**Item 5.03. Amendments to Articles of Incorporation or Bylaws; Change in Fiscal Year.**

On November 7, 2018, effective as of November 8, 2018, Akers Biosciences, Inc. (the “**Company**”) filed a Certificate of Amendment (the “**Certificate of Amendment**”) to its Amended and Restated Certificate of Incorporation with the Secretary of State of the State of New Jersey to effect a reverse stock split of its common stock at a ratio of eight-for-one (8-for-1). As a result of the reverse stock split, there are approximately 12,474,028 shares of common stock outstanding. The reverse stock split affected all stockholders uniformly and did not alter any stockholder’s percentage interest in the Company’s equity, except to the extent that the reverse stock split would have resulted in a stockholder owning a fractional share. Fractional shares have not been issued as a result of the reverse stock split; instead, the board of directors of the Company determined to effect an issuance of shares to holders that would otherwise have been entitled to a fractional share such that any fractional shares were rounded up to the nearest whole number.
