(Attached Document to the Written Oath relating to Timely Disclosure)

April 7, 2006

Company Name: Kyocera Corporation

(Code Number: 6971 First Section, Tokyo Stock Exchange, Inc.)

The status of the internal system for the timely disclosure of corporate information is as follows.

1. Establishment of Ethical Standards and Corporate Philosophy Forming the Basis of Timely Disclosure

The Company believes that the establishment of a corporate philosophy which will constitute the ethical basis for executive management as well as ordinary employees is indispensable for the Company to continue to act in a socially sound and honest manner within the industry, including the making of timely and appropriate disclosure of corporate information.

The Company's corporate philosophy, which constitutes ethical standards, has been passed along from its founder's manner of thinking towards both management and lifestyle known as the Kyocera Philosophy.

The Kyocera Philosophy bases its fundamental judgments on precepts such as "what is the right thing to do as a human?" and includes wide, universal contents from basic management principles to the manner of pursuing daily work. The Company's fundamental attitude, which can also be the basis of the timely disclosure of corporate information, is displayed in numerous ways including, among others, the sayings "Honesty of Purpose," "Making Selfless Judgments," "Adopt the Spirit of Fair Play" and so forth.

In order to implement the ethical standards embodied in the Kyocera Philosophy throughout the entire Group, the Company, in addition to providing study programs upon entering the Company as well as constant daily guidance in the workplace, periodically implements educational and study programs in the form of a Kyocera Philosophy Training Program for all personnel from executive management to ordinary employees. Moreover, similar training programs have been developed for Group companies located outside Japan. Through such programs, the Kyocera Philosophy achieves wide penetration as a corporate creed throughout the entire Group.

Further, in consideration of the applicability of the Kyocera Philosophy to various aspects of business activities, the Company establishes Kyocera Guidelines for Ethical Employee Conduct and requires that all Group employees conduct their daily business duties in accordance therewith. Such policies provide detailed explanations of various laws, regulations and rules, as well as internal Company rules, include provisions such as Compliance with the Law and Handling Information etc., and otherwise collectively indicate mandatory conduct for

employees.

In addition, the Company's founder, emphasizing the importance of the role of accounting in corporate management, created the Kyocera Accounting Policies based on the Kyocera Philosophy. The Double Check Principle, the Glass Fishbowl Management Principle and so forth, which apply to all accounting practices, are included therein and constitute guidance for timely disclosure of corporate information in the same manner as the Kyocera Philosophy.

The Kyocera Philosophy, the Kyocera Guidelines for Ethical Employee Conduct and the Kyocera Accounting Policies have been published in the form of handbooks which are distributed to employees who utilize them as ethical standards and policies governing conduct.

As stated above, the Company has established ethical standards based on the Kyocera Philosophy which form the basis for internal Company standards concerning timely disclosure.

2. Status of the Company's Internal Standards etc. Concerning Timely Disclosure

(3) The Information Disclosure Process Focusing on the Kyocera Disclosure Committee

Materials which are required to be timely disclosed by the Company pursuant to various domestic and foreign disclosure laws, regulations and rules as well as materials intended for voluntary disclosure to the markets, etc. are usually handled by the Kyocera Disclosure Committee and its Administrative Office as follows.

(i) Information Gathering and Preparation of Disclosure Materials

Facts, decisions of the board of directors and information concerning corporate accounting generated by the Company and each Group company are collected from each department through the related departments of the Company as raw information for disclosure, and consolidated at the Administrative Office of the Disclosure Committee constituted by the officers of the departments of the Company in charge of its IR and accounting.

In the process of preparation of disclosure materials by the Administrative Office of the Kyocera Disclosure Committee, all information gathered from each department is approved by the head of each department reporting such information (with respect to information of Group companies, by the president or other executive in charge thereof) and the system (the Double Check Principle) does not permit independent judgments by department heads.

(ii) Investigation of Disclosure Materials

Members of the Kyocera Disclosure Committee investigate information submitted through the Administrative Office and undertake a review process to make determinations as to whether or not to disclose and the appropriateness of information to be disclosed by reference to independently obtained information. Each member provides notice of its investigation to the Administrative Office and if corrections are required, so indicates.

Due to the policy in connection with such investigation that judgments by the Kyocera Disclosure Committee as to whether disclosure shall be made are to be based on uniform criteria, the following Guidelines for the Importance of Matters have been established as such criteria.

Quantitative Criteria

Any event which would have an impact of 5% or more on net sales, income before tax or net income for a quarterly period covered by the most recently announced forecast is an Important Event.

Time Criteria

Based on consideration of both quantitative and qualitative criteria, an event which will obviously have such an impact within the next twelve (12) months is an Important Event.

Also, this Committee clarifies the purpose of the investigation and facts and materials which will be subject to investigation for the purpose of responding to changes in the management environment in an agile manner, and it is always endeavoring to increase the effectiveness of such investigations by convening the Committee in either of the following major ways.

(4) Internal Controls and Internal Complaint Procedures

The Company's shares are listed on the New York Stock Exchange, and it accordingly is subject to the US Sarbanes-Oxley Act. It has therefore made preparations to respond to the corporate governance and information disclosure requirements of such law. In particular, in order to meet the requirements under Section 404 of such law that the Company's management must document and evaluate the effectiveness of its internal controls over financial reports, the Company has established a Global Audit Division, which conducts internal audits throughout the group with respect to the accounting and operations of each group company. The Global Audit Division will periodically conduct investigations in cooperation with each group company and report the results thereof to the directors and auditors of the Company and each relevant group company. The directors and auditors who receive such reports will then issue instructions for any necessary corrective action.

The Company also has established an internal complaint system called the Employee's Consultation Corner, which provides a mechanism whereby employees are able to report acts which constitute violations of, or acts which bear the risk of violating, the Kyocera Policies for Employee Conduct.

These systems have important functions in addition to heightening the effectiveness of the Company's internal structures related to timely disclosure. In particular, they will provide further reasonable objectivity and logical foundation to the periodic audits of the Company's financial position undertaken by its independent auditor.
