proper performance of the responsibilities of a Director; possess substantial and significant experience that would be of particular importance to the Company in the performance of the duties of a Director; have sufficient time available to devote to the affairs of the Company; and have a desire to represent the balanced best interests of the shareholders as a whole.

Shareholders who wish to recommend persons to the Governance Committee should submit a letter addressed to the Chairperson of the Governance Committee no later than 120 days prior to the date of the next Annual Meeting of Shareholders that sets forth the name, age, and address of the person recommended for nomination; the principal occupation or employment of the person recommended for nomination; a statement that the person is willing to be nominated and will serve if elected; and a statement as to why the shareholder believes that the person should be considered for nomination for election to the Board of Directors and how the person meets the criteria to be considered by the Committee described above.

All stockholders are also encouraged to communicate directly with both Officers and Directors regarding issues affecting the Company at the Annual Meeting of Shareholders.

REPORT OF THE COMPENSATION COMMITTEE

The Company has a standing Compensation Committee (the Compensation Committee) of the Board of Directors. The Compensation Committee currently consists of Messrs. Lackman (Chairman), Knutsson, and Saul, who are independent directors (as defined in Section 803 of the listing standards of the American Stock Exchange). In April 2005, the Board of Directors adopted a charter for the Compensation Committee. A copy of the charter is available on our website at www.shipwreck.net.

EXECUTIVE COMPENSATION PHILOSOPHY

We have adopted a compensation program designed to attract, motivate and retain highly talented individuals to drive business success and create long-term stockholder value. The program reflects the following principles:

Compensation should be related to performance

Our compensation program reinforces the company's business and financial objectives. Executive compensation will be based on both company and individual performances. When the company performs well against the objectives we set, executive officers will have the opportunity to reach targeted incentive compensation levels or above. When the business does not meet these objectives, incentive awards will be reduced or possibly be non-existent. An executive officer's individual compensation will also vary based on the person's performance, contribution and overall value to the business. And, employees with sustained high performance should be rewarded more than those in similar positions with lesser performance.

Factors considered in evaluating the performance of executive officers include the following key strategic metrics: cash flow growth, growth in earnings per share, maximizing recovered cargo, and stock price appreciation.

Odyssey executives should think like Odyssey stockholders

We believe that Odyssey executive officers should act in the interests of Odyssey stockholders and the best way to encourage them to do that is through an equity interest in the company. We have, over time, granted equity-based awards, such as stock options. Our goal is to have market competitive stock programs that encourage each employee to think like an owner of the business.

Incentive compensation should be a greater part of total compensation for more senior positions

The proportion of an individual's total compensation that varies with individual and company performance objectives should increase as the individual's business responsibilities increase recognizing the additional responsibilities and also increased leverage which is part of a pay for performance environment.

Other goals

We have designed our compensation program to balance short and long-term financial objectives, to encourage building stockholder value and to reward individual and company performance. Since our company is still developing its business we also take into account our ability to pay as a factor when determining compensation that is cash based.

When we determine compensation levels for executive officers, we consider the advice of independent, outside consultants retained by the Compensation Committee. We also review compensation survey data from our consultants and other independent sources to ensure that our total compensation program is competitive and that the amounts and types of compensation the company pays its leaders are appropriate. Since we are aware of no other comparable companies with public data in our industry and because the technology sector shares many of the same features found at Odyssey, we benchmark against high technology companies with less than \$50 million in revenues. We target overall compensation opportunities to be competitive with our comparison group.

COMPONENTS OF COMPENSATION

Compensation of our executive officers is detailed in the Summary Compensation Table. During 2005 we used an outside consulting firm to provide us with target market data benchmarking high technology industry compensation for companies with an average of \$28 million in revenue. We used this data in determining the compensation levels for our Chief Executive Officer and Co-Founders, while the salary levels for other executive officers were recommended by the CEO and approved by the Committee. For 2005 the compensation package for our CEO and Co-Founders provided a base salary and a potential bonus up to one times the base salary. Base salaries for John Morris and Greg Stemm were set at \$250,000 each for 2005 which is below the median base compensation benchmark provided of \$275,000 for John Morris and at the median for Greg Stemm. The long term incentive compensation component was not incorporated in 2005 due to not having an approved stock incentive plan from which awards could be made. Also, the performance based bonus component was being developed during 2005. As a result, the Board took into account accomplishments of each of these individuals in awarding bonus compensation for 2005 as follows:

John Morris was awarded a bonus in the amount of \$200,000 (which is 80% of his annual salary). The primary accomplishments which were the basis of this decision were: (1) The successful completion of the private offering to institutional investors in March 2005 which raised approximately \$6,400,000 for the Company at a time when the financing was critically needed by the Company; (2) The successful completion of the exercise of warrants outstanding in September and October which raised an additional approximately \$8,700,000 of funds for the Company; (3) the addition of the Company to the Russell 2000, 3000 and microcap stock indexes during 2005; and (4) an approximately 41% appreciation in the Company's stock price from January 1, 2005 to December 31, 2005.

Greg Stemm was awarded a bonus in the amount of \$200,000 (which is 80% of his annual salary). The primary accomplishments which were the basis of this decision were: (1) His ability to generate good publicity for the Company by making appearances on behalf of the Company on so many national, regional and local television and radio shows including the major network news programs and shows such as Oprah, being quoted in many newspaper and magazines articles, and having his picture on the cover of the Small Business Fortune magazine; (2) his willingness to spend so much of his time on the road, especially overseas working on the Sussex and Atlas projects; and (3) his success in conducting complex negotiations with the governments of the United States, United Kingdom and Spain involving the Sussex project.

In order to reduce the impact of these bonuses on the Company's cash flow, Messrs. Morris and Stemm agreed to use the proceeds from the bonuses to exercise their existing stock options which are exercisable at \$1.25 and \$2.50 per share, and they did so on February 28, 2006.

EMPLOYMENT AGREEMENTS

The Company does not currently have Executive Employment Agreements in effect with any of its Executive Officers. On November 4, 2005, the Board approved hiring a temporary Chief Executive Officer to allow John Morris to adequately recover from cancer treatments. The Board of Directors approved continuing to pay Mr. Morris his annual salary of \$250,000 for a period of up to six months. Mr. Morris retained his position as Chairman of the Board. On November 10, 2005, Michael V. Barton accepted an offer from the Board of Directors to fill the position of Chief Executive Officer on an interim basis for up to 180 days at a rate of \$240,000 annually.

EMPLOYEE STOCK OPTION PLAN

During the Special Shareholder Meeting held September 8, 1997, the Shareholders approved an Employee Stock Option Plan (the 1997 Plan). The 1997 Plan authorized the issuance of options to purchase up to two million shares of the Company's Common Stock. On November 7, 2001, the shareholders approved an amendment to the 1997 Plan increasing the number of shares in the plan to three million five hundred thousand shares.

The 1997 Plan allows the Board of Directors to grant non-qualified stock options from time to time to employees, officers and directors, and consultants of the Company. The Board determines vesting provisions at the time options are granted. The option price for any option will be no less than the fair market value of the Common Stock on the date the option is granted.

Option Grants from the 1997 Plan

There were no individual grants of stock options made during the year ended December 31, 2005 to any named executive officer of the Company.

During the fiscal year ended December 31, 2005, we issued the following options to directors, in addition to those itemized in the Summary Compensation Table above, from the Plan:

Stock Option Grants to Directors

APPROVAL OF 2005 STOCK INCENTIVE PLAN

Description of the Plan

During August 2005, the Company's Board of Directors approved the establishment of a Stock Incentive Plan (the 2005 Plan or the Plan) subject to approval of the Company's shareholders. The Board of Directors believes that the 2005 Plan will advance the interests of the Company by encouraging and providing for the acquisition of an equity interest in the Company by employees, officers, directors and consultants, and by providing additional incentives and motivation toward superior Company performance. The Board believes it also will enable the Company to attract and retain the services of key employees, officers, directors and consultants, by providing additional incentives and motivation toward superior Company performance. The following is a summary of the material features of the 2005 Plan, which is qualified in its entirety by reference to the Plan. A copy of the Plan was filed with the Securities and Exchange Commission in a Form 8-K on August 9, 2005. A copy can also be obtained by contacting the Company's Secretary, David A. Morris.

General

The total number of shares that may be issued pursuant to Stock Incentives under this Plan shall not exceed Two Million Five Hundred Thousand (2,500,000), of which not more than Five Hundred Thousand (500,000) may be used for Restricted Stock Awards and Restricted Stock Units, subject to adjustment in the event of certain recapitalizations, reorganizations and similar transactions.

The 2005 Plan will be administered by the Compensation Committee. The Compensation Committee has full and exclusive power within the limitations set forth in the Plan to make all decisions and determinations regarding the selection of participants and the granting of awards; establishing the terms and conditions relating to each award; adopting rules, regulations and guidelines; and interpreting the Plan. The Compensation Committee will determine the appropriate mix of stock options and stock awards to be granted to best achieve the objectives of the Plan. The 2005 Plan may be amended by the Board or the Compensation Committee, without the approval of stockholders, but no such amendments may increase the number of shares issuable under the Plan or adversely affect any outstanding awards without the consent of the holders thereof.

Eligibility

Key employees and directors of the Company or its subsidiaries and consultants or advisors who are eligible to receive shares which are registered on SEC Form S-8 are eligible to receive awards under the 2005 Plan.

Types of Awards

The Compensation Committee may determine the type and terms and conditions of awards under the 2005 Plan. Awards may be granted in a combination of stock options, stock appreciation rights, and/or stock awards.

Such awards may have terms providing that the settlement or payment of one type of award automatically reduces or cancels the remaining award. Awards under the Plan may include the following:

Stock Options. Stock options entitle their holders to purchase shares of Common Stock at a specified price for a specified period. The exercise price of each option may not be less than 100% of fair market value on the date of grant. Fair market value for purposes of the 2005 Plan means the mean between the highest and lowest reported selling prices on a national securities exchange of a share as reported in the appropriate composite listing for such exchange.

Any stock option granted in the form of an incentive stock option will be intended to comply with the requirements of Section 422 of the Internal Revenue Code of 1986, as amended. Only options granted to employees qualify for incentive stock option treatment. No incentive stock option shall be granted after August 3, 2015, which is 10 years from the date the Plan was initially adopted. A stock option may be exercised in whole or in installments, which may be cumulative. Shares of Common Stock purchased upon the exercise of a stock option must be paid for in full at the time of the exercise in cash or such other consideration determined by the Compensation Committee. Payment may include tendering shares of Common Stock or surrendering of a stock award, or a combination of methods.

Stock Appreciation Rights. A stock appreciation right is the right to receive a payment equal to the excess of the fair market value of a specified number of shares of Common Stock on the date the stock appreciation right is exercised over the fair market value on the date of grant of the stock appreciation right. Any stock appreciation rights granted under the 2005 Plan will require that payment upon exercise be in the form of Common Stock of the Company.

Stock Awards. Stock awards are awards made in Common Stock or denominated in Common Stock units which entitle the recipient to receive future payments in either shares, cash, or a combination thereof. Awards may be subject to conditions established by the Compensation Committee and set forth in the award agreement, and which may include, but are not limited to, continuous service with the Company, achievement of specific business objectives, and other measurements of performance. Awards may be subject to restrictions and contingencies regarding vesting and eventual payment as the Compensation Committee may determine.

Terms of Awards. All awards made under the 2005 Plan may be subject to vesting and other contingencies as determined by the Compensation Committee and will be evidenced by agreements approved by the Compensation Committee which set forth the terms and conditions of each award. The Compensation Committee, in its discretion, may accelerate or extend the period for the exercise or vesting of any awards.

Generally, all awards, except non-incentive stock options, granted under the 2005 Plan shall be nontransferable except by will or in accordance with the laws of descent and distribution or pursuant to a domestic relations order. During the life of the participant, awards can be exercised only by the participant. The Compensation Committee may permit a participant to designate a beneficiary to exercise or receive any rights that may exist under the 2005 Plan upon the participant's death.

Change in Control

Upon the occurrence of an event constituting a change in control of the Company as defined in the 2005 Plan, all awards outstanding will become immediately vested.

Tax Consequences

The following are the federal tax consequences generally arising with respect to awards granted under the 2005 Plan. The grant of an option will create no tax consequences for an optionee or the Company. The optionee will have no taxable income upon exercising an incentive stock option (except that the alternative minimum tax may apply), and the Company will receive no deduction when an incentive stock option is exercised. Upon exercising an option other than an incentive stock option, the optionee must recognize ordinary income equal to the difference between the exercise price and the fair market value of the stock on the date of exercise; the

Company will be entitled to a tax deduction for the same amount. The tax treatment for an optionee on a disposition of shares acquired through the exercise of an option depends on how long the shares have been held and whether such shares were acquired by exercising an incentive stock option or by exercising an option other than an incentive stock option. Generally, there will be no tax consequences to the Company in connection with the disposition of shares acquired under an option except that the Company may be entitled to a tax deduction in the case of a disposition of shares acquired under the incentive stock option before the applicable incentive stock option holding periods have been satisfied.

With respect to other awards granted under the 2005 Plan that are settled either in cash or in stock or other property that is either transferable or not subject to substantial risk of forfeiture, the participant must recognize ordinary income equal to the cash or fair market value of shares and the Company will be entitled to a deduction for the same amount. With respect to awards that are restricted as to transferability or subject to substantial risk of forfeiture, the participant must recognize ordinary income equal to the fair market value of the shares received at the time the shares or other property became transferable or not subject to substantial risk of forfeiture, whichever occurs earlier; the Company will be entitled to a deduction for the same amount.

Options Granted Under the 2005 Plan

Since inception of the 2005 Plan, stock options have been granted to employees and Officers of the Company as follows:

Any options not earned by achievement of performance criteria shall be terminated and returned to the plan.

Note 2: The options shall vest 25% on each six month anniversary of the date of grant.

In order to approve the 2005 Plan, the proposal must receive the affirmative vote of at least a majority of the votes cast at the Annual Meeting, either in person or by proxy. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

During the last two years certain officers, directors, and beneficial owners entered into transactions with the Company as follows:

On December 9, 2002, a Georgia limited liability company acquired rights from an unrelated third party through a foreclosure sale to receive 5% of post finance cost proceeds, if any, from shipwrecks that we may recover within a predefined search area of the Mediterranean Sea. The shipwreck we believe to be HMS Sussex is located within this search area. Two of our officers and directors had member interests in the limited liability company until they sold their interests to an unrelated third party in 2005. In the event that political interference precludes the recovery efforts of the project, the officers would be required to buy back their interests.

A construction company, owned by a relative of John Morris, Co-Chairman and prior CEO, performed building renovations on our corporate headquarters building amounting to \$105,259 and \$243,800 for the periods ended December 31, 2005 and 2004 respectively. Also, the spouse of Greg Stemm, Co-Chairman and Executive Vice President, performed logo design services in the amount of \$3,525 during the year ended December 31, 2005.

REPORT OF THE AUDIT COMMITTEE

The Company has a standing Audit Committee (the "Audit Committee") of the Board of Directors. The Audit Committee currently consists of Messrs. Knutsson, Saul and Lackman, who are independent directors (as defined in Section 803 of the listing standards of the American Stock Exchange). In January 2003, the Audit Committee adopted a charter which was amended by the Board of Directors on May 26, 2004 and revised in February, 2005. A copy of the amended charter was attached to Odyssey's proxy statement for the Annual Meeting of Shareholders held on February 25, 2005. A copy of the amended charter is also available on our website at www.shipwreck.net. The Audit Committee, on behalf of the Board, oversees the Company's accounting and financial reporting process. In fulfilling its oversight responsibilities, the Audit Committee reviewed with management and the outside auditors the audited financial statements and the footnotes thereto in the Company's quarterly reports on Form 10-Q and annual report on Form 10-K for the fiscal year ended December 31, 2005. The Committee discussed with Management and the outside auditors, qualitative aspects of financial reporting in the accounting principles, the reasonableness of significant judgments, and the clarity of the disclosures in the financial statements to the shareholders. In addition, the Audit Committee is responsible for the engagement of the Company's independent public accountants and the scope of their work. The Audit Committee held eight (8) meetings in the fiscal year ended December 31, 2005: Four Private Executive Meetings with the outside Auditors and four regular Audit Committee Meetings.

The Company's outside independent public accountants, Ferlita, Walsh & Gonzalez, P.A., are responsible for expressing an opinion on the conformity of the Company's audited financial statements in all material respects, to accounting principles generally accepted in the United States. The Audit Committee reviewed and
