BBVA Banco Francés S.A.

TABLE OF CONTENTS

Item

1. BBVA Francés reports consolidated third quarter earnings for fiscal year 2017.

Table of Contents

Buenos Aires, November 10, 2017 - BBVA Francés (NYSE: BFR.N; BCBA: FRA.BA; LATIBEX: BFR.LA) reports consolidated third quarter results for the January-December 2017 financial year.

Highlights of the quarter

BBVA Francés earned a net profit of \$ 1,134.6 million in the third quarter of 2017, thus generating an accumulated result of \$ 2,457.4 million in the first nine months of the year. The quarter's result showed a 25.7% increase in relation to the previous quarter, net of the effect of the income tax recorded in said period, and a 21.6% rise compared to the same quarter of 2016.

The quarterly annualized return on average equity was 21.7%, and the return on average assets amounted to 2.5%.

In July 2017, BBVA Francés carried out a primary follow-on equity offering in Argentina and abroad, issuing 75,781,788 new ordinary shares, equivalent to USD 400 million, which will allow the Bank to develop its growth plan.

Net financial income showed a 15.7% rise in relation to the previous quarter, and a 40% increase compared to the same quarter of 2016. Such increases are mainly the result of the credit activity growth in the private sector, due to foreign exchange differences and a higher volume of the Bank's own funds.

Net commissions grew 31.1% during the quarter, and 20% as compared to the same quarter of 2016, whereas administrative expenses increased 4.3% and 33% in the same periods.

In terms of activity, the private sector loan portfolio evolved positively, growing 20.8% in the quarter and 52.1% in the last twelve months.

Total non-performing loan ratio fell to 0.70%, whereas coverage amounts to 271.1%. Both effects are mainly explained by the growth of the loan portfolio. The higher generic provisions result in a 41% rise of charges of

non-performing loans.

Total deposits reached \$ 129.9 billion, showing a moderate growth of 3.4% during the quarter, aligned with the industry and of 41.4% during the year. As of September 30, 2017, sight deposits represented 65% of the Bank's total deposits, thus remaining at a level similar to the previous quarter.

The Bank's liquidity level amounts to 34.7%, thus showing a 700 bp decrease with respect to the previous quarter, as a result of the higher loan volume. The capital ratio at the end of the quarter was 14.8%.

On August 10, 2017, BBVA Francés paid out AR\$ 911 million cash dividends corresponding to the 2016 fiscal year, which amounts to 148.69% of the share capital or \$ 1.4869 per share.

During the quarter, BBVA Francés executed repos with the Republic of Argentina for a total USD 250 million.

Table of Contents**Other events**

On October 31, 2017, the government announced the fiscal reform bill aimed at increasing investment, generating employment, and eliminating distortions. The bill proposes reforms on several of the main federal taxes, among which there is Income, VAT, Bank debits and credits, Fuels, and Social Security taxes.

Regulatory changes

On November 3, 2017, the Argentina Central Bank (BCRA) determined that the credit lines for productive financing and financial inclusion will be applied until December 2018.

The quote for 2018 will be a percentage of monthly non-financial private deposits in pesos as of November 30, 2017, according to the following schedule: January 2018: 16.5%, decreasing 1.5% monthly until reaching 0% in December 2018.

(1) IPC National since 1Q 17 / IPC CABA 4Q 16 - 3Q 16

Argentina has commenced the fourth consecutive quarter of economic recovery, with a 0.7% growth in the second quarter 2017 (deseasonalized), whereas, measured by the Gross Domestic Product (GDP), the economy grew 2.7% in the second quarter compared to the same period of 2016. The activity was mainly driven by investment, which

increased 7.7% year-over-year, and by consumption performance, which hiked 4.3% in the same period.

Such recovery is validated by other higher frequency estimators. Thus, the August figure, the last available issue of the Monthly Economic Activity Estimator (EMAE in Spanish), shows economic activity gaining momentum by increasing 0.3% (deseasonalized series) and 4.3% year-over-year.

Similarly, the industrial activity grew 5.1% in August, as compared to the same period of the previous year, accumulating 1.4% in the first eight months of the year, according to the Monthly Industrial Estimator (EMI in Spanish) that shows signs of recovery in most sectors surveyed.

In the third quarter, inflation was 5.1%, thus the CPI accumulates a 17.6% variation during the year. Whereas core inflation grew 4.9% in the same period, regulated prices increased 4.6% driven by public services rates adjustments.

Table of Contents

The BCRA continued with its astringent monetary policy profile, keeping the reference rate at 26.25% until October. Then, reaffirming its commitment, the Central Bank carried out two monetary policy rate raises: the rate increased by 150 bp and 100 bp in the meeting held October 25 and November 7, respectively, reaching 28.75%.

In the third quarter 2017, the peso depreciated by 4.3%, from AR\$ 16.60 /USD at the end of June to AR\$ 17.32 at the close of September, evidencing thus a devaluation of 14.2% in the last 12 months.

As of September 30, 2017, international reserves amounted to USD 50,237 million, a growth of USD 2,242 million since the closing of June 2017.

The same as in the first two quarters of the year, the fiscal deficit easily met the goal, set at 3.2% of GDP. In the third quarter of the year, primary deficit totaled \$ 78,093 million, which represents 2.2% of GDP, and a 19.3% reduction in relation to the result shown in the same period of 2016. Economic subsidies, which basically comprise energy and transport, and account for 66% of the primary fiscal deficit of the period July-September, fell 33.9% compared to the same period of the previous year, in which they accounted for 80.9% of the primary fiscal result.

Presentation of the information

The balances in foreign currency as of September 30, 2017 were converted into pesos at the exchange rate published by the Argentina Central Bank (BCRA in Spanish) for that date (AR\$ 17.32 / USD).

The information in this press release contains unaudited financial information that consolidates, line item by line item, all of the banking activities of the BBVA Francés Group. The Bank's share interest in Grupo Consolidar, BBVA Consolidar Seguros S.A. and Consolidar AFJP (in liquidation) is shown as Investments in Other Companies (recorded under the equity method), and the corresponding results are included in Income from Equity Investments .

It is worth highlighting that the information in this press release may differ from the information published by the BBVA Group for Argentina, which is prepared according to Spanish accounting standards for all BBVA Group affiliates.

Disclaimer

This press release contains or may contain forward-looking statements, including, but not limited to, estimates of prospects for the Argentine economy, BBVA Francés' earnings, business plans, expense and operational structure adjustments, capitalization plan, and trends affecting BBVA Francés' financial condition and results of operations. Any forward-looking statement included in this press release is based on current expectations and estimates, but actual results and events may differ materially from the anticipated results and events. Such factors that could cause actual results and events to differ materially from the expected results or events include: (1) changes in the economic, regulatory and/or political environment, (2) changes in domestic or international stock market prices, exchange rates or interest rates; (3) changes in the markets of the Bank's products and services; (4) increased competition; (5) changes in technology; or (6) changes in the financial condition, creditworthiness or solvency of the Bank's customers, debtors or counterparties. It is recommended that these forward-looking statements be taken with caution, since they are only applicable to the date of the present document. We advise you to consult the Bank's Accounting Statements, as well as all the presentations that are periodically filed before the Comisión Nacional de Valores (Argentine equivalent to the

US SEC) and the Buenos Aires Stock Exchange.

Table of Contents**Third Quarter Results**

Within an economic environment showing signs of reactivation, and given the growth opportunities in the financial system, BBVA Francés is focused on increasing its market share.

In this respect, the Bank has continued with its customer acquisition strategy, by means of digital campaigns and strategic partners' alliances, and by reinforcing its presence not only in the retail banking segment, but also in the small and medium-size companies segment.

During the year, approximately 229,000 consumer customers and 1,500 new companies were added.

Others	174,455	231,226	220,100	79,433	127,723	-24.6%	36.6%
Financial Expenses	-2,351,616	-2,204,490	-2,216,835	-2,287,923	-2,636,033	6.7%	-10.8%
Net Financial Income	3,970,483	3,432,939	3,063,776	3,252,260	2,836,361	15.7%	40.0%

Net financial income grew 15.7% in the third quarter of the year, and 40% compared to the same quarter of 2016, mainly due to a higher volume of intermediation with the private sector, and to the increase of own funds.

On the other hand, income from assets adjusted by inflation fell as the result of the lower increase of the CER index in relation to the second quarter. Deposits average rate showed a slight increase, as a consequence of the policy implemented by the Central Bank.

The result for foreign exchange difference showed a positive evolution, both in trading income, which grew \$ 129.1 million, and in results from holdings that rose \$ 72.9 million during the quarter.

The Bank continued working on the reduction of local currency physical bills balance held at branches. During the quarter, said balances fell 12% versus the previous one, which represents an average 5% of deposits.

The NIM in local currency is the same compared to the previous quarter. Although there is a fall in lending rates, it is offset with a better funding mix. The NIM in foreign currency increased 30 basis points, driven by the improvement seen on the loan portfolio return.

Although the NIM by currency showed a positive evolution, total NIM fell 30 basis points due to the change in the mix, since dollar denominated assets grew 44% in the quarter, as the result of the placement of liquidity surpluses, whereas the peso denominated ones grew 10%. Total NIM deducting foreign exchange results fell 70 basis points in the quarter.

Net income from services grew 31.1% compared to the previous quarter, thus showing a positive evolution for all items. The quarter includes recurrent annual income, realized during the quarter analyzed. Disregarding such effect, the variation amounts to 20.5%.

Income grew 18.2% in the quarter, whereas expenditures did so by 6.3%.

Higher commissions from credit cards stand out, with consumptions increasing 8.7% and gaining market share. Other items that showed a good performance were fees from deposit accounts, which grew due to both the increase of activity and prices, and income from collection services.

Total Branches	251	252	252	251	251	-0.4%	0.0%

Administrative expenses increased 4.3% in the last three months and 33.0% in comparison with the same quarter of 2016.

General personnel expenses grew 2.5% over the previous quarter and 31% year-over-year. The period includes an \$ 80 million provision corresponding to personnel compensation commitments included in the banking collective agreement, which in 2016 impacted on the fourth quarter. Without such provision, expenditures would have fallen slightly during the quarter, and increased 25% compared to the same period of 2016.

General expenses rose 6.5% over the previous quarter and 35.6% year-over-year.

During the period, higher tax charges and amortizations were recorded due to higher activity, investments in technology and the addition of the corporate office. Price of branch rents also went up. These effects were partially offset by a reduction of the transport of valuables item, which evidences the actions taken by the Bank to control this expenditure.

The efficiency ratio improves by 850 bp during the quarter, to 57%, as the result of both higher income, and higher expenditure restraint.

Within the frame of the transformation strategy, it is worth highlighting that, during the year, cashier transactions in branches decreased 20%, thus allowing for a reallocation of resources to more productive tasks, while hard copy account statements continued to be reduced, as a result of a strong campaign to lure customers to choose the digital format.

Other Income / Expenditures

The Other Income/Expenditure item showed a loss of \$ 121.6 million in the third quarter of 2017, as the result of the fact that it includes higher provisions for other contingencies, mainly commercial.

Income from Equity Investments

Income from equity investments sets forth net income from related companies that are not consolidated. During the third quarter of 2017, the profit amounted to \$ 118.2 million.

The private sector loan portfolio totaled AR\$ 108.1 billion, growing 20.8% in the quarter and 52.1% year-over-year.

Table of Contents

As a result of the growth strategy implemented, the BBVA Francés market share of private loans grew 47 basis points during the quarter. The share reaches 8.1% as of September 30, 2017, and includes loans of affiliated companies consolidated within the financial statements, PSA Finance and Volkswagen.

In the last twelve months, loans in pesos increased 38.7%, while dollar loans rose 130.7%.

During the quarter, there stands out the dynamics of companies financing, both in local and foreign currency, and of consumption loans, mainly mortgage loans, unsecured and secured car loans.

Exposure to the Public Sector registered a 1.6% reduction compared to the previous quarter, and a 71.2% increase in the last twelve months.

The portfolio of public securities fell 5.8% over the previous quarter and increased 120.5% in the last twelve months, mainly due to a larger placement in dollar denominated Treasury Bills.

Edgar Filing: BBVA BANCO FRANCES SA - Form 6-K

During the quarter, repos were executed with the Argentine Republic for USD 250 million, maturing in December 2018 and March 2019.

As of September 30, 2017, the Federal Government public debt represented 3.7% of the Bank's assets, while Central Bank Bills totaled 7.2% thereof.

(1) Non-performing loans include: all loans to borrowers classified as Problem , Deficient Servicing , High Insolvency Risk , Difficult Recovery , Irrecoverable and Irrecoverable for Technical Decision according to the new Central Bank debtor classification system.

As of September 30, 2017, the asset quality ratio (non-performing loans/total loans) was 0.7%, with a coverage ratio (provisions/non-performing loans) of 271.06%.

The non-performing ratio showed an improvement in relation to both the previous quarter, and the same quarter of 2016, evidencing a fall of 15 and 13 basis points, respectively, mainly due to the important growth of the loans portfolio.

On the other hand, the risk cost was 1.43%. The increase is explained by the higher generic provisions recorded during the quarter.

The following table shows the evolution of provisions for loan losses, including charges from transactions accounted for under Other receivables due to financial intermediation.

Evolution of provisions (in thousands of pesos)	Quarter ended				% quarter ended 09-30-17 vs quarter ended

As of September 30, 2017, total deposits reached AR\$ 129.9 billion, a rise of 3.4% during the quarter, and of 41.4% in the last twelve months.

Peso deposits remained stable in relation to the previous quarter, showing a growth of 19.8% in the last twelve months. Sight deposits fell 2.2% during the quarter, but grew 33.8% year-over-year, whereas time deposits grew 2.8% during the quarter and 3.9% year-over-year. Sight deposits performance is affected by higher foreign exchange purchases from customers during the pre-elections period.

At the end of September 2017, deposits in foreign currency reached AR\$ 45.9 billion (equivalent to USD 2.7 billion), representing 35.1% of the Bank's total deposits.

Conference Call

On Monday November 13, 2017 at 11:30 a.m. (Argentine time) a conference call will be held to comment on the quarter's results.

Those who wish to participate should contact the following numbers:

0800-444-2930 (from Argentina)

+ 1 844-413-3973 (from the United States)

+ 1 412 902 6509 (from other countries)

Conference ID: BBVA

To access the webcast:

<http://webcast.engage-x.com/Cover.aspx?PlatformId=FEX%2BWeXOT%2FCpl1KCiaH%2BmA%3D%3D>

To request the Replay, please call

1-877-344-7529 (from United States)

1-412-317-0088 (from other countries)

Table of Contents

The replay will be available until Friday, November 24, 2017

Replay access code: 10113167
