(A Development Stage Company)

Notes to condensed consolidated Financial Statements

As of June 30, 2012

NOTE 1. BASIS OF PRESENTATION

The interim financial statements included herein, presented in accordance with United States generally accepted accounting principles and stated in US dollars, have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading.

These statements reflect all adjustments, consisting of normal recurring adjustments, which, in the opinion of management, are necessary for fair presentation of the information contained therein. It is suggested that these condensed consolidated interim financial statements be read in conjunction with the financial statements of the Company for the year ended September 30, 2011 and notes thereto included in the Company's 10-K annual report. The Company follows the same accounting policies in the preparation of interim reports.

Results of operations for the interim periods are not indicative of annual results.

A. BASIS OF ACCOUNTING

The financial statements have been prepared using the basis of accounting generally accepted in the United States of America. Under this basis of accounting, revenues are recorded as earned and expenses are recorded at the time liabilities are incurred. The Company has adopted a September 30, year-end.

B. PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of Bio-Matrix Scientific Group, inc., a Delaware corporation, Bio Matrix Scientific Group, Inc, a Nevada corporation and a wholly owned subsidiary (BMSG), Regen BioPharma, Inc, a Nevada corporation and a wholly owned subsidiary (Regen) and Entest BioMedical, Inc., (Entest), which was a majority owned subsidiary under common control and a Nevada corporation up to February 3, 2011. Significant inter-company transactions have been eliminated.

C. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

D. DEVELOPMENT STAGE

The Company is a development stage company devoting substantially all of its efforts to establish a new business.

E. CASH EQUIVALENTS

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

F. PROPERTY AND EQUIPMENT

Property and equipment are recorded at cost. Maintenance and repairs are expensed in the year in which they are incurred. Expenditures that enhance the value of property and equipment are capitalized.

G. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. A fair value hierarchy requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required by the standard that the Company uses to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Company's financial instruments as of June 30, 2012 consisted of \$833,393 of Notes Payable, \$275,930 of Convertible Notes payable (including discount attributable to beneficial conversion feature) and \$52,940 due to Entest BioMedical. The fair value of all of the Company's financial instruments as of June 30, 2012 were valued according to the Level 2 input. The carrying amount of the financial instruments is equal to the fair value as determined by the Company

H. INCOME TAXES

The Company accounts for income taxes using the liability method prescribed by ASC 740, *Income Taxes*. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial reporting and tax bases of assets and liabilities using enacted tax rates that will be in effect in the year in which the differences are expected to reverse. The Company records a valuation allowance to offset deferred tax assets if based on the weight of available evidence, it is more-likely-than-not that some portion, or all, of the deferred tax assets will not be realized. The effect on deferred taxes of a change in tax rates is recognized as income or loss in the period that includes the enactment date.

The Company applied the provisions of ASC 740-10-50, *Accounting For Uncertainty In Income Taxes*, which provides clarification related to the process associated with accounting for uncertain tax positions recognized in our financial statements. Audit periods remain open for review until the statute of limitations has passed. The completion of review or the expiration of the statute of limitations for a given audit period could result in an adjustment to the Company's liability for income taxes. Any such adjustment could be material to the Company's results of operations for any given quarterly or annual period based, in part, upon the results of operations for the given period. As of March 31, 2011 and 2010, the Company had no uncertain tax positions, and will continue to evaluate for uncertain positions in the future.

The Company generated a deferred tax credit through net operating loss carry forward. However, a valuation allowance of 100% has been established.

Interest and penalties on tax deficiencies recognized in accordance with ACS accounting standards are classified as income taxes in accordance with ASC Topic 740-10-50-19.

I. BASIC EARNINGS (LOSS) PER SHARE

The Financial Accounting Standards Board (FASB) issued Accounting Standards Codification (ASC) 260, "Earnings Per Share", which specifies the computation, presentation and disclosure requirements for earnings (loss) per share for entities with publicly held common stock. ASC 260 requires the presentation of basic earnings (loss) per share and diluted earnings (loss) per share. The Company has adopted the provisions of ASC 260 effective from inception.

Basic net loss per share amounts is computed by dividing the net income by the weighted average number of common shares outstanding.

NOTE 2. RECENT ACCOUNTING PRONOUNCEMENTS

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs." The amendments in this update generally represent clarifications of Topic 820, but also include some instances where a particular principle or requirement for measuring fair value or disclosing information about fair value measurements has changed. This update results in common principles and requirements for measuring fair value and for disclosing information about fair value measurements in accordance with U.S. GAAP and IFRS. The amendments in this update are to be applied prospectively. The amendments are effective for interim and annual periods beginning after December 15, 2011. Early application is not permitted. The Company does not expect this guidance to have a significant impact on its consolidated financial position, results of operations or cash flows.

In June 2011, the FASB issued ASU No. 2011-05, "Presentation of Comprehensive Income." This update was amended in December 2011 by ASU No. 2011-12, "Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05." This update defers only those changes in update 2011-05 that relate to the presentation of reclassification adjustments. All other requirements in update 2011-05 are not affected by this update, including the requirement to report comprehensive income either in a single continuous financial statement or in two separate but consecutive financial statements. ASU No. 2011-05 and 2011-12 are effective for fiscal years (including interim periods) beginning after December 15, 2011. The Company does not expect this guidance to have a significant impact on its consolidated financial position, results of operations or cash flows.

In December 2011, the FASB issued ASU No. 2011-11, "Disclosures about Offsetting Assets and Liabilities." The amendments in this update require enhanced disclosures around financial instruments and derivative instruments that are either (1) offset in accordance with either ASC 210-20-45 or ASC 815-10-45 or (2) subject to an enforceable master netting arrangement or similar agreement, irrespective of whether they are offset in accordance with either ASC 210-20-45 or ASC 815-10-45. An entity should provide the disclosures required by those amendments retrospectively for all comparative periods presented. The amendments are effective during interim and annual periods beginning on or after January 1, 2013. The Company does not expect this guidance to have any impact on its consolidated financial position, results of operations or cash flows.

ASU 2011-08, *Intangibles - Goodwill and Other (Topic 350): Testing Goodwill for Impairment* is applicable to fiscal years beginning after December 15, 2011. Early application is permitted. The Company does not expect this ASU has a material impact on its financial position or carrying value of its intangible assets at this time.

A variety of proposed or otherwise potential accounting standards are currently under study by standard setting organizations and various regulatory agencies. Due to the tentative and preliminary nature of those proposed standards, the Company's management has not determined whether implementation of such standards would be material to its financial statements.

NOTE 3. PROPERTY AND EQUIPMENT

Property and equipment as of June 30, 2012 consists of the following:

Acquisition cost:

Estimate useful life (year)

Office equipment	3 to 5	7,250
Computer	3	16,207
Subtotal		23,457
Less accumulated depreciation		(2,668)
Total		\$US 20,789

Depreciation expenses were \$0 and \$ 0 for the year ended September 30, 2011 and nine months ended June 30, 2012, respectively. With the exception of one computer which is fully depreciated, no property and equipment has yet to be utilized in production therefore no depreciation shall be recognized until usage commences.

NOTE 4. OPTIONS AND WARRANTS

As of June 30, 2012 the Company has no outstanding exercisable warrants or options.

NOTE 5. GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. Exclusive of a onetime non-cash gain of \$42,182,649 recognized upon the deconsolidation of Entest, The Company generated net losses of \$ 14,586,263 (including \$536,961 of Net Losses attributable to non-controlling interest in Entest and \$663,649 in Equity in Net Losses of Entest) during the period from August 2, 2005 (inception) through March 31, 2012. This condition raises substantial doubt about the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent on its ability to meet its obligations, to obtain additional financing as may be required and ultimately to attain profitability. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Management plans to raise additional funds by offering securities for cash.

On April 26, 2012 the Company executed an Equity Purchase Agreement (the "Purchase Agreement") and Registration Rights Agreement (the "Rights Agreement") with Southridge Partners II, LP, and a Delaware limited partnership ("Southridge").

Under the terms of the Purchase Agreement, Southridge will purchase, at the Company's election, up to \$20,000,000 of the Company's registered common stock (the "Shares"). During the term of the Purchase Agreement, the Company may at any time deliver a "put notice" to Southridge thereby requiring Southridge to purchase a certain dollar amount of the Shares. Simultaneous with the delivery of such Shares, Southridge shall deliver payment for the Shares. Subject to certain restrictions, the purchase price for the Shares shall be equal to 91% of the Market Price, as such capitalized term is defined in the Purchase Agreement, on such date on which the Purchase Price is calculated in accordance with the terms and conditions of this Agreement.

Market Price, as such term is defined in the Purchase Agreement, means the lowest Closing Price, as such term is defined in the Purchase Agreement, during the Valuation Period, as such term is defined in the Purchase Agreement.

Closing Price is defined in the Purchase Agreement as the closing bid price for the Company's common stock on the principal market over which the Company's common shares trade on a day on which that principal market is open for business as reported by Bloomberg Finance L.P.

Valuation Period, as such term is defined in the Purchase Agreement, means the period of 5 Trading Days immediately following the Clearing Date, as such term is defined in the Purchase Agreement, associated with the applicable Put Notice during which the Purchase Price of the Shares is valued.

Clearing Date, as such term is defined in the Purchase Agreement, means the date in which the Estimated Put Shares (as defined in Section 2.2(a) of the Purchase Agreement) have been deposited into Southridge's brokerage account and Southridge's broker has confirmed with Southridge that Southridge may execute trades of such Estimated Put Shares.

The definition of Estimated Put Shares in Section 2.2(a) of the Purchase Agreement is that number of Shares equal to the dollar amount indicated in the Put Notice divided by the Closing Price on the Trading Day immediately preceding the Put Date, multiplied by 125%. Pursuant to the Purchase Agreement, on a Put Date the Company will be required to deliver the applicable number of Estimated Put Shares to Southridge's brokerage account. At the end of the Valuation Period the Purchase Price shall be established and the number of Shares shall be determined for a particular Put. If the number of Estimated Put Shares initially delivered to Southridge is greater than the Put Shares purchased by Southridge pursuant to such Put, then immediately after the Valuation Period Southridge shall deliver to Company any excess Estimated Put Shares associated with such Put. If the number of Estimated Put Shares delivered to Investor is less than the Shares purchased by Southridge pursuant to a Put, then immediately after the Valuation Period the Company shall deliver to Southridge the difference between the Estimated Put Shares and the Shares issuable pursuant to such Put.

The number of Shares sold to Southridge shall not exceed the number of such shares that, when aggregated with all other shares of common stock of the Company then beneficially owned by Southridge, would result in Southridge owning more than 9.99% of all of the Company's common stock then outstanding. Additionally, Southridge may not execute any short sales of the Company's common stock.

The Purchase Agreement shall terminate (i) on the date on which Southridge shall have purchased Shares pursuant to this Agreement for an aggregate Purchase Price of \$20,000,000, or (ii) on the date occurring 24 months from the date on which the Agreement was executed and delivered by the Company and Southridge.

Under the terms of the Rights Agreement, the Company agreed to file a registration statement with the Securities and Exchange Commission within 90 days of the date on which the Purchase Agreement was executed and delivered by the Company and Southridge.

The registration statement shall be filed with respect to not less than the maximum allowable number of Shares issuable pursuant to a put notice to Southridge that has been exercised or may be exercised in accordance with the terms and conditions of the Purchase Agreement permissible under Rule 415, promulgated under the Securities Act of 1933.

The Company is obligated to keep such registration statement effective until (i) three months after the last closing of a sale of Shares under the Purchase Agreement, (ii) the date when Southridge may sell all the Shares under Rule 144 without volume limitations, or (iii) the date Southridge no longer owns any of the Shares.

The Purchase Agreement requires the Company to reserve and keep available until the consummation of such Closing, free of preemptive rights sufficient shares of common stock for the purpose of enabling the Company to satisfy its obligation to issue the Shares.

The Purchase Agreement also requires the Company to issue to Southridge shares of a newly designated preferred stock with a stated value of \$50,000 convertible at the option of Southridge into shares of the Company's common stock at a conversion price equal to seventy percent (70%) of the lowest Closing Price for the five (5) trading days immediately preceding a conversion notice. The Preferred Stock shall have no registration rights. Such securities may not be issued until the Certificate of Incorporation of the Company is amended.

Valuation allowance	(5,118,705)
Net deferred tax assets	\$ -0-

As of June 30, 2012 the Company has a Deferred Tax Asset of \$5,118,705 completely attributable to net operating loss carry forwards of approximately \$14,624,879 (which expire 20 years from the date the loss was incurred) consisting of

(a) \$38,616, of Net Operating Loss Carry forwards acquired in the reverse acquisition of BMSG and

(b) \$14,586,263 attributable to Bio-Matrix Scientific Group, Inc. a Delaware corporation, BMSG, Regen and Entest

Realization of deferred tax assets is dependent upon sufficient future taxable income during the period that deductible temporary differences and carry forwards are expected to be available to reduce taxable income. The achievement of required future taxable income is uncertain. In addition, the reverse acquisition of BMSG has resulted in a change of control. Internal Revenue Code Sec 382 limits the amount of income that may be offset by net operating loss (NOL) carryovers after an ownership change. As a result, the Company has the Company recorded a valuation allowance reducing all deferred tax assets to 0.

On April 26, 2012 the Company executed an Equity Purchase Agreement (the "Purchase Agreement") and Registration Rights Agreement (the "Rights Agreement") with Southridge Partners II, LP, a Delaware limited partnership ("Southridge").

Under the terms of the Purchase Agreement, Southridge will purchase, at the Company's election, up to \$20,000,000 of the Company's registered common stock (the "Shares"). During the term of the Purchase Agreement, the Company may at any time deliver a "put notice" to Southridge thereby requiring Southridge to purchase a certain dollar amount of the Shares. Simultaneous with the delivery of such Shares, Southridge shall deliver payment for the Shares. Subject to certain restrictions, the purchase price for the Shares shall be equal to 91% of the Market Price, as such capitalized term is defined in the Purchase Agreement, on such date on which the Purchase Price is calculated in accordance with the terms and conditions of this Agreement.

Market Price, as such term is defined in the Purchase Agreement, means the lowest Closing Price, as such term is defined in the Purchase Agreement, during the Valuation Period, as such term is defined in the Purchase Agreement.

Closing Price is defined in the Purchase Agreement as the closing bid price for the Company's common stock on the principal market over which the Company's common shares trade on a day on which that principal market is open for business as reported by Bloomberg Finance L.P.

Valuation Period, as such term is defined in the Purchase Agreement, means the period of 5 Trading Days immediately following the Clearing Date, as such term is defined in the Purchase Agreement, associated with the applicable Put Notice during which the Purchase Price of the Shares is valued.

Clearing Date, as such term is defined in the Purchase Agreement, means the date in which the Estimated Put Shares (as defined in Section 2.2(a) of the Purchase Agreement) have been deposited into Southridge's brokerage account and Southridge's broker has confirmed with Southridge that Southridge may execute trades of such Estimated Put Shares.

The definition of Estimated Put Shares in Section 2.2(a) of the Purchase Agreement is that number of Shares equal to the dollar amount indicated in the Put Notice divided by the Closing Price on the Trading Day immediately preceding the Put Date, multiplied by 125%. Pursuant to the Purchase Agreement, on a Put Date the Company will be required to the applicable number of Estimated Put Shares to Southridge's brokerage account. At the end of the Valuation Period the Purchase Price shall be established and the number of Shares shall be determined for a particular Put. If the number of Estimated Put Shares initially delivered to Southridge is greater than the Put Shares purchased by Southridge pursuant to such Put, then immediately after the Valuation Period Southridge shall deliver to Company any excess Estimated Put Shares associated with such Put. If the number of Estimated Put Shares delivered to Investor is less than the Shares purchased by Southridge pursuant to a Put, then immediately after the Valuation Period the Company shall deliver to Southridge the difference between the Estimated Put Shares and the Shares issuable pursuant to such Put.

The number of Shares sold to Southridge shall not exceed the number of such shares that, when aggregated with all other shares of common stock of the Company then beneficially owned by Southridge, would result in Southridge owning more than 9.99% of all of the Company's common stock then outstanding. Additionally, Southridge may not execute any short sales of the Company's common stock.

The Purchase Agreement shall terminate (i) on the date on which Southridge shall have purchased Shares pursuant to this Agreement for an aggregate Purchase Price of \$20,000,000, or (ii) on the date occurring 24 months from the date on which the Agreement was executed and delivered by the Company and Southridge.

Under the terms of the Rights Agreement, the Company agreed to file a registration statement with the Securities and Exchange Commission within 90 days of the date on which the Purchase Agreement was executed and delivered by the Company and Southridge.

The registration statement shall be filed with respect to not less than the maximum allowable number of Shares issuable pursuant to a put notice to Southridge that has been exercised or may be exercised in accordance with the terms and conditions of the Purchase Agreement permissible under Rule 415, promulgated under the Securities Act of 1933.

The Company is obligated to keep such registration statement effective until (i) three months after the last closing of a sale of Shares under the Purchase Agreement, (ii) the date when Southridge may sell all the Shares under Rule 144 without volume limitations, or (iii) the date Southridge no longer owns any of the Shares.

The Purchase Agreement requires the Company to reserve and keep available until the consummation of such Closing, free of preemptive rights sufficient shares of common stock for the purpose of enabling the Company to satisfy its obligation to issue the Shares.

The Purchase Agreement also requires the Company to issue to Southridge shares of a newly designated preferred stock with a stated value of \$50,000 convertible at the option of Southridge into shares of the Company's common stock at a conversion price equal to seventy percent (70%) of the lowest Closing Price for the five (5) trading days immediately preceding a conversion notice. The Preferred Stock shall have no registration rights. Such securities may not be issued until the Certificate of Incorporation of the Company is amended.

On July 25 the Company issued a convertible promissory note in the amount of \$ 63,000. The note bears an interest rate of eight percent (8%), matures on April 30, 2013 and may be converted after 180 days from execution of this note for shares of the Company's common stock.
