1. BBVA Francés reports consolidated first quarter earnings for fiscal year 2018.

Buenos Aires, June 1, 2018 - BBVA Francés (NYSE: BFR.N; BCBA: FRA.BA; LATIBEX: BFR.LA) reports consolidated first quarter results for the January-December 2018 fiscal year.

The consolidated financial statements as of March 31, 2018 are the first quarterly financial statements presented in accordance with Communication A 6114 of the Central Bank of Argentina (BCRA) ( financial statements under IFRS regulations ). For comparative purposes, the amounts for previous quarters included in the text are presented in accordance with IFRS, but the amounts included in the tables remain in the same format as presented for last quarter of 2017.

### Highlights of the Quarter

BBVA Francés reached a net income in the first quarter of 2018 of AR\$ 1,545.3 million, 18.9% lower than the net income registered in the previous quarter and 178.3% higher compared to the first quarter of 2017, in both cases restated for comparative purposes.

The previous quarter's net income restated for IFRS (AR\$ 1,905 million vs AR\$ 1,420 million previously released) is mainly explained by a lower deferred income tax charge, due to the application of the reduced income tax rate approved by Congress last December.

The ROA, return on assets, reached 2.9% and the ROE, return on equity was 20.3% compared to 2.8% and 22.2%, respectively in the previous quarter, without considering the IFRS adjustment. It is important to mention that the equity increase originated mainly in the revaluation of real estate had a negative impact of approximately 300 bp in the ROE ratio.

Net financial income increased 6.6% compared to the previous quarter and 52% in the last twelve months, mainly due to the higher volume of activity.

Net income from services increased 1.3% during the first quarter of 2018 and 36.2% compared to the same quarter of 2017. The quarterly variation was mainly due to higher revenues from deposits and collections services, while credit and debit card fees decreased by 4.1% as a result of the reduction in the merchant discount rate partially offset by higher volume.

## Edgar Filing: BBVA BANCO FRANCES SA - Form 6-K

Administrative expenses grew 3.2% during the quarter and 25.8% compared to the same quarter of 2017, reaching an efficiency ratio of 57.4%, 150 bp lower than the restated ratio of the previous quarter.

The asset quality ratio (Non-Performing Loans/Total loans) stood at 0.72% with a coverage (Total allowances/NPL) of 250.5% as of March 31, 2018. The cost of risk was 1.32%, 1 bp lower than the previous quarter.

The private loan portfolio increased 8.9% during the first quarter of the year, in line with the market, and 69.4% in the last twelve months (vs 56% for the system). The performance of mortgages and consumer loans portfolios stood out during the quarter, increasing 31.9% and 16.5%; respectively.

Total deposits grew 3.9% during the quarter and 30.3% compared to the quarter ended March 31, 2017, both in line with the market.

As of March 31, 2018, BBVA Francés maintained a capital ratio of 15.7%, 100 bp over the level at December 31, 2017, which exceeds the minimum required by AR\$ 15.6 billion.

As of March 31, 2018, liquid assets accounted for 38% of the Bank's deposits.

The Bank continued to increase its client base, adding 133,600 net clients during the quarter; and reaching a total of 2.76 million clients.

#### Other events

The Annual Ordinary and Extraordinary Shareholders Meeting, held on April 10, 2018 approved a cash dividend payment for a total amount of AR\$ 970 million, such payment was effective on May 9, 2018.

The Shareholders Meeting also approved an increase in the amount and extension of the global program of negotiable bonds from USD 750 million to USD 1,500 million, including the possibility of UVA denominated issuances and the creation of a global program of short-term debt securities with repayment terms of up to one year (the VCPs ) for up to USD 250 million.

BBVA Francés decided to determine the income tax for the 2017 fiscal year, ending in May 2018, considering the effects of inflation. At the same time, a declarative action of certainty was presented, requesting the inapplicability of the rules that suspend the inflation adjustment, based on the confiscatory effect arising thereof. Furthermore, it is hereby informed that upon request by the BCRA, in its memorandum dated May 29, 2017, with regard to the Income Tax Affidavit corresponding to the 2016 fiscal year. BBVA Francés established a AR\$ 1,021.5 million provision to cover the possible contingency derived from the decision adopted concerning 2017 fiscal year Income Tax.

#### Regulatory Changes

In May 2018, the BCRA established ,through its Communication A 6501 , that as of May 7, 2018 the Net Global FX position when converted to pesos at the applicable exchange rate on a daily basis cannot be greater than 10% of the previous month integrated capital (RPC) or the Bank s own liquid assets, whichever is less.

The BCRA also established that for the period May-July 2018, compliance with the minimum cash requirement will be made on a quarterly basis. For the month of May, compliance with the minimum daily requirement was

eliminated.

In the first quarter of 2018, BBVA Francés reached a net income of AR\$ 1,545.3 million, registering a decrease of 18.9% decrease compare to the previous quarter and a 178.3% increase compared to the first quarter of 2017.

The previous quarter's net income restated to IFRS (AR\$ 1,905 million vs AR\$ 1,420 million previously released) is mainly explained by a lower deferred income tax charge, due to the application of the reduced income tax rate approved by Congress last December.

Regarding the restated net income for the first quarter of 2017, it reached AR\$ 555.2 million compared to the AR\$ 1,605.7 million released twelve months before, mainly due to the inclusion of a provision of AR\$ 1,186 million; provision due to the gain originated by the inflation adjustment application on the 2016 income tax calculation, such provision was previously recorded in the second quarter of 2017.

Net financial income grew by 6.6% compared to the previous quarter and 52.2% compared to the first quarter of 2017.

Financial income increased 14% during the first quarter mainly due to a higher volume of intermediation with the private sector, the UVA adjustment on the portfolio of private loans and higher income from public securities, whereas the foreign exchange difference decreased by 4.5%. Financial expenses grew 28.6% due to the increase in the interest rate for time deposits in pesos (240 bp) and a higher participation of these liabilities compared to sight accounts.

The total NIM had a slight negative impact cost due to the currency mix, a consequence of a greater activity in USD compared to AR\$.

The interest rate for time deposits in pesos registered an increase of 240 bp in the quarter due to their short term duration while the interest rates for loans increased by 140 bp, reflecting a higher average duration.

The following table shows return on assets and cost of liabilities by currency: in pesos and dollars.

The gross financial margin generated by assets of the public sector increased by 28.1% and 113.5% compared to the previous quarter and to the first quarter of 2017, respectively, mainly as a consequence of higher results generated by the Central Bank's bills portfolio, basically due to a higher holding of these assets on average and higher interest rates.

During the quarter. The Bank sold the Bogar 20 portfolio, an inflation-adjusted bond, which totaled AR\$ 1.5 billion as of December 2017.

Net income from services increased 1.3% compared to the previous quarter and 36.2% compared to the first quarter of 2017.

Service charge income grew 2.4% and 30.8% during the same periods, driven by an 15.4% increase in charges generated by deposit accounts as well as a 26.1% in charges generated by collection services, while credit cards fees decreased by 4.1% due to the decrease in the merchant discount rate, which was partially offset by a higher volume of activity. BBVA Francés increased its market share in consumption with VISA and Mastercard cards to 13.1% as of March 31, 2018, compared to 12.7% in December 2017.

Service charge expenses increased 3.1% during the quarter as the decline in the fees paid for our loyalty programs (-16%) were partially offset by higher processing fees.

Administrative expenses increased 3.2% during the previous three months and 25.8% compared to the first quarter of 2017.

Personnel expenses decreased by 1.6% during the quarter. Although this line item already includes an advance for the salary increase corresponding to 2018, the decrease compared to the previous quarter is explained by the higher charges recorded in the 2017 fourth quarter as a result of the application of the trigger clause due to the difference between the 2017 24.8% inflation rate and the 19.5% cap set in the labor agreement with the union and other compensation originating from such agreement and paid during the period.

General expenses increased 10.2% compared to the previous quarter and 25.9% compared to the same quarter of 2017.

During the period, there were higher charges, mainly in municipal and debit and credit taxes (+22.1% vs previous quarter), due to higher volume of income and level of activity.

Other line items that performed above the average were amortizations, including technological investment and the revaluation of the Bank's real estate assets, as well as electricity and communications, due to the increase in rates.

The carriage of valuables line continued to show a good evolution (-8.6%), as a result of improvements in the efficiency of processes introduced since the first half of 2017.

The efficiency ratio in the quarter reached 57.4%, showing an improvement of 150 bp compared to the previous quarter restated to IFRS.

#### Income from Equity Investments

Income from equity investments shows net income from related companies that are not consolidated. Over the first quarter of 2018, there was a AR\$ 39.9 million profit that was recorded mainly due to the equity investment in PSA Finance, Rombo Compañía Financiera and Consolidar Seguros.

As of March 31, 2018, the private sector loan portfolio totaled to AR\$ 139.4 billion, increasing 8.9% during the quarter and 69.4% in the last twelve months. BBVA Frances maintained its 8.3% market share of loans during the quarter and increased 62 bp compared to the first quarter of 2017, including loans from associated companies (VW Financial Services, PSA Finance and Rombo Compañía Financiera).

Peso and dollar-denominated loans grew during the first quarter by 6% and 8.8%, respectively.

The performance of finance to individuals was a highlight during the period, increasing 11.1% during the quarter and 58.3% compared to the first quarter of 2017, driven mainly by the increase in mortgages and in personal loans, which grew 31.9% and 16.5% during the quarter and 205.6% and 80.5% in the year, respectively.

Commercial loans grew 7.3% in the last three months and 78.4% compared to the previous year, boosted by foreign currency loans (export firms) that increased 19.1% and 179.2%, respectively. Whereas in local currency it remained at similar level compared to the previous quarter, due to lower seasonal growth of this type of loans and amortization of the productive investment loans portfolio. Compared to the first quarter of the previous year, it grew 47.4%.

As of March 31, 2018 total deposits amounted to AR\$ 160 billion, growing 3.9% and 30.3% during the quarter and in the last twelve months, respectively, both in line with the market.

Sight accounts remained at similar level compared to the previous quarter, while it grew 50.7% in the last twelve months. On the other hand, time deposits grew 15.4% during the quarter and 27.3% in the year.

Deposits in pesos grew 2.8% in the quarter. Transactional deposits declined 5.8% mainly due to the seasonal decrease in savings accounts after the significant growth occurred in December as a consequence of the half-annual extra salary, while time deposits grew 17.1% due to higher balances in both retail and corporate deposits, with an outstanding performance of UVAs time deposits.

It is important to mention that even though BBVA Francés had launched the UVAs time deposits during 2017, these started to show a better performance since the first quarter of 2018, represented 7% of total time deposits in AR\$.

Deposits in foreign currency grew 6% during the quarter reflecting the peso devaluation, and they account for 36% of the Bank's total deposits.
