PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS

To Be Held May 23, 2013

Solicitation and Revocability of Proxies

The Board of Directors (the Board of Directors or the Board) of Capital Senior Living Corporation (the Company or Capital Senior) is soliciting your proxy for voting on the proposals to be presented at our annual meeting of our stockholders to be held on May 23, 2013 (the Annual Meeting). The Annual Meeting will be held at the Le Meridien Hotel, 13402 Noel Road, Dallas, Texas 75240, on the 23rd day of May, 2013 at 10:00 a.m. Central Time for the purposes set forth in the accompanying notice and described in this proxy statement. When proxies in the accompanying form are properly executed and received, the shares represented thereby will be voted at the Annual Meeting in accordance with the directions noted thereon, unless the proxy is subsequently revoked.

Any stockholder giving a proxy has the unconditional right to revoke his or her proxy at any time prior to the voting thereof either in person at the Annual Meeting by delivering a duly executed proxy bearing a later date or by giving written notice of revocation to us addressed to David R. Brickman, Senior Vice President, General Counsel and Secretary, 14160 Dallas Parkway, Suite 300, Dallas, Texas 75254. However, no such revocation shall be effective unless such notice of revocation has been received by us at or prior to the Annual Meeting.

Our principal executive offices are located at, and our mailing address is, 14160 Dallas Parkway, Suite 300, Dallas, Texas 75254.

Our management does not intend to present any business at the Annual Meeting for a vote other than the matters set forth in the accompanying notice and has no knowledge that others will do so. If other matters requiring a vote of our stockholders properly come before the Annual Meeting, then it is the intention of the persons named in the accompanying form of proxy to vote the shares represented by the proxies held by them in accordance with their judgment on such matters.

This proxy statement and accompanying form of proxy are being mailed on or about April 18, 2013. The annual report to our stockholders covering our fiscal year ended December 31, 2012, which was mailed to our stockholders on or about April 18, 2013, does not form any part of the materials for solicitation of proxies.

In addition to the solicitation of proxies by mail, our officers, directors and employees may solicit proxies by telephone, telecopy or through personal contact. Such officers, directors and employees will not be additionally compensated by us but will be reimbursed for any out-of-pocket expenses. We have retained Georgeson Shareholder Communications Inc. to assist in the solicitation of proxies for a fee of \$7,500. This amount includes fees payable to Georgeson, but excludes salaries and expenses of our officers, directors and employees. Brokerage houses and other custodians, nominees and fiduciaries will, in connection with shares of our common stock registered in their names, be requested to forward solicitation material to the beneficial owners of such shares of our common stock.

The cost of preparing, printing, assembling and mailing the annual report, the accompanying notice, this proxy statement and the enclosed form of proxy, as well as the reasonable cost of forwarding solicitation materials to the beneficial owners of shares of our common stock, and other costs of solicitation, will be exclusively borne by us.

Some banks, brokers and other record holders have begun the practice of householding proxy statements and annual reports. Householding is the term used to describe the practice of delivering a single copy of this proxy statement and the annual report to any household at which two or more stockholders share an address. This

Table of Contents

procedure would reduce the volume of duplicative information and our printing and mailing costs. We will deliver promptly, upon written or oral request, a separate copy of this proxy statement and the annual report to a stockholder at a shared address to which a single copy of such documents was delivered. Any stockholder who would like to receive a separate copy of the proxy statement and annual report, now or in the future, should submit this request to David R. Brickman, Senior Vice President, General Counsel and Secretary, at our principal executive offices, 14160 Dallas Parkway, Suite 300, Dallas, Texas 75254 or by calling (972) 770-5600. Beneficial owners sharing an address who receive multiple copies of proxy materials and annual reports and who would like to receive a single copy of such materials in the future will need to contact their broker, bank or other nominee to request that only a single copy of each document be mailed to all stockholders at the shared address in the future.

Date for Receipt of Stockholder Proposals

Stockholder proposals to be included in the proxy statement for the 2014 annual meeting of our stockholders must be received by us at our principal executive offices on or before December 19, 2013 for inclusion in the proxy statement relating to that meeting.

Our Amended and Restated Certificate of Incorporation, as amended (the "Certificate of Incorporation"), establishes an advance notice procedure with regard to certain matters, including stockholder proposals and nominations of individuals for election to the Board, to be proposed at an annual meeting of our stockholders. Notice of a stockholder proposal or a director nomination to be brought at an annual meeting of our stockholders must be delivered to, or mailed and received at, our principal executive offices not less than 60 but not more than 90 days before the scheduled date of the meeting, regardless of any postponement, deferral or adjournment of that meeting to a later date; provided, however, that if less than 70 days' notice or prior public disclosure of the date of the meeting is given or made to stockholders, the notice must be delivered or received no later than the close of business on the tenth day following the earlier of (1) the day on which such notice of the date of meeting was mailed or (2) the day on which such public disclosure was made. The notice of a stockholder proposal or a director nomination must also contain specified information and conform to certain requirements set forth in our Certificate of Incorporation. The chairman of the meeting may disregard the introduction of any such proposal or nomination if it is not made in compliance with the foregoing procedures or the applicable provisions of our Certificate of Incorporation.

Quorum and Voting

The record date for the determination of our stockholders entitled to notice of and to vote at the Annual Meeting was the close of business on March 25, 2013. At such time, there were 28,631,747 shares of our common stock issued and outstanding.

Each holder of our common stock is entitled to one vote per share on all matters to be acted upon at the Annual Meeting, and neither our Certificate of Incorporation nor our Second Amended and Restated Bylaws (the "Bylaws") allow for cumulative voting rights. Each proposal is tabulated separately. The holders of a majority of the outstanding shares of our common stock entitled to vote, present in person or represented by proxy, is necessary to constitute a quorum at the Annual Meeting. If a quorum is not present or represented at the Annual Meeting, a majority of the stockholders entitled to vote at the Annual Meeting, present in person or represented by proxy, may adjourn the Annual Meeting, from time to time, without notice or other announcement at the Annual Meeting until a quorum is present or represented. Pursuant to our Bylaws, assuming the presence of a quorum, the affirmative vote of the holders of a majority of the outstanding shares of our common stock entitled to vote, present in person or represented by proxy, at the Annual Meeting is required to ratify the appointment of the independent auditors, approve, on an advisory basis, the Company's executive compensation, and approve the First Amendment to our Rights Agreement. Abstentions and broker non-votes (as described below) will not be counted as votes cast FOR such proposals, but may be treated as votes AGAINST such proposals. With respect to the election of directors, assuming the presence of a quorum, each director nominee will be elected to

Table of Contents

the Board if the number of shares voted **FOR** the election of such director nominee exceeds the number of shares voted **WITHHOLD** for such director nominee (with abstentions and broker non-votes not counted as votes cast either **FOR** or **WITHHOLD** for such director nominee's election).

The Board of Directors unanimously recommends that you vote (1) **FOR** the election of each director nominee named in this proxy statement, (2) **FOR** the ratification of the appointment of Ernst & Young LLP as our independent auditors, (3) **FOR** the approval, on an advisory basis, of the Company's executive compensation, and (4) **FOR** the approval of the First Amendment to our Rights Agreement. The Board of Directors also recommends that you vote **FOR** the ability of the proxy holders to vote the proxy in their discretion with respect to any other matters that properly come before the Annual Meeting.

If you hold shares registered directly in your name and you sign and return a proxy card without giving specific voting instructions, the persons named as proxy holders will vote your proxy (1) in favor of the election of each director nominee named in this proxy statement, (2) in favor of the ratification of the appointment of Ernst & Young LLP as our independent auditors, (3) in favor of the approval, on an advisory basis, of the Company's executive compensation, (4) in favor of the approval of the First Amendment to our Rights Agreement, and (5) as the proxy holders may determine in their discretion with respect to any other matters that properly come before the Annual Meeting.

If you hold shares in street name and do not submit specific voting instructions to your broker, bank or other nominee, the organization that holds your shares may generally vote your shares with respect to discretionary items, but not with respect to non-discretionary items. Discretionary items are proposals considered to be routine under the rules of the New York Stock Exchange (NYSE), and in the absence of voting instructions, your broker, bank or other nominee may vote the shares it holds in street name on such items. On non-discretionary items for which you do not submit specific voting instructions to your broker, bank, or other nominee, the shares will be treated as broker non-votes. Broker non-votes will be considered present at the Annual Meeting for purposes of determining a quorum at the Annual Meeting. The proposal to ratify the appointment of Ernst & Young LLP as our independent auditors (Proposal 2) is considered to be routine, and therefore, may be voted upon by your broker, bank or other nominee if you do not provide instructions to such broker, bank or other nominee. However, pursuant to the NYSE's rules, brokers, banks or other nominees will not have discretion to vote your shares on the election of directors (Proposal 1), the advisory vote on executive compensation (Proposal 3), and the proposal to approve the First Amendment to our Rights Agreement (Proposal 4), as such proposals are considered to be non-routine items. We encourage you to provide voting instructions to your broker, bank or other nominee if you hold your shares in street name so that your voice is heard on such matters.

Requests for Written Copies of Annual Report

We will provide, without charge, a copy of our annual report upon the written request of any registered or beneficial owner of our common stock entitled to vote at the Annual Meeting. Requests should be made by mailing David R. Brickman, Senior Vice President, General Counsel and Secretary, at our principal executive offices, 14160 Dallas Parkway, Suite 300, Dallas, Texas 75254 or by calling (972) 770-5600. The SEC also maintains a website at www.sec.gov which contains reports, proxy statements and other information regarding registrants, including us.

With regard to Mr. Reid, the Board considered his nearly 33 years of experience in investment banking and real estate, including heading Lehman Brothers REIT equity practice for nine years as Managing Director in the Global Real Estate Department, and his senior level public company experiences, which experiences will help the Company identify and capitalize on opportunities to build its business as well as bring fresh insights that will benefit both the Board and the Company. With respect to Mr. Malone, the Board considered his executive level and board experience with public companies and his extensive senior level operational experiences, particularly in health care and wellness services. Mr. Malone has an intimate knowledge of the home health industry and expertise in the legislative and regulatory landscape affecting healthcare companies. With respect to Mr. Brooks, the Board considered his extensive experience in the senior living industry and strong background in senior housing financing. With regard to Dr. Hornbake, the Board considered his position as a practicing physician specializing in geriatrics, his strong understanding of emerging needs of the aging population, his service as Chief Medical Officer for a large health services organization, and his involvement in public policy as it affects seniors.

The Board does not anticipate that any of the aforementioned nominees for director will refuse or be unable to accept election as a director, or be unable to serve as a director. Should any of them become unavailable for nomination or election or refuse to be nominated or to accept election as a director, then the persons named in the enclosed form of proxy intend to vote the shares represented in such proxy for the election of such other person or persons as may be nominated or designated by the Board.

There are no family relationships among any of our directors, director nominees or executive officers.

The Board of Directors unanimously recommends a vote FOR the election of each of the individuals nominated for election as a director.

BOARD OF DIRECTORS AND COMMITTEES

General

Our Board of Directors currently consists of nine directors. The Board has determined that Philip A. Brooks, Craig F. Hartberg, Dr. E. Rodney Hornbake, Jill M. Krueger, Ronald A. Malone, James A. Moore and Michael W. Reid, each an existing director, are independent within the meaning of the corporate governance rules of the NYSE and no such individual has any relationship with us, except as a director, stockholder and/or director nominee, as applicable. In addition, we have adopted a Director Independence Policy, as described in greater detail below under the heading Director Independence Policy, which establishes guidelines for the Board to follow in making the determination as to which of our directors is independent. Our Director Independence Policy is available on our website at <http://www.capitalsenior.com> in the Investor Relations section and is available in print to any stockholder who requests it. The Board has determined that Messrs. Brooks, Hartberg, Hornbake, Malone, Moore and Reid and Ms. Krueger, each an existing director, are independent in accordance with our Director Independence Policy.

During 2012, the Board held 8 meetings, including regularly scheduled and special meetings, and acted 3 times by unanimous written consent. During 2012, no director attended fewer than 75% of the aggregate of (i) the total number of meetings of the Board and (ii) the total number of meetings held by all committees of the Board on which such director served. Under our Corporate Governance Guidelines, each of our directors is expected to attend all meetings of the Board, the annual stockholders meeting and meetings of the committees of the Board on which they serve. Messrs. Cohen, Johannessen, Brooks, Hartberg, Hornbake, Malone, Moore and Reid and Ms. Krueger attended our 2012 annual meeting of stockholders. Our independent directors meet in executive sessions without any management directors, and Mr. Moore, the independent Chairman of the Board, presided over these meetings during 2012.

Advance Resignation Policy

Under our Corporate Governance Guidelines, for uncontested director elections, as a condition to nomination by the Board of an incumbent director, such nominee must submit an irrevocable resignation to the Board. Any such nominee who receives a greater number of votes withholding authority for or against such nominee's election than votes for such nominee's election (with abstentions and broker non-votes not counted as votes cast either for or withhold authority for or against such nominee's election), and who remains on the Board as a holdover director, will have his or her irrevocable resignation considered by the Nominating and Corporate Governance Committee. Following the certification of the voting results in an uncontested election of directors, the Nominating and Corporate Governance Committee will make a recommendation to the Board as to the treatment of any such nominee that did not receive the requisite majority vote, including whether to accept or reject any such tendered resignation. Thereafter, the Board will determine whether to accept the Nominating and Corporate Governance Committee's recommendation. If such nominee's resignation is accepted by the Board, then such director will immediately cease to be a member of the Board upon the date of such acceptance.

Director Independence Policy

The Board undertakes an annual review of the independence of all non-management directors. In advance of the meeting at which this review occurs, each non-management director is asked to provide the Board with full information regarding the director's business and other relationships with us in order to enable the Board to evaluate the director's independence. Directors have an affirmative obligation to inform the Board of any material changes in their circumstances or relationships that may impact their designation by the Board as independent. This obligation includes all business relationships between, on the one hand, directors or members of their immediate family, and, on the other hand, us, whether or not such business relationships are described above.

Table of Contents

No director qualifies as independent unless the Board affirmatively determines that the director has no material relationship with us. The following guidelines are considered in making this determination:

a director who is, or has been within the last three years, employed by us, or whose immediate family member is, or has been within the last three years, one of our executive officers, is not independent ;

a director who received, or whose immediate family member received, during any twelve-month period within the last three years, more than \$120,000 in direct compensation from us, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service), is not independent ;

a director (a) who is or whose immediate family member is a current partner of a firm that is our internal or external auditor, (b) who is a current employee of such a firm, (c) whose immediately family member is a current employee of such a firm and participates in the firm's audit, assurance or tax compliance (but not tax planning) practice, or (d) who is, or whose immediate family member was within the last three years (but is no longer), a partner or employee of such a firm and personally worked on our audit within that time, is not independent ;

a director who is, or whose immediate family member is, or has been within the last three years, employed as an executive officer of another company where any of our present executive officers at the same time serves or served on that other company's compensation committee, is not independent ;

a director who is a current employee, or whose immediate family member is a current executive officer, of a company that has made payments to, or received payments from, us for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million or 2% of such other company's consolidated gross revenues, is not independent ;

a director who serves as an executive officer, or whose immediate family member serves as an executive officer, of a tax exempt organization that, within the preceding three years, received contributions from us, in any single fiscal year, of an amount equal to the greater of \$1 million or 2% of such organization's consolidated gross revenue, is not independent ; and

a director who has a beneficial ownership interest of 10% or more in a company which has received remuneration from us in any single fiscal year in an amount equal to the greater of \$1 million or 2% of such company's consolidated gross revenue is not independent until three years after falling below such threshold.

In addition, members of the Compensation Committee must not have any relationship or affiliation with us that would materially affect the director's ability to be independent from management as a Compensation Committee member and must otherwise be independent under our Director Independence Policy. Members of the Audit Committee may not accept any consulting, advisory or other compensatory fee from us or any of our subsidiaries or affiliates other than directors' compensation.

The terms us, we and our refer to Capital Senior Living Corporation and any direct or indirect subsidiary of Capital Senior Living Corporation, which is part of the consolidated group. An immediate family member includes a person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law and anyone (other than domestic employees) who shares such person's home.

The Compensation Committee's processes for fulfilling its responsibilities and duties with respect to executive compensation and the role of our executive officers and management in the compensation process are each described under Compensation Discussion and Analysis Overview of Compensation Process beginning on page 20 of this proxy statement.

In fulfilling its responsibilities and duties with respect to the compensation of our directors, the Compensation Committee periodically reviews the compensation paid to the non-employee directors of the companies in our peer group, and may recommend to the Board adjustments to our director compensation levels and practices so as to remain competitive with the companies in our peer group.

Pursuant to its charter, the Compensation Committee may retain such compensation consultants, outside counsel and other advisors as it may deem appropriate in its sole discretion and it has the sole authority to approve related fees and other retention terms. From time to time, the Compensation Committee has engaged third parties to compile statistical information with respect to the executive compensation practices of other comparable public companies. The Compensation Committee did not engage the services of compensation consultants, outside counsel or other advisors during 2012.

Board of Director's Leadership Structure

Our Board separated the roles of Chairman of the Board and Chief Executive Officer by electing James A. Moore, a non-executive, independent director, as Chairman of the Board in 2010. The separation of the roles was implemented to allow Mr. Cohen, our Chief Executive Officer, to continue to focus his efforts on the successful management of the Company while allowing Mr. Moore, our independent Chairman, to focus his efforts on the continued development of a high-performing Board, including (1) ensuring the Board remains focused on the Company's long-term strategic plans, (2) working with Company management to ensure the Board continues to receive timely and adequate information, (3) coordinating activities of the committees of the Board, and (4) ensuring effective stakeholder communications. The Board believes, due to the continued leadership and experience provided by these two individuals, that having separate positions is the appropriate leadership structure for the Company at this time and demonstrates our commitment to good corporate governance.

Board of Director's Role in Risk Oversight

Our Company, like others, faces a variety of enterprise risks, including credit risk, liquidity risk, and operational risk. In fulfilling its risk oversight role, the Board focuses on the adequacy of the Company's risk management process and overall risk management system. The Board believes an effective risk management system will (1) adequately identify the material risks that the Company faces in a timely manner, (2) implement appropriate risk management strategies that are responsive to the Company's risk profile and specific material risk exposures, (3) integrate consideration of risk and risk management into business decision-making throughout the Company, and (4) include policies and procedures that adequately transmit necessary information with respect to material risks to senior executives and, as appropriate, to the Board or relevant committee.

Table of Contents

The Audit Committee has been designated to take the lead in overseeing risk management at the Board level. Accordingly, the Audit Committee schedules time for periodic reviews of risk management, in addition to its other duties. In this role, the Audit Committee receives information from management and other advisors, and strives to generate serious and thoughtful attention to the Company's risk management process and system, the nature of the material risks the Company faces, and the adequacy of the Company's policies and procedures designed to respond to and mitigate these risks.

Although the Board's primary risk oversight has been assigned to the Audit Committee, the full Board also periodically receives information about the Company's risk management system and the most significant risks that the Company faces. This is principally accomplished through the Audit Committee's discussions with the full Board and summary versions of the briefings provided by management and advisors to the Audit Committee.

In addition to the formal compliance program, the Board and the Audit Committee encourage management to promote a corporate culture that understands risk management and incorporates it into the overall corporate strategy and day-to-day business operations. The Company's risk management structure also includes an ongoing effort to assess and analyze the most likely areas of future risk for the Company. As a result, the Board and Audit Committee periodically ask the Company's executives to discuss the most likely sources of material future risks and how the Company is addressing any significant potential vulnerability.

Director Nominations

The Nominating and Corporate Governance Committee is responsible under its charter for identifying and recommending qualified candidates for election to the Board. In addition, stockholders who would like to recommend a candidate for election to the Board may submit the recommendation to the chairman of the Nominating and Corporate Governance Committee, in care of our Senior Vice President, General Counsel and Secretary. Any recommendation must include name, contact information, background, experience and other pertinent information on the proposed candidate and must be received in writing by November 15, 2013 for consideration by the Nominating and Corporate Governance Committee for the 2014 annual meeting of our stockholders.

Although the Nominating and Corporate Governance Committee is willing to consider candidates recommended by our stockholders, it has not adopted a formal policy with regard to the consideration of any director candidates recommended by our stockholders. The Nominating and Corporate Governance Committee believes that a formal policy is not necessary or appropriate because of the small size of the Board and because the current Board already has a diversity of business background and industry experience.

The Nominating and Corporate Governance Committee does not have specific minimum qualifications that must be met by a candidate for election to the Board in order to be considered for nomination by the Nominating and Corporate Governance Committee. In identifying and evaluating nominees for director, the Nominating and Corporate Governance Committee considers each candidate's qualities, experience, background and skills, as well as any other factors that the candidate may be able to bring to the Board. The process is the same whether the candidate is recommended by a stockholder, another director, management or otherwise. Although the Nominating and Corporate Governance Committee does not have a formal diversity policy in place for the director nomination process, an important factor in the Nominating and Corporate Governance Committee's consideration and assessment of a candidate is the diversity of the candidate's viewpoints, professional experience, education and skill set. The Nominating and Corporate Governance Committee does not pay a fee to any third party for the identification of candidates, but it has paid fees in the past to third parties for background checks on candidates.

With respect to this year's nominees for director, Messrs. Moore, Brooks and Malone currently serve as directors of the Company.

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS**

This Compensation Discussion and Analysis focuses on the compensation of the Company's executive officers, including our named executive officers who are the individuals included in the Summary Compensation Table beginning on page 36 of this proxy statement. This section summarizes our executive compensation program and objectives and provides an overview of how and why the Compensation Committee, which is responsible for the oversight of our executive compensation program, made specific decisions involving the compensation of our named executive officers. We also refer you to our Annual Report on Form 10-K for the year ended December 31, 2012 for additional information regarding the Company's 2012 financial results discussed below.

Executive Summary

Our executive compensation program is designed to meet three principal objectives:

employ, retain and reward executives who are capable of leading us to the achievement of our business objectives, which include maximizing the value of our operations, generating cash flow, preserving a strong financial position, increasing our geographic concentration, maximizing our competitive strengths in each of our markets, capitalizing on long-term growth opportunities, and most importantly, enhancing stockholder value;

a significant amount of total compensation should be in the form of short-term and long-term incentive awards to align compensation with our financial and operational performance goals as well as individual performance goals; and

incentive awards should be tied to and vary with our financial and operational performance as well individual performance.

We believe these objectives collectively link compensation to overall Company performance and directly link compensation to the objectives set forth in the Company's 2012 Business Plan that was approved by our Board of Directors. These objectives help ensure that the interests of our named executive officers are closely aligned with the interests of our stockholders. We believe that Capital Senior has successfully achieved these objectives as demonstrated by the Company's strong financial results during 2012, which exceeded the Company's business plan despite a slowly recovering economic environment. As described in Management's Discussion and Analysis of Financial Conditions and Results of Operations in our Annual Report on Form 10-K, our fiscal 2012 financial results, based upon various measures, significantly increased relative to our fiscal 2011 financial results. The following table highlights the year-over-year comparison of some of the key financial metrics that we use in evaluating the Company's performance for purposes of making compensation decisions.

Performance Measures	Fiscal Year 2012	Fiscal Year 2011	% Increase
Adjusted CFFO	\$37.3 million (or \$1.37 per share)	\$25.1 million (or \$0.93 per share)	46.8%
Adjusted EBITDAR	\$110.0 million	\$92.3 million	19.2%
Adjusted Net Income	\$7.7 million (or \$0.28 per share)	\$6.9 million (or \$0.25 per share)	11.6%
Revenue	\$310.5 million	\$263.5 million	17.8%

The above table utilizes non-GAAP financial measures such as adjusted CFFO, adjusted EBITDAR and adjusted net income. These non-GAAP measures are used by many research analysts and investors to evaluate the performance and valuations of companies in our industry. Please refer to Appendix A to this proxy statement for important information concerning such non-GAAP financial measures, including a reconciliation of such measures to GAAP.

For fiscal 2012, we believe our compensation programs, which are designed to reward our named executive officers for the achievement of short-term and long-term strategic and operational goals and the achievement of

increased stockholder value, delivered payments commensurate with Capital Senior's strong financial performance. Below are the highlights of our executive compensation program for 2012.

Emphasis on Pay for Performance. Our fiscal 2012 performance, along with the individual performance of our eligible named executive officers, served as key factors in determining compensation for 2012, including as follows:

For 2012, a significant portion of the total compensation opportunity available to our named executive officers who were eligible to participate in our Incentive Compensation Plan was linked to the achievement of certain corporate and individual goals. As discussed in more detail below, in 2012 our Chief Executive Officer, President and Chief Operating Officer, and Executive Vice President and Chief Financial Officer were eligible to receive incentive bonuses of up to 85%, 70% and 60%, respectively, of their base salaries paid in 2012, subject to the achievement of performance targets under our Incentive Compensation Plan for 2012.

CFFO per share and adjusted EBITDAR were the key performance metrics for corporate goals under our Incentive Compensation Plan for 2012. We believe these metrics provide for a balanced approach to measuring annual company performance. In addition, these measures are used by many research analysts and investors to evaluate the performance and valuations of companies in our industry. Another performance metric for corporate goals under our Incentive Compensation Plan for 2012 was the aggregate transaction value of the senior housing communities acquired by the Company during such year. This performance metric was designed to reward our eligible named executive officers for their efforts in helping the Company identify and complete such strategic acquisitions, which we expect will help generate a meaningful increase in the Company's CFFO and earnings. The Company's performance with respect to each of these metrics was above target, and therefore resulted in the payment of annual cash incentive awards at above target levels for our eligible named executive officers for 2012.

Another way that we try to link compensation and performance is through periodically granting performance-based equity awards to our named executive officers. In March 2011, we granted shares of performance-based restricted stock to our Chief Executive Officer, President and Chief Operating Officer, Executive Vice President and Chief Financial Officer, and Senior Vice President, General Counsel and Secretary. The periodic vesting of these awards is subject to the Company's achievement of certain performance targets over a three-year period, which is primarily designed to encourage our named executive officers to focus on the long-term performance of the Company.

Periodic Grants of Long-Term Equity Awards. We periodically grant shares of time-based restricted stock to our named executive officers. In January 2012, we granted 100,000, 90,000, 50,000, 35,000 shares of restricted stock to our Chief Executive Officer, President and Chief Operating Officer, Executive Vice President and Chief Financial Officer, and Senior Vice President, General Counsel and Secretary, respectively. The vesting of these awards is generally subject to the named executive officer's continued employment by the Company over a three-year period, which is primarily designed to encourage such key executive officers to remain with the Company during such period and continue to work to achieve the Company's long-term goals for growth and profitability. If our stock price improves, these equity awards will become more valuable to our executives.

Establishment of Recoupment Policy (or "Clawback") for Incentive Compensation. The Compensation Committee has adopted a recoupment policy pursuant to which, in the event that it is determined that a participant in the Incentive Compensation Plan has committed fraud or a willful misstatement related to the calculations used in determining an award under such plan, the participant involved in such fraud or willful misstatement must return to the Company any awards that were paid as a result of the fraud or willful misstatement. This feature of the Incentive Compensation Plan is separate from and in addition to any clawback provisions under applicable law, including the Sarbanes-Oxley Act of 2002.

Stockholder-Friendly Pay Practices. We do not use many common pay practices that are considered to be unfriendly to stockholders, such as extensive perquisites, and our named executive officers are only eligible to participate in benefit plans that are generally available to all of our employees. Further, our

Table of Contents

executive compensation arrangements do not contain excess parachute payment tax gross-up provisions. We also do not provide guaranteed non-performance-based bonuses to our named executive officers.

Independent Compensation Committee. The Compensation Committee is composed solely of outside, independent directors who satisfy the independence requirements of the NYSE. In addition, to obtain and evaluate independent information with respect to our executive compensation program, each year the Compensation Committee typically reviews information compiled by independent third parties, including Aon Hewitt, Mercer and Christenson Advisors. As a result, the Compensation Committee continually endeavors to provide independent oversight and engages in an ongoing independent review of all aspects of our executive compensation programs.

Overview of Compensation Process

The Compensation Committee is ultimately responsible for reviewing and approving the base salary increases (other than annual base salary increases contemplated by existing employment agreements) and bonus levels of our executive officers, including our named executive officers, evaluating the performance of such executives and reviewing any related matters. Equity and other forms of compensation for our executive officers, including our named executive officers, are also considered by the Compensation Committee. In applying the above-described objectives for our executive compensation program, the Compensation Committee primarily relies upon the following factors:

Input Received from our Senior Management. As discussed in greater detail below, the Compensation Committee has historically relied in part upon the input and recommendations of our senior management, which has historically consisted of Messrs. Cohen, Johannessen and Beattie and whom we refer to in this section as our senior management, when considering annual increases to base salaries for our named executive officers, the annual establishment of our Incentive Compensation Plan, and whether to grant long-term incentive awards to our named executive officers, and if so, in what forms and amounts. Whenever the Compensation Committee considers increasing the base salary of a member of our senior management, such individual is not permitted to participate in the deliberations of the Compensation Committee relating to the increase in base salary.

Peer Group Data. The Compensation Committee has consistently sought to structure our executive compensation program to provide amounts and forms of compensation to our named executive officers that are generally commensurate with those paid to executive officers with comparable duties and responsibilities at companies in the senior living industry that the Compensation Committee, in consultation with our senior management, periodically determines to be the most directly comparable to Capital Senior. In order to determine which companies in the senior living industry are the most directly comparable to Capital Senior, the Compensation Committee and our senior management conduct an annual review to determine which companies have a similar business focus to ours and a similar revenue and/or asset base to ours. We refer to such public companies collectively as our peer group. For 2012, the companies which comprised our peer group were Assisted Living Concepts, Inc., Brookdale Senior Living Inc., Emeritus Corporation, Five Star Quality Care, Inc. and Sunrise Assisted Living, Inc.

The Compensation Committee reviews publicly-available information regarding the compensation arrangements offered by the companies in our peer group on an annual basis for purposes of obtaining a general understanding of current compensation practices, and generally endeavors to make the total compensation for our named executive officers comparable to the total compensation paid to executive officers with comparable duties and responsibilities at the companies in our peer group. The information reviewed is part of a larger competitive analysis and does not mandate a particular decision regarding the compensation received by the Company's named executive officers. The Compensation Committee does not target the compensation of the Company's named executive officers to fall within a specific percentile range of the peer group companies, but rather considers several factors, such as the experience levels of individuals and market factors, before exercising its discretion in determining the total compensation of the Company's named executive officers. Based upon the results of such review, the Compensation Committee may determine to modify the amounts and/or the forms of compensation that are available to our named executive officers, in light of the objectives we have identified for our executive compensation program.

Industry Surveys. The Compensation Committee typically reviews information compiled by third parties, including Aon Hewitt, Mercer and Christenson Advisors, with respect to the executive compensation practices of other companies in order to assist it in determining the percentage range within which the base salary for our named executive officers for the upcoming year may increase from that paid to such individuals in the preceding year. For a more detailed description of the process by which the Compensation Committee determines the base salaries for our named executive officers, please read *Forms of Compensation* *Base Salary* below.

Other Factors. Key factors that also affect the Compensation Committees' judgment with respect to our executive compensation program include our financial performance, to the extent that it may be fairly attributed or related to the performance of a particular named executive officer, and the contribution of each named executive officer relative to his individual responsibilities and capabilities. While the Compensation Committee does consider our stock price performance, the Compensation Committee has not utilized it as the only measure of our financial performance, or the performance of our named executive officers, given the fact that it may not take into account a variety of factors, including, the business conditions within the senior living industry and our long-term strategic direction and goals. Also, in applying these objectives, the Compensation Committee endeavors to achieve consistency with respect to the difference between the compensation of our named executive officers and the compensation of our other officers and employees and such differences found in the companies in our peer group.

Forms of Compensation

The following forms of compensation are currently utilized by the Compensation Committee in compensating our named executive officers.

BASE SALARY

The base salaries of our named executive officers is established pursuant to the terms of each executive's employment agreement and is subject to an annual increase. Base salaries are paid in cash and are intended to reward our named executive officers for their performance during the fiscal year relative to their authority and responsibilities in their respective positions with us.

In the fourth quarter of each year, the Compensation Committee typically establishes a percentage range within which the base salary for our named executive officers for the upcoming year may increase from the preceding year. In determining this percentage range, the Compensation Committee typically reviews information compiled by third parties, including, Aon Hewitt, Mercer and Christenson Advisors, and generally targets the base salaries of our named executive officers to be comparable to the base salaries of members of management and executive officers with comparable duties and responsibilities at other companies. For 2012, the Compensation Committee set such percentage range at 2.5% - 3.0%.

At each quarterly meeting, the Compensation Committee typically reviews a list of those senior executives, including our named executive officers, whose employment agreements have anniversary dates arising in the upcoming quarter and authorizes our senior management to approve base salary increases for each such individual in its discretion within such percentage range. Each annual performance and compensation review takes place at the same quarterly meeting of the Compensation Committee at which it is authorized. In exercising its discretion, our senior management typically considers each such executive's historical performance in his or her position with us, as reflected by the results of the annual performance and compensation review, as well as our financial performance within each such executive's sphere of influence. Following such evaluation, if our senior management determines that the amount of any increase to an executive's base salary should be greater or less than the increase permitted by the percentage range, then our senior management informs the Compensation Committee of its recommendation. Then, the Compensation Committee ultimately determines the amount of the increase based upon both the recommendations of our senior management and its review of publicly-available

Table of Contents

information as to the base salaries of executives with comparable duties and responsibilities at the companies in our peer group. Any increase to the base salary of the executive is typically effective as of the beginning of the pay period immediately following the anniversary date of such executive's employment agreement.

The Compensation Committee believes that the members of our senior management are the most appropriate individuals to conduct the annual performance and compensation reviews by virtue of their role in overseeing the day-to-day performance of our senior executives, other than our Chief Executive Officer. The Compensation Committee believes that the members of our senior management are also the most appropriate individuals to ultimately determine the amount of the annual base salary increases within the established percentage range since each member occupies a position with us that provides the requisite knowledge and experience to properly evaluate the performance of our senior executives, including our named executive officers, in their respective positions with us and in the context of our overall performance. Whenever our senior management considers increasing the base salary of a member of our senior management, such individual is not permitted to participate in the deliberations of our senior management relating to the increase in base salary.

For a further description of the base salaries paid to our named executive officers for 2012, please refer to the Summary Compensation Table beginning on page 36 of this proxy statement.

PERFORMANCE BONUS

Bonuses are typically awarded to our named executive officers, other than Messrs. Brickman and Solari, annually pursuant to the incentive compensation plan, which we refer to as our Incentive Compensation Plan. The purpose of the Incentive Compensation Plan is to assist us in employing and retaining certain of our named executive officers by providing them with a competitive compensation opportunity based upon the achievement of specified performance objectives that the Compensation Committee identifies as having a direct relation to the accomplishment of our business plan for the applicable year.

Under the Incentive Compensation Plan, performance bonuses are typically targeted at a pre-determined percentage of each eligible named executive officer's base salary for such year. These percentages are typically established by the Compensation Committee based upon (i) its general review of publicly-available information with respect to similar programs offered by the companies in our peer group, and (ii) each officer's ability, by virtue of his position with us, to exert a significant influence over the factors upon which performance bonuses under the Incentive Compensation Plan are contingent. For 2012, the bonus opportunities under the Incentive Compensation Plan for Messrs. Cohen, Johannessen and Beattie were as follows:

Named Executive Officer	2012 Minimum Bonus		2012 Target Bonus		2012 Maximum Bonus	
	% of Base Salary	Amount	% of Base Salary	Amount	% of Base Salary	Amount
Lawrence A. Cohen	32%	\$ 218,752	39%	\$ 266,604	85%	\$ 581,061
Keith N. Johannessen	23%	\$ 92,656	32%	\$ 128,913	70%	\$ 281,996
Ralph A. Beattie	21%	\$ 78,982	32%	\$ 120,353	60%	\$ 225,662

The minimum bonus award opportunities in the table above reflect the amounts the eligible named executive officers would receive if the targeted level of performance was not achieved but the threshold level of performance was satisfied. For 2012, with respect to corporate goals, a threshold level of performance was set for the CFFO per share target (90% of the targeted amount), adjusted EBITDAR target (90% of the targeted amount), and aggregate transaction value target (33% of the targeted amount). For 2012, with respect to individuals goals, a threshold level of performance was set for Mr. Cohen's CFFO per share target (90% of the targeted amount), Mr. Johannessen's Facility NOI target (90% of the targeted amount), and Mr. Beattie's acquisition financing target (33% of the targeted amount). More information regarding these threshold amounts is set forth in the tables below.

Table of Contents

Typically, of the performance bonus amount that an eligible named executive officer may earn pursuant to the Incentive Compensation Plan, pre-determined percentages of such amount are contingent upon (i) achieving or exceeding certain corporate goals for the applicable year, and (ii) the achievement by the eligible named executive officer of certain individual goals for the corresponding year within such named executive officer's sphere of influence.

During the first quarter of each year, our senior management typically makes recommendations to the Compensation Committee regarding the percentage allocations to be made among the above-described categories for the year based upon its determination as to the relative importance that the goals in each such category should bear to the goals in the other categories in order to achieve our business plan for the applicable year. In addition, for each category that contains multiple goals, our senior management also typically makes recommendations to the Compensation Committee regarding the percentage allocations among the goals within each such category based upon its determination as to the relative importance that the goals in each such category should bear to the other goal(s) in such category in order to achieve our business plan for the applicable year. The Compensation Committee typically takes into account these recommendations from our senior management due to the fact that the members of our senior management are primarily responsible for the establishment of our business plan each year.

By approving the Incentive Compensation Plan in the first quarter of each year, the Compensation Committee and our senior management may examine the performance of each of our eligible named executive officers during the previous year, establish performance goals for our eligible named executive officers relative to such performance, and determine the financial performance targets for the new fiscal year based in part upon the previous year's performance.

The Compensation Committee typically meets annually to determine, among other things, whether performance bonuses are to be paid under the Incentive Compensation Plan to any of our eligible named executive officers based upon our achievement, or any eligible named executive officer's individual achievement, as applicable, of any performance objective of the Incentive Compensation Plan during the previous year (provided that performance bonuses awardable pursuant to metrics that are determined on a quarterly basis are considered by the Compensation Committee at their quarterly meetings). In 2012, the only performance bonuses considered at the Compensation Committee's quarterly meetings were those awardable pursuant to the aggregate acquisition transaction value target discussed below. The payment of performance bonuses, if any, to the eligible named executive officers is normally made, subject to payroll taxes and tax withholdings, in the pay period immediately following the date of such determination by the Compensation Committee.

The Incentive Compensation Plan represents the Compensation Committee's determination that, although a substantial portion of the performance bonus opportunity for our eligible named executive officers should be dependent upon measures that are reflective of our overall financial performance, the Incentive Compensation Plan should also reward the individual contributions of each eligible named executive officer for the achievement of elements of our business plan that are within such individual's sphere of influence. In determining the corporate and individual performance metrics under our Incentive Compensation Plan, the Compensation Committee endeavors to undertake a thoughtful process to establish performance metrics that will reflect a balanced approach for measuring annual Company performance. This process typically includes a general review of publicly-available compensation information with respect to similar programs utilized by the companies in our peer group and discussions with research analysts covering our industry and Company stockholders as to the most appropriate measures for measuring the performance and valuations of companies in our industry. During the first quarter of 2012, the Compensation Committee met twice during which it considered the most appropriate performance targets for the 2012 fiscal year and whether adjustments should be made to the structure of the Incentive Compensation Plan, in light of the objectives that the Compensation Committee has established for our executive compensation program.

Corporate Goals. Of the maximum performance bonus amount that an eligible named executive officer may earn pursuant to the Incentive Compensation Plan, a pre-determined percentage of that amount is typically

Table of Contents

contingent upon our achievement of certain objectively verifiable measures of our performance for the applicable year. These corporate goals are typically approved by the Compensation Committee in the first quarter of each fiscal year based upon the recommendations of our senior management regarding certain initiatives and the related corresponding metrics that our senior management believes are directly related to the achievement of our business plan for that year. Typically, two or three distinct corporate goals are established and, of the percentage of the maximum performance bonus amount that is contingent upon the achievement of such corporate goals, varying percentages of such amount are allocated by the Compensation Committee to each corporate goal.

Under the Incentive Compensation Plan for 2012, our eligible named executive officers were entitled to receive a performance bonus equal to a maximum of 24% (29% for our Chief Executive Officer) of their respective base salaries for the year based upon our achievement of three distinct corporate goals with respect to Cash From Facility Operations, or CFFO, per share, adjusted EBITDAR, and the aggregate transaction value of the Company's acquired senior housing communities during 2012. The table below sets forth the target performance bonus opportunities of our eligible named executive officers under the Incentive Compensation Plan for 2012 with respect to the achievement of these corporate goals.

Named Executive Officer	% of Base Salary	Amount
Lawrence A. Cohen	29%	\$ 198,244
Keith N. Johannessen	24%	\$ 96,685
Ralph A. Beattie	24%	\$ 90,265

CFFO Per Share. First, of the maximum bonus percentage attributable to the achievement of corporate goals, 12% (13% for our Chief Executive Officer) was based upon the Company's achievement of a CFFO per outstanding share target during 2012, which was viewed as a challenging performance target (particularly given the existing market and economic conditions). For purposes of the Incentive Compensation Plan for 2012, CFFO was defined as net cash provided by (used in) operating activities adjusted for changes in operating assets and liabilities and recurring capital expenditures. Recurring capital expenditures included expenditures capitalized in accordance with GAAP that were funded from reserves pursuant to the Company's mortgage loans and leases.

The target level of performance under the CFFO portion of the Incentive Compensation Plan for 2012 was CFFO per share of \$0.94, which was based on the Company's internal business plan. Achievement of the target level of CFFO per share would result in our eligible named executive officers receiving a bonus equal to 12% (13% for our Chief Executive Officer) of their respective base salaries paid for 2012. Achievement of 90% of the target level of CFFO per share would result in 90% of the portion of the award subject to such performance target being earned by our eligible named executive officers. If this threshold level of CFFO per share performance was attained but the target level was not attained, the earned portion of the award subject to CFFO per share performance would be prorated between 90% and 100% based upon the actual CFFO per share results reported for 2012. If the Company did not achieve 90% of the target level of CFFO per share, no amounts would be paid to the eligible named executive officers with respect to this bonus opportunity.

The following tables set forth the cash performance bonus opportunities of our eligible named executive officers under the Incentive Compensation Plan for 2012 with respect to the CFFO per share performance target. As the Company achieved CFFO per share of \$1.37 for 2012, which was approximately 146% of the target amount, the target was achieved and the amounts below listed at the 100% level were awarded to such named executive officers.

Lawrence A. Cohen

Adjusted EBITDAR. Second, of the maximum bonus percentage attributable to the achievement of corporate goals, 8% (11% for our Chief Executive Officer) was based upon the Company's achievement of an adjusted EBITDAR target during 2012, which was viewed as a challenging performance target (again, given the existing market and economic conditions). For purposes of the Incentive Compensation Plan for 2012, adjusted EBITDAR was defined as income from operations before provision for income taxes, interest, depreciation and amortization (including non-cash charges), facility lease expense, non-cash compensation expense, and provision for bad debts.

The target level of performance under the adjusted EBITDAR portion of the Incentive Compensation Plan for 2012 was \$104,057,204, which was based on the Company's internal business plan. Achievement of the target level of adjusted EBITDAR would result in our eligible named executive officers receiving a bonus equal to 8% (11% for our Chief Executive Officer) of their respective base salaries paid for 2012. Achievement of 90% of the target level of adjusted EBITDAR would result in 90% of the portion of the award subject to such performance target being earned by our eligible named executive officers. If this threshold level of adjusted EBITDAR performance was attained but the target level was not attained, the earned portion of the award subject to adjusted EBITDAR performance would be prorated between 90% and 100% based upon the actual adjusted EBITDAR results reported for 2012. If the Company did not achieve 90% of the target level of adjusted EBITDAR, no amounts would be paid to the eligible named executive officers with respect to this bonus opportunity.

The following tables set forth the cash performance bonus opportunities of our eligible named executive officers under the Incentive Compensation Plan for 2012 with respect to the adjusted EBITDAR performance target. As the Company achieved adjusted EBITDAR of \$109,997,000 for 2012, which equaled approximately 106% of the target amount, the target was achieved and the amounts listed below at the 100% level were awarded to such named executive officers.

Aggregate Value of Transactions. Third, of the maximum cash bonus percentage attributable to the achievement of corporate goals, 4% (5% for our Chief Executive Officer) was based upon the Company's achievement of an aggregate transaction value target with respect to the Company's acquired senior housing communities during 2012, which was viewed as a challenging performance target (particularly given the existing market and economic conditions). The target level of performance under the aggregate value of transactions portion of the Incentive Compensation Plan for 2012 was \$100,000,000 (excluding any acquisition of the Company's wholly-owned communities), which was based on the Company's internal business plan. 33% of the portion of the award subject to the aggregate value of transactions performance target would be earned upon the Company's acquisition of an aggregate of \$50,000,000 of senior housing communities during 2012, and 66% of the portion of the award subject to the aggregate value of transactions performance target would be earned upon the Company's acquisition of an aggregate of \$75,000,000 of senior housing communities during 2012. If the Company did not acquire an senior housing communities with an aggregate value of at least \$50,000,000 during 2012, no amounts would be paid to our eligible named executive officers with respect to this bonus opportunity.

The following tables set forth the cash performance bonus opportunities of our eligible named executive officers under the Incentive Compensation Plan for 2012 with respect to the aggregate transaction value target. As the Company acquired senior housing communities with an aggregate transaction value of \$181,350,000 during 2012, the target was achieved and the amounts listed below at the 100% level were awarded to such named executive officers.

Excess CFFO Per Share. Under the Incentive Compensation Plan for 2012, our eligible named executive officers were also eligible to receive an additional cash bonus in excess of the target bonus amounts of up to 46%, 38% and 28% for our Chief Executive Officer, President and Chief Operating Officer, and Executive Vice President and Chief Financial Officer, respectively, of their base salaries for the year (in the amounts set forth in the tables below) to the extent the CFFO per share target, or \$0.94 per share, was exceeded by at least 5% (i.e., CFFO per share of \$0.99 or more). If the Company's actual CFFO per share did not exceed the target CFFO per share amount by 5%, no amounts would be paid to the eligible named executive officers with respect to this additional bonus opportunity.

As the Company achieved CFFO per share of \$1.37 for 2012, which equaled approximately 146% of the target amount of CFFO per share of \$0.94, each eligible named executive officers received the amounts listed at the 125% level below.

Individual Goals. Of the maximum performance bonus amount that an eligible named executive officer may earn pursuant to the Incentive Compensation Plan, a pre-determined percentage of that amount is typically contingent upon the achievement by the eligible named executive officer of certain objectively verifiable individual goals for the corresponding year within such named executive officer's sphere of influence. These individual goals are typically approved by the Compensation Committee in the first quarter of each fiscal year based upon the recommendations of our senior management regarding certain initiatives and the corresponding measures therefor that our senior management believes are directly related to the achievement of our business plan for that year. Typically, several distinct individual goals are established for each eligible named executive

officer, and of the percentage of the maximum performance bonus amount that is contingent upon the achievement of such individual goals, varying percentages of such amount are allocated by the Compensation Committee to each individual goal based upon the recommendations of our senior management.

Under the Incentive Compensation Plan for 2012, our eligible named executive officers were eligible to receive a cash performance bonus equal to a maximum of 8% (10% for our Chief Executive Officer) of their respective base salaries for the year based upon the achievement of such individual goals. The table below sets forth the performance bonus opportunities of our eligible named executive officers under the Incentive Compensation Plan for 2012 with respect to the achievement of individual goals.

CFFO Per Share. With respect to our Chief Executive Officer, the entire cash bonus percentage attributable to the achievement of individual goals was based upon the Company's achievement of a CFFO per share target during 2012, upon the same terms and conditions as described above regarding the corporate goals portion of the Incentive Compensation Plan for 2012. The Compensation Committee determined to establish a separate individual CFFO per share bonus opportunity for our Chief Executive Officer based upon its belief that our Chief Executive Officer, by virtue of his position with us, is in a position to exert a more significant influence as compared to the other eligible named executive officers over this important performance metric.

Achievement of the target level of CFFO per share under the Incentive Compensation Plan for 2012, or CFFO per share of \$0.94, would result in our Chief Executive Officer receiving a bonus equal to 10% of his base salary paid for 2012. Achievement of 90% of the target level of CFFO per share would result in 90% of the portion of the award subject to such individual performance target being earned by our Chief Executive Officer. If this threshold level of CFFO per share performance was attained but the target level was not attained, the earned portion of the award subject to individual CFFO per share performance would be prorated between 90% and 100% based upon the actual CFFO per share results reported for 2012. If the Company did not achieve 90% of the target level of CFFO per share, no amounts would be paid to our Chief Executive Officer with respect to this bonus opportunity.

The following table sets forth the cash performance bonus opportunities of our Chief Executive Officer under the Incentive Compensation Plan for 2012 with respect to his individual CFFO per share performance target. As the Company achieved CFFO per share of \$1.37 for 2012, which was approximately 146% of the target amount, the target was achieved and the amount below listed at the 100% level was awarded to Mr. Cohen.

CFFO Per Share	% of CFFO Per Share Target	Bonus as % of Base Salary	Amount
\$0.85	90%	9.0%	\$ 61,524
\$0.94	100%	10.0%	\$ 68,360

Facility NOI. With respect to our President and Chief Operating Officer, of the maximum cash bonus percentage attributable to the achievement of individual goals, 4% was based upon facility net operating income, or Facility NOI. Facility NOI was defined as facility resident revenue less facility operating expenses, not including management fees, taxes, insurance and casualty losses.

Table of Contents

The target level of performance under the Facility NOI portion of the Incentive Compensation Plan for 2012 was \$131,000,000, which was based on the Company's internal business plan. Achievement of the target level of Facility NOI under the Incentive Compensation Plan for 2012 would result in our President and Chief Operating Officer receiving a bonus equal to 4% of his base salary paid for 2012. Achievement of 90% of the target level of Facility NOI would result in 90% of the portion of the award subject to such performance target being earned by our President and Chief Operating Officer. If this threshold level of Facility NOI was attained but the target level was not attained, the earned portion of the award subject to Facility NOI would be prorated between 90% and 100% based upon the actual Facility NOI results reported for 2012. If the Company did not achieve 90% of the target level of Facility NOI, no amounts would be paid to our President and Chief Operating Officer with respect to this bonus opportunity.

The following table sets forth the cash performance bonus opportunities of our President and Chief Operating Officer under the Incentive Compensation Plan for 2012 with respect to the Facility NOI performance target. As the Company achieved Facility NOI of \$139,649,000 for 2012, which was approximately 107% of the target amount, the target was achieved and the amount below listed at the 100% level was awarded to Mr. Johannessen.

Facility NOI	% of Facility NOI Target	Bonus as % of Base Salary	Amount
\$117,900,000	90%	3.6%	\$ 14,503
\$131,000,000	100%	4.0%	\$ 16,114

Resident Satisfaction. Second, of the maximum cash bonus percentage attributable to the achievement of individual goals by our President and Chief Operating Officer, 4% was based upon resident satisfaction, which is surveyed each year in our communities by an independent third party. The receipt of a 93% or higher favorable rating in such survey on all properties would result in 100% of the portion of the award subject to such performance target being earned by our President and Chief Operating Officer. If the Company did not achieve the resident satisfaction percentage target, no amounts would be paid to our President and Chief Operating Officer with respect to this bonus opportunity.

The following table sets forth the cash performance bonus opportunity of our President and Chief Operating Officer under the Incentive Compensation Plan for 2012 with respect to the resident satisfaction performance target. As the Company achieved resident satisfaction of 95% for 2012, the target was achieved and the amount listed below was awarded to Mr. Johannessen.

Resident Satisfaction	Bonus as % of Base Salary	Amount
93%	4.0%	\$ 16,114

Ralph A. Beattie

Controllable G&A. With respect to our Executive Vice President and Chief Financial Officer, of the maximum cash bonus percentage attributable to the achievement of individual goals, 4% was based upon the Company's budget for controllable general and administrative expense categories—accounting, finance, payroll/benefits, information systems, investor relations and administration, or the Controllable G&A Categories. The target budget for Controllable G&A Categories for 2012 was \$7,455,000, excluding bonus accruals, which was based on the Company's internal business plan. If the Company's expenses for Controllable G&A Categories did not exceed the target budget under the Incentive Compensation Plan for 2012, then our Executive Vice President and Chief Financial Officer would receive a bonus equal to 4% of his base salary paid in 2012. If the Company's expenses for Controllable G&A Categories exceeded the target budget under the Incentive Compensation Plan for 2012, then no amounts would be paid to our Executive Vice President and Chief Financial Officer with respect to this bonus opportunity.

Table of Contents

The following table sets forth the performance cash bonus opportunity of our Executive Vice President and Chief Financial Officer under the Incentive Compensation Plan for 2012 with respect to the target budget for Controllable G&A. As the Company's expenses for Controllable G&A for 2012 was \$7,375,000, which was less than the targeted budget, the performance target was achieved and the amount listed below was awarded to Mr. Beattie.

Controllable G&A	Bonus as % of Base Salary	Amount
\$7,455,000	4.0%	\$ 15,044

Acquisition Financing. Second, of the maximum cash bonus percentage attributable to the achievement of individual goals by our Executive Vice President and Chief Financial Officer, 4% was based upon the Company's ability to secure mortgage financing for acquisitions of senior housing communities in 2012. Upon the Company's acquisition of senior housing communities valued at \$100,000,000 or more in 2012 with mortgage financing secured by the Company, 100% of the portion of the award subject to acquisition financing target would be earned by our Executive Vice President and Chief Financial Officer. 33% of the portion of the award subject to the acquisition financing target would be earned upon the Company's acquisition of senior housing communities valued at \$50,000,000 or more in 2012, and 66% of the portion of the award subject to the acquisition financing target would be earned upon the Company's acquisition of senior housing communities valued at \$75,000,000 or more in 2012, in each case, with mortgage financing secured by the Company. If the Company did not acquire an aggregate of at least \$50,000,000 of senior housing communities in 2012 with mortgage financing secured by the Company, no amounts would be paid to our Executive Vice President and Chief Financial Officer with respect to this bonus opportunity.

The following table sets forth the cash performance bonus opportunities of our Executive Vice President and Chief Financial Officer under the Incentive Compensation Plan for 2012 with respect to the acquisition financing target. As the Company acquired senior housing communities valued at 181,350,000 in 2012 with mortgage financing secured by the Company, the target was achieved and the amount listed below at the 100% level was awarded to Mr. Beattie.

Aggregate Transaction Value	% of Target Bonus	Bonus as a % of Base Salary	Amount
\$50,000,000	33%	1.3%	\$ 4,889
\$75,000,000	66%	2.6%	\$ 9,779

Other Named Executive Officers. The Compensation Committee does not believe that the Incentive Compensation Plan is an appropriate method to determine the cash performance bonus that Messrs. Brickman and Solari are entitled to receive each year since the Incentive Compensation Plan has historically been heavily dependent upon measures that are related to the achievement of our overall business plan. The Compensation Committee does not believe that Messrs. Brickman and Solari, in their capacities as our Senior Vice President, General Counsel and Secretary and Vice President - Acquisitions, respectively, are in positions to influence the achievement of our overall business plan each year to the same extent as our other named executive officers. Although Messrs. Brickman and Solari do not participate in the Incentive Compensation Plan, the Compensation Committee has the ability to award annual cash performance bonuses to such named executive officers in its discretion pursuant to the terms of their respective employment agreements.

David R. Brickman

The determination as to whether Mr. Brickman will receive a cash performance bonus with respect to a particular year is typically made by the Compensation Committee in the first quarter of the following year. In determining whether Mr. Brickman is entitled to receive a cash performance bonus, and if so, in what amount, the Compensation Committee typically reviews our financial performance for the relevant fiscal year, the past

Table of Contents

performance of Mr. Brickman, the total cash compensation necessary to retain top executive talent, and the budget for Mr. Brickman's internal department. Based upon such review, the Compensation Committee decided to award Mr. Brickman a cash performance bonus of \$100,000 for 2012.

Joseph G. Solari

For 2012, the Compensation Committee determined that Mr. Solari would be eligible to receive a cash performance bonus of up to 75% of his annual base salary based upon the aggregate value of the Company's completed qualified acquisitions. Qualified acquisitions include wholly-owned acquisitions, acquisitions made in joint ventures, long-term management contracts and leases with a term of three or more years but exclude acquisitions of communities currently operated by the Company. The Compensation Committee selected this performance metric based upon the recommendations of our senior management regarding certain strategic initiatives and the corresponding measures therefor that our senior management believed were directly related to the achievement of our business plan for 2012 and were within Mr. Solari's sphere of influence. These initiatives consisted of helping the Company identify and complete certain strategic acquisitions that our senior management believed would help generate a meaningful increase in the Company's CFFO and earnings. There were no minimum nor target amounts with respect to this performance bonus opportunity, but rather the performance bonus was awardable in increments of \$7,500 (\$9,283 beginning September 1, 2012) per \$10,000,000 of completed qualified acquisitions, subject to the cap set forth above. As the Company completed qualified acquisitions with an aggregate value of \$166,050,000 in 2012 (\$60,295,000 of which were completed prior to September 1, 2012 and \$105,755,000 of which were completed after September 1, 2012), Mr. Solari was awarded \$137,830 with respect to this performance bonus opportunity.

For a further description of the cash performance bonuses paid to our named executive officers for 2012, please refer to the Summary Compensation Table beginning on page 36 of this proxy statement.

LONG-TERM INCENTIVES

In May 2007, our stockholders approved the Company's 2007 Omnibus Stock and Incentive Plan, as amended, which we refer to as the 2007 Stock Incentive Plan. Upon approval of the 2007 Stock Incentive Plan, the Company's 1997 Omnibus Stock and Incentive Plan, which we refer to as the 1997 Stock Incentive Plan, terminated and no additional awards will be granted under that plan. Awards granted under the 2007 Stock Incentive Plan may be made at times and upon vesting and other conditions as determined by the Compensation Committee, and may be made in the form of stock options, restricted share awards, stock appreciation rights, cash awards and performance-based equity and cash awards. Pursuant to the terms of the 2007 Stock Incentive Plan, the Chief Executive Officer and each of the four highest paid employees as of December 31, 2012 are not eligible to receive awards under the 2007 Stock Option Plan in any fiscal year exceeding 250,000 shares.

In determining the amount and types of long-term incentive awards to be granted to our named executive officers, the Compensation Committee primarily relies upon:

objective data with respect to the size and/or the financial impact of the transaction(s), if any, giving rise to such long-term incentive award;

its own judgment with respect to the contributions of our named executive officers to such transaction(s) giving rise to the long-term incentive award, if any, which may involve input from members of our senior management;

publicly-available information with respect to long-term incentive awards paid to named executive officers at companies in our peer group;

the amount of equity held by each named executive officer, including the amount of any unvested equity awards; and

the amount of cash compensation, in the form of base salary and cash performance bonus, that each named executive officer is eligible to earn for the relevant fiscal year.

Table of Contents

In January 2012, the Compensation Committee, after taking into account the foregoing factors, granted our named executive officers, other than Mr. Solari (who received a grant of restricted stock in 2011 in connection with the one year anniversary of his employment with the Company), shares of restricted stock in the amounts set forth in the table below. These shares are scheduled to vest in three installments of 33%, 33% and 34% on January 5, 2013, January 5, 2014 and January 5, 2015, respectively, subject to the named executive officer's continued employment with the Company.

Name	Number of Restricted Shares Awarded
Lawrence A. Cohen	100,000
Keith N. Johannessen	90,000
Ralph A. Beattie	50,000
David R. Brickman	35,000

In March 2012, as a result of the Company's achievement of the excess CFFO per share performance target under the Incentive Compensation Plan for 2011, Messrs. Cohen, Johannessen and Beattie were also awarded 8,882, 3,780 and 3,529 shares of restricted stock, respectively. These shares of restricted stock vest in three installments of 33%, 33% and 34% on March 6, 2013, March 6, 2014 and March 6, 2015, respectively.

Except as described above, the Compensation Committee did not to grant any equity awards to our named executive officers for 2012.

In addition, in March 2011 the Compensation Committee granted Messrs. Cohen, Johannessen, Beattie and Brickman, 100,000, 80,000, 50,000 and 30,000 shares of performance-based restricted stock. These shares are scheduled to vest in three installments of 33%, 33% and 34% on March 1, 2012, March 1, 2013 and March 1, 2014, respectively, subject to the named executive officer's continued employment with the Company and the Company's achievement of certain adjusted EBITDAR performance targets that were established by the Compensation Committee for each of fiscal 2011, fiscal 2012 and fiscal 2013 and are primarily designed to encourage our named executive officers to focus on the long-term performance of the Company. The Compensation Committee selected an adjusted EBITDAR target because it believes this metric provides a balanced approach for measuring long-term Company performance. In addition, this metric is used by many research analysts and investors to evaluate the performance and valuations of companies in our industry. Adjusted EBITDAR was defined as income from operations before provision for income taxes, interest, depreciation and amortization (including non-cash charges), facility lease expense, non-cash compensation expense, and provision for bad debt.

For fiscal 2012, the vesting of 33% of the performance shares was subject to the Company achieving an adjusted EBITDAR target of \$114,500,000, which was based on the Company's internal business plan and was viewed as a challenging performance target (particularly given the existing market and economic conditions). If the Company achieved 90% of the target level of adjusted EBITDAR (i.e., adjusted EBITDAR of 103,050,000), then 90% of the performance shares subject to such performance target would vest. If the Company attained this threshold level of adjusted EBITDAR performance but did not attain the target level, then the performance shares subject to such performance target would be prorated between 90% and 100% based upon the Company's actual adjusted EBITDAR for 2012. If the Company did not achieve 90% of the targeted level of adjusted EBITDAR, then the shares subject to such performance target would be forfeited. As the Company's adjusted EBITDAR for fiscal 2012 was \$109,997,000, which was 96.07% (but not 100%) of the targeted amount, 96.07% of the performance shares subject to this performance target vested, and (i) 31,702, 25,361, 15,851, and 9,510 shares were issued to Messrs. Cohen, Johannessen, Beattie and Brickman, respectively, on March 6, 2013, and (ii) 1,298, 1,039, 649 and 390 shares subject to this performance target were forfeited by Messrs. Cohen, Johannessen, Beattie and Brickman, respectively, on March 6, 2013.

Table of Contents

On September 1, 2011, in connection with the one year anniversary of Joseph Solari's employment with the Company, the Compensation Committee granted Mr. Solari 18,500 shares of restricted stock. The shares of restricted stock vest in three installments of 33%, 33% and 34% on September 1, 2012, September 1, 2013 and September 1, 2014, respectively.

For a description of the long-term incentives awarded to our named executive officers for 2012, please refer to the 2012 Grants of Plan-Based Awards Table beginning on page 37 of this proxy statement.

SEVERANCE ARRANGEMENTS

We have entered into employment agreements with each of our named executive officers which, among other things, provide for severance benefits upon the occurrence of certain events. Our employment agreements with Messrs. Brickman, Cohen and Johannessen were each originally entered into in connection with our initial public offering in 1997 and have been modified several times as the agreements have come up for renewal. Leading up to our initial public offering, the Board, based upon input received from legal counsel, determined that it was in the Company's best interests to implement a severance plan structure pursuant to which severance benefits would be payable to members of our executive and senior management, including such named executive officers, upon the occurrence of certain events. In determining the measures to use to calculate the amounts payable upon the happening of certain events and the types of events that would trigger a payment obligation under the severance plan structure, the Board relied in large part upon both input received from legal counsel and publicly-available information with respect to the severance practices of similarly-situated companies.

Upon the commencement of Mr. Beattie's employment with us in 1999 and Mr. Solari's employment with us in 2010, we entered into employment agreements with such named executive officers. In the course of negotiating these employment agreements, we relied upon publicly-available information with respect to the severance practices of the companies in our peer group in order to determine the measures to use to calculate the amounts payable upon the occurrence of certain events and the types of events that would trigger a payment obligation. In addition, the Compensation Committee also sought to achieve a degree of consistency with respect to the severance benefits available to our other named executive officers.

The Compensation Committee believes that such severance benefits advance the objectives of our executive compensation program by facilitating our ability to employ, retain and reward executives who are capable of leading us to achieve our business objectives. In addition, the Compensation Committee believes that formalizing such severance benefits provides certainty in terms of our obligations to our named executive officers in the event that our relationship with such individuals is severed. Any time that the Compensation Committee considers the amount and mix of total compensation to be paid to our named executive officers it considers, among other things, the severance payments that each named executive officer would be entitled to receive upon the occurrence of the specified events. The Compensation Committee considers such information a relevant factor in analyzing proposed compensation arrangements, including raises in salary, bonus opportunities and grants of long-term incentive awards.

For a more detailed description of the severance arrangements for our named executive officers, please refer to "Termination of Employment and Change in Control Arrangements" beginning on page 40 of this proxy statement.

PERQUISITES AND OTHER PERSONAL BENEFITS

Our named executive officers are eligible to participate in certain benefit plans that are generally available to all of our employees. The benefits available under such plans are the same for all of our employees, including our named executive officers, and include medical and dental coverage, long-term disability insurance and supplemental life insurance. In addition, all of our employees, including our named executive officers, are

Table of Contents

eligible to participate in our 401(k) plan, which is the only retirement benefit which we provide to our named executive officers. We may make discretionary matching cash contributions to the 401(k) plan in the amount of 100% of the named executive officer's contributions, but subject to a cap of 2% of the named executive officer's base salary. In determining the amount of such matchable contributions to the 401(k) plan, we rely primarily on publicly-available information with respect to the practices employed by the companies in our peer group.

Historically, our executive compensation program has contained limited perquisites. Other than the receipt of an automobile allowance by Mr. Cohen of approximately \$500 per month, our named executive officers did not receive any special perquisites during 2012.

The Compensation Committee has determined to offer the above-described perquisites and other benefits in order to attract and retain our named executive officers by offering compensation opportunities that are competitive with those offered by similarly-situated companies in the senior living industry. In determining the total compensation payable to our named executive officers for a given fiscal year, the Compensation Committee will examine such perquisites and other benefits in the context of the total compensation our named executive officers are eligible to receive. However, given the fact that such perquisites and other benefits represent a relatively insignificant portion of our named executive officers' total compensation, such items do not materially influence the Compensation Committee's decisions with respect to other elements of compensation available to our named executive officers.

For a description of the perquisites and other personal benefits received by our named executive officers during 2012, please refer to the Summary Compensation Table beginning on page 36 of this proxy statement.

2012 Say-on-Pay Advisory Vote on Executive Compensation

Capital Senior provided stockholders a say on pay advisory vote on its executive compensation in 2012 under Section 14A of the Securities Exchange Act of 1934, as amended. At our 2012 Annual Meeting of Stockholders, our stockholders expressed overwhelming support for the compensation of our named executive officers, with approximately 99% of the votes cast for the approval of the say on pay advisory vote on executive compensation (assuming abstentions and broker non-votes do not constitute votes cast). In evaluating the Company's executive compensation programs, the Compensation Committee considered the results of the 2012 advisory vote along with the many other factors discussed in this Compensation Discussion and Analysis, including the Compensation Committee's assessment of the interaction of our compensation programs with our corporate business objectives, input received from our senior management, a general review of publicly-available information with respect to the executive compensation practices of certain companies in our peer group, industry surveys and its own judgment. While each of these factors impacted the Compensation Committee's decisions regarding our named executive officers' compensation, the Compensation Committee did not make any changes to our executive compensation program and policies as a result of the 2012 say on pay advisory vote.

Risk-Related Compensation Policies and Practices

As part of its oversight of the Company's executive and non-executive compensation programs, the Compensation Committee considers the impact of the Company's compensation programs, and the incentives created by the compensation awards that it administers, on the Company's risk profile. In addition, the Company reviews all of its compensation policies and procedures, including the incentives that they create and factors that may reduce the likelihood of excessive risk taking, to determine whether they present a significant risk to the Company. Based on this review, the Company has concluded that its compensation policies and procedures are not reasonably likely to have a material adverse effect on the Company.

The following table sets forth certain information with respect to grants of plan-based awards to the named executive officers in 2012. The estimated possible payouts under non-equity incentive plan awards represent the bonus award opportunities granted to our eligible named executive officers in 2012 under the Incentive Compensation Plan. Mr. Solari was not granted any plan-based awards in 2012, and accordingly, information with respect to Mr. Solari is not included in the table below.

Restricted Stock Award Agreements

When our named executive officers are awarded shares of restricted stock under the 2007 Stock Incentive Plan with time-based vesting provisions, each of them enters into a restricted stock award agreement with us. These restricted stock award agreements generally provide that, if the individual's employment with us is terminated for any reason before the vesting date for the restricted shares, the restricted shares that have not previously vested shall, automatically and without notice, terminate and be permanently forfeited as of such date. In addition, when our eligible named executive officers are awarded shares of restricted stock under the 2007 Stock Incentive Plan with performance-based vesting provisions, each of them enters into a performance award agreement with us. These performance award agreements generally provide that (1) all rights of the holder to any unvested performance shares will automatically terminate and be permanently forfeited on the date the holder ceases to be employed by us for any reason, except due to death or disability, and (2) all rights of the holder to the specified percentage of performance shares that do not vest as a result of our failure to achieve the applicable performance measures will automatically terminate and be permanently forfeited. With respect to performance shares that have not been forfeited pursuant to the previous sentence, any vesting restrictions that have not previously lapsed will lapse and all such performance shares will vest on the earlier of the holder's death, the holder's disability, or a change in control.

Potential Realizable Value of Equity Awards Upon a Change in Control Without Termination

Under the 1997 Stock Incentive Plan and the 2007 Stock Incentive Plan, in the event of a change in control or a potential change in control the vesting of outstanding awards may be accelerated regardless of whether the employment of the holder of such an award is terminated in connection therewith. The following table provides quantitative disclosure of the potential realizable value of outstanding awards granted to our named executive officers pursuant to the 1997 Stock Incentive Plan and 2007 Stock Incentive Plan, assuming that:

an event which constituted a change in control under the 1997 Stock Incentive Plan and 2007 Stock Incentive, each as described above, was consummated on December 31, 2012, the last business day of fiscal year 2012, and the Compensation Committee has not determined that it is effective as of any other date;

the Compensation Committee has not adopted a resolution to the effect that a potential change in control has occurred for purposes of the 1997 Stock Incentive Plan and 2007 Stock Incentive Plan;

the Compensation Committee has not expressly provided that the acceleration and cash-out provisions of the 1997 Stock Incentive Plan and 2007 Stock Incentive Plan, each as described above, are not applicable to such change in control prior to its consummation; and

Cohen, Johannessen, Beattie, Brickman and Solari would be \$3,325,759, \$2,480,208, \$1,018,648, \$1,169,716 and \$232,654, respectively.

the base salary and annual bonus earned by each named executive officer for his services to us through December 31, 2012 has been fully paid to such named executive officer;

such termination was not in connection with an event that constituted a change in control under the 1997 Stock Incentive Plan and the 2007 Stock Incentive Plan or a fundamental change under any named executive officer's employment agreement; and

Narrative Discussion of Director Compensation Table Information

The following is a narrative discussion of the material factors that we believe are necessary to understand the information disclosed in the foregoing Director Compensation Table.

Cash Compensation

For their services to us from the 2011 Annual Meeting of Stockholders until the 2012 Annual Meeting of Stockholders, our non-employee directors each received an annual retainer of \$15,000, which was paid on May 23, 2012, the date of the 2012 Annual Meeting of Stockholders. Additionally, during 2012, our non-employee directors each received \$1,500 for each Board meeting and \$1,500 for each committee meeting.

attended and were reimbursed for their expenses in attending such meetings; provided, that our independent Chairman received \$2,000 for each Board meeting and the Chairpersons of each committee received \$2,000 for each meeting of the committees for which they served as Chairperson. Messrs. Cohen and Johannessen did not receive any compensation for serving as directors during 2012. Effective May 23, 2013, (i) the annual retainer payable to our non-employee directors will be increased to \$30,000, (ii) the additional annual retainer payable to the Chairman of the Audit Committee will be \$15,000, (iii) the additional annual retainer payable to the

Table of Contents

Chairman of the Nominating and Corporate Governance Committee and the Chairman of the Compensation Committee will be \$10,000, (iv) the additional annual retainer payable to the independent Chairman of the Board will be increased to \$45,000, and (v) an annual award of shares of restricted stock with a value of \$75,000 on the date of grant will be granted to each of our non-employee directors, which award will vest in installments of 33%, 33% and 34% over a three-year period.

Equity Compensation

In May 2011, the Compensation Committee issued (1) each of Messrs. Brooks, Hartberg, Moore and Malone and Ms. Krueger 12,000 shares of restricted stock pursuant to the 2007 Stock Incentive Plan, which vest in three installments of 3,000 shares, 3,000 shares and 6,000 shares on May 25, 2012, May 25, 2013 and May 25, 2014, respectively, (2) Dr. E. Rodney Hornbake 18,000 shares of restricted stock pursuant to the 2007 Stock Incentive Plan, which vest in three installments of 6,000 shares, 6,000 shares and 6,000 shares on May 25, 2012, May 25, 2013 and May 25, 2014, respectively, and (3) Mr. Reid 15,000 shares of restricted stock pursuant to the 2007 Stock Incentive Plan, which vest in three installments of 3,000 shares, 6,000 shares and 6,000 shares on May 25, 2012, May 25, 2013 and May 25, 2014, respectively. As a result of these equity awards, which have not fully vested, no equity awards were granted to the Company's non-employee directors during 2012. Messrs. Cohen and Johannessen were not granted any restricted shares for serving as members of the Board during 2012.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee is or has been one of our officers or employees or has or had any relationship requiring disclosure pursuant to SEC rules. In addition, during 2012, none of our executive officers served as:

a member of the compensation committee (or other board committee performing equivalent functions or, in the absence of any such committee, the entire board of directors) of another entity, one of whose executive officers served on the Compensation Committee;

a director of another entity, one of whose executive officers served on the Compensation Committee; or

a member of the compensation committee (or other board committee performing equivalent functions or, in the absence of any such committee, the entire board of directors) of another entity, one of whose executive officers served as one of our directors.

Report of the Audit Committee

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed the audited financial statements in the Annual Report on Form 10-K with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

The Audit Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Audit Committee under generally accepted auditing standards. The Audit Committee also discussed with the independent auditors matters required to be discussed by the statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol.1.AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. The Company's independent auditors also provided to the Audit Committee the written disclosures and the letter required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence, and the Audit Committee discussed with the independent auditors their independence and the compatibility of non-audit services with such independence.

Table of Contents

The Audit Committee discussed with the independent auditors the overall scope and plans for their respective audits. The Audit Committee meets with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors (and the Board of Directors has approved) that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2012 for filing with the SEC. The Audit Committee has also appointed, subject to stockholder ratification, Ernst & Young LLP as the Company's independent auditors.

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

Policy of the Board of Directors

The Board has adopted a statement of policy with respect to transactions involving us and related persons (generally our senior officers, directors, nominees for director, persons owning five percent or more of our outstanding common stock, immediate family members of any of the foregoing, or any entity which is owned or controlled by any of the foregoing persons or an entity in which any of the foregoing persons has a substantial ownership interest or control). The policy generally covers any related person transaction involving amounts greater than \$25,000 in which a related person has a direct or indirect material interest.

Under the policy, each related person transaction must be entered into on terms that are comparable to those that could be obtained as a result of arm's length dealings with an unrelated third party and must be approved by the Audit Committee. Pursuant to the policy, at the first regularly scheduled meeting of the Audit Committee each calendar year, members of our management will recommend related person transactions to be entered into by us for that year, including the proposed aggregate value of any such transaction. After review, the Audit Committee will approve or disapprove each such related person transaction. No member of the Audit Committee will participate in any discussion or approval of a related person transaction for which he or she is a related person, except that such member will provide all material information concerning the related person transaction. At each subsequently scheduled meeting of the Audit Committee, members of our management will update the Audit Committee as to any material change with respect to each approved related person transaction.

In the event that our management recommends any further related person transactions subsequent to the first meeting of the Audit Committee in a particular calendar year, such transactions may be presented to the Audit Committee for approval or disapproval, or preliminarily entered into by members of our management subject to ratification by the Audit Committee. However, if the Audit Committee ultimately declines to ratify any such related person transaction, our management will make all reasonable efforts to cancel or annul the transaction.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Based on a review of reports filed by our directors, executive officers and beneficial holders of 10% or more of shares of our common stock, and upon representations from those persons, we believe that all SEC stock ownership reports required to be filed by those reporting persons during 2012 were timely made.

Table of Contents**PROPOSAL TO RATIFY APPOINTMENT OF INDEPENDENT AUDITORS****(PROPOSAL 2)**

The Audit Committee has appointed Ernst & Young LLP, independent auditors, to be our principal independent auditors and to audit our consolidated financial statements. Ernst & Young has served as our independent registered public accounting firm since October 3, 2006, when it replaced KPMG LLP, and has reported on our consolidated financial statements. KPMG had served as our independent registered public accounting firm since June 21, 2005. We had previously engaged Ernst & Young as our independent registered public accounting firm in connection with our initial public offering in 1997 until their dismissal on June 21, 2005.

Representatives of the firm of Ernst & Young are expected to be present at the Annual Meeting and will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

The Audit Committee has the responsibility for the selection of our independent auditors. Although stockholder ratification is not required for the selection of Ernst & Young, and although such ratification will not obligate us to continue the services of such firm, the Board is submitting the selection for ratification with a view towards soliciting our stockholders' opinion thereon, which may be taken into consideration in future deliberations. If the appointment is not ratified, the Audit Committee must then determine whether to appoint other auditors before the end of the current fiscal year and, in such case, our stockholders' opinions would be taken into consideration.

The Board of Directors unanimously recommends a vote FOR the ratification of Ernst & Young as our independent auditors.

FEES PAID TO INDEPENDENT AUDITORS

The aggregate fees billed by Ernst & Young for fiscal years 2012 and 2011 were as follows:

Ernst & Young:

Services Rendered	Fees	
	2012	2011
Audit fees(1)	\$ 842,500	\$ 784,500
Audit-Related fees(2)	100,650	60,000
Tax fees(3)	6,289	15,000
All other fees		
Total	\$ 949,349	\$ 859,500

(1) Includes professional services for the audit of our annual financial statements, reviews of the financial statements included in our Form 10-Q filings, and services that are normally provided in connection with statutory and regulatory filings or engagements.

(2) Includes fees associated with assurance and related services that are reasonably related to the performance of the audit or review of our financial statements. This category includes fees related to consulting services.

(3) Includes fees associated with tax compliance, tax advice and tax planning.

The Audit Committee has considered whether the provision of the above services other than audit services is compatible with maintaining Ernst & Young's independence and has concluded that it is.

Table of Contents

The Audit Committee has the sole authority to appoint or replace the independent auditor and is directly responsible for the compensation and oversight of the work of the independent auditor. The Audit Committee is responsible for the engagement of the independent auditor to provide permissible non-audit services, which require pre-approval by the Audit Committee (other than with respect to *de minimis* exceptions described in the rules of the NYSE or the SEC that are approved by the Audit Committee). The Audit Committee ensures that approval of non-audit services by the independent auditor are disclosed to investors in periodic reports filed with the SEC.

Table of Contents**ADVISORY VOTE ON EXECUTIVE COMPENSATION****(PROPOSAL 3)**

At our 2011 Annual Meeting of Stockholders, pursuant to Section 14A of the Exchange Act the Company submitted a non-binding proposal to our stockholders as to the frequency on which the Company should hold advisory votes on the compensation paid to our named executive officers (an Advisory Vote on Compensation). At the meeting, our stockholders supported an annual Advisory Vote on Compensation, and our Board determined to submit such vote to our stockholders every year at our annual meeting. As a result, we will submit an Advisory Vote on Compensation to our stockholders at each annual meeting until we are required to submit to our stockholders another proposal on the frequency of such vote within the next four years.

As described in the Compensation Discussion and Analysis section of this proxy statement (see pages 18 through 35), the following key objectives are the cornerstone of our executive compensation program:

employ, retain and reward executives who are capable of leading us to the achievement of our business objectives, which include maximizing the value of our operations, generating cash flow, preserving a strong financial position, increasing our geographic concentration, maximizing our competitive strengths in each of our markets, capitalizing on long-term growth opportunities, and most importantly, enhancing stockholder value;

a significant amount of total compensation should be in the form of short-term and long-term incentive awards to align compensation with our financial and operational performance goals as well as individual performance goals; and

incentive awards should be tied to and vary with our financial and operational performance, as well individual performance.

We believe these objectives collectively link compensation to overall Company performance and directly link compensation to the objectives set forth in the Company's 2012 Business Plan that was approved by our Board of Directors. These objectives help to ensure that the interests of our named executive officers are closely aligned with the interests of our stockholders. We believe that Capital Senior has successfully achieved these objectives as demonstrated by the Company's strong financial results during 2012, which exceeded the Company's business plan despite a slowly recovering economic environment. The following table highlights the year-over-year comparison of some of the key financial metrics that we use in evaluating the Company's performance for purposes of making compensation decisions.

Performance Measures	Fiscal Year 2012	Fiscal Year 2011	% Increase
Adjusted CFFO	\$37.3 million (or \$1.37 per share)	\$25.1 million (or \$0.93 per share)	46.8%
Adjusted EBITDAR	\$110.0 million	\$92.3 million	19.2%
Adjusted Net Income	\$7.7 million (or \$0.28 per share)	\$6.9 million (or \$0.25 per share)	11.6%
Revenue	\$310.5 million	\$263.5 million	17.8%

The above table utilizes non-GAAP financial measures such as adjusted CFFO, adjusted EBITDAR and adjusted net income. These non-GAAP measures are used by many research analysts and investors to evaluate the performance and valuations of companies in our industry. Please refer to Appendix A to this proxy statement for important information concerning such non-GAAP financial measures, including a reconciliation of such measures to GAAP.

Table of Contents

For fiscal 2012, we believe our compensation programs, which are designed to reward our named executive officers for the achievement of short-term and long-term strategic and operational goals and the achievement of increased stockholder value, delivered payments commensurate with Capital Senior's strong financial performance. Below are the highlights of our executive compensation program for 2012.

Emphasis on Pay for Performance. Our fiscal 2012 performance, along with the individual performance of our eligible named executive officers, served as key factors in determining compensation for 2012, including as follows:

For 2012, a significant portion of the total compensation opportunity available to our named executive officers who were eligible to participate in our Incentive Compensation Plan was linked to the achievement of certain corporate and individual goals. As discussed in more detail above, in 2012 our Chief Executive Officer, President and Chief Operating Officer, and Executive Vice President and Chief Financial Officer were eligible to receive incentive bonuses of up to 85%, 70% and 60%, respectively, of their base salaries paid in 2012, subject to the achievement of performance targets under our Incentive Compensation Plan for 2012.

CFFO per share and adjusted EBITDAR were the key performance metrics for corporate goals under our Incentive Compensation Plan for 2012. We believe these metrics provide for a balanced approach to measuring annual company performance. In addition, these measures are used by many research analysts and investors to evaluate the performance and valuations of companies in our industry. Another performance metric for corporate goals under our Incentive Compensation Plan for 2012 was the aggregate transaction value of the senior housing communities acquired by the Company during such year. This performance metric was designed to reward our eligible named executive officers for their efforts in helping the Company identify and complete such strategic acquisitions, which we expect will help generate a meaningful increase in the Company's CFFO and earnings.

Another way that we try to link compensation and performance is through periodically granting performance-based equity awards to our named executive officers. In March 2011, we granted shares of performance-based restricted stock to our Chief Executive Officer, President and Chief Operating Officer, Executive Vice President and Chief Financial Officer, and Senior Vice President, General Counsel and Secretary. The periodic vesting of these awards is subject to the Company's achievement of certain performance targets over a three-year period, which is primarily designed to encourage our named executive officers to focus on the long-term performance of the Company.

Periodic Grants of Long-Term Equity Awards. We periodically grant shares of time-based restricted stock to our named executive officers. In January 2012, we granted 100,000, 90,000, 50,000, 35,000 shares of restricted stock to our Chief Executive Officer, President and Chief Operating Officer, Executive Vice President and Chief Financial Officer, and Senior Vice President, General Counsel and Secretary, respectively. The vesting of these awards is generally subject to the named executive officer's continued employment by the Company over a three-year period, which is primarily designed to encourage such key executive officers to remain with the Company during such period and continue to work to achieve the Company's long-term goals for growth and profitability. If our stock price improves, these equity awards will become more valuable to our executives.

Establishment of Recoupment Policy (or "Clawback") for Incentive Compensation. The Compensation Committee has adopted a recoupment policy for incentive compensation.

Stockholder-Friendly Pay Practices. We do not use many common pay practices that are considered to be unfriendly to stockholders, such as extensive perquisites, and our named executive officers are only eligible to participate in benefit plans that are generally available to all of our employees. Further, our executive compensation arrangements do not contain excess parachute payment tax gross-up provisions. We also do not provide guaranteed non-performance-based bonuses to our named executive officers.

Table of Contents

Independent of Compensation Committee. The Compensation Committee is composed solely of outside, independent directors who satisfy the independence requirements of the NYSE. In addition, to obtain and evaluate independent information with respect to our executive compensation program, each year the Compensation Committee typically reviews information compiled by independent third parties.

The vote on this resolution is not intended to address any specific element of compensation, but rather relates to the compensation of our named executive officers, as described in this proxy statement in accordance with the compensation disclosure rules of the SEC. The vote is advisory, which means that it is not binding on the Company, our Board or the Compensation Committee. The SEC rules adopted in response to the matters pertaining to executive compensation in the Dodd-Frank Act did not specify a voting standard for this proposal. As a result, pursuant to our Bylaws, assuming the presence of a quorum, the affirmative vote of the holders of a majority of the outstanding shares of our common stock entitled to vote, present in person or represented by proxy, at the Annual Meeting is required to approve, on an advisory basis, this Proposal 3.

Accordingly, we ask our stockholders to vote on the following resolution at the Annual Meeting:

RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including Compensation Discussion and Analysis, compensation tables and narrative discussion, is hereby **APPROVED**.

The Board of Directors unanimously recommends a vote FOR the approval of the compensation of our named executive officers, as disclosed in this proxy statement.

PROPOSAL TO APPROVE THE FIRST AMENDMENT TO RIGHTS AGREEMENT

(PROPOSAL 4)

Background

The Company is a party to a Rights Agreement with Computershare Shareowner Services LLC (f/k/a Mellon Investor Services, LLC), as Rights Agent, dated as of February 25, 2010 (the "Rights Agreement"), which was approved by the Company's stockholders at our 2010 Annual Meeting. On March 5, 2013, the Company entered into an amendment to the Rights Agreement (the "Amendment"). While our Certificate of Incorporation and Bylaws and applicable law do not require stockholder approval of a rights agreement or similar arrangement, similar to 2010, the Board has determined to submit the Amendment to a vote of the Company's stockholders as a matter of good corporate governance. The Board's decisions to amend the Rights Agreement and to submit the Amendment to a vote of the Company's stockholders were not made in response to any efforts by any party to acquire or gain control of the Company and the Board is not currently aware of any such efforts.

Pursuant to the Amendment, which was unanimously approved by the Board, the expiration date for the preferred stock purchase rights (the "Rights") previously authorized and declared by the Board in connection with the Rights Agreement was extended until the close of business on the earlier of (i) March 5, 2016 or (ii) March 5, 2014 if and only if the Company's stockholders do not approve the Amendment prior to such date. In addition, the Amendment adjusted the initial purchase price for each one one-thousandth of one share of the Company's Series A Junior Participating Preferred Stock (the "Preferred Stock") to \$72.00 in order to better reflect the market price of the Company's common stock as well as current market conditions. The Amendment also makes certain changes to the qualified offer provision of the Rights Agreement, which include (y) clarifying that a qualified offer may be subject to a condition based upon the occurrence of a material adverse effect and (z) shortening the timeframes pursuant to which (1) stockholders representing at least 10% of the Company's common stock may request that the Board call a special meeting of stockholders to exempt the qualified offer from the Rights Agreement and (2) the Board must then call and hold such a special meeting. Other than as set forth above, the Amendment does not make any substantive changes to the Rights Agreement.

The terms of the Rights Agreement were drafted with the intent to meet the published guidelines of the leading proxy advisory firm for many institutional investors. Accordingly, the Rights Agreement (i) has an acquiring person trigger of 20%; (ii) has a term of no longer than three years; and (iii) will expire pursuant to its terms if not approved by the Company's stockholders prior to March 5, 2014.

The Rights Agreement is not intended to prevent a non-coercive takeover bid or to keep the current management or directors in office, but rather it is designed to, among other things, deter the use of coercive or abusive takeover tactics by one or more parties interested in acquiring the Company or a significant position in the Company's common stock without offering fair value to all stockholders, as well as to generally assist the Board in representing the interests of all stockholders in connection with any takeover proposals. The Rights Agreement would accomplish these objectives by encouraging a potential acquiror to negotiate with the Board to have the Rights redeemed or the Rights Agreement amended prior to such acquiror exceeding the ownership thresholds set forth in the Rights Agreement. If the Rights are not redeemed (or the Rights Agreement is not amended to permit the particular acquisition) and such acquiror exceeds the ownership thresholds, the Rights become exercisable at a discounted price resulting in both a dilution of the acquiror's ownership in the Company and making an acquisition thereof significantly more expensive by significantly increasing the number of shares that would have to be acquired to effect a takeover.

Table of Contents

Reasons for the Rights Agreement

The Board believes that the Rights Agreement is in the best interests of the Company's stockholders for several reasons.

The Rights Agreement enables members of the Board, as elected representatives of the stockholders, to better respond to an unsolicited acquisition proposal. The Rights Agreement does not prevent parties from making an unsolicited offer for or acquisition of the Company at a full and fair price and on fair terms. It does, however give the Board the ability to defend stockholders against abusive tactics that could be used to gain control of the Company without paying stockholders a fair price for their shares. It is also intended to ensure that all stockholders are treated fairly in an acquisition of the Company.

The Rights Agreement encourages potential acquirers to negotiate in good faith with the Board. This gives the Board an ability to negotiate on behalf of the stockholders to achieve a fair price and other terms that are consistent with the intrinsic value of the Company and in the best interests of the Company and its stockholders. In any event, the Board still has the same responsibilities and the Board is committed to considering acquisition proposals in a manner consistent with the directors' fiduciary duties to stockholders.

The Rights Agreement would also enable the Board to better manage and control an auction of the Company or other sale process to the extent the Board may decide to consider strategic alternatives or sell the Company. It enhances the Board's ability to protect a negotiated transaction from uninvolved third parties once the auction or other sale process is completed. It also may be effective in providing the Board sufficient time to evaluate a proposed transaction and, if necessary, seek alternative courses of action to maximize stockholder value.

The Company is continuing to execute its business plan to increase CFFO and enhance shareholder value through increasing occupancy rates and rent, managing expenses, converting certain units into higher levels of care and growth through strategic acquisitions. The Rights Agreement would facilitate the continued implementation of the strategic plan and protect the realization by the Company's stockholders of all of the benefits expected to be received from the strategic plan by deterring the use of takeover tactics by one or more parties interested in acquiring the Company or a significant position in the Company's common stock without offering fair value to all stockholders, as well as to generally assist the Board in representing the interests of all stockholders in connection with any takeover proposals.

Currently, seven of the Company's nine directors are independent. In addition, all three of the nominees for election at the Annual Meeting are independent, so after the Annual Meeting and assuming all nominees are elected, seven of the nine members of the Board will remain independent directors. Therefore, we do not believe that there is any risk of entrenchment as a motivation for this proposal.

The Rights Agreement has a 20% trigger, a term of no longer than three years, does not contain a dead-hand or similar feature that limits the ability of a future board to redeem the plan, provides the stockholders with the ability to vote to rescind the plan if a qualified offer is received, and has other customary terms as described below.

Although the Company is subject to Delaware's business combination statute (which limits the ability of stockholders who exceed 15% ownership from engaging in certain business combinations with the Company for a period of three years), this statute does not prevent the actual accumulation of shares and the attendant implications of having a meaningful block of shares in the hands of an acquiror.

Description of the Rights Agreement

The following is a summary of certain material terms of the Rights Agreement, as amended by the Amendment. This is a summary only and may not contain all of the information that is important to you. A copy of the Rights Agreement is set forth as Exhibit 4.1 to the Company's Current Report on Form 8-K filed with the SEC on February 26, 2010, and a copy of the Amendment is set forth as Exhibit 4.2 to the Company's Current Report on Form 8-K filed with the SEC on March 8, 2013, each of which is incorporated by reference herein. You are urged to read the entire Rights Agreement and the Amendment, for a more complete understanding of the Rights Agreement.

Table of Contents

Distribution of Rights. On February 24, 2010, the Board declared a dividend of one Right for each share of the Company's common stock outstanding as of March 8, 2010 (the Record Date), and authorized the issuance of one Right for each share of the Company's common stock that becomes outstanding after the Record Date, but before the earliest of the Distribution Date, the Final Expiration Date or the Redemption Date (each of these terms as defined in the Rights Agreement, as amended by the Amendment). Each Right entitles the registered holder to purchase from the Company one one-thousandth of a share of Preferred Stock, at a price of \$72.00 per one one-thousandth of a share of Preferred Stock (the Purchase Price), subject to adjustment. Initially, the Rights are attached to each share of the Company's common stock then outstanding, and no separate certificates evidencing the rights (the Rights Certificates) have been issued.

Exercisability. The Rights will not separate from the Company's common stock, Rights Certificates will not be issued, and the Rights will not be exercisable until the on the earlier of (i) the close of business on the tenth calendar day after there is an Acquiring Person (as hereinafter defined) and (ii) the close of business on the tenth business day after the date of the commencement of, or first public announcement of the intent to commence, a tender or exchange offer which would result in an Acquiring Person (the Distribution Date).

Acquiring Person. An Acquiring Person is a person that, together with its affiliates and associates, is the beneficial owner of 20% or more of the outstanding shares of the Company's common stock. Certain persons, including the Company, any subsidiary of the Company, and any employee benefit plan of the Company or any subsidiary of the Company are excluded from the definition of Acquiring Person. Moreover, a person or group of affiliated or associated persons who acquires the beneficial ownership of 20% or more of the Company's common stock then outstanding either (i) by reason of share purchases by the Company reducing the number of shares of the Company's common stock outstanding (provided such person or group does not acquire additional shares of common stock after such purchases by the Company that result in their beneficial ownership of 20% or more of the Company's common stock then outstanding), or (ii) inadvertently, if, prior to the time when the first Right is distributed by the Rights Agent, the Board determines such 20% beneficial ownership was acquired inadvertently and such person or group promptly divests itself of enough common stock so as to no longer have beneficial ownership of 20% or more of the outstanding common stock, will not be an Acquiring Person.

Evidence and Transfer of Rights. Until the Distribution Date (or earlier redemption, exchange or expiration of the Rights), (i) the Rights will be evidenced by certificates for the Company's common stock registered in the names of the holders thereof (or if uncertificated, by the registration of the associated shares of the Company's common stock on the stock transfer books of the Company), together with a copy of the Summary of Rights (as defined in the Rights Agreement), (ii) the Rights will be transferable only in connection with the transfer of the Company's common stock, (iii) the transfer of any shares of the Company's common stock in respect of which Rights have been issued will also constitute the transfer of the Rights associated with such shares of common stock, and (iv) new common stock certificates issued (or, in the case of newly issued uncertificated shares, confirmations and account statements sent) after the Record Date (but prior to the earliest of the Distribution Date, the Redemption Date and the Final Expiration Date) upon transfer or new issuance of shares of the Company's common stock will contain a notation incorporating the Rights Agreement, as amended, by reference. As soon as practicable following the Distribution Date, separate Rights Certificates will be mailed to record holders of the Company's common stock as of the close of business on the Distribution Date (other than the Acquiring Person) and such separate Right Certificates alone will evidence the Rights.

Term. Unless earlier redeemed or exchanged by the Company, in each case as described below, the Rights will expire on the close of business on the earlier of (i) March 5, 2016 or (ii) March 5, 2014 if and only if the Company's stockholders do not approve the Amendment prior to such date (as applicable, the Final Expiration Date).

Anti-Dilution Adjustment. The Purchase Price of, and the number and kind or class of shares of stock of the Company purchasable upon exercise of, each Right is subject to adjustment from time to time, including to prevent dilution (i) in the event of a stock dividend on, or a subdivision, combination or reclassification of, the Preferred Stock or the Company's common stock, (ii) upon the grant to holders of the Preferred Stock of certain

Table of Contents

rights, options or warrants to subscribe for or purchase Preferred Stock at a price, or securities convertible into Preferred Stock with a conversion price, less than the current market price of the Preferred Stock or (iii) upon the distribution to holders of Preferred Stock of evidences of indebtedness or assets (excluding (A) regular periodic cash dividends, provided that if the record date for such dividends occurs at a time when there is an Acquiring Person, such dividends are paid at a rate not in excess of 125% of the rate of the last cash dividend theretofore paid, or (B) dividends payable in the Preferred Stock) or of subscription rights or warrants. No adjustment in the Purchase Price will be required until cumulative adjustments require an adjustment of at least 1% in the Purchase Price.

Fractional Shares. No fractional shares of Preferred Stock (other than fractions that are integral multiples of one one-thousandth of a share of Preferred Stock, which may, at the election of the Company, be evidenced by depositary receipts) or the Company's common stock will be issued and, in lieu thereof, an adjustment in cash will be made based on the market price of the Preferred Stock or the Company's common stock, as applicable, on the last trading date prior to the date of exercise.

Series A Junior Participating Preferred Stock. Each share of Preferred Stock purchasable upon exercise of the Rights will be entitled, when, as and if declared, to a dividend payment per share equal to an aggregate dividend of 1,000 times the dividend declared per share of the Company's common stock. In the event of liquidation, the holders of the Preferred Stock will receive a preferential liquidation payment of \$1.00 per share (plus any accrued and unpaid dividends), but will be entitled to receive an aggregate liquidation payment equal to 1,000 times the payment made on one share of the Company's common stock. Each share of Preferred Stock will have 1,000 votes voting together with the Company's common stock. Finally, in the event of any merger, consolidation or other transaction in which shares of the Company's common stock are exchanged, each share of Preferred Stock will be entitled to receive 1,000 times the amount received per one share of common stock. The Rights are protected by customary anti-dilution provisions. Due to the nature of the Preferred Stock dividend, liquidation and voting rights, the value of the one one-thousandth interest in a share of Preferred Stock purchasable upon exercise of each Right should approximate the value of one share of the Company's common stock.

Effect of a Flip In Event. In the event that any person becomes an Acquiring Person, then each holder of a Right, other than Rights beneficially owned by an Acquiring Person and its affiliates and associates (which will thereafter be null and void for all purposes of the Rights Agreement and the holder thereof will thereafter have no rights with respect to such Rights, whether under the Rights Agreement or otherwise), will thereafter have the right to receive upon exercise and payment of the Purchase Price that number of shares of the Company's common stock having a market value of two times the Purchase Price. Under some circumstances, the Company may substitute for the shares of common stock issuable upon exercise of the Rights and payment of the applicable Purchase Price, cash, a reduction in such Purchase Price, shares of Preferred Stock or other equity securities of the Company, debt securities of the Company, other assets, or any combination thereof having a value that, when added to the value of the shares of common stock issued upon exercise of such Rights, will have an aggregate value equal to the value of the shares of common stock issuable upon the exercise of such rights (less the amount of any reduction in such Purchase Price).

Effect of a Flip Over Event. In the event that after a person has become an Acquiring Person, the Company is acquired in a merger or consolidation, or 50% or more of its consolidated assets or earning power is sold, proper provision will be made so that each holder of a Right (other than Rights beneficially owned by an Acquiring Person and its affiliates and associates) will thereafter generally have the right to receive, upon the exercise thereof at the then current Purchase Price, that number of shares of the senior voting stock of the acquiring company that have a current market value of two times the Purchase Price.

Redemption of Rights; Qualified Offer. At any time prior to the close of business on the earlier of (i) the date there is an Acquiring Person and (ii) the Final Expiration Date, the Board may redeem the Rights in whole, but not in part, at a price of \$0.001 per Right (the Redemption Price), which may be paid in cash, with shares of the Company's common stock, or any other form of consideration deemed appropriate by the Board, or any

Table of Contents

combination thereof. In addition, if a Qualified Offer (as described below) is made, the record holders of 10% or more of the outstanding shares of the Company's common stock may direct the Board to call a special meeting of stockholders to consider a resolution authorizing a redemption of all Rights. If the special meeting is not held within 60 business days of being called (subject to extension and cancellation in connection with the Company's entering into of a Definitive Acquisition Agreement (as defined in the Rights Agreement)) or if, at the special meeting, the holders of a majority of the shares of the Company's common stock outstanding (other than shares held by the offeror and its affiliated and associated persons) vote in favor of the redemption of the Rights, then the Rights will be automatically redeemed at the Redemption Price (unless the Board has taken irrevocable action to prevent the Rights from interfering with the consummation of the Qualified Offer). Immediately upon the action of the Board to redeem or exchange the Rights (or such automatic redemption of Rights), the Company will make announcement thereof, and upon such action, the right to exercise the Rights will terminate and the only right of the holders of Rights will be to receive the Redemption Price.

A Qualified Offer is an offer determined by a majority of the independent directors on the Board to be a fully financed offer for all outstanding shares of the Company's common stock at a per-share offer price that exceeds the greatest of certain price thresholds specified in the Rights Agreement and that the Board, upon the advice of a nationally recognized investment banking firm, does not deem to be either unfair or inadequate. A Qualified Offer is conditioned upon a minimum of at least two-thirds of the outstanding shares of the Company's common stock not held by the offeror (and its affiliated and associated persons) being tendered and not withdrawn, with a commitment to acquire all shares of common stock not tendered for the same consideration through a second step transaction. If the Qualified Offer includes non-cash consideration, such consideration must consist solely of freely tradable common stock of a publicly-traded United States company, and the Board and its representatives must be given access to conduct a due diligence review of the offeror to determine whether the consideration is fair and adequate. A Qualified Offer must also remain open for at least 90 days following commencement. A Qualified Offer requires the satisfaction of certain other conditions as set forth in the Rights Agreement.

Exchange Right. At any time after any person or group becomes an Acquiring Person and prior to the acquisition by such person or group of 50% or more of the outstanding shares of the Company's common stock, the Board may exchange the Rights (other than Rights owned by such person or group that will have become null and void), in whole or in part, at an exchange ratio of one share of the Company's common stock (or, at the Company's option, shares of Preferred Stock, cash, debt securities of the Company, other assets or any combination of the foregoing having an equivalent value) per Right (subject to adjustment).

No Stockholder Rights Prior to Exercise. Until a Right is exercised, the holder thereof, as such, will have no rights as a stockholder of the Company, including, without limitation, liquidation rights, the right to vote or to receive dividends.

Amendments to the Rights Agreement. For so long as the Rights are redeemable, the Company may, in its sole and absolute discretion, supplement or amend the Rights Agreement in any respect without the approval of any holders of the Rights or the Company's common stock. Except as otherwise provided in the Rights Agreement, at any time when the Rights are no longer redeemable, the Company may supplement or amend the Rights Agreement without the approval of any holders of the Rights to cure any ambiguity, to correct or supplement any defective or inconsistent provisions, to shorten or lengthen any time period, or to change or supplement the provisions of the Rights Agreement in any manner that the Company may deem necessary or desirable; provided, that the Rights Agreement may not then be supplemented or amended in any manner that would adversely affect the interests of the holders of the Rights, cause the Rights Agreement to become otherwise amendable, or cause the Rights to again become redeemable.

Anti-Takeover Effects. The Rights have certain anti-takeover effects. The Rights will cause substantial dilution to a person or group that attempts to acquire the Company without conditioning the offer on the redemption of the Rights by the Board. The Rights should not interfere with any merger or other business

Table of Contents

combination that is in the best interests of the Company and its stockholders due to the qualified offer redemption feature and because the Board may, at its option, at any time prior to the Share Acquisition Date, redeem all, but not less than all, the then outstanding Rights at the Redemption Price.

Required Vote for Approval of the Amendment

Pursuant to our Bylaws, assuming the presence of a quorum, approval of the Amendment requires the affirmative vote of holders of a majority of the outstanding shares of the Company's common stock entitled to vote, present in person or represented by proxy, at the Annual Meeting.

The Board of Directors unanimously recommends a vote FOR the approval of the Amendment.

(PROPOSAL 5)

The Board of Directors knows of no other business to be brought before the Annual Meeting. Certain Information With Respect to Non-GAAP Financial Measures Used in This Proxy Statement

In the attached proxy statement, the Company utilizes non-GAAP financial measures such as adjusted EBITDAR, adjusted CFFO, adjusted CFFO per share, adjusted net income and adjusted net income per share. These non-GAAP financial measures are used by management to evaluate financial performance and resource allocation for its facilities and for the Company as a whole. These measures are commonly used as an analytical indicator within the senior housing industry, and also serve as a measure of leverage capacity and debt service ability. The Company has provided this information in order to enhance investors overall understanding of the Company's financial performance and prospects as well as its incentive compensation for its eligible named executive officers. In addition, because the Company has historically provided this type of information to the investment community, the Company believes that including this information provides consistency in its financial reporting.

These non-GAAP financial measures should not be considered as measures of financial performance under generally accepted accounting principles, and items excluded from them are significant components in understanding and assessing financial performance. These measures should not be considered in isolation or as an alternative to net income, cash flows generated by operating, investing, or financing activities, earnings per share or other financial statement data presented in the Company's consolidated financial statements as an indicator of financial performance or liquidity. Because these measures are not measurements determined in accordance with generally accepted accounting principles and are thus susceptible to varying calculations, these measures as presented may not be comparable to other similarly titled measures of other companies. Reconciliation of this information to the most comparable GAAP measures is included on the following page.
