and other factors.

In addition to the quarterly dividend program, the Company's share repurchase program may be influenced by several factors, including business and market conditions. In addition, the Company reviews its alternatives with respect to its capital structure on an ongoing basis.

RESULTS OF OPERATIONS

The following table sets forth for the periods indicated (i) selected statement of earnings data of the Company expressed as a percentage of net sales and (ii) the percentage change in dollar amounts from the prior year in selected statement of earnings data:

| | Fiscal Year Ended | | | Percentage Change | | | |
|--|-------------------------|-------------------|---------------|-------------------|-------------------|--|--|
| | Percentage of Net Sales | | | from Prior Year | | | |
| | February 27, 2016 | February 28, 2015 | March 1, 2014 | February 27, 2016 | February 28, 2015 | | |
| Net sales | 100.0% | 100.0% | 100.0% | 1.9 % | 3.3 % | | |
| Cost of sales | 61.8 | 61.1 | 60.3 | 3.1 | 4.7 | | |
| Gross profit | 38.2 | 38.9 | 39.7 | 0.0 | 1.2 | | |
| Selling, general and administrative expenses | 26.5 | 25.8 | 25.7 | 4.6 | 3.9 | | |
| Operating profit | 11.7 | 13.1 | 14.0 | (9.0) | (3.7) | | |
| Interest expense, net | 0.7 | 0.4 | 0.0 | 73.3 | 4,326.1 | | |
| Earnings before provision for income taxes | 11.0 | 12.7 | 14.0 | (11.7) | (6.8) | | |
| Provision for income taxes | 4.0 | 4.6 | 5.1 | (11.1) | (7.6) | | |
| Net earnings | 7.0 | 8.1 | 8.9 | (12.1) | (6.3) | | |

Net Sales

Net sales in fiscal 2015 increased \$222.7 million to \$12.104 billion, representing an increase of 1.9% over \$11.881 billion of net sales in fiscal 2014, which increased \$377.2 million or 3.3% over the \$11.504 billion of net sales in fiscal 2013. On a constant currency basis, which is a non-GAAP measure, net sales for fiscal 2015 increased approximately 2.3%. Net sales and comparable sales of the Company's foreign operations are calculated on a constant currency basis by translating the current year's respective sales of its foreign operations at the same exchange rates used in the prior year. The non-GAAP measure of net sales on a constant currency basis is intended to provide visibility into the Company's operations by excluding the effects of foreign currency exchange rate fluctuations. For fiscal 2015, approximately 55% of the increase was attributable to an increase in comparable sales and the remainder was primarily attributable to an increase in the Company's new store sales and Linen Holdings. For fiscal 2014, approximately 71% of the increase was attributable to an increase in comparable sales and the remainder was primarily attributable to an increase in the Company's new store sales.

The increase in comparable sales for fiscal 2015 and fiscal 2014 was approximately 1.0% and 2.4%, respectively. The increase in comparable sales for fiscal 2015 was due to an increase in the average transaction amount, offset by a slight decrease in the number of transactions. The increase in comparable sales for fiscal 2014 was due to increases in both the average transaction amount and the number of transactions. On a constant currency basis, comparable sales for fiscal 2015 increased approximately 1.4%.

The Company's comparable sales metric considers sales consummated through all retail channels – in-store, online, with a mobile device or through a contact center. Customers today may take advantage of the Company's omnichannel environment by using more than one channel when making a purchase. The Company believes an integrated experience must exist among these channels to provide a seamless customer experience. A few examples are: a customer may be assisted by an in-store associate to create a wedding or baby registry, while the guests may ultimately purchase a gift from the Company's websites; or, a customer may research a particular item, and read other customer reviews on the Company's websites before visiting a store to consummate the actual purchase; or a customer may reserve an item online for in-store pick up; or while in a store, a customer may make the purchase on a mobile device for in home delivery from either a distribution facility, a store or directly from a vendor. In addition, the Company accepts returns in-store without regard to the channel in which the purchase was consummated, therefore resulting in reducing store sales by sales originally consummated through customer facing online websites and mobile applications. As the Company's retail operations are integrated and it cannot reasonably track the channel in which the ultimate sale is initiated, the Company can however provide directional information on where the sale was consummated.

For fiscal 2015, comparable sales consummated through customer facing online websites and mobile applications increased in excess of 25% over the corresponding period in the prior year, while comparable sales consummated in-store declined approximately 1% over the corresponding period in the prior year. For fiscal 2014, comparable sales consummated through customer facing online websites and mobile applications increased in excess of 50%, over the corresponding period in the prior year, while comparable sales consummated in-store were relatively flat to the corresponding period in the prior year.

Comparable sales represented \$11.723 billion, \$11.517 billion and \$10.661 billion of net sales for fiscal 2015, 2014 and 2013, respectively.

Sales of domestics merchandise accounted for approximately 35.9%, 35.9% and 36.1% of net sales in fiscal 2015, 2014 and 2013, respectively, of which the Company estimates that bed linens accounted for approximately 12% of net sales in fiscal 2015, fiscal 2014 and fiscal 2013, respectively. The remaining net sales in fiscal 2015, 2014 and 2013 of 64.1%, 64.1% and 63.9%, respectively, represented sales of home furnishings. No other individual product category accounted for 10% or more of net sales during fiscal 2015, 2014 or 2013.

Gross Profit

Gross profit in fiscal 2015, 2014 and 2013 was \$4.620 billion or 38.2% of net sales, \$4.620 billion or 38.9% of net sales and \$4.566 billion or 39.7% of net sales, respectively. The decrease in the gross profit margin as a percentage of net sales between fiscal 2015 and 2014 was primarily attributed to a decrease in merchandise margin. Also contributing were increases in coupon expense, resulting from an increase in redemptions and a slight increase in the average coupon amount, and net direct to customer shipping expense. The decrease in the gross profit margin as a percentage of net sales between fiscal 2014 and 2013 was primarily attributed to an increase in coupon expense

resulting from an increase in redemptions, partially offset by a slight decrease in the average coupon amount, and an increase in net direct to customer shipping expense, which was impacted by a reduction in the bedbathandbeyond.com free shipping threshold. The one year anniversary of the bedbathandbeyond.com free shipping threshold occurred in February 2015.

Selling, General and Administrative Expenses

SG&A was \$3.205 billion or 26.5% of net sales in fiscal 2015, \$3.065 billion or 25.8% of net sales in fiscal 2014 and \$2.951 billion or 25.7% of net sales in fiscal 2013. The percentage of net sales increase in SG&A between fiscal 2015 and 2014 was primarily due to, in order of magnitude, increased technology expenses and related depreciation and increased advertising expenses, due in part to the growth in digital advertising. The percentage of net sales increase in SG&A between fiscal 2014 and 2013 was primarily due to increased technology expenses and related depreciation and increased advertising expenses, partially offset by relative decreases in payroll and payroll related items (including salaries), occupancy expenses (including rent) and the year over year net benefits of certain non-recurring items, primarily relating to credit card fee litigation in the fiscal third quarter of 2014. The increase in technology expenses and related depreciation, as a percentage of net sales, represented approximately 30 basis points for fiscal 2014 as compared to the same period in the prior year.

Operating Profit

Operating profit for fiscal 2015 was \$1.415 billion or 11.7% of net sales, \$1.554 billion or 13.1% of net sales in fiscal 2014 and \$1.615 billion or 14.0% of net sales in fiscal 2013. The changes in operating profit as a percentage of net sales between fiscal 2015 and 2014 and between fiscal 2014 and 2013 were the result of the changes in gross profit margin and SG&A as a percentage of net sales as described above.

The Company believes operating margin compression is likely to continue in fiscal 2016 as a result of several items, including increases in, as a percentage of net sales, coupon expense, net direct to customer shipping expense, additional payroll start-up costs associated with the opening of the Company's Lewisville, Texas distribution facility, investments in compensation and benefits, and technology-related expenses, including depreciation related to the Company's ongoing investments. In addition, the year-over-year comparison of operating margin will be impacted by the non-recurring benefit relating to the state audit settlement which occurred in fiscal 2015.

Interest Expense, net

Interest expense, net was \$87.5 million, \$50.5 million and \$1.1 million in fiscal 2015, 2014 and 2013, respectively. For fiscal 2015 and fiscal 2014, interest expense, net primarily related to interest on the senior unsecured notes issued in July 2014.

Income Taxes

The effective tax rate was 36.6% for fiscal 2015, 36.3% for fiscal 2014 and 36.6% for fiscal 2013. For fiscal 2015 and fiscal 2013, the tax rate included net benefits of approximately \$14.8 million and \$20.0 million, respectively, primarily due to the recognition of favorable discrete state tax items. For fiscal 2014, the tax rate included net benefits of approximately \$20.0 million, primarily due to the recognition of favorable discrete federal and state tax items.

Potential volatility in the effective tax rate from year to year may occur as the Company is required each year to determine whether new information changes the assessment of both the probability that a tax position will effectively be sustained and the appropriateness of the amount of recognized benefit.

GROWTH

The Company strives to do more for and with its customers by: offering an extensive breadth and depth of differentiated assortment of merchandise at the right value; presenting merchandise in a distinctive manner designed to maximize customer convenience and reinforce customer perception of a wide selection; and providing excellent customer service, including new products, services and solutions. The Company is pursuing its growth objectives by investing in its omnichannel capabilities, optimizing its store operations and market coverage, including international expansion; leveraging its combined expertise and product knowledge to provide products and services to hospitality, travel and other institutional customers; and continuously reviewing opportunities for strategic acquisitions.

The Company continues to expand, differentiate and leverage its merchandise assortment across all channels, concepts and countries in which it operates, to better engage with its customers wherever, whenever and however they express their life interests and travel through their life stages. Through its growing analytic capabilities and omnichannel marketing approaches, the Company strives to more efficiently and effectively understand and satisfy its customers' needs.

As of February 27, 2016, the Company operated 1,530 stores plus its various websites, other interactive platforms and distribution facilities. The Company's 1,530 stores operate in all 50 states, the District of Columbia, Puerto Rico and Canada, including: 1,020 BBB stores, 276 Cost Plus World Market stores, 105 Baby stores, 78 CTS stores and 51 Harmon stores. During fiscal 2015, the Company opened a total of 29 new stores, closed 12 stores and opened a new customer contact center in Layton, Utah and a new distribution facility in Las Vegas, Nevada. At the end of fiscal 2015, Company-wide total store square footage, net of openings and closings, for all of its concepts, was approximately 43.3 million square feet. The Company has distribution facilities totaling 6.1 million square feet. In addition, the Company has entered into a lease for a new distribution facility in Lewisville, Texas, which is planned to open in the fall of 2016, which will be approximately 800,000 square feet. The Company will continue to assess sites throughout the country in order to gain greater distribution efficiencies. The Company also operates websites at bedbathandbeyond.com, bedbathandbeyond.ca, christmastreeshops.com, harmondiscountry.com, buybuybaby.com, buybuybaby.ca, worldmarket.com and ofakind.com. Additionally, the Company is a partner in a joint venture which operated a total of seven stores as of February 27, 2016 in Mexico under the name Bed Bath & Beyond.

The Company plans to continue to expand its operations and invest in its infrastructure to reach its long-term objectives. In fiscal 2016, the Company expects company-wide to open approximately 30 new stores, most of which are planned for new markets, close approximately 15 stores and open a new distribution facility. Additionally, in connection with leveraging its merchandise offerings and optimizing its operations, the Company continues to expand, across selected stores, the number of specialty departments such as health and beauty care, baby, specialty food, and beverage. Also, the Company is committed to the continued growth of its merchandise categories and channels and is growing the number of items it is able to have shipped directly to customers from a vendor. The continued growth of the Company is dependent, in part, upon the Company's ability to execute these and other key initiatives successfully.

LIQUIDITY AND CAPITAL RESOURCES

The Company has been able to finance its operations, including its growth, through internally generated funds. For fiscal 2016, the Company believes that it can continue to finance its operations, including its growth, share repurchases, cash dividends, planned capital expenditures and debt service obligations, through existing and internally generated funds. In addition, if necessary, the Company could borrow under its revolving credit facility. Capital expenditures for fiscal 2016 are planned to be approximately \$400 million to \$425 million, with a significant portion for information technology enhancements, which includes enhancements to the Company's digital, web and mobile capabilities, the continued deployment of new systems and equipment to the stores and other projects, and the remainder of the spend would be for the new distribution facility, new stores, existing store improvements, and other projects. These planned capital expenditures are subject to the timing and composition of the projects. In addition, the Company reviews its alternatives with respect to its capital structure on an ongoing basis.

Fiscal 2015 compared to Fiscal 2014

Net cash provided by operating activities in fiscal 2015 was \$1.012 billion, compared with \$1.178 billion in fiscal 2014. Year over year, the Company experienced an increase in cash used by the net components of working capital (primarily accounts payable and other current assets, partially offset by merchandise inventories) offset by a slight increase in net earnings, as adjusted for non-cash expenses (primarily deferred income taxes and depreciation).

Retail inventory, which includes inventory in the Company's distribution facilities for direct to customer shipments, was approximately \$2.8 billion, an increase of approximately 3.6% compared to retail inventory at February 28, 2015. The Company's distribution facilities include the Company's newest Las Vegas, Nevada distribution facility which opened during fiscal 2015.

Net cash used in investing activities in fiscal 2015 was \$275.6 million, compared to net cash provided by investing activities of \$48.8 million in fiscal 2014. In fiscal 2015, net cash used in investing activities was primarily due to \$328.4 million of capital expenditures, partially offset by \$52.8 million of redemptions of investment securities, net of purchases. In fiscal 2014, net cash provided by investing activities was primarily due to \$379.4 million of redemptions of investment securities, net of purchases, partially offset by \$330.6 million of capital expenditures.

Net cash used in financing activities for fiscal 2015 was \$1.089 billion, compared with \$704.9 million in fiscal 2014. In fiscal 2015, the net cash used in financing activities was primarily due to \$1.101 billion of common stock repurchases. For fiscal 2014, net cash used in financing activities was primarily due to \$2.251 billion of common stock repurchases, partially offset by \$1.5 billion of proceeds from the issuance of senior unsecured notes.

Fiscal 2014 compared to Fiscal 2013

Net cash provided by operating activities in fiscal 2014 was \$1.178 billion, compared with \$1.382 billion in fiscal 2013. Year over year, the Company experienced an increase in cash used by the net components of working capital (primarily accounts payable and merchandise inventories, partially offset by other current assets and accrued expenses and other current liabilities) and a decrease in net earnings, as adjusted for non-cash expenses (primarily deferred income taxes and depreciation).

Retail inventory at cost per square foot was \$62.58 as of February 28, 2015, as compared to \$59.68 as of March 1, 2014.

Net cash provided by investing activities in fiscal 2014 was \$48.8 million, compared with net cash used in investing activities of \$363.4 million in fiscal 2013. In fiscal 2014, net cash provided by investing activities was primarily due to \$379.4 million of redemptions of investment securities, net of purchases, partially offset by \$330.6 million of capital expenditures. In fiscal 2013, net cash used in investing activities was primarily due to \$320.8 million of capital expenditures and \$39.1 million of purchases of investment securities, net of redemptions.

Net cash used in financing activities for fiscal 2014 was \$704.9 million, compared with \$1.210 billion in fiscal 2013. The decrease in net cash used was primarily due to proceeds from the issuance of the senior unsecured notes of \$1.5 billion, partially offset by an increase in common stock repurchases of \$966.6 million, which includes the shares repurchased under an accelerated share repurchase agreement.

Other Fiscal 2015 Information

At February 27, 2016, the Company maintained two uncommitted lines of credit of \$100 million each, with expiration dates of August 31, 2016 and February 26, 2017, respectively. These uncommitted lines of credit are currently and are expected to be used for letters of credit in the ordinary course of business. During fiscal 2015, the Company did not have any direct borrowings under the uncommitted lines of credit. As of February 27, 2016, there was approximately \$9.5 million of outstanding letters of credit. Although no assurances can be provided, the Company intends to renew both uncommitted lines of credit before the respective expiration dates. In addition, as of February 27, 2016, the Company maintained unsecured standby letters of credit of \$51.2 million, primarily for certain insurance programs.

The Company has authorization to make repurchases from time to time in the open market or through other parameters approved by the Board of Directors pursuant to existing rules and regulations.

Between December 2004 and September 2015, the Company's Board of Directors authorized, through several share repurchase programs, the repurchase of \$11.950 billion of the Company's common stock. Since 2004 through the end of fiscal 2015, the Company has repurchased approximately \$9.7 billion of its common stock through share repurchase programs. The Company has approximately \$2.3 billion remaining of authorized share repurchases as of February 27, 2016. The Company's share repurchase program could change, and would be influenced by several factors, including business and market conditions.

Subsequent to the end of fiscal 2015, on April 6, 2016, the Company's Board of Directors authorized a quarterly dividend program, and declared an initial quarterly dividend of \$.125 per share to be paid on July 19, 2016 to shareholders of record as of June 17, 2016. The Company expects to pay quarterly cash dividends on its common stock, in the future, subject to the determination by the Board of Directors based on an evaluation of the Company's earnings, financial condition and requirements, business conditions and other factors.

The Company has contractual obligations consisting mainly of principal and interest related to the Notes, operating leases for stores, offices, distribution facilities and equipment, purchase obligations, long-term sale/leaseback and capital lease obligations and other long-term liabilities which the Company is obligated to pay as of February 27, 2016 as follows:

| (in thousands) | Total | Less than 1 year | 1-3 years | 4-5 years | After 5 years |
|---|-------------|---------------------|-------------|-----------|------------------|
| Senior unsecured notes ⁽¹⁾ | \$1,500,000 | \$- | \$- | \$- | \$1,500,000 |
| Interest on senior unsecured notes ⁽¹⁾ | 1,693,205 | 72,477 | 144,954 | 144,954 | 1,330,820 |
| Operating lease obligations ⁽²⁾ | 3,284,725 | 585,118 | 1,011,305 | 732,659 | 955,643 |
| Purchase obligations ⁽³⁾ | 1,137,597 | 1,137,597 | - | - | - |
| Long-term sale/leaseback and capital lease obligations ⁽⁴⁾ | 326,674 | 10,366 | 20,896 | 21,176 | 274,236 |
| Other long-term liabilities ⁽⁵⁾ | 462,901 | - | - | - | - |
| Total Contractual Obligations | \$8,405,102 | \$1,805,558 | \$1,177,155 | \$898,789 | \$4,060,699 |

On July 17, 2014, the Company issued \$300 million aggregate principal amount of 3.749% senior unsecured notes (1) due August 1, 2024, \$300 million aggregate principal amount of 4.915% senior unsecured notes due August 1, 2034 and \$900 million aggregate principal amount of 5.165% senior unsecured notes due August 1, 2044.

The amounts presented represent the future minimum lease payments under non-cancelable operating leases. In addition to minimum rent, certain of the Company's leases require the payment of additional costs for insurance, maintenance and other costs. These additional amounts are not included in the table of contractual commitments as (2) the timing and/or amounts of such payments are not known. As of February 27, 2016, the Company has leased sites for 41 new or relocated locations planned for opening in fiscal 2016, 2017 or 2018, for which aggregate minimum rental payments over the term of the leases are approximately \$312.2 million and are included in the table above.

(3) Purchase obligations primarily consist of purchase orders for merchandise.

(4) Long-term sale/leaseback and capital lease obligations represent future minimum lease payments under the sale/leaseback agreements and capital lease agreements.

Other long-term liabilities are primarily comprised of income taxes payable, deferred rent, workers' compensation and general liability reserves and various other accruals and are recorded as Deferred Rent and Other Liabilities (5) and Income Taxes Payable in the Consolidated Balance Sheet as of February 27, 2016. The amounts associated with these other long-term liabilities have been reflected only in the Total Column in the table above as the timing and / or amount of any cash payment is uncertain.

SEASONALITY

The Company's sales exhibit seasonality with sales levels generally higher in the calendar months of August, November and December, and generally lower in February.

INFLATION

The Company does not believe that its operating results have been materially affected by inflation during the past year. There can be no assurance; however, that the Company's operating results will not be affected by inflation in the future.

CRITICAL ACCOUNTING POLICIES

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires the Company to establish accounting policies and to make estimates and judgments that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. The Company bases its estimates on historical experience and on other assumptions that it believes to be relevant under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. In particular, judgment is used in areas such as inventory valuation, impairment of long-lived assets, goodwill and other indefinite lived intangible assets, accruals for self insurance, litigation, store opening, expansion, relocation and closing costs, stock-based compensation and income and certain other taxes. Actual results could differ from these estimates.

Inventory Valuation: Merchandise inventories are stated at the lower of cost or market. Inventory costs are primarily calculated using the weighted average retail inventory method.

Under the retail inventory method, the valuation of inventories at cost and the resulting gross margins are calculated by applying a cost-to-retail ratio to the retail values of inventories. The cost associated with determining the cost-to-retail ratio includes: merchandise purchases, net of returns to vendors, discounts and volume and incentive rebates; inbound freight expenses; duty, insurance and commissions.

At any one time, inventories include items that have been written down to the Company's best estimate of their realizable value. Judgment is required in estimating realizable value and factors considered are the age of merchandise and anticipated demand. Actual realizable value could differ materially from this estimate based upon future customer demand or economic conditions.

The Company estimates its reserve for shrinkage throughout the year based on historical shrinkage and any current trends, if applicable. Actual shrinkage is recorded at year end based upon the results of the Company's physical inventory counts for locations at which counts were conducted. For locations where physical inventory counts were not conducted in the fiscal year, an estimated shrink reserve is recorded based on historical shrinkage and any current trends, if applicable. Historically, the Company's shrinkage has not been volatile.

The Company accrues for merchandise in transit once it takes legal ownership and title to the merchandise; as such, an estimate for merchandise in transit is included in the Company's merchandise inventories.

Impairment of Long-Lived Assets: The Company reviews long-lived assets for impairment when events or changes in circumstances indicate the carrying value of these assets may exceed their current fair values. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized for the amount by which the carrying amount of the asset exceeds the fair value of the assets. Assets to be disposed of would be separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of a disposal group classified as held for sale would be presented separately in the appropriate asset and liability sections of the balance sheet. The Company has not historically recorded any material impairment to its long-lived assets. In the future, if events or market conditions affect the estimated fair value to the extent that a long-lived asset is impaired, the Company will adjust the carrying value of these long-lived assets in the period in which the impairment occurs.

Goodwill and Other Indefinite Lived Intangible Assets: The Company reviews goodwill and other intangibles that have indefinite lives for impairment annually or when events or changes in circumstances indicate the carrying value of these assets might exceed their current fair values. Impairment testing is based upon the best information available including estimates of fair value which incorporate assumptions marketplace participants would use in making their estimates of fair value. The Company has not historically recorded an impairment to its goodwill and other indefinite lived intangible assets. As of February 27, 2016, for goodwill related to the North American Retail operating segment and the Institutional Sales operating segment and certain other indefinite lived intangible assets, the Company assessed qualitative factors in order to determine whether any events and circumstances existed which indicated that it was more likely than not that the fair value of these indefinite lived intangible assets did not exceed its carrying value and concluded no such events or circumstances existed which would require an impairment test being performed. In the future, if events or market conditions affect the estimated fair value to the extent that an asset is impaired, the Company will adjust the carrying value of these assets in the period in which the impairment occurs.

Self Insurance: The Company utilizes a combination of insurance and self insurance for a number of risks including workers' compensation, general liability, automobile liability and employee related health care benefits (a portion of which is paid by its employees). Liabilities associated with the risks that the Company retains are estimated by considering historical claims experience, demographic factors, severity factors and other actuarial assumptions. Although the Company's claims experience has not displayed substantial volatility in the past, actual experience could materially vary from its historical experience in the future. Factors that affect these estimates include but are not limited to: inflation, the number and severity of claims and regulatory changes. In the future, if the Company concludes an adjustment to self insurance accruals is required, the liability will be adjusted accordingly.

Litigation: The Company records an estimated liability related to its various claims and legal actions arising in the ordinary course of business when and to the extent that it concludes a liability is probable and the amount of the loss can be reasonably estimated. Such estimated loss is based on available information and advice from outside counsel, where appropriate. As additional information becomes available, the Company reassesses the potential liability related to claims and legal actions and revises its estimated liabilities, as appropriate. The Company expects the ultimate disposition of these matters will not have a material adverse effect on the Company's consolidated financial position, results of operations or liquidity. The Company also cannot predict the nature and validity of claims which could be asserted in the future, and future claims could have a material impact on its earnings.

Store Opening, Expansion, Relocation and Closing Costs: Store opening, expansion, relocation and closing costs, including markdowns, asset residual values and projected occupancy costs, are charged to earnings as incurred.

Stock-Based Compensation: The Company uses a Black-Scholes option-pricing model to determine the fair value of its stock options. The Black-Scholes model includes various assumptions, including the expected life of stock options, the expected risk free interest rate and the expected volatility. These assumptions reflect the Company's best estimates, but they involve inherent uncertainties based on market conditions generally outside the control of the Company. As a result, if other assumptions had been used, total stock-based compensation cost could have been materially impacted. Furthermore, if the Company uses different assumptions for future grants, stock-based compensation cost could be materially impacted in future periods.

The Company determines its assumptions for the Black-Scholes option-pricing model in accordance with the accounting guidance related to stock compensation.

The expected life of stock options is estimated based on historical experience.

The expected risk free interest rate is based on the U.S. Treasury constant maturity interest rate whose term is consistent with the expected life of the stock options.

Expected volatility is based on the average of historical and implied volatility. The historical volatility is determined by observing actual prices of the Company's stock over a period commensurate with the expected life of the awards.

The implied volatility represents the implied volatility of the Company's call options, which are actively traded on multiple exchanges, had remaining maturities in excess of twelve months, had market prices close to the exercise prices of the employee stock options and were measured on the stock option grant date.

The Company is required to record stock-based compensation expense net of estimated forfeitures. The Company's forfeiture rate assumption used in determining its stock-based compensation expense is estimated based on historical data. The actual forfeiture rate could differ from these estimates.

Taxes: The Company accounts for its income taxes using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to the differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in earnings in the period that includes the enactment date.

The Company intends to reinvest the unremitted earnings of its Canadian subsidiary. Accordingly, no provision has been made for U.S. or additional non-U.S. taxes with respect to these earnings. In the event of repatriation to the U.S., in most cases such earnings would be subject to U.S. income taxes.

The Company recognizes the tax benefit from an uncertain tax position only if it is at least more likely than not that the tax position will be sustained on examination by the taxing authorities based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon settlement with the taxing authorities.

Potential volatility in the effective tax rate from year to year may occur as the Company is required each year to determine whether new information changes the assessment of both the probability that a tax position will effectively be sustained and the appropriateness of the amount of recognized benefit.

The Company also accrues for certain other taxes as required by their operations.

Judgment is required in determining the provision for income and other taxes and related accruals, deferred tax assets and liabilities. In the ordinary course of business, there are transactions and calculations where the ultimate tax outcome is uncertain. Additionally, the Company's various tax returns are subject to audit by various tax authorities. Although the Company believes that its estimates are reasonable, actual results could differ from these estimates.

FORWARD-LOOKING STATEMENTS

This Form 10-K and Management's Discussion and Analysis of Financial Condition and Results of Operations contain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. The Company's actual results and future financial condition may differ materially from those expressed in any such forward-looking statements as a result of many factors. Such factors include, without limitation: general economic conditions including the housing market, a challenging overall macroeconomic environment and related changes in the retailing environment; consumer preferences, spending habits and adoption of new technologies; demographics and other macroeconomic factors that may impact the level of spending for the types of merchandise sold by the Company; civil disturbances and terrorist acts; unusual weather patterns and natural disasters; competition from existing and potential competitors across all channels of distribution; pricing pressures; liquidity; the ability to attract and retain qualified employees in all areas of the organization; the cost of labor, merchandise and other costs and expenses; potential supply chain disruption due to political instability, labor disturbances, product recalls, financial or operational instability of supplier or carriers, and other items; the ability to find suitable locations at acceptable occupancy costs and other terms to support the Company's plan for new stores; the ability to assess and implement technologies in support of the Company's development of its omnichannel capabilities; uncertainty in financial markets; disruptions to the Company's information technology systems including but not limited to security breaches of systems protecting consumer and employee information; reputational risk arising from challenges to the Company's or a third party supplier's compliance with various laws, regulations or standards, including those related to labor, health, safety, privacy or the environment; reputational risk arising from third-party merchandise or service vendor performance in direct home delivery or assembly of product for customers; changes to statutory, regulatory and legal requirements; new, or developments in existing, litigation, claims or assessments; changes to, or new, tax laws or interpretation of existing tax laws; changes to, or new, accounting standards; foreign currency exchange rate fluctuations; and the integration of acquired businesses. The Company does not undertake any obligation to update its forward-looking statements.

ITEM 7A –QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of February 27, 2016, the Company's investments include cash and cash equivalents of approximately \$515.6 million, short term investment securities of approximately \$86.2 million and long term investments in auction rate securities of approximately \$19.8 million at weighted average interest rates of 0.16%, 0.31% and 0.15%, respectively. The book value of these investments is representative of their fair values.

The Company's senior unsecured notes have fixed interest rates and are not subject to interest rate risk. As of February 27, 2016, the fair value of the senior unsecured notes was \$1.299 billion, which is based on quoted prices in active markets for identical instruments compared to the carrying value of approximately \$1.500 billion.

ITEM 8 – FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The following are included herein:

- 1) Consolidated Balance Sheets as of February 27, 2016 and February 28, 2015
- 2) Consolidated Statements of Earnings for the fiscal years ended February 27, 2016, February 28, 2015 and March 1, 2014

Notes to Consolidated Financial Statements

Bed Bath & Beyond Inc. and Subsidiaries

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND RELATED MATTERS

A. Nature of Operations

Bed Bath & Beyond Inc. and subsidiaries (the “Company”) is a retailer which operates under the names Bed Bath & Beyond (“BBB”), Christmas Tree Shops, Christmas Tree Shops andThat! or andThat! (collectively, “CTS”), Harmon or Harmon Face Values (collectively, “Harmon”), buybuy BABY and World Market, Cost Plus World Market or Cost Plus (collectively, “Cost Plus World Market”). Customers can purchase products from the Company either in-store, online, with a mobile device or through a contact center. The Company generally has the ability to have customer purchases picked up in-store or shipped direct to the customer from the Company’s distribution facilities, stores or vendors. In the second quarter of fiscal 2015, the Company acquired Of a Kind, an e-commerce website that features specially commissioned, limited edition items from emerging fashion and home designers. The Company also operates Linen Holdings, a provider of a variety of textile products, amenities and other goods to institutional customers in the hospitality, cruise line, healthcare and other industries. Additionally, the Company is a partner in a joint venture which operates seven retail stores in Mexico under the name Bed Bath & Beyond.

The Company accounts for its operations as two operating segments: North American Retail and Institutional Sales. The Institutional Sales operating segment, which is comprised of Linen Holdings, does not meet the quantitative thresholds under U.S. generally accepted accounting principles and therefore is not a reportable segment. Net sales outside of the U.S. were not material for fiscal 2015, 2014 and 2013.

The Company sells a wide assortment of domestics merchandise and home furnishings. Domestics merchandise includes categories such as bed linens and related items, bath items and kitchen textiles. Home furnishings include categories such as kitchen and tabletop items, fine tabletop, basic housewares, general home furnishings, consumables and certain juvenile products. Sales of domestics merchandise and home furnishings accounted for approximately 35.9% and 64.1% of net sales, respectively, for fiscal 2015 and fiscal 2014, and approximately 36.1% and 63.9% of net sales, respectively, for fiscal 2013. As the Company operates in the retail industry, its results of operations are affected by general economic conditions and consumer spending habits.

Since the date of acquisition, Of a Kind’s results of operations, which are not material, have been included in the Company’s results of operations for the fiscal year ended February 27, 2016.

B. Fiscal Year

The Company's fiscal year is comprised of the 52 or 53 week period ending on the Saturday nearest February 28. Accordingly, fiscal 2015, fiscal 2014 and fiscal 2013 represented 52 weeks and ended on February 27, 2016, February 28, 2015 and March 1, 2014, respectively.

C. Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. The Company accounts for its investment in the joint venture under the equity method.

Certain reclassifications have been made to the fiscal 2014 and 2013 consolidated statements of cash flows to conform to the fiscal 2015 consolidated statement of cash flows presentation.

All significant intercompany balances and transactions have been eliminated in consolidation.

D.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires the Company to establish accounting policies and to make estimates and judgments that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. The Company bases its estimates on historical experience and on other assumptions that it believes to be relevant under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. In particular, judgment is used in areas such as inventory valuation, impairment of long-lived assets, impairment of auction rate securities, goodwill and other indefinite lived intangible assets, accruals for self insurance, litigation, store opening, expansion, relocation and closing costs, the provision for sales returns, vendor allowances, stock-based compensation and income and certain other taxes. Actual results could differ from these estimates.

E.

Cash and Cash Equivalents

The Company considers all highly liquid instruments purchased with original maturities of three months or less to be cash equivalents. Included in cash and cash equivalents are credit and debit card receivables from banks, which typically settle within 5 business days, of \$89.4 million and \$90.3 million as of February 27, 2016 and February 28, 2015, respectively.

F.

Investment Securities

Investment securities consist primarily of U.S. Treasury Bills with remaining maturities of less than one year and auction rate securities, which are securities with interest rates that reset periodically through an auction process. The U.S. Treasury Bills are classified as short term held-to-maturity securities and are stated at their amortized cost which approximates fair value. Auction rate securities are classified as available-for-sale and are stated at fair value, which had historically been consistent with cost or par value due to interest rates which reset periodically, typically every 7, 28 or 35 days. As a result, there generally were no cumulative gross unrealized holding gains or losses relating to these auction rate securities. However, beginning in mid-February 2008 due to market conditions, the auction process for the Company's auction rate securities failed and continues to fail. These failed auctions result in a lack of liquidity in the securities, and affect their estimated fair values at February 27, 2016 and February 28, 2015, but do not affect the underlying collateral of the securities. (See "Fair Value Measurements," Note 2 and "Investment Securities," Note 3). All income from these investments is recorded as interest income.

Those investment securities which the Company has the ability and intent to hold until maturity are classified as held-to-maturity investments and are stated at amortized cost. Those investment securities which are bought and held principally for the purpose of selling them in the near term are classified as trading securities and are stated at fair market value.

Premiums are amortized and discounts are accreted over the life of the security as adjustments to interest income using the effective interest method. Dividend and interest income are recognized when earned.

G. Inventory Valuation

Merchandise inventories are stated at the lower of cost or market. Inventory costs are primarily calculated using the weighted average retail inventory method.

Under the retail inventory method, the valuation of inventories at cost and the resulting gross margins are calculated by applying a cost-to-retail ratio to the retail values of inventories. The cost associated with determining the cost-to-retail ratio includes: merchandise purchases, net of returns to vendors, discounts and volume and incentive rebates; inbound freight expenses; duty, insurance and commissions.

At any one time, inventories include items that have been written down to the Company's best estimate of their realizable value. Judgment is required in estimating realizable value and factors considered are the age of merchandise and anticipated demand. Actual realizable value could differ materially from this estimate based upon future customer demand or economic conditions.

The Company estimates its reserve for shrinkage throughout the year based on historical shrinkage and any current trends, if applicable. Actual shrinkage is recorded at year end based upon the results of the Company's physical inventory counts for locations at which counts were conducted. For locations where physical inventory counts were not conducted in the fiscal year, an estimated shrink reserve is recorded based on historical shrinkage and any current trends, if applicable. Historically, the Company's shrinkage has not been volatile.

The Company accrues for merchandise in transit once it takes legal ownership and title to the merchandise; as such, an estimate for merchandise in transit is included in the Company's merchandise inventories.

H. Property and Equipment

Property and equipment are stated at cost. Depreciation is computed primarily using the straight-line method over the estimated useful lives of the assets (forty years for buildings; five to twenty years for furniture, fixtures and equipment; and three to ten years for computer equipment and software). Leasehold improvements are amortized using the straight-line method over the lesser of their estimated useful life or the life of the lease. Depreciation expense is primarily included within selling, general and administrative expenses.

The cost of maintenance and repairs is charged to earnings as incurred; significant renewals and betterments are capitalized. Maintenance and repairs amounted to \$130.9 million, \$120.3 million and \$111.9 million for fiscal 2015, 2014 and 2013, respectively.

I. Impairment of Long-Lived Assets

The Company reviews long-lived assets for impairment when events or changes in circumstances indicate the carrying value of these assets may exceed their current fair values. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized for the amount by which the carrying amount of the asset exceeds the fair value of the assets. Assets to be disposed of would be separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of a disposal group classified as held for sale would be presented separately in the appropriate asset and liability sections of the balance sheet. The Company has not historically recorded any material impairment to its long-lived assets. In the future, if

events or market conditions affect the estimated fair value to the extent that a long-lived asset is impaired, the Company will adjust the carrying value of these long-lived assets in the period in which the impairment occurs.

J. Goodwill and Other Indefinite Lived Intangible Assets

The Company reviews goodwill and other intangibles that have indefinite lives for impairment annually or when events or changes in circumstances indicate the carrying value of these assets might exceed their current fair values. Impairment testing is based upon the best information available, including estimates of fair value which incorporate assumptions marketplace participants would use in making their estimates of fair value. The Company has not historically recorded an impairment to its goodwill and other indefinite lived intangible assets. As of February 27, 2016, for goodwill related to the North American Retail operating segment and the Institutional Sales operating segment and certain other indefinite lived intangible assets, the Company assessed qualitative factors in order to determine whether any events and circumstances existed which indicated that it was more likely than not that the fair value of these indefinite lived intangible assets did not exceed its carrying value and concluded no such events or circumstances existed which would require an impairment test being performed. In the future, if events or market conditions affect the estimated fair value to the extent that an asset is impaired, the Company will adjust the carrying value of these assets in the period in which the impairment occurs.

Included within other assets in the accompanying consolidated balance sheets as of February 27, 2016 and February 28, 2015, respectively, are \$291.4 million for indefinite lived tradenames and trademarks.

K.

Self Insurance

The Company utilizes a combination of insurance and self insurance for a number of risks including workers' compensation, general liability, automobile liability and employee related health care benefits (a portion of which is paid by its employees). Liabilities associated with the risks that the Company retains are estimated by considering historical claims experience, demographic factors, severity factors and other actuarial assumptions. Although the Company's claims experience has not displayed substantial volatility in the past, actual experience could materially vary from its historical experience in the future. Factors that affect these estimates include but are not limited to: inflation, the number and severity of claims and regulatory changes. In the future, if the Company concludes an adjustment to self insurance accruals is required, the liability will be adjusted accordingly.

L.

Deferred Rent

The Company accounts for scheduled rent increases contained in its leases on a straight-line basis over the term of the lease beginning as of the date the Company obtained possession of the leased premises. Deferred rent amounted to \$77.3 million and \$77.8 million as of February 27, 2016 and February 28, 2015, respectively.

Cash or lease incentives ("tenant allowances") received pursuant to certain store leases are recognized on a straight-line basis as a reduction to rent over the lease term. The unamortized portion of tenant allowances is included in deferred rent and other liabilities. The unamortized portion of tenant allowances amounted to \$119.8 million and \$121.0 million as of February 27, 2016 and February 28, 2015, respectively.

M.

Shareholders' Equity

The Company has authorization to make repurchases from time to time in the open market or through other parameters approved by the Board of Directors pursuant to existing rules and regulations.

Between December 2004 and September 2015, the Company's Board of Directors authorized, through several share repurchase programs, the repurchase of \$11.950 billion of the Company's shares of common stock. On July 17, 2014, the Company entered into an accelerated share repurchase agreement ("ASR") with an investment bank to repurchase an aggregate \$1.1 billion of the Company's common stock. The ASR was completed in December 2014. The total number of shares repurchased under the ASR was 16.8 million shares at a weighted average share price of \$65.41. Since 2004 through the end of fiscal 2015, the Company has repurchased approximately \$9.7 billion of its common stock through

share repurchase programs, which include the shares repurchased under the ASR.

During fiscal 2015, the Company repurchased approximately 18.4 million shares of its common stock at a total cost of approximately \$1.101 billion. During fiscal 2014, including the shares repurchased under the ASR, the Company repurchased approximately 33.0 million shares of its common stock at a total cost of approximately \$2.251 billion. During fiscal 2013, the Company repurchased approximately 18.3 million shares of its common stock at a total cost of approximately \$1.284 billion. The Company has approximately \$2.3 billion remaining of authorized share repurchases as of February 27, 2016.

Subsequent to the end of fiscal 2015, on April 6, 2016, the Company's Board of Directors authorized a quarterly dividend program, and declared an initial quarterly dividend of \$.125 per share to be paid on July 19, 2016 to shareholders of record as of June 17, 2016. Future cash dividends on the Company's common stock are subject to the determination by the Board of Directors based on an evaluation of the Company's earnings, financial condition and requirements, business conditions and other factors.

N. Fair Value of Financial Instruments

The Company's financial instruments include cash and cash equivalents, investment securities, accounts payable, long term debt and certain other liabilities. The Company's investment securities consist primarily of U.S. Treasury securities, which are stated at amortized cost, and auction rate securities, which are stated at their approximate fair value. The book value of the financial instruments, excluding the Company's long term debt, is representative of their fair values (See "Fair Value Measurements," Note 2). The fair value of the Company's long term debt is approximately \$1.299 billion, which is based on quoted prices in active markets for identical instruments (i.e., Level 1 valuation), compared to the carrying value of approximately \$1.500 billion.

O. Revenue Recognition

Sales are recognized upon purchase by customers at the Company's retail stores or upon delivery for products purchased from its websites. The value of point-of-sale coupons and point-of-sale rebates that result in a reduction of the price paid by the customer are recorded as a reduction of sales. Shipping and handling fees that are billed to a customer in a sale transaction are recorded in sales. Taxes, such as sales tax, use tax and value added tax, are not included in sales.

Revenues from gift cards, gift certificates and merchandise credits are recognized when redeemed. Gift cards have no provisions for reduction in the value of unused card balances over defined time periods and have no expiration dates.

Sales returns are provided for in the period that the related sales are recorded based on historical experience. Although the estimate for sales returns has not varied materially from historical provisions, actual experience could vary from historical experience in the future if the level of sales return activity changes materially. In the future, if the Company concludes that an adjustment to the sales return accrual is required due to material changes in the returns activity, the reserve will be adjusted accordingly.

P. Cost of Sales

Cost of sales includes the cost of merchandise, buying costs and costs of the Company's distribution network including inbound freight charges, distribution facility costs, receiving costs, internal transfer costs and shipping and handling costs.

Q.

Vendor Allowances

The Company receives allowances from vendors in the normal course of business for various reasons including direct cooperative advertising, purchase volume and reimbursement for other expenses. Annual terms for each allowance include the basis for earning the allowance and payment terms, which vary by agreement. All vendor allowances are recorded as a reduction of inventory cost, except for direct cooperative advertising allowances which are specific, incremental and identifiable. The Company recognizes purchase volume allowances as a reduction of the cost of inventory in the quarter in which milestones are achieved. Advertising costs were reduced by direct cooperative allowances of \$31.7 million, \$25.6 million and \$24.0 million for fiscal 2015, 2014 and 2013, respectively.

R. Store Opening, Expansion, Relocation and Closing Costs

Store opening, expansion, relocation and closing costs, including markdowns, asset residual values and projected occupancy costs, are charged to earnings as incurred.

S. Advertising Costs

Expenses associated with direct response advertising are expensed over the period during which the sales are expected to occur, generally four to seven weeks, and all other expenses associated with store advertising are charged to earnings as incurred. Net advertising costs amounted to \$338.1 million, \$308.4 million and \$280.5 million for fiscal 2015, 2014 and 2013, respectively.

T. Stock-Based Compensation

The Company measures all employee stock-based compensation awards using a fair value method and records such expense in its consolidated financial statements. Currently, the Company's stock-based compensation relates to restricted stock awards, stock options and performance stock units. The Company's restricted stock awards are considered nonvested share awards.

U. Income Taxes

The Company files a consolidated Federal income tax return. Income tax returns are also filed with each taxable jurisdiction in which the Company conducts business.

The Company accounts for its income taxes using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to the differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in earnings in the period that includes the enactment date.

The Company intends to reinvest the unremitted earnings of its Canadian subsidiary. Accordingly, no provision has been made for U.S. or additional non-U.S. taxes with respect to these earnings. In the event of repatriation to the U.S.,

in most cases such earnings would be subject to U.S. income taxes.

The Company recognizes the tax benefit from an uncertain tax position only if it is at least more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon settlement with the taxing authorities.

Judgment is required in determining the provision for income taxes and related accruals, deferred tax assets and liabilities. In the ordinary course of business, there are transactions and calculations where the ultimate tax outcome is uncertain. Additionally, the Company's tax returns are subject to audit by various tax authorities. Although the Company believes that its estimates are reasonable, actual results could differ from these estimates.

V.

Earnings per Share

The Company presents earnings per share on a basic and diluted basis. Basic earnings per share is computed by dividing net earnings by the weighted average number of shares outstanding. Diluted earnings per share is computed by dividing net earnings by the weighted average number of shares outstanding, including the dilutive effect of stock-based awards as calculated under the treasury stock method.

Stock-based awards of approximately 2.6 million, 1.7 million and 1.2 million shares were excluded from the computation of diluted earnings per share as the effect would be anti-dilutive for fiscal 2015, 2014 and 2013, respectively.

W.

Recent Accounting Pronouncements

In May 2014, Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09, *Revenue from Contracts with Customers*. This guidance requires an entity to recognize revenue in a manner that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The new standard also will result in enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. In July 2015, the FASB issued ASU 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date*. This guidance deferred the effective date of ASU 2014-09 for one year from the original effective date. In accordance with the deferral, ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. ASU 2014-09 can be adopted either retrospectively to each prior reporting period presented or as a cumulative-effect adjustment as of the date of adoption. The adoption of this guidance is not expected to have a significant effect on the Company's consolidated financial position, results of operations, or cash flows.

In April 2015, the FASB issued ASU 2015-03, *Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*. This guidance requires an entity to present debt issuance costs related to a recognized debt liability on the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. Costs associated with line-of-credit arrangements may continue to be recorded as deferred assets. ASU 2015-03 is effective for annual reporting periods beginning after December 15, 2015, including interim periods within that reporting period, with earlier adoption permitted. ASU 2015-03 must be adopted retrospectively to each prior reporting period presented. The adoption of this guidance is not expected to have a significant effect on the Company's consolidated financial position, results of operations, or cash flows.

In November 2015, the FASB issued ASU 2015-17, *Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes*. This guidance requires an entity to classify deferred tax assets and liabilities as noncurrent on the balance sheet. ASU 2015-17 is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period, with earlier adoption permitted. ASU 2015-17 can be adopted either retrospectively to each prior reporting period presented or as a cumulative-effect adjustment as of the date of adoption. The adoption of this guidance is not expected to have a significant effect on the Company's consolidated financial position, results of operations, or cash flows.

In February 2016, the FASB issued ASU 2016-02, *Leases*. This guidance requires an entity to recognize lease liabilities and a right-of-use asset for all leases on the balance sheet and to disclose key information about the entity's leasing arrangements. ASU 2016-02 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within that reporting period, with earlier adoption permitted. ASU 2016-02 must be adopted using a modified retrospective approach for all leases existing at, or entered into after the date of initial adoption, with an option to elect to use certain transition relief. The Company is evaluating the impact of this new standard on its financial position, results of operations, cash flows and related disclosures.

2. FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., “the exit price”) in an orderly transaction between market participants at the measurement date. In determining fair value, the Company uses various valuation approaches, including quoted market prices and discounted cash flows. The hierarchy for inputs used in measuring fair value maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from independent sources. Unobservable inputs are inputs that reflect a company’s judgment concerning the assumptions that market participants would use in pricing the asset or liability developed based on the best information available under the circumstances. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an asset or liability must be classified in its entirety based on the lowest level of input that is significant to the measurement of fair value. The fair value hierarchy is broken down into three levels based on the reliability of inputs as follows:

- Level 1 – Valuations based on quoted prices in active markets for identical instruments that the Company is able to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.

- Level 2 – Valuations based on quoted prices in active markets for instruments that are similar, or quoted prices in markets that are not active for identical or similar instruments, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

- Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

As of February 27, 2016, the Company's financial assets utilizing Level 1 inputs include long term trading investment securities traded on active securities exchanges. The Company did not have any financial assets utilizing Level 2 inputs. Financial assets utilizing Level 3 inputs included long term investments in auction rate securities consisting of preferred shares of closed end municipal bond funds (See "Investment Securities," Note 3).

3. INVESTMENT SECURITIES

The Company's investment securities as of February 27, 2016 and February 28, 2015 are as follows:

| (in millions) | February 27, 2016 | February 28, 2015 |
|--------------------------------|-------------------------|-------------------------|
| Available-for-sale securities: | | |
| Long term | \$ 19.8 | \$ 47.9 |
| Trading securities: | | |
| Long term | 51.5 | 49.2 |
| Held-to-maturity securities: | | |
| Short term | 86.2 | 110.0 |
| Total investment securities | \$ 157.5 | \$ 207.1 |

Auction Rate Securities

As of February 27, 2016 and February 28, 2015, the Company's long term available-for-sale investment securities represented approximately \$20.3 million and \$51.0 million par value of auction rate securities, respectively, consisting of preferred shares of closed end municipal bond funds, less temporary valuation adjustments of approximately \$0.5 million and \$3.1 million, respectively. Since these valuation adjustments are deemed to be temporary, they are recorded in accumulated other comprehensive loss, net of a related tax benefit, and did not affect the Company's net earnings.

In fiscal 2015, approximately \$30.7 million of these securities were tendered at a price of approximately 94% of par value for which the Company incurred a realized loss of approximately \$1.8 million, which is included within interest expense, net in the consolidated statement of earnings for fiscal 2015.

U.S. Treasury Securities

As of February 27, 2016, and February 28, 2015, the Company's short term held-to-maturity securities included approximately \$86.2 million and approximately \$110.0 million, respectively, of U.S. Treasury Bills with remaining maturities of less than one year. These securities are stated at their amortized cost which approximates fair value, which is based on quoted prices in active markets for identical instruments (i.e., Level 1 valuation).

Long Term Trading Investment Securities

The Company's long term trading investment securities, which are provided as investment options to the participants of the nonqualified deferred compensation plan, are stated at fair market value. The values of these trading investment securities included in the table above are approximately \$51.5 million and \$49.2 million as of February 27, 2016 and February 28, 2015, respectively.

4. PROPERTY AND EQUIPMENT

Property and equipment consist of the following:

| (in thousands) | February 27, 2016 | February 28, 2015 |
|-----------------------------------|----------------------|----------------------|
| Land and buildings | \$567,602 | \$557,538 |
| Furniture, fixtures and equipment | 1,240,181 | 1,179,073 |
| Leasehold improvements | 1,341,596 | 1,258,916 |
| Computer equipment and software | 1,106,812 | 940,754 |
| | 4,256,191 | 3,936,281 |
| Less: Accumulated depreciation | (2,531,148) | (2,259,581) |
| Property and equipment, net | \$1,725,043 | \$1,676,700 |

5. LONG TERM DEBT

Senior Unsecured Notes

On July 17, 2014, the Company issued \$300 million aggregate principal amount of 3.749% senior unsecured notes due August 1, 2024 (the “2024 Notes”), \$300 million aggregate principal amount of 4.915% senior unsecured notes due August 1, 2034 (the “2034 Notes”) and \$900 million aggregate principal amount of 5.165% senior unsecured notes due August 1, 2044 (the “2044 Notes” and, together with the 2024 Notes and the 2034 Notes, the “Notes”). The aggregate net proceeds from the Notes were approximately \$1.5 billion, which was used for share repurchases of the Company’s common stock and for general corporate purposes. Interest on the Notes is payable semi-annually on February 1 and August 1 of each year.

The Notes were issued under an indenture (the “Base Indenture”), as supplemented by a first supplemental indenture (together, with the Base Indenture, the “Indenture”), which contains various restrictive covenants, which are subject to important limitations and exceptions that are described in the Indenture. The Company was in compliance with all covenants related to the Notes as of February 27, 2016.

The Notes are unsecured, senior obligations and rank equal in right of payment to any of the Company's existing and future senior unsecured indebtedness. The Company may redeem the Notes at any time, in whole or in part, at the redemption prices described in the Indenture plus accrued and unpaid interest to the redemption date. If a change in control triggering event, as defined by the Indenture governing the Notes, occurs unless the Company has exercised its right to redeem the Notes, the Company will be required to make an offer to the holders of the Notes to purchase the Notes at 101% of their principal amount, plus accrued and unpaid interest.

Revolving Credit Agreement

On August 6, 2014, the Company entered into a \$250 million five year senior unsecured revolving credit facility agreement ("Revolver") with various lenders. For fiscal 2015 and during the period from August 6, 2014 through February 28, 2015, the Company did not have any borrowings under the Revolver.

Borrowings under the Revolver accrue interest at either (1) a fluctuating rate equal to the greater of the prime rate, as defined in the Revolver, the Federal Funds Rate plus 0.50%, or one-month LIBOR plus 1.0% and, in each case, plus an applicable margin based upon the Company's leverage ratio which is calculated quarterly, (2) a periodic fixed rate equal to LIBOR plus an applicable margin based upon the Company's leverage ratio which is calculated quarterly or (3) an agreed upon fixed rate. In addition, a commitment fee is assessed, which is included in interest expense, net in the Consolidated Statement of Earnings. The Revolver contains customary affirmative and negative covenants and also requires the Company to maintain a minimum leverage ratio. The Company was in compliance with all covenants related to the Revolver as of February 27, 2016.

Deferred financing costs associated with the Notes and the Revolver of approximately \$10.1 million were capitalized and are included in other assets, net of amortization, in the accompanying Consolidated Balance Sheets. These deferred financing costs are being amortized over the term of each of the Notes and the term of the Revolver and such amortization is included in interest expense, net in the Consolidated Statement of Earnings. Interest expense related to the Notes and the Revolver, including the commitment fee and the amortization of the deferred financing costs, was approximately \$73.0 million for fiscal 2015 and \$44.9 million for the period from July 17, 2014 through February 28, 2015.

Lines of Credit

At February 27, 2016, the Company maintained two uncommitted lines of credit of \$100 million each, with expiration dates of August 31, 2016 and February 26, 2017, respectively. These uncommitted lines of credit are currently and are expected to be used for letters of credit in the ordinary course of business. During fiscal 2015 and 2014, the Company did not have any direct borrowings under the uncommitted lines of credit. As of February 27, 2016, there was approximately \$9.5 million of outstanding letters of credit. Although no assurances can be provided, the Company

intends to renew both uncommitted lines of credit before the respective expiration dates. In addition, as of February 27, 2016, the Company maintained unsecured standby letters of credit of \$51.2 million, primarily for certain insurance programs. As of February 28, 2015, there was approximately \$11.1 million of outstanding letters of credit and approximately \$71.7 million of outstanding unsecured standby letters of credit, primarily for certain insurance programs.

6. PROVISION FOR INCOME TAXES

The components of the provision for income taxes are as follows:

| | FISCAL YEAR ENDED | | |
|-----------------------|-------------------|----------|----------|
| | February | February | March 1, |
| <u>(in thousands)</u> | 27, | 28, | 2014 |
| | 2016 | 2015 | |

Current:

| | | | |
|-----------------|-----------|-----------|-----------|
| Federal | \$389,039 | \$504,154 | \$514,818 |
| State and local | 39,991 | 64,486 | 64,581 |
| | 429,030 | 568,640 | 579,399 |

Deferred:

| | | | |
|-----------------|-----------|-----------|-----------|
| Federal | 42,592 | (18,245) | 11,221 |
| State and local | 14,334 | (4,034) | 537 |
| | 56,926 | (22,279) | 11,758 |
| | \$485,956 | \$546,361 | \$591,157 |

At February 27, 2016, included in other current assets is a net current deferred income tax asset of \$201.5 million and included in deferred rent and other liabilities is a net noncurrent deferred income tax liability of \$2.4 million. At February 28, 2015, included in other current assets is a net current deferred income tax asset of \$207.3 million and included in other assets is a net noncurrent deferred income tax asset of \$49.7 million. These amounts represent the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The significant components of the Company's deferred tax assets and liabilities consist of the following:

| <u>(in thousands)</u> | February 27, 2016 | February 28, 2015 |
|--|-------------------------|-------------------------|
| Deferred tax assets: | | |
| Inventories | \$30,470 | \$35,169 |
| Deferred rent and other rent credits | 74,182 | 77,878 |
| Insurance | 51,238 | 62,668 |
| Stock-based compensation | 39,417 | 35,591 |
| Merchandise credits and gift card liabilities | 66,496 | 65,055 |
| Accrued expenses | 46,226 | 42,328 |
| Obligations on distribution centers | 40,704 | 41,175 |
| Net operating loss carryforwards and other tax credits | 22,253 | 30,453 |
| Other | 90,776 | 89,933 |
| Deferred tax liabilities: | | |
| Depreciation | (104,781) | (74,051) |
| Goodwill | (62,252) | (55,888) |
| Intangibles | (81,150) | (80,515) |
| Other | (14,525) | (12,780) |
| | \$199,054 | \$257,016 |

At February 27, 2016, the Company has federal net operating loss carryforwards of \$11.4 million (tax effected), which will begin expiring in 2025, state net operating loss carryforwards of \$5.0 million (tax effected), which will expire between 2015 and 2031, California state enterprise zone credit carryforwards of \$4.8 million (tax effected), which will expire in 2023, but require taxable income in the enterprise zone to be realizable and other tax credits of \$1.0 million (tax effected).

The Company has not established a valuation allowance for the net deferred tax asset as it is considered more likely than not that it is realizable through a combination of future taxable income and the deductibility of future net deferred tax liabilities.

The following table summarizes the activity related to the gross unrecognized tax benefits from uncertain tax positions:

| <u>(in thousands)</u> | February 27, 2016 | February 28, 2015 |
|--|-------------------------|-------------------------|
| Balance at beginning of year | \$79,985 | \$92,614 |
| Increase related to current year positions | 16,662 | 17,333 |
| Increase related to prior year positions | 2,104 | 6,549 |
| Decrease related to prior year positions | (14,698) | (20,082) |
| Settlements | (5,865) | (11,762) |
| Lapse of statute of limitations | (5,381) | (4,667) |
| Balance at end of year | \$72,807 | \$79,985 |

At February 27, 2016, the Company has recorded approximately \$72.8 million of gross unrecognized tax benefits in non-current income taxes payable on the consolidated balance sheet of which approximately \$72.7 million would impact the Company's effective tax rate. At February 28, 2015, the Company has recorded approximately \$80.0 million of gross unrecognized tax benefits in non-current income taxes payable on the consolidated balance sheet of which approximately \$79.9 million would impact the Company's effective tax rate. As of February 27, 2016 and February 28, 2015, the liability for gross unrecognized tax benefits included approximately \$10.5 million and \$13.0 million, respectively, of accrued interest. The Company recorded a decrease of interest of approximately \$2.5 million and \$3.9 million, respectively, for the years ended February 27, 2016 and February 28, 2015 for gross unrecognized tax benefits in the consolidated statement of earnings.

The Company anticipates that any adjustments to gross unrecognized tax benefits which will impact income tax expense, due to the expiration of statutes of limitations, could be approximately \$4 to \$5 million in the next twelve months. However, actual results could differ from those currently anticipated.

As of February 27, 2016, the Company operated in all 50 states, the District of Columbia, Puerto Rico, Canada and several other international countries and files income tax returns in the United States and various state, local and international jurisdictions. The Company is open to examination for state and local jurisdictions with varying statutes of limitations, generally ranging from three to five years.

For fiscal 2015, the effective tax rate is comprised of the Federal statutory income tax rate of 35.00%, the State income tax rate, net of Federal benefit, of 3.07%, provision for uncertain tax positions of .07% and other income tax benefits of 1.53%. For fiscal 2014, the effective tax rate is comprised of the Federal statutory income tax rate of 35.00%, the State income tax rate, net of Federal benefit, of 3.01%, provision for uncertain tax positions of 0.04% and other income tax benefits of 1.72%. For fiscal 2013, the effective tax rate is comprised of the Federal statutory income tax rate of 35.00%, the State income tax rate, net of Federal benefit, of 3.07%, benefit for uncertain tax positions of 0.05% and other income tax benefits of 1.42%.

7. TRANSACTIONS AND BALANCES WITH RELATED PARTIES

In fiscal 2002, the Company had an interest in certain life insurance policies on the lives of its Co-Chairmen and their spouses. The Company's interest in these policies was equivalent to the net premiums paid by the Company. The agreements relating to the Company's interest in the life insurance policies on the lives of its Co-Chairmen and their spouses were terminated in fiscal 2003. Upon termination in fiscal 2003, the Co-Chairmen paid to the Company \$5.4 million, representing the total amount of premiums paid by the Company under the agreements and the Company was released from its contractual obligation to make substantial future premium payments. In order to confer a benefit to its Co-Chairmen in substitution for the aforementioned terminated agreements, the Company has agreed to pay to the Co-Chairmen, at a future date, an aggregate amount of \$4.2 million, which is included in accrued expenses and other current liabilities as of February 27, 2016 and February 28, 2015.

8.

LEASES

The Company leases retail stores, as well as distribution facilities, offices and equipment, under agreements expiring at various dates through 2042. Certain leases provide for contingent rents (which are based upon store sales exceeding stipulated amounts and are immaterial in fiscal 2015, 2014 and 2013), scheduled rent increases and renewal options. The Company is obligated under a majority of the leases to pay for taxes, insurance and common area maintenance charges.

As of February 27, 2016, future minimum lease payments under non-cancelable operating leases were as follows:

| (in thousands) | Operating Leases |
|-------------------------------------|---------------------|
| Fiscal Year: | |
| 2016 | \$585,118 |
| 2017 | 538,142 |
| 2018 | 473,163 |
| 2019 | 407,510 |
| 2020 | 325,149 |
| Thereafter | 955,643 |
| Total future minimum lease payments | \$3,284,725 |

Expenses for all operating leases were \$568.1 million, \$566.0 million and \$559.8 million for fiscal 2015, 2014 and 2013, respectively.

As of February 27, 2016 and February 28, 2015, the capital lease obligations were approximately \$6.5 million and \$3.5 million, respectively, for which the current and long-term portions are included within accrued expenses and other current liabilities and deferred rent and other liabilities, respectively, in the consolidated balance sheet. Monthly minimum lease payments are accounted for as principal and interest payments. Interest expense for all capital leases was \$0.4 million, \$0.5 million and \$0.5 million for fiscal 2015, 2014 and 2013, respectively. The minimum capital lease payments, including interest, by fiscal year are: \$1.2 million in fiscal 2016, \$1.2 million in fiscal 2017, \$1.0 million in fiscal 2018, \$1.0 million in fiscal 2019, \$0.9 million in fiscal 2020 and \$3.3 million thereafter.

The Company has financing obligations, related to two sale/leaseback agreements, which approximated the discounted fair value of the minimum lease payments, had a residual fair value at the end of the lease term and are being amortized over the term of the respective agreements, including option periods, of 32 and 35 years. As of February 27, 2016 and February 28, 2015, the sale/leaseback financing obligations were approximately \$104.0 million and \$104.6 million, respectively, for which the current and long-term portions are included within accrued expenses and other current liabilities and deferred rent and other liabilities, respectively, in the consolidated balance sheet. Monthly lease payments are accounted for as principal and interest payments (at approximate annual interest rates of 7.2% and

10.6%). These sale/leaseback financing obligations, excluding the residual fair value at the end of the lease term, mature as follows: \$0.7 million in fiscal 2016, \$0.8 million in fiscal 2017, \$0.8 million in fiscal 2018, \$0.8 million in fiscal 2019, \$0.9 million in fiscal 2020 and \$76.4 million thereafter.

9. EMPLOYEE BENEFIT PLANS

Defined Contribution Plans

The Company has five defined contribution savings plans covering all eligible employees of the Company (“the Plans”). Participants of the Plans may defer annual pre-tax compensation subject to statutory and Plan limitations. In addition, a certain percentage of an employee’s contributions are matched by the Company and vest over a specified period of time, subject to certain statutory and Plan limitations. The Company’s match was approximately \$13.9 million, \$13.2 million and \$12.5 million for fiscal 2015, 2014 and 2013, respectively, which was expensed as incurred.

Nonqualified Deferred Compensation Plan

The Company has a nonqualified deferred compensation plan (“NQDC”) for the benefit of employees who are defined by the Internal Revenue Service as highly compensated. Participants of the NQDC may defer annual pre-tax compensation subject to statutory and plan limitations. In addition, a certain percentage of an employee’s contributions may be matched by the Company and vest over a specified period of time, subject to certain plan limitations. The Company’s match was approximately \$0.6 million, \$0.7 million and \$0.5 million in fiscal 2015, 2014 and 2013, respectively, which was expensed as incurred.

Changes in the fair value of the trading securities related to the NQDC and the corresponding change in the associated liability are included within interest income and selling, general and administrative expenses respectively, in the consolidated statements of earnings. Historically, these changes have resulted in no net impact to the consolidated statements of earnings.

Defined Benefit Plan

The Company has a non-contributory defined benefit pension plan for the CTS employees, hired on or before July 31, 2003, who meet specified age and length-of-service requirements. The benefits are based on years of service and the employee’s compensation up until retirement. The Company recognizes the overfunded or underfunded status of the pension plan as an asset or liability in its statement of financial position and recognizes changes in the funded status in the year in which the changes occur. For the years ended February 27, 2016, February 28, 2015 and March 1, 2014, the net periodic pension cost was not material to the Company’s results of operations. The Company has a \$20.4 million and \$18.4 million liability, which is included in deferred rent and other liabilities as of February 27, 2016 and February 28, 2015, respectively. In addition, as of February 27, 2016 and February 28, 2015, the Company recognized a loss of \$6.5 million, net of taxes of \$4.2 million, and a loss of \$6.1 million, net of taxes of \$4.0 million, respectively, within accumulated other comprehensive loss.

10. COMMITMENTS AND CONTINGENCIES

The Company maintains employment agreements with its Co-Chairmen, which extend through February 25, 2017. The agreements provide for a base salary (which may be increased by the Board of Directors), termination payments, postretirement benefits and other terms and conditions of employment. In addition, the Company maintains employment agreements with other executives which provide for severance pay and, in some instances, certain other supplemental retirement benefits.

The Company records an estimated liability related to its various claims and legal actions arising in the ordinary course of business when and to the extent that it concludes a liability is probable and the amount of the loss can be reasonably estimated. Such estimated loss is based on available information and advice from outside counsel, where appropriate. As additional information becomes available, the Company reassesses the potential liability related to claims and legal actions and revises its estimated liabilities, as appropriate. The Company expects the ultimate disposition of these matters will not have a material adverse effect on the Company's consolidated financial position, results of operations or liquidity. The Company also cannot predict the nature and validity of claims which could be asserted in the future, and future claims could have a material impact on its earnings.

11. SUPPLEMENTAL CASH FLOW INFORMATION

The Company paid income taxes of \$442.4 million, \$554.4 million and \$562.4 million in fiscal 2015, 2014 and 2013, respectively. In addition, the Company had interest payments of approximately \$81.5 million, \$48.2 million and \$9.2 million in fiscal 2015, 2014 and 2013, respectively.

The Company recorded an accrual for capital expenditures of \$51.7 million, \$57.8 million and \$50.2 million as of February 27, 2016, February 28, 2015 and March 1, 2014, respectively.

12. STOCK-BASED COMPENSATION

The Company measures all employee stock-based compensation awards using a fair value method and records such expense, net of estimated forfeitures, in its consolidated financial statements. Currently, the Company's stock-based compensation relates to restricted stock awards, stock options and performance stock units. The Company's restricted stock awards are considered nonvested share awards.

Stock-based compensation expense for the fiscal year ended February 27, 2016, February 28, 2015 and March 1, 2014 was approximately \$67.0 million (\$42.4 million after tax or \$0.26 per diluted share), \$66.5 million (\$42.4 million after tax or \$0.22 per diluted share) and approximately \$56.2 million (\$35.6 million after tax or \$0.17 per diluted share), respectively. In addition, the amount of stock-based compensation cost capitalized for the years ended February 27, 2016 and February 28, 2015 was approximately \$2.1 million and \$1.9 million, respectively.

Incentive Compensation Plans

The Company currently grants awards under the Bed Bath & Beyond 2012 Incentive Compensation Plan (the "2012 Plan"), which amended and restated the Bed Bath & Beyond 2004 Incentive Compensation Plan (the "2004 Plan"). The 2012 Plan includes an aggregate of 43.2 million common shares authorized for issuance and the ability to grant incentive stock options. Outstanding awards that were covered by the 2004 Plan continue to be in effect under the 2012 Plan.

The 2012 Plan is a flexible compensation plan that enables the Company to offer incentive compensation through stock options (whether nonqualified stock options or incentive stock options), restricted stock awards, stock appreciation rights, performance awards and other stock based awards, including cash awards. Under the 2012 Plan, grants are determined by the Compensation Committee for those awards granted to executive officers and by an appropriate committee for all other awards granted. Awards of stock options and restricted stock generally vest in five

equal annual installments beginning one to three years from the date of grant. Awards of performance stock units generally vest over a period of four years from the date of grant dependent on the Company's achievement of performance-based tests and subject, in general, to the executive remaining in the Company's service on specified vesting dates.

The Company generally issues new shares for stock option exercises, restricted stock awards and vesting of performance stock units.

Stock Options

Stock option grants are issued at fair market value on the date of grant and generally become exercisable in either three or five equal annual installments beginning one year from the date of grant for options issued since May 10, 2010, and beginning one to three years from the date of grant for options issued prior to May 10, 2010, in each case, subject, in general to the recipient remaining in the Company's service on specified vesting dates. Option grants expire eight years after the date of grant. All option grants are nonqualified. As of February 27, 2016, unrecognized compensation expense related to the unvested portion of the Company's stock options was \$23.2 million, which is expected to be recognized over a weighted average period of 2.7 years.

The fair value of the stock options granted was estimated on the date of the grant using a Black-Scholes option-pricing model that uses the assumptions noted in the following table.

| Black-Scholes Valuation Assumptions (1) | FISCAL YEAR ENDED | | |
|---|-------------------|-------------------|---------------|
| | February 27, 2016 | February 28, 2015 | March 1, 2014 |
| Weighted Average Expected Life (in years) (2) | 6.7 | 6.6 | 6.6 |
| Weighted Average Expected Volatility (3) | 27.59% | 28.31% | 29.27% |
| Weighted Average Risk Free Interest Rates (4) | 1.93 % | 2.11 % | 1.11 % |
| Expected Dividend Yield | - | - | - |

(1) Forfeitures are estimated based on historical experience.

(2) The expected life of stock options is estimated based on historical experience.

(3) Expected volatility is based on the average of historical and implied volatility. The historical volatility is determined by observing actual prices of the Company's stock over a period commensurate with the expected life of the awards. The implied volatility represents the implied volatility of the Company's call options, which are actively traded on multiple exchanges, had remaining maturities in excess of twelve months, had market prices close to the exercise prices of the employee stock options and were measured on the stock option grant date.

(4) Based on the U.S. Treasury constant maturity interest rate whose term is consistent with the expected life of the stock options.

Changes in the Company's stock options for the fiscal year ended February 27, 2016 were as follows:

| (Shares in thousands) | Number of Stock Options | Weighted Average Exercise Price |
|--|-------------------------|---------------------------------|
| Options outstanding, beginning of period | 3,682 | \$ 51.05 |
| Granted | 501 | 70.96 |
| Exercised | (255) | 35.10 |
| Forfeited or expired | (90) | 63.12 |
| Options outstanding, end of period | 3,838 | \$ 54.43 |
| Options exercisable, end of period | 2,358 | \$ 47.06 |

The weighted average fair value for the stock options granted in fiscal 2015, 2014 and 2013 was \$23.12, \$20.96 and \$22.28, respectively. The weighted average remaining contractual term and the aggregate intrinsic value for options outstanding as of February 27, 2016 was 3.7 years and \$19.9 million, respectively. The weighted average remaining contractual term and the aggregate intrinsic value for options exercisable as of February 27, 2016 was 2.4 years and \$18.9 million, respectively. The total intrinsic value for stock options exercised during fiscal 2015, 2014 and 2013 was \$8.7 million, \$33.5 million and \$44.6 million, respectively.

Net cash proceeds from the exercise of stock options for fiscal 2015 were \$9.1 million and the net associated income tax benefit was \$10.0 million.

Restricted Stock

Restricted stock awards are issued and measured at fair market value on the date of grant and generally become vested in five equal annual installments beginning one to three years from the date of grant, subject, in general, to the recipient remaining in the Company's service on specified vesting dates. Vesting of restricted stock awarded to certain of the Company's executives is dependent on the Company's achievement of a performance-based test for the fiscal year of grant and, assuming achievement of the performance-based test, time vesting, subject, in general, to the executive remaining in the Company's service on specified vesting dates. The Company recognizes compensation expense related to these awards based on the assumption that the performance-based test will be achieved. Vesting of restricted stock awarded to the Company's other employees is based solely on time vesting. As of February 27, 2016, unrecognized compensation expense related to the unvested portion of the Company's restricted stock awards was \$127.6 million, which is expected to be recognized over a weighted average period of 3.6 years.

Changes in the Company's restricted stock for the fiscal year ended February 27, 2016 were as follows:

| (Shares in thousands) | Number of Restricted Shares | Weighted Average Grant-Date Fair Value |
|--|-----------------------------------|--|
| Unvested restricted stock, beginning of period | 3,592 | \$ 57.90 |
| Granted | 792 | 68.67 |
| Vested | (952) | 49.50 |
| Forfeited | (202) | 62.81 |
| Unvested restricted stock, end of period | 3,230 | \$ 62.71 |

Performance Stock Units

Performance stock units ("PSUs") are issued and measured at fair market value on the date of grant. Vesting of PSUs awarded to certain of the Company's executives is dependent on the Company's achievement of a performance-based test during a one-year period from the date of grant and during a three-year period from the date of grant and, assuming achievement of the performance-based test, time vesting, subject, in general, to the executive remaining in the Company's service on specified vesting dates. Performance during the one-year period will be based on Earnings Before Interest and Taxes ("EBIT") margin relative to a peer group of the Company. Upon achievement of the one-year performance-based test, the corresponding PSUs will vest annually in substantially equal installments over a three year period starting one year from the date of grant. Performance during the three-year period will be based on Return on Invested Capital ("ROIC") relative to such peer group. Upon achievement of the three-year performance-based test, the corresponding PSUs will vest on the fourth anniversary date of grant. The awards based on EBIT margin and ROIC range from a floor of zero to a cap of 150% of target achievement, with a floor of zero. PSUs are converted into shares of common stock upon payment following vesting. Upon grant of the PSUs, the Company recognizes

compensation expense related to these awards based on the assumption that 100% of the target award will be achieved. The Company evaluates the target assumption on a quarterly basis and adjusts compensation expense related to these awards, as appropriate. As of February 27, 2016, unrecognized compensation expense related to the unvested portion of the Company's performance stock units was \$20.6 million, which is expected to be recognized over a weighted average period of 2.0 years.

Changes in the Company's PSUs for the fiscal year ended February 27, 2016 were as follows:

| (Shares in thousands) | Number of Performance Stock Units | Weighted Average Grant-Date Fair Value |
|---|---|--|
| Unvested performance stock units, beginning of period | 391 | \$ 62.34 |
| Granted | 370 | 70.96 |
| Vested | (98) | 62.34 |
| Forfeited | (36) | 67.15 |
| Unvested performance stock units, end of period | 627 | \$ 67.15 |

13. SUMMARY OF QUARTERLY RESULTS (UNAUDITED)

| | FISCAL 2015 QUARTER ENDED | | | | FISCAL 2014 QUARTER ENDED | | | |
|--|---------------------------|--------------------|-------------------------|-------------------------|---------------------------|--------------------|-------------------------|-------------------------|
| (in thousands, except per share data) | May 30, 2015 | August 29, 2015 | November 28, 2015 | February 27, 2016 | May 31, 2014 | August 30, 2014 | November 29, 2014 | February 28, 2015 |
| Net sales | \$2,738,495 | \$2,995,469 | \$2,952,031 | \$3,417,892 | \$2,656,698 | \$2,944,905 | \$2,942,980 | \$3,336,593 |
| Gross profit | 1,044,133 | 1,140,950 | 1,115,311 | 1,319,916 | 1,030,885 | 1,134,045 | 1,128,974 | 1,325,875 |
| Operating profit | 273,269 | 350,194 | 292,858 | 498,582 | 300,701 | 368,741 | 352,683 | 532,168 |
| Earnings before provision for income taxes | 253,368 | 325,141 | 274,806 | 474,130 | 298,607 | 359,213 | 333,114 | 512,901 |
| Provision for income taxes | 94,917 | 123,463 | 96,990 | 170,586 | 111,555 | 135,260 | 107,706 | 191,840 |
| Net earnings | \$158,451 | \$201,678 | \$177,816 | \$303,544 | \$187,052 | \$223,953 | \$225,408 | \$321,061 |
| EPS-Basic (1) | \$0.94 | \$1.22 | \$1.10 | \$1.93 | \$0.94 | \$1.18 | \$1.24 | \$1.83 |
| EPS-Diluted (1) | \$0.93 | \$1.21 | \$1.09 | \$1.91 | \$0.93 | \$1.17 | \$1.23 | \$1.80 |

(1) Net earnings per share ("EPS") amounts for each quarter are required to be computed independently and may not equal the amount computed for the total year.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders

Bed Bath & Beyond Inc.:

We have audited the accompanying consolidated balance sheets of Bed Bath & Beyond Inc. and subsidiaries as of February 27, 2016 and February 28, 2015, and the related consolidated statements of earnings, comprehensive income, shareholders' equity, and cash flows for each of the fiscal years in the three-year period ended February 27, 2016. In connection with our audits of the consolidated financial statements, we also have audited the consolidated financial statement schedule. These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Bed Bath & Beyond Inc. and subsidiaries as of February 27, 2016 and February 28, 2015, and the results of their operations and their cash flows for each of the fiscal years in the three-year period ended February 27, 2016, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of February 27, 2016, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated April 26, 2016 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The Board of Directors and Shareholders

Bed Bath & Beyond Inc.:

We have audited Bed Bath & Beyond Inc. and subsidiaries' (the "Company") internal control over financial reporting as of February 27, 2016, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in "Management's Report on Internal Control Over Financial Reporting," appearing in Item 9A, Controls and Procedures. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of February 27, 2016, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Bed Bath & Beyond Inc. and subsidiaries as of February 27, 2016 and February 28, 2015, and the related consolidated statements of earnings, comprehensive income, shareholders' equity and cash flows for each of the fiscal years in the three-year period ended February 27, 2016, and our report dated April 26, 2016 expressed an unqualified opinion on those consolidated financial statements.

Short Hills, New Jersey
April 26, 2016

ITEM 9 – CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A – CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures

Based on their evaluation as of February 27, 2016, our Principal Executive Officer and Principal Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) were effective to ensure that the information required to be disclosed by our management in the reports that it files or submits under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms and (ii) accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, to allow timely decisions regarding required disclosure.

(b) Management’s Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934, as amended). Our management assessed the effectiveness of our internal control over financial reporting as of February 27, 2016. In making this assessment, our management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”), released in 2013, Internal Control-Integrated Framework.

Our management has concluded that, as of February 27, 2016, our internal control over financial reporting is effective based on these criteria.

(c) Attestation Report of the Independent Registered Public Accounting Firm

KPMG LLP issued an audit report on the effectiveness of our internal control over financial reporting, which is included herein.

(d) Changes in Internal Control over Financial Reporting

There were no changes in our internal controls over financial reporting during the quarter ended February 27, 2016 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Our management, including our Principal Executive Officer and Principal Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error and all fraud. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. The Company's disclosure controls and procedures are designed to provide such reasonable assurance of achieving their objectives, and the Company's Principal Executive Officer and Principal Financial Officer have concluded that the Company's disclosure controls and procedures are effective at that reasonable assurance level.

ITEM 9B – OTHER INFORMATION

None.

PART III

ITEM 10 –DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

(a) Directors of the Company

Information relative to Directors of the Company is set forth under the section captioned “Election of Directors” in the registrant’s definitive Proxy Statement for the 2016 Annual Meeting of Shareholders (“the Proxy Statement”) and is incorporated herein by reference.

(b) Executive Officers of the Company

Information relative to Executive Officers of the Company is set forth under the section captioned “Executive Officers” in the Proxy Statement and is incorporated herein by reference.

(c) Information with respect to compliance with Section 16(a) o
