## **Item 2.05 Costs Associated with Exit or Disposal Activities.**

On October 31, 2016, the Board of Directors of Marvell Technology Group Ltd. (the Company) approved a plan to restructure the Company's operations to refocus its research and development activities, including discontinuing investment in specific research and development programs and consolidating certain research and development sites, which will eliminate approximately 900 positions worldwide. The Company also plans to divest certain non-strategic businesses. On November 2, 2016, the Company issued a press release announcing the restructuring. The full text of the press release is attached as Exhibit 99.1 to this Report and is incorporated by reference herein.

The restructuring will begin immediately and the Company expects the major activities to take place through the end of October 2017. As a result, the Company expects to incur charges of approximately \$90 million to \$110 million over the next four fiscal quarters, including cash charges of \$35 million to \$50 million. Restructuring and restructuring-related charges include an estimate of severance, asset impairment, lease termination fees and other costs.

This filing contains forward-looking statements within the meaning of the federal securities laws that involve risks and uncertainties, including those relating to the implementation of the proposed restructuring; expected reduction in headcount; expected reduction in operating expenses, including legal and accounting costs; expected increase in operating efficiency, increase in profitability and divestment of non-strategic businesses.
