GOVERNANCE HIGHLIGHTS

Board Practices

Annual evaluation processes for the Board and each of the standing committees

Directors may not stand for election after age 72

Regular consideration of rotation of committee chairs and members

Corporate Governance Guidelines require directors to attend director education programs and briefing sessions

A prohibition on directors simultaneously serving on more than three public company audit committees, including that of the Company

Restrictions on hedging and pledging Company stock by directors and executive officers

Lead Independent Director

Lead Independent Director with clearly established authority and responsibility over Board governance and operations

Selected by independent directors

Serves as a liaison between the Chairman of the Board and the independent directors

Other Best Practices

A policy that requires Corporate Governance Committee approval before an executive officer accepts outside board membership with for-profit entities

Bylaw amendment allowing proxy access

Stockholder engagement and outreach to allow for management and the Board to understand and consider issues that matter most to stockholders and enable the Company to address them effectively

2016 EXECUTIVE COMPENSATION KEY ELEMENTS

The following summary of specific features of our executive compensation program highlights our commitment to executive compensation practices that align the interests of our executive officers and stockholders.

What We Do

EQUITY

Stock Options

Time-based vesting; 18, 30 and 42 months from the grant date in equal installments.

Restricted Stock Units

Time-based vesting; 18, 30 and 42 months from the grant date in equal installments.

Performance Share Awards

Performance-based vesting at the end of a 3-year cycle; based on two equally weighted measures: Total Shareholder Return (TSR) relative to the performance of the Russell 2000 Index companies; and Return On Invested Capital (ROIC) performance against an absolute internal goal as determined by the Compensation Committee.

CASH

Salary

Base salaries are reviewed annually and are typically increased at periodic intervals, often at the time of a change in position or assumption of new responsibilities.

Annual Incentive Compensation

Stockholder-approved program with payouts based on accomplishing targeted financial performance measures. Annual incentive targets for our NEOs range from 45% to 75% of base salary at target level performance. Actual payouts may range from zero to three times target based on performance compared to our three performance measures.

RETIREMENT

NEOs participate in qualified retirement programs generally available to the Company s US employees. NEOs also participate in a nonqualified retirement program that provides benefits on base salary earnings in excess of Internal Revenue Service (IRS) limits on qualified plans. Messrs. Dempsey and Stephens also participate in grandfathered nonqualified executive retirement programs that are closed to new entrants.

CHANGE IN CONTROL AND SEVERANCE

Severance payable and benefit continuation upon termination of employment in certain specified circumstances or upon a change in control. Severance ranges from a multiple of one times base salary plus pro rata bonus for certain non-change in control events, to two times base salary plus pro rata bonus and additional benefits for other change in control events.

LIMITED PERQUISITES

Financial planning and tax preparation services, annual physicals (for amounts not otherwise covered by health insurance) and executive life insurance (with tax gross-up benefit for grandfathered participants only).

Proposal 1 Election of Directors

Upon the recommendation of the Corporate Governance Committee, the Board has nominated Thomas O. Barnes, Elijah K. Barnes, Gary G. Benanav, Patrick J. Dempsey, Thomas J. Hook, Mylle H. Mangum, Hans-Peter Männer, Hassell H. McClellan, William J. Morgan and JoAnna L. Sohovich to be elected at the 2017 Annual Meeting for continuing membership to the Board. The Board also recommends Anthony V. Nicolosi for election to the Board as a first time nominee.

The Board has determined that except for Messrs. T. Barnes, Dempsey and Männer, each nominee is an independent director. If elected, each nominee will hold office until the 2018 annual meeting unless any of them earlier dies, resigns, retires or is removed, as provided in the Bylaws.

The eleven nominees are listed below with brief biographies. Each director has been associated with his or her present organization for at least the past five years unless otherwise noted. None of the organizations listed as business affiliates of the directors is a subsidiary or other affiliate of the Company unless otherwise noted.

If a nominee for director should become unavailable for any reason, it is intended that votes will be cast for a substitute nominee designated by the Board. The Board has no reason to believe the persons nominated will be unable to serve if elected.

The Board recommends a vote FOR all nominees.

b.

C.

A director will not be independent if (i) the director is, or was within the preceding three years, employed by the Company; (ii) an immediate family member of the director is, or was within the preceding three years, employed by the Company as an executive officer (as such term is defined by the NYSE) other than on an interim basis; (iii) the director or any immediate family member has received from the Company, during any 12 consecutive months within the preceding three years, more than \$120,000 in direct compensation from the Company, other than compensation received by an immediate family member of a director for service as a non-executive employee of the Company and director and committee fees and deferred compensation for prior service, provided, that such deferred compensation is not contingent on continued service; (iv) the director is employed by the Company s

independent auditor; (v) an immediate family member of the director is employed by the Company s independent auditor (I) as a partner or (II) otherwise as an employee who personally works on the Company s audit; (III) the director or an immediate family member was within the last three years a partner or employee of the Company s independent auditor and personally worked on the Company s audit within that time; or (IV) a Company executive officer is, or was within the preceding three years, on the board of directors of a company which, at the same time, employed the Company director or an immediate family member of the director as an executive officer.

The following commercial and charitable relationships will not be considered material relationships that would impair a director s independence: (i) if a Company director is an employee, or an immediate family member is an executive officer, of another company that does business with the Company and, within any of the last three fiscal years, the annual sales to, or purchases from, the Company are less than 1% of the annual revenues of the other company; (ii) if a Company director is an employee, or an immediate family member is an executive officer, of another company that is indebted to the Company, or to which the Company is indebted, and the total amount of either company; and (iii) if a Company director serves as an officer, director or trustee of a charitable organization, and the Company s discretionary charitable contributions to the organization are less than 1% of such organization s total annual charitable receipts, provided, that the amount of the Company s Barnes Group Foundation, Inc. pursuant to the Matching Gifts Program.

For relationships not covered by b. above, the directors who are independent under the Corporate Governance Guidelines in a. and b. above will determine whether the relationship is material and, therefore, whether the director is independent. The Company will explain in the next proxy statement the basis of any Board determination that a relationship was immaterial despite the fact that it did not meet the categorical standards of immateriality in b. above.

The Board has determined that other than Messrs. T. Barnes, Dempsey and Männer, all of our director nominees are independent under the listing standards of the NYSE and the above categorical standards. Mr. T. Barnes is a former employee that was employed by the Company within the past three years; Mr. Dempsey is a current employee of the Company; and Mr. Männer is a former consultant that was retained by the Company within the last three years.

Committee Independence. All members of the Audit Committee, Compensation and Corporate Governance Committee are independent within the meaning of the NYSE listing standards and the above categorical standards, and all members of both the Audit Committee and the Compensation Committee meet the additional independence requirements of the NYSE listing standards that are applicable to members of such committees.

Board Leadership

Edgar Filing: BARNES GROUP INC - Form PRE 14A

The Board recognizes that one of its key responsibilities is to evaluate and determine its optimal leadership structure so as to provide independent oversight of management and a highly engaged and high-functioning Board. The Company s Corporate Governance Guidelines provide the Board with flexibility to select the appropriate leadership structure for the Company. In making leadership structure determinations, the Board considers many factors including the specific needs of the business and what is in the best interests of the Company s stockholders. Our Board has determined that if the Chairman is not an independent director, then there should be a Lead Independent Director elected by our independent directors. Currently, Mr. T. Barnes serves as Chairman of the Board and Mr. McClellan serves as Lead Independent Director.

The Board believes that the current structure is appropriate for the Company and provides for effective independent Board leadership and engagement. Our Chairman, although deemed not to be independent, has never been our chief executive officer and his prior employment as a non-executive, full-time employee was complementary to his regular duties as Chairman. Nonetheless, because a strong, independent oversight function is a critical aspect of effective corporate governance, our Corporate Governance Guidelines require that the independent directors annually elect an independent director to serve as Lead Independent Director if the Chairman is not an independent director. This oversight function is enhanced by the fact that the Board s Audit, Compensation and Corporate Governance Committees are comprised entirely of independent directors. Further, the Company s non-management directors meet in regularly scheduled executive sessions, and the independent directors also periodically meet in executive sessions.

Board Role In Risk Oversight

While risk management is the responsibility of the Company s management team, the Board is responsible for oversight of the Company s risk management activities. The Audit Committee has been designated by the Board to take the lead in overseeing risk management at the Board level. By its charter, the Audit Committee is required to discuss policies and guidelines that govern the risk assessment and risk management process, including assigning responsibility with respect to particular risks to other committees of the Board, and that it meet periodically with management to review and assess the Company s major financial risk exposures and the manner in which they are being monitored and controlled. Accordingly, the Audit Committee reviews risk assessment and risk management, including in the areas of legal compliance, internal audit and financial controls, litigation, and environmental, health and safety. In doing so, the Audit Committee considers the nature of the material risks the Company faces and the adequacy of the Company s policies and procedures designed to respond to and mitigate these risks, and receives reports from management and other advisors, including periodic risk assessments by the Company s Internal Audit department.

Although the Board s primary risk oversight has been assigned to the Audit Committee, the full Board also periodically receives information about the Company s risk management and the most significant risks that the Company faces. This is accomplished through attendance at Audit Committee meetings by the other Board members when warranted and by addressing significant risks with the full Board at Board meetings or in executive sessions as appropriate.

Additionally, as described in Risk Oversight and Assessment Policies and Practices on page 34, the Compensation Committee oversees our compensation programs so that they are designed with the appropriate balance of risk and reward in relation to the Company s overall business strategy and are not reasonably likely to have a material adverse effect on the Company.

Process For Selecting Directors; Stockholder Recommended Director Candidates

Nominees for Director shall be selected on the basis of their qualifications, such as:

Character, wisdom, judgment and integrity;

Experience in positions with a high degree of responsibility;

Prominence and accomplishments in areas relevant to the Company s business activities;

Understanding of the Company s business environment;

Strategy-development, experience in technology-laden industrial businesses, and/or other relevant firms;

Capacity and desire to represent the interests of the Company s stockholders as a whole;

Commitment to maximize stockholder value;

The extent to which the interplay of the nominee s skills, knowledge, expertise and diversity of background with that of the other Board members will help build a Board that is effective in collectively meeting the Company's strategic needs and serving the long-term interests of the Company and its stockholders; and

Ability to devote sufficient time to the affairs of the Company.

Under the Process and Procedure for Identifying Director Candidates adopted by the Corporate Governance Committee (Director Candidates Process), the Corporate Governance Committee considers how a candidate represents, in combination with the other directors, a diversity of viewpoints, backgrounds, experiences and other demographics.

The Corporate Governance Committee will, as stated in the Director Candidates Process, consider director candidates recommended by stockholders of the Company, directors, officers and third-party search firms. When utilizing a third-party search firm, the search firm is instructed to identify candidates based on criteria specified by the Corporate Governance Committee, perform initial screenings of the candidates resumes, and conduct initial interviews.

The Corporate Governance Committee evaluates stockholder-recommended candidates in the same manner as all other candidates. Any stockholder wishing to submit a recommendation should do so in writing addressed to:

Stockholder recommendations must comply with the information requirements of the notice provisions contained in the Company s Bylaws in order to be considered. Letters recommending a director candidate must include, among other things, the stockholder s name, address, and stock ownership information (if the stockholder is not the registered holder of shares, a written statement from the record holder of shares (e.g., a broker or bank) verifying the stockholder s beneficial ownership must be provided); the stockholder s opinion as to whether the recommended candidate meets the definition of independent under the Company s Corporate Governance Guidelines and is financially literate as contemplated by the NYSE rules; a description of all agreements, arrangements and understandings between the nominee and any other person regarding the nomination by such stockholder, and any direct or indirect interest of such stockholder in any contract with the Company, any affiliate of the Company or any principal competitor of the Company; and the other disclosure requirements set forth in Section 7 of Article II of the Bylaws. The recommendation letter must also include similar information regarding the director candidate and other information, if any, that would be required to be disclosed with regard to a nominee for director in the solicitation of proxies for election of directors under federal securities laws, and the stockholder must include a completed questionnaire, representation and agreement signed by the candidate (which are provided by the Secretary of the Company upon written request). Stockholder nominations must also comply with the deadlines for submitting director nominations set forth in the Company s Bylaws. A summary of these procedures is set

Communication With The Board

We have posted our Policy Regarding Reporting of Complaints and Concerns on our website. The policy provides that stockholders and other interested parties may communicate with the Board, a committee of the Board, the independent directors or with an individual director, by any of the following methods:

https://www.compliance-helpline.com/welcomepagebarnesgroup.jsp

Barnes Group Corporate Compliance Alertline P.O. Box PMB 3667

All complaints and concerns reported by the above methods will be received by a third-party provider, who will forward each complaint or concern to the Office of the General Counsel which is responsible for relaying communications for the Board to them. The Audit Committee Chair receives regular summary reports of all complaints and concerns reported.

Board of Directors And Committees

DIRECTOR ATTENDANCE

Directors are expected to attend our annual meeting of stockholders and all Board meetings and meetings of the committees on which they serve. Our Board held six regular meetings and two special meetings during 2016. Overall attendance at Board and committee meetings during 2016 was 99% for our current directors. All directors attended the 2016 annual meeting.

BOARD SIZE AND ELECTION

Our Corporate Governance Guidelines also provide that the Board should generally have no fewer than six and no more than twelve directors. The Board currently has ten directors. Following the 2017 Annual Meeting, there are expected to be eleven directors. No director may stand for reelection at or after the annual meeting of stockholders following his or her 72nd birthday. Each director is also required to advise the Chairman of the Board of any change in his or her status, including a change in employment or service on other boards of directors, or retirement from his or her principal occupation or another board of directors. Mr. T. Barnes, Chairman of the Board, is designated to preside at executive sessions of non-management directors. Mr. McClellan, the Lead Independent Director, is designated to preside at executive sessions of the independent directors.

BOARD COMMITTEES

We have a standing Audit Committee, Compensation Committee and Corporate Governance Committee. The primary responsibilities for each of these committees are summarized below. The charter for each of these committees is available on the Company s website *www.BGInc.com*.

AUDIT COMMITTEE

The Audit Committee is responsible for overseeing accounting policies and practices, financial reporting and the internal controls structure. The Audit Committee also has responsibility for overseeing legal and regulatory compliance and our independent auditor s qualifications, performance and independence, and for risk oversight of the Company generally. The Board has determined that Mr. Morgan, who qualifies as an independent director under the NYSE listing standards and the Company s Corporate Governance Guidelines, is an audit committee financial expert as defined by the Securities and Exchange Commission (SEC). For additional information about the Audit Committee s oversight of the risks faced by the Company, see Board Role in Risk Oversight on page 8 and the Audit Committee Report on page 51.

COMPENSATION AND MANAGEMENT DEVELOPMENT COMMITTEE

The Compensation Committee acts on behalf of the Board to establish the compensation of executive and other key officers and provides oversight of the Company s compensation philosophy and of compensation policies and practices as they relate to risk management. The Compensation Committee also acts as the oversight committee with respect to the Performance-Linked Bonus Plan, the 2014 Barnes Group Inc. Stock and Incentive Award Plan (the Stock and Incentive Award Plan), and other arrangements covering executive officers and other senior management. The Compensation Committee s processes for establishing and overseeing executive compensation can be found in the Compensation Discussion and Analysis section below. In overseeing those plans and programs, the Compensation Committee may delegate authority for day-to-day administration and interpretation of the plans, including selection of participants, determination of award levels within plan parameters, and approval of award documents, to officers of the Company or the Company s Benefits Committee. However, the Compensation Committee may not delegate any authority under those plans for matters affecting the compensation and benefits of the executive officers.

The Compensation Committee also oversees succession planning programs, including plans for the Chief Executive Officer and key officers, and reports to the Board at least annually regarding the strengths and weaknesses of the Company s processes for management development and succession planning. Compensation Committee agendas are established in consultation with the Compensation Committee Chair and its independent compensation consultant. The Compensation Committee has sole authority to retain outside advisors to assist in evaluating executive officer compensation, and approve the terms of engagement including the fees of such advisors. The Compensation Committee typically meets in executive session without management present during each meeting.

CORPORATE GOVERNANCE COMMITTEE

The Corporate Governance Committee makes recommendations concerning Board membership, functions and compensation and the Company s overall corporate governance policies and practices. The Corporate Governance Committee serves as the nominating committee for the Board. The process by which the Corporate Governance Committee considers nominees to the Board is described in Process for Selecting Directors; Stockholder Recommended Director Candidates on page 9. Additional responsibilities include board succession matters, the annual performance review of the Chairman of the Board, reviewing matters relating to potential director conflicts of interest, overseeing the Company s practices related to political activities, and administering the Company s related person transactions policy.

Governance Update

Proposal 2 Ratify The Company s Bylaw Amendment Allowing Proxy Access

Effective July 28, 2016, the Board of Directors implemented a proxy access bylaw. Article I, Section 7(e) of the Company s Amended and Restated Bylaws (Bylaws) permits a stockholder, or a group of up to 20 stockholders, owning 3% or more of the Company s outstanding common stock continuously for at least three years, to nominate and include in the Company s proxy materials director nominees constituting up to 20% of the total number of directors then serving on the Board, provided that the stockholder(s) and the nominee(s) satisfy the requirements specified in Article 7 of the Company s Bylaws.

Proxy access increases stockholders opportunity to engage with and influence the Company. The Board was proactive in adopting proxy access for the benefit of stockholders and now seeks stockholder ratification of this proxy access bylaw amendment.

If our stockholders do not ratify the amendment, the Board will amend the Company s Bylaws to remove the proxy access provision.

DIRECTOR COMPENSATION IN 2016

The Corporate Governance Committee reviews and makes recommendations to the Board regarding the form and amount of compensation for non-employee directors. As part of its review, the Corporate Governance Committee periodically obtains competitive market data. The Company s director compensation program is designed to attract and retain highly qualified directors and to reward the time, effort, expertise and accountability required of active Board membership. In general, the Corporate Governance Committee and the Board believe that annual compensation for non-employee directors should consist of both a cash component, designed to compensate members for their service on the Board and its committees, and an equity component, designed to align the interests of directors and stockholders and, by vesting over time, to create an incentive for continued service on the Board.

DIRECTOR COMPENSATION

The following table describes the components of our non-employee director compensation program for 2016:

Compensation Element	Description			
Cash Retainer	\$87,500	\$87,500		
Annual Equity Retainer ¹	Board members in February Accelerated vesting in the event of a chang as a result of death or disability, or retirem Dividend equivalents equal to the dividend	RSUs valued at approximately \$87,500 that vest quarterly granted to Board members in February Accelerated vesting in the event of a change in control, service terminates as a result of death or disability, or retirement after attaining age 72 Dividend equivalents equal to the dividend per share are paid on each unvested RSU on each dividend payment date

Hook and JoAnna L.		

Deferred Compensation

Under the Non-Employee Director Deferred Stock Plan each non-employee director who joined the Board before December 15, 2005 was granted the right to receive 12,000 shares of Common Stock when his or her membership on the Board terminates or, if sooner, when a change in control occurs. The plan also provides for the payment of dividend equivalents equal to one dividend per share for each dividend payment date payable quarterly and in cash.

Under the Directors Deferred Compensation Plan each non-employee director may defer all or a portion of his or her Board retainer and meeting fees, and/or the dividend equivalents paid under this plan. Directors may elect to credit such deferred compensation to a cash account, a phantom stock account, or a combination of the two.

Non-Management Director Stock Ownership Requirements

As reflected above, under our stock ownership requirements, each of our non-management directors is required to accumulate an ownership position in Company Common Stock equal in value to five times the annual cash retainer. Two-thirds of the value of unvested RSUs and all of the shares payable under the Non-Employee Director Deferred Stock Plan count toward achieving ownership requirements. Directors are required to retain all net after-tax proceeds from Company equity grants until ownership levels are met. Once ownership levels are met, the requirement is converted to a fixed number of shares, subject to increases based on increases in the annual cash retainer.

Director Compensation Table

The following table sets forth the aggregate amounts of compensation information for the year ended December 31, 2016 for non-management directors.

	Fees Earned or	Stock	Changes in Pension Value and Nongualified Deferred	All Other	
Name of Director	Paid in Cash	Awards ¹	Compensation Earnings ²	Compensation ³	Total
Thomas O. Barnes	\$187,500	\$83,316	\$0	\$88,206	\$359,022
Elijah K. Barnes	61,657	64,892	0	0	126,549
Gary G. Benanav	90,995	83,316	6,823	317	181,451
William S. Bristow, Jr. 4	30,578	83,316	0	402,480	113,894
Thomas J. Hook	58,657	64,892	0	0	123,549
Francis J. Kramer ⁵	62,222	41,673	0	0	103,895

William J. Morgan	105,000	83,316	0	317	188,633
JoAnna L. Sohovich	95,000	83,316	0	0	178,316

Stock Awards represent the aggregate grant date fair value of RSUs granted to directors under the Stock and Incentive Award Plan. The amounts differ from the annual retainer amount of \$87,500 because the number of RSUs subject to the annual equity retainer is calculated using the

average closing price of our Common Stock for the first 15 trading days of 2016. The amount for Messrs. E. Barnes, Hook and Männer reflect partial years based on their date of election or appointment.

Mr. Benanav participates in the Barnes Group Inc. Directors Deferred Compensation Plan. Interest is calculated each quarter, on the amount of deferred director fees and dividends, based upon the rate of interest for prime commercial loans on the first business day of each quarter. Any 2. preferential amount would be determined by calculating the difference between the actual interest credited to Mr. Benanav and the interest that would have been earned using 120% of a ten-year Treasury bill rate. During 2016, there was \$6,823 of preferential interest earned and the aggregate balance of this deferred compensation at December 31, 2016 was \$1,741,751.

3. The compensation represented by the amounts for 2016 set forth in the All Other Compensation column for the directors is detailed in the following table:

Name of Director Thomas O. Barnes	Taxes Paid on All Other Compensation ^a \$29,178	Life Insura Premiu \$59,	m ^b	Other ^c \$0	Total \$88,206
Elijah K. Barnes Gary G. Benanav	0		0 0	0 317	0 317

Hassell H. McClellan	0	0		317	317
William J. Morgan	0		0	317	317
JoAnna L. Sohovich	0	0		0	0

Includes taxes paid pursuant to the terms of the SEELIP, under which the Company pays the policy premiums, and pays the income tax a. liability arising from its payment of the premiums and taxes. The SEELIP was closed to new participants effective April 1, 2011. The amount reflected is based on the maximum tax rates of the director s jurisdiction.

At December 31, 2016, the aggregate balance included \$30,369 of life insurance premiums paid on behalf of Mr. T. Barnes under the SEELIP and \$28,659 of income related to a split dollar life insurance policy. The compensation associated with the split dollar life insurance of agreement was calculated by determining Mr. T. Barnes current share in the policy and multiplying that by an estimated term life insurance rate based upon certain factors such as the age of the insured and the amount of the policy.

c. and Messrs. Benanav, McClellan and Morgan.

d. Received under the Non-Employee Director Deferred Stock Plan (page 14)

4. Mr. Bristow did not stand for re-election to the Board at the 2016 Annual Meeting. In consideration of his 35 years of service, the Board did not reduce his annual stock award amount for partial year service.

5. Mr. Kramer resigned from the Board as of September 16, 2016. His stock award amount reflects the portion of the annual equity retainer earned through his resignation.

COMPENSATION DISCUSSION AND ANALYSIS

Proposal 3 Advisory Vote To Approve The Company s Executive Compensation

We seek our stockholders advisory (non-binding) vote to approve the compensation of our named executive officers as described in the Compensation Discussion and Analysis (CD&A) section, the executive compensation tables, and the accompanying narrative disclosure regarding named executive officer compensation. This advisory proposal, known as a say-on-pay vote, gives stockholders the opportunity to vote whether or not to approve the compensation of our named executive officers as described in this proxy statement.

We recognize our stockholders interest in the Company s executive compensation program. As such, we currently hold an annual say-on-pay vote. If our stockholders vote for annual say-on-pay in response to Proposal 4, below, our next say-on-pay vote will occur at our 2018 annual meeting.

The Company s executive compensation programs are designed to attract, engage and retain highly qualified executive officers. The Company has a strong pay-for-performance philosophy, so we closely align our named executive officers compensation with the Company s performance. We encourage stockholders to review the CD&A for a detailed description of our executive compensation programs. The Board recommends that stockholders vote FOR the following resolution:

RESOLVED, that the stockholders approve, on an advisory basis, the compensation of the Company s named executive officers as disclosed in this proxy statement, including the Compensation Discussion and Analysis, the accompanying executive compensation tables and the related narrative discussion.

This vote is advisory, which means that it is not binding on the Board or the Compensation Committee, nor will it affect any compensation paid or awarded to any named executive officer. However, the Board and the Compensation Committee will review and consider the voting results when evaluating our future executive compensation arrangements.

Proposal 4 Advisory Resolution Regarding The Frequency Of Holding An Advisory Vote On The Company s Executive Compensation

At least once every six years we are required to provide stockholders with a separate advisory (non-binding) stockholder vote on the frequency of our say-on-pay proposal. The last vote took place in 2011. Stockholders may indicate whether they would prefer a say-on-pay advisory vote every one, two or three years, or abstain from voting. Accordingly, stockholders are being asked to approve the following resolution:

RESOLVED, that the Company s hold a preferred annual stockholder vote to approve the compensation of the named executive officers.

As provided by the Dodd-Frank Act, this vote will not be binding on the Board of Directors or the Compensation Committee and may not be construed as overruling a decision by the Board of Directors or the Compensation Committee nor create or imply any additional fiduciary duty on the Board of Directors. Further, it will not affect any compensation paid or awarded to any named executive officer. However, the Compensation Committee and the Board of Directors recognize the importance of receiving input from our stockholders on important issues such as executive compensation and expect to take into account the outcome of the vote when considering the frequency of future say-on-pay votes.

In 2011, the Board of Directors recommended a triennial frequency (i.e., every three years) as the optimal frequency for the say-on-pay vote due to the cyclical nature of the Company s businesses. That year, 59.2% of stockholders voted in favor of an annual frequency. The Board responded to this advisory vote, implemented an annual say-on-pay vote frequency and recommends retaining the Company s annual frequency in light of the 2011 stockholder vote and current survey data.

This Compensation Discussion and Analysis provides a detailed discussion of our executive compensation philosophy and programs, the compensation decisions that the Compensation Committee has made under those programs and the factors considered in making those decisions. We also provide details regarding the individual components of our executive compensation programs and explain how and why the Compensation Committee makes decisions to establish executive compensation at particular levels. Our named executive officers (NEOs) for 2016 were:

NEO	Title
Patrick J. Dempsey	President and Chief Executive Officer
Christopher J. Stephens, Jr.	Senior Vice President, Finance and Chief Financial Officer
Scott A. Mayo	Senior Vice President, Barnes Group Inc., and President, Barnes Industrial
Michael A. Beck	Senior Vice President, Barnes Group Inc., and President, Barnes Aerospace
James P. Berklas	Senior Vice President, General Counsel and Secretary

Executive Summary

The Company s annual compensation program closely links compensation to Company performance and results. In 2016, the Company achieved its financial performance targets, delivering improvements in sales, operating margin and earnings per share. We continued to transform the Company by increasing the amount of highly-engineered products and differentiated industrial technologies in our portfolio. This shift has been accelerated through strategic acquisitions, particularly as it relates to our Molding Solutions business.

In 2016, we acquired FOBOHA, which specializes in the development and manufacture of complex plastic injection molds for packaging, medical, consumer and automotive applications. The acquisition of FOBOHA complements the Company s Molding Solutions business by further expanding penetration into the complex plastic molding systems market.

The Company s performance reflects organizational alignment behind three strategic enablers the deployment of the Barnes Enterprise System, accelerating Innovation and building a robust Talent Management System. Each enabler is instrumental in helping us to further strengthen our competitive advantage in the market, driving our long-term growth and success and supporting the continued transformation of the Company. They promote operational excellence and create value for all of our key stakeholders our employees, customers, stockholders and the community.

The Company s executive compensation programs for 2016 remained relatively unchanged from 2015, with the exception of a change in the number of performance measures applicable to the Performance Share Award (PSA) program. Beginning in 2016, for the 2016-2018 three-year measurement period, the Company eliminated EBITDA Growth relative to the performance of the Russell 2000 Index companies as a performance measure, and reduced the number of performance measures from three to two, maintaining Total Shareholder Return (TSR) relative to the performance of the Russell 2000 Index companies and Return On Invested Capital (ROIC) performance against an absolute internal goal as determined by the Compensation Committee.

For our 2016 annual compensation program, we continued to use Company-wide consolidated Revenue (Revenue), diluted Earnings Per Share (EPS) and Days Working Capital (DWC). These three corporate measures applied to Messrs. Dempsey, Stephens and Berklas. Messrs. Mayo and Beck were measured 40% on these corporate measures and 60% on the performance of the Industrial segment and Aerospace segment, respectively. Overall, this combination of performance measures is designed to emphasize profitability and productivity, and drive revenue growth.

Results under our 2016 annual compensation program are determined first according to Generally Accepted Accounting Principles (GAAP) but then may be adjusted to include or exclude certain unusual, non-recurring, or other adjustments in accordance with Section 162(m) of the Internal Revenue Code and as provided under our stockholder approved Performance-Linked Bonus Plan (PLBP). The Compensation Committee also retains negative discretion in accordance with Section 162(m) of the Internal Revenue Code to further reduce, but not increase, actual awards paid to NEOs under the PLBP. The adjusted financial performance results certified by the Compensation Committee under the PLBP are non-GAAP financial measures.

For Messrs. Dempsey, Stephens and Berklas, we calculated annual incentive compensation using the following corporate measures and weighting (resulting in a payout of 112% of target):

Corporate Performance Measures	Weighting (%)	As Certified 2016 Results*	Comparison to Target
Diluted EPS	60	\$2.54	\$0.07 above target
Revenue (in millions)	20	\$1,231	\$14 below target
Days Working Capital (DWC)	20	125	2 days above (worse than) target

For Mr. Mayo, we calculated annual incentive compensation using the above corporate measures and weighting, and the following measures and weighting for the Industrial segment (resulting in a payout of 126% of target):

Industrial Performance Measures	Weighting (%)	As Certified 2016 Results*	Comparison to Target
Operating Profit (in millions)	60	\$136.9	\$3 above target
Revenue (in millions)	20	\$824	\$1 below target
Days Working Capital (DWC)	20	110	-1 day below (better than) target

For Mr. Beck, we calculated annual incentive compensation using the above corporate measures and weighting, and the following measures and weighting for the Aerospace segment (resulting in a payout of 12% of target):

Aerospace Performance Measures	Weighting (%)	As Certified 2016 Results*	Comparison to Target
Operating Profit (in millions)	60	\$32.9	\$15 below target
Revenue (in millions)	20	\$363	\$16 below target
Days Working Capital (DWC)	20	138	5 days above (worse than) target

* Detailed descriptions of the measures and process used to determine adjustments can be found below in the Annual Cash Incentive Awards section on page 24.

Long-term incentive awards are the largest component of our NEOs annual compensation opportunity. The program consists of performance share awards (PSAs) that are earned based on key performance criteria; restricted stock units (RSUs); and stock options. Our NEOs 2016 measures and weightings are shown below:

Our CEO s 2016 long-term incentive award weightings were modified to 57% PSAs, 17% Stock Options and 26% RSUs to emphasize his leadership in executing the long-term strategy and continued transformation of the Company.

The PSA component of our long-term incentive program for 2016 measures the Company s relative performance over a three-year period against the performance of Russell 2000 Index companies for TSR and three-year ROIC performance against an absolute internal goal. The grants made in 2016 cover the 2016 to 2018 performance period. Payouts, if any, under the 2016 grants will be made in 2019.

In 2016, the 2013 PSA grant paid out at 145% of target, based on the following certified performance results for performance criteria in place at the time:

Performance Measure TSR	3 Year Growth 72%	Relative Performance Level 68%
EBITDA Growth (in millions)	36%	60%
Basic EPS Growth	30%	64%

Say On Pay Vote

The Compensation Committee believes that our executive compensation programs are consistent with our pay-for-performance philosophy. Each year, we evaluate our programs in light of market conditions, stockholder views (including the results of our annual say-on-pay resolution), and governance considerations, and make changes deemed appropriate for our business. Our Board of Directors has recommended that the Company maintain an annual frequency for the say-on-pay vote. At the 2016 annual stockholders meeting, we had strong support from our stockholders with respect to the compensation of our NEOs, with over 98% of the votes cast in favor of our say-on-pay resolution. We continue to evaluate our compensation programs by taking into account the voting results, other investor feedback through our annual outreach efforts and other factors used in assessing our executive compensation programs as discussed in this CD&A.

We continued outreach to our institutional stockholders in 2016. In an effort to engage our top stockholders and solicit their views on governance and executive compensation matters, we made a total of 45 solicitations for feedback from institutional stockholders, of which 4 stockholders accepted our offer to meet. During those meetings, we highlighted key governance practices and aspects of our current executive compensation program. Stockholders shared their perspectives, primarily consisting of viewpoints on various governance matters that were in general alignment with Company policy and practices as follows:

What We Do

We pay-for-performance - over 80% of CEO total direct compensation at target (and on average over 60% for other NEOs) is at risk in the form of annual and long-term incentives

We consider a relevant peer group in establishing compensation

We review the complete compensation package of every NEO annually

We have robust stock ownership requirements - $5\mathbf{x}$ base salary for CEO and $3\mathbf{x}$ for other NEOs

We have a clawback policy incorporated into our incentive compensation plans

We have double trigger equity vesting in the event of a change in control for all NEO awards

We have an independent compensation consultant that works directly with the Compensation Committee

What We Don t Do

We don t provide any 280G gross-ups for a golden parachute payment

We don t have excessive perquisites We don t have individual employment agreements with any executive officer We don t allow re-pricing of underwater stock options without stockholder approval We don t have a minimum payout of annual incentive or long term incentive compensation

Executive Compensation Philosophy

We believe that executive compensation should support and reinforce the company s pay-for-performance philosophy. Consequently, our NEO compensation is closely aligned with the Company s performance on both a short- and long-term basis. We tie a significant portion of the compensation opportunity for our NEOs directly to the Company s stock performance and other objectives that we believe affect stockholder value. As a result, if the Company s performance meets or exceeds pre-established performance targets, including achieving performance levels at or above the 50th percentile compared to Russell 2000 Index companies, and/or our stock price increases, the NEOs can realize significant compensation in the form of annual cash incentive payouts and long-term equity payouts. If the Company s performance does not meet pre-established performance targets, such as performance below the 50th percentile compared to Russell 2000 Index companies or other performance targets, and/or our stock price declines, the NEOs have significant downside financial risk.

The Company aims to provide our NEOs with total direct compensation targeted in a range around the median compared to a defined peer group of companies (Peer Group) on page 21. Individual executive compensation may be above or below the target range based on the individual s performance, experience, skill set and responsibilities. We also use proxy and survey data to inform the Compensation Committee about the external market value of our executive roles. We believe that targeting the median range for total direct compensation provides appropriate compensation levels that will attract high quality executives, provide the proper incentives to our NEOs to achieve our strategic objectives and retain our NEOs over the long term.

Total Direct Compensation In 2016

Total direct compensation includes the following three elements: annual base salary; annual cash incentive awards; and long-term incentive awards. The Compensation Committee can vary the performance measures from year to year as needed to reinforce strategic priorities. In addition, our NEOs are eligible for change in control and severance benefits; defined benefit or defined contribution program benefits; retirement and executive life insurance programs; and limited perquisites.

Performance-based compensation in the form of annual and long-term incentives constituted over 84% of 2016 total direct compensation at target for our CEO and, on average, over 62% of 2016 total direct compensation at target for our other NEOs. The actual mix of compensation for our CEO and other NEOs is shown below.

The Summary Compensation Table on page 35 provides details regarding actual compensation for each NEO.

Executive Compensation General Objectives And Process

The primary objective of the Company s executive compensation program is to support our long-term strategic business goals of building lasting stockholder value and achieving sustainable profitable growth. To support these goals, our compensation programs for our NEOs are designed to:

Provide appropriate incentives by linking and balancing significant short- and long-term compensation opportunities to Company performance and TSR;

Reward NEOs who contribute meaningfully to achieving our strategic objectives;

Require NEOs to hold a significant equity investment in our Company so that they manage the business from the perspective of stockholders;

Align our compensation polices with stockholders long-term interests by assigning a significant portion of potential compensation to performance-based pay elements that depend on achieving the Company s goals, but that do not encourage excessive risk-taking;

Attract, retain and engage highly qualified individuals by offering competitive, balanced compensation arrangements based upon clear goals that vest on continued employment; and

Maximize the tax effectiveness of the total compensation and benefits package, and minimize potentially adverse tax and accounting consequences, in each case to the extent practicable.

The Compensation Committee is responsible for determining the types and amounts of compensation paid to our NEOs. The Compensation Committee uses several tools to make these determinations, including external consultants and peer group analysis.

External Consultants

Consistent with prior years, management outsourced certain executive compensation analysis services to Mercer, a wholly-owned subsidiary of Marsh & McLennan Companies, Inc. As part of these services in 2016, Mercer compiled annual competitive compensation data and reviewed the Company s compensation practices in terms of competitiveness, appropriateness and alignment with our performance, as well as the mix of pay.

The Compensation Committee directly retains a consulting firm, Meridian Compensation Partners, LLC (Meridian), to assist in its oversight of the executive compensation program, which includes reviewing and assessing information provided by management, including the analysis furnished by Mercer. The fees for Meridian are negotiated directly by the Compensation Committee and paid by the Company at the Compensation Committee s request. Meridian did not provide any services to the Company in 2016 other than advice on executive compensation.

Meridian regularly participates in Compensation Committee meetings, both with and without Company management, and advises the Compensation Committee on compensation trends and best practices, plan design, pay and performance alignment and the process used to determine the reasonableness of individual compensation awards. The Compensation Committee believes that using an independent consultant helps ensure that the Company s executive compensation program is reasonable and consistent with Company goals and evolving governance considerations. In addition, the Compensation Committee from time to time directly retains its own outside legal counsel.

Before retaining a compensation consultant or any other external advisor, the Compensation Committee evaluates the independence of such advisors. In 2016, the Compensation Committee assessed Meridian s independence, taking into account SEC Rule 10C-1(b)(4) and the corresponding NYSE independence factors regarding compensation advisor independence. Based on this assessment, the Compensation Committee believes that there is no conflict of interest and that its advisors are able to independently advise the Compensation Committee.

Peer Group Analysis

A primary data source used in setting NEO compensation is the information publicly disclosed by our Peer Group. The Peer Group is reviewed periodically and updated as appropriate to take into account changes in the size, scope, financial performance, ownership structure and business focus of the Company and the peer institutions.

The 2016 Peer Group remains as it was established in 2013 with the assistance of our former compensation consultant, Frederic W. Cook & Company, Inc. (Cook), following the divestiture of certain distribution related businesses. In developing this Peer Group, Cook considered companies: with revenue ranging from about one-half to two times the Company s revenue; that operated in one of the same industries as the Company; and that used the same distribution channels as the Company. Companies with a significant concentration of ownership by one party were removed from consideration. In addition to the factors described above, Cook reviewed the following additional criteria to evaluate potential peer companies:

Primarily focused on manufacturing

Multiple lines of business

Involved with specialty products

Similar customer base

Derives at least 25% of its revenue from outside the United States

Included in the Peer Group assigned to the Company by at least one of the major proxy advisory firms

Includes the Company in its peer group

Based on this review, the Compensation Committee approved a new Peer Group in October 2013 which has not changed and was used in evaluating 2016 NEO compensation. When establishing the Peer Group, the Compensation Committee reviewed the rankings of the Company compared to the Peer Group in a variety of categories, including Revenue Growth, EBITDA Growth, Net Income Growth, Basic EPS Growth, Return on Average Invested Capital and TSR.

Our 2016 Peer Group includes the following 24 companies, all of which were part of our 2015 Peer Group:

Actuant Corporation
Altra Holdings Inc.
B/E Aerospace, Inc.
Chart Industries
Circor International, Inc.
Clarcor, Inc.
Columbus McKinnon Corporation
Crane Company

- Curtiss-Wright Corporation Donaldson Company, Inc. Enpro Industries Inc. Esco Technologies Esterline Technologies Corporation Franklin Electric Company Graco Inc. Hexcel Corp.
- IDEX Corporation Kennametal Inc. Nordson Corporation Standex International Corp. TriMas Corporation Valmont Industries Inc. Watts Water Technologies, Inc. Woodward, Inc.

In 2017, we plan to undertake a complete review of the Peer Group given the ongoing transformation of our business portfolio.

For executive positions where public proxy data from our peers is not available, survey data representing similarly sized companies in manufacturing is used for benchmarking purposes. In addition, in connection with our annual compensation review process, in July 2016 the Compensation Committee reviewed tally sheets for each NEO that provided total compensation information, including direct compensation and benefits, as well as possible payments under various termination scenarios.

The Role of Executive Officers

Our President and Chief Executive Officer provides the Compensation Committee with a performance assessment for each of the other NEOs. In 2016, Mr. Dempsey provided the Compensation Committee with his assessments of NEO performance and recommendations on salary changes and annual equity grants. The Compensation Committee uses these assessments, along with other information, to determine NEO compensation. Messrs. Dempsey and Berklas, Senior Vice President, General Counsel and Secretary, as well as Ms. Dawn N. Edwards, Senior Vice President, Human Resources, regularly attend Compensation Committee meetings at the request of the Compensation Committee, but they are not present for any discussion of their own compensation. In addition, Mr. Stephens, Senior Vice President, Finance, and Chief Financial Officer, provides financial information used by the Compensation Committee to make decisions regarding incentive compensation targets and related payouts.

Components Of Our Executive Compensation Program

For 2016, compensation for our NEOs included:

Base salary;

Annual cash incentive awards;

Long-term incentive awards;

Change in control and severance benefits;

Defined benefit or defined contribution retirement benefits and executive life insurance programs; and

Limited perquisites.

Base salary, annual cash incentive awards and long-term incentive awards are taken into account to set the target total direct compensation opportunity for each NEO. Based on competitive compensation data compiled by Mercer and presented to the Compensation Committee in December, 2016 target total direct compensation for Messrs. Dempsey, Stephens, Mayo, Beck and Berklas approximates the market median compared to our Peer Group. In setting the target total direct compensation for our NEOs, the Compensation Committee may make decisions that vary from the Peer Group or competitive compensation survey data based on NEO experience, performance, retention considerations, range of responsibilities and the nature and complexity of each NEO s role.

Base Salary

Base salaries for executive officers are determined by the Compensation Committee and reviewed annually. They are typically increased at periodic intervals, often at the time of a change in position or assumption of new responsibilities. Base salary increases usually take effect on or around April 1st of each year, but may be made at other times if the Compensation Committee deems it appropriate based on internal and external considerations.

In determining whether to award merit-based salary increases to our NEOs, the Compensation Committee considered a number of factors, including:

Peer Group data and external market information;

Individual performance;

The level of responsibility assumed and the nature and complexity of each NEO s role (including the number of years in the position, any recent promotion or change in responsibility or impact as a member of management, and the amount, timing and percentage of the last base salary increase);

The leadership demonstrated to create and promote a day-to-day working environment of unwavering integrity, compliance with applicable laws and the Company s ethics policies, and global responsibility; and

The desire to retain NEOs capable of driving achievement of the Company s strategic objectives and the marketability and criticality of retention of NEOs.

In 2016, the Compensation Committee continued to focus on performance-based compensation and did not increase the base salary of any NEO.

Annual Cash Incentive Awards

We pay annual cash incentive awards to reward the performance of our NEOs. Except in circumstances of retirement, death, or disability, or certain instances of involuntary termination by the Company on or after November 1st of an award period, an NEO generally must be employed by us on the payment date to receive an annual cash incentive award. In 2016, all NEOs participated in the PLBP, except for Mr. Beck who participated in the Management Incentive Compensation Plan (MICP). Mr. Beck was not a PLBP participant in 2016 since he joined the Company after the February 2016 Compensation Committee meeting at which the Compensation Committee determined the participants in the PLBP for 2016.

We refer to the PLBP and MICP plans as our Annual Incentive Plans. The MICP is structured to pay annual cash incentive awards on the same terms and conditions as set forth in the PLBP. The difference between the two plans is that the PLBP may be structured to pay amounts that meet the qualified performance-based compensation exception under Section 162(m) of the Internal Revenue Code.

Under both the PLBP and MICP, each NEO is assigned an award opportunity expressed as a percentage of his or her base salary, which varies by the NEO s role. Each NEO s annual cash incentive payout is generally determined based on our achievement of Company performance objectives.

The chart below details the cash incentive award opportunities available to each NEO for 2016 under the PLBP or MICP expressed as a percentage of base salary. Where performance falls between the threshold, target or maximum performance levels, the cash incentive award opportunity is calculated using straight-line interpolation.

	% of Salary		
Name of Executive	Threshold Level	Target Level	Maximum Level
P. Dempsey	18.75%	75%	225%
C. Stephens, Jr.	12.5%	50%	150%
S. Mayo —	12.5%	50%	150%
M. Beck	12.5%	50%	150%
J. Berklas	11.25%	45%	_135%

The Compensation Committee generally establishes the target for each financial performance measure in December of each year based on review and approval of the Company s annual business plan and budget. These targets are reviewed again at the Compensation Committee s next meeting in February along with the Company s full year financial performance. The Compensation Committee may establish and approve revised targets to the extent the Company s annual business plan and budget are modified within the first 90 days of the year based on the full year performance. We use financial performance objectives under the PLBP and MICP because they are consistent with our focus on driving strong business performance and increasing long-term stockholder value.

For fiscal year 2016, the corporate performance measures for the PLBP and MICP continued to be Diluted EPS, Revenue and DWC. Diluted EPS is used because it is a principal driver of our stock price. Revenue is used to drive growth in the size of our business. DWC is used to enhance focus on driving cash flow from operating activities.

For fiscal year 2016, all NEOs were evaluated at least in part on corporate measures. We evaluated NEOs, other than Messrs. Mayo and Beck, based 100% on the corporate measures in recognition of the key role that each plays in the overall management of the Company and in recognition of the impact of overall corporate strategies on segment results. For Messrs. Mayo and Beck, 40% of the determination was based on corporate measures and 60% of the determination was based on measures tied to the performance of their respective business segments, reflecting their specific responsibilities for segment performance.

The charts below set forth the PLBP and MICP performance measures and the weighting of each measure for the NEOs for 2016:

Corporate Measures

Segment Measures

The definitions of the segment measures are included in the footnotes to the Segment Goal tables included below.

As noted previously, achievement of the financial performance measures under the PLBP and MICP is first determined according to GAAP, but then adjusted under the terms of the PLBP to include or exclude certain unusual or non-recurring or other adjustments in accordance with Section 162(m) of the Internal Revenue Code. The Compensation Committee also retains negative discretion in accordance with Section 162(m) of the Internal Revenue Code to further reduce, but not increase, actual awards paid to the NEOs under the PLBP. The adjusted financial performance results certified by the Compensation Committee under the PLBP and MICP are non-GAAP financial measures.

The charts below detail results certified by the Compensation Committee compared to the goals:

Long-Term Incentive Compensation

Long-term incentive award opportunities are potentially the largest component of total annual compensation and constituted over 84% of 2016 total direct compensation at target for our CEO and on average over 62% of 2016 total direct compensation at target for our NEOs. We believe that long-term performance is enhanced through the use of awards denominated in share value. These awards reward our NEOs for maximizing stockholder value over time, aligning the interests of our employees and management with those of our stockholders. When coupled with the ownership requirements described below, our long-term incentive awards encourage our NEOs to maintain a continuing stake in our long-term success and provide an effective way to tie a substantial percentage of total direct compensation to any increase or decrease in stockholder value.

In 2016, the Company used a combination of time-based equity awards and performance-based equity awards. Particular emphasis was placed on PSAs, which make up the largest portion (50%) of the value of equity awards at the time of grant. In determining the mix of equity grants, the Compensation Committee considered the pay-for-performance philosophy at the Company, aligning the NEOs interests with those of our stockholders, past practice, changes in business strategy, competitive practice (both generally and within the Peer Group), and the strategic impact of equity-based compensation (i.e., cost effectiveness, stockholder dilution, executive retention, a link to Company performance and total stockholder return).

The following types of long-term incentive awards are currently used under the terms of the 2014 Barnes Group Inc. Stock and Incentive Award Plan (the Stock and Incentive Award Plan):

M-ht-l-	Target Portion of Total Long-term Incentive	Marette a	2
Vehicle	Compensation	Vesting	Comments Provides an opportunity to receive Common Stock if pre-defined performance measures are met over the 3-year performance period
			Settled in shares of Common Stock
			Accrued dividends are paid out in cash at the end of the 3-year cycle, adjusted for the number of shares actually earned
PSAs	CEO: 57% Other NEOs: 50%	Performance-based vesting at the end of a 3-year cycle	For the 2016 grant, based on two equally-weighted performance measures - TSR relative to the performance of the Russell 2000 Index and ROIC performance based on absolute internal measures as determined by the Compensation Committee.
			Provides the opportunity for compensation only if the Company s stock price increases from the grant date
Stock Options	CEO: 17% Other NEOs: 20% CEO: 26%	Time-based vesting; 18, 30, and 42 months from the grant date in equal installments Time-based vesting; 18, 30, and 42 months	Grants are priced at the fair market value on the grant date Settled in shares of Common Stock
	Other NEOs: 30%	from the grant date in equal installments	Pays out dividend equivalents in cash during vesting
RSUs			periods

Stock options and RSUs are subject to time-based vesting with staggered vesting dates to encourage NEO retention. In addition to the time-vesting requirements, stock options have value only if the Common Stock price at the time of exercise exceeds the fair market value as of the grant date. This directly correlates to our stockholders interests, and focuses executives on the long-term growth of the Company and stockholder value.

The 2016 award will measure three-year TSR against the performance of Russell 2000 Index companies and three-year ROIC performance against an absolute internal goal determined by the Compensation Committee. The two measures are weighted equally. Based on performance, following the end of the three-year cycle, a payout, if any, is in the form of shares of Common Stock. A payout may range from zero for performance below the threshold level, to 250% of target for exceptional performance at the maximum level or above.

The chart below illustrates potential payouts at various levels of performance for the 2016 PSAs:

2016 Performance Share Awards

Payouts in the Last Year. Payouts under the PSA program occurred in 2016 for the three-year performance period ending December 31, 2015. The Relative Measure PSA program was renamed as the PSA program in 2015 to reflect the mixture of performance metrics, measured on a relative basis and on an absolute internal basis. In accordance with the plan, the Compensation Committee adjusted the reported or actual performance results to include or exclude certain unusual or non-recurring or other adjustments in accordance with the plan. The PSA payout for the period ending December 31, 2015 resulted in a weighted average payout level of 145%, calculated using the following results:

Termination Provisions. For PSAs, if the participant s employment is involuntarily terminated by the Company without cause before the first anniversary of the PSA grant date, the award is forfeited. If they are terminated after one year, a pro rata portion of the award based on the number of days the participant was employed during the applicable performance period is paid based on the Company s actual performance for that performance period relative to target. For stock options and RSUs, if the participant s employment is involuntarily terminated by the Company without cause, any unvested stock options or RSUs will be forfeited and vested options will remain exercisable for one year from the date of termination.

Since 2012, long-term incentive awards require a double trigger for accelerated vesting in the event of a change in control of the Company. In the event of a change in control as defined in the Stock and Incentive Award Plan, stock options, RSUs and PSAs will vest and accelerate only if an NEO s employment is terminated by the Company without cause, or if the NEO resigns for good reason (as defined in the severance agreements) on or within two years following a change in control.

Information on termination provisions related to death, disability and retirement can be found in the footnotes to the Summary Compensation Table and under Awards Granted Under The Stock And Incentive Award Plan on page 45.

Setting Award Levels. Long-term incentive award opportunities are established by the Compensation Committee according to the NEO s position and responsibilities and based on a comparison to our Peer Group and competitive compensation data. In 2016, the Compensation Committee differentiated target awards based on individual NEO performance, experience and market positioning.

The Compensation Committee does not take into account existing NEO Common Stock holdings when determining awards because it believes that doing so could penalize success (if compensation were reduced based on the appreciation of past awards) or reward underperformance (if compensation were awarded to make up for lack of appreciation in stock price).

The Company s practice is to make all equity awards at the first regularly scheduled meeting of the Compensation Committee, which typically occurs early in February. The Company makes off-cycle equity grants to NEOs in limited circumstances, generally for newly hired executives, promotions, in recognition of special events, or as retention incentives.

2016 Awards. The established target mix for all NEOs places more weight on performance-based equity. For NEOs other than the CEO, the same target mix and weighting for equity was used in 2016 as in prior years, with PSAs at 50%, RSUs at 30% and Stock Options at 20%. In 2016, the target mix and weighting for equity for the CEO was modified to increase PSAs to 57% and reduce RSUs to 26% and Stock Options to 17%, to place additional emphasis on performance-based PSAs for the CEO.

NEO Stock Ownership Requirements

All of our NEOs, as well as certain other members of Company leadership, are subject to stock ownership requirements.

Two-thirds of the value of unvested RSUs count toward achieving ownership requirements. There is no deadline to achieve the ownership levels, but all net after-tax proceeds from Company equity grants, including stock option exercises, must be retained until ownership levels are met. Once ownership levels are met, the requirement is converted to a fixed number of shares.

As of the end of 2016, compliance with the requirements was as follows

Name of Executive	Multiple of Annual Salary	Fully Met Ownership Requirement	In Progress Toward Meeting Ownership Requirement
P. Dempsey	5x	x	
C. Stephens, Jr.	Зx	Х	
S. Mayo ¹	Зx		Х
M. Beck ¹	Зх		X
J. Berklas ¹	Зx		X

1. Messrs. Mayo, Berklas and Beck joined the Company in 2014, 2015 and 2016, respectively. **Risk Considerations**

Our executive compensation program motivates and rewards our NEOs for their performance during the fiscal year and over the long term and for taking appropriate business risks consistent with our strategic objectives. Our executive compensation program is also designed to mitigate the likelihood that our NEOs would make business decisions that present undue risk:

Our Stock Options and RSUs vest ratably over three or more years. Our PSAs vest based on performance at the end of the three-year performance period.

Annual cash incentive performance targets are tied to several financial metrics, including basic or diluted EPS and/or Operating Profit, Revenue and DWC and are quantitative and measurable.

The performance periods and vesting schedules for long-term incentives overlap and, therefore, reduce the motivation to maximize performance in any one period.

Our stock ownership requirements require our NEOs to own equity representing a significant multiple of their base salary and to retain this equity throughout their tenures.

All NEOs have entered into clawback agreements that allow us to recoup incentive compensation in situations where the awards earned by NEOs are based on the achievement of certain financial performance targets that are later restated and would therefore result in lower awards paid.

Payouts under our annual and long-term incentive programs are subject to a cap. Our annual cash incentive award payments are capped at 2.25 times base salary for the CEO and less for the other NEOs. Performance-based payouts under the PSAs are capped at 2.5 times the target level PSA grant.

Based on its most recent evaluation, the Compensation Committee concluded that the executive compensation programs are designed with the appropriate balance of risk and reward in relation to the Company s business strategy and are not reasonably likely to have a material adverse effect on the Company. For further discussion on risk oversight of the compensation programs for Company-wide employees, see the Risk Oversight and Assessment Policies and Practices section on page 34.

Pension and Other Retirement Programs

Our NEOs have the opportunity to participate in one or more of the following retirement plans:

Plan Salaried Retirement	Summary of Features
Income Plan (SRIP)	A broad-based tax-qualified defined benefit pension plan; vesting upon attaining 5 years of service. Effective December 31, 2012, this plan was closed to employees hired on or after January 1, 2013. In
Effective 12/31/2016, now called the Consolidated Pension Plan (CPP)	lieu of this benefit, eligible new employees will receive an annual retirement contribution under the Barnes Group Inc. Retirement Savings Plan of 4% of eligible earnings. Only Messrs. Dempsey and Stephens participate in the SRIP.
Retirement Savings Plan	401(k): A broad-based tax qualified defined contribution savings plan with a 401(k) elective deferral and matching contribution feature for all participants. 100% vesting in matching contributions upon 2 years of service. All NEOs may participate in the 401(k) portion of the RSP.
(RSP)	Retirement Contribution: New employees who are not eligible to participate in the SRIP also receive an annual Retirement Contribution (RC) of 4% of eligible earnings subject to 5 year graded vesting. Messrs. Mayo, Berklas and Beck are eligible for the RC component of the RSP.
Retirement Benefit Equalization Plan (RBEP)	Provides benefits on base salary earnings in excess of Internal Revenue Service (IRS) limit on qualified plans that applies to the SRIP or the RC component of the RSP to eligible salaried employees, officers and NEOs who do not meet MSSORP/DC Plan vesting requirements; vesting upon attaining 5 years of service (5 year graded vesting for benefits based on the RC component of the RSP). All NEOs participate in the RBEP.
Modified Supplemental Senior Officer Retirement Plan (MSSORP)	Provides a 55% average final pay benefit (base salary and annual incentive); benefit is reduced for offsets from prior employer retirement benefits and other Company retirement benefits; vesting upon attaining age 55 and 10 years of service. This program was closed to new or rehired entrants in 2008. Only Mr. Dempsey participates in the MSSORP.
Nonqualified Deferred Compensation Plan (DC Plan)	Provides an annual Company contribution based on a percent of base salary and annual incentive in excess of IRS limit on qualified plans; for 2014, the contribution was based on 20% of base salary and annual incentive pay; vesting upon attaining age 55 and 10 years of service. The Company modified the DC Plan to close participation to any employee hired, rehired or promoted into an eligible position on or after April 1, 2012. Mr. Stephens is a grandfathered participant in the DC Plan.

The SRIP and RSP are broad-based tax-qualified plans. The RBEP provides the benefits of the SRIP and the RC component of the RSP in excess of IRS limits on broad-based tax-qualified plans. The MSSORP and the DC Plan are non-tax-qualified supplemental executive retirement plans that provide a higher level of benefits than are available under the SRIP to certain designated employees and senior level officers, including certain NEOs as reflected in the table below. Both of these plans are closed to new participants so new executives receive the same benefit levels as qualified plan participants.

The chart below summarizes which NEOs participate in each of the qualified and nonqualified pension and retirement plans. A more detailed discussion of the pension benefits payable to our NEOs is described in the Pension Benefits Table and the narrative following the table on page 39.

Norma of Evaluation		ed Plans		Nonqualified Plans RBEP MSSORP				
Name of Executive	SRIP	RSP RC ¹	RBEP	MSSORP	DC Plan			
P. Dempsey ²	Х		Х	Х				
C. Stephens, Jr.	Х		Х		Х			
S. Mayo		Х	Х					
M. Beck		Х	Х					
J. Berklas		Х	Х					

1. All NEOs may participate in the RSP (i.e., 401(k) plan) on the same terms as all other employees, but only Messrs. Mayo, Berklas and Beck are eligible to participate in the RC component of the RSP.

2. If age and service vesting requirements are not met under the MSSORP or the DC Plan, the RBEP benefits apply.

Change in Control and Employment Termination Benefits

The Company provides change in control benefits specifically to retain key executives, including NEOs, during a potential change in control, to provide continuity of management and to provide income continuation for NEOs who are particularly at risk of involuntary termination in the event of a change in control. These benefits are part of a competitive compensation package and keep our executive officers focused on our business goals and objectives. In some instances these agreements provide for payments and other benefits if we terminate a NEO s employment without cause, or if an NEO terminates employment for good reason, either before or after a change in control.

As discussed in more detail on page 33, none of the agreements for our NEOs include a gross-up for any taxes as a result of golden parachute payments under Section 4999 of the Internal Revenue Code. In addition, we generally do not provide change in control cash compensation benefits in excess of two times an executive s base salary and annual cash incentive compensation. Our agreements with our NEOs also provide for continuation of group health, life insurance, and other benefits for 24 months following the executive s termination and for certain other benefits. The terms of the change in control and incremental termination benefits payable to our NEOs are described in more detail under Potential Payments Upon Termination or Change in Control on page 46.

Perquisites

In 2016, the Company provided certain limited perquisites to our NEOs. The perquisites are fully described in the footnotes to the Summary Compensation Table and generally fall in the categories of financial planning and tax preparation services and annual executive physical examination.

Additional Benefits

Messrs. Dempsey and Stephens are grandfathered participants in the Company s Senior Executive Enhanced Life Insurance Program (SEELIP), under which the Company pays the premiums for a life insurance policy with a benefit of four times the employee s base salary. The policy is owned by the NEO but the Company pays the NEO s income tax liability arising from its payment of the premiums and taxes during the NEOs employment. Upon termination or retirement, the Company no longer pays the premium or the income tax liability. As previously disclosed, the Company closed participation to any employee hired or promoted into an eligible position after April 1, 2011.

When the SEELIP was closed to new entrants, the Company established the Executive Group Term Life Insurance Program (EGTLIP) for new NEOs and other eligible executives who were not already participants in the SEELIP. The EGTLIP provides premium payments for a term insurance policy with a benefit of four times the employee s base salary. Upon termination or retirement, the Company no longer pays the premiums. The NEO owns the policy and is responsible for any tax liability (i.e., no tax gross-up) resulting from this benefit. Messrs. Mayo, Berklas and Beck are participants in the EGTLIP.

Each of our NEOs participates in other employee benefit plans generally available to all U.S. based employees (e.g., health insurance) on the same terms as all other employees.

Additional Information

Employment Contracts

Generally, we have no employment contracts with our employees, unless required or customary based on local law or practice. None of our NEOs have an employment contract.

Clawback Agreements

Executives hired or promoted into corporate officer positions are required to enter into clawback agreements. These agreements permit the Company to recoup or clawback certain annual incentive compensation and performance-based equity awards paid to those officers where the awards were based on the achievement of certain financial performance targets that were later restated and would therefore have resulted in lower awards paid. The Company has entered into agreements with all NEOs and other select key employees. In addition, all of the Company s equity award agreements provide that awards may be forfeited if an employee engages in activity that is detrimental to the Company, including performing services for a competitor, disclosing confidential information, or otherwise violating the Company s Code of Business Ethics and Conduct. The Compensation Committee has discretion to make certain exceptions to the clawback requirements and ultimately determine whether any adjustment will be made.

Hedging and Pledging

The Company prohibits certain members of Company leadership, including all directors and executive officers (including all NEOs) from engaging in hedging transactions involving the Company s securities.

The Company prohibits certain members of Company leadership, including all directors and executive officers, from pledging or margin call arrangements involving the Company s securities that are held to meet the Company s stock ownership requirements. The Company also places other restrictions on any other pledging or margin call arrangements involving Company securities by such individuals. In addition, the ability of these individuals to engage in such transactions requires pre-approval from the Corporate Governance Committee and an annual certification to the Corporate Governance Committee that the individual is in compliance with the policy. None of our NEOs have pledged Company securities or have Company securities subject to a margin call arrangement.

Tax And Accounting Considerations

Internal Revenue Code Section 162(m)

As discussed above, our Compensation Committee considers the tax and accounting treatment associated with its cash and equity awards, although these considerations are not the overriding factor that the Compensation Committee uses in making its decisions. Section 162(m) of the Internal Revenue Code places a limit of \$1 million on the compensation that the Company may deduct in any one year with respect to each of its NEOs (except the CFO), unless certain conditions are met. There is an exception to the \$1 million limitation for performance-based compensation meeting certain requirements.

The Company currently grants awards intended to meet this exception including annual cash incentive awards, stock option awards and PSAs. Grants of restricted stock or stock units that vest solely on the basis of service do not qualify for the exception. To maintain flexibility in compensating NEOs in a manner designed to promote varying Company goals, our Compensation Committee

has not adopted a policy requiring all compensation to be deductible. Our Compensation Committee may approve compensation or changes to plans, programs or awards that may cause the compensation or awards to exceed the limitation under Section 162(m) if it determines that action is appropriate and in the Company s best interests.

Internal Revenue Code Section 280G

The Company also periodically reviews the severance agreements entered into between the Company and the NEOs to assess the impact of Section 280G of the Internal Revenue Code. Currently, the severance agreements do not provide for any gross-up to compensate our NEOs for taxes incurred under Section 4999 of the Internal Revenue Code as a consequence of golden parachute payments upon a change in control. Nor do they preclude the possibility that, in certain circumstances, the compensation payable in the event of a change in control under the agreements or other plans and arrangements may be non-deductible by the Company under Section 280G of the Internal Revenue Code.

Accounting for Equity Compensation

The Company accounts for its stock-based employee compensation plans at fair value on the grant date and recognizes the related cost in its consolidated statement of income in accordance with accounting standards related to share-based payments. The fair values of stock options are estimated using the Black-Scholes option-pricing model based on certain assumptions. The fair values of RSU awards and PSAs with a performance condition are estimated based on the fair market value of the Company s stock price on the grant date. The fair values of PSAs with a market condition are estimated using a Monte Carlo valuation model based on certain assumptions.

COMPENSATION COMMITTEE REPORT

To Our Fellow Stockholders at Barnes Group Inc.

We, the Compensation and Management Development Committee of the Board of Directors of Barnes Group Inc., have reviewed and discussed with management the Compensation Discussion and Analysis contained in this proxy statement and, based on such review and discussion, have recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement.

THE COMPENSATION COMMITTEE

RISK OVERSIGHT AND ASSESSMENT POLICIES AND PRACTICES

Our Audit Committee is ultimately responsible for overall risk oversight for the Company generally. See Board Role in Risk Oversight on page 34. The Compensation Committee evaluates and reviews our incentive compensation arrangements annually based on an inventory of all relevant compensation programs prepared by the Human Resources department which includes details of the principal features of the programs, including key risk mitigation factors to ensure that our employees, including our NEOs, are not encouraged to take unnecessary risks in managing our business. These factors include:

Our target total direct compensation mix represents a balance of short-term and long-term incentive based compensation, that focuses on both short-term and long-term goals and provides a mixture of cash and equity-based compensation;

Our annual long-term incentive awards vest over three or more years;

Our short-term incentive awards are tied to multiple performance-driven financial metrics;

Payments under our short-term and long-term incentive programs are capped;

We have stock ownership requirements for our executive officers, as well as certain other members of Company leadership, which ensure alignment with our stockholders interests over the long term;

On an annual basis, our executive officers confirm compliance with both our Code of Business Ethics and Conduct and our Securities Law Compliance Policy; and

We have formal clawback agreements with our executive officers.

The Compensation Committee also consults with and makes certain recommendations to the Board regarding the Company s compensation programs as necessary. Based on its evaluation, the Compensation Committee has concluded that the overall structure of the compensation programs for NEOs and Company-wide employees are designed with the appropriate balance of risk and reward in relation to the Company s overall business strategy and are not reasonably likely to have a material adverse effect on the Company.

EXECUTIVE COMPENSATION

Mr. Dempsey s 2015 salary represents a pro rata amount taking into account Mr. Dempsey s increase in salary from \$775,000 to \$800,000; Mr. 1. Beck s 2016 salary represents a portion of his \$390,000 base salary since he joined the Company effective March 2016 and Mr. Berklas 2015 salary represents a portion of his \$370,000 base salary since he joined the Company effective August 2015.

2 On February 8, 2017, the Compensation Committee approved a one-time discretionary bonus payment in the amount of \$55,000 (less applicable taxes) for Mr. Beck s leadership in 2016 and positioning the Aerospace segment for future growth.

Stock Awards represent the aggregate grant date fair value of RSUs and PSAs granted to NEOs under the Stock and Incentive Award Plan. PSAs vest upon satisfying established performance and market goals. In addition to the RSU value, the value disclosed in this column for the PSAs for Messrs. Dempsey, Stephens, Mayo, Beck and Berklas represents the amount of compensation if the target goals are met. The maximum grant date fair value of the PSAs granted in 2016 was \$3,577,890 for Mr. Dempsey, \$723,058 for Mr. Stephens, \$461,261 for Mr.

3. Mayo, \$1,026,025 for Mr. Beck and \$311,663 for Mr. Berklas. The PSAs allow a NEO to receive up to 250% of the target amount. The fair value of the performance based portion of the awards was determined based on the market value of Common Stock on the date of grant and the fair value of the market based portion of awards was determined based on a Monte Carlo valuation method; as described in the note on Stock-Based Compensation in the notes to the Company s consolidated financial statements filed with the Annual Report on Form 10-K for the respective year-end. The values disclosed in this column for 2014 include special recognition RSU and PSAs. The 2014 stock awards for Mr. Mayo, the 2015 stock awards for Mr. Berklas and the 2016 stock awards for Mr. Beck include new hire awards.

Option Awards represent the aggregate grant date fair value of stock options granted to NEOs under the Stock and Incentive Award Plan. The 4. fair value was determined using the Black-Scholes option pricing model applied consistently with the Company s practice, as described in the note on Stock-Based Compensation in the notes to the Company s consolidated financial statements filed with the Annual Report on Form 10-K for the respective year-end.

5. For all NEOs.

6. The amount listed in Change in Pension Value and Nonqualified Deferred Compensation Earnings represents the annual increase in pension value for all of the Company s defined benefit retirement programs. All assumptions are as detailed in the notes to the Company s consolidated financial statements filed with the Annual Report on Form 10-K for the respective year-end, with the exception of the following: retirement age for all plans is assumed to be the older of the unreduced retirement age, as defined by each plan, or age as of December 31, 2016, December 31, 2015, or December 31, 2014, as applicable, and no pre-retirement mortality, disability, or termination is assumed. The U.S. discount rates of 4.50%, 4.65% and 4.25%, respectively, are detailed in the Management s Discussion and Analysis filed with the Annual Report on Form 10-K for

Edgar Filing: BARNES GROUP INC - Form PRE 14A

the respective year-end. Year-over-year changes in pension value generally are driven in large part due to changes in actuarial assumptions underlying the calculations as well as increase in service, age and compensation.

The Pension Values are segregated by plan in the following table:
