NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

1) BASIS OF PRESENTATION

The accompanying unaudited interim financial statements as of June 30, 2015 and for the three and six months ended June 30, 2015 and 2014 have been prepared in conformity with accounting principles generally accepted in the United States (“GAAP”) for interim financial statements. The financial information as of December 31, 2014 is derived from the audited financial statements presented in the Willamette Valley Vineyards, Inc. (the “Company”) Annual Report on Form 10-K for the year ended December 31, 2014. Certain information or footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the accompanying financial statements include all adjustments necessary (which are of a normal recurring nature) for the fair statement of the results of the interim periods presented. The accompanying financial statements should be read in conjunction with the Company’s audited financial statements for the year ended December 31, 2014, as presented in the Company’s Annual Report on Form 10-K.

Operating results for the three and six months ended June 30, 2015 are not necessarily indicative of the results that may be expected for the entire year ending December 31, 2015, or any portion thereof.

The Company’s revenues include direct-to-consumer sales and national sales to distributors. These sales channels utilize shared resources for production, selling and distribution.

Basic earnings per share are computed based on the weighted-average number of common shares outstanding each period. Diluted earnings per share are computed using the weighted average number of shares of common stock and potentially dilutive common shares outstanding during the period. Potentially dilutive shares from stock options and other instruments are excluded from the computation when their effect is anti-dilutive. At June 30, 2015 and 2014, potentially dilutive shares of 0 and 0, respectively, were excluded from the computation as their effect would be anti-dilutive. 74,602 and 86,362 potentially dilutive shares are included in the computation of dilutive earnings per share for the three month periods ended June 30, 2015 and 2014, respectively. 69,665 and 91,603 potentially dilutive shares are included in the computation of dilutive earnings per share for the six month periods ended June 30, 2015 and 2014, respectively.

4) DISTRIBUTION AGREEMENT RECEIVABLE AND DEFERRED REVENUE

Effective September 1, 2011, the Company entered into an agreement with Young's Market Company for distribution of Company-produced wines in Oregon and Washington. The terms of this contract include exclusive rights to distribute Willamette Valley Vineyard's wines in Oregon and Washington for seven years. In an effort to facilitate the transition with as little disruption as possible, Young's Market Company agreed to compensate Willamette Valley Vineyards for ongoing Oregon sales and branding efforts. As a result, the Company was due to receive \$250,000 per year starting on September 2011 for each of the next four years for a total of \$1,000,000. In October of 2014, the Company received payment of the final \$250,000 under this agreement. The total amount of \$1,000,000 received by the Company related to this agreement is being recognized as revenue on a straight line basis over the seven year life of the agreement. For the three months ended June 30, 2015 and 2014, the Company has recognized revenue related to this agreement in the amount of \$35,715 and \$35,715, respectively, recorded to other income. 5) DEBT

Line of Credit Facility – In December of 2005 the Company entered into a revolving line of credit agreement with Umpqua Bank that allows borrowings of up to \$2,000,000 against eligible accounts receivable and inventories as defined in the agreement. The revolving line bears interest at prime, is payable monthly, and is subject to annual renewal. In July of 2014, the Company renewed the credit agreement for an additional two years. The interest rate was 3.25% at June 30, 2015 and December 31, 2014. At June 30, 2015 and December 31, 2014 there was no outstanding balance on this revolving line of credit.

The line of credit agreement includes various covenants, which among other things, require the Company to maintain minimum amounts of tangible net worth, debt/worth ratio, and debt service coverage as defined. As of June 30, 2015, the Company was in compliance with these financial covenants.

Note payable – In April of 2015 the Company purchased approximately 42 acres of farmland in the Walla Walla AVA under terms that included paying one third of the price upon closing and one third in each of the two subsequent

years. As of June 30, 2015 the Company had a balance due of \$490,834 with \$245,417 due on April 1, 2016 and \$245,417 due on April 1, 2017. No interest accrues under the terms of this note.

These loans require monthly principal and interest payments of \$53,058 for the life of the loans, at annual fixed interest rates ranging from 4.75% to 6.70%, and with maturity dates ranging from 2024 through 2028. The general purposes of these loans were to make capital improvements to the winery and vineyard facilities.

NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

6) STOCK BASED COMPENSATION

The Company has a stock incentive plan, originally created in 1992, and most recently amended in 2001. No additional grants may be made under the plan. All stock options have an exercise price that is equal to the fair market value of the Company's stock on the date the options were granted. Administration of the plan, including determination of the number, term, and type of options to be granted, lies with the Board of Directors or a duly authorized committee of the Board of Directors. Options were generally granted based on employee performance with vesting periods ranging from date of grant to seven years. At the date of the grant, the maximum term before expiration is ten years.

The following table presents information related to the value of outstanding stock options for the period shown:

	Three months ended June 30, 2015		Six months ended June 30, 2015

NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

8) OTHER INCOME

On March 10, 2014 the Company experienced an inadvertent spillage of approximately 29,000 gallons of bulk wine during a filtration process. Subsequent to this loss, the Company filed an insurance claim with its carrier and received a partial settlement of \$75,000 during the three months ended March 31, 2014 which, net of wine cost of \$49,687, resulted in \$25,313 being recorded to other income for the three months ended March 31, 2014. During the three months ended June 30, 2014, the Company received a second settlement payment of \$65,930 which was recorded in other income. In July of 2014, the Company received a final payment of \$88,792, net of a \$2,500 deductible, which was recorded as a receivable at June 30, 2014. For the three months ended June 30, 2014, Other Income includes \$154,722 related to this insurance settlement. For the six months ended June 30, 2014, Other Income includes \$180,035 related to this insurance settlement.

9) SEGMENT REPORTING

The Company has identified two operating segments, Direct Sales and Distributor Sales, based upon their different distribution channels, margins and selling strategies. Direct Sales includes retail sales in the tasting room and remote sites, Wine Club sales, on-site events, kitchen and catering sales and other sales made directly to the consumer without the use of an intermediary, including sales of bulk wine or grapes. Distributor Sales include all sales through a third party where prices are given at a wholesale rate.

The two segments reflect how the Company's operations are evaluated by senior management and the structure of its internal financial reporting. The Company evaluates performance based on the gross profit of the respective business segments. Selling expenses that can be directly attributable to the segment, including depreciation of segment specific assets, are included, however, centralized selling expenses and general and administrative expenses are not allocated between operating segments. Therefore, net income information for the respective segments is not available. Discrete financial information related to segment assets, other than segment specific depreciation associated with selling, is not available and that information continues to be aggregated.

The following table outlines the sales, cost of sales, gross margin, directly attributable selling expenses, and contribution margin of the segments for the three and six month periods ending June 30, 2015 and 2014. Sales figures are net of related excise taxes.

In July of 2015 the Board of Directors approved a program to repurchase common stock of the Company. Under previous board action the Company had maintained a stock repurchase program which resulted in 113,418 shares of common stock repurchased for \$425,102. Due to market pricing exceeding repurchase limitations under the plan, that program has been inactive since August 2013. Under the July 2015 board action, the previous plan is terminated and unused funds from the previous plan will be combined with cash from the Company to fund a plan to repurchase up to \$250,000 of common stock through the open market. This plan is intended to remain in place until all funding for the plan is depleted or the plan is expanded or terminated by the Board of Directors.

In August 2015, the Company commenced a public offering of our Series A Redeemable Preferred Stock pursuant to a registration statement filed with the Securities and Exchange Commission. The Company is also registering this transaction with the securities authorities of the States of Oregon and Washington. Information concerning this offering can be obtained by reading the Company's S-3 filings regarding this offering, including all amendments, attachments and exhibits.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This Management's Discussion and Analysis of Financial Condition and Results of Operations and other sections of this Form 10-Q contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve risks and uncertainties that are based on current expectations, estimates and projections about the Company's business, and beliefs and assumptions made by management. Words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates" and variations of such words and expressions are intended to identify such forward-looking statements. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements due to numerous factors, including, but not limited to: availability of financing for growth, availability of adequate supply of high quality grapes, successful performance of internal operations, impact of competition, changes in wine broker or distributor relations or performance, impact of possible adverse weather conditions, impact of reduction in grape quality or supply due to disease, impact of governmental regulatory decisions, and other risks disclosed from time to time in the Company's Securities and Exchange Commission filings and reports. In addition, such statements could be affected by general industry and market conditions and growth rates, and general domestic economic conditions. The forward-looking statements are made as of the date hereof, and, except as otherwise required by law, the Company disclaims any intention or obligation to update or revise any forward-looking statements or to update the reasons why the actual results could differ materially from those projected in the forward-looking statements, whether as a result of new information, future events or otherwise.

Critical Accounting Policies

The foregoing discussion and analysis of the Company's financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company's management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to revenue recognition, collection of accounts receivable, valuation of inventories, and amortization of vineyard development costs. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. A description of the Company's critical accounting policies and related judgments and estimates that affect the preparation of the Company's financial statements is set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2014. Such policies were unchanged during the six months ended June 30, 2015.

Overview

The Company generates revenues from the sales of wine to wholesalers and direct to consumers. Direct to consumer sales primarily include sales through the Company's Tasting Rooms and Wine Club. Direct to consumer sales are more profitable to the Company due to prices received being closer to retail than those prices paid by wholesalers. The Company continues to emphasize growth in direct to consumer sales through the Hospitality Center remodel and expansion and growth in wine club membership. Wine Club membership increased by approximately 485 net new members, or 8.5%, to a total of 6,200 members for the six months ending June 30, 2015. Periodically, the Company will sell grapes or bulk wine, due to them not meeting Company standards or being excess to production

targets, however this activity is not a significant part of the Company's activities.

The Company sold approximately 58,952 and 47,551 cases of produced wine during the six months ended June 30, 2015 and 2014, respectively, an increase of 11,401 cases, or 24.0% in the current year period over the prior year period. The increase in wine sales was the result of increased direct to consumer sales as well as increased sales through distributors.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

Cases sold in 2015 include approximately 33 cases of unfulfilled "futures", where a customer prepays for a wine not yet released. Cases sold in 2014 include approximately 70 cases of unfulfilled "futures", where a customer prepays for a wine not yet released. Proceeds from these sales are not recognized as revenue until shipped and are reflected as unearned revenue. Selling expenses for these sales are recognized in the period in which the expense is incurred.

Cost of sales includes grape costs, whether purchased or grown at Company vineyards, crush costs, winemaking and processing costs, bottling, packaging, warehousing and shipping and handling costs. For grapes grown at Company vineyards, costs include farming expenditures and amortization of vineyard development costs.

At June 30, 2015, wine inventory includes approximately 76,000 cases of bottled wine and 218,000 gallons of bulk wine in various stages of the aging process. Case wine is expected to be sold over the next 12 to 24 months and generally before the release date of the next vintage. The winery bottled approximately 67,000 cases during the six months ended June 30, 2015.

Income from operations for the three months ended June 30, 2015 and 2014 was \$844,884 and \$759,570, respectively, and increase of \$85,314 or 11.2%, in the current year period over the prior year period. Income from operations for the six months ended June 30, 2015 and 2014 was \$1,343,551 and \$1,008,305, respectively, and increase of \$335,246 or 33.2%, in the current year period over the prior year period. As a result of a one-time insurance payment from a wine loss, booked to other income in 2014, that did not recur in 2015, net income was decreased for the three and six month periods ended June 30, 2015 and 2014. Net income for the three months ended June 30, 2015 and 2014 was \$510,231 and \$546,535, respectively, a decrease of \$36,304, or 6.6%, in the current year period over the prior year period. Net income for the six months ended June 30, 2015 and 2014 was \$824,469 and \$721,450, respectively, an increase of \$103,019, or 14.3%, in the current year period over the prior year period.

Overall gross profit for the three months ended June 30, 2015 and 2014 was \$2,759,653 and \$2,240,764, respectively, an increase of \$518,889, or 23.2%, in the current year period over the prior year period. Gross profit for the six months ended June 30, 2015 and 2014 was \$5,063,687 and \$3,962,753, respectively, an increase of \$1,110,934, or 27.8%, in the current year period over the prior year period. Gross profit percent for the three months ended June 30, 2015 and 2014 was 58.5% and 60.7%, a decrease of 2.2 percentage points, in the current year period over the prior year period. Gross profit percent for the six months ended June 30, 2015 and 2014 was 58.7% and 59.5%, a decrease of 0.8 percentage points, in the current year period over the prior year period.

The Company generated \$0.10 and \$0.11 in basic earnings per share during the three months ended June 30, 2015 and 2014, respectively. The Company generated \$0.17 and \$0.15 in basic earnings per share during the six months ended June 30, 2015 and 2014, respectively.

Willamette Valley Vineyards continues to receive positive recognition through online bloggers, local newspapers, publications and national magazines.

In May 2015, Wine Spectator featured an online article titled, "Focused on Oregon's Great Wine Terroirs - Willamette Valley Vineyard staffers plan to start several single-vineyard wineries," highlighting the Company's new estate vineyard and winery efforts in the Eola-Amity Hills at Elton Vineyard and on the Oregon side of the Walla Walla Valley in SeVein. The Statesman Journal, Portland Business Journal, The East Oregonian, Oregon Wine Press, AgInfo.net, KATU News Channel 2, Walla Walla Union Bulletin and Great Northwest Wine also contributed feature articles on the new wineries.

RESULTS OF OPERATIONS

Revenue

Sales for the three months ended June 30, 2015 and 2014 were \$4,721,154 and \$3,693,412, respectively, an increase of \$1,027,742, or 27.8%, in the current year period over the prior year period. This is caused by an increase in direct sales of \$550,902, including bulk wine sales increase of \$193,064, and an increase in sales through distributors of \$476,840 in the current year three month period over the prior year period. Sales for the six months ended June 30, 2015 and 2014 were \$8,633,655 and \$6,665,291, respectively, an increase of \$1,968,364 or 29.5%, in the current year period over the prior year period. This is caused by an increase in direct sales of \$1,063,815, including bulk wine sales increase of \$441,940, and an increase in sales through distributors of \$904,549 in the current year six month period over the prior year period. The increase in direct sales to consumers is primarily the result of increased wine club, tasting room and kitchen sales in addition to an increase in bulk wine sales in 2015 when compared to 2014. Management believes that the increase in sales through distributors was due to increased sales made to several large chain retailers in the six months ended June 30, 2015.

Cost of Sales

Cost of Sales for the three months ended June 30, 2015 and 2014 were \$1,961,501 and \$1,452,648, respectively, an increase of \$508,553, or 35.0%, in the current period over the prior year period. Cost of Sales for the six months ended June 30, 2015 and 2014 were \$3,569,968 and \$2,702,538, respectively, an increase of \$867,430, or 32.1%, in the current period over the prior year period. This change was primarily the result of an overall increase in sales of wine, partially offset by a shift to more direct sales to consumers which achieve a higher profit margin.

Gross Profit

Gross profit for the three months ended June 30, 2015 and 2014 was \$2,759,653 and \$2,240,764, respectively, an increase of \$518,889, or 23.2%, in the current year period over the prior year period. Gross profit for the six months ended June 30, 2015 and 2014 was \$5,063,687 and \$3,962,753, respectively, an increase of \$1,100,934, or 27.8%, in the current year period over the prior year period. This increase is primarily the result of an overall increase in sales including a shift to more direct sales to consumers which achieve a higher profit margin.

Gross profit margin for the three months ended June 30, 2015 and 2014 was 58.5% and 60.7%, respectively, a decrease of 2.2 percentage points, in the current year period over the prior year period. Gross profit margin for the six

months ended June 30, 2015 and 2014 was 58.7% and 59.5%, respectively, a decrease of 0.8 percentage points, in the current year period over the prior year period. The decrease in gross profit margin is largely the result of an increase in allowances paid to distributors partially offset by an increase in the percentage of direct to consumer sales, which result in a higher profit margin than sales through distributors.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

Selling, General and Administrative Expense

Selling, general and administrative expense for the three months ended June 30, 2015 and 2014 was \$1,914,769 and \$1,481,194, respectively, an increase of \$433,575, or 29.3%, in the current year period over the prior year period. Selling, general and administrative expense for the six months ended June 30, 2015 and 2014 was \$3,720,136 and \$2,954,448, respectively, an increase of \$765,688, or 25.9%, in the current year period over the prior year period. This increase is primarily the result of increased selling expenses, including depreciation and staffing, associated with an increased focus on retail sales and operating the remodeled Hospitality Center, and an increased emphasis on promoting sales through distributors including product demonstrations.

Interest Expense

Interest expense for the three months ended June 30, 2015 and 2014 was \$77,975 and \$61,476, respectively, an increase of \$16,499 or 26.8%, in the current year period over the prior year period. Interest expense for the six months ended June 30, 2015 and 2014 was \$155,009 and \$127,472, respectively, an increase of \$27,537 or 21.6%, in the current year period over the prior year period. The changes in interest expense were primarily the result of increased debt associated with the remodel and expansion of the Hospitality Center and barrel cellar, net of interest capitalized into construction in process in the prior year that did not occur in the current year.

Other Income, net

Other income for the three months ended June 30, 2015 and 2014 was \$35,715 and \$191,443, respectively, a decrease of \$155,728 or 81.3%, in the current year period over the prior year period. Other income for the six months ended June 30, 2015 and 2014 was \$117,925 and \$289,911, respectively, a decrease of \$171,986 or 59.3%, in the current year period over the prior year period. The other income decrease in the three and six month periods was primarily the result of insurance claim revenue that was recognized in 2014 that did not occur in 2015.

Income Taxes

The income tax expense for the three months ended June 30, 2015 and 2014 was \$292,397 and \$343,259, respectively, a decrease of \$50,862 or 14.8%, in the current year period over the prior year period. The income tax expense for the six months ended June 30, 2015 and 2014 was \$482,002 and \$449,891, respectively, an increase of \$32,111 or 7.1%, in the current year period over the prior year period. The Company's estimated federal and state combined income tax rate was 36.4% and 38.6% for the three months ended June 30, 2015 and 2014, respectively. The Company's estimated federal and state combined income tax rate was 36.9% and 38.4% for the six months ended June 30, 2015 and 2014, respectively.

Net Income

Net income for the three months ended June 30, 2015 and 2014 was \$510,231 and \$546,535, respectively, a decrease of \$36,304, or 6.6%, in the current year period over the prior year period. This decrease is primarily the result of a decrease in other income, resulting from an insurance claim in 2014 that did not exist in 2015, partially offset by an increase in income from operations during the three month period. Net income for the six months ended June 30, 2015 and 2014 was \$824,469 and \$721,450, respectively, an increase of \$103,019, or 14.3%, in the current year period over the prior year period. This increase is primarily the result of an increase in income from operations partially offset by a decrease in other income which was the result of the Company receiving insurance proceeds in

2014 that did not occur in 2015.

Liquidity and Capital Resources

At June 30, 2015, the Company had a working capital balance of \$9.6 million and a current working capital ratio of 6.35:1. At December 31, 2014, the Company had a working capital balance of \$9.8 million and a current working capital ratio of 4.63:1.

At June 30, 2015, the Company had a cash balance of \$618,109. At December 31, 2014, the Company had a cash balance of \$519,761. This change is primarily the result of increased cash from operating activities offset by spending on capital improvements.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

Total cash provided by operating activities in the six months ended June 30, 2015 and 2014 was \$1,431,694 and 1,165,627, respectively. Cash provided by operating activities from continuing operations for the six months ended June 30, 2015 were primarily associated with income from operations.

Cash provided by financing activities for the six months ended June 30, 2015 consists primarily of an installment note, associate with a property purchase, and stock option exercises partially offset by payments on long-term debt.

Non-cash investing and financing activities in the six months ended June 30, 2015 and 2014 was \$39,759 and \$0 respectively. This change was primarily the result of smaller in-process remodel projects.

The Company has an asset-based loan agreement (the "line of credit") with Umpqua Bank that allows it to borrow up to \$2,000,000. The Company renewed this agreement, in July of 2014, for an additional two years. The index rate of prime plus zero, with a floor of 3.25%, at June 30, 2015 is 3.25%. The loan agreement contains certain restrictive financial covenants with respect to total equity, debt-to-equity and debt coverage that must be maintained by the Company on a quarterly basis. As of June 30, 2015, the Company was in compliance with all of the financial covenants.

At June 30, 2015 and December 31, 2014 the Company had no balance outstanding on the line of credit. At June 30, 2015, the Company had \$2,000,000 available on the line of credit.

CONTROLS AND PROCEDURES

Disclosure Controls and Procedures – The Company carried out an evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q, under the supervision and with the participation of the Company’s management, including the Company’s Chief Executive Officer and the Company’s Chief Financial Officer, of the effectiveness of the Company’s disclosure controls and procedures pursuant to paragraph (b) of Rule 13a-15 and 15d-5 under the Exchange Act. Based on that review, the Chief Executive Officer and the Chief Financial Officer have concluded that the Company’s disclosure controls and procedures are effective, as of the end of the period covered by this report, to ensure that information required to be disclosed by the Company in the reports the Company files or submit under the Exchange Act (1) is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms, and (2) is accumulated and communicated to the Company’s management, including the Company’s principal executive officer and principle financial officer, as appropriate to allow timely decisions regarding required disclosure.

CONTROLS AND PROCEDURES (CONTINUED)

Changes in Internal Control over Financial Reporting – There have been no changes in our internal control over financial reporting during the quarter ended June 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II: OTHER INFORMATION

Item 1 - Legal Proceedings.

From time to time, the Company is a party to various judicial and administrative proceedings arising in the ordinary course of business. The Company's management and legal counsel have reviewed the probable outcome of any proceedings that were pending during the period covered by this report, the costs and expenses reasonably expected to be incurred, the availability and limits of the Company's insurance coverage, and the Company's established liabilities. While the outcome of legal proceedings cannot be predicted with certainty, based on the Company's review, the Company believes that any unrecorded liability that may result as a result of any legal proceedings is not likely to have a material effect on the Company's liquidity, financial condition or results from operations.

Item 1A - Risk Factors.

In addition to the other information set forth in this Report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our 2014 Report, which could materially affect our business, results of operations or financial condition. The risks described in our 2014 Report are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may eventually prove to materially adversely affect our business, results of operations or financial condition.

The Company may face liabilities associated with the offer and sale of our preferred stock. In August 2015, the Company commenced a public offering of our Series A Redeemable Preferred Stock pursuant to a registration statement filed with the Securities and Exchange Commission. The Company is registering this transaction with the securities authorities of the States of Oregon and Washington. The terms of our Series A Redeemable Preferred Stock are unusual for a company of our size, and we believe the structure of these securities and of the offering are not commonplace among issuers of any type. Federal and state securities laws impose significant liabilities on issuers of securities if the related offering documents contain material misstatements of fact, or if the documents omit to state facts necessary, in light of the circumstances as a whole, to prevent the documents from being misleading. These liabilities can include rescission liability to the purchasers of the securities, as well as potential enforcement liability that could give rise to civil money penalties. Securities litigation can be extraordinarily expensive and protracted, and if we are accused of misstatements or omissions in our offering documents, we may face economic harms and management distractions regardless of the ultimate outcome of any such litigation. Further, if we ultimately are adjudged to have actually made a material misstatement or omission, the Company may be liable for the repayment of the purchase price of the related securities, plus interest from the date of purchase. Any one or more of these events or circumstances would have a material adverse impact upon our business, financial condition or results of operations, and may make it more difficult or more expensive to undertake capital-raising efforts in the future.

Item 2 - Unregistered Sales of Equity Securities and Use of Proceeds.

None.
