Corporate Relocation Plan - Update

On March 10, 2016, the Company's Board of Directors approved the final budget for the New Facility. Based on the final budget, which reflects substantial completion of the principal design work for the New Facility, the Company currently estimates that the construction costs for the New Facility will be approximately \$55 million to \$60 million plus an additional \$35 million to \$39 million in anticipated capital expenditures for machinery and equipment, furniture and fixtures, and related expenditures. The final budget reflects, among other things, an increase in facility size and scope of building design, including a larger warehouse and a larger manufacturing footprint; additional infrastructure and automation to support staged manufacturing and production line capacity allowing for future capacity growth; and certain other estimated landlord costs under the Lease Agreement. The majority of the construction costs associated with the New Facility are expected to be incurred in early fiscal 2017. Construction of and relocation to the New Facility are expected to be completed by the end of the second quarter of fiscal 2017. The expenditures associated with the New Facility are expected to be partially offset by the \$6.0 million in proceeds from the sale of the Company's spice assets completed in December 2015 and the net proceeds from the planned sale of the Company's Torrance facility which the Company currently estimates to be \$43 million to \$44 million, including anticipated proceeds from the disposal of miscellaneous fixed assets relating to the Torrance facility. The Company expects to close the sale of the Torrance facility in the first quarter of fiscal 2017. The Company currently estimates that the total range of annualized cost savings associated with the corporate relocation plan and relocation to the New Facility, including the replacement of the Company's long-haul fleet operations with third party logistics and a vendor managed inventory initiative offset by the disposed portion of the former spice business, is approximately \$18 million to \$20 million.

In connection with the delivery of the final budget, the Board of Directors approved entry into an amendment to the Lease Agreement pursuant to which the option purchase price under the Lease Agreement will increase from 103.0% to 103.5% of the total project cost as of the date of the option closing.

Based on current assumptions and subject to continued implementation of the corporate relocation plan as planned, the Company currently estimates that it will incur approximately \$30 million in cash costs in connection with the exit of the Torrance facility, consisting of \$17 million in employee retention and separation benefits, \$5 million in facility-related costs and \$8 million in other associated costs including travel, legal, consulting and other professional services. The increase in estimated cash costs reflects revised estimates for employee retention and separation benefits relating to the replacement of the Company's long-haul fleet operations with third party logistics, the extension of retention and separation benefits to certain employees impacted by the corporate relocation plan, and additional estimated fees for consulting and other professional services relating to the exit of the Torrance facility. Since adoption of the corporate relocation plan through December 31, 2015, the Company has recognized a total of \$20.3 million of the estimated aggregate cash costs. The remainder is expected to be recognized in the balance of fiscal 2016 and the first half of fiscal 2017. The Company may incur certain other non-cash asset impairment costs, postretirement benefit costs and pension-related costs.
