Item 7.01 Regulation FD Disclosure.

The Company provides pension benefits for eligible participants through a non-contributory defined benefit pension plan ("the Plan"). Benefits are based on years of service and average earnings during the highest average 60 month period during the final 120 months of employment. Effective September 30, 2006, the Plan was closed to new entrants and benefit accruals for existing participants were frozen. Under the current rules, the Company had no funding obligation as of December 31, 2015 and does not expect to have one in 2016.

On November 23, 2016 the Company's Board of Directors ("the Board") voted to terminate the Plan, effective January 31, 2017. In order to settle its liabilities under the Plan, the Company will offer participants the option to receive either an annuity purchased from an insurance carrier or a lump-sum cash payment. If the total value of the Plan's assets is insufficient to cover the lump-sum payouts and annuity purchases, the Company will contribute the necessary funds to complete the termination of the Plan. The exact amount that will be required is subject to a number of factors, including changes in interest rates and the exact proportion of participants electing a lump-sum distribution versus an annuity, but the Company currently estimates that its before-tax expense will be between \$3.1 million and \$3.3 million, all of which would be recognized in 2017. Other expenses associated with terminating the Plan are currently estimated to be \$20 thousand.

The Company anticipates completing the transfer of all liabilities and administrative responsibilities under the Plan by the end of the fourth quarter of 2017. Once this process is complete, the Company will no longer have any remaining pension obligations and thus no periodic pension expense. By comparison, annual pension expense for 2016 and 2017 are currently estimated to be \$392 thousand and \$529 thousand respectively.

The Board reserved the right to defer or revoke the termination of the Plan if circumstances change such that deferral or revocation would be warranted, although it does not intend to do so at this time. Certain aspects of the termination are also subject to review by the Pension Benefit Guaranty Corporation and the Internal Revenue Service.
