----------	--------------------	--------------------	----------

Total revenues for the fourth quarter grew 17.2% due to a 20.3% increase in product revenue offset by a decrease in equipment sales versus the same period last year. Product revenue grew 20.2% due to a 5.1% increase in unit volumes and higher selling prices. Gross profit increased 28.3% over the same period last year due to the increased revenues and a 3.1% increase in gross margin. Gross margin increased 3.1%, to 35.7% from 32.6%, due to increased gross margin on product sales and the absence of negative gross margin equipment sales. Gross margin on products increased 1.8%, to 35.7% from 33.9%, due to higher sales prices and manufacturing efficiencies from higher unit volume production. Operating expenses decreased 14.6% from the same period last year due primarily to lower payroll expenses. Loss from operations decreased 52.6% year over year due to the higher revenues and gross profit and decreased operating expenses. Fourth quarter net loss decreased 42.8% year over year due to the higher revenues and gross profit and decreased operating expenses, offset somewhat by higher interest expense and other expenses.

First quarter fiscal 2012

For the first quarter ended September 30, 2011 we are projecting revenues of approximately \$1.3 million, 40% above the same period last year and the highest quarterly revenue in company history. Growth in our hand truck, forklift and wheelbarrow tire lines drove this sales increase. We anticipate that fiscal first quarter 2012 net loss decreased compared to fiscal first quarter 2011.

Management has identified foreign demand for Amerityre's products and technologies. In August, the Company entered into a license agreement with a Canadian company. Amerityre will supply proprietary chemical formulations and processing equipment to be utilized in manufacturing trim and molding for the Canadian building supply market. Our licensee believes polyurethane technology will be a competitive alternative to wood, press board and rubber products. Equipment and an initial order of chemical formulations shipped during the first quarter. Additionally, tire volume sales into Canada increased significantly during fiscal first quarter 2012 versus the same period last year. In October, Amerityre will ship its first container of flat-free bicycle tires to South Korea.

In September Amerityre added two additional salespeople. One person will focus on introducing our forklift tires to original equipment manufacturers. The other addition will focus on expanding distribution of all Amerityre products in the southwestern U.S.

CEO Tim Ryan commented, "The revenue growth and trend towards profitability Amerityre experienced in fiscal fourth quarter 2011 have continued through the first four months of fiscal 2012. I am particularly pleased with our higher capacity utilization and the increased forklift tires sales volumes."

Departure of Directors

Francis Dosal, Louis Haynie and Henry Moyle have notified the Company of their intentions to retire from Amerityre's Board of Directors at the end of their current term. The Company thanks Mr. Dosal, Mr. Haynie and Mr. Moyle for their service on the Board.
