## ITEM 1. FINANCIAL STATEMENTS

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions for Form 10-Q and Article 210 8-03 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are of a normal recurring nature. Operating results for the three month period ended March 31, 2010, are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2010. For further information refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009.

FACT CORPORATION

Notes to the Consolidated Financial Statements for the three months ended March 31, 2010  
(Unaudited – prepared by Management)

Note 1 - Basis of presentation

The accompanying unaudited condensed consolidated financial statements of FACT Corporation (the "Company") have been prepared in accordance with Securities and Exchange Commission requirements for interim financial statements. Therefore, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. The financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2009.

The interim financial statements present the balance sheet, statements of operations and cash flows of FACT Corporation. The financial statements have been prepared in accordance with accounting principles generally accepted in the United States.

The interim financial information is unaudited. In the opinion of management, all adjustments necessary to present fairly the financial position as of March 31, 2010, and the results of operations, and cash flows presented herein have been included in the financial statements. All such adjustments are of a normal and recurring nature. Interim results are not necessarily indicative of results of operations for the full year.

Note 2 – Recently Issued Accounting Pronouncements

In June 2009 the FASB established the Accounting Standards Codification ("Codification" or "ASC") as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in accordance with generally accepted accounting principles in the United States ("GAAP"). Rules and interpretive releases of the Securities and Exchange Commission ("SEC") issued under authority of federal securities laws are also sources of GAAP for SEC registrants. Existing GAAP was not intended to be changed as a result of the Codification, and accordingly the change did not impact our financial statements. The ASC does change the way the guidance is organized and presented.

Statement of Financial Accounting Standards ("SFAS") SFAS No. 165 (ASC Topic 855), "Subsequent Events", SFAS No. 166 (ASC Topic 810), "Accounting for Transfers of Financial Assets-an Amendment of FASB Statement No. 140", SFAS No. 167 (ASC Topic 810), "Amendments to FASB Interpretation No. 46(R)", and SFAS No. 168 (ASC Topic 105), "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles-a replacement of FASB Statement No. 162" were recently issued. SFAS No. 165, 166, 167, and 168 have no current applicability to the Company or their effect on the financial statements would not have been significant.

Accounting Standards Update ("ASU") ASU No. 2009-05 (ASC Topic 820), which amends Fair Value Measurements and Disclosures - Overall, ASU No. 2009-13 (ASC Topic 605), Multiple-Deliverable Revenue Arrangements, ASU No. 2009-14 (ASC Topic 985), Certain Revenue Arrangements that include Software Elements, and various other ASU's No. 2009-2 through ASU No. 2009-18 which contain technical corrections to existing guidance or affect guidance to specialized industries or entities were recently issued. These updates have no current applicability to the Company or their effect on the financial statements would not have been significant.

## Note 3 – Financing Agreements

## 8% unsecured convertible notes due 2012:

On September 11, 2009, the Company entered into debt settlements with its creditors to settle a total of \$1,304,172 by way of convertible loans. Under the term of the convertible loans, the creditors have executed loan agreements for a period of three years, with interest payable annually at 8% per annum compounded monthly. The loans are unsecured and convertible for a period of one year into shares of the Company's Class A common stock at a deemed price of \$0.15 per share, for a total issuance of 8,694,481 shares, if converted.

In our evaluation of the financing agreement, we concluded that we will have to account for the debt and equity components separately upon the adoption FSP APB 14-1. The convertible bonds are recorded using fair market value of comparative straight bond with all similar features other than convertible feature. The difference between fair market value and bond principle is recorded as unamortized bond discount and will be amortized through the life of the bond which is 3 years. The effective interest rate on the liability component was 10% per annum compounded monthly which was the best estimation by our management. This rate was used to accrue interest expense as the standards required.

The discount on the 8% unsecured convertible notes is being amortized to interest expense using the effective interest method, over the life of the debt instrument. The carrying value of the financing is as follows:

	March 31, 2010	December 31, 2009
8% unsecured convertible notes, at face value	\$1,304,172	\$1,304,172
Less: unamortized discount	(45,964 )	(50,072 )
Carrying value	\$1,258,208	\$1,254,100

The 8% unsecured convertible notes bear interest at the rate of 8% per year compounded monthly. Interest expense recorded related to the amortization of debt discount and interest expense at the contractual rate was as follows:

	Three months ended March 31, 2010	2009
Amortization of debt discount	\$4,188	\$-
Interest at contractual rate	30,798	\$-

We didn't pay any cash to reduce the interest, resulting in accrued interest of \$59,609 as of March 31, 2010.

## 6% secured convertible debenture due 2012:

On September 11, 2009, the Company also renegotiated an outstanding debenture due in December 2009. As a result of the renegotiations the Company has entered into a new debenture agreement in the amount of \$317,517 with Ultimate Resort Destinations Inc. ("Ultimate"). Ultimate currently holds a debenture over the shares of Food and Culinary Technology Group Inc. (FACT Group Inc.), the Company's wholly-owned subsidiary operating in the customized nutrition solutions industry. The debenture has been rewritten for a period of three years, with interest payable at 6% per annum. The debenture will be convertible for a period of two years into the Company's Class A

common stock at a deemed price of \$0.14 per share, for a total issuance of 2,267,980 shares, if converted.

## Note 4 – Financing Agreements (continued)

## 6% secured convertible debenture due 2012 (continued)

In our evaluation of the financing agreement, we concluded that we will have to account for the debt and equity components separately upon the adoption FSP APB 14-1. The convertible bonds are recorded using fair market value of comparative straight bond with all similar features other than convertible feature. The difference between fair market value and bond principle is recorded as unamortized bond discount and will be amortized through the life of the bond which is 3 years. The effective interest rate on the liability component was 8% per annum which was the best estimation by our management. This rate was used to accrue interest expense as the standards required.

The discount on the 8% secured convertible debenture is being amortized to interest expense using the effective interest method, over the life of the debt instrument. The carrying value of the financing is as follows:

	March 31, 2010	December 31, 2009
6% secured convertible debenture, at face value	\$317,517	\$317,517
Less: unamortized discount	(13,589 )	(14,832 )
Carrying value	\$303,928	\$302,685

The 6% secured convertible debenture bears interest at the rate of 6% per year. Interest expense recorded related the amortization of debt discount and interest expense at the contractual rate was as follows:

	Three months ended March 31	
	2010	2009
Amortization of debt discount	\$1,243	\$-
Interest at contractual rate	5,941	\$-

We didn't pay any cash to reduce the interest, resulting in accrued interest of \$10,491 as of March 31, 2010.

## Note 5 – Accounts Payable and Accrued Liabilities

A summary of accounts payable and accrued liabilities as of March 31, 2010 and December 31, 2009 is as follow:

	March 31, 2010	December 31, 2009
Accounts payable – trade	\$524,152	\$305,634
Accounts payable – interest	70,100	38,874

## Note 6 – Common Stock and Stock Warrants

During the three months ended March 31, 2010, the Company issued 90,000 units of securities at \$0.25 per unit for a total amount of \$22,500 under a private placement agreement. Each unit consisted of one share of Class A common stock and two units to purchase warrants (one Class A warrant and one Class B warrant). Each Class A warrant can purchase one share of Class A common stock at \$0.30 per share within one calendar year. Each Class B warrant can purchase one share of Class A common stock at \$0.35 per share within two calendar years. An amount of \$9,041 from the total purchase price of \$22,500 was allocated to Class A common stock in respect of the issuance of 90,000 shares of common stock, leaving an amount of \$6,159 allocated to Class A warrants and an amount of \$7,300 allocated to Class B warrants, respectively.

The allocation was based on the fair market value of each type of warrant calculated using the Black-Scholes method. Information and significant assumptions embodied in our valuation are illustrated in the following table:

	Class A Warrant	Class B Warrant
Warrants to purchase common stock:		
Strike price	\$0.30	\$0.35
Volatility	177 %	177 %
Term (years)	1.00	2.00
Risk-free rate	0.40 %	1.03 %
Dividends	-	-

Note 7 – Related Parties' Transactions (continued)

(ii) Transactions with Directors and Officers (continued)

Dr. Brian Raines, a director of the Company, was appointed as Secretary of the Company in September 2009. The Company owes him an amount of \$13,344 for consulting services rendered in 2003.

(iii) Transactions with others

During the three month period ended March 31, 2010, Mr. Clifford Winsor, step father of the Company's CEO, did not provide any further cash advances to the Company and did not receive any payments against his outstanding bills. As of March 31, 2010, unpaid bills owing to Mr. Clifford Winsor totaled \$25,752.

Note 8 – Subsequent Events

Subsequent to the quarter ended March 31, 2010, Ms. Denise Gurley, our Vice President - Sales was released as an employee and removed as an officer.

The Company has evaluated subsequent events from the balance sheet date through the date that the financial statements were issued and determined that there are no additional events to disclose.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This quarterly report contains forward-looking statements relating to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may", "should", "intends", "expects", "plans", "anticipates", "believes", "estimates", "predicts", "potential", or "continue" or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors which may cause our or our industry's actual results, levels of activity or performance to be materially different from any future results, levels of activity or performance expressed or implied by these forward-looking statements.

Such factors include, among others, the following: international, national and local general economic and market conditions; demographic changes; the ability of the Company to sustain, manage or forecast its growth; the ability of the Company to successfully make and integrate acquisitions; raw material costs and availability; new product development and introduction; existing government regulations and changes in, or the failure to comply with, government regulations; adverse publicity; competition; the loss of significant customers or suppliers; fluctuations and difficulty in forecasting operating results; changes in business strategy or development plans; business disruptions; the ability to attract and retain qualified personnel; the ability to protect technology; and other factors referenced in this and previous filings.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity or performance. As required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Given these uncertainties, readers of this Form 10-Q and investors are cautioned not to place undue reliance on such forward-looking statements. The Company disclaims any obligation to update any such factors or to publicly announce the result of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

All dollar amounts stated herein are in US dollars unless otherwise indicated.

The management's discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The following discussion of our financial condition and results of operations should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2009 together with notes thereto. As used in this quarterly report, the terms "we", "us", "our", and the "Company" mean FACT Corporation, unless the context clearly requires otherwise.

#### General Overview

FACT Corporation predominantly operates in the functional food industry through its wholly-owned subsidiary, Food and Culinary Technology Group Inc., ("FACT Group") developing, licensing and supplying turnkey functional bake mixes to customers who manufacture, distribute, and market bakery and pasta products to consumers through a variety of conventional and alternative channels including retail, food service and specialty markets. Presently the Company's primary revenue stream is generated by the sale of these functional bake mixes in a wholesale format.

The Company also has minimal operations through its wholly-owned subsidiary, Wall Street Real Estate Investments Ltd. which generates revenues through the rental and sub-lease of office space in Calgary, Alberta. These leasing operations will cease in July 2010 when the head lease for the office space expires.

The Company further has one dormant subsidiary, FACT Products, Inc., which holds the proprietary rights to an Italian crème product, not currently in production.

## Material Changes in Financial Condition

During the most recently completed three month period ended March 31, 2010, the Company experienced a substantial increase to inventory, from \$3,193 in December 31, 2009 to \$204,333 as at March 31, 2010, with limited in-period sales to offset the inventory increase, resulting in a substantial increase to accounts payable due to our primary vendor. Accounts payable in total increased from \$363,673 in December 31, 2009 to \$606,670 in March 31, 2010. The Company successfully collected its prior period accounts receivable, which funds were used to reduce accounts payable and for general operating expenses, but in insufficient amounts to settle invoices for all inventory on hand. The Company received loan proceeds totaling \$25,100 from a related party, International Securities Group Inc., and \$2,938 from an arm's length third party to help offset operational shortfalls during the most recently completed three month period. However, the Company will be required to continue to seek external sources of funding in order to meet our ongoing capital requirements until such time as the Company can obtain revenues in sufficient amounts to meet all inventory requirements and general operating expenses.

The Company anticipates that we will require approximately \$500,000 to \$750,000 over the coming six (6) months in order to successfully launch its new retail product line under our Nutrition First™ brand via regional and national grocery channels, as well as to complete the clinical testing proposed for its 2011 product launch initiatives.

There were no other material changes in our financial condition.

## Material Changes in Results of Operations

Quarter ended March 31, 2010 as compared to quarter ended March 31, 2009

Gross Profit on Functional food premix	\$32,127	\$73,014	(56.00	%)
Gross Profit Rate	15.71	% 15.80	% (0.57	%)

Net revenues and gross profit: Net revenues for the quarter ended March 31, 2010 decreased \$257,734, or 55.75%, to \$204,500 from \$462,234 for the quarter ended March 31, 2009. The decrease was entirely attributable to a decrease in sales of bake mix products to one of our two key wholesale customers as the result of the loss of a key customer account in the quarter ended June 30, 2009 so that \$286,000 in revenue from that customer reflected in the period ended March 31, 2009 had Nil sales in the current fiscal quarter. As a result, gross profit for the quarter ended March 31, 2010 decreased \$40,887, or 56%, to \$32,127 from \$73,014 for the quarter ended March 31, 2010. The Company's margin on the sale of functional bake mixes remained constant over the comparative periods. As a result of the loss of a key commercial account by one of our two key customers in the second quarter of fiscal 2009, the Company expects that revenues will continue at the reduced rate during fiscal 2010 until such time as the Company has successfully launched and receives recurring revenue from sales of its new line of retail bake mixes under its Nutrition First™ brand and/or the Company brings on additional commercial accounts for sale of its retail bakery mixes.

Legal services: During the three month period ended March 31, 2010 the Company received a \$7,000 payment which was released from a previously established escrow account to be applied directly against legal fees incurred from prior periods as the result of a legal settlement concluded in 2009 with one of the plaintiffs and filed under a consent order with the courts in February 2010. As a result the Company reported legal fees of (\$6,218) in the three months ended

March 31, 2010 as opposed to fees of \$18,735 in the prior comparative three month period. Legal fees were substantially decreased in the current quarter due to final settlement of our ongoing litigation in its entirety with all plaintiffs prior to March 31, 2010. At the conclusion of the litigation the Company also negotiated a reduction to outstanding legal fees in the amount of \$12,276 which has been recorded as other income – Gain on Debt Forgiveness.

General and administrative expense: General and administrative expense related to our primary operations in the functional foods business increased from \$31,353 for the quarter ended March 31, 2009 to \$146,112 for the quarter ended March 31, 2010 as the Company incurred substantially increased costs related to salary, research and development for its new retail product line under our Nutrition First™ brand, marketing of our existing and new product lines including the development of a new website, and associated travel costs during the comparative period.

Net loss: As a result of the foregoing, our net loss for the quarter ended March 31, 2010 increased to \$248,386 as compared to \$146,215 for the quarter ended March 31, 2010.

### ITEM 4T. CONTROLS AND PROCEDURES

#### Evaluation of Disclosure Controls and Procedures

Evaluation of Disclosure Controls and Procedures Disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in rules and forms adopted by the Securities and Exchange Commission ("SEC"), and that such information is accumulated and communicated to management, including the Principal Executive Officer and Principal Financial Officer, to allow timely decisions regarding required disclosures. Under the supervision and with the participation of our management, including our Principal Executive Officer and Principal Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")). Based upon that evaluation, our Principal Executive Officer and Principal Financial Officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective.

#### Changes in Internal Controls

There were no changes (including corrective actions with regard to significant deficiencies or material weaknesses) in our internal controls over financial reporting that occurred during the quarter ended March 31, 2010, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
