These shares were granted as market share units that vest one-hundred percent on May 12, 2017, subject to acceleration or forfeiture in certain specified circumstances. Each market share unit converts into a number of shares of common stock determined by applying a payout factor to the target number of shares vesting on the third anniversary of the date of grant and the ratio referenced in the following sentence. The payout factor is determined by reference to a ratio of (x) (i) the 90-day average closing price on the vesting date plus an amount equal to reinvested cash dividends during the period between the date of grant and the vesting date, less (ii) the 90-day average closing price on the date of grant, divided by (y) the 90-day average closing price on the date of grant. These shares represent the market share units granted, assuming a payout factor of 100%. The maximum payout factor is 200%.

(2) This grant was made after markets had closed.

(3) The options vest in three equal annual installments beginning on May 12, 2015, subject to acceleration or forfeiture in certain specified circumstances.

Note: File three copies of this Form, one of which must be manually signed. If space is insufficient, *see* Instruction 6 for procedure.

Potential persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB number.
