Notes to Condensed Consolidated Financial Statements

Note 1: Summary of Significant Accounting Policies

Description of Business. A. H. Belo Corporation and subsidiaries (“A. H. Belo” or the “Company”), headquartered in Dallas, Texas, is a leading local news and information publishing company with commercial printing, distribution and direct mail capabilities, as well as businesses with expertise in emerging media and digital marketing. With a continued focus on extending the Company’s media platform, A. H. Belo is able to deliver news and information in innovative ways to new audiences with diverse interests and lifestyles.

The Company publishes The Dallas Morning News (www.dallasnews.com), Texas’ leading newspaper and winner of nine Pulitzer Prizes; the Denton Record-Chronicle (www.dentonrc.com), a daily newspaper operating in Denton, Texas, and various niche publications targeting specific audiences. A. H. Belo offers digital marketing solutions through 508 Digital and Your Speakeasy, LLC and its investments include Classified Ventures, LLC, owner of cars.com, and Wonderful Media, LLC, owner of FindnSave.com.

Basis of Presentation. These condensed consolidated financial statements include the accounts of A. H. Belo and its subsidiaries and were prepared in accordance with United States Generally Accepted Accounting Principles (“GAAP”) for interim financial information and in accordance with the Securities and Exchange Commission’s (“SEC”) instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. In the opinion of management, all adjustments considered necessary for a fair presentation are included. Transactions between the consolidated companies are eliminated and noncontrolling interests in less than wholly-owned subsidiaries were reflected in the consolidated financial statements. These condensed consolidated financial statements should be read in conjunction with the audited financial statements and footnotes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2013. Operating results for the three and six months ended June 30, 2014, may not be necessarily indicative of the results that may be expected for the year ending December 31, 2014. All dollar amounts are presented in thousands, except per share amounts, unless the context requires otherwise.

In July 2014, the Company entered into a definitive asset purchase agreement to dispose of substantially all of the assets and certain liabilities which comprise the newspaper operations of The Providence Journal, a daily newspaper in Providence, Rhode Island and the oldest continuously-published daily newspaper in the United States. In 2013, the Company completed the disposition of The Press Enterprise, a daily newspaper in Riverside, California, which serves the Inland Southern California region. As described in Note 3 – Discontinued Operations, these dispositions meet the criteria of discontinued operations as prescribed under Accounting Standards Codification 205 - Presentation of Financial Statements. Accordingly, presentation of current and prior period amounts in the condensed consolidated financial statements and notes thereto reflect continuing operations of the Company unless otherwise noted.

New Accounting Standards. The Financial Accounting Standards Board (“FASB”) recently issued Accounting Standards Update (“ASU”) No. 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists, which generally requires an unrecognized tax benefit to be presented in the financial statements as a reduction to a deferred tax asset when a net operating loss or other tax credit carryforward exists. The assessment should be performed by taxing jurisdiction as of each reporting date. The update is effective for fiscal years and interim periods beginning after December 15, 2013. The implementation of this update did not have a material impact to the presentation of uncertain tax positions within the consolidated balance sheets.

Table of Contents

In April 2014, the FASB issued ASU 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360) - Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. Under this amendment, requirements for reporting discontinued operations have changed. Discontinued operations may include disposals of a business, nonprofit activity and component of an entity upon meeting certain other criteria. Disposals representing components of an entity must reflect a strategic shift that has a major effect on the entity's operations and financial results. Previous conditions prohibiting the entity from having significant continuing involvement in the disposal group and requiring the elimination of operations and cash flows from ongoing operations of the entity have been removed. The update is effective on a prospective basis for disposals that occur within annual periods beginning on or after December 15, 2014, and interim periods in those years. The Company has entered a definitive asset purchase agreement to dispose of substantially all of the assets and certain liabilities which comprise the newspaper operations of The Providence Journal, and this transaction is expected to close in the third quarter of 2014. The operations of The Providence Journal are presented as a discontinued operation under the current accounting standards. The Company does not anticipate the implementation of this update to impact the presentation of discontinued operations within its financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). This guidance generally clarifies the principles for recognizing revenue and develops a common revenue standard for GAAP and International Financial Reporting Standards. The standard outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes the most current revenue recognition guidance. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The update is effective for fiscal years and interim periods beginning after December 15, 2016, and interim periods in those years. The Company is evaluating the impact of adoption and has not yet selected a transition method, but does not anticipate this update to have a material impact on its recognition and presentation of revenues within the consolidated statements of operations.

Note 2: Assets Held for Sale

Assets held for sale include long-lived assets being actively marketed for which a sale is considered probable within the next 12 months. These assets are recorded at the lower of their fair value less costs to sell or their carrying value at the time they are classified as Assets held for sale. As of June 30, 2014, the Company had entered into various agreements to sell certain buildings and land. These assets, with a total carrying value of \$2,525, are reported as Assets held for sale as of June 30, 2014, as the related sales transactions have closed or are expected to close in the third quarter of 2014.

Note 3: Discontinued Operations

On July 22, 2014, The Providence Journal Company, a wholly-owned subsidiary of the Company, entered into an asset purchase agreement with LMG Rhode Island Holdings, Inc. ("LMG"), a subsidiary of New Media Investment Group Inc., for the (i) sale of substantially all of the assets comprising the newspaper operations of The Providence Journal and related real property located in Providence, Rhode Island, and (ii) assumption of certain liabilities by LMG, for \$46,000 in cash (the "Purchase Price"). The Purchase Price is subject to adjustment either upward or downward based upon the net current assets being sold at the closing. The transaction is expected to close in the third quarter of 2014, subject to customary closing conditions including receipt of certain third-party consents. After selling and exit costs, the Company anticipates recording a pretax gain on this transaction between \$11,000 and \$14,000 in the third quarter of 2014.

Upon completion of the sale, the Company will continue to hold and market for sale certain land and buildings in Providence, Rhode Island, which currently serve as the administrative headquarters of The Providence Journal. The Company will also retain the obligation for the A. H. Belo Pension Plan II, which provides benefits to employees of The Providence Journal Company.

In the second through fourth quarters of 2013, the Company completed multiple transactions resulting in the disposition of The Press-Enterprise, including the sale of the newspaper operations, the production facility and related

land, to Freedom Communications, Inc. (“Freedom Communications”) under a definitive asset purchase agreement. Upon completion of the divestiture, the Company no longer owns newspaper operations in Riverside, California. The disposition and the results of operations associated with The Press-Enterprise are reported as discontinued operations in the Company’s financial statements.

Table of Contents

As a result of the above pending and completed transactions, the activity and balances of The Providence Journal and The Press-Enterprise as of June 30, 2014, are presented as discontinued operations. Major components of these amounts presented as discontinued operations in the condensed consolidated financial statements are set forth below.

All liens and security interests under the credit agreement were released and no early termination penalties were incurred by the Company as a result of the termination. Unamortized debt issuance costs of \$401 were recorded to interest expense during the six months ended June 30, 2013, as a result of the termination.

Note 8: Income Taxes

Income taxes are recorded using the asset and liability method. The provision for taxes reflects the Company's estimate of the effective rate expected to be applicable for the full fiscal year, adjusted for any discrete transactions which are reported in the period in which they occur. The estimated effective tax rate is re-evaluated each quarter based on the Company's estimated tax expense for the year.

The Company recognized income tax expense from continuing operations of \$1,428 and \$500 for the three months ended June 30, 2014 and 2013, respectively, and \$2,319 and \$989 for the six months ended June 30, 2014 and 2013, respectively. The Company currently projects taxable income for the year ending December 31, 2014, for federal income tax purposes and in certain state income tax jurisdictions. The Company has net operating losses that can be carried forward to offset future taxable income. The Company's net operating loss carryforwards begin to expire in 2016 if not utilized.

Defined Benefit Plans. The Company sponsors two defined benefit pension plans, A. H. Belo Pension Plans I and II (collectively the “A. H. Belo Pension Plans”). A. H. Belo Pension Plan I provides benefits to certain employees primarily employed with The Dallas Morning News or the A. H. Belo corporate offices. A. H. Belo Pension Plan II provides benefits to certain employees at The Providence Journal. This pension obligation will be retained by the Company upon the sale of the newspaper operations of The Providence Journal.

The Company made required contributions of \$2,186 and \$1,940 during the three months ended June 30, 2014 and 2013, respectively, and \$4,126 and \$2,336 during the six months ended June 30, 2014 and 2013, respectively, to the A. H. Belo Pension Plans. In July 2014, the Company accelerated payment of its remaining 2014 required contributions and paid approximately \$5,801. No further contributions are required in 2014, as the Company met minimum funding requirements for the year.

Net Periodic Pension Benefit

The Company estimates net periodic pension expense or benefit based on the expected return on plan assets, the interest on projected pension obligations and the amortization of actuarial gains and losses in accumulated other comprehensive loss, if required. The table below sets forth components of net periodic pension benefit.

Defined Contribution Plans. The A. H. Belo Savings Plan (“Savings Plan”), a defined contribution 401(k) plan, covers substantially all employees of A. H. Belo. The Company provides an ongoing dollar-for-dollar match of eligible employee contributions, up to 1.5 percent of the employees’ compensation on a per-pay-period basis. During the three months ended June 30, 2014 and 2013, the Company recorded expense of \$268 and \$258, respectively, and during the six months ended June 30, 2014 and 2013, the Company recorded expense of \$521 and \$515, respectively, for matching contributions to this plan.

The Company sponsored the A. H. Belo Pension Transition Supplement Plan (“PTS Plan”), a defined contribution plan, which covered certain employees affected by the curtailment of a defined benefit plan sponsored by the former parent company. The Company was obligated to make contributions to this plan based on the earnings of actively employed participants for a period of five years, which concluded on March 31, 2013. Contributions of \$1,090 paid in the second quarter of 2013 represent benefits accrued through March 31, 2013. The Company made contributions of \$2,826 in the six months ended June 30, 2013. No further obligations exist under this Plan. As a result of fulfilling its obligations to the PTS Plan and in order to achieve efficient administration of the Company's defined contribution plans, the PTS Plan was merged into the A. H. Belo Savings Plan on July 1, 2013. Accordingly, individual participant account balances within the PTS Plan were transferred to their respective accounts in the A. H. Belo Savings Plan and the PTS Plan has ceased to exist as a stand-alone benefit plan of the Company.

Note 10: Shareholders' Equity

Accumulated other comprehensive loss. Accumulated other comprehensive loss contains actuarial gains and losses associated with the A. H. Belo Pension Plans and gains and losses resulting from negative plan amendments and other actuarial experience related to other post-employment benefit plans. The Company records amortization of accumulated other comprehensive loss in employee compensation and benefits in its consolidated statements of operations. Gains and losses associated with the A. H. Belo Pension Plans are amortized over the weighted average remaining life expectancy of the participants. Gains and losses associated with the Company's other post-employment benefit plans are amortized over the average remaining service period of active plan participants. The net deferred tax assets associated with accumulated other comprehensive loss are fully reserved.

In 2014, the Company did not amortize actuarial losses in accumulated other comprehensive loss associated with the Company's pension plans as the balance of these losses as of December 31, 2013, no longer fell outside the corridor requiring amortization. The tables below set forth the changes in accumulated other comprehensive loss, net of taxes.

Note 12: Contingencies

A number of legal proceedings are pending against A. H. Belo. In the opinion of management, liabilities, if any, arising from these legal proceedings would not have a material adverse effect on A. H. Belo's results of operations, liquidity or financial condition.

Note 13: Subsequent Events

As discussed in Note 3 – Discontinued Operations, in July 2014, the Company entered into a definitive asset purchase agreement to sell substantially all of the assets and certain liabilities which comprise the newspaper operations of The Providence Journal. As a result of this pending transaction, the results of operations associated with The Providence Journal are reported as discontinued operations in the Company's financial statements.

In July 2014, the Company sold its last remaining real estate in Riverside, California, comprised of land and a building that formerly served as a commercial printing operation. Net sales proceeds of \$1,607 were received in the third quarter of 2014, upon the closing of the transaction, generating a gain of approximately \$250.

In June 2014, the Company settled a lawsuit regarding a dispute over commercial printing related to its former printing operation in southern California. Under the settlement agreement, the Company will receive two cash payments totaling \$500, of which the first payment of \$250 was received in July 2014.

Overview of Second Quarter 2014 Significant Transactions

This section contains a discussion and analysis of net operating revenue, expense and other information relevant to an understanding of results of operations for the three and six months ended June 30, 2014 and 2013.

Second quarter and year-to-date results for 2014 compared to 2013 reflect improvements in net operating revenue trends. For the first time since the 2008 spin-off of the Company from its former parent company, year-over-year quarterly revenue increased. Net operating revenue for the three and six months ended June 30, 2014, increased (decreased) by 0.2 percent and (1.2) percent, respectively, from the same periods in 2013. These improved trends are primarily due to growth in the Company's printing and marketing services revenues.

The Company continues its efforts to diversify revenues through leveraging its brand, its personnel and its infrastructure in both organic new product development and in pursuit of acquisitions of related marketing services companies. In March 2014, The Dallas Morning News began printing the Fort Worth Star-Telegram, a major metropolitan newspaper, at its Plano, Texas production facility. The agreement between The Dallas Morning News, Inc. and Star-Telegram, Inc. is for an initial term of 10 years and has a renewal option to extend the contract.

In 2013 and 2014, the Company renewed efforts to optimize print circulation revenue by increasing print subscription rates. These rate increases, implemented at the The Dallas Morning News, have offset declines in circulation volumes. In April 2014, Classified Ventures, an equity method investee, sold its apartments.com business unit for \$585,000.

The Company received a cash distribution of \$18,861 for its portion of the net sales proceeds and recorded a gain of approximately \$18,532 in the second quarter of 2014. The Company expects related federal income taxes to be minimal as a result of previously incurred net operating losses and is finalizing its estimate of state taxes.

Losses in 2014 include a \$934 impairment charge related to the Company's investment in Wonderful Media, reducing the carrying value of the investment to \$3,364. The Company determined that an other-than-temporary decline in the value of the investment occurred after evaluating the estimated fair value of the investee as determined by an independent valuation specialist. The Company attributes the impairment primarily to a decline in business related to Wonderful Media's legacy products. The Company believes the carrying value of this investment as of June 30, 2014, is recoverable based on the investment's future business prospects and an additional contribution of \$1,909 was made

in the second quarter of 2014.

Table of Contents

The Company declared and paid a special dividend of \$1.50 per share in the second quarter of 2014 in order to return to shareholders cash held by the Company which exceeded forecasted liquidity requirements for operations, investing and financing activities. The special dividend resulted in payments of \$33,819, to shareholders and holders of RSUs. In addition to the above, the following significant transactions and events affected A. H. Belo's results of operations and financial position during the second quarter of 2014.

• Required contributions of \$2,186 were made to the A. H. Belo Pension Plans in the second quarter of 2014, reflecting an increase from the \$1,940 of contributions made in the second quarter of 2013.

A quarterly dividend of \$0.08 per share, or \$1,805, was recorded and paid to shareholders of record and holders of RSUs. The Company also announced in May 2014 a dividend of \$0.08 per share payable on September 5, 2014, to shareholders of record and holders of RSUs as of the close of business on August 15, 2014.

• The Company purchased 124,857 of its Series A common shares during the quarter through open market transactions for \$1,443.

Advertising and Marketing Services Revenue

Advertising and marketing services revenue decreased by 4.7 percent and 4.8 percent for the three and six months ended June 30, 2014, respectively, primarily due to lower display, classified and preprint advertising revenue. The Company has responded to the continuing decline in print advertising revenues through the development of new business offerings providing marketing services to small and middle market companies. These services provided by 508 Digital and Speakeasy, which commenced operations in 2012, offset 76 percent and 69 percent of realized declines in advertising revenues for the three and six months ended June 30, 2014. As the Company expects print advertising revenues to sustain continued challenges in future periods, additional opportunities to develop or acquire new businesses will be sought which will complement existing assets and resources and leverage from the Company's brand equity.

Display – Revenue decreased for the three months ended June 30, 2014, due to lower retail advertising driven by volume declines in most categories except sporting goods and other, partially offset by improved rates in most categories; and lower general advertising due to volume declines in all categories except technology, partially offset by rate increases in technology and other. Revenue decreased for the six months ended June 30, 2014, due to lower retail advertising due to volume declines in most categories except sporting goods, partially offset by improved rates in electronics and sporting goods; and lower general advertising due to volume declines in all categories except technology, partially offset by rate increases in technology, automotive and other.

Classified – Revenue decreased for the three months ended June 30, 2014, due to volume declines in all categories, offset by higher rates in all categories except other and automotive. Revenue decreased for the six months ended June 30, 2014, due to volume declines in all categories, offset by rate increases in all categories except other.

Preprint – Revenue decreased for the three and six months ended June 30, 2014, due to a decline in the volume of preprint newspaper inserts, consistent with the decline in circulation volumes. The decline was partially offset by higher volumes in home delivery mail advertisements.

Digital – Revenue increased for the three and six months ended June 30, 2014, due to higher marketing services revenue associated with 508 Digital and Speakeasy, and also due to real estate and other classified advertising for the six months ended June 30, 2014. Marketing services revenue grew by \$513 and \$1,393 in the three and six months ended June 30, 2014, respectively, which reflects an 81.7 percent and 153.1 percent growth, respectively, over these recorded revenues in the same periods in 2013.

Revenues also include the Company's niche publications which expand its advertising platform to nonsubscribers of The Dallas Morning News' core newspaper. This revenue is a component of total display, classified, preprint and digital revenue discussed above. In three months ended June 30, 2014 and 2013, advertising revenue for niche

publications was \$5,148 and \$5,476, respectively. In six months ended June 30, 2014 and 2013, advertising revenue for niche publications was \$10,674 and \$10,985, respectively. Revenue remained relatively flat with slight decreases primarily due to a decline in preprint advertising.

Table of Contents

Circulation Revenue

Circulation revenue for the three and six months ended June 30, 2014, remained flat compared to 2013 primarily due to decreased volumes in home delivery and single copy sales mostly offset by higher home delivery rates as the Company continues to recover the costs of providing quality news coverage through strategic price increases. For the three and six months ended June 30, 2014, home delivery and single copy volumes decreased by an average of 8.6 percent and 12.2 percent, respectively. These declines were offset by home delivery and single copy average rate increases of 8.8 percent and 5.0 percent, respectively.

Printing and Distribution Revenue

Revenue increased 37.9 percent and 21.0 percent for the three and six months ended June 30, 2014, respectively, due to the commencement of printing services in March 2014 for the Fort Worth Star-Telegram, and due to expanded printing of local community newspapers. Revenue from the Star-Telegram provided \$2,234 and \$2,787 in additional revenue for the three and six months ended June 30, 2014, respectively, and is expected to add approximately \$7,000 in printing and inserting revenues annually. These increases were partially offset by lower printing revenues associated with national publications.

Operating Costs and Expense from Continuing Operations

The table below sets forth the components of the Company's operating expense.

	Three Months Ended June 30,			Six Months Ended June 30,		
	2014	Percentage Change	2013	2014	Percentage Change	2013
Operating Costs and Expense

Depreciation	3,348	(15.5)%	3,964	6,758	(13.8)%	7,843

Total operating costs and expense	\$66,854	(1.3)%	\$67,724	\$134,890	(2.7)%	\$138,684

Employee compensation and benefits – Employee compensation and benefits decreased in the three and six months ended June 30, 2014, by \$980 and \$2,652, respectively. For these periods, savings included lower salary expense of \$715 and \$1,045, respectively, primarily due to headcount reductions at the Company's newspapers and corporate operations; lower sales commissions of \$667 and \$1,056, respectively, as a result of lower sales and changes to the commission structure in the fourth quarter of 2013; lower pension expense of \$603 in the six months ended June 30, 2014, due to the Company fulfilling its obligation to accrue benefits for the PTS Plan at the end of the first quarter of 2013; and pension expense savings of \$419 and 837 in the three and six months ended June 30, 2014, respectively, due to the expected return on increased plan assets and the balance of actuarial losses in accumulated other comprehensive loss falling below the corridor required for amortization. These reductions were partially offset by increased direct compensation and benefits of \$328 and \$472, respectively, associated with the commencement of printing operations for the Fort Worth Star-Telegram at the Company's Plano, Texas production facility.

Other production, distribution and operating costs – Expense increased in the three and six months ended June 30, 2014, due to higher delivery costs to distribution centers and temporary labor costs of \$1,033 and \$1,413, respectively, associated with startup of printing operations for the Fort Worth Star-Telegram. Expenses were also higher due to higher third-party costs as the Company's marketing services operations continue to grow. These increases were partially offset by lower retail marketing expense and lower distribution costs associated for home delivery and single copy sales of Company newspapers, consistent with lower circulation volumes. The Company also realized lower property and sales tax expense in these periods due to negotiated refunds related to prior periods.

Newsprint, ink and other supplies – Expense decreased in the three and six months ended June 30, 2014, due to reduced newsprint costs associated with lower circulation volumes of Company and certain third party newspapers. Newsprint consumption for the three months ended June 30, 2014 and 2013, was approximately 6,104 and 7,154 metric tons, respectively, and the average cost per metric ton of newsprint was \$619 and \$628, respectively. Newsprint consumption for the six months ended June 30, 2014 and 2013, was approximately 12,119 and 14,196 metric tons, respectively, and the average cost per metric ton of newsprint was \$619 and \$634, respectively. Supplement costs also decreased due to reduced outside publications for resell. These decreases were partially offset by higher ink and production materials costs associated with the commencement of printing operations for the Fort Worth Star-Telegram at the Company's Plano, Texas productions facility.

Depreciation – Expense decreased in 2014 due to a lower depreciable asset base as capital expenditures continue to decline.

Amortization – Expense was flat year-over-year.

Gains on equity method investments, net – Gains on equity method investments increased by \$18,021 and \$17,064 in the three and six months ended June 30, 2014, primarily due to an \$18,532 gain related to Classified Ventures' sale of apartments.com. This gain was partially offset by a \$934 impairment charge in the first quarter of 2014 related to the Company's investment in Wonderful Media. The Company determined that an other-than-temporary decline in the value of the investment occurred based on the Company's respective share of the estimated fair value of the investee. The Company attributes the impairment primarily to a decline in business related to Wonderful Media's legacy products. The Company believes the carrying value of this investment as of June 30, 2014, is recoverable based on the investment's future business prospects.

Interest expense – In the first quarter of 2013, the Company amortized \$401 of remaining debt issuance costs associated with the voluntary termination of the Company's credit agreement.

Tax provision – Tax provision for 2014 and 2013 is primarily due to franchise and state income tax expense and changes in the valuation allowance. See the Condensed Consolidated Financial Statements, Note 8 – Income Taxes.

Earnings and Adjusted Earnings before Interest, Taxes, Depreciation and Amortization from Continuing Operations

In addition to net income (loss) from continuing operations, the Company also evaluates earnings before interest, taxes, depreciation and amortization ("EBITDA") which is presented for continuing operations by adjusting for discontinued operations and losses attributable to noncontrolling interests. Adjusted EBITDA is calculated, as applicable, by adding back to EBITDA non-cash impairment expense and net investment-related gains and losses.

Table of Contents

Neither EBITDA nor Adjusted EBITDA is a measure of financial performance under generally accepted accounting principles (“GAAP”). Management uses EBITDA, Adjusted EBITDA and similar measures in internal analyses as supplemental measures of the Company’s financial performance, and for performance comparisons against its peer group of companies. Adjusted EBITDA is also used by management to evaluate the cash flows available for capital spending, investing, pension contributions (required and voluntary), dividends and other equity-related transactions. Neither EBITDA nor Adjusted EBITDA should be considered in isolation or as a substitute for cash flows provided by operating activities or other income or cash flow data prepared in accordance with GAAP, and these non-GAAP measures may not be comparable to similarly-titled measures of other companies.

In previous periods, the Company added back pension expense in the determination of Adjusted EBITDA.

Management reassessed this measurement and no longer excludes pension expense from Adjusted EBITDA. See the Condensed Consolidated Financial Statements, Note 9 – Pension and Other Retirement Plans for additional discussion of pension expense.

Discontinued Operations

On July 22, 2014, The Providence Journal Company, a wholly-owned subsidiary of the Company, entered into an asset purchase agreement with LMG Rhode Island Holdings, Inc. (“LMG”), a subsidiary of New Media Investment Group Inc., for the (i) sale of substantially all of the assets comprising the newspaper operations of The Providence Journal and related real property located in Providence, Rhode Island, and (ii) assumption of certain liabilities by LMG, for \$46,000 in cash (the “Purchase Price”). The Purchase Price is subject to adjustment either upward or downward based upon the net current assets being sold at the closing. The transaction is expected to close in the third quarter of 2014, subject to customary closing conditions including receipt of certain third-party consents. After selling and exit costs, the Company anticipates recording a pretax gain on this transaction between \$11,000 and \$14,000 in the third quarter of 2014.

Upon completion of the sale, the Company will continue to hold and market for sale certain land and buildings in Providence, Rhode Island. The Company will also retain the obligation for the A. H. Belo Pension Plan II, which provides benefits to employees of The Providence Journal Company.

In the second through fourth quarters of 2013, the Company completed multiple transactions resulting in the disposition of The Press-Enterprise, including the sale of the newspaper operations, the production facility and related land, to Freedom Communications, Inc. (“Freedom Communications”) under a definitive asset purchase agreement. Upon completion of the divestiture, the Company no longer owns newspaper operations in Riverside, California. The disposition and the results of operations associated with pending and completed transactions are reported as discontinued operations in the Company’s financial statements. Significant components of results of operations included as discontinued operations are noted below.

Liquidity and Capital Resources

The Company's cash balance as of June 30, 2014 and December 31, 2013, was \$59,754 and \$82,193, respectively. The Company's working capital as of June 30, 2014 and December 31, 2013, was \$93,924 and \$114,053, respectively.

After excluding assets and liabilities of discontinued operations as of those dates, working capital decreased by \$16,120 for the six months ended June 30, 2014.

During the six months ended June 30, 2014, cash flows used by continuing operations were \$5,299 compared to cash flows provided by continuing operations of \$1,887 during the six months ended June 30, 2013. The net use of cash in 2014 was primarily due to advance purchases of newsprint and other working capital assets approximating \$3,500 and additional pension contributions of \$1,790. Existing cash balances and the \$18,861 of distribution of net sale proceeds received from Classified Ventures, as discussed below, were used to fund 2014 capital spending of \$2,717, purchases of investments of \$2,098, discretionary dividend payments of \$37,429 and treasury stock purchases of \$2,118. The Company's EBITDA was \$24,493, and after adjusting for investment-related gains, Adjusted EBITDA was \$5,961. For the remainder of 2014, the Company anticipates additional capital expenditures of \$3,000 to \$5,000 and pension payments of \$5,801. The Company anticipates sufficient cash flows to cover operating expenditures and will evaluate discretionary spending based on the Company's forecasted cash requirements.

As discussed in Note 5 – Investments, Classified Ventures, an equity method investee, completed the sale of its apartments.com business in April 2014. The Company received a cash distribution of \$18,861 for its portion of the net sales proceeds. The Company expects federal income taxes to be minimal as a result of previously incurred net operating losses and is finalizing its estimate of state taxes. As a result of these transactions, dividends paid in 2014 included a special dividend of \$1.50 per share, returning \$33,819 to shareholders. In July 2014, the Company entered into a definitive asset purchase agreement to sell substantially all the assets and certain liabilities which comprise the newspaper operations of The Providence Journal for \$46,000. This transaction is expected to close in the third quarter of 2014.

The Company intends to deploy its cash in the long-term interests of the Company, its shareholders and employees as it seeks potential acquisition or investment opportunities complimenting its advertising and marketing services products. Management works aggressively to manage expenses in correlation to changes in revenue and believes cash flows generated from operations will be sufficient to meet foreseeable cash flow requirements for operations, capital spending and pension contributions. The following discusses the changes in cash flows by operating, investing and financing activities.

Operating Cash Flows

Net cash (used for) provided by continuing operating activities for 2014 and 2013 was \$(5,299) and \$1,887, respectively. Cash flows from continuing operations decreased in 2014 primarily due to higher inventory balances, higher pension contributions, and the timing of payments for certain insurance policies. Cash flows provided by discontinued operations for 2014 and 2013, were \$8,260 and \$4,936, respectively, and primarily represented the results of operations from The Providence Journal.

Investing Cash Flows

Net cash provided by (used for) continuing investing activities for 2014 and 2013 was \$14,046 and \$(3,660), respectively. In the second quarter of 2014, the Company received a distribution of net sales proceeds of \$18,861 from Classified Ventures, LLC related to its sale of apartments.com, which was partially offset by the Company's capital spending and purchase of investments. Net cash used for investing activities in 2013 primarily reflects the Company's capital spending and purchases of investments for that period. Net cash used for investing activities of discontinued operations was \$633 and \$489 in 2014 and 2013, respectively, and primarily represented capital spending related to The Providence Journal.

Financing Cash Flows

Net cash used for continuing financing activities for 2014 and 2013 was \$38,813 and \$3,917, respectively. In 2014 and 2013, dividend payments were \$37,429 and \$2,735, respectively, reflecting an increase of \$34,694 primarily due to a special dividend of \$1.50 declared and paid in the second quarter of 2014. Purchases of treasury stock included 200,085 and 234,031 shares of the Company's Series A common stock in 2014 and 2013 for \$2,118 and \$1,364, respectively.

Financing Arrangements

In January 2013, the Company voluntarily terminated its credit agreement as cash flows from operations were sufficient to meet liquidity requirements and the credit agreement had not been drawn upon since 2009. All liens and security interests under the credit agreement were released and no early termination penalties were incurred by the Company as a result of the termination. Unamortized debt issuance costs of \$401 were recorded to interest expense during the three months ended March 31, 2013, as a result of the termination.
