New Credit Facility

On October 2, 2018, Northwest Natural Gas Company (the Company or NW Natural ) entered into a credit agreement for unsecured revolving loans with JPMorgan Chase Bank, N.A., as administrative agent, and Bank of America, N.A., U.S. Bank National Association, and Wells Fargo Bank, National Association, as co-syndication agents ( Credit Agreement or Facility ). The aggregate amount of the Facility is \$300,000,000, with an accordion feature whereby NW Natural may request increases in the aggregate commitment amount up to an additional \$150,000,000. The Facility is expected to be used primarily as back-up support to NW Natural 's commercial paper borrowing program.

The Facility replaces the Company 's prior credit agreement, dated December 20, 2012, between the Company and the parties thereto, with JPMorgan Chase Bank, N.A. as administrative agent and U.S. Bank, National Association, and Wells Fargo Bank, National Association, as co-syndication agents, which was terminated upon the closing of the Facility. There were no outstanding balances on the prior credit agreement, and NW Natural will not incur any early termination penalties upon termination of the prior credit agreement.

The Facility will also permit the issuance of letters of credit in an aggregate amount up to \$60,000,000 for the account of NW Natural. Any drawing on a letter of credit will be deemed an advance under the Facility and will bear interest at the rate applicable to Revolving Loans (as defined in the Credit Agreement). Swingline Loans (as defined) are also available under the Facility on a same day basis to NW Natural in an aggregate amount not exceeding \$15,000,000 or the aggregate amount of the Facility when combined with all other amounts outstanding under the Facility. The Company must repay each Swingline Loans in full within five business days, and swing line loans may not be outstanding for more than ten business days in any calendar month.

The maturity dates for any individual borrowings (other than Swingline Loans) under the Facility would be October 2, 2023, subject to two, additional one-year extensions. NW Natural may prepay any ABR Loan (as defined), in a minimum amount of \$1,000,000, without premium payment or penalty. NW Natural may prepay a Eurodollar Loan (as defined) but would have to pay breakage and other fees, if prepaid on a date that is other than the end of an interest period.

Under the terms of the Credit Agreement, NW Natural will pay arrangement fees, upfront fees, administrative agent fees and annual commitment fees but is not required to maintain compensating bank balances. The interest rates on borrowings under the Facility, if any, are based on the Company 's credit ratings and on then-current market interest rates.

The Facility requires that NW Natural maintain credit ratings with Standard & Poor 's ( S&P ) and Moody 's Investor Services ( Moody 's ) and that NW Natural notify the banks of any change in NW Natural 's Debt Rating (as defined) by such rating agencies. A change in NW Natural 's Debt Rating is not an event of default, nor is the maintenance of a specific minimum level of credit rating a condition to drawing upon the Facility. However, interest rates on any loans outstanding under the Facility are tied to credit ratings, which would increase or decrease the cost of any outstanding borrowings when ratings are changed.

Interest on any borrowing under the Facility, if any, is payable (a) with respect to any ABR Loan (other than a Swingline Loan), on the second business day of each of March, June, September and December and (b) with respect to any Eurodollar Loan, on the last day of the Interest Period (as defined) applicable to the Borrowing (as defined) for which such Loan is a part and, in the case of a Eurodollar Borrowing with an Interest Period of more than three months duration, each day prior to the last day of such Interest Period that occurs at intervals of three months duration after the first day of such Interest Period, and (c) with respect to any Swingline Loan, the day that such borrowing is required to be repaid. All principal and unpaid interest under the Facility is due and payable on October 2, 2023, subject to two additional one-year extensions.

The Credit Agreement requires NW Natural to maintain a consolidated indebtedness to total capitalization ratio of 70 percent or less. Failure to comply with this covenant would entitle the banks to terminate their lending commitments and to accelerate the maturity of all amounts outstanding. NW Natural was in compliance with a similar covenant requiring the maintenance of an indebtedness to total capitalization ratio as of June 30, 2018.
