Positive outlook after slower quarter

26 October 2005

Smith & Nephew plc (LSE: SN, NYSE: SNN), the global medical technology business, announced today its results for the third quarter ended 1 October 2005.

Q3 Highlights

Group revenue up 10%* to £341m

Orthopaedics revenue up 15%*, US up 16%*

Endoscopy revenue up 8%*

Wound Management revenue up 3%*

Trading profit up 11%, margin achieved of 19%

EPSA up 10%** to 5.41p

BSN Medical realisation underway

Decision to exit DERMAGRAFT[◇]

Dollar reporting in 2006

Commenting on the third quarter and the outlook for the year, Sir Christopher O'Donnell, Chief Executive of Smith & Nephew, said:

Edgar Filing: SMITH & NEPHEW PLC - Form 6-K

Although our growth in revenue and profits slowed slightly in the third quarter, Orthopaedics continued to grow at a market leading rate. We are confirming our guidance of EPSA growth for the year of 12% - 13% as our businesses continue to introduce outstanding new products and to invest in their sales channels.

We have decided to exit DERMAGRAFT[®] and related products and are announcing this to affected employees today, and have therefore brought the timing of this announcement forward. The decision to exit DERMAGRAFT[®], along with that to realise our investment in BSN Medical, will improve the growth profile of the Group. Additionally we are looking to align our reporting currency with the main trading currency of our business and accordingly are moving to US dollar reporting in 2006.

News

A presentation and conference call for analysts to discuss the company's third quarter results will be held at 12.00 noon BST / 7.00am EST tomorrow, Thursday 27 October. The conference call will be broadcast live on the web and will be available on demand shortly following the close of the meeting at <http://www.smith-nephew.com/Q305>. If interested parties are unable to connect to the web, a listen-only service is available by calling 020 7365 1834 in the UK or 718 354 1158 in the US. Analysts should contact Julie Allen on +44 (0) 20 7960 2254 or by email at julie.allen@smith-nephew.com for conference call details.

-
- * Unless otherwise specified as reported, all revenue increases throughout this document are underlying increases after adjusting for the effects of currency translation, the acquisition of MMT in Q1 last year and the effect of one less sales day in the first half of the year. See note 3.
 - ** EPSA is stated before restructuring and rationalisation costs, taxation thereon and amortisation of acquisition intangibles. See note 2.

Introduction

As announced in our trading update on 13 September, trading conditions this quarter have been tighter. Orthopaedics achieved 15% sales growth in the quarter, ahead of the market in all areas except knees in the US, despite tighter market conditions and the impact of Hurricane Katrina. Endoscopy has continued its momentum and generated 8% sales growth in the quarter, driven by shoulder and knee repair revenues. Advanced Wound Management revenues grew 3% as it continued to experience distributor de-stocking in the US. Encouragingly we have seen no change in the overall pricing trends of our products and the fundamental drivers of our markets remain strong.

During the quarter we announced our intention to divest BSN Medical, our joint venture with Beiersdorf AG. This is progressing well, with strong interest expressed by a large number of potential buyers, and we anticipate completing the sale in the early part of 2006.

We are also announcing today that we have received a non-approvable letter from the FDA in relation to the marketing of DERMAGRAFT[®] in the US for the treatment of venous leg ulcers, as a result of which we have taken the decision to exit from DERMAGRAFT[®] and related products. This is expected to benefit trading profits in 2006 by approximately £7m.

Third Quarter Results

Underlying revenue growth in the quarter was 10% relative to the third quarter last year. Translational currency added 1% to revenue growth, resulting in reported third quarter revenue increasing by 11% to £341m.

Trading profit in the quarter was £65 1/2m, a trading margin of 19%. Tax thereon amounted to £19 1/2m, an effective tax rate of 30%, and the share of after tax results of the BSN joint venture was £5m; resulting in attributable profit before restructuring and rationalisation costs, taxation thereon and amortisation of acquisition intangibles of £51m. Attributable profit after restructuring and rationalisation costs and related tax relief, and the amortisation of acquisition intangibles was £35m.

Earnings per share, before restructuring and rationalisation costs, taxation thereon and amortisation of acquisition intangibles (EPSA), was 5.41p (27.05p per American Depositary Share, ADS), a 10% increase on the third quarter last year. A reconciliation of EPSA to reported earnings per share is given in note 2 to the accounts.

Restructuring and rationalisation costs in the quarter comprise £8 1/2m for the rationalisation of manufacturing facilities at Endoscopy announced with the results for the second quarter, and £15 1/2m of asset impairment following the decision to exit from DERMAGRAFT[®] and related products.

Orthopaedics

Orthopaedics revenues grew by 15% relative to the third quarter last year to £168m. Revenue growth in the US was 16% and outside the US 13%.

In the US our knee products experienced competition ahead of the launch of two new OXINIUM^o products; a revision knee (LEGION^o) in the fourth quarter and an anatomic knee (JOURNEY^o) in 2006. Knee revenues grew 13%, 10% in the US and 18% outside the US.

Hip revenues grew by 10% both in and outside the US, ahead of the market, with the BHR^o product continuing to provide momentum to revenues outside the US. The FDA Advisory Panel review during the quarter of our BHR^o product recommended conditional approval to the FDA for use in the US.

Trauma revenue growth was 15%. Within the US, trauma revenues increased by 19%, ahead of the market, and continued to benefit from the establishment of a dedicated sales force and the launch of the PERI-LOC^o locking compression plate system earlier this year. Outside the US, trauma growth improved to 10%.

Clinical Therapy revenues, comprising the EXOGEN^o ultrasound bone healing and SUPARTZ^o joint fluid therapy products, continued to benefit from previous sales force investment and grew 35% compared with the same quarter last year.

Endoscopy

Endoscopy revenue growth was 8% to £79m; with US growth of 5% and growth outside the US of 12%.

Knee and shoulder repair revenues continued strongly with growth of 23%, benefiting from new product introductions. Blade revenues grew 6% and visualisation and digital operating room revenues grew 2%, as did radio frequency, including spine.

Our patent dispute with ArthroCare was settled during the quarter enabling us to market again a full range of arthroscopic radiofrequency products. These, together with our new camera, pump and hip arthroscopy products, provide added momentum for growth next year.

In order to improve our competitive position and lower the overall costs of production we announced with our second quarter results the closure of one of Endoscopy's US manufacturing facilities. A rationalisation charge of £82m has been taken in this quarter and the project is progressing on schedule.

Advanced Wound Management

Advanced Wound Management revenues grew 3%, compared to the third quarter last year, to £94m. Our leading products ALLEVYN^o and ACTICOAT^o revenues grew by 12% and 25% respectively in the quarter. Revenues in the US declined by 6%, reflecting lower intermediate products sales and a continued contraction of distributors' inventories. Clearer supply chain visibility leads us to believe that this inventory contraction is nearing completion but not sufficiently to completely reverse the decline in the fourth quarter. Encouragingly end user traced sales improved to 8% in the quarter. Outside the US revenue growth was 6% reflecting healthcare spending pressures holding back market growth in parts of Europe.

We recently received a non-approvable letter from the FDA relating to our Pre Marketing Approval supplement for the use of DERMAGRAFT[®] for venous leg ulcers which would require further clinical work for re-submission. This work would delay approval for 18-24 months, with a consequent delay in achieving economic viability. On a global basis the lack of clear regulatory frameworks for tissue engineered products has resulted in delays that have become commercially unacceptable. After careful consideration we have now decided to exit the manufacture and sale of DERMAGRAFT[®] and related products. We have therefore taken a £15 1/2m asset impairment charge this quarter and will take a £25m charge in the fourth quarter to cover the cash cost of exit; both charges to be taken as restructuring costs. Revenues and trading profit of Advanced Wound Management will be largely unaffected in 2005. In 2006 we expect revenues will be adversely affected by around £14m, whereas we expect trading profits will benefit by approximately £7m from cost elimination.

Year to Date Results

Underlying revenue growth for the year to date was 11%. Reported revenue growth was 12%, after adjusting for the benefit of the acquisition of MMT in the first quarter last year offset by one less sales day in the first half of the year, and the benefit of 1% positive translational currency in the year to date.

Trading profit for the year to date was £201m, with margins 0.7% ahead of a year ago at 19.7% and interest income and finance costs net to £3m positive. Taxation thereon amounted to £60 1/2m and the share of the after tax results of the BSN joint venture was £12 1/2m, resulting in attributable profit before restructuring and rationalisation costs, taxation thereon and amortisation of acquisition intangibles of £156m. Attributable profit after restructuring and rationalisation costs, and related tax relief thereon, and the amortisation of acquisition intangibles was £137m.

EPSA was 16.63p (83.15p per ADS) for the year to date, an increase of 14% compared to the same period last year. Reported earnings per share, including discontinued operations, was 14.56p (72.80p per ADS). A reconciliation of reported earnings per share to EPSA is provided in note 2 to the accounts.

Restructuring and rationalisation costs comprise £8 1/2m for the rationalisation of manufacturing facilities at Endoscopy and £15 1/2m of asset impairment following the decision to exit from DERMAGRAFT[®] and related products.

Operating cash flow, defined as cash generated from operations less capital expenditure, was £74m. This is a trading profit to cash conversion ratio of 47%, before rationalisation and integration expenditure of £2m and £19m of funding of settlement payments to patients in respect of macrot textured revisions which are not being reimbursed by insurers, and compares with 47% a year ago.

Had our results been reported in US dollars translated at average rates of exchange, reported revenues and adjusted earnings per ADS would have been as follows:

	<u>Third Quarter</u>		<u>Year to Date</u>	
Reported revenues	\$ 612m	+10%	\$ 1882m	+13%
Adjusted earnings per ADS	\$ 0.48	+9%	\$ 1.53	+15%

Dollar reporting

The international spread of the Group's businesses, with approximately 50% of revenues, trading profits and operating assets in US dollars, substantially exposes the Group to currency movements relative to its sterling capital base. We have decided therefore to redenominate the functional currency of the parent company into US dollars and produce group accounts in US dollars from the beginning of 2006.

Appendix C contains a restatement of this year's and last year's quarterly results as if they had been consolidated in US dollars at the average exchange rates then prevailing. An extraordinary general meeting will be convened in December to redenominate the share capital of the parent company into US dollars. Future dividends will be declared in US dollars, but paid to UK residents in sterling. The Group's shares will continue to be listed on the London Stock Exchange, priced in sterling, and on the NYSE, priced in dollars.

Outlook

For the full year we expect Orthopaedics to achieve revenue growth of around 17%, driven by sales force investment and our new product pipeline. We expect Endoscopy to achieve full year revenue growth of around 8% as new products continue to drive revenues. We expect revenue growth of around 5% for Advanced Wound Management as some of the adverse factors that have affected revenues in the US abate. Translational currency should add 1 1/2% to revenue and we expect a trading margin of 20 1/2% for the full year. As previously indicated EPSA growth for the year before restructuring and rationalisation costs is expected to be in the range of 12% - 13%.

The fundamentals for each of our businesses remain strong and we anticipate continuing growth in the orthopaedic market, particularly in the US. We view 2006 positively with continued strong revenue growth in Orthopaedics and improved revenue growth in Endoscopy. In Advanced Wound Management the exit from DERMAGRAFT[®] will reduce the revenue growth rate, but will contribute to an expected Group margin enhancement of around 1 1/2% for 2006. Underlying EPSA growth for 2006 is expected to be around mid-teens, before any dilution arising from the realisation of our investment in BSN Medical and the change to dollar reporting.

About us

Smith & Nephew is a global medical technology business, specialising in Orthopaedics, Endoscopy and Advanced Wound Management products. Smith & Nephew is a global leader in arthroscopy and advanced wound management and is one of the fastest growing global orthopaedics companies.

Smith & Nephew is dedicated to helping improve people's lives. The company prides itself on the strength of its relationships with its surgeons and professional healthcare customers, with whom its name is synonymous with high standards of performance, innovation and trust. The company has over 8,500 employees and operates in 33 countries around the world generating annual sales of £1.25 billion.

Forward-Looking Statements

This press release contains certain forward-looking statements within the meaning of the US Private Securities Litigation Reform Act of 1995. In particular, statements regarding expected revenue growth and operating margins discussed under Outlook are forward-looking statements as are discussions of our product pipeline. These statements, as well as the phrases aim, plan, intend, anticipate, well-placed, believe, estimate, expect, target, consider and similar expressions, are generally intended to identify forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other important factors (including, but not limited to, the outcome of litigation, claims and regulatory approvals) that could cause the actual results, performance or achievements of Smith & Nephew, or industry results, to differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements. Please refer to the documents that Smith & Nephew has filed with the U.S. Securities and Exchange Commission under the U.S. Securities Exchange Act of 1934, as amended, including Smith & Nephew's most recent annual report on Form 20F, for a discussion of certain of these factors.

All forward-looking statements in this press release are based on information available to Smith & Nephew as of the date hereof. All written or oral forward-looking statements attributable to Smith & Nephew or any person acting on behalf of Smith & Nephew are expressly qualified in their entirety by the foregoing. Smith & Nephew does not undertake any obligation to update or revise any forward-looking statement contained herein to reflect any change in Smith & Nephew's expectation with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

- ^F Discontinued operations accounted for £6.2 million (2004 - £5.9 million) of net cash flow from investing activities.

SMITH & NEPHEW plc

2005 QUARTER THREE RESULTS continued

NOTES

1. Smith & Nephew plc has previously prepared its primary financial statements under UK generally accepted accounting principles (UK GAAP). From 2005 the Group is required to prepare its consolidated financial statements in accordance with IFRS as adopted by the European Union (EU). For the purposes of this document the term IFRS includes International Accounting Standards (IAS).

The results for Quarter 3 2005 represent the third interim financial statements the Group has prepared in accordance with its accounting policies under IFRS. The first annual report under IFRS will be for the year ended 31 December 2005. A description of how the Group's reported performance and financial position are affected by this change, including reconciliations from UK GAAP to IFRS for prior year results and the revised summary of significant accounting policies under IFRS, is published under Report and Results in the Investors section of the corporate website at www.smith-nephew.com/investors/reports_results.html. If required, printed copies are available from the Company Secretary.

The Group is required to apply all relevant standards in force at the first reporting date: for the Group this is at 31 December 2005. As a consequence, these results have been prepared on the basis that all IFRSs and International Financial Reporting Interpretation Committee (IFRIC) interpretations, in particular the recently amended versions of IAS 19, *Employee Benefits* and IAS 39, *Financial Instruments: Recognition and Measurement*, will be adopted by the European Commission. The failure of the European Commission to adopt these amended standards in time for full year financial reporting in 2005, the issue of further interpretations by IFRIC in advance of the reporting date, or the development of other accepted practice, could result in the need to change the basis of accounting or presentation of certain financial information from that presented in this document.

As permitted under IFRS 1, *First Time Adoption of International Financial Reporting Standards*, management has elected not to restate comparative information for the Financial Instrument standards IAS 32 and IAS 39. A restatement of the opening balance sheet at 1 January 2005 to present the Group's 2005 opening position under IAS 32 and 39 was included within the interim financial statements for Quarter 1 2005.

Appendix A reconciles attributable profit for the three months and nine months to 2 October 2004, as previously reported under UK GAAP to IFRS. Appendix B reconciles the balance sheet and equity, for the 9 months to 2 October 2004, as previously reported under UK GAAP to IFRS.

The financial information contained in this document does not constitute statutory accounts as defined in section 240 of the Companies Act 1985. The auditors have issued an unqualified opinion on the Group's statutory financial statements under UK GAAP for the year ended 31 December 2004, which have been filed with the Registrar of Companies.

2. In order to provide a trend measure of underlying performance, attributable profit is adjusted to exclude items which management consider will distort comparability, either due to their significant non-recurring nature or as a result of specific accounting treatments. Adjusted earnings per share (EPSA) has been calculated by dividing adjusted attributable profit by the weighted (basic) average number of ordinary shares in issue of 938 million (2004 935 million). The diluted weighted average number of ordinary shares in issue is 944 million (2004 941 million).

	<u>11</u>	<u>(1)</u>			<u>10</u>

4. The cumulative number of revisions of the macrot textured knee product was 923 on 1 October 2005 compared with 882 at the end of Quarter Two 2005. This represents 31% of the total implanted. Settlements with patients have been achieved in respect of 685 revisions. Costs of £37.6 million are in dispute with insurers and are provided for in full. £49.3 million of provision remains to cover future settlement costs.

At 20 October 2005 the cumulative number of revisions was 928.

SMITH & NEPHEW plc

2005 QUARTER THREE RESULTS continued

NOTES

5. Restructuring and rationalisation costs comprise an impairment charge against Advanced Wound Management of £15.4 million relating to the decision to exit DERMAGRAFT^o and related products and £8.4 million for the rationalisation of Endoscopy manufacturing facilities.
6. Amortisation of acquisition intangibles for the nine months of £4.6 million (2004 - £3.1 million) was incurred as follows: Orthopaedics £4.1 million (2004 - £2.4 million) and Endoscopy £0.5 million (2004 - £0.7 million).
7. Taxation of £60.7 million (2004 - £50.4 million) for the nine months on the profit before restructuring and rationalisation costs, amortisation of acquisition intangibles and the share of results of the joint venture is at the full year estimated effective rate of 30% (2004 29%). A taxation benefit of £9.0 million arises on the restructuring and rationalisation costs. Of the £51.7 million (2004 - £50.4 million) taxation charge £37.1 million (2004 - £40.4 million) relates to overseas taxation.
8. In August 2005 the Group announced its intention to divest of its joint venture. The share of results of the joint venture is after interest payable of £1.1 million (2004 - £1.0 million) and taxation of £6.3 million (2004 - £5.1 million). The Group's share of revenue of the joint venture for the nine months is £127.4 million (2004 - £124.0 million). The Group's discontinued operations earnings per share for the nine months is: basic 1.34p (2004 - 1.22p) and diluted 1.33p (2004 - 1.21p).
9. An interim dividend of 2.1 pence per ordinary share (2004 - 1.9 pence per ordinary share) was approved by the Board on 4 August 2005. This is payable on 11 November 2005 to shareholders whose names appear on the register at the close of business on 21 October 2005. Shareholders may participate in the dividend re-investment plan.
10. The movement in total equity for the 9 months to 1 October 2005 was as follows:

	2005	2004
	£m	£m
	<u> </u>	<u> </u>
Opening equity as at 1 January	702.0	610.4

INDEPENDENT REVIEW REPORT TO SMITH & NEPHEW plc

Introduction

We have been instructed by the company to review the financial information for the three months and nine months ended 1 October 2005 which comprises Group Income Statement, Group Statement of Recognised Income and Expense, Group Balance Sheet, Condensed Group Cash Flow Statement and the related notes 1 to 11. We have read the other information contained in the interim report for quarter three and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

This report is made solely to the company in accordance with guidance contained in Bulletin 1999/4 *Review of interim financial information* issued by the Auditing Practices Board. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company, for our work, for this report, or for the conclusions we have formed.

Directors' Responsibilities

The interim report for quarter three, including the financial information contained therein, is the responsibility of, and has been approved by, the directors. The directors are responsible for preparing the interim report for quarter three in accordance with the Listing Rules of the Financial Services Authority.

As disclosed in Note 1, the next annual accounts of the Group will be prepared in accordance with those International Financial Reporting Standards (IFRS) adopted for use by the European Union.

The accounting policies are consistent with those that the directors intend to use in the next annual accounts. There is, however, a possibility that the directors may determine that some changes to these policies are necessary when preparing the full annual accounts for the first time in accordance with those IFRSs adopted for use by the European Union. This is principally because, as disclosed in Note 1, the directors have anticipated that the revised versions of IAS 39, *Financial Instruments: Recognition and Measurement* and IAS 19, *Employee Benefits* which have yet to be formally adopted for use in the European Union, will be so adopted in time to be applicable to the next annual accounts.

Review Work Performed

We conducted our review in accordance with guidance contained in Bulletin 1999/4 *Review of interim financial information* issued by the Auditing Practices Board for use in the United Kingdom. A review consists principally of making enquiries of group management and applying analytical procedures to the financial information and underlying financial data, and based thereon assessing whether the accounting policies have been applied. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit performed in accordance with United Kingdom Auditing standards and therefore provides a lower level of assurance than an audit. Accordingly we do not express an audit opinion on the financial information.

Review Conclusion

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the three months and nine months ended 1 October 2005.
