PROXY STATEMENT

For Annual Meeting of Stockholders

To be Held on May 7, 2019

GENERAL

The accompanying proxy is solicited by the Board of Directors (the “Board” or the “Board of Directors”) of Encore Wire Corporation (the “Company” or “Encore Wire” or “Encore”) for use at the annual meeting of stockholders of the Company to be held at the time and place and for the purposes set forth in the foregoing notice. The approximate date on which this proxy statement and the accompanying proxy are first being sent to stockholders is April 1, 2019.

The cost of soliciting proxies will be borne by the Company. The Company may use certain of its officers and employees (who will receive no special compensation therefor) to solicit proxies in person or by telephone, facsimile, telegraph or similar means.

Proxies

Shares entitled to vote and represented by a proxy in the accompanying form duly signed, dated and returned to the Company and not revoked, will be voted at the meeting in accordance with the directions given. If no direction is given, such shares will be voted for the election of the nominees for directors named in the accompanying form of proxy and in accordance with the recommendations of the Board of Directors on the other proposals listed on the proxy card and at the proxies’ discretion on any other matter that may properly come before the meeting. Any stockholder returning a proxy may revoke it at any time before it has been exercised by giving written notice of such revocation to the Secretary of the Company, by filing with the Company a proxy bearing a subsequent date or by voting in person at the meeting.

Voting Procedures and Tabulation

The Company will appoint one or more inspectors of election to conduct the voting at the meeting. Prior to the meeting, the inspectors will sign an oath to perform their duties in an impartial manner and to the best of their abilities. The inspectors will ascertain the number of shares outstanding and the voting power of each share, determine the shares represented at the meeting and the validity of proxies and ballots, count all votes and ballots and perform certain other duties as required by law. The inspectors will tabulate the number of votes cast for or withheld as to the vote on each nominee for director and the number of votes cast for, against or withheld, as well as the number of abstentions and broker non-votes, as applicable, with respect to the other proposals listed on the proxy card and any other matter that may properly come before the meeting.

Quorum and Voting Requirements

A majority of shares of the outstanding common stock, par value \$0.01 per share (“Common Stock”), present in person or by proxy, is necessary to constitute a quorum. Abstentions are counted as present at the meeting for purposes of determining whether a quorum exists. Broker non-votes only count towards quorum if at least one proposal on the proxy is considered a routine matter under New York Stock Exchange (“NYSE”) Rule 452. A broker non-vote occurs when a broker or other nominee returns a proxy but does not vote on a particular proposal because the broker or nominee does not have authority to vote on that particular item and has not received voting instructions from the beneficial owner. Under NYSE Rule 452, brokers have the authority to vote such shares on routine matters, but not on non-routine matters. Routine matters include the proposal to ratify the appointment of the auditors, but do not include the election of directors or the approval, in a non-binding advisory vote, of the compensation of the Company’s named executive officers.

The only voting security of the Company outstanding is its Common Stock. Only the holders of record of shares of Common Stock at the close of business on March 21, 2019, the record date for the meeting, are entitled to notice of, and to vote at, the meeting or any adjournment or postponement thereof. On the record date, there were 20,894,148 shares of Common Stock outstanding and entitled to be voted at the meeting. Each share of Common Stock is entitled to one vote.

Election of Directors. Directors are elected by a plurality of the votes of the shares of Common Stock present or represented by proxy at the meeting and entitled to vote on the election of directors, subject to the Company's Majority Voting Policy described in further detail below. This means that the six nominees receiving the highest number of votes cast for the number of positions to be filled will be elected, subject to the Company's Majority Voting Policy. Cumulative voting is not permitted. New York Stock Exchange Rule 452 prohibits brokers from casting discretionary votes in any election of directors. Under Delaware law and the Company's Certificate of Incorporation and Bylaws, abstentions and broker non-votes will have no effect on voting on the election of directors, provided a quorum is present.

Majority Voting Policy. In February 2013, the Board adopted the Company's Majority Voting Policy, pursuant to which a director nominee that is not elected by a majority of the votes cast in an uncontested election must tender such director's resignation promptly following the failure to receive the required vote. This means that the number of votes cast "for" a director nominee must exceed the number of votes "withheld" from that nominee. Abstentions and broker non-votes are not counted as votes "for" or "withheld" from a director nominee. Following a director's resignation under the policy, the Nominating and Corporate Governance Committee would then be required to make a recommendation to the Board as to whether the Board should accept the resignation, and the Board would be required to decide whether to accept the resignation and to disclose its decision-making process. In contested elections, the required vote is a plurality of votes cast.

Non-Binding Approval of Say on Pay. The advisory vote on the proposal to approve the compensation of the Company's named executive officers, commonly known as "say on pay" is non-binding. The affirmative vote of a majority of the holders of shares of Common Stock having voting power present in person or represented by proxy is required for the non-binding approval of the say on pay proposal. Abstentions will have the effect of votes against the say on pay proposal, but broker non-votes and other limited proxies will have no effect on the say on pay proposal.

Ratification of Appointment of Independent Auditors. The proposal to ratify the appointment of auditors must be approved by a vote of a majority of the holders of shares of Common Stock having voting power present in person or represented by proxy. An abstention with respect to such proposal will therefore effectively count as a vote against the proposal. Ratification of the appointment of the Company's independent auditors is a routine matter to which a broker has authority to cast discretionary votes if the broker has not received voting instructions from the beneficial owner of such shares at least ten days before the annual meeting. Broker discretionary votes as to the proposal to ratify the appointment of independent auditors will be counted towards a meeting quorum and will be considered a part of the voting power with respect to such proposal.

PROPOSAL ONE

ELECTION OF DIRECTORS

The business and affairs of the Company are managed by the Board of Directors, which exercises all corporate powers of the Company and establishes broad corporate policies. The Bylaws of the Company provide for a minimum of five directors, with such number of directors to be fixed by the Board of Directors from time to time. The Board of Directors has fixed at six the number of directors that will constitute the full Board of Directors. Therefore, six directors will be elected at the annual meeting.

All duly submitted and unrevoked proxies will be voted for the nominees for director selected by the Board of Directors, except where authorization to vote is withheld. If any nominee should become unavailable for election for any presently unforeseen reason, the persons designated as proxies will have full discretion to vote for another person designated by the Board. Directors are elected to serve until the next annual meeting of stockholders and until their successors have been elected and qualified.

The nominees of the Board for directors of the Company are named below. Each of the nominees has consented to serve as a director if elected. The table below sets forth certain information with respect to the nominees, including the ages of the nominees as of the date of the annual meeting of stockholders and their business experience. Recommendation of the Board of Directors

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS VOTING "FOR" THE NOMINEES SET FORTH ABOVE.

CORPORATE GOVERNANCE AND OTHER BOARD MATTERS

Board Independence

The Board has determined that each of the following directors and director nominees is “independent” as defined by Rule 5605(a)(2) of the listing standards of the NASDAQ Stock Market (“NASDAQ”):

Donald E. Courtney

Gregory J. Fisher

William R. Thomas III

Scott D. Weaver

John H. Wilson

The Board has determined that each of the current members of the Audit Committee, Nominating and Corporate Governance Committee, Compensation Committee and Stock Option Committee of the Board of Directors is “independent” within the rules set forth in the listing standards of NASDAQ. In assessing the director independence standards, the Board considered that Scott Weaver was employed by the Company from 1993 until June 2000. The Board concluded, based on all the facts and circumstances, that this past relationship with the Company does not affect Mr. Weaver’s independence as a director under NASDAQ’s independence definition.

Board Structure and Committee Composition

As of the date of this proxy statement, the Board has six directors and the following three committees: Audit Committee, Nominating and Corporate Governance Committee, and Compensation Committee. The membership and function of each committee is described below. The Audit Committee, Nominating and Corporate Governance Committee and Compensation Committee each operate under a written charter adopted by the Board of Directors. A current copy of each charter is available under the “Investors” section of the Company’s website at www.encorewire.com.

During the Company’s calendar year ended December 31, 2018, the Board of Directors held a total of four meetings. Each director attended at least 75% of the aggregate of such meetings held during the period in which such director served. Each director attended at least 75% of the meetings held by all committees on which such director served. Directors are encouraged to attend annual meetings of the stockholders of the Company. All of the Company’s directors attended the 2018 annual meeting of the stockholders of the Company.

Board Leadership Structure

The Board of Directors does not have a formal policy with respect to whether the Chief Executive Officer should also serve as Chairman of the Board. The Board makes this decision based on its evaluation of the circumstances in existence and the specific needs of the Company and the Board at any time it is considering either or both roles. In November 2014, the Board of Directors unanimously elected Daniel L. Jones, the current Chief Executive Officer of the Company, as Chairman of the Board. In connection with this appointment, the Board of Directors created the position of Lead Independent Director of the Board and appointed John H. Wilson to such position, effective as of the same date. The appointment of a Lead Independent Director ensures that the Company benefits from effective oversight of the independent directors of the Board.

The Board believes that its current Board leadership structure is appropriate for the Company, because it gives the Company’s stockholders the benefit of Board leadership by Mr. Jones, an executive with extensive day-to-day knowledge of the Company’s operations, strategic plan execution and future needs, promotes strategy development and execution and facilitates information flow between management and the Board of Directors, which are essential to effective governance. The Board continually evaluates the Company’s leadership structure and could in the future decide to separate the Chairman and Chief Executive Officer positions, if it understands that doing so would serve the best interests of the Company and the Company’s stockholders.

Lead Independent Director

John H. Wilson was elected by the independent members of the Board to serve as the Lead Independent Director in November 2014. The Board adopted a Lead Independent Director Charter that sets forth the powers and responsibilities of the Lead Independent Director. The Lead Independent Director position responsibilities currently include presiding at all meetings of the Board at which the Chairman is not present; serving as the principal liaison between the Chairman and the independent members of the Board; approving all information sent to the Board;

approving meeting agendas for the Board; approving the frequency of Board meetings and Board meeting schedules; calling meetings of the independent members of the Board when necessary; being available for consultation and direct communication with major stockholders upon request; overseeing the development, recommendation and implementation of a process for the assessment of the effectiveness of the Board, each committee and the Board members; and such other responsibilities as the Board delegates. In performing these responsibilities, the Lead Independent Director is expected to consult with the chairpersons of other Board committees as appropriate and solicit their participation in order to avoid the appearance of diluting the authority or responsibility of the Board committees and their chairpersons.

Risk Oversight

The Board of Directors oversees the Company's risk management, satisfying itself that the Company's risk management practices are consistent with its corporate strategy and are functioning appropriately. The Board does not have a separate risk committee, but instead believes that the entire Board is responsible for overseeing the Company's risk management.

The Board conducts certain risk oversight activities through its committees. The Audit Committee oversees the Company's compliance risk, including reviewing reports of the Company's compliance with the Sarbanes-Oxley Act. The Nominating and Corporate Governance Committee's role in risk oversight includes recommending director candidates who have appropriate experience that will enable them to provide competent oversight over the Company's material risks. The Compensation Committee monitors the risks to which the Company's compensation policies and practices could subject the Company.

The Board helps ensure that management is properly focused on risk by, among other things, reviewing and discussing the performance of senior management and conducting succession planning for key leadership positions at the Company. The Board also takes an active role in monitoring cyber security risks and is committed to the prevention, timely detection, and mitigation of the effects of any such incidents on the Company. In addition to regular reports from each of the Board's committees, the Board receives regular reports from the Company's management on the Company's most material risks and the degree of its exposure to those risks.

Audit Committee

The current members of the Audit Committee are Scott D. Weaver (Chairman), Gregory J. Fisher and John H. Wilson, each of whom meets the independence requirements of the applicable NASDAQ and Securities and Exchange Commission ("SEC") rules. The same individuals served as members of the Audit Committee during 2018. The Audit Committee met four times during 2018. The role of the Audit Committee is to review, with the Company's auditors, the scope of the audit procedures to be applied in the conduct of the annual audit as well as the results of the annual audit. The Audit Committee works closely with management as well as the Company's independent auditors. A current copy of the Audit Committee Charter is available under the "Investors" section of the Company's website at www.encorewire.com.

The Board has determined that Scott D. Weaver, Gregory J. Fisher and John H. Wilson are the "audit committee financial experts" of the Company, as defined in the rules established by the NASDAQ and the SEC.

Nominating and Corporate Governance Committee

The current members of the Nominating and Corporate Governance Committee are Gregory J. Fisher (Chairman), John H. Wilson, William R. Thomas III, Scott D. Weaver and Donald E. Courtney. Messrs. Fisher (Chairman), Wilson, Thomas and Weaver served as members of the Nominating and Corporate Governance Committee during 2018. Mr. Courtney was appointed to the Nominating and Corporate Governance Committee on February 20, 2017. The Nominating and Corporate Governance Committee met once in 2018. The Nominating and Corporate Governance Committee assists the Board by identifying individuals qualified to become Board members, advises the Board concerning Board membership, leads the Board in an annual review of Board performance, and recommends director nominees to the Board. The Nominating and Corporate Governance Committee also periodically assesses each director's compliance with the Company's stock ownership guidelines. A current copy of the Nominating and Corporate Governance Committee Charter is available under the "Investors" section of the Company's website at www.encorewire.com.

Compensation Committee

The current members of the Compensation Committee are John H. Wilson (Chairman), Scott D. Weaver, Gregory J. Fisher, William R. Thomas III and Donald E. Courtney. Messrs. Wilson (Chairman), Weaver, Fisher, Thomas and Courtney served as members of the Compensation Committee during 2018. Mr. Courtney was appointed to the Compensation Committee on February 20, 2017. The Compensation Committee met once during 2018. The role of the Compensation Committee is to review the performance of officers, including those officers who are also members of the Board, and to set their compensation. The Compensation Committee also periodically assesses each executive officer's compliance with the Company's stock ownership guidelines and supervises and administers all compensation and benefit policies, practices and plans of the Company. On February 18, 2019, the Board dissolved the Stock Option

Committee and the Compensation Committee resumed all duties previously delegated to the Stock Option Committee, including administering the 2010 Stock Option Plan. The Board dissolved the Stock Option Committee because, following the effectiveness of the Tax Cuts and Jobs Act on December 22, 2017, Section 162(m) of the internal revenue code repealed the exception to the \$1 million deduction limitation for grants of certain performance-based compensation. As a result, the Stock Option Committee is no longer necessary to administer the 2010 Stock Option Plan. A current copy of the Compensation Committee Charter is available under the “Investors” section of the Company’s website at www.encorewire.com.

Consideration of Director Nominees

Stockholder nominees

The policy of the Nominating and Corporate Governance Committee is to consider properly submitted nominations for candidates for membership on the Board, as described below under “Identifying and Evaluating Nominees for Directors.” In evaluating such nominations, the Nominating and Corporate Governance Committee shall address the membership criteria as described below in “Director Qualifications.” Any stockholder director nomination proposed for consideration by the Nominating and Corporate Governance Committee should include the nominee’s name and qualifications for Board membership and should be addressed to:

Nominating and Corporate Governance Committee

c/o Corporate Secretary

Encore Wire Corporation

1329 Millwood Road

McKinney, Texas 75069

Director Qualifications

The Board has adopted criteria that apply to nominees recommended by the Nominating and Corporate Governance Committee for a position on the Board. Among the qualifications provided by the criteria, nominees must be of the highest ethical character and share the values of the Company. Nominees must have reputations consistent with that of the Company and should be highly accomplished in their respective fields, possessing superior credentials and recognition. Nominees should also be active or former senior executive officers of public or significant private companies or leaders in their industry. Experience in the electrical wire and cable industry is not mandatory but is considered by the Board among the criteria for selection as a nominee. Nominees should also have the demonstrated ability to exercise sound business judgment.

Identifying and Evaluating Nominees for Directors

The Nominating and Corporate Governance Committee uses a variety of methods for identifying and evaluating nominees for director. Upon the need to add a new director or fill a vacancy on the Board, the Nominating and Corporate Governance Committee will consider prospective candidates. Candidates for director may come to the attention of the Nominating and Corporate Governance Committee through current Board members, professional search firms, stockholders, or other persons as provided by the Charter of the Nominating and Corporate Governance Committee. As described above, the Nominating and Corporate Governance Committee considers properly submitted stockholder nominations for candidates to the Board. Following verification of stockholder status of persons proposing candidates, recommendations are aggregated and considered by the Nominating and Corporate Governance Committee along with the other recommendations. In evaluating such nominations, the Nominating and Corporate Governance Committee shall address the membership criteria as described above in “Director Qualifications,” which seeks to achieve a balance of knowledge, experience, and expertise on the Board.

Diversity

The Board values the varied personal and professional backgrounds, perspective and experience as an important factor when identifying nominees for director. The Board focuses on selecting the best candidates and endeavors to see that its membership, as a whole, possesses a diverse range of talents, expertise and backgrounds and represents diverse experiences at the policy-making levels of significant financial, industrial or commercial enterprises. In evaluating the suitability of individual Board members, our Board considers many factors, including general understanding of management, operations, manufacturing, finance, and other disciplines relevant to the success of the Company in today’s business environment; understanding of the wire industry; educational and professional background; personal accomplishment; and gender, age, and ethnic diversity. Although the Board has not adopted a policy with respect to the consideration of diversity in identifying director nominees, the Board is actively seeking highly qualified women and individuals from minority groups to include in the pool from which new candidates are selected. The Board is committed to identifying and proposing a director candidate for election who is a highly qualified woman or individual from a minority group to be nominated for election by the 2020 annual meeting of stockholders of the Company. The Board’s objective is to recommend a group that can best perpetuate the success of our business and represent stockholder interests through the exercise of sound judgment using its diversity of experience and

perspectives.

Stockholder Communications with the Board

The Board provides a process for stockholders of the Company to send written communications to the entire Board. Stockholders of the Company may send written communications to the Board of Directors c/o Corporate Secretary, Encore Wire Corporation, 1329 Millwood Road, McKinney, Texas 75069. All communications will be compiled by the Corporate Secretary of the Company and submitted to the Board on a periodic basis.

Report of the Audit Committee

To the Stockholders of Encore Wire Corporation:

The Audit Committee of the Board of Directors oversees the Company's financial reporting process on behalf of the Board of Directors.

Management has the primary responsibility for the financial reporting process, including the Company's system of internal controls and the preparation of the Company's financial statements in accordance with generally accepted accounting principles. The Company's independent auditors are responsible for auditing those financial statements. The Audit Committee's responsibility is to monitor and review these processes.

It is not the Audit Committee's duty or responsibility to conduct auditing or accounting reviews or procedures.

Members of the Audit Committee are not employees of the Company and may not represent themselves to be or to serve as accountants or auditors of the Company. As a result, the Audit Committee has relied, without independent verification, on management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States and on the representations of the independent auditors included in their report on the Company's financial statements.

In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed with management the audited financial statements in the Company's annual report referred to below, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements. The Audit Committee also reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Audit Committee under generally accepted auditing standards.

The Audit Committee has discussed with the independent auditors the matters required to be discussed by the statement on Auditing Standards No. 1301, as adopted by the Public Company Accounting Oversight Board. The Audit Committee has received the written disclosures and the letter from the independent auditors required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent auditor's communications with the Audit Committee concerning independence, and has discussed with the independent auditors the independent auditor's independence.

The Audit Committee's oversight does not provide it with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations.

Furthermore, the considerations and discussions with management and the independent auditors do not assure that the Company's financial statements are presented in accordance with generally accepted accounting principles, that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards or that the Company's independent accountants are in fact "independent."

The Audit Committee discussed with the Company's independent auditors the overall scope and plans for their audits. The Audit Committee has met with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls and the overall quality of the Company's financial reporting. In addition, the Audit Committee met with management during the year to review the Company's Sarbanes-Oxley Section 404 compliance efforts related to internal controls over financial reporting. The Audit Committee held five meetings during 2018.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors (and the Board has approved) that the audited financial statements be included in the annual report on Form 10-K for the year ended December 31, 2018 for filing with the Securities and Exchange Commission. The Audit Committee and the Board have also recommended the selection of Ernst & Young LLP as the Company's independent auditors.

EXECUTIVE COMPENSATION

Compensation Discussion & Analysis

This Compensation Discussion and Analysis section addresses the following topics: (i) the members and role of the Company’s Compensation Committee and the Company’s Stock Option Committee; (ii) our compensation-setting process; (iii) our compensation philosophy; (iv) the components of our executive officer compensation program; and (v) our decisions for compensation earned by the Company’s named executive officers in 2018.

The Board of Directors has determined that Daniel L. Jones, Chairman, President and Chief Executive Officer of the Company, and Frank J. Bilban, Vice President—Finance and Chief Financial Officer of the Company, are the Company’s only executive officers. Throughout this proxy statement, Mr. Jones and Mr. Bilban are referred to as the “named executive officers.” In this “Compensation Discussion and Analysis” section, the terms, “we,” “our,” “us,” and the “Committee” refer to the Compensation Committee and the Stock Option Committee, as applicable.

The Compensation Committee

Committee Members and Independence

John H. Wilson (Chairman), Scott D. Weaver, Gregory J. Fisher, William R. Thomas III and Donald E. Courtney are the current members of the Compensation Committee. Each member of the Compensation Committee qualifies as an independent director under NASDAQ listing standards.

Role of the Compensation Committee

The Compensation Committee administers the compensation program for the officers and certain key employees of the Company and makes all related decisions. The Committee also administers the Company's compensation and benefit policies, practices and plans of the Company, including supervising and administering the 2010 Stock Option Plan. On February 18, 2019, the Board dissolved the Stock Option Committee and the Compensation Committee resumed all duties previously delegated to the Stock Option Committee, including administering the 2010 Stock Option Plan. The Board dissolved the Stock Option Committee because, following the effectiveness of the Tax Cuts and Jobs Act on December 22, 2017, Section 162(m) of the internal revenue code repealed the exception to the \$1 million deduction limitation for grants of certain performance-based compensation. As a result, the Stock Option Committee is no longer necessary to administer the 2010 Stock Option Plan. The Compensation Committee ensures that the total compensation paid to the officers is fair, reasonable and competitive. The Compensation Committee did not retain compensation advisors with respect to compensation earned during 2018, nor has it done so in the past. We operate under a written charter adopted by the Board. The charter is available under the "Investors" section of the Company's website at www.encorewire.com. The fundamental responsibilities of our Committee are:

- to review at least annually the goals and objectives and the structure of the Company's plans for officer compensation, incentive compensation, equity-based compensation, and its general compensation plans and employee benefit plans (including retirement and health insurance plans);
- to evaluate annually the performance of the Chief Executive Officer in light of the goals and objectives of the Company's compensation plans, and to determine his compensation level based on this evaluation;
- to review annually and determine the compensation level of all officers and certain key employees of the Company, in light of the goals and objectives of the Company's compensation plans;
- in consultation with the Chief Executive Officer, to oversee the annual evaluation of management of the Company, including other officers and key employees of the Company; and
- to review, recommend to the Board, and administer all equity-based compensation plans.

Committee Meetings

The Compensation Committee meets, and the Stock Option Committee prior to its dissolution met, as often as necessary to perform their duties and responsibilities. The Compensation Committee held one meeting in 2018, and the Stock Option Committee held three meetings during 2018. We typically meet with the Chief Executive Officer and the Chief Financial Officer. We also meet in executive session without management.

The Compensation-Setting Process

We meet in executive session each year to evaluate the performance of the officers and certain key employees of the Company, to determine their incentive bonuses for the prior year, to set their base salaries for the next calendar year, and to consider and approve any grants to them of equity incentive compensation.

Although many compensation decisions are made in the fourth quarter, our compensation planning process continues throughout the year. Compensation decisions are designed to promote our fundamental business objectives and strategy. Business and succession planning, evaluation of management performance and consideration of the business environment are year-round processes.

Management plays a significant role in the compensation-setting process. The most significant aspects of management's role are:

- evaluating employee performance; and
- recommending salary levels, bonus awards and stock option awards.

The Chief Executive Officer and Chief Financial Officer also participate in Compensation Committee meetings at the Committee's request to provide:

- background information regarding the Company's strategic objectives;
- detailed background information regarding the accomplishments of the Company and the management;
- their evaluation of the performance of the other officers and key employees; and
- compensation recommendations as to the other officers.

Compensation Philosophy

The Company believes in rewarding officers based on individual performance as well as aligning the officers' interests with those of the stockholders with the ultimate objective of improving stockholder value. To that end, the Committee believes officer compensation packages provided by the Company to its officers should include both cash and stock-based compensation that reward performance.

The Compensation Committee seeks to achieve the following goals with the Company's officer compensation programs: to attract, retain and motivate officers and to reward them for value creation. The individual judgments made by the Compensation Committee are somewhat subjective and are based largely on the Compensation Committee's perception of each officer's contribution to both past performance and the long-term growth potential of the Company. These judgments start with an evaluation of the Company's overall performance and are then paired with five basic criteria of that individual's performance that are used to compare their performance to that of their peers. The Compensation Committee chose this approach to reward individuals who have both contributed to the Company's overall success and performed well compared to their peers, while not rewarding poor performance. The Compensation Committee does not establish specific performance targets for officers to avoid any incentive for officers to behave in a self-interested manner or a manner otherwise detrimental to the Company to achieve such targets. The Compensation Committee believes that this approach promotes teamwork and aligns with the long-term interests of the stockholders.

At the core of our compensation philosophy is our guiding belief that pay should be linked to performance, and several factors underscore that philosophy. Performance is measured both from the macro level of Company earnings and performance, and the micro level of the specific officers' performance. A substantial portion of officer compensation is determined by each officer's contribution to the Company's profitability and performance based largely on a review of each officer's performance of his or her specific duties and responsibilities that the Chief Executive Officer conducts with the Compensation Committee. We do not have any employment, severance or change-in-control agreements with any of our officers. We do not believe in awarding discounted stock options, reload stock options or re-pricing of stock options.

The Compensation Committee believes that total compensation and accountability should increase with position and responsibility. Consistent with this philosophy, total compensation is higher for individuals with greater responsibility and greater ability to influence the Company's targeted results and strategic initiatives. As position and responsibility increases, a greater portion of the officer's total compensation is performance-based pay.

In addition, our compensation methods focus management on achieving strong annual performance in a manner that supports and encourages the Company's long-term success and profitability. Our bonus payouts are highly variable based on Company and individual performance. We believe that stock options issued under the 2010 Stock Option Plan and stock grants create long-term incentives that align the interests of management with the interests of long-term stockholders. Further, the Company's stock ownership guidelines encourage our executive officers to focus on the long-term interests of the Company's stockholders. Finally, while the Company's overall compensation levels must be sufficiently competitive to attract and retain talented leaders, we believe that compensation should be set at responsible levels.

2018 Compensation

This section describes the compensation decisions that the Committee made with respect to the named executive officers for 2018.

Executive Summary

In 2018 and in the first quarter of 2019, we continued to apply the compensation principles described above in determining the compensation of our named executive officers. In summary, the compensation decisions made for 2018 for the named executive officers were as follows:

- We did not raise the base salaries of the named executive officers for 2018;
- We awarded cash incentive bonus payments to the named executive officers in the amount of \$1,050,000 to Mr. Jones and \$550,000 to Mr. Bilban in the first quarter of 2019; and
- We granted 15,000 shares of restricted stock subject to vesting to Mr. Jones and 10,000 shares of restricted stock subject to vesting to Mr. Bilban in the first quarter of 2019.

In setting compensation policies and making compensation decisions for the named executive officers, we do not use specific formula-driven plans. We do, however, consider a number of factors, including the Company's overall performance in terms of revenue, profitability, market share and cost containment among others. We take into account the overall economic and industry specific environments that management faces in any given period. We also heavily weigh the individual's personal performance and how such individual contributed to the success of the rest of the

management team. We discuss the performance of the Company and members of the executive staff with the Chief Executive Officer at quarterly Board meetings and at other appropriate points throughout the year. Many of the officers make presentations at quarterly Board meetings, enabling the Board to discuss that officer's area of functional responsibility and performance personally. Our two named executive officers participate in all Board meetings. While the final amount of any compensation paid to the named executive officers is somewhat discretionary, based on our business judgment, and is not generated or calculated by reference to any particular formula or performance target, it is based on our assessment of their performance in managing the Company and performing their specific duties. We believe this methodology is superior to other more formula-based calculations that can lead to executives focusing on short-term and personal performance to the detriment of the Company's team-oriented performance.

Compensation Components.

As described in more detail below, the three main components that we use to compensate and incentivize the named executive officers are base salary, cash incentive bonuses and awards of stock options. The named executive officers have no employment, severance or change-in-control agreements with the Company.

Base Salary. In determining base salaries, we consider each named executive officer's qualifications and experience, scope of responsibilities, the goals and objectives established for the executive, the executive's past performance, internal pay equity, the tax deductibility of base salary and cash incentive payments and the extent to which the Company's earnings were affected by the executive's actions. We must also consider the Company's past performance and the general economic climate and more specifically the industry climate in which the Company operates and competes in determining whether salary increases are appropriate in that context.

The Company competes in an industry consisting primarily of private companies or public companies with divisions or subsidiaries that compete with the Company. Because of the lack of directly comparable salary information with producers of electric building wire, we also periodically refer to surveys of salary data with respect to executives in comparable positions at comparable companies. To set salary levels for 2018 for our named executive officers, we referred to the Institutional Shareholder Services "ISS" national salary survey gathered from all public companies' proxy data in the United States. That information is then broken down to manufacturing and industrial companies with annual revenue between \$750 million and \$2.25 billion and over 500 employees (the "Comparison Group"). The survey reported 264 salaries in the Comparison Group for CEOs and 263 salaries in the Comparison Group for CFOs.

We have historically kept our base salaries at reasonable levels while trying to incentivize our executives with strong bonus and stock option programs that allow the executives to have significant upside when the Company performs well. To that end, the relative amounts of the base salary and bonus of our executives are set at levels so that a significant portion of the total compensation that such executive can earn is performance-based pay. Base salary is largely determined based on the methodology described above in concert with data from salary surveys.

Cash Incentive. Cash incentive bonus payments are determined as described above, based primarily on each named executive officer's contribution to the Company's performance of key objectives and profitability over the previous calendar year. The Company makes its cash incentive bonus payments, if any, during the first quarter of the year following the applicable calendar year. The Committee believes that profitability is one of the most useful measures of management's effectiveness in creating value for the stockholders of the Company. We employ the methodology described above in concert with data from salary surveys in determining the amount of cash incentive bonus awards.

Equity Incentive. The Company's named executive officers are eligible to receive stock options granted under the 2010 Stock Option Plan, as more fully described in Note 6 to the Financial Statements of the Company's Annual Report on Form 10-K for the year ended December 31, 2018 and incorporated herein by reference. The Company grants all stock options with an exercise price that is at the fair market value of the Company's Common Stock as of the date of grant. The exercise price for stock option grants is determined by reference to the closing price per share on NASDAQ at the close of business on the date of grant. Other than the 2010 Stock Option Plan, as of December 31, 2018, the Company had not adopted any other equity incentive plans in which the named executive officers or directors may participate.

Historically, option awards under the 2010 Stock Option Plan were made at regular or special Stock Option Committee meetings and the effective date for each stock option grant was set by the Stock Option Committee. Going forward, the Compensation Committee will make option awards at regular or special meetings of the Compensation Committee and set the effective date at such meetings. The Company also made grants of equity incentive awards, including grants of restricted stock, at the discretion of the Stock Option Committee in connection with the hiring of new officers and other employees.

In determining the number of options to be granted to officers and the frequency of option grants, the Compensation Committee and Stock Option Committee have taken into account the individual's position, scope of responsibility, ability to affect profitability, the individual's performance and the value of stock options in relation to other elements of total compensation. In addition, since the Company believes that profitability is the most useful measure of management's effectiveness in creating value for the stockholders, the Company's profitability over the prior calendar year is also taken into account when determining the number of options or shares of restricted stock to be granted to officers.

Analysis

The Compensation Committee did not increase the base salaries for the named executive officers for 2018. In making this decision with respect to Mr. Jones's 2018 salary level, the Committee considered the following:

- Mr. Jones is a veteran executive in the wire industry and performed extremely well in leading the Company over the past several years, including in 2017 in which the Company believes it gained market share, produced very strong earnings and added strength to a solid balance sheet. In addition, Mr. Jones has successfully led the Company to continue to significantly expand its product offerings and / or its current products by managing the building of new production plants, including, most recently, the expansion

of the armored cable plant that ramped up operations in 2017, as well as upgrades and capacity improvements throughout the other plants.

Mr. Jones performed his primary business objectives well for 2017 which were to manage the Company's operations in a cost effective manner, manage the independent sales force to produce as much sales volume as possible while balancing the Board's preference for profit versus volume, manage customer relationships, seek ways to expand the Company's product offerings, help to ensure that the Company complies with regulatory requirements and meets related deadlines, manage risk and protect the Company's strong balance sheet and produce as much earnings as reasonably possible given the industry environment.

Mr. Jones's base salary was set at \$850,000 effective January 1, 2018, and this amount was in the fourth quartile of the Chief Executive Officers of companies in the Comparison Group in the 2017 ISS compensation survey. However, compared to the total compensation (including all cash, stock and other compensation) of CEOs in the ISS survey, Mr. Jones was in the first (lowest) quartile.

¶The economic climate in general and in the construction and building wire industries at that time.

In setting Mr. Bilban's base salary for 2018, the Committee considered the following:

Mr. Bilban is a veteran executive in the wire industry and performed extremely well in leading the Company over the past several years, including in 2017 in which the Company believes it gained market share, produced very strong earnings and added strength to a solid balance sheet. In addition, Mr. Bilban successfully assisted Mr. Jones in leading the Company to continue to significantly expand its product offerings and its current products by managing the building of new production plants, including, most recently, the expansion of the armored cable plant that ramped up operations in 2017, as well as upgrades and capacity improvements throughout the other plants.

Mr. Bilban performed his primary business objectives well for 2017 which were to assist Mr. Jones in managing the Company's operations in a cost effective manner, provide Mr. Jones and the Board with accurate and timely financial data and analysis, help to ensure that the Company complies with regulatory requirements and meets related deadlines, manage the Company's treasury function, manage risk and protect the Company's strong balance sheet and assist Mr. Jones in managing the Company in an effort to maximize the Company's earnings as much as reasonably possible given the industry environment.

Mr. Bilban's base salary was set at \$410,000 effective January 1, 2018, and this amount was in the third quartile of the Chief Financial Officers of companies in the Comparison Group in the 2017 ISS compensation survey. However, compared to the total compensation (including all cash, stock and other compensation) of CFOs in the ISS survey, Mr. Bilban was in the second (below mean) quartile.

¶The economic climate in general and in the construction and building wire industries at that time.

The Committee determined not to increase base salaries for 2018 for Mr. Jones and Mr. Bilban despite their solid performance during 2017. The Committee recognized that the named executive officers had performed very well versus the rest of the industry, and that the Company's earnings and prospects had done very well in 2017. With the efforts of Mr. Jones and Mr. Bilban, the Company's earnings increased strongly on a year over year basis. The Committee also took into account that the salaries of the named executives had been increased the prior year.

In determining cash incentive (bonus) payments at the end of 2018 that were paid to the named executive officers in the first quarter of 2019, the Committee considered the Company's performance during 2018. In addition, the Committee considered the success of the named executive officers managing the expansion of the armored cable plant that ramped up operations in 2017, as well as upgrades and capacity improvements throughout the other plants. Under the leadership of Mr. Jones and Mr. Bilban, the Company had almost \$1.3 billion in net sales, and the second highest earnings in the history of the Company. The Committee also considered that the named executive officers had a positive impact on growing the Company's market share during 2018, while growing a solid balance sheet.

Recognizing Encore Wire's strong performance in the construction and building wire industries and the other factors discussed above, the Committee awarded Mr. Jones and Mr. Bilban cash bonuses of \$1,050,000 and \$550,000, respectively, in the first quarter of 2019.

The Stock Option Committee granted shares of restricted stock subject to vesting to Mr. Jones and Mr. Bilban in January 2019, at which time the Committee granted 15,000 shares of restricted stock subject to vesting to Mr. Jones and 10,000 shares of restricted stock subject to vesting to Mr. Bilban. The Compensation Committee intends to

continue to create long-term incentives for Mr. Jones and Mr. Bilban and maintain their alignment with the interests of long-term stockholders.

Director and Executive Officer Stock Ownership Guidelines

In February 2015, the Board of Directors adopted the Director and Executive Officer Stock Ownership Guidelines for the Company’s directors and executive officers. The purpose of the stock ownership guidelines is for the Company’s directors and executive officers to display confidence in the Company through ownership of a significant amount of stock and to further align their interests with those of the Company’s stockholders. Each director and executive officer is required to hold the number of shares of the Company’s common stock valued at a multiple of such person’s annual cash retainer or annual base salary, as the case may be, in the amounts listed below:

| Position | Multiple of Annual Cash Retainer or Annual Base Salary |
|--------------------------|---|
| Non-Employee Director | 3x |
| Chief Executive Officer | 3x |
| Other Executive Officers | 2x |

Each director and executive officer has five (5) years from the later of (a) becoming a member of the Board or election as an executive officer, as the case may be, and (b) February 23, 2015 to accumulate sufficient equity and achieve the ownership required by these guidelines, after which time the Board has discretion to address situations where a director or executive officer has not maintained the ownership required by these guidelines.

The Nominating and Corporate Governance Committee will periodically assess each director’s compliance with the stock ownership guidelines, and the Compensation Committee will periodically assess each executive officer’s compliance with the stock ownership guidelines. For purposes of measuring compliance, all shares of common stock held by a director or executive officer shall be valued at the greater of (a) the purchase price of such shares and (b) the latest closing price of the common stock on the NASDAQ Global Select Market or other exchange on which the common stock may be subsequently listed. The Board may approve exceptions to these guidelines from time to time, as necessary or appropriate, in individual cases. A current copy of the Company’s Director and Executive Officer Stock Ownership Guidelines is available under the “Investors” section of the Company’s website at www.encorewire.com. As of March 21, 2019, all of the Company’s directors and executive officers own the requisite amount of the Company’s common stock to meet the requirements of the Company’s stock ownership guidelines.

Perquisites and Other Personal Benefits Compensation

The Company provides named executive officers with perquisites and other personal benefits that the Company and the Committee believe are reasonable and consistent with its overall compensation program to better enable the Company to attract and retain superior employees for senior management positions. The Compensation Committee periodically reviews the levels of perquisites and other personal benefits provided to named executive officers. The amounts shown in the Summary Compensation Table under the heading “Other Compensation” represent the value of Company matching contributions to the named executive officers’ 401(k) accounts, the value of certain life insurance benefits and the cost of vehicle leases and country club memberships to the Company. The named executive officers did not receive any other perquisites or other personal benefits or property.

Accounting for Stock-Based Compensation

The Company accounts for stock-based payments, including its 2010 Stock Option Plan, in accordance with the requirements of FASB ASC Topic 718 (formerly known as FASB Statement 123(R)).

Tax Deductibility

Section 162(m) of the Internal Revenue Code places a limit of \$1 million on the amount of compensation that the Company may deduct in any one year with respect to its Chief Executive Officer, its Chief Financial Officer and each of the other three most highly compensated executive officers. Pursuant to tax law changes effective in 2018, the Company’s Chief Financial Officer will be included in the executives whose compensation is subject to the limit imposed by Section 162(m), and the exception to Section 162(m)’s \$1 million limit for “performance-based compensation” has been eliminated, with the result that, except for “grandfathered” amounts, all taxable compensation paid to the Company’s Chief Executive Officer, Chief Financial Officer and each of the other three most highly compensated executive officers in 2018 and in future calendar years will be subject to the \$1 million limit on deductibility. “Grandfathered” amounts that qualify as performance-based compensation under prior law should include stock options granted under the 2010 Stock Option Plan prior to November 2, 2017, so long as such options are not

materially modified in the future. Although the Compensation Committee considers tax deductibility in designing and implementing its compensation program, the Compensation Committee does not limit itself to compensating our officers in a manner that qualifies for such tax deductibility.

Advisory Vote on Executive Compensation

We conducted an advisory vote on executive compensation at our 2018 annual meeting of stockholders. While this vote was not binding on the Company, our Board of Directors or our Compensation Committee, we believe that it is important for our stockholders to have an opportunity to vote on this proposal on an annual basis as a means to express their views regarding our executive compensation philosophy, our compensation policies and programs, and our decisions regarding executive compensation, all as disclosed in our proxy statement.

At the 2018 annual meeting of stockholders, approximately 98% of the votes cast on the advisory vote on executive compensation proposal were in favor of our named executive officer compensation as disclosed in the proxy statement, and as a result our named executive officer compensation was approved. The Board of Directors and the Compensation Committee reviewed these final vote results and determined that, given the significant level of support, no changes to our executive compensation policies and decisions were necessary at this time based on the vote results.

Reasonableness of Compensation

After considering the aggregate compensation paid to the named executive officers for 2018 in light of the factors described above, the Committee has determined that the compensation is reasonable and not excessive.

Pay Ratio Disclosure

Pursuant to the Dodd-Frank Act, the Securities and Exchange Commission adopted a rule requiring annual disclosure of the ratio of the annual total compensation of the median employee (other than the CEO) to the total annual compensation of the principal executive officer. As the Company's Chief Executive Officer ("CEO"), Mr. Jones is the Company's principal executive officer. As reflected in the foregoing Summary Compensation Table contained within this proxy statement, Mr. Jones's total compensation for 2018 was \$2,640,378. The annual total compensation of the median employee (other than the CEO) for 2018 was \$56,687, calculated in accordance with the requirements of Item 402(c)(2)(x) of Regulation S-K, consistent with how the Company calculated the total annual median employee

for the year ended December 31, 2017. We identified the median employee (other than the CEO) by using the payroll records as of December 31, 2018. We annualized the compensation for all full-time employees that were on the payroll as of December 31, 2018. The ratio of our CEO’s pay to the pay of our median employee for 2018 is 47 to 1.

Director Compensation for 2018

| Name | Fees earned or paid in cash (\$) | Stock awards (2) | Total (\$) |
|--------------------------------|--|------------------------|---------------|
| (a) | (b) | | (h) |
| Each non-employee director (1) | \$48,000 | \$46,950 | \$94,950 |

(1) Director fees paid and grants made to each director, except Daniel L. Jones, Chairman, President and CEO of the Company.

(2) Represents the aggregate grant date fair value of the grant of 1,000 shares of Company stock calculated in accordance with FASB ASC Topic 718.

Non-employee members of the Board of Directors are paid a fee of \$12,000 per quarter. In addition, the Company reimburses directors for reasonable travel, lodging and related expenses incurred in attending Board and committee meetings. Each non-employee director is also granted 1,000 shares of Company stock pursuant to the 2010 Stock Option Plan.

Potential Payments upon Termination or Change-in-Control

Upon a Change in Control, all outstanding stock options under the 2010 Stock Option Plan will become fully exercisable. For the purposes of stock options granted under the 2010 Stock Option Plan, a “Change in Control” occurs in any one of the following circumstances:

any person shall have become the beneficial owner of or shall have acquired, directly or indirectly, securities of the Company representing 50% or more (in addition to such person’s current holdings) of the combined voting power of the Company’s then outstanding voting securities without prior approval of at least two-thirds of the members of the Board in office immediately prior to such person’s attaining such percentage interest;

the Company is a party to a merger, consolidation, sale of assets, or other reorganization, or a proxy contest, as a consequence of which the members of the Board in office immediately prior to such transaction or event constitute less than a majority of the Board thereafter; or

during any period of two consecutive years, individuals who at the beginning of such period constituted the Board (including for this purpose any new director whose election or nomination for election by the Company’s stockholders was approved by a vote of at least two-thirds of the directors then still in office who were directors at the beginning of such period) cease for any reason to constitute at least a majority of the Board.

Assuming a Change in Control occurred on December 31, 2018, the named executive officers would be entitled to accelerated vesting of all unexercisable stock options having values of \$623,020 (Mr. Jones) and \$390,600 (Mr. Bilban), based on the difference between the exercise price of the accelerated options and the closing price of the Common Stock on NASDAQ on December 31, 2018. The actual benefit that a named executive officer may receive upon a Change in Control can only be determined at the time of such Change in Control.

Pension Benefits and Non-Qualified Deferred Compensation

The Company does not offer any post-employment compensation that would be required to be disclosed on the “Pension Benefits” or “Non-qualified Deferred Compensation” table.

Compensation Committee Interlocks and Insider Participation

None of our executive officers serves as a member of the board or compensation committee of any entity that has one or more of its executive officers serving as a member of our Board or Compensation Committee.

Certain Relationships and Related Party Transactions

Policies and Procedures

The Audit Committee of the Board of Directors is responsible for reviewing and approving all material transactions with any related party, as set forth in the Related Party Transactions Policy adopted by the Board of Directors. Related parties include any of our directors or executive officers, certain of our stockholders and their immediate family members.

To identify related party transactions, each year, we submit and require our directors and executive officers to complete Director and Officer Questionnaires identifying any transactions with us in which the executive officer or director or their family members have an interest. We review related party transactions due to the potential for a conflict of interest. A conflict of interest occurs when an individual's private interest interferes with the interests of the Company as a whole. Our Code of Business Conduct and Ethics requires all directors, officers and employees who have a conflict of interest to immediately notify their supervisor or our Nominating and Corporate Governance Committee chairman.

We expect our directors, officers and employees to act and make decisions that are in our best interests and encourage them to avoid situations which present a conflict between our interests and their own personal interests. Our directors, officers and employees are prohibited from taking any action that may make it difficult for them to perform their duties, responsibilities and services to the Company in an objective and fair manner. A copy of our Code of Business Conduct and Ethics is available at www.encorewire.com under the "Investors" section.

Related Party Transactions

Best H & A Trucking is wholly-owned by Mrs. A. Jones, the mother of Daniel L. Jones, a nominee for director and the Company's Chairman, President and Chief Executive Officer. The Audit Committee of the Board of Directors has approved the continued use of the transportation services of Best H & A Trucking and determined that these services are at rates no less favorable than are available from non-affiliated parties. During the year ended December 31, 2018, the Company paid Best H & A Trucking \$159,607 for these services on the basis of rates the Company believes compare favorably with rates charged by other common carriers.

PROPOSAL TWO

APPROVAL, ON AN ADVISORY BASIS, OF COMPENSATION PAID TO THE COMPANY'S NAMED EXECUTIVE OFFICERS

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "Dodd Frank Act") enables the Company's stockholders to approve, on an advisory basis, the compensation of the Company's named executive officers as disclosed in this proxy statement in accordance with the SEC's rules. The proposal, commonly known as a "say on pay" proposal, gives the Company's stockholders the opportunity to express their views on the Company's executive compensation. Because this is an advisory vote, this proposal is not binding on the Company. However, the Compensation Committee, which is responsible for administering the Company's executive compensation policies and practices, values the opinions expressed by stockholders in their vote on this proposal.

As discussed previously in the Compensation Discussion and Analysis section, we believe that the Company's compensation policies and practices reflect the Company's belief in rewarding officers based on individual performance as well as aligning the officers' interests with those of the stockholders with the ultimate objective of improving stockholder value.

We are asking the Company's stockholders to indicate their support for the Company's named executive officer compensation program as described in this proxy statement. This vote is not intended to address any specific item of compensation, but rather the overall compensation of the Company's named executive officers and the philosophy, policies and practices described in this proxy statement. Accordingly, we ask our stockholders to vote "FOR" the following resolution at the Annual Meeting:

"RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis and the related tabular and narrative disclosures, is hereby approved."

The affirmative vote of a majority of the holders of shares of Common Stock having voting power present in person or represented by proxy is required for the approval of this proposal.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS VOTING "FOR" APPROVAL, ON AN ADVISORY BASIS, OF THE COMPENSATION PAID TO THE COMPANY'S NAMED EXECUTIVE OFFICERS, AS DISCLOSED PURSUANT TO ITEM 402 OF REGULATION S-K, INCLUDING THE COMPENSATION

DISCUSSION AND ANALYSIS AND THE RELATED TABULAR AND NARRATIVE DISCLOSURES.
