Other Information

1. Accounting policies specifically applied for quarterly consolidated financial statements

(a) Income taxes

Honda computes interim income tax expense (benefit) by multiplying reasonably estimated annual effective tax rate, which includes the effects of deferred taxes, by year-to-date income before income taxes and equity in income of affiliates for the fiscal three months ended June 30, 2013. If a reliable estimate cannot be made, Honda utilizes the actual year-to-date effective tax rate.

2. Changes in accounting policy

(a) Adoption of New Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2013-02 Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income . This amendment requires reporting entities to provide information about the amounts reclassified out of accumulated other comprehensive income by component, and to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income.

Honda adopted ASU 2013-02, effective April 1, 2013. This adoption has no impact on the Honda's financial position or results of operations.

(b) Adjustments of prior year's financial statement due to the change in fiscal year of the Company's subsidiary

Effective April 1, 2013, a subsidiary of the Company changed its fiscal year-end from December 31 to March 31. As a result, the Company eliminated the previously existing three month differences between the reporting periods of the Company and the subsidiary in the consolidated financial statements. The elimination of the lag period represents a change in accounting principle and has been reported by retrospective application. The impacts on the retained earnings and noncontrolling interests as of April 1, 2012 are JPY 6,023 million and JPY 1,658 million, respectively. Honda believes the effect of the retrospective application is not material to the Company's consolidated financial statements as of and for the three months ended June 30, 2012, and therefore the Company's consolidated financial statements have not been retrospectively adjusted, except for the adjustment to retained earnings and noncontrolling interests as of April 1, 2012.
