SKYE INTERNATIONAL, INC. AND SUBSIDIARIES
(Debtor-In-Possession)
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2010 (unaudited)

Note 1. CONDENSED FINANCIAL STATEMENTS

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at March 31, 2010, and for all periods presented herein, have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2009 audited financial statements. The results of operations for the periods ended March 31, 2010 and 2009 are not necessarily indicative of the operating results for each respective full year.

Note 2. VOLUNTARY PETITION UNDER CHAPTER 11

On December 16, 2009, the Company ("Debtor") filed a Voluntary Petition under Chapter 11 of the federal bankruptcy laws in the United States Bankruptcy Court for the District of Nevada ("the Bankruptcy Court"). Under Chapter 11, certain claims against the Debtor in existence before the filing of the Voluntary Petition under the federal bankruptcy laws are stayed while the Debtor continues business operations as Debtor-in-Possession. These claims are classified as liabilities subject to compromise. Additional claims (liabilities subject to compromise) may arise after the filing date resulting from rejection of executor contracts, including leases, and from the determination by the court (or agreed to by parties in interest) of allowed claims for contingencies and other disputed amounts. Claims secured against the Debtor's assets (secured claims) also are stayed, although the holders of such claims have the right to move the court for relief from the stay. Secured claims are secured primarily by liens on the Debtor's property, plant, and equipment.

On April 19, 2010 the Company filed its Disclosure Statement and Plan of Reorganization (the "Reorganization Plan") with the Bankruptcy Court and a copy of such Reorganization Plan was mailed to all creditors and shareholders. On or about May 7, 2010 the Company filed a motion with the Bankruptcy Court seeking approval to file an amended Reorganization Plan (the "Amended Reorganization Plan"). As of the date of this Report the Amended Reorganization Plan has not yet been filed and mailed to creditors and shareholders, but such actions are expected in the near term. The Company incurred \$52,575 of legal costs and \$650 of trustee costs relative to the bankruptcy during the period ended March 31, 2010.

Note 3. GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and allow it to continue as a going concern. The Company has incurred net losses since inception with an accumulated deficit of \$18,054,379 as of March 31, 2010. These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern.

Management's Plans

The Company commenced commercial manufacturing, sale and distribution of its patented FORTIS™ electric tankless water heater in late 2009. The Company continues to develop its wholesale sales and distribution channel across the United States in order to create a commercially viable outlet for the Company's products.. Despite commencing production, the Company expects that it may take up to one year for the production design and processes to stabilize. The Company has continued to focus development efforts on the commercialization of its patented and pending Paradigm™ technology, and has recently been successful in developing a commercial 6.3 kW and 7.2 kW versions intended for use as a boost heater in residential, commercial and light industrial applications.

The Company has funded all of its capital needs over the 2009 fiscal year by way of private placements and loans from related parties. The Company's business strategy requires it to raise in excess of \$3 million over the next 12 month period in order to fully execute its business plan. Management believes that, in order to properly exploit the introduction of its products, it will be necessary to be positioned not only as a quality supplier of products but also able to supply a sufficient volume of product to meet wholesale demand.

SKYE INTERNATIONAL, INC. AND SUBSIDIARIES
(Debtor-In-Possession)
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2010 (unaudited)

Note 4. INVENTORY

The Company contracts with a third party to manufacture the units and is neither billed for nor obligated for any work-in-process. The Company only supplies certain parts and materials and is then billed for completed products. The majority of inventory is in finished goods. Parts and material inventory is stated at the lower of cost (first-in, first-out) or net realizable value that was \$723,642 at the end of period ending March 31, 2010. Parts and materials purchased for development and testing are expensed directly to Research and Development.

Note 5. USE OF ESTIMATES

The discussion and analysis of the Company's financial condition and results of operations are based upon the Company's consolidated financial statements that have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires making estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates under different assumptions or conditions. Critical accounting policies are defined as those that entail significant judgments and estimates, and could potentially result in materially different results under different assumptions and conditions.

Note 6. SIGNIFICANT EVENTS

During the three months ended March 31, 2010, the Company issued 270,000 shares of common stock to related parties for compensation in lieu of cash at \$.25 per share.

During the three months ended March 31, 2010, the Company issued \$500,000 in related party notes payable. The related party notes payable bear interest at 10% and are due the earlier of two years from the date of funding of the first tranche under the Debtor-in-possession financing or the closing of the Chapter 11 bankruptcy.

Note 7. RECENT ACCOUNTING PRONOUNCEMENTS

The following is a listing of the most recent accounting standards and their effect on the Company.

In October 2009, the FASB issued ASU 2009-13, Multiple-Deliverable Revenue Arrangements, (amendments to FASB ASC Topic 605, Revenue Recognition) ("ASU 2009-13") and ASU 2009-14, Certain Arrangements That Include Software Elements, (amendments to FASB ASC Topic 985, Software) ("ASU 2009-14"). ASU 2009-13 requires entities to allocate revenue in an arrangement using estimated selling prices of the delivered goods and services based on a selling price hierarchy. The amendments eliminate the residual method of revenue allocation and require revenue to be allocated using the relative selling price method. ASU 2009-14 removes tangible products from the scope of software revenue guidance and provides guidance on determining whether software deliverables in an arrangement that includes a tangible product are covered by the scope of the software revenue guidance. ASU 2009-13 and ASU 2009-14 should be applied on a prospective basis for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010, with early adoption permitted. The Company is currently evaluating, but does not expect adoption of ASU 2009-13 or ASU 2009-14 to have a material impact on the Company's consolidated results of operations or financial condition.

In January 2010, the Financial Accounting Standards Board issued Accounting Standards Update No. 2010-06, an update to Statement of Financial Accounting Standards Board Auditing Standard Codification Topic 820 "Fair Value Measurements and Disclosures" (FASB ASC 820). The update provides amendments to FASB ASC 820 that will provide more robust disclosures about (1) the different classes of assets and liabilities measured at fair value, (2) the valuation techniques and inputs used, (3) the activity in Level 3 fair value measurements, and (4) the transfers between Levels 1, 2, and 3. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The adoption of the updates to FASB ASC 820 did not have a material impact on the financial statements.

Note 8. RESTATEMENT OF FINANCIAL STATEMENTS

In August 2009, the Company was informed that the Public Company Accounting Oversight Board ("PCAOB") revoked the registration of Moore & Associates Chartered ("Moore") who was serving as the Company's independent auditor. The revocation was a result of Moore's violation of PCAOB rules and auditing standards. This revocation of Moore's registration required the Company to have the financial statements issued for the year ended December 31, 2008 re-audited.

The re-audit produced material differences from the previously filed versions. Originally, the Company miscalculated the 2008 beneficial conversion feature which resulted in an understatement of liabilities amounting to \$540,000 and a nominal change in the related interest expense. Further, the Company miscalculated the fair value expense of stock options that were granted during 2008, resulting in an understatement of the fair value expense amounting to \$129,912. The re-audit differences impacted the March 2009 original filing. In addition, for the year ended December 31, 2009, the Company miscalculated the fair value expense of stock options that were granted during the period ended March 31, 2009 resulting in an understatement of the fair value expense amounting to \$571,167. Included in this filing are the restated March 2009 financial statements. For comparative purposes, the table below presents the re-audited balance sheet and income statement compared to the original filing for period ended March 31, 2009.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2010 (unaudited)

Note 8. BANKRUPTCY PROCEEDINGS

As a consequence of the Company's Chapter 11 bankruptcy proceeding, substantially all claims against the Company in existence prior to the filing of the Voluntary Petition or relating to acts or omissions prior to the filing of the Voluntary Petition for relief are stayed. These claims are reflected in the accompanying Consolidated Balance Sheet as "Liabilities subject to compromise" as of March 31, 2010. These amounts represent the Company's best estimate of known or potential pre-petition liabilities that are probable of resulting in an allowed claim against the Company in connection with the Chapter 11 cases and are recorded at the estimated amount of the allowed claim which may be different from the amount for which the liability will be settled. Such claims remain subject to future adjustments. Adjustments may result from actions of the Bankruptcy Court, negotiations, rejection or acceptance of executory contracts and real property leases, determination as to the value of any collateral securing claims, proofs of claim or other events.

Liabilities subject to compromise consist of the following:

	As of March 31 2010
Convertible Notes made in favor of a related party, Unsecured, Mature five-years from issue date, bear 10% Interest payable quarterly, principal and interest convertible into one common share for each outstanding \$0.25. Principal amount of \$1,500,000 net of the discount for the fair value of the beneficial conversion feature of \$432,975 as of March 31, 2010.	\$ 1,067,025
Unsecured Demand Note made in favor of related party, 10% interest	25,000
Secured Loan made in favor of related party, 10% interest, due at September 4, 2012	369,800
Unsecured Demand Note made in favor of former affiliate, 10% interest	150,000
Secured Loan made in favor of related party, 10% interest, due at September 4, 2012	164,000
Unsecured Demand Note made in favor of former affiliate, 10% interest	78,000
Total Debt subject to Compromise	1,853,825
Accounts Payable	275,790
Accrued interest payable	288,288
Total Liabilities subject to Compromise	\$2,417,903

Reorganization expenses are presented separately in the consolidated Statements of Operations on a net basis and represent items realized or incurred as a direct result of the Company's Chapter 11 proceedings. For the period ended March 31, 2010, the Company incurred \$52,575 in legal fees and \$650 in trustee fees relating to the bankruptcy.

Note 9. STOCK OPTIONS

Changes in stock options for the periods ended March 31, 2010 and December 31, 2009 consisted of the following:

Number Of	Weighted Average Exercise	Remaining Contractual Term	Intrinsic
--------------	---------------------------------	----------------------------------	-----------

Edgar Filing: SKYE INTERNATIONAL, INC - Form 10-Q

	Shares	Price	(In Years)	Value
2009:				
Beginning Balance	1,700,000	\$ 0.65	4.65	\$ -
Granted	1,660,000	0.60	3.56	-
Exercised	-	-	-	-

FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements. All statements other than statements of historical fact are “forward-looking statements” for purposes of federal and state securities laws, including, but not limited to, any projections of earnings, revenue or other financial items; any statements of the plans, strategies and objections of management for future operations; any statements concerning proposed new services or developments; any statements regarding future economic conditions or performance; any statements or belief; and any statements of assumptions underlying any of the foregoing.

Forward-looking statements may include the words “may,” “could,” “estimate,” “intend,” “continue,” “believe,” “exp” “anticipate” or other similar words. These forward-looking statements present our estimates and assumptions only as of the date of this report. Accordingly, readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the dates on which they are made. Except for our ongoing securities laws, we do not intend, and undertake no obligation, to update any forward-looking statement. Additionally, the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 most likely do not apply to our forward-looking statements as a result of being a penny stock issuer. You should, however, consult further disclosures we make in future filings of our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

Although we believe that the expectations reflected in any of our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Our future financial condition and results of operations, as well as any forward-looking statements, are subject to change and inherent risks and uncertainties. The factors impacting these risks and uncertainties include, but are not limited to:

- o our ability to diversify our operations;
- o our ability to successfully compete in the energy efficient industry, including our ability to achieve EnergyStar® recognition of our products;
- o our inability to raise additional financing for working capital;
- o the fact that our accounting policies and methods are fundamental to how we report our financial condition and results of operation which may require management to make estimates about matters that are inherently uncertain;
- o our ability to attract key personnel;
- o our ability to operate profitably;
- o deterioration in general or regional economic conditions;
- o changes in U.S. GAAP or in the legal, regulatory and legislative environments in the markets in which we operate;
- o adverse state or federal legislation or regulation that increases the costs of compliance, or adverse findings by a regulator with respect to existing operations;
- o our inability to achieve future sales levels or other profitable operating results;
- o the inability of management to effectively implement our strategies and business plans;
- o the unavailability of funds for capital expenditures.

AVAILABLE INFORMATION

We file annual, quarterly and special reports and other information with the SEC that can be inspected and copied at the public reference facility maintained by the SEC at 100 F Street, N.E., Room 1580, Washington, D.C. 20549-0405. Information regarding the public reference facilities may be obtained from the SEC by telephoning 1-800-SEC-0330. The Company’s filings are also available through the SEC’s Electronic Data Gathering Analysis and Retrieval System which is publicly available through the SEC’s website (www.sec.gov). Copies of such materials may also be obtained by mail from the public reference section of the SEC at 100 F Street, N.E., Room 1580, Washington, D.C.

20549-0405 at prescribed rates.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the financial statements and accompanying notes included in this Form 10-Q.

Business of the Company

The Company is in the business of designing, developing, and marketing consumer water heating appliances. All of the Company's products are designed by in-house engineering and contract engineers from third party engineering firms. In an effort to transition to a "fabrication free" business model, all appliances produced for the Company are manufactured by third party contract manufacturers. The Company first entered its current line of business through the acquisition of Envirotech and its product line - the ESI-2000 electric tankless water heater. Though viewed by many to be a significant advancement in whole house electric tankless water heaters, the ESI-2000 product line never achieved critical sales levels, and thus production of the ESI-2000 product line concluded in late 2005. In response to lackluster ESI-2000 product sales, the Company engaged in a substantial research and development program to design a line of replacement heating appliances. The first product that the Company released to the market in October 2008 in limited volumes was the FORTIS™ electric tankless whole house water heater. The FORTIS™ is small, easy to install and supplies virtually endless amounts of hot water with energy savings. The FORTIS™ uses advanced technology and high quality stainless steel components that are expected to provide increased reliability and longevity. SKYE's tankless water heaters generate heated water only as long as hot water is required and only at the temperature desired. Since electricity is only used when heated water is required, the cost of heating water can be reduced by as much as 40% or more compared to a storage type water heater. Because all of SKYE's products are compact, durable, self-contained and safe, they can be easily installed close to where hot water is being used, and they are ideal for condos, apartments, multifamily residences and homes where space is at a premium or where instant hot water is desired.

Liquidity and Capital Resources

On December 16, 2009 we filed a voluntary petition of Bankruptcy in the United States Bankruptcy Court for the District of Nevada in Reno, Nevada (the "Bankruptcy Court") seeking Debtor-in-Possession status while we pursue reorganization under Chapter 11. At the time of the voluntary petition filing, we claimed total liabilities of \$3,167,387 and total assets of \$1,050,529. Additionally, the schedules to the voluntary petition disclosed three creditors holding secured claims of \$577,332 and 53 creditors holding unsecured claims of \$2,590,055. On December 21, 2009, the Bankruptcy Court issued an Order approving a Debtor-in-Possession interim financing plan between the Company and Summit Growth Management LLC ("Summit") in the gross amount of \$500,000 less fees, expenses, legal fees and a prior loan of \$80,000. At a hearing on February 19, 2009, the Court issued a Final Order to approve the terms of the Debtor-in-Possession financing agreement between the Company and Summit in the total gross amount of \$2,000,000. The "DIP Financing Agreement" is more fully described in the exhibits to the registrant's report on Form 8-K, filed December 17, 2009. The Company prepared and filed a Joint Plan of Reorganization and Disclosure Statement (the "Reorganization Plan") that was subsequently mailed to our creditors and shareholders for consideration and approval. On or about May 7, 2010 we filed a motion with the Bankruptcy Court seeking approval to file an amended plan of reorganization (the "Amended Reorganization Plan"), however as of the date of this Report the Amended Reorganization Plan has not yet been approved or mailed to creditors and shareholders for review and consideration. As of the date of this Report, the Company has received \$1,000,000 of the previously announced Debtor-in-Possession financing with an additional \$1,000,000 to be drawn thereunder.

A critical component of our operating plan impacting our continued existence is the ability to obtain additional capital through equity and/or debt financing. Since inception, we have financed our cash flow requirements primarily through

issuances of common stock and debt. As we continue our activities, we are likely to continue to experience net negative cash flows from operations, pending receipt of significant revenues from sales of our products. Most of the Company's cash needs have been met through loans advanced to the Company by certain of its related party directors and some private placement purchases. The Company expects that additional operating losses will occur until revenue is sufficient to offset the costs incurred for marketing, sales and product development. Until the Company has achieved a sales level sufficient to break even, it will not be self-sustaining or competitive in the areas in which it intends to operate. The Company will require additional working capital for general operations and otherwise to implement its sales and marketing plans. We anticipate obtaining additional financing to fund operations through draws on the DIP Financing, common stock offerings, debt offerings and bank borrowings, to the extent available and if approved by the Bankruptcy Court during the Chapter 11 proceedings, or to obtain additional financing to the extent necessary to augment our working capital. In the event we cannot obtain the necessary capital to pursue our strategic plan, we may have to significantly curtail our operations. This would materially impact our ability to continue operations. There is no assurance that the Company will be able to obtain additional funding when needed, or that such funding, if available, can be obtained on terms acceptable to the Company, or if acceptable, that such funds will be approved by the Bankruptcy Court. It is likely that any debt or equity financing will have a negative impact on our financial condition and will result in additional dilution of our stockholders common share interests and this dilution could be significant.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - continued

Liquidity and Capital Resources - continued

At March 31, 2010, we had cash and working capital of \$376,147 and \$953,999, respectively, as compared to cash of \$333,953 and working capital of \$868,925 at December 31, 2009. The primary reason for the improvement in working capital is the infusion of the DIP financing funds. As a measure to reduce cash expenditures, we issued a total of 270,000 restricted common shares to our President, Chief Financial Officer, and Chief Operating Office valued at \$67,500 for compensation during the three months ended March 31, 2010.

Satisfaction of our cash obligations for the next 12 months.

As of March 31, 2010 we did not have sufficient available cash to pursue our business plan. With the intention to continue to expand FORTIS™ production, acquire additional Heatwave™ inventory for distribution and to acquire the tooling and supplies necessary to commence commercial production of the Paradigm™ product line, we intend to make further debt draws available to us under the Court approved DIP Financing and also plan to seek financing for operations through equity and/or debt or other means that may become available to us. If we are not able to receive any additional funds, we cannot continue our proposed business operations.

Summary of any product research and development that we will perform for the term of the plan.

We anticipate contracting with outside engineering firms to provide the necessary research and development for new product lines incorporating the Company's Paradigm™ technology. Over the balance of fiscal 2010 the Company expects to expend approximately \$50,000 to \$100,000 in additional research and development initiatives to complete engineering on new product offerings currently under development, including three-phase and commercial water heaters, as well as heaters designed to incorporate solar additions. A significant amount of effort and cash expenditures have been recently focused on completing the safety certification of our pending Paradigm™ product line. However, certification fees will continue as we seek safety certifications of new products generated from current engineering efforts.

Expected purchase or rent of plant and significant equipment.

As we continue to grow our sales force, we expect that it will be necessary to relocate to larger facilities capable of accommodating limited transshipping of parts and components used in the manufacturing process of our products. Additionally, as we add new sales territories, we expect that it will be necessary to add new computer hardware and software capable of assisting in the sales, distribution, accounting and customer service process. We will also work to integrate our accounting and inventory systems so as to provide real time access to critical product inventory information to aide in the timely distribution of our products to our customers.

Plan of Operation and Executive Summary

The Company is in the business of designing, contracting for the production of, and marketing consumer lifestyle appliances, including, initially a full suite of electric tankless water heaters. The Company's premier consumer product is the FORTIS™, a series of whole-house electric tankless water heaters. The Company markets the FORTIS™ tankless water heater through wholesale distribution reached primarily through an established and growing list of manufacturer representatives (outside contracted sales force) located in many states across the United States. Effective June 30, 2009, the Company added, on a test basis, the internet direct marketing channel to product sales through its newly formed subsidiary Tankless.com, Inc. The Company believes there is an established trend towards the sale of goods

by a manufacturer direct to the public, and thus it commenced product sales through its website www.tankless.com. The Company expects that the wholesale channel will continue to be the largest distribution channel for the Company and, to this end, it expects to continue to fully support its wholesale channel efforts through significant additions to its internet presence to provide a feature and content rich website for consumer information on the Company's "green" products and general tankless product information and specifications.

Having recently received Intertek safety certification to the UL499 and CSA C22.2 standards, the Company commenced sales of its private labeled HeatWave™ product line as of June 1, 2009. The HeatWave™ product is an innovative, powerful and inexpensive commercial point-of-use solution for local hot water code compliance in commercial buildings. Initial product supply volumes were limited in 2009 and thus we did not generate significant revenues from this product line. Commencing February 2010, we have greater product availability and thus we anticipate expanding the sales of the HeatWave™ product line. Specifically, we intend to position the HeatWave™ as a low cost code compliance alternative to traditional immersion resistance products. Leveraging the rapid heat delivery and significant duty cycle of the HeatWave™, management believes that it will soon become a plumbing specified unit of choice for many builders and mechanical specifiers.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - continued

Plan of Operation and Executive Summary - continued

The Company has been diligently pursuing the steps necessary to bring its Paradigm™ technology into commercial production. During the latter part of the third quarter of 2009, the Company submitted its proprietary Paradigm™ series point-of-use water heater in 208VAC, 240VAC and 277VAC for safety certification to the UL499 and CSA C22.2 standards. As of the date of this Report, we have received certification under the UL 499 and CSA 22.2 standards only for the 208VAC and 240VAC models. We are awaiting the results of ongoing safety investigations for further certification under UL 499 and CSA C22.2 for the 277VAC model. We expect that all of the needed certifications for this first product will be completed by July 2010. In order to expedite the availability of this product, we have commenced the purchase of all the manufacturing tooling required to produce the Paradigm™ booster series. Initially, product production volumes will be limited in order to test overall demand so as to manage the amount of capital necessary for this specific product line. As demand warrants, we expect to increase production. Therefore, we have contracts in place that provide significant flexibility to quickly expand production to meet expected product demand. First deliveries of the Paradigm™ product line is expected during the second quarter of 2010.

The Company has established relationships with several contract manufacturers to provide product manufacturing services. The Company has both low volume and high volume manufacturers available for all products except the HeatWave™ which currently has a single source supplier. Depending on the product demand, we are able to select a manufacturer for each specific product manufacturing run. As is the case with all new product introductions, we expect that it may take up to one year for the production and design processes to stabilize for each product line. Once such processes and designs have stabilized, the Company will seek and implement product cost reductions accordingly. As of the date of this Report, we have run extensive cost reduction analysis on the FORTIS™ product line that has resulted in certain design and component supplier changes. The financial impact of these cost reduction steps will not be realized until late 2010 or early 2011.

Over the balance of 2010, we will continue to focus our efforts on expanding sales of our FORTIS™ and HeatWave™ product lines through focused marketing efforts to plumbers and homebuilders in select markets. Additionally we expect to continue our research and development program to develop three-phase commercial tankless water heaters for regulatory certification in 2010. We will continue our lobbying efforts to gain recognition under the Environmental Protection Agency's "EnergyStar®" program and we will continue to work closely with our industry associations and Federal government to ensure that electric tankless becomes eligible for energy efficiency programs as they develop. We will continue to work and build our sales and customer service infrastructure to support product sales and revenue for the Company. We are currently engaged in a concerted effort to appoint manufacturer representatives over the balance of states in which we intend to focus our sales efforts. As a means to support our overall sales initiatives over the balance of 2010, we expect to add new features and functionality to our website including streaming video guides for installation and troubleshooting so that our potential customers can easily access consumer product information as a part of their buying process. All of our efforts are being done with a view to building a high quality brand that will continue to garner recognition in the industry as a premier supplier of high-end appliances. We will continue to support our wholesale distribution channel and work with our customers and wholesale partners to grow our business into a respected and trusted manufacturer of high-quality appliances.

Results of Operations

Revenues

2010	2009	Increase/(decrease)
------	------	---------------------

For the three months ended March 31:			\$	%
Revenue	\$28,098	\$44,989	\$(16,891)	(38)

Revenues for the first quarter ended March 31, 2010 were \$28,098 compared to revenues of \$44,989 for the three months ended March 31, 2009. The decrease in revenues was attributable to a decline in the sales for our FORTIS™ product line.

General and Administrative expenses

For the three months ended March 31:	2010	2009	Increase/(decrease)	
			\$	%
General & Administrative expenses	\$227,565	\$763,593	\$(536,028)	(71)

General and administrative expenses decreased by \$536,028 during the three-month period ended March 31, 2010 as compared to the same period in 2009. The decrease resulted from the fact that the Company did not issue any options during the quarter as it did in the same quarter in 2009. Despite the decrease in expenses, exclusive of charges in connection with option issuances, there was an increase in administrative expenses associated with the hiring of additional operational and administrative personnel.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - continued

Results of Operations - continued

Total Operating Expenses

For the three months ended March 31:	2010	2009	Increase/(decrease)	
			\$	%
Total operating expenses	\$317,580	\$954,428	\$(636,848)	(67)

Overall operating expenses during the quarter ended March 31, 2010 decreased by \$636,848 or approximately 67%, as a result of a decrease in legal and professional fees, as well as the fact that, because no options were issued during the period, no charge was recorded for the issuance of options as happened in the same quarter during the 2009 period. Legal fees also reduced during the period as compared to the same period in 2009.

Other Income (Expense)

For three months ended March 31:	2010	2009	Increase/(decrease)	
			\$	%
Total other income (expense)	\$ (168,098)	\$ (47,486)	\$120,612	254

The increase in other income (expense) resulted from an increase in interest expense associated with the DIP financing, as well as costs and expenses incurred in connection with the bankruptcy and reorganization process.

Loss from Operations

For the three months ended March 31:	2010	2009	Increase/(decrease)	
			\$	
Net Income (Loss)	\$(480,240)	\$(999,376)	\$(519,136)	

The net loss for the three months ended March 31, 2010 was (\$480,240) which represents a 52% decline in the loss recorded in the March 31, 2009 period of \$(999,376). The decline in the loss resulted from the fact that no charges related to the issuance of options were recorded during the period as happened in connection with option issuances during the first quarter of 2009, as well as an overall reduction in legal and professional fees.

Going Concern

The report of our independent registered public accounting firm on the financial statements for the year ended December 31, 2009, includes an explanatory paragraph indicating substantial doubt as to our ability to continue as a going concern. We have an accumulated deficit of \$18,054,379 as of March 31, 2010. We have not generated meaningful revenues in the last two fiscal years. Our ability to establish the Company as a going concern is dependent upon our ability to obtain additional financing, in order to fund our planned operations and ultimately, to achieve profitable operations.

Intangible Assets

The Company's intangible assets consist of three pending patents and five issued patents. Generally a patent has a life of 17 to 20 years. The Company performed an impairment test and has determined that, as of March 31, 2010, no

impairment exists on any of the Company's assets based on the present value of future cash flows generated from Company assets.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS – continued

Critical Accounting Policies

We have identified the following policies as critical to our business operations and the understanding of our results of operations. The preparation of these financial statements require us to make estimates and assumptions that effect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of our financial statements, and the reported amounts of revenue and expenses during the reporting period. There can be no assurance that actual results will not differ from those estimates. The effect of these policies on our business operations is discussed below where such policies affect our reported and expected financial results.

Revenue Recognition. We record sales when revenue is earned. We sell on credit to our distributors and manufacturer representatives. All shipments are FOB shipping. We had \$27,801 in revenue from sales of products during the three months ended March 31, 2010.

Warranty and Right of Return. In connection with the sale of each product, we provide a limited 30-day money back guarantee less a 15% restocking charge. After the 30 days, we provide a five-year warranty on replacement of parts. The tank chamber is warranted not to leak for 10 years. We have limited history with claims against our warranty. As of March 31, 2010, a total of \$36,530 in warranty allowances was recorded against product sales.

Patents. Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be fully recoverable based on expected undiscounted cash flows that result from the use and eventual disposition of the asset. The amount of any impairment is measured as the difference between the carrying value and the fair value of the impaired asset. Patent and software costs include direct costs of obtaining patents. Costs for new patents are either expensed as they are incurred or capitalized and amortized over the estimated useful lives of seventeen years and software over five years.

Research and Development. Our research and development efforts concentrate on new product development, improving product durability and expanding technical expertise in the manufacturing process. We expense product research and development costs as they are incurred. We incurred research and development expense of \$13,833 and \$6,728 during the three months ended March 31, 2010 and 2009, respectively.

Stock Based Compensation. All share-based payments to employees, including grants of employee stock options are recognized in the income statement based on their fair values. We use the Black-Scholes pricing model for determining the fair value of stock based compensation.

Equity instruments issued to non-employees for goods or services are accounted for at fair value when the service is complete or a performance commitment date is reached.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not required.

ITEM 4. CONTROLS AND PROCEDURES

4T.

Evaluation of disclosure controls and procedures

Management, with the participation of the Chief Executive Officer and the Chief Financial Officer, carried out an evaluation of the effectiveness of our “disclosure controls and procedures” (as defined in the Exchange Act, Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this report (the “Evaluation Date”). Based upon that evaluation, the Company’s Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2010, our disclosure controls and procedures were effective to ensure that the information we were required to disclose in reports that we file or submit under the Securities and Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. During the 2008 fiscal year, the Company implemented a new secure accounting system, separated internal responsibilities for accounting, record keeping, check writing and reconciliation between different parties with the Company and also adopted various policies and procedures designed to implement the Integrated Framework issued by COSO. These actions taken in 2008 constituted changes in the Company’s internal control over financial reporting.

Changes in Internal Control over Financial Reporting

During the 2009 fiscal year we tested our procedures and recorded the results thereof in an effort to determine whether such controls continued to provide an effective internal control over financial reporting. We determined that there was a material weakness in the recording of certain equity and debt instruments resulting from a failure to confirm the receipt of transactions by internal accounting and external third party consultants hired to ensure compliance with current accounting and disclosure requirements. As a result we have amended our procedures to include a process by which all equity and debt transactions are recorded, summarized and then transmitted to external consultants. These actions constituted changes in the Company’s internal control over financial reporting.

ITEM 4T. CONTROLS AND PROCEDURES - continued

Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Company. Our internal control system is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Management has assessed the effectiveness of the Company's internal controls over financial reporting as of March 31, 2010. In making this assessment, management used the criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this evaluation, management has concluded that the Company's internal control over financial reporting was effective as of March 31, 2010.

This quarterly report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this quarterly report.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Since the Company's annual report on Form 10K for the period ended December 31, 2009 until the date of this Report, there have been no actions initiated, terminated or that have resulted in material changes from the status as reported for such period.

ITEM 1A. RISK FACTORS

1A.

None.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the first quarter ended March 31, 2010, the Company issued shares of our common stock in transactions that were not registered under the Securities Act of 1933 as follows:

Persons or Class of Persons	Date of Issue	Securities	Consideration
Ted Marek	3/15/2010	120,000 shares	Compensation under services agreement valued at \$30,000
Perry Logan	3/15/2010	120,000 shares	Compensation under services agreement valued at \$30,000
Gregg Johnson	3/15/2010	30,000 shares	Compensation under employment agreement valued at \$7,500

We issued shares in reliance on the exemption from the registration contained in Section 4(2) of the Securities Act of 1933. The shares did not involve a public offering or general solicitation and no underwriters were involved. The recipients of the shares were afforded an opportunity for effective access to the relevant information needed to make their investment decision, including our financial statements. We reasonably believed that the recipients had such knowledge and experience in the Company's financial and business matters that they were capable of evaluating the merits and risks of their investment.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

ITEM 5. OTHER INFORMATION

On May 10, 2010 the Company filed several motions with the Bankruptcy Court for the District of Nevada in connection with its pending Chapter 11 Bankruptcy case. The motions, that are expected to be heard on May 24, 2010, request, among other things, an extension of the allowable 45 day time period to confirm a small business Plan of Reorganization. This extension is being requested by the Company so as to give us time to prepare and circulate a proposed amended plan of reorganization. If the Court accepts the motion to extend the time limit the Company expects to mail an Amended Disclosure Statement and Plan of Reorganization and related ballots seeking confirmation thereof at some point after the date of this Report.
