NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

November 30, 2006

NOTE 1 COMPANY OVERVIEW AND BASIS OF PRESENTATION

PriceSmart, Inc. s (PriceSmart or the Company) business consists primarily of international membership shopping warehouse clubs similar to, but smaller in size than, warehouse clubs in the United States. As of November 30, 2006, the Company had 23 consolidated warehouse clubs in operation in 11 countries and one U.S. territory (four each in Panama and Costa Rica, two each in Dominican Republic, El Salvador, Guatemala, Honduras and Trinidad and one each in Aruba, Barbados, Jamaica, Nicaragua and the United States Virgin Islands), of which the Company owns at least a majority interest. During fiscal 2005, the Company sold its interest in its former Philippine subsidiary. Also, the three warehouse clubs formerly operated in Mexico as part of a 50/50 joint venture with Grupo Gigante, S.A. de C.V. were closed during the second quarter of fiscal 2005 and two of those warehouse clubs were sold in the first quarter of fiscal 2006. There was one warehouse club in operation in Saipan, Micronesia licensed to and operated by local business people as of November 30, 2006. The Company principally operates in three segments based on geographic area.

Basis of Presentation - The consolidated financial statements have been prepared on a going concern basis. The Company has an accumulated deficit of \$105.6 million as of November 30, 2006. However, for the three months ended November 30, 2006, the Company had net income of \$4.1 million. The Company s ability to fund its operations and service debt during fiscal 2007 has improved following the implementation and completion of the Financial Program as described in Note 8 Financial Program and improvements in the underlying business operations. As a result, the Company prepaid \$14.9 million of its long-term debt during the current quarter. In addition, the Company was able to fund the build up of its inventory, which contributed to the increase of sales year over year. Certain reclassifications have been made to prior periods to conform to the current period presentation.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation - The consolidated interim financial statements of the Company included herein include the assets, liabilities and results of operations of the Company s majority and wholly owned subsidiaries as listed below. All significant intercompany accounts and transactions have been eliminated in consolidation. The consolidated interim financial statements have been prepared by the Company without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC), and reflect all adjustments (consisting of normal recurring adjustments) that are, in the opinion of management, necessary to fairly present the financial position, results of operations, and cash flows for the interim period presented. Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to such SEC rules and regulations. Management believes that the disclosures made are adequate to make the information presented not misleading. The results for interim periods are not necessarily indicative of the results for the full year. The interim financial statements should be read in conjunction with the consolidated financial statements and related notes included in the Company s Form 10-K for the fiscal year ended August 31, 2006.

Table of Contents

The table below indicates the Company's percentage ownership of and basis of presentation for each subsidiary as of November 30, 2006:

	Ownership	Basis of Presentation
PriceSmart Aruba	90.0%	Consolidated
PriceSmart Barbados	100.0%	Consolidated
PSMT Caribe, Inc.:		
Costa Rica	100.0%	Consolidated

PriceSmart U.S. Virgin Islands	100.0%	Consolidated

(1) Entity is treated as discontinued operations in the consolidated financial statements.

Use of Estimates - The preparation of financial statements in conformity with United States generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Cash and Cash Equivalents - Cash and cash equivalents represent cash and short-term investments with maturities of three months or less when purchased.

Restricted Cash - Short-term restricted cash primarily represents time deposits that are pledged as collateral for the Company's revolving line of credit and long-term restricted cash represents deposits with Federal Regulatory agencies in Costa Rica and Panama.

Merchandise Inventories - Merchandise inventories, which include merchandise for resale, are valued at the lower of cost (average cost) or market. The Company provides for estimated inventory losses and obsolescence between physical inventory counts on the basis of a percentage of sales. The provision is adjusted periodically to reflect the trend of actual physical inventory count results, with physical inventories occurring primarily in the second and fourth fiscal quarters. In addition, the Company may be required to take markdowns below the carrying cost of certain inventory to expedite the sale of such merchandise.

Allowance for Doubtful Accounts - The Company generally does not extend credit to its members, but may do so for specific wholesale, government or other large volume members. The Company maintains an allowance for doubtful accounts based on assessments as to the probability of collection of specific customer accounts, the aging of accounts receivable, and general economic conditions. If the credit worthiness of a specific customer deteriorates, the Company's estimates could change and it could have a material impact on the Company's reported results.

Property and Equipment - Property and equipment are stated at cost. Depreciation is computed on the straight-line basis over the estimated useful lives of the assets. The useful life of fixtures and equipment ranges from three to 15 years and that of buildings from ten to 25 years. Leasehold improvements are amortized over the shorter of the life of the improvement or the expected term of the lease. In some locations, leasehold improvements are amortized over a period longer than the initial lease term as management believes it is reasonably assured that the renewal option in the underlying lease will be exercised.

Lease Accounting - Certain of our operating leases provide for minimum annual payments that increase over the life of the lease. The aggregate minimum annual payments are expensed on the straight-line basis beginning when we take possession of the property and extending over the term of the related lease. The amount by which straight-line rent exceeds actual lease payment requirements in the early years of the leases is accrued as deferred rent and reduced in later years when the actual cash payment requirements exceed the straight-line expense.

Table of Contents

Goodwill - Goodwill resulting from certain business combinations totaled \$31.8 million at November 30, 2006 and \$31.9 million at August 31, 2006. The decrease in goodwill was due to the foreign exchange translation losses in Guatemala and Jamaica for \$31,000 and \$38,000, respectively. The Company reviews previously reported goodwill at the entity reporting level for impairment on an annual basis or more frequently if circumstances dictate. No impairment of goodwill has been recorded to date.

Revenue Recognition - The Company recognizes sales revenue when title passes to the customer. Membership income represents annual membership fees paid by the Company's warehouse club members, which are recognized ratably over the 12-month term of the membership. The historical membership fee refunds have been minimal and, accordingly, no reserve has been established for membership refunds for the periods presented. The Company recognizes and presents revenue-producing transactions on a net basis, as defined within EITF Issue No. 06-03 (EITF 06-03), How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (That is, Gross versus Net Presentation).

Cost of Goods Sold - The Company includes the cost of merchandise, food service and bakery raw materials, and one hour photo supplies in cost of goods sold. The Company also includes the external and internal distribution and handling costs for supplying such merchandise, raw materials and supplies to the warehouse clubs. External costs include inbound freight, duties, drayage, fees and insurance. Internal costs include payroll and related costs, utilities, consumable supplies, repair and maintenance, rent expense, and building and equipment depreciation at our distribution facilities.

Vendor consideration consists primarily of volume rebates and prompt payment discounts. Volume rebates are generally linked to pre-established purchase levels and are recorded as a reduction of cost of goods sold when the achievement of these levels is confirmed by the vendor in writing or upon receipt of funds. On a quarterly basis, the Company calculates the amount of rebates recorded in cost of goods sold that relates to inventory on hand and this amount is recorded as a reduction to inventory, if significant. Prompt payment discounts are taken in substantially all cases and, therefore, are applied directly to reduce the acquisition cost of the related inventory, with the resulting impact to cost of goods sold when the inventory is sold.

Selling, General and Administrative - Selling, general and administrative costs are comprised primarily of expenses associated with warehouse operations. Warehouse operations include the operating costs of the Company's warehouse clubs, including all payroll and related costs, utilities, consumable supplies, repair and maintenance, rent expense, building and equipment depreciation, and bank and credit card processing fees. Also included in selling, general and administrative expenses are the payroll and related costs for the Company's U.S. and regional purchasing and management centers.

Pre-Opening Costs - The Company expenses pre-opening costs (the costs of start-up activities, including organization costs, and rent) as incurred.

Closure Costs - The Company records the costs of closing warehouse clubs as follows: severance costs are accrued when a termination and benefit plan is communicated to the employees; lease obligations are accrued at the cease use date by calculating the net present value of the minimum lease payments net of the fair market value of rental income that could be received for these properties from third parties; all other costs are expensed as incurred. The Company closed one warehouse club during fiscal year 2004 and two warehouse clubs during fiscal year 2003. During the first quarter of fiscal year 2007, the Company's original San Pedro Sula location was vacated and the operation was relocated to a new site, which was acquired in fiscal year 2007 in another section of the city. During the first quarter of fiscal year 2007, the Company recorded an impairment charge of \$72,000 related to this relocation.

Impact of Foreign Currency Rate Changes - The functional currency in many of our international subsidiaries is the local currency, which in many cases is not U.S. dollars. Assets and liabilities of these foreign subsidiaries are translated to US dollars at the exchange rate on the balance sheet date and revenue, costs and expenses are translated at average rates of exchange in effect during the period. The corresponding translation gains and losses are recorded as a component of accumulated other comprehensive loss.

Monetary assets and liabilities in currencies other than the functional currency of the respective entity are revalued to the functional currency using the exchange rate on the balance sheet date. These foreign exchange transaction gains (losses), including repatriation of funds, which are included as a part of the costs of goods sold in the consolidated statements of income, for the first fiscal quarter of 2007, and 2006 were approximately \$(160,000), and \$(675,000), respectively.

Table of Contents

Stock-Based Compensation - As of November 30, 2006, the Company had four stock-based employee compensation plans. In the first quarter of fiscal 2006, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 123R, Share-Based Payments, which revises SFAS 123, Accounting for Stock-Based Compensation. The Company had adopted the fair value based method of recording stock options consistent with SFAS 123 for all employee stock options granted subsequent to fiscal year 2002. Specifically, the Company adopted SFAS 123 using the prospective method with guidance provided from SFAS No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure. All employee stock option grants made or re-priced since the beginning of fiscal 2003 have been or will be expensed over the related stock option vesting period based on the fair value at the date the options are granted. Prior to fiscal 2003, the Company applied Accounting Principles Board Opinion (APB) No. 25, Accounting for Stock Issued to Employees, and related interpretations in accounting for stock options. During the current quarter, the Company cancelled 3,600 of the 565,900 restricted stock awards granted in fiscal year 2006.

Under SFAS 123R, the Company is required to select a valuation technique or option-pricing model that meets the criteria as stated in the standard, which includes a binomial model and the Black-Scholes model. At the present time, the Company is continuing to use the Black-Scholes model. The adoption of SFAS 123R, applying the modified prospective method, as elected by the Company, requires the Company to value stock options granted prior to its adoption of SFAS 123 under the fair value method and expense these amounts over the stock options remaining vesting period. SFAS 123R also requires the Company to estimate forfeitures in calculating the expense relating to stock-based compensation as opposed to only recognizing these forfeitures and the corresponding reduction in expense as they occur. In addition, SFAS 123R requires the Company to reflect the tax savings resulting from tax deductions in excess of expense reflected as a financing cash flow in its statement of cash flows, rather than as an operating cash flow as in prior periods.

In the first quarter of fiscal 2007 and 2006, the Company recognized stock compensation expenses of \$508,000 and \$437,000, respectively. The stock compensation cost for the first quarter of fiscal 2007 includes \$212,000 for restricted stock grants and \$296,000 for stock options. The stock compensation expense for the first quarter of fiscal 2006 includes stock options only as there were no restricted stock grants at that time. The remaining unrecognized compensation expense related to unvested awards at November 30, 2006, was approximately \$4.1 million and the weighted-average period of time over which this cost will be recognized is 3.8 years.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions used for grants issued in the first quarter of fiscal 2007 and 2006:

	Three Months Ended	
	November 30, 2006	2005
Risk free interest rate	4.35%	(a)
Expected life	5 years	(a)
Expected volatility	43.96%	(a)
Expected dividend yield	0%	(a)

(a) No options were granted during the first quarter of fiscal 2006.

Table of Contents

The following table summarizes stock options outstanding as of November 30, 2006, as well as activity during the first quarter then ended:

		Weighted- Average Exercise Price
	Shares	
Outstanding at August 31, 2006	696,787	\$ 13.67
Options granted	3,000	16.67
Exercised	(20,703)	6.58

Outstanding at November 30, 2006 (a)	678,120	\$ 13.89
Exercisable at November 30, 2006	437,885	\$ 16.06

(a) At November 30, 2006 the weighted-average remaining contractual life of options outstanding was 2.3 years. At November 30, 2006, the aggregate intrinsic value of shares outstanding and shares exercisable was \$2.3 million and \$525,000, respectively. (The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option).

The weighted-average grant date fair value of stock options granted during the first quarter of fiscal 2007 was \$7.81 and there were no options granted during the first quarter of fiscal 2006.

Cash proceeds, tax benefits and intrinsic value related to total stock options exercised during the first quarter of fiscal 2007 and 2006 are provided in the following table (in thousands):

	Three Months Ended	
	November 30, 2006	2005
Proceeds from stock options exercised	\$ 361	\$ 29
Tax benefit related to stock options exercised	\$ 84	\$ 3
Intrinsic value of stock options exercised	\$ 225	\$ 7

Accounting Pronouncements - In September 2006 the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements. SFAS 157 establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement simplifies and codifies related guidance within GAAP. The Company is required to adopt SFAS 157 no later than the Company's fiscal year beginning after November 15, 2007. The Company is currently evaluating the impact, if any, the interpretation will have on its financial statements.

In September 2006 the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin (SAB) No. 108, Section N, Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements. SAB No. 108, Section N provides guidance on the consideration of the effects of prior year misstatements in quantifying current year misstatement for the purpose of a materiality assessment. The Company adopted SAB No. 108, Section N in the first quarter of fiscal 2007. Adoption of SAB No. 108, Section N did not have a material impact on the Company's consolidated financial statements.

In July 2006, the FASB issued FASB Interpretation (FIN) No. 48, Accounting for Uncertainty in Income Taxes, provides guidance associated with the recognition and measurement of tax positions and related reporting and disclosure requirements. The Company is required to adopt the provisions of FIN 48 beginning in fiscal 2008. The Company is currently evaluating the impact, if any, the interpretation will have on its

financial statements.

In May 2005 the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 154, Accounting Changes and Error Corrections, a replacement of APB Opinion No. 20 and FASB Statement No. 3. SFAS

Table of Contents

154 requires retrospective application to prior periods financial statements for changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. SFAS 154 also requires that retrospective application of a change in accounting principle be limited to the direct effects of the change. Indirect effects of a change in accounting principle, such as a change in non-discretionary profit-sharing payments resulting from an accounting change, should be recognized in the period of the accounting change. SFAS 154 also requires that a change in depreciation, amortization, or depletion method for long-lived, non-financial assets be accounted for as a change in accounting estimate affected by a change in accounting principle. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. Early adoption is permitted for accounting changes and corrections of errors made in fiscal years beginning after the date this Statement is issued. The Company adopted the provisions of SFAS 154, as applicable, beginning in fiscal 2007. The adoption of SFAS 154 did not have a material impact on the company's consolidated statements, as no accounting changes and error corrections were applied during the first quarter of fiscal 2007.

NOTE 3 DISCONTINUED OPERATIONS

The Company was unsuccessful in its efforts to achieve sustained profitability in its PriceSmart Philippines operation. As a result, and in part to resolve outstanding litigation between the Company and E-Class Corporation (E-Class), one of the minority shareholders of PSMT Philippines, Inc. (PSMT Philippines), the Company entered into an agreement dated August 5, 2005 to dispose of its interest (the Divestiture) in PSMT Philippines. The Divestiture was consummated on August 12, 2005.

The Company has released PSMT Philippines from its obligations with respect to amounts owed to the Company by PSMT Philippines primarily related to past merchandise shipments and has agreed to indemnify PSMT Philippines and its officers, directors, stockholders and agents and to hold them harmless from any claims arising out of previously settled litigation between the Company and its prior Philippines licensee.

In accordance with the provisions of SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets , the accompanying consolidated financial statements reflect the results of operations and financial position of the Philippines and Guam as discontinued operations. Following its closure in December 2003, the Company had previously included the results of operations from Guam in the closure costs line of the Statement of Operations. However, due to the shared management structure, as the Philippines and Guam activities were viewed as one activity, following the disposal of the Philippines operations, the results of the Philippines and Guam activities were consolidated in the discontinued operations line of the Statement of Operations.

The assets and liabilities of the discontinued operations are presented in the consolidated balance sheets under the captions Assets of discontinued operations and Liabilities of discontinued operations. The underlying assets and liabilities of the discontinued operations for the periods presented are as follows (in thousands):

- (2) Restricted stock was issued to certain employees in the second and third quarters of fiscal 2006, the dilutive effects of which was 537,693 shares as of November 30, 2006.

NOTE 7 CLOSURE COSTS

During fiscal 2003, the Company closed two warehouse clubs, one each in the Dominican Republic and Guatemala and the Company also closed its Commerce, California distribution center on August 31, 2004. The decision to close the warehouse clubs resulted from the determination that the locations were not conducive to the successful operation of a PriceSmart warehouse club.

During the first quarter of fiscal year 2007, the Company recorded an asset impairment charge of approximately \$72,000, which was due to the San Pedro Sula, Honduras location being vacated and the operation being relocated to a new site which was acquired during fiscal year 2006 in another section of the city.

A reconciliation of the changes and related liabilities derived from the closed warehouse clubs as of November 30, 2006 is as follows (in thousands):

NOTE 8 - FINANCIAL PROGRAM

On September 3, 2004, the Company announced a plan to implement a series of transactions (the Financial Program). The Financial Program was approved by the stockholders on October 29, 2004. The elements of the Financial Program and the status of each element are as follows:

A private placement of an aggregate of 3,164,726 shares of the Company's common stock, at a price of \$8 per share, to The Price Group, LLC, a California limited liability company (the Price Group), to be funded through the conversion of a \$25.0 million bridge loan, together with accrued and unpaid interest, extended to the Company by the Price Group in August 2004. The private placement was completed on October 29, 2004, resulting in the issuance of 3,164,726 shares of the Company's common stock.

The issuance of an aggregate of 2,200,000 shares of common stock to the Sol and Helen Price Trust, the Price Family Charitable Fund, the Robert and Allison Price Charitable Remainder Trust, the Robert and Allison Price Trust 1/10/75 (collectively, the Price Trusts) and the Price Group (collectively, with the Price Trusts, the Series B Holders) in exchange for all of the outstanding shares of the Company's 8% Series B Cumulative Convertible Redeemable Preferred Stock. This exchange was completed on October 29, 2004, resulting in the issuance of 2,200,000 shares of the Company's common stock.

The issuance of an aggregate of 2,597,200 shares of common stock, valued for such purpose at a price of \$8 per share, to the Price Group in exchange for up to \$20.0 million of current obligations, plus accrued and unpaid interest, owed by the Company to the Price Group. This exchange was completed on October 29, 2004, resulting in the issuance of 2,597,200 shares of the Company's common stock.

The issuance of up to 16,052,668 shares of common stock in connection with a rights offering pursuant to rights distributed to the holders of outstanding shares of common stock, and the issuance of up to 3,125,000 shares of common stock, at a price of \$8 per share, to the Price Group to ensure that the above-mentioned rights offering generates at least \$25.0 million in proceeds. The \$7 rights offering subscription period began on December 21, 2004 and ended on January 24, 2005. A total of 6,827,542 shares of common stock were sold during this period. The total proceeds were \$47.8 million. The \$8 rights offering period began on January 25, 2005 and initially expired on December 21, 2005 but was extended to January 31, 2006. A total of 2,463,614 shares of common stock were sold during the \$8 rights offering period. The total proceeds for the \$8 rights offering period were \$19.7 million.

The issuance of up to 2,223,104 shares of common stock to exchange common stock, valued for such purpose at a price of \$10 per share, to the holders of all of the shares of the Company's 8% Series A Cumulative Convertible Redeemable Preferred Stock, in exchange for all of the outstanding shares of the Series A Preferred Stock at its initial stated value of \$20.0 million plus all accrued and unpaid dividends. This was completed on November 23, 2004, resulting in the issuance of 2,223,104 shares of common stock.

An amendment to the Amended and Restated Certificate of Incorporation of the Company to increase the number of authorized shares of common stock from 20,000,000 to 45,000,000 shares, which was approved by the Company's stockholders on October 29, 2004.

In connection with the Financial Program described above, the Company and certain of its subsidiaries entered into an agreement with the International Finance Corporation (the IFC) in the first fiscal quarter of 2005 providing for the following: (i) the Company granted the IFC a warrant to purchase 400,000 shares of the Company's common stock at a price of \$7 per share; (ii) the Company purchased a \$10.2 million loan extended by the IFC to PriceSmart Philippines, Inc.; (iii) the Company obtained a waiver of certain IFC loan covenants regarding incurring additional debt, in order to borrow the \$25.0 million in the bridge loan mentioned above; (iv) \$5.2 million of restricted cash pledged as collateral to certain loans was released; (v) all pre-payment penalties were waived for all outstanding loans from the IFC; (vi) the net carrying costs were reduced on one loan by eliminating the IFC's right to a percentage of the Company's earnings, before interest, taxes, depreciation and amortization. Additionally, in connection with the Company's transactions with the IFC, the Price Group (a related party to the Company) granted a put option giving the right to the IFC to sell 300,000 shares of Common Stock to the Price Group at a price of \$12 per share between November 30, 2005 and November 30, 2006. The put option was exercised in the second quarter of fiscal 2006 and the transaction completed in March 2006. All of the above elements were completed during the Company's first and second quarters of fiscal 2005. The warrant was issued in the second quarter of fiscal 2005, and the warrant was exercised with respect to 200,000 shares of the Company's common stock on January 26, 2005. Pursuant to the terms of the warrant, the exercise price was paid by reducing the principal amount of two of the loans extended to the Company by the IFC. As a result, long-term debt was reduced by \$1.4 million. The balance of the warrant was exercised on November 30, 2005, and long-term debt was reduced by an additional \$1.4 million.

NOTE 9 COMMITMENTS AND CONTINGENCIES

From time to time, the Company and its subsidiaries are subject to legal proceedings, claims and litigation arising in the ordinary course of business, the outcome of which, in the opinion of management, would not have a material adverse effect on the Company. The Company evaluates such matters on a case by case basis, and vigorously contests any such legal proceedings or claims which the Company believes are without merit.

During fiscal year 2005, the Company sub-leased its closed location in Guatemala for \$300,000 a year for the first and second year; \$414,000 for the third year; with CPI increase not exceeding 3.5% each year for the fourth and fifth year; \$500,000 for the sixth year; and with CPI increase each year not exceeding 3.5% each year for the remaining six years until the end of the sub-lease in 2017. For the discontinued operation in Guam, the Company sub-leased the warehouse for approximately the same amount as its rental expense, \$400,000 a year, until the termination of the master lease in August 2011 at which time the sublease also ends. The Company's annual future minimum lease commitments for the closed warehouse clubs in Guatemala and Guam are \$642,000 and \$400,000, respectively.

The SEC issued a formal order of private investigation on January 8, 2004 to investigate the circumstances surrounding a financial restatement associated with fiscal year 2002 and the first three quarters of fiscal year 2003. The SEC issued subpoenas to the Company for the production of documents and has taken testimony, pursuant to subpoena, from several of the Company's present and former employees, but to the Company's knowledge there has been no activity relating to this matter for almost two years.

The Company operates in multiple international jurisdictions, which creates certain risks regarding the interpretation and enforcement of tax laws and regulations. In the ordinary course of a global business there are many transactions for which the ultimate tax outcome is uncertain. Some of these uncertainties arise as a consequence of inter-company arrangements to share revenue and costs. In such arrangements there are uncertainties about the amount and manner of such sharing which could ultimately result in changes once the arrangements are reviewed by taxing authorities. Although the Company believes that its approach to determining the amounts of such arrangements is reasonable, no assurance can be given that the final exposure from these matters will not be materially different than that which is reflected in the historical income tax provisions and accruals.

In evaluating the exposure associated with various tax filing positions, the Company accrues charges for probable and estimable exposures. At November 30, 2006, the Company believes it has appropriately accrued for probable exposures. To the extent the Company were to prevail in matters for which accruals have been established or be required to pay amounts in excess of reserves, the Company's effective tax rate in a given financial statement period could be materially affected. As of November 30 and August 31, 2006, the Company had recorded within other accrued expenses a total of \$8.6 million and \$8.3 million, respectively, for income and other tax related contingencies.

The Company is currently evaluating the impact, if any, of the adoption of FASB Interpretation (FIN) No. 48, Accounting for Uncertainty in Income Taxes, which provides guidance associated with the recognition and measurement of tax positions and related reporting and disclosure requirements.

NOTE 10 SHORT-TERM BORROWINGS AND LONG-TERM DEBT

As of November 30, 2006 and August 31, 2006, the Company, together with its majority or wholly-owned subsidiaries, had \$677,000 and \$158,000, respectively, outstanding in short-term borrowings, at weighted-average interest rates of 8.0% and 8.0%, respectively, which are secured by certain assets of the Company and its subsidiaries and are guaranteed by the Company. Each of the facilities expires during the year and is typically renewed. As of November 30, 2006 and August 31, 2006, the Company had approximately \$11.0 million and \$11.0 million available on these facilities, respectively.

Additionally, the Company has a bank credit agreement, secured by short-term restricted cash, for up to \$7.0 million, which can be used as a line of credit or to issue letters of credit. As of November 30, 2006, letters of credit totaling \$2.5 million were outstanding under this facility, leaving availability under this facility of \$4.5 million.

As of November 30, 2006 and August 31, 2006, the Company, together with its majority or wholly owned subsidiaries, had \$1.6 million and \$18.7 million, respectively, outstanding in long-term borrowings. The carrying amount of the non-cash assets (land, building, fixtures, and equipment) assigned as collateral for long-term debt was \$2.3 million and \$27.9 million as of November 30, 2006 and August 31, 2006, respectively. Certain obligations under leasing arrangements are collateralized by the underlying asset being leased.

During the first quarter of fiscal 2007, the Company repaid the remaining balance on the long-term debt held by the International Finance Corporation. This debt had a remaining principal balance of \$14.9 million at the time of repayment with semi-annual principal payments due through 2010.

NOTE 11 ACQUISITION OF MINORITY INTEREST

The Company's business combinations are accounted for under the purchase method of accounting, and include the results of operations of the acquired business from the date of acquisition. Net assets of the acquired business are recorded at their fair value at the date of the acquisition. The excess of the purchase price over the fair value of tangible net assets acquired is included in goodwill in the accompanying consolidated balance sheets.

During fiscal 2006, the Company purchased the minority interests of its Jamaica subsidiary in order to strengthen the Company's position for the future and consequently increased its ownership percentage in its Jamaica subsidiary from 67.5% to 100%. The Company acquired the minority interests of its three partners, Big Box Sales, Ltd., Chancellor Holdings Limited, and P.S.C., SA, whose ownership percentages were 15%, 10% and 7.5% respectively, on November 17, 2005, November 15, 2005, and December 23, 2005, respectively. The consideration provided in connection with this acquisition consisted of \$2.4 million in cash and forgiveness of a \$413,000 note receivable. The purchase price of \$2.8 million was allocated to minority interest of \$556,000, \$126,000 to buildings and \$2.1 million to goodwill. Also, during the second quarter of fiscal year 2006, the Company purchased a 5% minority interest of its Trinidad subsidiary from one of its partners and thereby increased its ownership percentage in its Trinidad subsidiary from 90% to 95%. The consideration provided in connection with this acquisition was \$300,000. The purchase price was allocated to minority interest of \$132,000 and \$168,000 to goodwill. The goodwill related to these transactions has been allocated to the Caribbean Operations segment.

Table of Contents**NOTE 12 UNCONSOLIDATED AFFILIATE**

In January 2002, the Company entered into a joint venture agreement with Grupo Gigante, S.A. de C.V. (Gigante) to initially open four PriceSmart warehouse clubs in Mexico. The Company and Gigante contributed \$20.0 million each for a total of \$40.0 million, and each owned 50% of the operations in PSMT Mexico, S.A. de C.V. (PSMT Mexico). The Company accounts for this investment under the equity method of accounting, in which the Company reflects its proportionate share of the income or loss from the joint venture. Three warehouse clubs were eventually opened during fiscal year 2003.

During the fourth quarter of fiscal 2004, due to the historical operating losses and management's assessment as to the inability to recover the full carrying amount of its investment in PSMT Mexico, the Company recorded a non-cash charge of \$3.1 million to reduce the Company's Investment in unconsolidated affiliate.

On February 11, 2005, it was announced that the Company and Gigante had decided to close the warehouse club operations of PSMT Mexico and the closure was completed on February 28, 2005. The joint venture sold two of the three warehouse clubs, consisting of land and buildings, in September 2005 for an aggregate price of \$11.2 million. One warehouse club remains unsold, although efforts are underway to sell it as well. The fixtures and equipment are also being sold. The Company has purchased approximately \$2.3 million of fixtures from PSMT Mexico as of November 30, 2006. The Company paid \$750,000 in cash and offset the remainder with receivables and a note owed by PSMT Mexico to the Company.

NOTE 13 RELATED-PARTY TRANSACTIONS

Sale of Common Stock: In October 2005, Sol and Helen Price Trust, a trust affiliated with Sol Price the Company's majority shareholder, purchased 168,539 shares of common stock of the Company at a price of \$8.90 per share for a total purchase price of \$1.5 million.

Series A and Series B Preferred Stock: In January 2002, entities affiliated with Sol Price, Robert E. Price, Murray L. Galinson, Jack McGrory and James F. Cahill (who was a director of the Company from November 1999 until March 2005), purchased an aggregate of 1,650 shares of the Company's Series A Preferred Stock for an aggregate purchase price of \$1,650,000. In July 2003, entities affiliated with Sol Price, Robert E. Price, James F. Cahill, Murray L. Galinson and Jack McGrory, purchased an aggregate of 22,000 shares of the Company's Series B Preferred Stock for an aggregate purchase price of \$22,000,000. In connection with the Financial Program that was approved by the stockholders on October 29, 2004, the 1,650 shares of Series A Preferred Stock were exchanged for 183,405 shares of the Company's common stock, and the 22,000 shares of the Series B Preferred Stock were exchanged for 2,200,000 shares of common stock.

Relationship with SD Revitalization: During the fourth quarter of fiscal year 2006, the Company sold approximately \$34,000 of school supplies to SD Revitalization, a charitable group affiliated with Robert E. Price and Sol Price. The Company did not sell any school supplies to the charitable group in the first quarter of fiscal years 2006 and 2007.

Relationship with PS Ivanhoe: On October 24, 2005, the Company borrowed \$12.5 million from PS Ivanhoe, LLC, a California limited liability company (PS Ivanhoe), which is managed by the Price Group pursuant to a Promissory Note (the Note). The

Table of Contents

Note bears interest at a rate of 8% per annum and has a term of two years. All unpaid principal and accrued interest was due and payable in full on October 23, 2007 (the Maturity Date). Any amounts outstanding under the Note from and after the Maturity Date bear interest at a rate equal to the lesser of 12% per annum or the maximum interest rate allowed by law. To secure the Company's obligations under the Note, the Company and PS Ivanhoe entered into a Pledge and Security Agreement pursuant to which the Company granted to PS Ivanhoe a security interest in all of the issued and outstanding shares of stock (and all ownership rights with respect thereto) in PriceSmart Real Estate, S.A., the Company's wholly owned Panamanian subsidiary. On June 13, 2006, the promissory note entered with PS Ivanhoe was repaid. The Company paid approximately \$642,000 in interest on the promissory note.

Use of Private Plane: From time to time members of the Company's management used a private plane owned in part by PFD Ivanhoe, Inc. (PFD Ivanhoe) to travel to business meetings in Central America and the Caribbean. The Price Group owns 100% of the stock of PFD Ivanhoe, and Sol Price is an officer of PFD Ivanhoe. The Price Group's members include Sol Price, Robert E. Price, Murray Galinson and Jack McGrory (and previously included James F. Cahill). The Company reimburses PFD Ivanhoe based on the amounts the passengers would have paid if they had flown a commercial airline if one or more of the passengers is a Director of The Price Group (including Robert E. Price). If the passengers are solely PriceSmart, Inc. personnel, then the Company reimburses PFD Ivanhoe for a portion of the fixed management fee and additional expenses PFD Ivanhoe incurred as a result of the hours flown including direct charges associated with the use of the plane, landing fees, catering and international fees. The Company paid approximately \$2,700 and \$59,000 for these costs for the three months ended November 30, 2006 and 2005, respectively.

Relationships with Edgar Zurcher: Edgar Zurcher, a director of the Company since November 2000, is a partner in a law firm that the Company utilizes in certain legal matters. The Company incurred legal expenses with this entity of approximately \$45,000 and \$32,000 during the first three months of fiscal years 2007 and 2006, respectively. Mr. Zurcher is also a director of a company that owns 40% of Payless ShoeSource Holdings, Ltd., which rents retail space from the Company. The Company has recorded approximately \$198,000 and \$192,000 in rental income for this space during the first quarter of fiscal years 2007 and 2006, respectively. Mr. Zurcher is also a director of Banco Promerica, from which the Company has recorded approximately \$70,000 and \$64,000 of rental income in the first three months of fiscal 2007 and 2006, respectively, for space leased to it by the Company. The Company also received approximately \$184,000 and \$226,000 in incentive fees on a co-branded credit card the Company has with Banco Promerica in the first three months of fiscal years 2007 and 2006, respectively. In addition, the Company also received approximately \$37,000 and \$0 in Smart credit fees during the first three months of fiscal year 2007 and 2006, respectively, related to the co-branded credit card with Banca Promerica.

Relationship with PriceSmart Mexico: The Company has purchased furniture and fixtures from the closed Mexico warehouse clubs utilizing cash, an advance payment of \$750,000 and offsetting the \$1.0 million note and other receivables owed by PriceSmart Mexico. At November 30, 2006 and 2005, the aggregate amount of equipment purchased from Mexico was approximately \$2.3 million and \$1.9 million, respectively.

The Company believes that each of the related party transactions described above were on terms that the Company could have obtained from unaffiliated third parties.

Table of Contents**NOTE 14 SEGMENT REPORTING**

The Company is principally engaged in international membership shopping warehouse clubs operating primarily in Central America and the Caribbean. The Company operates in three segments on geographic area and measures performance based on operating income (loss). Segment amounts are presented after converting to U.S. dollars and consolidating eliminations. Certain revenues and operating costs included in the United States segment have not been allocated, as it is impractical to do so. The Mexico joint venture is not segmented for the periods presented and is included in the United States segment. The Company's reportable segments are based on management responsibility.

NOTE 15 SUBSEQUENT EVENTS

On December 20, 2006, the Company signed the contract for the sale of the land and building of the previously closed location, East Santo Domingo, Dominican Republic. The selling price was \$2.5 million, which is approximately equal to the current book value of the land and building. The Company previously recorded a \$2.4 million and \$813,000 impairment charges in the fiscal years 2005 and 2006, respectively, to write-down the building.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

This Form 10-Q contains forward-looking statements concerning PriceSmart's anticipated future revenues and earnings, adequacy of future cash flow and related matters. These forward-looking statements include, but are not limited to, statements or phrases such as "believe," "will," "expect," "anticipate," "estimate," "intend," "plan," and "would" and similar expressions, and the negative thereof. Forward-looking statements are not guaranteed performance. These statements are subject to risks and uncertainties that could cause actual results to differ materially from the statements, including foreign exchange risks, political or economic instability of host countries and competition, as well as those risks described in the Company's reports filed with the Securities and Exchange Commission (the "SEC") from time to time, including the risk factors referenced in the Form 10-K, filed on November 13, 2006 for the fiscal year ended 2006. See Part II Item 1A Risk Factors.

The following discussion and analysis compares the results of operations for the quarters ended November 30, 2006 (fiscal 2007) and November 30, 2005 (fiscal 2006), and should be read in conjunction with the consolidated financial statements and the accompanying notes included therein.

PriceSmart's business consists primarily of international membership shopping warehouse clubs similar to, but smaller in size than, warehouse clubs in the United States. The number of warehouse clubs in operation as of November 30, 2006 and 2005, the Company's ownership percentages and basis of presentation for financial reporting purposes by each country or territory were as follows:

Country/Territory	Number of	Number of	Ownership	Basis of

During the third quarter of fiscal 2006, the Company entered into agreements to purchase land in Honduras and Trinidad for the construction of two warehouse clubs. In Honduras, the Company completed construction and relocated its San Pedro Sula warehouse club to this new site, which is also located in San Pedro Sula. The opening at the new site took place on November 4, 2006. In Trinidad, the Company currently plans to complete construction and open a new warehouse club in the summer of 2007.

On November 18, 2005, the Company opened its fourth warehouse club in Costa Rica. Also during the first and second quarters of fiscal 2006, the Company acquired the 32.5% of minority interests in PriceSmart Jamaica, increasing the Company's ownership to 100%. In addition, during the second quarter of fiscal 2006, the Company acquired an additional 5% interest in its PriceSmart Trinidad subsidiary, increasing its ownership to 95% from 90%.

Table of Contents

On February 11, 2005, it was announced that the Company and Grupo Gigante S.A. de C.V. had decided to close the warehouse club operations of PSMT Mexico, S.A. de C.V. This closure was completed on February 28, 2005. PSMT Mexico, S.A. de C.V. is a 50/50 joint venture of PriceSmart and Grupo Gigante S.A. de C.V. which had operated three membership warehouse clubs in Mexico. The joint venture sold two of the three locations consisting of land and buildings in September 2005. One location remains unsold and efforts are underway to sell or lease it. Additional assets of the joint venture to be liquidated include fixtures and equipment and recoverable value-added tax. As of the end of November 2006, PriceSmart had acquired approximately \$2.3 million of the joint venture's fixtures and equipment for use in the Company's other warehouse clubs.

At the end of both November 2005 and November 2006, the total number of the Company's consolidated warehouse clubs in operation was 23 operating in 11 countries and one U.S. territory. The average age of the 23 warehouse clubs in operation as of November 30, 2006 was 71 months and was 63 months for the 23 warehouse clubs included in continuing operations as of November 30, 2005.

In addition to the warehouse clubs operated directly by the Company or through joint ventures, there is one warehouse club in operation in Saipan, Micronesia licensed to and operated by local business people, from which the Company earns a royalty fee.

COMPARISON OF THE THREE MONTHS ENDED NOVEMBER 30, 2006 AND 2005

Net warehouse club sales increased 19.0% to \$198.1 million in the first quarter of fiscal 2007, from \$166.5 million in the first quarter of fiscal 2006. The Company's sales continue to be positively impacted by a generally strong economic environment in the markets in which its warehouse clubs operate, a growing membership base, and ongoing improvements in the selection and value of merchandise carried in the clubs. Each of the Company's warehouse clubs recorded increases in sales from the first quarter of fiscal 2006 compared to the first quarter of fiscal 2007. The Company opened a new warehouse club in Costa Rica on November 18, 2005, which contributed 12 days of sales to the first quarter of fiscal 2006. In the first quarter of fiscal 2007, that warehouse club operated for the full fiscal quarter, and accounted for approximately 290 basis points of sales growth, or approximately \$5.0 million in total warehouse club sales. The following table indicates the percent growth in net warehouse club sales in the segments in which the Company operates.

Three Months Ended November 30,						
	2006		(Amounts in thousands) 2005		Increase	
	Amount	% of Sales	Amount	% of Sales	(Decrease)	Change
Central America	\$ 120,897	61.0%	\$ 100,564	60.4%	\$ 20,333	20.2%
Caribbean	77,203	39.0%	65,949	39.6%	11,254	17.1%
	\$ 198,100	100.0%	\$ 166,513	100.0%	\$ 31,587	19.0%

Comparable warehouse club sales, which are for warehouse clubs open at least 12 full months, increased 16.0% for the 52-week period ended December 3, 2006, compared to the same period last year. The Company reports comparable warehouse club sales on a same week basis with 13 weeks in each quarter beginning on a Monday and ending on a Sunday. The periods are established at the beginning of the fiscal year to provide as close a match as possible to the calendar month that is used for financial reporting purposes. This approach equalizes the number of weekend days and week days in each period for improved sales comparison, as the Company experiences higher warehouse club sales on the weekends. Further, each of the warehouse clubs used in the calculations was open for at least 13 1/2 calendar months before its results for the current period were compared with its results for the prior period. For example, the sales related to the new warehouse club opened in Costa Rica on November 18, 2005 will not be used in the calculation of comparable warehouse club sales until the month ending February 28, 2007.

Table of Contents

The following table indicates the approximate percentage of net sales accounted for by each major category of items sold by the Company during the first fiscal quarter of 2007 compared to the same period in fiscal 2006.

	Three Months Ended	
	November 30, 2006	2005
Sundries (including candy, snack foods, health and beauty aids, tobacco, alcoholic beverages, soft drinks, cleaning and paper products and pet supplies)	30%	29%
Food (including dry and fresh foods)	42%	44%
Hardlines (including major appliances, electronics, hardware, office supplies, garden and patio, sporting goods, business machines and automotive supplies)	16%	16%
Softlines (including apparel, domestics, cameras, jewelry, housewares, media, toys, home furnishings, and small appliances)	10%	9%
Other (including one-hour photo and food court)	2%	2%
	100%	100%

The Company's warehouse gross profit margin (defined as net warehouse club sales less associated cost of goods sold) in the first quarter of fiscal 2007 increased \$5.6 million to \$29.6 million, or 14.9% of net warehouse club sales, from \$24.0 million, or 14.4% of net warehouse club sales. The increase in warehouse gross profit margin dollars was largely due to higher sales. As a percentage of sales, warehouse net profit margin increased 55 basis points primarily as a result of a reduced negative impact associated with foreign currency exchange related expense. In the current quarter, the Company recorded \$161,000 (0.08% of sales) in foreign exchange related costs compared to \$676,000 (0.41% of sales) in the first quarter of fiscal 2006.

Membership income, which is recognized into income ratably over the one-year life of the membership, increased 22.5% to \$3.2 million, or 1.6% of net warehouse club sales, in the first quarter of fiscal 2007 compared to \$2.6 million, or 1.6% of net warehouse club sales, in the first quarter of fiscal 2006. The increase in membership income reflects both a 14% increase in the number of membership accounts, and a 3% increase in the average membership fee. The membership renewal rate for the 12 month period ended November 30, 2006 and 2005 was 83% and 85%, respectively. Total membership accounts as of the end of November 2006 were approximately 493,000, an increase of approximately 59,000 accounts over the end of November 2005.

Other income consists of commission revenue, rental income, advertising revenue, construction revenue, fees for in-store product demonstrations, and fees earned from licensees. Other income in the first quarter of fiscal 2007 was \$1.1 million compared to \$816,000 in the same period a year ago. This increase was primarily attributable to higher rental income and construction management income.

Warehouse operating expenses increased 11.1% to \$20.3 million, or 10.2% of net warehouse club sales, in the first quarter of fiscal 2007 from \$18.3 million, or 11.0% of net warehouse club sales, in the first quarter of fiscal 2006. The \$2.0 million increase in warehouse club operating expenses resulted from increased payroll related expenses (\$929,000), higher bank and credit card fees related to higher sales (\$298,000), and increased operating costs for utilities, repair and maintenance, and supplies (\$432,000). Across all spending categories, the inclusion of a full quarter's costs associated with the new club in Costa Rica, which opened on November 18, 2005, resulted in \$572,000 of increased warehouse club operating expenses in the first quarter of fiscal year 2007 compared to the first quarter of fiscal year 2006.

General and administrative expenses increased 4.2% to \$6.0 million, or 3.0% of net warehouse club sales, for the first quarter of fiscal 2007 from \$5.7 million, or 3.4% of net warehouse club sales, in the first quarter of fiscal 2006. The increased costs were associated with salaries and related benefits, including incentive bonus payments for the Company's corporate and U.S. buying operations.

Expenses incurred before a warehouse club is in operation are captured in pre-opening expenses. Pre-opening expenses in the first quarter of fiscal 2007 of \$232,000 were primarily associated with the opening of the relocated warehouse club in San Pedro Sula, Honduras, which opened on November 4, 2006. In the first quarter of fiscal year 2006, pre-opening expenses for the Company's fourth warehouse club in Costa Rica, which opened November 18, 2005, were \$335,000.

Table of Contents

Asset impairment and closure costs for the first quarter of fiscal year 2007 were \$191,000 compared to \$53,000 in the first quarter of fiscal year 2006. Asset impairment and closure costs in the first quarter of fiscal year 2007 primarily related to the Company's now vacant original San Pedro Sula, Honduras location. The operation was relocated to a new site which was acquired during fiscal 2006 in another section of the city. The Company believes that this new location will have a positive impact on the results of that warehouse club.

Operating income for the quarter was \$7.2 million, or 3.7% of net warehouse club sales, compared to \$3.1 million, or 1.9% of net warehouse club sales, in the first quarter of fiscal 2006.

Interest income reflects earnings on cash and cash equivalent balances and restricted cash deposits securing either long-term debt or working capital lines of credit. Interest income was \$364,000 in the first quarter of fiscal 2007 compared to \$312,000 in the first quarter of fiscal 2006. The increase reflects generally higher interest rates associated with cash on deposit in the current period compared to a year ago.

Interest expense reflects borrowings by the Company's majority or wholly owned foreign subsidiaries to finance the capital requirements of warehouse club operations and on-going working capital requirements. Interest expense decreased to \$355,000 in the first quarter of fiscal 2007 from \$721,000 in the first quarter of fiscal 2006, resulting from a reduction in debt held by the Company.

Tax expense for the first quarter of fiscal 2007 was \$3.0 million on pre-tax income of \$7.2 million, as compared to \$1.3 million of tax expense on pre-tax income of \$2.7 million for the first quarter of fiscal 2006. The decrease in the effective tax rate to 41.0% in the first quarter of fiscal 2007 from 49.7% for year ended 2006 is the result of tax planning strategies and changes in tax rates and tax contingencies in certain countries where we operate.

Minority interest is the allocation of the joint venture income or loss to the minority stockholders' respective interest. Minority interest stockholders' respective share of net income was \$134,000 in the first quarter of fiscal year 2007. In the same period last year, the joint ventures for which there was a minority stockholder interest generated income of which \$44,000 was allocated to the minority stockholders' interest. During the second quarter of fiscal 2006, the Company acquired the 7.5% ownership interest of the one remaining shareholder in its Jamaica subsidiary after having acquired the 25% interest of two other minority stockholders in the first fiscal quarter. As a result, the Company now records 100% of that subsidiary's income or loss. The Company also acquired an additional 5% ownership in its Trinidad subsidiary in the second quarter of fiscal 2006, increasing its ownership percentage to 95% from 90%.

Income from continuing operations for the first quarter of fiscal 2007 was \$4.1 million compared to \$1.4 million in the same quarter last year.

Discontinued operations, net of tax are the consolidated income and expenses associated with those operations within the Company that were closed or disposed of and which meet the criteria for such a treatment. Discontinued operations includes PSMT Philippines which was disposed of effective August 12, 2005, and the costs associated with the Company's previously closed warehouse location in Guam. In the current quarter, the Company recognized income of \$18,000, which includes \$21,000 in income associated with the closed Guam location, which is leased to a subtenant, net of expenses. In the first quarter of fiscal 2006, the Company recognized income of \$654,000, which included \$1.0 million (pre-tax) associated with the reversal of a provision against recoverability of a loan principal installment and accrued interest receivable related to that loan, from PSMT Philippines, which was collected in December 2005.

The costs included in discontinued operations, net of taxes are comprised of the following:

	Three Months Ended

Guam pre-tax income (loss) from operations	\$ 21	\$ 50
Philippines pre-tax income (loss) from operations	(3)	1,004

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES***Financial Position and Cash Flow*

The Company's primary capital requirements during the first quarter of fiscal 2007 were for operating working capital needs, particularly those associated with the acquisition of merchandise in advance of the holiday shopping period. The Company also used capital during the quarter to complete the construction of a warehouse club in San Pedro Sula, Honduras and expanded one of its warehouse clubs in Panama City, Panama. In addition, the Company repaid the remaining \$17.3 million balance on the long-term debt held by the International Finance Corporation, which included a prepayment of principal in the amount of \$14.9 million in September 2006, in addition to the Company's regularly scheduled principal payment of \$2.4 million.

The Company had \$15.3 million in consolidated cash and cash equivalents as of November 30, 2006 compared to \$40.0 million in consolidated cash and cash equivalents as of August 31, 2006.

Net cash flows used in operating activities were \$2.6 million in the first quarter of fiscal 2007, compared to cash provided by operations of \$268,000 in the first quarter of fiscal 2006. The reduction in operating cash flows in the current quarter compared to the same period in fiscal 2006 resulted primarily from an increased and earlier investment in merchandise inventories ahead of the holiday period. Since the end of August 2006, the Company has increased merchandise inventory levels by \$16.3 million. The increase in accounts payable (predominantly vendor credit) during that same period increased \$10.0 million, resulting in a net cash use of \$6.3 million. In the first quarter of fiscal 2006, merchandise inventories increased \$15.4 million resulting in a net cash use of \$3.0 million (net of the increase in accounts payable). While the level of merchandise inventory increase was nearly the same between the two periods, the greater use of cash in the first quarter of fiscal 2007 was due to the earlier purchase of that inventory during the quarter, resulting in a reduced accounts payable balance in relation to inventory at the end of November 2006 compared to November 2005.

Net cash used in investing activities was \$5.7 million and \$18.4 million in the first quarters of fiscal 2007 and 2006, respectively. The decrease in the use of cash in the current period resulted primarily from the acquisition in fiscal 2006 of a 35,000 square meter commercial center in Panama City, Panama, which included the existing PriceSmart warehouse club along with additional commercial property, for \$12.7 million (including closing fees), and \$2.8 million in costs associated with the new warehouse club in Costa Rica. In the first quarter of fiscal 2006, the Company also used \$1.7 million to purchase an additional 25% interest in its Jamaica subsidiary. In the first quarter of fiscal 2007, the additions to property and equipment totaled \$5.8 million, with \$3.5 million associated with the completion of construction of the Company's San Pedro Sula warehouse, and \$880,000 used to complete the expansion of the Company's Via Brasil location in Panama City, Panama.

Financing activities resulted in a net cash use of \$16.5 million in the first quarter of fiscal 2007. The Company repaid the remaining \$17.3 million balance on the long-term debt held by the International Finance Corporation, which included a prepayment of principal in the amount of \$14.9 million in September 2006 in addition to the Company's regularly scheduled principal payment of \$2.4 million. During the first quarter of fiscal 2006, financing activities provided net cash of \$11.8 million attributable to \$12.5 million in long-term debt borrowed from a related party, PS Ivanhoe LLC, to finance the purchase of the Panama City acquisition and the sale of \$1.5 million of common stock to Sol Price, one of the Company's significant stockholders and father of Robert E. Price, who is the Company's Chairman of the Board and Chief Executive Officer, as part of a lawsuit settlement.

Financing Activities

During the first quarter of fiscal 2007, the Company repaid the remaining \$17.3 million balance on the long-term debt held by the International Finance Corporation, which included a prepayment of principal in the amount of \$14.9 million in September 2006, in addition to the Company's regularly scheduled principal payment of \$2.4 million.

Short-Term Borrowings and Long-Term Debt

As of November 30, 2006, the Company, together with its majority or wholly owned subsidiaries, had \$677,000 outstanding in short-term borrowings. As of August 31, 2006, the Company, together with its majority or wholly owned subsidiaries, had \$158,000 in short-term borrowings.

In addition, the Company has a bank credit agreement that provides for borrowings of up to \$7.0 million, which can be used as a line of credit or to issue letters of credit. As of November 30, 2006, letters of credit totaling \$2.5 million were outstanding under this facility, leaving \$4.5 million available for borrowing under this facility.

Table of Contents

As of November 30, 2006, the Company, together with its majority or wholly owned subsidiaries, had \$1.6 million outstanding in long-term borrowings. The carrying amount of the non-cash assets (land, building, fixtures, and equipment) assigned as collateral for long-term debt was \$2.3 million as of November 30, 2006. Certain obligations under leasing arrangements are collateralized by the underlying asset being leased.

During the first quarter of fiscal 2007, the Company repaid the remaining \$17.3 million balance on the long-term debt held by the International Finance Corporation.

Contractual Obligations

As of November 30, 2006, the Company's commitments to make future payments under long-term contractual obligations were as follows (in thousands):

		Payments Due by Period			
		Less than	1 to 3	4 to 5	After
Contractual obligations	Total	1 Year	Years	Years	5 Years
Long-term debt ⁽¹⁾	\$ 1,555 ⁽²⁾	\$ 1,000	\$ 525	\$ 17	\$ 13
Operating leases	115,695	6,971	12,810	11,860	84,054
Total	\$ 117,250	\$ 7,971	\$ 13,335	\$ 11,877	\$ 84,067

(1) Amounts shown are for the principal portion of the long-term debt payment only.

(2) On September 15, 2006, the Company prepaid the remaining \$14.9 million balance on the long-term debt held by the International Finance Corporation.

Critical Accounting Estimates

The preparation of the Company's financial statements requires that management make estimates and judgments that affect the financial position and results of operations. Management continues to review its accounting policies and evaluate its estimates, including those related to contingencies and litigation, deferred taxes, merchandise inventories, goodwill, long-lived assets and warehouse closure costs. The Company bases its estimates on historical experience and on other assumptions that management believes to be reasonable under the present circumstances. These accounting policies, under different conditions or using different estimates, could show materially different results on the Company's financial condition and results of operations.

Contingencies and Litigation: In the ordinary course of business, the Company is periodically named as a defendant in various lawsuits, claims and pending actions. The principal risks that the Company insures against are workers' compensation, general liability, vehicle liability, property damage, employment practices, errors and omissions, fiduciary liability and fidelity losses. If a potential loss arising from these lawsuits, claims and actions is probable and reasonably estimable, the Company records the estimated liability based on circumstances and assumptions existing at the time. While the Company believes the recorded liabilities are adequate, there are inherent limitations in the estimation process whereby future actual losses may exceed projected losses, which could materially adversely affect the Company's results of operations or financial condition.

Deferred Taxes: A valuation allowance is recorded to reduce deferred tax assets to the amount that is more likely than not to be realized. As of November 30, 2006, the Company evaluated its deferred tax assets and liabilities and determined that, in accordance with Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes, a valuation allowance is necessary for certain foreign deferred tax asset balances, primarily because of the existence of significant negative objective evidence, such as the fact that certain countries are in a cumulative loss position for the past three years, and the determination that certain net operating loss carryforward periods are not sufficient to realize the related deferred tax assets. The Company factored into its analysis the inherent risk of forecasting revenue and expenses over an extended period of time and also considered the potential risks associated with its business. As a result of this review, the Company concluded that a full valuation allowance was required with respect to deferred tax assets in all but four of its subsidiaries as well as certain U.S. deferred tax assets.

The Company had federal and state tax net operating loss carry-forwards, or NOLs, at November 30, 2006 of approximately \$55.1 million and \$11.0 million, respectively. In calculating the tax provision, and assessing the likelihood that the Company will be able to utilize the deferred tax assets, the Company considered and weighed all of the evidence, both positive and negative, and both objective and subjective. The Company

Edgar Filing: PRICESMART INC - Form 10-Q

factored in the inherent risk of forecasting revenue and expenses over an extended period of time and considered the potential risks associated with its business. Because of the Company's U.S. income from continuing operations and based on projections of future taxable income in the United States, which have increased due to the implementation

Table of Contents

of the Financial Program (as described in Note 8 to the Consolidated Financial Statements for the quarter ended November 30, 2006 included herein), the Company was able to determine that there was sufficient positive evidence to support the conclusion that it was more likely than not that the Company would be able to realize substantially all of its U.S. NOLs by generating taxable income during the carry-forward period. However, if the Company does not achieve its projections of future taxable income in the United States, the Company could be required to take a charge to earnings related to the recoverability of these deferred tax assets. Also, as a result of the Financial Program, the Company has determined that due to the deemed change of ownership (as defined in section 382 of the Internal Revenue Code) in October 2004, there are annual limitations in the amount of U.S. profits that may be offset by NOLs. The NOLs generated prior to the deemed ownership change date, as well as a significant portion of the losses generated as a result of the PSMT Philippines disposal in August 2005, are limited on an annual basis. The Company does not believe this will impact the recoverability of these NOLs. Due to their shorter recovery period and limitations applicable under section 383 of the Internal Revenue code regarding changes of ownership, the Company has maintained valuation allowances on U.S. foreign tax credits (generated before the date of the deemed ownership change) and capital loss carry-forwards.

Merchandise Inventory: The Company records its inventory at the lower of cost (average cost) or market. The Company provides for estimated inventory losses between physical inventory counts on the basis of a percentage of sales. The provision is adjusted periodically (monthly) to reflect the trend of actual physical inventory count results, with physical inventories occurring primarily in the second and fourth fiscal quarters. In addition, the Company monitors slow-moving inventory to determine if provisions should be taken for expected markdowns below the carrying cost of certain inventory to expedite the sale of such merchandise.

Goodwill: Statement of Financial Accounting Standards No. 142, Accounting for Goodwill and Other Intangibles, requires that the Company test goodwill for impairment based on a comparison of fair values to the carrying values of its reporting units (subsidiaries). The determination of fair value for a reporting unit involves the use of assumptions and estimates such as the future performance of the operations of the reporting unit and discount rates used to determine the current value of expected future cash flows of the reporting unit. Any change in these assumptions and estimates, and other factors such as inflation rates, competition and general economic conditions, could cause the calculated fair value of the operating unit to decrease significantly.

Long-lived Assets: The Company periodically evaluates its long-lived assets for indicators of impairment. Management's judgments are based on market and operational conditions at the time of the evaluation and can include management's best estimate of future business activity. These periodic evaluations could cause management to conclude that impairment factors exist, requiring an adjustment of these assets to their then-current fair market value consistent with Financial Accounting Standards Board Statement of Financial Accounting Standard No. 144 (SFAS 144), Accounting for the Impairment or Disposal of Long-Lived Assets. Future business conditions and/or activity could differ materially from the projections made by management causing the need for additional impairment charges. The Company recorded a \$785,000 and \$72,000 impairment charges in the fourth quarter of fiscal 2006 and first quarter of fiscal 2007, respectively, to write-down the long-lived assets of the San Pedro Sula, Honduras location. This is the result of the current location being vacated and moved to another section of the city. The Company also recorded a \$813,000 impairment charge in the fourth quarter of fiscal 2006 to write-down the long-lived assets at the closed Dominican Republic warehouse.

Stock-Based Compensation: As of November 30, 2006, the Company had four stock-based employee compensation plans. In the first quarter of fiscal 2006, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 123R, Share-Based Payments, which revises SFAS 123, Accounting for Stock-Based Compensation. The Company had adopted the fair value based method of recording stock options consistent with SFAS 123 for all employee stock options granted subsequent to fiscal year 2002. Specifically, the Company adopted SFAS 123 using the prospective method with guidance provided from SFAS No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure. All employee stock option grants made or re-priced since the beginning of fiscal 2003 have been or will be expensed over the related stock option vesting period based on the fair value at the date the options are granted. Prior to fiscal 2003, the Company applied Accounting Principles Board Opinion (APB) No. 25, Accounting for Stock Issued to Employees, and related interpretations in accounting for stock options.

Under SFAS 123R, the Company is required to select a valuation technique or option-pricing model that meets the criteria as stated in the standard, which includes a binomial model and the Black-Scholes model. At the present time, the Company is continuing to use the Black-Scholes model. The adoption of SFAS 123R, applying the modified prospective method, as elected by the Company, requires the Company to value stock options granted prior to its adoption of SFAS 123 under the fair value method and expense these amounts over the stock options' remaining vesting period.

Warehouse Closure Costs: The Company provides estimates for warehouse club closing costs when it is appropriate to do so, based on the applicable accounting principles. The Company has established lease obligation liabilities for its closed leased warehouse clubs. The lease obligations are based on the present value of the rent liabilities reduced by the estimated income from the subleasing of these properties. The Company is continually evaluating the adequacy of its closed warehouse club lease obligations based upon the status of existing or potential subleasing activity and makes appropriate adjustments to the lease obligations as a result of these evaluations. Future circumstances may result in the Company's actual future closing costs or the amount recognized upon sale or sublease of the property to differ materially from the original estimates.

Basis of Presentation: The consolidated financial statements include the assets, liabilities and results of operations of the Company's majority and wholly owned subsidiaries that are more than 50% owned and controlled. All significant inter-company balances and transactions have been eliminated in consolidation. The Company's 50% owned Mexico joint venture is accounted for under the equity method of accounting.

Accounting Pronouncements

In September 2006 the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements. SFAS 157 establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement simplifies and codifies related guidance within GAAP. The Company is required to adopt SFAS 157 no later than the Company's fiscal year beginning after November 15, 2007. The Company is currently evaluating the impact, if any, the interpretation will have on its financial statements.

In September 2006 the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin (SAB) No. 108, Section N, Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements. SAB No. 108, Section N provides guidance on the consideration of the effects of prior year misstatements in quantifying current year misstatement for the purpose of a materiality assessment. The Company adopted SAB No. 108, Section N in the first quarter of fiscal 2007. Adoption of SAB No. 108, Section N did not have a material impact on the Company's consolidated financial statements.

In July 2006, the FASB issued FASB Interpretation (FIN) No. 48, Accounting for Uncertainty in Income Taxes , which provides guidance associated with the recognition and measurement of tax positions and related reporting and disclosure requirements. The Company is required to adopt the provisions of FIN 48 beginning in fiscal 2008. The Company is currently evaluating the impact, if any, the interpretation will have on its financial statements.

In May 2005 the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 154, Accounting Changes and Error Corrections, a replacement of APB Opinion No. 20 and FASB Statement No. 3. SFAS 154 requires retrospective application to prior periods' financial statements for changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. SFAS 154 also requires that retrospective application of a change in accounting principle be limited to the direct effects of the change. Indirect effects of a change in accounting principle, such as a change in non-discretionary profit-sharing payments resulting from an accounting change, should be recognized in the period of the accounting change. SFAS 154 also requires that a change in depreciation, amortization, or depletion method for long-lived, non-financial assets be accounted for as a change in accounting estimate affected by a change in accounting principle. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. Early adoption is permitted for accounting changes and corrections of errors made in fiscal years beginning after the date this Statement is issued. The Company adopted the provisions of SFAS 154, as applicable, beginning in fiscal 2007. The adoption of SFAS 54 did not have a material impact on the company's consolidated statements, as no accounting changes and error corrections were applied during the first quarter of fiscal 2007.

The Company, primarily through majority or wholly owned subsidiaries, conducts operations primarily in Central America and the Caribbean, and as such is subject to both economic and political instabilities that cause volatility in foreign currency exchange rates or weak economic conditions. As of November 30, 2006, the Company had a total of 23 consolidated warehouse clubs operating in 11 foreign countries and one U.S. territory, 16 of which operate under currencies other than the U.S. dollar. For the quarters ended November 30, 2006 and 2005, approximately 79% and 78%, respectively, of the Company's net warehouse club sales were in foreign currencies. Also, as of November 30, 2006, the Company had a 50/50 joint venture accounted for under the equity method of accounting, which operates under the Mexican Peso. The Company may enter into additional foreign countries in the future or open additional locations in existing countries, which may increase the percentage of net warehouse club sales denominated in foreign currencies.

Foreign currencies in most of the countries where the Company operates have historically devalued against the U.S. dollar and are expected to continue to devalue. For example, the Dominican Republic experienced a currency devaluation of approximately 81% between the end of the fiscal year ended August 31, 2002 and the end of the year ended August 31, 2003 and 13% (significantly higher at certain points of the year) between the year ended August 31, 2003 and the year ended August 31, 2004. There can be no assurance that the Company will not experience any other materially adverse effects on the Company's business, financial condition, operating results, cash flow or liquidity, from currency devaluations in other countries, as a result of the economic and political risks of conducting an international merchandising business.

Foreign exchange transaction gains/(losses), which are included as a part of the costs of goods sold in the consolidated statement of operations, were approximately \$(160,000) and \$(675,000) for the three months ended November 30, 2006 and 2005, respectively. Translation adjustment gains/(losses) from the Company's share of non-U.S. denominated majority or wholly owned subsidiaries and investment in affiliate, resulting from the translation of the assets and liabilities of these companies into U.S. dollars were \$(31,000) and \$(126,000) for the three months and year ended November 30, 2006 and August 31, 2006, respectively.

The following is a listing of each country or territory where the Company currently operates and their respective currencies, as of November 30, 2006:

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the timelines specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decision regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can only provide reasonable assurance of achieving the desired control objectives, and in reaching a reasonable level of assurance, management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the quarter covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level.

There has been no change in our internal controls over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, the Company and its subsidiaries are subject to legal proceedings, claims and litigation arising in the ordinary course of business, the outcome of which, in the opinion of management, would not have a material adverse effect on the Company. The Company evaluates such matters on a case by case basis, and vigorously contests any such legal proceedings or claims which the Company believes are without merit.

The SEC issued a formal order of private investigation on January 8, 2004 to investigate the circumstances surrounding a financial restatement associated with fiscal year 2002 and the first three quarters of fiscal year 2003. The SEC issued subpoenas to the Company for the production of documents and has taken testimony, pursuant to subpoena, from several of the Company's present and former employees, but to the Company's knowledge there has been no activity relating to this matter for almost two years.

ITEM 1A. RISK FACTORS

There have been no material changes in our risk factors from those disclosed in Part I, Item 1A, of our Annual Report on Form 10-K for the fiscal year ended August 31, 2006.
