Item 1.01. Entry Into a Material Definitive Agreement

On November 13, 2017 (the “Effective Date”), Lam Research Corporation (the “Company”) established a new commercial paper program (the “Program”), under which the Company may issue unsecured commercial paper notes (the “Notes”) on a private placement basis up to a maximum aggregate amount outstanding at any time of \$1.25 billion. On the Effective Date, the Company also entered into commercial paper dealer agreements (each, a “Dealer Agreement”) with commercial paper dealers (each, a “Dealer” and, collectively, the “Dealers”). The Dealer Agreements are substantially identical in all material respects except as to the parties thereto. The form of Dealer Agreement is attached to this report as Exhibit 10.1 and is incorporated herein by reference as though it were fully set forth herein. A national bank acts as the issuing and paying agent under the Program pursuant to the terms of an issuing and paying agent agreement.

Under the Program, the Company may issue Notes from time to time, and the proceeds of the Notes will be used for general corporate purposes, including repurchases of the Company's common stock for time to time and under the Company's stock repurchase program.

The Program obtains liquidity support from the Company's amended and restated credit agreement, entered into on November 12, 2015, and most recently amended on October 13, 2017 (the “Amended Credit Agreement”). As previously disclosed in a Current Report on Form 8-K filed by the Company on October 17, 2017, among other things, the Amended Credit Agreement provides for a \$500 million increase to the Company's revolving credit facility, from \$750 million under the Credit Agreement to \$1.25 billion under the Amended Credit Agreement. If at any time funds are not available on favorable terms under the Program, the Company may utilize the Amended Credit Agreement for funding. Amounts available under the Program may be reborrowed.

The Dealer Agreements provide the terms under which the Dealers will either purchase from the Company or arrange for the sale by the Company of Notes pursuant to an exemption from federal and state securities laws. The Dealer Agreements contain customary representations, warranties, covenants and indemnification provisions. The maturities of the Notes will vary, but may not exceed 397 days from the date of issue. The face or principal amount of Notes outstanding under the Program at any time may not exceed \$1.25 billion. The Notes will be sold at a discount from par or, alternatively, will be sold at par and bear interest at rates that will vary based on market conditions at the time of the issuance of the Notes. The rate of interest on any Note will depend on whether the Note will bear interest on a fixed rate or floating rate basis.

The Notes have not been and will not be registered under the Securities Act of 1933 (the “Securities Act”), or any state securities laws, and may not be offered and sold except in compliance with an applicable exemption from the registration requirements of the Securities Act and any applicable state securities laws. The information contained in this Current Report on Form 8-K shall not constitute an offer to sell or the solicitation of an offer to purchase any securities, nor shall there be any sale of the Notes in any jurisdiction in which such offer, solicitation or sale would be unlawful.
