EARNINGS RELEASE FOR THE QUARTER ENDED 30 SEPTEMBER, 2004 IN AUSTRALIAN

DOLLARS USING AUSTRALIAN GENERALLY ACCEPTED ACCOUNTING PRINCIPLES

NEWS CORPORATION REPORTS FIRST QUARTER OPERATING

INCOME OF A\$1.1 BILLION, A 4% INCREASE, ON REVENUE

GROWTH OF 4%

NET PROFIT INCREASES 18% TO A\$761 MILLION

QUARTER HIGHLIGHTS

Strong ratings and advertising growth at Fox News Channel and FX and higher affiliate revenues at the Regional Sports Networks drives 37% operating income growth at Cable Network Programming.

Television segment operating income up 21% on advertising growth at the broadcast network and STAR and lower programming costs at the network and station group.

Robust home entertainment sales contribute to strong results at Filmed Entertainment. Overall segment down due to strong syndication sales in the quarter a year ago.

SKY Italia operating losses slightly below a year ago as subscriber base expands to more than 2.8 million.

Print segments report higher aggregate earnings contributions led by 10% operating income growth at Newspapers from advertising revenue gains in Australia and U.K.

Sydney, 4 November, 2004 The News Corporation Limited (ASX: NCP, NCPDP) today reported first quarter consolidated revenues of A\$7.4 billion, a 4% increase over the A\$7.1 billion reported in the prior year, and consolidated operating income of A\$1.14 billion, a 4% increase over the A\$1.10 billion reported a year ago. The year-on-year operating income growth was driven by double-digit increases at the Cable Network Programming, Television and Newspaper segments partially offset by unfavourable foreign currency fluctuations.

Net profit for the first quarter was A\$761 million, an increase of A\$117 million over the A\$644 million reported a year ago. Net profit before other items increased to A\$662 million (A\$0.112 per share) versus A\$589 million (A\$0.111 per share) in the prior year, primarily due to higher consolidated operating income and improved associated entities results partially offset by unfavourable foreign currency fluctuations.

Commenting on the results, Chairman and Chief Executive Rupert Murdoch said:

Edgar Filing: NEWS CORP LTD - Form 6-K

We are extremely pleased with the 12% revenue and operating income growth in U.S dollar terms we delivered during our first quarter a continuation of the record results we achieved in fiscal 2004. Double-digit earnings gains at our television, cable, newspapers and magazines and inserts segments, as well as strong profits from filmed entertainment underscore the sustained financial strength across our

diverse and balanced collection of assets. At the same time, we are also quickly establishing another growth engine with our global pay-TV assets, particularly at SKY Italia, BSkyB and DIRECTV, each of which has positioned itself for substantial earnings generation in the years ahead.

And with the recent shareholder approval of our reincorporation to the United States, we are on the cusp of a new and more prosperous era for News Corporation - an era in which the profit growth we are poised to deliver and the potential of our unmatched asset base translate into stronger returns for our shareholders.

REVIEW OF OPERATING RESULTS

FILMED ENTERTAINMENT

The Filmed Entertainment segment reported first quarter operating income of US\$285 million versus US\$328 million reported in the same period a year ago. The current quarter results primarily reflect strong worldwide theatrical revenues and increased contributions from the worldwide home entertainment release of film and television titles which were more than offset by lower syndication profits from Twentieth Century Fox Television (TCFTV).

Current quarter film results were largely driven by the continued strong theatrical performances of *The Day After Tomorrow* and *Dodgeball* and strong worldwide home entertainment contributions from various titles, most notably *The Star Wars Trilogy*, *Johnson Family Vacation* and *Man on Fire* as well as from the distribution of *Passion of the Christ*. These contributions were partially offset by the marketing costs for several successful releases including *I, Robot*, which has grossed over US\$330 million in worldwide box office since its July release, and *Alien vs.*

Edgar Filing: NEWS CORP LTD - Form 6-K

Predator, which was released in August and has grossed over US\$100 million worldwide. The first quarter a year ago included the worldwide home entertainment performances of *Phone Booth* and *Daredevil*.

At TCFTV, earnings declined year-on-year primarily reflecting syndication profits in last year's first quarter from the initial releases of *Angel* and *Judging Amy* as well as contributions from *M*A*S*H*. During the current quarter, TCFTV continued its strong home entertainment sales of television series, most notably from *The Simpsons*, *Futurama* and *Family Guy*. TCFTV has received orders for 23 series in the current broadcast season including *Arrested Development* which garnered the Emmy for outstanding comedy series.

FOR THE QUARTER ENDED 30 SEPTEMBER, 2004

TELEVISION

The Television segment reported first quarter operating income of US\$233 million, an increase of 30% versus the same period a year ago primarily reflecting double-digit earnings improvement at the FOX Broadcasting Company and continued profit growth at STAR.

At the FOX Broadcasting Company, operating losses improved by US\$35 million as higher advertising pricing and lower programming costs for the primetime entertainment schedule were partially offset by a 12% decline in primetime ratings and the absence of the Emmy awards which were broadcast on FOX in the first quarter a year ago. Subsequent to quarter-end, primetime ratings have improved as Major League Baseball World Series ratings increased 23% over prior year, making it the highest rated World Series since 1999.

Fox Television Stations (FTS) first quarter operating income increased slightly over the same period a year ago despite competition from the Olympics during August and weaker primetime ratings. Current year earnings growth primarily resulted from lower entertainment programming costs primarily due to the expiration of various syndicated programs partially offset by an expansion of local news in several FTS markets.

STAR's first quarter operating income increased dramatically on revenue expansion of 14% versus the same quarter a year ago. Revenue gains were primarily driven by growing advertising in India and China as well as by higher subscription revenues from the international distribution of local Indian channels.

CABLE NETWORK PROGRAMMING

Cable Network Programming reported first quarter operating income of US\$196 million, an increase of US\$63 million over last year's results. The 47% growth reflects continued strength across all of the Company's primary cable channels and the absence of losses from the Los Angeles Dodgers which was sold during Fiscal 2004.

Fox News Channel (FNC) reported operating income growth of 20% in the first quarter as strong revenue growth, primarily from increased advertising, more than offset higher costs associated with coverage of the political conventions. FNC's ratings during the Republican National Convention defeated not only every other cable news network but also beat the broadcast networks during head to head coverage. Viewership in the quarter was up 29% on a 24-hour basis and up 37% in primetime where FNC had more total viewers than CNN, MSNBC, Headline News and CNBC combined.

At our other cable channels (including the Regional Sports Networks (RSNs), the FX Channel (FX) and SPEED Channel) operating profit increased 39% for the quarter driven by strong revenue growth at the RSNs and FX. Higher affiliate revenues at the RSNs, largely due to increased rates and additional DTH subscribers, were partially offset by increased programming costs from higher rights fees and additional events versus the first quarter a year ago. At FX, increased advertising revenues were driven by the ratings success of *Nip/Tuck*, basic cable's #1 series among Adults 18-49, and the

News Corporation
EARNINGS RELEASE
FOR THE QUARTER ENDED 30 SEPTEMBER, 2004

new original series *Rescue Me*. During the quarter FX was the fifth ranked basic cable channel among Adults 18-49.

DIRECT BROADCAST SATELLITE TELEVISION

SKY Italia reported first quarter operating loss of US\$121 million, in line with the loss of US\$117 million reported in the first quarter a year ago. Revenue, in local currency terms, grew 45% primarily driven by strong subscriber additions over the past year including more than 167,000 net new subscribers during the first quarter which resulted in SKY Italia's subscriber base reaching 2.83 million at quarter end. The revenue growth was offset by increased subscriber acquisition costs as well as higher programming spending during the quarter primarily due to the airing of additional soccer matches and the addition of ten new entertainment channels on the basic programming tier. Additionally, during the quarter the Company incurred costs associated with the swap-out of set-top boxes which were using outdated encryption software.

MAGAZINES AND INSERTS

The Magazines and Inserts segment reported first quarter operating income of US\$64 million, a 10% increase versus the same period a year ago. The improvement was primarily driven by higher contributions from the InStore division on higher advertising revenues. Free Standing Inserts was in line with a year ago as increased demand for packaged goods pages was offset by lower rates.

NEWSPAPERS

The Newspaper segment reported first quarter operating income of US\$120 million, up 18% versus the same period a year ago reflecting advertising revenue increases in the U.K. and Australia.

The Australian newspaper group reported a 22% increase in operating income in local currency terms, driven by an 11% increase in advertising revenue over a year ago. Advertising growth was fueled by display advertising which achieved solid gains across all sectors as well as by classified advertising with particular strength in the employment sector.

The U.K. newspaper group's operating income was in-line with the first quarter a year ago in local currency terms as advertising revenue growth of 6% and a slight increase in circulation revenues were offset by higher costs principally due to production of the *Times Compact*. Advertising revenue growth was achieved across all titles, with the largest increase at *The Sun* from higher volumes on color display and classifieds.

BOOK PUBLISHING

Edgar Filing: NEWS CORP LTD - Form 6-K

HarperCollins reported operating income of US\$60 million during the quarter versus US\$59 million in the same period a year ago. The results reflect strength worldwide,

News Corporation

FOR THE QUARTER ENDED 30 SEPTEMBER, 2004

particularly with the ongoing success of Zondervan's *The Purpose Driven Life*, as well as strong sales of Lemony Snicket's *The Grim Grotto*, *American Soldier* by General Tommy Franks, *The Proper Care and Feeding of Husbands* by Dr. Laura Schlessinger and the paperback edition of David Beckham's *My Side*. During the quarter, HarperCollins had 25 titles on *The New York Times* bestseller list with four titles that reached #1.

OTHER MATTERS

Following the quarter the Company acquired Telecom Italia S.p.A.'s 19.9% stake in Sky Italia for \$88 million bringing News Corporation's ownership of Sky Italia to 100%.

Also following the quarter the Company's shareholders, option holders and the Federal Court of Australia approved the reincorporation changing the Company's place of incorporation to the United States. In connection with the reincorporation, the Company will acquire from the Murdoch Interests the 58% controlling interest in Queensland Press Pty Limited that the Company does not already own. The transactions are expected to be completed on November 12, 2004.

During October, the Company and its 34 percent investee, The DIRECTV Group, Inc., announced a series of transactions with Grupo Televisa, Globopar and Liberty Media International, Inc. that will result in the reorganisation of the companies' direct-to-home satellite TV platforms in Latin America. The transactions will result in DIRECTV Latin America and Sky Latin America consolidating their two DTH platforms into a single platform in each of the major territories served in the region. As part of these transactions, DIRECTV will acquire News Corporation's interests in Sky Brasil, Innova and Sky Multi-Country Partners. The completion of the reorganisation is subject to the necessary governmental approvals.

REVIEW OF ASSOCIATED ENTITIES RESULTS

First quarter net profit from associated entities before other items was A\$136 million versus A\$87 million in the same period a year ago. The year-over-year improvement was primarily due to contributions from BSkyB and a comparatively favorable impact from foreign currency fluctuations at the Latin America DTH platforms, partially offset by recognition of losses at The DIRECTV Group.

The Company's share of net profit (loss) from associated entities is as follows:

	% Owned	3 Months Ended 30 September,	
		2004	2003
		US \$ Millions	
Sky Brasil	49.7% ^(a)	\$ 13	\$ (8)

* Certain prior year amounts have been reclassified to conform to the current fiscal year presentation.

Sky Brasil's revenues grew 20% in local currency terms compared to prior year, primarily driven by a higher subscriber base and increased average revenue per subscriber. The revenue growth was partly offset by increased programming costs mainly relating to the Brazilian Soccer Championship. The increase in net income principally reflects the favorable impact of foreign currency fluctuations due to the strengthening of the Brazilian Real on U.S. dollar denominated liabilities during the quarter.

Innova's revenues grew 28% in local currency terms compared to prior year primarily driven by a 14% increase in the subscriber base as well as higher set-top box rentals. The increase in net income principally reflects the favorable impact of foreign currency fluctuations due to the strengthening of the Mexican Peso on U.S. dollar denominated liabilities during the quarter.

* Certain prior year amounts have been reclassified to conform to the current fiscal year presentation.

FOXTEL's revenues increased 13%, principally due to an 11% increase in ending subscribers (excluding wholesale) and higher average revenue per subscriber. Net loss increased by A\$21 million against the prior year as the increased subscriber revenues were more than offset by increased transmission costs as well as higher sales and marketing expenses relating to the launch of the new digital service on March 14, 2004, and higher depreciation and interest expenses. As of 30th September, approximately 40% of the FOXTEL managed subscriber base (excluding wholesale) was connected to the new digital service with 121,000 new and upgrade orders taken during the quarter.

EARNINGS RELEASE
FOR THE QUARTER ENDED 30 SEPTEMBER, 2004

Note 2 - SUPPLEMENTAL FINANCIAL DATA

The Company considers net profit before other items to be an important indicator of the Company's operating performance on a consolidated basis. Net profit before other items, defined as net profit attributable to members of the parent entity before other items related to the Company and associated entities, net of applicable income tax expenses and outside equity interests, eliminates the effect of transactions that are considered significant by reason of their size, nature or effect on the Company's financial performance for the year. Net profit before other items, which is the information reported to and used by the Company's chief decision maker for the purpose of making decisions about the allocation of resources to segments and assessing their performance, should be considered in addition to, not as a substitute for the Company's operating income, net profit attributable to members of the parent entity, cash flows and other measures of financial performance prepared in accordance with generally accepted accounting principles in Australia. Net profit before other items does not reflect cash available to fund requirements, and the items excluded from net profit before other items, such as other revenues and expenses, are significant components in assessing the Company's financial performance.

The following table reconciles certain components of net profit attributable to members of the parent entity as presented on page 2 of this release to the presentation required under Australian GAAP as required by Australian Accounting Standard AASB 1018 Statement of Financial Performance on page 11 of this release.

**NEWS CORPORATION REPORTS FIRST QUARTER OPERATING
INCOME OF \$805 MILLION, A 12% INCREASE, ON REVENUE
GROWTH OF 12%**

NET PROFIT INCREASES 27% TO \$536 MILLION

QUARTER HIGHLIGHTS

Strong ratings and advertising growth at Fox News Channel and FX and higher affiliate revenues at the Regional Sports Networks drives 47% operating income growth at Cable Network Programming.

Television segment operating income up 30% on advertising growth at the broadcast network and STAR and lower programming costs at the network and station group.

Robust home entertainment sales contribute to strong results at Filmed Entertainment. Overall segment down due to strong syndication sales in the quarter a year ago.

SKY Italia operating losses in line with a year ago as subscriber base expands to more than 2.8 million.

All print segments report higher earnings contributions led by 18% operating income growth at Newspapers from advertising revenue gains in Australia and U.K.

NEW YORK, NY, November 3, 2004 The News Corporation Limited (NYSE: NWS, NWS.A) today reported first quarter consolidated revenues of \$5.2 billion, a 12% increase over the \$4.6 billion reported in the prior year, and consolidated operating income of \$805 million, a 12% increase over the \$719 million reported a year ago. The year-on-year operating income growth was driven by double-digit increases at the Cable Network Programming, Television, Newspaper and Magazines and Inserts segments.

Net profit for the first quarter was \$536 million, an increase of \$114 million over the \$422 million reported a year ago. Net profit before other items increased to \$467 million (\$0.32 per ADR) versus \$386 million (\$0.29 per ADR) in the prior year, primarily due to higher consolidated operating income and improved associated entities results.

Commenting on the results, Chairman and Chief Executive Rupert Murdoch said:

We are extremely pleased with the 12% revenue and operating income growth we delivered during our first quarter a continuation of the record results we achieved in fiscal 2004. Double-digit earnings gains at our television, cable, newspapers and magazines and inserts segments, as well as strong profits from filmed entertainment underscore the sustained financial strength across our diverse and

REVIEW OF OPERATING RESULTS

FILMED ENTERTAINMENT

The Filmed Entertainment segment reported first quarter operating income of \$285 million versus \$328 million reported in the same period a year ago. The current quarter results primarily reflect strong worldwide theatrical revenues and increased contributions from the worldwide home entertainment release of film and television titles which were more than offset by lower syndication profits from Twentieth Century Fox Television (TCFTV).

Current quarter film results were largely driven by the continued strong theatrical performances of *The Day After Tomorrow* and *Dodgeball* and strong worldwide home entertainment contributions from various titles, most notably *The Star Wars Trilogy*, *Johnson Family Vacation* and *Man on Fire* as well as from the distribution of *Passion of the Christ*. These contributions were partially offset by the marketing costs for several successful releases including *I, Robot*, which has grossed over \$330 million in worldwide box office since its July release, and *Alien vs. Predator*, which was released in August and has grossed over \$100 million worldwide. The first quarter a year ago included the worldwide home entertainment performances of *Phone Booth* and *Daredevil*.

Edgar Filing: NEWS CORP LTD - Form 6-K

At TCFTV, earnings declined year-on-year primarily reflecting syndication profits in last year's first quarter from the initial releases of *Angel* and *Judging Amy* as well as contributions from *M*A*S*H*. During the current quarter, TCFTV continued its strong home entertainment sales of television series, most notably from *The Simpsons*, *Futurama* and *Family Guy*. TCFTV has received orders for 23 series in the current broadcast season including *Arrested Development* which garnered the Emmy for outstanding comedy series.

TELEVISION

The Television segment reported first quarter operating income of \$233 million, an increase of 30% versus the same period a year ago primarily reflecting double-digit earnings improvement at the FOX Broadcasting Company and continued profit growth at STAR.

At the FOX Broadcasting Company, operating losses improved by \$35 million as higher advertising pricing and lower programming costs for the primetime entertainment schedule were partially offset by a 12% decline in primetime ratings and the absence of the Emmy awards which were broadcast on FOX in the first quarter a year ago. Subsequent to quarter-end, primetime ratings have improved as Major League Baseball World Series ratings increased 23% over prior year, making it the highest rated World Series since 1999.

Fox Television Stations (FTS) first quarter operating income increased slightly over the same period a year ago despite competition from the Olympics during August and weaker primetime ratings. Current year earnings growth primarily resulted from lower entertainment programming costs primarily due to the expiration of various syndicated programs partially offset by an expansion of local news in several FTS markets.

STAR's first quarter operating income increased dramatically on revenue expansion of 14% versus the same quarter a year ago. Revenue gains were primarily driven by growing advertising in India and China as well as by higher subscription revenues from the international distribution of local Indian channels.

CABLE NETWORK PROGRAMMING

Cable Network Programming reported first quarter operating income of \$196 million, an increase of \$63 million over last year's results. The 47% growth reflects continued strength across all of the Company's primary cable channels and the absence of losses from the Los Angeles Dodgers which was sold during Fiscal 2004.

Fox News Channel (FNC) reported operating income growth of 20% in the first quarter as strong revenue growth, primarily from increased advertising, more than offset higher costs associated with coverage of the political conventions. FNC's ratings during the Republican National Convention defeated not only every other cable news network but also beat the broadcast networks during head to head coverage. Viewership in the quarter was up 29% on a 24-hour basis and up 37% in primetime where FNC had more total viewers than CNN, MSNBC, Headline News and CNBC combined.

At our other cable channels (including the Regional Sports Networks (RSNs), the FX Channel (FX) and SPEED Channel) operating profit increased 39% for the quarter driven by strong revenue growth at the RSNs and FX. Higher affiliate revenues at the RSNs, largely due to increased rates and additional DTH subscribers, were partially offset by increased programming costs from higher rights fees and additional events versus the first quarter a year ago. At FX, increased advertising revenues were driven by the ratings success of *Nip/Tuck*, basic cable's #1 series among Adults 18-49, and the

News Corporation
EARNINGS RELEASE
FOR THE QUARTER ENDED SEPTEMBER 30, 2004

new original series *Rescue Me*. During the quarter FX was the fifth ranked basic cable channel among Adults 18-49.

DIRECT BROADCAST SATELLITE TELEVISION

SKY Italia reported first quarter operating loss of \$121 million, in line with the loss of \$117 million reported in the first quarter a year ago. Revenue, in local currency terms, grew 45% primarily driven by strong subscriber additions over the past year including more than 167,000 net new subscribers during the first quarter which resulted in SKY Italia's subscriber base reaching 2.83 million at quarter end. The revenue growth was offset by increased subscriber acquisition costs as well as higher programming spending during the quarter primarily due to the airing of additional soccer matches and the addition of ten new entertainment channels on the basic programming tier. Additionally, during the quarter the Company incurred costs associated with the swap-out of set-top boxes which were using outdated encryption software.

MAGAZINES AND INSERTS

The Magazines and Inserts segment reported first quarter operating income of \$64 million, a 10% increase versus the same period a year ago. The improvement was primarily driven by higher contributions from the InStore division on higher advertising revenues. Free Standing Inserts was in line with a year ago as increased demand for packaged goods pages was offset by lower rates.

NEWSPAPERS

The Newspaper segment reported first quarter operating income of \$120 million, up 18% versus the same period a year ago reflecting advertising revenue increases in the U.K. and Australia.

The Australian newspaper group reported a 22% increase in operating income in local currency terms, driven by an 11% increase in advertising revenue over a year ago. Advertising growth was fueled by display advertising which achieved solid gains across all sectors as well as by classified advertising with particular strength in the employment sector.

The U.K. newspaper group's operating income was in-line with the first quarter a year ago in local currency terms as advertising revenue growth of 6% and a slight increase in circulation revenues were offset by higher costs principally due to production of the *Times Compact*. Advertising revenue growth was achieved across all titles, with the largest increase at *The Sun* from higher volumes on color display and classifieds.

BOOK PUBLISHING

Edgar Filing: NEWS CORP LTD - Form 6-K

HarperCollins reported operating income of \$60 million during the quarter versus \$59 million in the same period a year ago. The results reflect strength worldwide, particularly

FOR THE QUARTER ENDED SEPTEMBER 30, 2004

with the ongoing success of Zondervan's *The Purpose Driven Life*, as well as strong sales of Lemony Snicket's *The Grim Grotto*, *American Soldier* by General Tommy Franks, *The Proper Care and Feeding of Husbands* by Dr. Laura Schlessinger and the paperback edition of David Beckham's *My Side*. During the quarter, HarperCollins had 25 titles on *The New York Times* bestseller list with four titles that reached #1.

OTHER MATTERS

Following the quarter the Company acquired Telecom Italia S.p.A.'s 19.9% stake in Sky Italia for \$88 million bringing News Corporation's ownership of Sky Italia to 100%.

Also following the quarter the Company's shareholders, option holders and the Federal Court of Australia approved the reincorporation changing the Company's place of incorporation to the United States. In connection with the reincorporation, the Company will acquire from the Murdoch Interests the 58% controlling interest in Queensland Press Pty Limited that the Company does not already own. The transactions are expected to be completed on November 12, 2004.

During October, the Company and its 34 percent investee, The DIRECTV Group, Inc., announced a series of transactions with Grupo Televisa, Globopar and Liberty Media International, Inc. that will result in the reorganization of the companies' direct-to-home satellite TV platforms in Latin America. The transactions will result in DIRECTV Latin America and Sky Latin America consolidating their two DTH platforms into a single platform in each of the major territories served in the region. As part of these transactions, DIRECTV will acquire News Corporation's interests in Sky Brasil, Innova and Sky Multi-Country Partners. The completion of the reorganization is subject to the necessary governmental approvals.

REVIEW OF ASSOCIATED ENTITIES RESULTS

First quarter net profit from associated entities before other items was \$96 million versus \$57 million in the same period a year ago. The year-over-year improvement was primarily due to contributions from BSkyB and a comparatively favorable impact from foreign currency fluctuations at the Latin America DTH platforms, partially offset by recognition of losses at The DIRECTV Group.

The Company's share of net profit (loss) from associated entities is as follows:

	% Owned	3 Months Ended September 30,

* Certain prior year amounts have been reclassified to conform to the current fiscal year presentation.

Sky Brasil's revenues grew 20% in local currency terms compared to prior year, primarily driven by a higher subscriber base and increased average revenue per subscriber. The revenue growth was partly offset by increased programming costs mainly relating to the Brazilian Soccer Championship. The increase in net income principally reflects the favorable impact of foreign currency fluctuations due to the strengthening of the Brazilian Real on U.S. dollar denominated liabilities during the quarter.

Innova's revenues grew 28% in local currency terms compared to prior year primarily driven by a 14% increase in the subscriber base as well as higher set-top box rentals. The increase in net income principally reflects the favorable impact of foreign currency fluctuations due to the strengthening of the Mexican Peso on U.S. dollar denominated liabilities during the quarter.

FOXTEL's revenues increased 13%, principally due to an 11% increase in ending subscribers (excluding wholesale) and higher average revenue per subscriber. Net loss increased by A\$21 million against the prior year as the increased subscriber revenues were more than offset by increased transmission costs as well as higher sales and marketing expenses relating to the launch of the new digital service on March 14, 2004, and higher depreciation and interest expenses. As of September 30th, approximately 40% of the FOXTEL managed subscriber base (excluding wholesale) was connected to the new digital service with 121,000 new and upgrade orders taken during the quarter.

EARNINGS RELEASE
FOR THE QUARTER ENDED SEPTEMBER 30, 2004

Note 2 - SUPPLEMENTAL FINANCIAL DATA

The Company considers net profit before other items to be an important indicator of the Company's operating performance on a consolidated basis. Net profit before other items, defined as net profit attributable to members of the parent entity before other items related to the Company and associated entities, net of applicable income tax expenses and outside equity interests, eliminates the effect of transactions that are considered significant by reason of their size, nature or effect on the Company's financial performance for the year. Net profit before other items, which is the information reported to and used by the Company's chief decision maker for the purpose of making decisions about the allocation of resources to segments and assessing their performance, should be considered in addition to, not as a substitute for the Company's operating income, net profit attributable to members of the parent entity, cash flows and other measures of financial performance prepared in accordance with generally accepted accounting principles in Australia. Net profit before other items does not reflect cash available to fund requirements, and the items excluded from net profit before other items, such as other revenues and expenses, are significant components in assessing the Company's financial performance.

The following table reconciles certain components of net profit attributable to members of the parent entity as presented on page 2 of this release to the presentation required under Australian GAAP as required by Australian Accounting Standard AASB 1018 Statement of Financial Performance on page 11 of this release.
