Smaller reporting company ☐

CECONY

Large accelerated filer ☐

Accelerated filer ☐

Non-accelerated filer ☒

Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Con Edison

Yes ☐

No ☒

CECONY

Yes ☐

No ☒

As of April 29, 2011, Con Edison had outstanding 292,577,516 Common Shares (\$.10 par value). All of the outstanding common equity of CECONY is held by Con Edison.

Filing Format

This Quarterly Report on Form 10-Q is a combined report being filed separately by two different registrants: Consolidated Edison, Inc. (Con Edison) and Consolidated Edison Company of New York, Inc. (CECONY). CECONY is a subsidiary of Con Edison and, as such, the information in this report about CECONY also applies to Con Edison. As used in this report, the term the Companies refers to Con Edison and CECONY. However, CECONY makes no representation as to the information contained in this report relating to Con Edison or the subsidiaries of Con Edison other than itself.

NJDEP	New Jersey Department of Environmental Protection
NYAG	New York State Attorney General
NYISO	New York Independent System Operator
NYPA	New York Power Authority
NYSDEC	New York State Department of Environmental Conservation
NYSERDA	New York State Energy Research and Development Authority
NYSPSC	New York State Public Service Commission
NYSRC	New York State Reliability Council, LLC
PAPUC	Pennsylvania Public Utility Commission
PJM	PJM Interconnection LLC
SEC	U.S. Securities and Exchange Commission

Accounting

ABO	Accumulated Benefit Obligation
ASU	Accounting Standards Update
FASB	Financial Accounting Standards Board
LILO	Lease In/Lease Out
OCI	Other Comprehensive Income
SFAS	Statement of Financial Accounting Standards
SSCM	Simplified service cost method
VIE	Variable interest entity

Environmental

CO ₂	Carbon dioxide
GHG	Greenhouse gases
MGP Sites	Manufactured gas plant sites
PCBs	Polychlorinated biphenyls
PRP	Potentially responsible party
SO ₂	Sulfur dioxide
Superfund	Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 and similar state statutes

Table of Contents

Units of Measure

dths	Dekatherms
kV	Kilovolts
kWh	Kilowatt-hour
mdths	Thousand dekatherms
MMlbs	Million pounds
MVA	Megavolt amperes
MW	Megawatts or thousand kilowatts
MWH	Megawatt hour

Other

AFDC	Allowance for funds used during construction
COSO	Committee of Sponsoring Organizations of the Treadway Commission
EMF	Electric and magnetic fields
ERRP	East River Repowering Project
Fitch	Fitch Ratings
First Quarter Form 10-Q	The Companies' combined Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2011
Form 10-K	The Companies' combined Annual Report on Form 10-K for the year ended December 31, 2010
LTIP	Long Term Incentive Plan
Moody's	Moody's Investors Service
S&P	Standard & Poor's Rating Services
VaR	Value-at-Risk

Table of Contents

Forward-Looking Statements

This report includes forward-looking statements intended to qualify for the safe-harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are statements of future expectation and not facts. Words such as expects, estimates, anticipates, intends, believes, plans, will and similar expressions identify forward-looking statements. Forward-looking statements are based on information available at the time the statements are made, and accordingly speak only as of that time. Actual results or developments might differ materially from those included in the forward-looking statements because of various factors such as those discussed under Risk Factors in Item 1A of the Form 10-K.

NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED)

General

These combined notes accompany and form an integral part of the separate consolidated financial statements of each of the two separate registrants: Consolidated Edison, Inc. and its subsidiaries (Con Edison) and Consolidated Edison Company of New York, Inc. and its subsidiaries (CECONY). CECONY is a subsidiary of Con Edison and as such its financial condition and results of operations and cash flows, which are presented separately in the CECONY consolidated financial statements, are also consolidated, along with those of Con Edison's other utility subsidiary, Orange and Rockland Utilities, Inc. (O&R), and Con Edison's competitive energy businesses (discussed below) in Con Edison's consolidated financial statements. The term "Utilities" is used in these notes to refer to CECONY and O&R.

As used in these notes, the term "Companies" refers to Con Edison and CECONY and, except as otherwise noted, the information in these combined notes relates to each of the Companies. However, CECONY makes no representation as to information relating to Con Edison or the subsidiaries of Con Edison other than itself.

The separate interim consolidated financial statements of each of the Companies are unaudited but, in the opinion of their respective managements, reflect all adjustments (which include only normally recurring adjustments) necessary for a fair presentation of the results for the interim periods presented. The Companies' separate interim consolidated financial statements should be read together with their separate audited financial statements (including the combined notes thereto) included in Item 8 of their combined Annual Report on Form 10-K for the year ended December 31, 2010 (the Form 10-K). Information in the notes to the consolidated financial statements in the Form 10-K referred to in these notes is incorporated by reference herein. The use of terms such as "see" or "refer to" shall be deemed to incorporate by reference into these notes the information to which reference is made.

Con Edison has two regulated utility subsidiaries: CECONY and O&R. CECONY provides electric service and gas service in New York City and Westchester County. The company also provides steam service in parts of Manhattan. O&R, along with its regulated utility subsidiaries, provides electric service in southeastern New York and adjacent areas of northern New Jersey and eastern Pennsylvania and gas service in southeastern New York and adjacent areas of eastern Pennsylvania. Con Edison has the following competitive energy businesses: Consolidated Edison Solutions, Inc. (Con Edison Solutions), a retail energy services company that sells electricity and also offers energy-related services; Consolidated Edison Energy, Inc. (Con Edison Energy), a wholesale energy supply and services company; and Consolidated Edison Development, Inc. (Con Edison Development), a company that develops and participates in infrastructure projects.

Table of Contents**Note A Summary of Significant Accounting Policies****Earnings Per Common Share**

Reference is made to Earnings Per Common Share in Note A to the financial statements included in Item 8 of the Form 10-K. For the three months ended March 31, 2011 and 2010, Con Edison's basic and diluted EPS for Con Edison are calculated as follows:

<i>(Millions of Dollars, except per share amounts/Shares in Millions)</i>	2011	2010
Net income for common stock	\$ 311	\$ 226
Weighted average common shares outstanding Basic	292.0	281.4
Add: Incremental shares attributable to effect of potentially dilutive securities	1.6	1.3
Adjusted weighted average common shares outstanding Diluted	293.6	282.7
Earnings per Common Share Basic		
Net income for common stock	\$ 1.07	\$ 0.80
Earnings per Common Share Diluted		
Net income for common stock	\$ 1.06	\$ 0.80

Note B Regulatory Matters

Reference is made to Accounting Policies in Note A and Rate Agreements in Note B to the financial statements included in Item 8 of the Form 10-K.

Rate Agreements**O&R Electric**

In April 2011, NYSPSC administrative law judges (ALJ) issued a recommended decision with respect to O&R's July 2010 electric rate filing recommending that the NYSPSC grant the company a \$26.6 million rate increase, effective July 2011. The ALJ's recommended decision reflects a return on common equity of 9.2 percent and a common equity ratio of 49 percent. See Regulatory Matters O&R Electric in Note B to the financial statements in Item 8 of the Form 10-K.

Other Regulatory Matters

In February 2009, the NYSPSC commenced a proceeding to examine the prudence of certain CECONY expenditures (see Investigations of Vendor Payments in Note G). Pursuant to NYSPSC orders, a portion of the company's revenues (currently, \$249 million, \$32 million and \$6 million on an annual basis for electric, gas and steam service, respectively) is being collected subject to potential refund to customers. At March 31, 2011, the company had collected an estimated \$605 million from customers subject to potential refund in connection with this proceeding. In October 2010, a NYSPSC consultant reported its \$21 million provisional assessment, which the company has disputed, of potential overcharges for construction work. The potential overcharges related to transactions that involved certain employees who were arrested and a contractor that performed work for the company. The NYSPSC's consultant is expected to continue to review the company's expenditures. The company is unable to estimate the amount, if any, of any such refund and, accordingly, has not established a regulatory liability for a refund.

In February 2011, the NYSPSC initiated a proceeding to examine the existing mechanisms pursuant to which utilities recover site investigation and remediation costs and possible alternatives. See Note G to the financial statements in Item 8 of the Form 10-K and Note F to the First Quarter Financial Statements.

Table of Contents

Regulatory Assets and Liabilities

Regulatory assets and liabilities at March 31, 2011 and December 31, 2010 were comprised of the following items:

(Millions of Dollars)	Con Edison		CECONY	
	2011	2010	2011	2010
Regulatory assets				
Unrecognized pension and other postretirement costs	\$ 4,074	\$ 4,371	\$ 3,873	\$ 4,152
Future federal income tax	1,622	1,593	1,542	1,515
Environmental remediation costs	693	695	573	574
Surcharge for New York State Assessment	159	121	148	112
Net electric deferrals	134	156	134	156
Pension and other post retirement benefits deferrals	183	138	138	90

Total Regulatory Liabilities	\$ 875	\$ 919	\$ 732	\$ 786

Note C Short-Term Borrowing

Reference is made to Note D to the financial statements in Item 8 of the Form 10-K.

At March 31, 2011, Con Edison had \$464 million of commercial paper outstanding, all of which was outstanding under CECONY's program. The weighted average interest rate was 0.3 percent. At December 31, 2010, Con Edison and CECONY had no commercial paper outstanding.

At March 31, 2011 and December 31, 2010, no loans were outstanding under the Companies' Credit Agreement and \$192 million (including \$142 million for CECONY) and \$197 million (including \$145 million for CECONY) of letters of credit were outstanding under the Credit Agreement, respectively.

Note D Pension Benefits

Reference is made to Note E to the financial statements in Item 8 of the Form 10-K.

Table of Contents

Net Periodic Benefit Cost

The components of the Companies' net periodic benefit costs for the three months ended March 31, 2011 and 2010 were as follows:

(Millions of Dollars)	Con Edison		CECONY	
	2011	2010	2011	2010
Service cost including administrative expenses	\$ 47	\$ 42	\$ 44	\$ 39
Interest cost on projected benefit obligation	140	139	131	130
Expected return on plan assets	(183)	(176)	(175)	(167)
Amortization of net actuarial loss	132	106	125	100
Amortization of prior service costs	2	2	2	2
NET PERIODIC BENEFIT COST	\$ 138	\$ 113	\$ 127	\$ 104
TOTAL PERIODIC BENEFIT COST	\$ 138	\$ 113	\$ 127	\$ 104
Cost capitalized	(48)	(41)	(45)	(39)
Cost deferred	(51)	(23)	(52)	(21)
Cost charged to operating expenses	\$ 39	\$ 49	\$ 30	\$ 44

Expected Contributions

Based on estimates as of March 31, 2011, the Companies are not required under funding regulations and laws to make any contributions to the pension plan during 2011. The Companies' policy is to fund their accounting cost to the extent tax deductible. In 2011, Con Edison expects to make discretionary contributions to the pension plan of \$533 million, of which CECONY contributed \$491 million during the first quarter. The Companies also expect to fund \$11 million for their non-qualified supplemental pension plans in 2011.

Note E Other Postretirement Benefits

Reference is made to Note F to the financial statements in Item 8 of the Form 10-K.

Net Periodic Benefit Cost

The components of the Companies' net periodic postretirement benefit costs for the three months ended March 31, 2011 and 2010 were as follows:

(Millions of Dollars)	Con Edison		CECONY	
	2011	2010	2011	2010
Service cost	\$ 6	\$ 6	\$ 5	\$ 5
Interest cost on accumulated other postretirement benefit obligation	21	23	18	20
Expected return on plan assets	(22)	(22)	(19)	(19)
Amortization of net actuarial loss	22	23	20	21
Amortization of prior service cost	(2)	(3)	(3)	(4)
Amortization of transition obligation	1	1	1	1
NET PERIODIC POSTRETIREMENT BENEFIT COST	\$ 26	\$ 28	\$ 22	\$ 24
Cost capitalized	(9)	(10)	(8)	(9)
Cost deferred	4	(1)	3	(2)
Cost charged to operating expenses	\$ 21	\$ 17	\$ 17	\$ 13

Table of Contents**Expected Contributions**

Based on estimates as of March 31, 2011, Con Edison expects to make a contribution of \$84 million, including \$74 million for CECONY, to the other postretirement benefit plans in 2011.

Note F Environmental Matters**Superfund Sites**

Hazardous substances, such as asbestos, polychlorinated biphenyls (PCBs) and coal tar, have been used or generated in the course of operations of the Utilities and their predecessors and are present at sites and in facilities and equipment they currently or previously owned, including sites at which gas was manufactured or stored.

The Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 and similar state statutes (Superfund) impose joint and several liability, regardless of fault, upon generators of hazardous substances for investigation and remediation costs (which include costs of demolition, removal, disposal, storage, replacement, containment, and monitoring) and natural resource damages. Liability under these laws can be material and may be imposed for contamination from past acts, even though such past acts may have been lawful at the time they occurred. The sites at which the Utilities have been asserted to have liability under these laws, including their manufactured gas plant sites and any neighboring areas to which contamination may have migrated, are referred to herein as Superfund Sites.

For Superfund Sites where there are other potentially responsible parties and the Utilities are not managing the site investigation and remediation, the accrued liability represents an estimate of the amount the Utilities will need to pay to investigate and, where determinable, discharge their related obligations. For Superfund Sites (including the manufactured gas plant sites) for which one of the Utilities is managing the investigation and remediation, the accrued liability represents an estimate of the company's share of undiscounted cost to investigate the sites and, for sites that have been investigated in whole or in part, the cost to remediate the sites, if remediation is necessary and if a reasonable estimate of such cost can be made. Remediation costs are estimated in light of the information available, applicable remediation standards, and experience with similar sites.

The accrued liabilities and regulatory assets related to Superfund Sites at March 31, 2011 and December 31, 2010 were as follows:

<i>(Millions of Dollars)</i>	Con Edison		CECONY	
	2011	2010	2011	2010
Accrued Liabilities:				
Manufactured gas plant sites	\$ 441	\$ 446	\$ 323	\$ 327
Other Superfund Sites	70	66	69	65
Total	\$ 511	\$ 512	\$ 392	\$ 392
Regulatory assets	\$ 691	\$ 692	\$ 571	\$ 571

Most of the accrued Superfund Site liability relates to sites that have been investigated, in whole or in part. However, for some of the sites, the extent and associated cost of the required remediation has not yet been determined. As investigations progress and information pertaining to the required remediation becomes available, the Utilities expect that additional liability may be accrued, the amount of which is not presently determinable but may be material. Under their current rate agreements, the Utilities are permitted to recover or defer as regulatory assets (for subsequent recovery through rates) certain site investigation and remediation costs. In February 2011, the NYSPSC initiated a proceeding to examine the existing mechanisms pursuant to which utilities recover such costs and possible alternatives.

Environmental remediation costs incurred related to Superfund Sites for the three months ended March 31, 2011 and 2010, were as follows:

<i>(Millions of Dollars)</i>	Con Edison		CECONY	
	2011	2010	2011	2010
Remediation costs incurred	\$ 6	\$ 9	\$ 5	\$ 8

There were no insurance recoveries received related to Superfund Sites for the three months ended March 31, 2011. Insurance recoveries related to Superfund Sites for the three months ended March 31, 2010 were immaterial.

Table of Contents

In 2010, CECONY estimated that for its manufactured gas plant sites, its aggregate undiscounted potential liability for the investigation and remediation of coal tar and/or other manufactured gas plant-related environmental contaminants could range up to \$1.9 billion. In 2010, O&R estimated that for its manufactured gas plant sites, each of which has been investigated, the aggregate undiscounted potential liability for the remediation of such contaminants could range up to \$200 million. These estimates were based on the assumption that there is contamination at all sites, including those that have not yet been fully investigated and additional assumptions about the extent of the contamination and the type and extent of the remediation that may be required. Actual experience may be materially different.

Asbestos Proceedings

Suits have been brought in New York State and federal courts against the Utilities and many other defendants, wherein a large number of plaintiffs sought large amounts of compensatory and punitive damages for deaths and injuries allegedly caused by exposure to asbestos at various premises of the Utilities. The suits that have been resolved, which are many, have been resolved without any payment by the Utilities, or for amounts that were not, in the aggregate, material to them. The amounts specified in all the remaining thousands of suits total billions of dollars; however, the Utilities believe that these amounts are greatly exaggerated, based on the disposition of previous claims. In 2010, CECONY estimated that its aggregate undiscounted potential liability for these suits and additional suits that may be brought over the next 15 years is \$10 million. The estimate was based upon a combination of modeling, historical data analysis and risk factor assessment. Actual experience may be materially different. In addition, certain current and former employees have claimed or are claiming workers' compensation benefits based on alleged disability from exposure to asbestos. Under its current rate agreements, CECONY is permitted to defer as regulatory assets (for subsequent recovery through rates) costs incurred for its asbestos lawsuits and workers' compensation claims. The accrued liability for asbestos suits and workers' compensation proceedings (including those related to asbestos exposure) and the amounts deferred as regulatory assets for the Companies at March 31, 2011 and December 31, 2010 were as follows:

(Millions of Dollars)	Con Edison		CECONY	
	2011	2010	2011	2010
Accrued liability - asbestos suits	\$ 10	\$ 10	\$ 10	\$ 10
Regulatory assets - asbestos suits	\$ 10	\$ 10	\$ 10	\$ 10
Accrued liability - workers' compensation	\$ 108	\$ 106	\$ 103	\$ 101
Regulatory assets - workers' compensation	\$ 33	\$ 31	\$ 33	\$ 31

Note G - Other Material Contingencies

Manhattan Steam Main Rupture

In July 2007, a CECONY steam main located in midtown Manhattan ruptured. It has been reported that one person died and others were injured as a result of the incident. Several buildings in the area were damaged. Debris from the incident included dirt and mud containing asbestos. The response to the incident required the closing of several buildings and streets for various periods. Approximately 100 suits are pending against the company seeking generally unspecified compensatory and, in some cases, punitive damages, for personal injury, property damage and business interruption. The company has not accrued a liability for the suits. The company has notified its insurers of the incident and believes that the policies in force at the time of the incident will cover most of the company's costs, which the company is unable to estimate, but which could be substantial, to satisfy its liability to others in connection with the incident.

Investigations of Vendor Payments

In January 2009, CECONY commenced an internal investigation relating to the arrests of certain employees and retired employees (all of whom have since pleaded guilty) for accepting kickbacks from contractors that performed construction work for the company. The company has retained a law firm, which has retained an accounting firm, to assist in the company's investigation. The company is providing information

to governmental authorities, which consider the company to be a victim of unlawful conduct, in connection with their investigation of the arrested

Table of Contents

employees and contractors. The company has terminated its employment of the arrested employees and its contracts with the contractors. In February 2009, the NYSPSC commenced a proceeding that, among other things, will examine the prudence of certain of the company's expenditures relating to the arrests and consider whether additional expenditures should also be examined (see Other Regulatory Matters in Note B).

CECONY is also investigating the September 2010 arrest of a retired employee (who has since pleaded guilty to participating in a bribery scheme in which the employee received payments from two companies that supplied materials to the company) and the January 2011 arrest of an employee (for accepting kickbacks from an engineering firm that performed work for the company). CECONY has provided information to governmental authorities in connection with their ongoing investigations of these matters.

The company, based upon its evaluation of its internal controls for 2010 and previous years, believes that the controls were effective to provide reasonable assurance that its financial statements have been fairly presented, in all material respects, in conformity with generally accepted accounting principles. Because the company's investigations are ongoing, the company is unable to predict the impact of any of the employees' unlawful conduct on the company's internal controls, business, results of operations or financial position.

Lease In/Lease Out Transactions

In each of 1997 and 1999, Con Edison Development entered into a transaction in which it leased property and then immediately subleased it back to the lessor (termed Lease In/Lease Out, or LILO transactions). The transactions respectively involve electric generating and gas distribution facilities in the Netherlands, with a total investment of \$259 million. The transactions were financed with \$93 million of equity and \$166 million of non-recourse, long-term debt secured by the underlying assets. In accordance with the accounting rules for leases, Con Edison is accounting for the two LILO transactions as leveraged leases. Accordingly, the company's investment in these leases, net of non-recourse debt, is carried as a single amount in Con Edison's consolidated balance sheet and income is recognized pursuant to a method that incorporates a level rate of return for those years when net investment in the lease is positive, based upon the after-tax cash flows projected at the inception of the leveraged leases. The company's investment in these leveraged leases was \$(45) million at March 31, 2011 and \$(41) million at December 31, 2010 and is comprised of a \$234 million gross investment less \$279 million deferred tax liabilities at March 31, 2011 and \$235 million gross investment less \$276 million of deferred tax liabilities at December 31, 2010.

On audit of Con Edison's tax return for 1997, the IRS disallowed the tax losses in connection with the 1997 LILO transaction. In December 2005, Con Edison paid a \$0.3 million income tax deficiency asserted by the IRS for the tax year 1997 with respect to the 1997 LILO transaction. In April 2006, the company paid interest of \$0.2 million associated with the deficiency and commenced an action in the United States Court of Federal Claims, entitled Consolidated Edison Company of New York, Inc. v. United States, to obtain a refund of this tax payment and interest. A trial was completed in November 2007. In October 2009, the court issued a decision in favor of the company concluding that the 1997 LILO transaction was, in substance, a true lease that possessed economic substance, the loans relating to the lease constituted bona fide indebtedness, and the deductions for the 1997 LILO transactions claimed by the company in its 1997 federal income tax return are allowable. The IRS is entitled to appeal the decision.

In connection with its audit of Con Edison's federal income tax returns for 1998 through 2007, the IRS disallowed \$416 million of net tax deductions taken with respect to both of the LILO transactions for the tax years. Con Edison is pursuing administrative appeals of these audit level disallowances. In connection with its audit of Con Edison's federal income tax returns for 2009 and 2008, the IRS has disallowed \$41 million and \$42 million, respectively, of net tax deductions taken with respect to both of the LILO transactions. When

Table of Contents

these audit level disallowances become appealable, Con Edison intends to file an appeal of the disallowances.

Con Edison believes that its LILO transactions have been correctly reported, and has not recorded any reserve with respect to the disallowance of tax losses, or related interest, in connection with its LILO transactions. Con Edison's estimated tax savings, reflected in its financial statements, from the two LILO transactions through March 31, 2011, in the aggregate, was \$225 million. If Con Edison were required to repay all or a portion of these amounts, it would also be required to pay interest of up to \$79 million net of tax at March 31, 2011.

Pursuant to the accounting rules for leveraged lease transactions, the expected timing of income tax cash flows generated by Con Edison's LILO transactions are required to be reviewed at least annually. If the expected timing of the cash flows is revised, the rate of return and the allocation of income would be recalculated from the inception of the LILO transactions, and the company would be required to recalculate the accounting effect of the LILO transactions, which would result in a charge to earnings that could have a material adverse effect on the company's results of operations.

Guarantees

Con Edison and its subsidiaries enter into various agreements providing financial or performance assurance primarily to third parties on behalf of their subsidiaries. Maximum amounts guaranteed by Con Edison totaled \$897 million and \$859 million at March 31, 2011 and December 31, 2010, respectively.

A summary, by type (described in Note H to the financial statements in Item 8 of the Form 10-K) and term, of Con Edison's total guarantees at March 31, 2011 is as follows:

Guarantee Type	0 - 3 years	4 - 10 years	> 10 years	Total
	<i>(Millions of Dollars)</i>			
Commodity transactions	\$ 645	\$ 29	\$ 131	\$ 805
Affordable housing program	\$ 1			\$ 1
Intra-company guarantees	\$ 30		\$ 1	\$ 31
Other guarantees	\$ 47	\$ 13		\$ 60
TOTAL	\$ 723	\$ 42	\$ 132	\$ 897

Note H Financial Information by Business Segment

Reference is made to Note N to the financial statements in Item 8 of the Form 10-K.

The financial data for the business segments are as follows:

Table of Contents**Note I Derivative Instruments and Hedging Activities**

Under the accounting rules for derivatives and hedging, derivatives are recognized on the balance sheet at fair value, unless an exception is available under the accounting rules. Certain qualifying derivative contracts have been designated as normal purchases or normal sales contracts. These contracts are not reported at fair value under the accounting rules.

Energy Price Hedging

Con Edison's subsidiaries hedge market price fluctuations associated with physical purchases and sales of electricity, natural gas, and steam by using derivative instruments including futures, forwards, basis swaps, options, transmission congestion contracts and financial transmission rights contracts. The fair values of these hedges at March 31, 2011 and December 31, 2010 were as follows:

<i>(Millions of Dollars)</i>	Con Edison		CECONY	
	2011	2010	2011	2010
Fair value of net derivative assets/(liabilities) - gross	\$ (150)	\$ (261)	\$ (94)	\$ (156)
Impact of netting of cash collateral	137	176	85	104
Fair value of net derivative assets/(liabilities) - net	\$ (13)	\$ (85)	\$ (9)	\$ (52)

Credit Exposure

The Companies are exposed to credit risk related to transactions entered into primarily for the various energy supply and hedging activities by the Utilities and the competitive energy businesses. The Companies use credit policies to manage this risk, including an established credit approval process, monitoring of counterparty limits, netting provisions within agreements, collateral or prepayment arrangements, credit insurance and credit default swaps.

At March 31, 2011, Con Edison and CECONY had

\$178 million and \$44 million of credit exposure in connection with energy supply and hedging activities, net of collateral, respectively. Con Edison's net credit exposure consisted of \$66 million with investment-grade counterparties, \$65 million with commodity exchange brokers, \$45 million with independent system operators and \$2 million with non-investment grade counterparties. CECONY's net credit exposure consisted of \$2 million with investment-grade counterparties and \$42 million with commodity exchange brokers.

Economic Hedges

The Companies enter into certain derivative instruments that do not qualify or are not designated as hedges under the accounting rules for derivatives and hedging. However, management believes these instruments represent economic hedges that mitigate exposure to fluctuations in commodity prices.

Table of Contents

The fair values of the Companies' commodity derivatives at March 31, 2011 were:

(Millions of Dollars)	Fair Value of Commodity Derivatives(a) Balance Sheet Location	Con Edison	CECONY
	Derivative Assets		
Current	Other current assets	\$ 173	\$ 46
Long-term	Other deferred charges and non-current assets	49	21
Total derivative assets		\$ 222	\$ 67
Impact of netting		(75)	(2)
Net derivative assets		\$ 147	\$ 65
	Derivative Liabilities		
Current	Fair value of derivative liabilities	\$ 287	\$
Current	Other current liabilities		115
Long-term	Fair value of derivative liabilities	85	46
Total derivative liabilities		\$ 372	\$ 161
Impact of netting		(212)	(87)
Net derivative liabilities		\$ 160	\$ 74

(a) Qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts, are not reported at fair value under the accounting rules for derivatives and hedging and, therefore, are excluded from the table.

The fair values of the Companies' commodity derivatives at December 31, 2010 were:

(Millions of Dollars)	Fair Value of Commodity Derivatives(a) Balance Sheet Location	Con Edison	CECONY
	Derivative Assets		
Current	Other current assets	\$ 184	\$ 29
Long-term	Other deferred charges and non-current assets	51	19
Total derivative assets		\$ 235	\$ 48
Impact of netting		(129)	
Net derivative assets		\$ 106	\$ 48
	Derivative Liabilities		
Current	Fair value of derivative liabilities	\$ 385	\$
Current	Other current liabilities		148
Long-term	Fair value of derivative liabilities	111	56
Total derivative liabilities		\$ 496	\$ 204
Impact of netting		(305)	(104)
Net derivative liabilities		\$ 191	\$ 100

(a) Qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts, are not reported at fair value under the accounting rules for derivatives and hedging and, therefore, are excluded from the table.

The Utilities generally recover all of their prudently incurred fuel, purchased power and gas cost, including hedging gains and losses, in accordance with rate provisions approved by the applicable state utility commissions. See Recoverable Energy Costs in Note A to the financial statements in Item 8 of the Form 10-K. In accordance with the accounting rules for regulated operations, the Utilities record a regulatory asset or liability to defer recognition of unrealized gains and losses on their electric and gas derivatives. As gains and losses are realized in future periods, they will be recognized as purchased power, gas and fuel costs in the Companies' consolidated income statements. Con Edison's competitive energy businesses record realized and unrealized gains and losses on their derivative contracts in earnings in the reporting period in which they occur.

Table of Contents

The following table presents the changes in the fair values of commodity derivatives that have been deferred or recognized in earnings for the three months ended March 31, 2011:

Realized and Unrealized Gains/(Losses) on Commodity Derivatives(a)

Deferred or Recognized in Income for the three months ended March 31, 2011

(Millions of Dollars)	Balance Sheet Location	Con Edison	CECONY
Pre-tax gains/(losses) deferred in accordance with accounting rules for regulated operations:			
Current	Deferred derivative gains	\$ 6	\$ 5
Long-term	Regulatory liabilities	3	3
Total deferred gains		\$ 9	\$ 8
Current	Deferred derivative losses	\$ 17	\$ 11
Current	Recoverable energy costs	(49)	(42)
Long-term	Regulatory assets	44	35
Total deferred losses		\$ 12	\$ 4
Net deferred losses		\$ 21	\$ 12
Income Statement Location			
Pre-tax gain/(loss) recognized in income			
	Purchased power expense	\$ (21)(b)	\$
	Gas purchased for resale	(6)	
	Non-utility revenue	10(b)	
Total pre-tax gain/(loss) recognized in income		\$ (17)	\$

(a) Qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts, are not reported at fair value under the accounting rules for derivatives and hedging and, therefore, are excluded from the table.

(b) For the three months ended March 31, 2011 Con Edison recorded in non-utility operating revenues and purchased power expense an unrealized pre-tax (loss)/gain of \$(13) million and \$50 million, respectively.

The following table presents the changes in the fair values of commodity derivatives that have been deferred or recognized in earnings for the three months ended March 31, 2010:

Realized and Unrealized Gains/(Losses) on Commodity Derivatives(a)

Deferred or Recognized in Income for the Three Months Ended March 31, 2010

(Millions of Dollars)	Balance Sheet Location	Con Edison	CECONY
Pre-tax gains/(losses) deferred in accordance with accounting rules for regulated operations:			
Current	Deferred derivative gains	\$ (6)	\$ (6)
Total deferred gains		\$ (6)	\$ (6)
Current	Deferred derivative losses	\$ (161)	\$ (138)
Current	Recoverable energy costs	\$ (55)	\$ (42)
Long-term	Regulatory assets	\$ (74)	\$ (56)
Total deferred losses		\$ (290)	\$ (236)
Net deferred losses		\$ (296)	\$ (242)
Income Statement Location			
Pre-tax gain/(loss) recognized in income			
	Purchased power expense	\$ (70)(b)	\$
	Gas purchased for resale	5	
	Non-utility revenue	14(b)	
Total pre-tax gain/(loss) recognized in income		\$ (51)	\$

(a) Qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts, are not reported at fair value under the accounting rules for derivatives and hedging and, therefore, are excluded from the table.

(b) For the three months ended March 31, 2010, Con Edison recorded in non-utility operating revenues and purchased power expense an unrealized pre-tax gain/(loss) of \$46 million and \$(110) million, respectively.

Table of Contents

As of March 31, 2011, Con Edison had 1,664 contracts, including 686 CECONY contracts, which were considered to be derivatives under the accounting rules for derivatives and hedging (excluding qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts). The following table presents the number of contracts by commodity type:

	Electric Derivatives				Gas Derivatives		Total Number Of Contracts ^(a)
	Number of Energy Contracts ^(a)	MWhs ^(b)	Number of Capacity Contracts ^(a)	MWs ^(b)	Number of Contracts ^(a)	Dths ^(b)	
Con Edison	915	20,692,742	63	10,164	686	118,524,450	1,664
CECONY	183	5,332,425			503	109,330,000	686

(a) Qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts, are not reported at fair value under the accounting rules for derivatives and hedging and, therefore, are excluded from the table.

(b) Volumes are reported net of long and short positions.

The Companies also enter into electric congestion and gas basis swap contracts to hedge the congestion and transportation charges which are associated with electric and gas contracts and hedged volumes.

The collateral requirements associated with, and settlement of, derivative transactions are included in net cash flows from operating activities in the Companies' consolidated statement of cash flows. Most derivative instrument contracts contain provisions that may require the Companies to provide collateral on derivative instruments in net liability positions. The amount of collateral to be provided will depend on the fair value of the derivative instruments and the Companies' credit ratings.

The aggregate fair value of all derivative instruments with credit-risk-related contingent features that are in a net liability position and collateral posted at March 31, 2011, and the additional collateral that would have been required to be posted had the lowest applicable credit rating been reduced one level and to below investment grade were:

(Millions of Dollars)	Con Edison ^(a)	CECONY ^(a)
Aggregate fair value net liabilities	\$ 172	\$ 92
Collateral posted	\$ 68	\$ 51 ^(b)
Additional collateral ^(c) (downgrade one level from current ratings(d))	\$ 11	\$ 6
Additional collateral ^(c) (downgrade to below investment grade from current ratings(d))	\$ 140 ^(e)	\$ 52 ^(e)

(a) Non-derivative transactions for the purchase and sale of electricity and gas and qualifying derivative instruments, which have been designated as normal purchases or normal sales, are excluded from the table. These transactions primarily include purchases of electricity from independent system operators. In the event the Utilities and Con Edison's competitive energy businesses were no longer extended unsecured credit for such purchases, the Companies would be required to post collateral, which at March 31, 2011, would have amounted to an estimated \$127 million for Con Edison, including \$33 million for CECONY. For certain other such non-derivative transactions, the Companies could be required to post collateral under certain circumstances, including in the event counterparties had reasonable grounds for insecurity.

(b) Across the Utilities' energy derivative positions, credit limits for the same counterparties are generally integrated. At March 31, 2011, the Utilities posted combined collateral of \$68 million, including an estimated \$17 million attributable to O&R.

(c) The Companies measure the collateral requirements by taking into consideration the fair value amounts of derivative instruments that contain credit-risk-related contingent features that are in a net liabilities position plus amounts owed to counterparties for settled transactions and amounts required by counterparties for minimum financial security. The fair value amounts represent unrealized losses, net of any unrealized gains where the Companies have a legally enforceable right of setoff.

(d) The current ratings are Moody's, S&P and Fitch long-term credit rating of, as applicable, Con Edison (Baa1/BBB+/BBB+), CECONY (A3/A-/A-) or O&R (Baa1/A-/A-). Credit ratings assigned by rating agencies are expressions of opinions that are subject to revision or withdrawal at any time by the assigning rating agency.

Edgar Filing: CONSOLIDATED EDISON CO OF NEW YORK INC - Form 10-Q

- (e) Derivative instruments that are net assets have been excluded from the table. At March 31, 2011, if Con Edison had been downgraded to below investment grade, it would have been required to post additional collateral for such derivative instruments of not more than \$24 million.

Table of Contents**Interest Rate Swap**

O&R has an interest rate swap pursuant to which it pays a fixed-rate of 6.09 percent and receives a LIBOR-based variable rate. The fair value of this interest rate swap at March 31, 2011 was an unrealized loss of \$10 million, which has been included in Con Edison's consolidated balance sheet as a noncurrent liability/fair value of derivative liabilities and a regulatory asset. The change in the fair value of the swap for the three months ended March 31, 2011 was not material. In the event O&R's credit rating was downgraded to BBB- or lower by S&P or Baa3 or lower by Moody's, the swap counterparty could elect to terminate the agreement and, if it did so, the parties would then be required to settle the transaction.

Note J Fair Value Measurements

Reference is made to Note P to the financial statements in Item 8 of the Form 10-K.

Assets and liabilities measured at fair value on a recurring basis as of March 31, 2011 are summarized below.

(Millions of Dollars)	Netting									
	Level 1		Level 2		Level 3		Adjustments (4)		Total	
	Con Edison	CECONY	Con Edison	CECONY	Con Edison	CECONY	Con Edison	CECONY	Con Edison	CECONY
Derivative assets:										
Commodity (1)	\$ 2	\$ 1	\$ 71	\$ 27	\$ 140	\$ 23	\$ (67)	\$ 14	\$ 146	\$ 65
Other assets (3)	68	68			105	95			173	163
Total	\$ 70	\$ 69	\$ 71	\$ 27	\$ 245	\$ 118	\$ (67)	\$ 14	\$ 319	\$ 228
Derivative liabilities:										
Commodity	\$ 3	\$ 1	\$ 184	\$ 118	\$ 176	\$ 26	\$ (204)	\$ (71)	\$ 159	\$ 74

Total	\$ 3	\$ 1	\$ 189	\$ 123	\$ 181	\$ 21	\$ (204)	\$ (71)	\$ 169	\$ 74

- (1) A significant portion of the commodity derivative contracts categorized in Level 3 is valued using either an industry acceptable model or an internally developed model with observable inputs. The models also include some less readily observable inputs resulting in the classification of the entire contract as Level 3. See Note I.
- (2) See Note I.
- (3) Other assets are comprised of assets such as life insurance contracts within the Deferred Income Plan and Supplemental Retirement Income Plans, held in rabbi trusts.
- (4) Amounts represent the impact of legally-enforceable master netting agreements that allow the Companies to net gain and loss positions and cash collateral held or placed with the same counterparties.
- (5) The Companies' policy is to recognize transfers into and transfers out of the levels at the end of the reporting period.
- (6) Transferred from Level 3 to Level 2 because of availability of observable market data due to decrease in the terms of certain contracts from beyond one year as of December 31, 2010 to less than one year as of March 31, 2011.

Table of Contents

Assets and liabilities measured at fair value on a recurring basis as of December 31, 2010 are summarized below.

(Millions of Dollars)	Netting									
	Level 1		Level 2		Level 3		Adjustments (4)		Total	
	Con Edison	CECONY	Con Edison	CECONY	Con Edison	CECONY	Con Edison	CECONY	Con Edison	CECONY

Other assets(1)	83		1						84
Total	\$ 78	\$ (5)	\$ (32)	\$	\$	\$	\$ (5)	\$	\$ 36

(1) Amounts included in earnings are reported in investment and other income on the consolidated income statement.

For the Utilities, realized gains and losses on Level 3 commodity derivative assets and liabilities are reported as part of purchased power, gas and fuel costs. The Utilities generally recover these costs in accordance with rate provisions approved by the applicable state public utilities commissions. See Note A to the financial statements in Item 8 of the Form 10-K. Unrealized gains and losses for commodity derivatives are generally deferred on the consolidated balance sheet in accordance with the accounting rules for regulated operations.

For the competitive energy businesses, realized and unrealized gains and losses on Level 3 commodity derivative assets and liabilities are reported in non-utility revenues (\$2 million loss and \$60 million gain) and purchased power costs (\$41 million gain and \$89 million loss) on the consolidated income statement for the three months ended March 31, 2011 and 2010, respectively. The change in fair value relating to Level 3 commodity derivative assets held at March 31, 2011 and 2010 is included in non-utility revenues (\$12 million loss and \$46 million gain), and purchased power costs (\$29 million gain and \$71 million loss) on the consolidated income statement for the three months ended March 31, 2011 and 2010, respectively.

The accounting rules for fair value measurements and disclosures require consideration of the impact of nonperformance risk (including credit risk) from a market participant perspective in the measurement of the fair value of assets and liabilities. At March 31, 2011, the Companies determined that nonperformance risk would have no material impact on their financial position or results of operations. To assess nonperformance risk, the Companies considered information such as collateral requirements, master netting arrangements, letters of credit and parent company guarantees, and applied a market-based method by using the counterparty's (for an asset) or the Companies' (for a liability) credit default swaps rates.

Table of Contents

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

This combined management's discussion and analysis of financial condition and results of operations (MD&A) relates to the consolidated financial statements (the First Quarter Financial Statements) included in this report of two separate registrants: Consolidated Edison, Inc. (Con Edison) and Consolidated Edison Company of New York, Inc. (CECONY) and should be read in conjunction with the financial statements and the notes thereto. As used in this report, the term the Companies refers to Con Edison and CECONY. CECONY is a subsidiary of Con Edison and, as such, information in this MD&A about CECONY applies to Con Edison.

This MD&A should be read in conjunction with the First Quarter Financial Statements and the notes thereto and the MD&A in Item 7 of the Companies' combined Annual Report on Form 10-K for the year ended December 31, 2010 (File Nos. 1-14514 and 1-1217, the Form 10-K).

Information in any item of this report referred to in this discussion and analysis is incorporated by reference herein. The use of terms such as see or refer to shall be deemed to incorporate by reference into this discussion and analysis the information to which reference is made.

Con Edison, incorporated in New York State in 1997, is a holding company which owns all of the outstanding common stock of CECONY, Orange and Rockland Utilities, Inc. (O&R) and the competitive energy businesses. As used in this report, the term the Utilities refers to CECONY and O&R.

CECONY's principal business operations are its regulated electric, gas and steam delivery businesses. O&R's principal business operations are its regulated electric and gas delivery businesses. The competitive energy businesses sell electricity to wholesale and retail customers, provide certain energy-related services, and participate in energy infrastructure projects. Con Edison is evaluating additional opportunities to invest in electric and gas-related businesses.

Con Edison's strategy is to provide reliable energy services, maintain public and employee safety, promote energy efficiency, and develop cost-effective ways of performing its business. Con Edison seeks to be a responsible steward of the environment and enhance its relationships with customers, regulators and members of the communities it serves.

Table of Contents**CECONY****Electric**

CECONY provides electric service to approximately 3.3 million customers in all of New York City (except part of Queens) and most of Westchester County, an approximately 660 square mile service area with a population of more than nine million.

Gas

CECONY delivers gas to approximately 1.1 million customers in Manhattan, the Bronx and parts of Queens and Westchester County.

Steam

CECONY operates the largest steam distribution system in the United States by producing and delivering more than 23,000 MMlbs of steam annually to approximately 1,760 customers in parts of Manhattan.

O&R**Electric**

O&R and its utility subsidiaries, Rockland Electric Company (RECO) and Pike County Power & Light Company (Pike) (together referred to herein as O&R) provide electric service to approximately 0.3 million customers in southeastern New York and in adjacent areas of northern New Jersey and northeastern Pennsylvania, an approximately 1,350 square mile service area.

Gas

O&R delivers gas to over 0.1 million customers in southeastern New York and adjacent areas of northeastern Pennsylvania.

Competitive Energy Businesses

Con Edison pursues competitive energy opportunities through three wholly-owned subsidiaries: Con Edison Solutions, Con Edison Energy and Con Edison Development. These businesses include the sales and related hedging of electricity to wholesale and retail customers, sales of certain energy-related products and services, and participation in energy infrastructure projects. At March 31, 2011, Con Edison's equity investment in its competitive energy businesses was \$361 million and their assets amounted to \$841 million.

Certain financial data of Con Edison's businesses is presented below:

	Three months ended				At March 31,	
	March 31, 2011		March 31, 2011		2011	
(Millions of Dollars, except percentages)	Operating Revenues		Net Income for Common Stock		Assets	
CECONY	\$ 2,709	81%	\$ 268	86%	\$ 32,396	90%
O&R	241	7%	19	6%	2,318	6%
Total Utilities	2,950	88%	287	92%	34,714	96%
Con Edison Solutions (a)	344	10%	27	9%	280	1%
Con Edison Energy (a)	66	2%		%	77	%
Con Edison Development	1	%		%	484	1%
Other(b)	(12)	%	(3)	(1)%	631	2%
Total Con Edison	\$ 3,349	100%	\$ 311	100%	\$ 36,186	100%

(a)

Edgar Filing: CONSOLIDATED EDISON CO OF NEW YORK INC - Form 10-Q

Net income from the competitive energy businesses for the three months ended March 31, 2011 includes \$22 million of net after-tax mark-to-market gains (Con Edison Solutions, \$20 million and Con Edison Energy, \$2 million).

(b) Represents inter-company and parent company accounting. See Results of Operations, below.

Con Edison's net income for common stock for the three months ended March 31, 2011 was \$311 million or \$1.07 a share (\$1.06 on a diluted basis) compared with \$226 million or \$0.80 a share (basic and diluted basis) for the three months ended March 31, 2010. See Results of Operations Summary, below. For segment financial information, see Note H to the First Quarter Financial Statements and Results of Operations, below.

Table of Contents**Results of Operations Summary**

Net income for common stock for the three months ended March 31, 2011 and 2010 was as follows:

<i>(Millions of Dollars)</i>	2011	2010
CECONY	\$ 268	\$ 243
O&R	19	13
Competitive energy businesses(a)	27	(28)
Other(b)	(3)	(2)
Con Edison	\$ 311	\$ 226

(a) Includes \$22 million and \$(38) million of net after-tax mark-to-market gains/(losses) in the three months ended March 31, 2011 and 2010, respectively.

(b) Consists of inter-company and parent company accounting.

The Companies' results of operations for the three months ended March 31, 2011, as compared with the 2010 period, reflect changes in the Utilities' rate plans. These rate plans provide for additional revenues to cover expected increases in certain operations and maintenance expenses and depreciation and property taxes. The results of operations include the operating results of the competitive energy businesses, including net mark-to-market effects.

Operations and maintenance expenses were lower in the three months ended March 31, 2011 compared with the 2010 period reflecting lower costs for employee health insurance, demand management programs and savings from cost control efforts, offset in part by winter storm related emergency response costs and higher regulatory assessments in the 2011 period. Depreciation and property taxes were higher in the 2011 period reflecting primarily the impact from higher utility plant balances.

The following table presents the estimated effect on earnings per share and net income for common stock for the three months ended March 31, 2011 as compared with the 2010 period, resulting from these and other major factors:

	Earnings per Share	Net Income for Common Stock (Millions of Dollars)
CECONY		
Rate plans, primarily to recover increases in certain costs	\$ 0.18	\$ 51
Operations and maintenance expense	0.02	7
Depreciation, property taxes and other tax matters	(0.10)	(29)
Net interest expense	0.01	4
Other (includes dilutive effect of new stock issuances)	(0.05)	(8)
Total CECONY	0.06	25
O&R	0.02	6
Competitive energy businesses		
Earnings excluding net mark-to-market effects	(0.02)	(5)
Net mark-to-market effects	0.21	60
Total competitive energy businesses	0.19	55
Other, including parent company expenses		(1)
Total variations	\$ 0.27	\$ 85

See Results of Operations below for further discussion and analysis of results of operations.

Risk Factors

The Companies' businesses are influenced by many factors that are difficult to predict, and that involve uncertainties that may materially affect actual operating results, cash flows and financial condition. See "Risk Factors" in Item 1A of the Form 10-K.

Table of Contents**Application of Critical Accounting Policies**

The Companies' financial statements reflect the application of their accounting policies, which conform to accounting principles generally accepted in the United States of America. The Companies' critical accounting policies include industry-specific accounting applicable to regulated public utilities and accounting for pensions and other postretirement benefits, contingencies, long-lived assets, derivative instruments, goodwill and leases. See "Application of Critical Accounting Policies" in Item 7 of the Form 10-K.

Liquidity and Capital Resources

The Companies' liquidity reflects cash flows from operating, investing and financing activities, as shown on their respective consolidated statement of cash flows and as discussed below. See "Liquidity and Capital Resources" in Item 7 of the Form 10-K.

Changes in the Companies' cash and temporary cash investments resulting from operating, investing and financing activities for the three months ended March 31, 2011 and 2010 are summarized as follows:

Con Edison

<i>(Millions of Dollars)</i>	2011	2010	Variance
Operating activities	\$ 362	\$ 1	\$ 361
Investing activities	(496)	(460)	(36)
Financing activities	312	286	26

Cash Flows from Operating Activities

The Utilities' cash flows from operating activities reflect principally their energy sales and deliveries and cost of operations. The volume of energy sales and deliveries is dependent primarily on factors external to the Utilities, such as growth of customer demand, weather, market prices for energy, economic conditions and measures that promote energy efficiency. Under the revenue decoupling mechanisms in CECONY's electric and gas rate plans and O&R's New York electric and gas rate plans, changes in delivery volumes from levels assumed when rates were approved may affect the timing of cash flows but not net income. See Note B to the financial statements in Item 8 of the Form 10-K. The prices at which the Utilities provide energy to their customers are determined in accordance with their rate agreements. In general, changes in the Utilities' cost of purchased power, fuel and gas may affect the timing of cash flows but not net income because the costs are recovered in accordance with rate agreements. See "Recoverable Energy Costs" in Note A to the financial statements in Item 8 of the Form 10-K.

Edgar Filing: CONSOLIDATED EDISON CO OF NEW YORK INC - Form 10-Q

Net income is the result of cash and non-cash (or accrual) transactions. Only cash transactions affect the Companies' cash flows from operating activities. Principal non-cash charges include depreciation, deferred income tax expense and net derivative losses. Non-cash charges or credits may also be accrued under the revenue decoupling and cost reconciliation mechanisms in the Utilities' electric and gas rate plans in New York. See "Rate Agreements" in Note B to the financial statements in Item 8 of the Form 10-K.

Table of Contents

Net cash flows from operating activities for the three months ended March 31, 2011 for Con Edison and CECONY were \$361 million and \$50 million higher, respectively, than in the 2010 period. For Con Edison, this increase reflects primarily the receipt of refunds in 2011, at the parent company, for estimated federal income tax payments made in 2010 by the company prior to the determination that the company had no current federal income tax liability for 2010. For Con Edison, this increase also reflects lower cash collateral paid to brokers and counterparties generally reflecting higher commodity prices for derivative transactions.

The change in net cash flows also reflects the timing of payments for and recovery of energy costs. This timing is reflected within changes to accounts receivable customers, recoverable energy costs and accounts payable balances.

Cash Flows Used in Investing Activities

Net cash flows used in investing activities for Con Edison and CECONY were \$36 million higher and \$28 million lower, respectively, for the three months ended March 31, 2011 compared with the 2010 period. The increase for Con Edison reflects primarily a loan to an affiliate for a solar project offset in part by lower construction expenditures in the 2011 period. The decrease for CECONY reflects primarily lower construction expenditures in the 2011 period.

Cash Flows from Financing Activities

Net cash flows from financing activities for Con Edison increased \$26 million in the three months ended March 31, 2011 compared with the 2010 period. Net cash flows from financing activities for CECONY decreased \$26 million in the three months ended March 31, 2011 compared with the 2010 period.

Cash flows from financing activities for the three months ended March 31, 2011 and 2010 reflect the issuance of Con Edison common shares through its dividend reinvestment and employee stock plans (2011: 0.7 million shares for \$25 million, 2010: 0.6 million shares for \$14 million). In addition, as a result of the stock plan issuances, cash used to pay common stock dividends was reduced by \$3 million and \$12 million in the 2011 and 2010 periods, respectively.

Cash flows from financing activities of the Companies also reflect commercial paper issuance (included on the consolidated balance sheets as Notes payable). The commercial paper amounts outstanding at March 31, 2011 and March 31, 2010 and the average daily balances for the three months ended March 31, 2011 and 2010 for Con Edison and CECONY were as follows:

(Millions of Dollars, except Weighted Average Yield)	2011		2010	
	Outstanding at March 31	Daily average	Outstanding at March 31	Daily average
Con Edison	\$ 464	\$ 140	\$ 475	\$ 297
CECONY	\$ 464	\$ 140	\$ 475	\$ 296
Weighted average yield	0.3%	0.3%	0.3%	0.3%

Common stock issuances and external borrowings are sources of liquidity that could be affected by changes in credit ratings, financial performance and capital market conditions.

Table of Contents**Other Changes in Assets and Liabilities**

The following table shows changes in certain assets and liabilities at March 31, 2011, compared with December 31, 2010.

	Con Edison 2011 vs. 2010	CECONY 2011 vs. 2010
<i>(Millions of Dollars)</i>	Variance	Variance
Assets		
Prepayments	\$ 217	\$ 291
Regulatory asset Unrecognized pension and other postretirement costs	(297)	(279)
Accrued unbilled revenue	(220)	(185)
Liabilities		
Deferred income taxes and investment tax credits	269	238
Pension and retiree benefits	(628)	(620)
Regulatory liability Net unbilled revenue	(103)	(103)

Prepayments and Deferred Income Taxes and Investment Tax Credits

The increase in prepayments for Con Edison and CECONY, reflects primarily CECONY's January 2011 payment of its New York City semi-annual property taxes, offset by three months of amortization, while the December 2010 balance reflects a full amortization of the previous semi-annual prepayment. For Con Edison, this increase is offset by the receipt of refunds in 2011 for estimated federal income tax payments made in 2010 by the company prior to the determination that the company had no current federal income tax liability for 2010. See Cash Flows from Operating Activities, above.

The increase in the liability for deferred income taxes and investment tax credits reflects the timing of the deduction of expenditures for utility plant which resulted in amounts being collected from customers to pay income taxes in advance of when the income tax payments will be required. See Cash Flows from Operating Activities, above.

Accrued Unbilled Revenues/Net Unbilled Revenues

The decrease in accrued unbilled revenues and the regulatory liability for net unbilled revenues reflects primarily the colder weather in December 2010 compared with March 2011.

Regulatory Asset for Unrecognized Pension and Other Postretirement Costs and Noncurrent Liability for Pension and Retiree Benefits

The decreases in the regulatory asset for unrecognized pension and other postretirement benefit costs and the noncurrent liability for pension and retiree benefits reflect the final actuarial valuation of the underfunding of the pension and other retiree benefit plans as measured at December 31, 2010, in accordance with the accounting rules for pensions and the year's amortization of accounting costs. The decrease in the noncurrent liability for pension and retiree benefits also reflects the contributions to the pension plan made by CECONY in 2011. See Notes E and F to the First Quarter Financial Statements.

Capital Requirements and Resources

At March 31, 2011, there was no material change in the Companies' capital requirements and resources compared to those disclosed under Capital Requirements and Resources - Capital Resources in Item 1 of the Form 10-K, other than as described below.

Table of Contents

For each of the Companies, the ratio of earnings to fixed charges (Securities and Exchange Commission basis) for the three months ended March 31, 2011 and 2010 and the twelve months ended December 31, 2010 was:

	Earnings to Fixed Charges (Times)		
	For the Three Months Ended March 31, 2011	For the Three Months Ended March 31, 2010	For the Twelve Months Ended December 31, 2010
Con Edison	3.9	3.1	3.3
CECONY	3.9	3.7	3.4

For each of the Companies, the common equity ratio at March 31, 2011 and December 31, 2010 was:

	Common Equity Ratio	
	(Percent of total capitalization)	
	March 31, 2011	December 31, 2010
Con Edison	50.8	50.4
CECONY	50.2	49.9

Contractual Obligations

At March 31, 2011, there were no material changes in the Companies' aggregate obligation to make payments pursuant to contracts compared to those discussed under Capital Requirements and Resources Contractual Obligations in Item 1 of the Form 10-K.

Regulatory Matters

For Information about the Utilities' rate plans and other regulatory matters affecting the Companies, see Utility Regulation in Item 1 of the Form 10-K and Rate Agreements in Note B to the financial statements in Item 8 of the Form 10-K and Note B to the First Quarter Financial Statements.

Financial and Commodity Market Risks

The Companies are subject to various risks and uncertainties associated with financial and commodity markets. The most significant market risks include interest rate risk, commodity price risk, credit risk and investment risk. At March 31, 2011, there were no material changes in the Companies' financial and commodity market risks compared to those discussed under Financial and Commodity Market Risks in Item 7 of the Form 10-K, other than as described below and in Note I to the First Quarter Financial Statements.

Commodity Price Risk

Con Edison's commodity price risk relates primarily to the purchase and sale of electricity, gas and related derivative instruments. The Utilities and Con Edison's competitive energy businesses have risk management strategies to mitigate their related exposures. See Note I to the First Quarter Financial Statements.

Con Edison estimates that, as of March 31, 2011, a 10 percent decline in market prices would result in a decline in fair value of \$107 million for the derivative instruments used by the Utilities to hedge purchases of electricity and gas, of which \$88 million is for CECONY and \$19 million is for O&R. Con Edison expects that any such change in fair value would be largely offset by directionally opposite changes in the cost of the electricity and gas purchased. In accordance with provisions approved by state regulators, the Utilities generally recover from customers the costs they incur for energy purchased for their customers, including gains and losses on certain derivative instruments used to hedge energy purchased and related costs. See Recoverable Energy Costs in Note A to the financial statements in Item 8 of the Form 10-K.

Con Edison's competitive energy businesses use a value-at-risk (VaR) model to assess the market risk of their electricity and gas commodity fixed-price purchase and sales commitments, physical forward contracts and commodity derivative instruments. VaR represents the potential change in fair value of instruments or the portfolio due to changes in market factors, for a specified time period and confidence level. These businesses estimate VaR across their electricity and natural gas commodity businesses using a delta-normal variance/covariance model with a 95

percent confidence level. Since the VaR calculation involves complex methodologies and estimates and assumptions that are based on past experience, it is not necessarily indicative of future results. VaR for transactions associated with hedges on generating assets and commodity contracts, assuming a one-day holding

Table of Contents

period, for the three months ended March 31, 2011 and the year ended December 31, 2010 was as follows:

	March 31, 2011	December 31, 2010
	<i>(Millions of Dollars)</i>	
95% Confidence Level, One-Day Holding Period		
Average for the period	\$ 1	\$ 1
High	1	1
Low		

Credit Risk

The Companies are exposed to credit risk related to transactions entered into primarily for the various energy supply and hedging activities by the Utilities and the competitive energy businesses. Credit risk relates to the loss that may result from a counterparty's nonperformance. The Companies use credit policies to manage this risk, including an established credit approval process, monitoring of counterparty limits, netting provisions within agreements and collateral or prepayment arrangements, credit insurance and credit default swaps. The Companies measure credit risk exposure as the replacement cost for open energy commodity and derivative positions plus amounts owed from counterparties for settled transactions. The replacement cost of open positions represents unrealized gains, net of any unrealized losses where the Companies have a legally enforceable right of setoff. See Credit Exposure in Note I to the First Quarter Financial Statements.

Environmental Matters

For information concerning climate change, environmental sustainability, potential liabilities arising from laws and regulations protecting the environment and other environmental matters, see Environmental Matters in Item 1 of the Form 10-K and Notes F and G to the First Quarter Financial Statements.

Impact of Inflation

The Companies are affected by the decline in the purchasing power of the dollar caused by inflation. Regulation permits the Utilities to recover through depreciation only the historical cost of their plant assets even though in an inflationary economy the cost to replace the assets upon their retirement will substantially exceed historical costs. The impact is, however, partially offset by the repayment of the Companies' long-term debt in dollars of lesser value than the dollars originally borrowed.

Material Contingencies

For information concerning potential liabilities arising from the Companies' material contingencies, see Application of Critical Accounting Policies Accounting for Contingencies, in Item 7 of the Form 10-K and Notes B, G and H to the First Quarter Financial Statements.

Results of Operations

See Results of Operations Summary, above.

Results of operations reflect, among other things, the Companies' accounting policies (see Application of Critical Accounting Policies, in Item 7 of the Form 10-K) and rate plans that limit the rates the Utilities can charge their customers (see Utility Regulation in Item 1 of the Form 10-K). Under the revenue decoupling mechanisms currently applicable to CECONY's electric and gas businesses and O&R's electric and gas businesses in New York, the Utilities' delivery revenues generally will not be affected by changes in delivery volumes from levels assumed when rates were approved. Revenues for CECONY's steam business and O&R's businesses in New Jersey and Pennsylvania are affected by changes in delivery volumes resulting from weather, economic conditions and other factors. See Note B to the First Quarter Financial Statements.

In general, the Utilities recover on a current basis the fuel, gas purchased for resale and purchased power costs they incur in supplying energy to their full-service customers (see Recoverable Energy Costs in Note A and Regulatory Matters in Note B to the financial statements in Item 8 of the Form 10-K). Accordingly, such costs do not generally affect the Companies' results of operations. Management uses the term net revenues (operating revenues less such costs) to identify changes in operating revenues that may affect the Companies' results of operations. Management believes that, although net revenues may not be a measure determined in accordance with accounting

Table of Contents

principles generally accepted in the United States of America, the measure facilitates the analysis by management and investors of the Companies' results of operations.

Con Edison's principal business segments are CECONY's regulated electric, gas and steam utility activities, O&R's regulated electric and gas utility activities and Con Edison's competitive energy businesses. CECONY's principal business segments are its regulated electric, gas and steam utility activities. A discussion of the results of operations by principal business segment for the three months ended March 31, 2011 and 2010 follows. For additional business segment financial information, see Note H to the First Quarter Financial Statements.

Three Months Ended March 31, 2011 Compared with Three Months Ended March 31, 2010

The Companies' results of operations in 2011 compared with 2010 were:

Table of Contents**Electric**

CECONY's results of electric operations for the three months ended March 31, 2011 compared with the 2010 period is as follows:

(Millions of Dollars)	Three Months Ended		Variation
	March 31, 2011	March 31, 2010	
Operating revenues	\$ 1,721	\$ 1,728	\$ (7)
Purchased power	464	529	(65)
Fuel	76	60	16
Net revenues	1,181	1,139	42
Operations and maintenance	459	468	(9)
Depreciation and amortization	161	151	10
Taxes, other than income taxes	344	325	19
Electric operating income	\$ 217	\$ 195	\$ 22

CECONY's electric sales and deliveries, excluding off-system sales, for the three months ended March 31, 2011 compared with the 2010 period were:

Description	Millions of kWhs Delivered				Revenues in Millions			
	Three Months Ended		Variation	Percent Variation	Three Months Ended		Variation	Percent Variation
	March 31, 2011	March 31, 2010			March 31, 2011	March 31, 2010		
Residential/Religious (a)	2,664	2,671	(7)	(0.3)%	\$ 648	\$ 633	\$ 15	2.4%
Commercial/Industrial	2,860	2,994	(134)	(4.5)	561	554	7	1.3

Other operating revenues					(79)	(47)	(32)	(68.1)
Total	13,856	13,948	(92)	(0.7)%	\$ 1,721	\$ 1,728	\$ (7)	(0.4)%

(a) Residential/Religious generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.

CECONY's electric operating revenues decreased \$7 million in the three months ended March 31, 2011 compared with the 2010 period due primarily to lower purchased power costs (\$65 million), offset in part by higher revenues from the electric rate plan (\$50 million). The change in rate plan revenues reflects, among other things, reductions in revenues pursuant to the rate plan's revenue decoupling mechanism (\$28 million) and reconciliations of costs for municipal infrastructure support and capital expenditures (\$5 million). CECONY's revenues from electric sales are subject to a revenue decoupling mechanism, as a result of which delivery revenues generally are not affected by changes in delivery volumes from levels assumed when rates were approved. Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the revenue decoupling mechanism and other provisions of the company's rate plans. See Rate Agreements CECONY Electric in Note B to the financial statements in Item 8 of the Form 10-K.

Electric delivery volumes in CECONY's service area decreased 0.7 percent in the three months ended March 31, 2011 compared with the 2010 period. After adjusting for variations, principally weather and billing days, electric delivery volumes in CECONY's service area decreased 1.3 percent in the three months ended March 31, 2011 compared with the 2010 period.

CECONY's electric fuel costs increased \$16 million in the three months ended March 31, 2011 compared with the 2010 period due to higher sendout volumes from the company's electric generating facilities (\$11 million) and unit costs (\$5 million). Electric purchased power costs decreased \$65 million in the three months ended March 31, 2011 compared with the 2010 period due to a decrease in unit costs (\$42 million) and purchased volumes (\$23 million).

Edgar Filing: CONSOLIDATED EDISON CO OF NEW YORK INC - Form 10-Q

CECONY's electric operating income increased \$22 million in the three months ended March 31, 2011 compared with the 2010 period. The increase reflects

Table of Contents

primarily higher net revenues (\$42 million, due primarily to the electric rate plan, including the collection of a surcharge for a New York State assessment) and lower operations and maintenance costs (\$9 million). The lower operations and maintenance costs reflect primarily lower costs for injuries and damages (\$6 million), employees' health and group life insurance (\$6 million), pension (\$3 million) and cost control efforts, offset in part by an increase in the surcharge for a New York State assessment (\$5 million) and winter storm related emergency response costs (\$5 million). The increase in electric operating income was offset by higher depreciation and amortization (\$10 million) and taxes, other than income taxes (\$19 million, principally property taxes). See Regulatory Assets and Liabilities in Note B to the First Quarter Financial Statements.

Gas

CECONY's results of gas operations for the three months ended March 31, 2011 compared with the 2010 period is as follows:

(Millions of Dollars)	Three Months Ended		Variation
	March 31, 2011	March 31, 2010	
Operating revenues	\$ 663	\$ 683	\$ (20)
Gas purchased for resale	263	294	(31)
Net revenues	400	389	11
Operations and maintenance	103	88	15
Depreciation and amortization	27	25	2
Taxes, other than income taxes	66	61	5
Gas operating income	\$ 204	\$ 215	\$ (11)

CECONY's gas sales and deliveries, excluding off-system sales, for the three months ended March 31, 2011 compared with the 2010 period were:

Description	Thousands of dths Delivered				Revenues in Millions			
	Three Months Ended		Variation	Percent Variation	Three Months Ended		Variation	Percent Variation
	March 31, 2011	March 31, 2010			March 31, 2011	March 31, 2010		
Residential	18,783	19,345	(562)	(2.9)%	\$ 326	\$ 346	\$ (20)	(5.8)%
General	13,250	11,482	1,768	15.4	152	163	(11)	(6.7)

NYPA	5,820	6,042	(222)	(3.7)	1	1		
Generation plants	12,359	12,265	94	0.8	7	8	(1)	(12.5)
Other	7,687	7,814	(127)	(1.6)	19	22	(3)	(13.6)
Other operating revenues					(22)	(35)	13	37.1
Total	85,557	83,056	2,501	3.0%	\$ 663	\$ 683	\$ (20)	(2.9)%

(a) Includes 984 and 986 thousands of dths for the 2011 and 2010 period, respectively, which are also reflected in firm transportation and other.

CECONY's gas operating revenues decreased \$20 million in the three months ended March 31, 2011 compared with the 2010 period due primarily to a decrease in gas purchased for resale costs (\$31 million), offset in part by higher revenues from the gas rate plans (\$24 million). CECONY's revenues from gas sales are subject to a weather normalization clause and a revenue decoupling mechanism as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. Other gas operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's rate plans. See Rate Agreements CECONY Gas in Note B to the financial statements in Item 8 of the Form 10-K.

Edgar Filing: CONSOLIDATED EDISON CO OF NEW YORK INC - Form 10-Q

CECONY's sales and transportation volumes for firm customers increased 4.4 percent in the three months ended March 31, 2011 compared with the 2010 period. After adjusting for variations, principally weather and billing days, firm gas sales and transportation volumes in the company's service area increased 1.2 percent in the three months ended March 31, 2011 reflecting an increase in the number of customers, offset in part by net transfers from firm service to interruptible service.

Table of Contents

CECONY's purchased gas cost decreased \$31 million in the three months ended March 31, 2011 compared with the 2010 period due to lower unit costs (\$50 million), offset by higher sendout volumes (\$19 million).

CECONY's gas operating income decreased \$11 million in the three months ended March 31, 2011 compared with the 2010 period. The decrease reflects primarily higher operations and maintenance costs (\$15 million, due primarily to an increase in the surcharge for a New York State assessment (\$3 million) and pension expense (\$7 million)), taxes, other than income taxes (\$5 million, principally property taxes) and depreciation and amortization (\$2 million), offset by higher net revenues (\$11 million).

Steam

CECONY's results of steam operations for the three months ended March 31, 2011 compared with the 2010 period is as follows:

(Millions of Dollars)	Three Months Ended		Variation
	March 31, 2011	March 31, 2010	
Operating revenues	\$ 325	\$ 307	\$ 18
Purchased power	19	23	(4)
Fuel	100	90	10
Net revenues	206	194	12
Operations and maintenance	35	52	(17)
Depreciation and amortization	16	15	1
Taxes, other than income taxes	30	25	5
Steam operating income	\$ 125	\$ 102	\$ 23

CECONY's steam sales and deliveries for the three months ended March 31, 2011 compared with the 2010 period were:

Description	Millions of Pounds Delivered				Revenues in Millions			
	Three Months Ended		Variation	Percent Variation	Three Months Ended		Variation	Percent Variation

General	334	61	273	Large	\$ 15	\$ 10	\$ 5	50.0%
Apartment house	2,593	2,631	(38)	(1.4)	83	80	3	3.8
Annual power	6,541	6,523	18	0.3	234	218	16	7.3
Other operating revenues					(7)	(1)	(6)	Large
Total	9,468	9,215	253	2.7%	\$ 325	\$ 307	\$ 18	5.9%

CECONY's steam operating revenues increased \$18 million in the three months ended March 31, 2011 compared with the 2010 period due primarily to higher fuel costs (\$10 million), the net change in rates under the steam rate plans (\$6 million) and colder winter weather in 2011 compared with the 2010 period (\$8 million), offset in part by lower purchased power costs (\$4 million). Other steam operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's rate plans. See Rate Agreements CECONY Steam in Note B to the financial statements in Item 8 of the Form 10-K.

Steam sales and delivery volumes increased 2.7 percent in the three months ended March 31, 2011 compared with the 2010 period. After adjusting for variations, principally weather and billing days, steam sales and deliveries decreased 2.4 percent in the three months ended March 31, 2011 reflecting lower average normalized use per customer.

Edgar Filing: CONSOLIDATED EDISON CO OF NEW YORK INC - Form 10-Q

CECONY's steam purchased fuel costs increased \$10 million in the three months ended March 31, 2011 compared with the 2010 period due to higher unit costs (\$5 million) and sendout volumes (\$5 million). Steam purchased power costs decreased \$4 million in the three months ended March 31, 2011 compared with the 2010 period due to a decrease in unit costs (\$5 million), offset by an increase in purchased volumes (\$1 million).

Steam operating income increased \$23 million in the three months ended March 31, 2011 compared with the 2010 period. The increase reflects primarily higher net revenues (\$12 million) and lower operations and maintenance costs (\$17 million, due primarily to lower pension expense (\$13 million)), offset by higher taxes, other than income taxes (\$5 million, principally property taxes) and depreciation and amortization (\$1 million).

Other operating revenues					(2)	(2)		
Total	1,394	1,364	30	2.2%	\$ 149	\$ 161	\$ (12)	(7.5)%

(a) Residential/Religious generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.

O&R's electric operating revenues decreased \$12 million in the three months ended March 31, 2011 compared with the 2010 period due primarily to lower costs for purchased power (\$18 million). O&R's New York electric delivery revenues are subject to a revenue decoupling mechanism, as a result of which, delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. O&R's electric sales in New Jersey and Pennsylvania are not subject to a decoupling mechanism, and as a result, changes in such volumes do impact revenues. Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's electric rate plan. See Note B to the First Quarter Financial Statements and Rate Agreements O&R Electric in Note B to the

financial statements in Item 8 of the Form 10-K.

Table of Contents

Electric delivery volumes in O&R's service area increased 2.2 percent in the three months ended March 31, 2011 compared with the 2010 period. After adjusting for weather variations, electric delivery volumes in O&R's service area increased 1.0 percent in the three months ended March 31, 2011 compared with the 2010 period reflecting higher average normalized use per customer.

Electric operating income increased \$5 million in the three months ended March 31, 2011 compared with the 2010 period. The increase reflects primarily higher net revenues (\$6 million), offset by higher depreciation and amortization (\$1 million).

Gas

O&R's results of gas operations for the three months ended March 31, 2011 compared with the 2010 period is as follows:

(Millions of Dollars)	Three Months Ended		Variation
	March 31, 2011	March 31, 2010	
Operating revenues	\$ 92	\$ 90	\$ 2
Gas purchased for resale	39	44	(5)
Net revenues	53	46	7
Operations and maintenance	18	16	2
Depreciation and amortization	3	3	
Taxes, other than income taxes	4	4	
Gas operating income	\$ 28	\$ 23	\$ 5

O&R's gas sales and deliveries, excluding off-system sales, for the three months ended March 31, 2011 compared with the 2010 period were:

Description	Thousands of dths Delivered				Revenues in Millions			
	Three Months Ended		Variation	Percent Variation	Three Months Ended		Variation	Percent Variation
	March 31, 2011	March 31, 2010			March 31, 2011	March 31, 2010		
Residential	3,774	3,525	249	7.1%	\$ 53	\$ 50	\$ 3	6.0%
General	737	710	27	3.8	9	9		
Firm transportation	5,296	4,678	618	13.2	31	25	6	24.0
Total firm sales and transportation	9,807	8,913	894	10.0	93	84	9	10.7
Interruptible sales	1,311	1,411	(100)	(7.1)	1	6	(5)	(83.3)
Generation plants	98	140	(42)	(30.0)				
Other	399	369	30	8.1				
Other gas revenues					(2)		(2)	Large
Total	11,615	10,833	782	7.2%	\$ 92	\$ 90	\$ 2	2.2%

O&R's gas operating revenues increased \$2 million in the three months ended March 31, 2011 compared with the 2010 period due primarily to the gas rate plan, offset in part by the decrease in gas purchased for resale (\$5 million).

Sales and transportation volumes for firm customers increased 10.0 percent in the three months ended March 31, 2011 compared with the 2010 period. After adjusting for weather and other variations, total firm sales and transportation volumes decreased 0.4 percent in the three months ended March 31, 2011 compared with the 2010 period. O&R's New York revenues from gas sales are subject to a weather normalization clause and a revenue decoupling mechanism, as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved.

Edgar Filing: CONSOLIDATED EDISON CO OF NEW YORK INC - Form 10-Q

Gas operating income increased \$5 million in the three months ended March 31, 2011 compared with the 2010 period. The increase reflects primarily higher net revenues (\$7 million), offset by higher operations and maintenance costs (\$2 million).

Table of Contents**Competitive Energy Businesses**

The competitive energy business's results of operations for the three months ended March 31, 2011 compared with the 2010 period is as follows:

<i>(Millions of Dollars)</i>	Three Months Ended		Variation
	March 31, 2011	March 31, 2010	
Operating revenues	\$ 408	\$ 500	\$ (92)
Purchased power	321	513	(192)
Gas purchased for resale	6	5	1
Net revenues	81	(18)	99
Operations and maintenance	30	24	6
Depreciation and amortization	2	2	
Taxes, other than income taxes	5	4	1
Operating income	\$ 44	\$ (48)	\$ 92

The competitive energy businesses' operating revenues decreased \$92 million in the three months ended March 31, 2011 compared with the 2010 period due primarily to net mark-to-market effects (\$60 million) and a decrease in electric wholesale revenues (\$29 million). Electric wholesale revenues decreased \$29 million in the three months ended March 31, 2011 compared with the 2010 period due to lower sales volume (\$31 million), offset by higher unit prices (\$2 million). Electric retail revenues decreased \$7 million in the three months ended March 31, 2011 compared with the 2010 period due to lower unit prices (\$12 million), offset by higher sales volume (\$5 million). Gross margins on electric retail revenues decreased in the three months ended March 31, 2011 compared with the 2010 period due primarily to lower unit gross margins. Net mark-to-market values increased \$101 million in the three months ended March 31, 2011 as compared with the 2010 period, of which \$161 million in gains are reflected in purchased power costs and \$60 million in losses are reflected in revenues. Other revenues increased \$4 million in the three months ended March 31, 2011 as compared with the 2010 period due primarily to higher sales of energy efficiency services (\$5 million).

Purchased power costs decreased \$192 million in the three months ended March 31, 2011 compared with the 2010 period due primarily to changes in mark-to-market values (\$161 million) and lower purchased power costs (\$31 million). Purchased power costs decreased \$31 million due to lower unit prices (\$9 million) and volumes (\$22 million). Operating income increased \$92 million in the three months ended March 31, 2011 compared with the 2010 period due primarily to net mark-to-market effects (\$101 million).

Other

For Con Edison, Other also includes inter-company eliminations relating to operating revenues and operating expenses.

Table of Contents

Item 3: Quantitative and Qualitative Disclosures About Market Risk

For information about the Companies' primary market risks associated with activities in derivative financial instruments, other financial instruments and derivative commodity instruments, see "Financial and Commodity Market Risks," in Part I, Item 2 of this report, which information is incorporated herein by reference. Also, see Item 7A of the Form 10-K.

Item 4: Controls and Procedures

The Companies maintain disclosure controls and procedures designed to provide reasonable assurance that the information required to be disclosed in the reports that they submit to the Securities and Exchange Commission (SEC) is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. For each of the Companies, its management, with the participation of its principal executive officer and principal financial officer, has evaluated its disclosure controls and procedures as of the end of the period covered by this report and, based on such evaluation, has concluded that the controls and procedures are effective to provide such reasonable assurance. Reasonable assurance is not absolute assurance, however, and there can be no assurance that any design of controls or procedures would be effective under all potential future conditions, regardless of how remote.

In January 2011, the Companies implemented a consolidation, reporting, and analysis system as part of a large ongoing project to implement a new financial and supply-chain enterprise resource planning information system. See Item 9A of the Form 10-K (which information is incorporated herein by reference). The project is reasonably likely to materially affect the Companies' internal control over financial reporting. There was no other change in the Companies' internal control over financial reporting that occurred during the Companies' most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Companies' internal control over financial reporting.
