NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(1)GENERAL

The unaudited interim consolidated financial statements included for A. Schulman, Inc. (the "Company") reflect all adjustments, which are, in the opinion of management, necessary for a fair presentation of the results of the interim period presented. All such adjustments are of a normal recurring nature. The fiscal year-end consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. The unaudited consolidated financial information should be read in conjunction with the consolidated financial statements and notes thereto incorporated in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2012.

The results of operations for the three and nine months ended May 31, 2013 are not necessarily indicative of the results expected for the fiscal year ending August 31, 2013.

The accounting policies for the periods presented are the same as described in Note 1 – Business and Summary of Significant Accounting Policies to the consolidated financial statements contained in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2012.

Certain items previously reported in specific financial statement captions have been reclassified to conform to the fiscal 2013 presentation.

(2)BUSINESS ACQUISITIONS

Elian SAS

On January 31, 2012, the Company acquired all of the issued share capital of Elian SAS ("Eliau"), a French portfolio company of British Vita plc, for \$66.5 million, which included the assumption and repayment of \$4.3 million in Eliau debt. The results of Eliau's operations have been included in the consolidated financial statements since the date of acquisition.

Eliau provides specialty formulated color concentrates to over 1,000 customers in end markets such as packaging, cosmetics, personal hygiene, healthcare, and pipes and tubing products that require demanding specifications. Eliau offers superior quality, technology and responsiveness to its diversified customer base. The acquisition of Eliau moved the Company into France's color masterbatch market and improved the Company's product mix in the Europe, Middle East and Africa ("EMEA") region.

The information included herein has been prepared based on the allocation of the purchase price using estimates of the fair value and useful lives of assets acquired and liabilities assumed which were determined with the assistance of independent valuations using discounted cash flow and comparative market multiple approaches, quoted market prices and estimates made by management.

A. SCHULMAN, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The following table presents the estimated fair value of the assets acquired and liabilities assumed at the date of acquisition:

	(In thousands)
Cash and cash equivalents	\$ 1,624
Accounts receivable	6,897
Inventories	3,427
Prepaid expenses and other current assets	434
Property, plant and equipment	5,111
Intangible assets	27,779
Other long-term assets	20
Total assets acquired	\$45,292
Accounts payable	\$4,907
Other accrued liabilities	3,106
Deferred income taxes	10,598
Pension plans	711
Other long-term liabilities	143
Total liabilities assumed	\$19,465
Net identifiable assets acquired	\$25,827
Goodwill	40,718
Net assets acquired	\$66,545

The Company recorded acquired intangible assets of \$27.8 million. These intangible assets include customer related intangibles of \$18.3 million with estimated useful lives of 9 years, developed technology of \$8.6 million with estimated useful lives of 10 years, and trademarks and tradenames of \$0.9 million with estimated useful lives of 5 years. In addition, the fair value of accounts receivable acquired was \$6.9 million with the gross contractual amount being \$7.3 million.

Goodwill is calculated as the excess of the purchase price over the estimated fair values of the assets acquired and the liabilities assumed in the acquisition, and represents the future economic benefits arising from other assets acquired that could not be individually identified and separately recognized. The amount allocated to goodwill associated with the Elian acquisition is primarily the result of anticipated synergies and market expansion. Goodwill associated with this transaction was included in the EMEA segment and none of the goodwill is deductible for income tax purposes.

Other Business Transactions

The following table summarizes the Company's other business transaction for the periods presented:

Transaction Description	Date of Transaction	Purchase	Segment
		Consideration (In millions)	
ECM Plastics, Inc.	September 4, 2012	\$36.4	Americas

A Massachusetts producer of custom color, specialty additive masterbatch and niche engineered plastics products, with a strong presence in personal care and cosmetics

The ECM Plastics, Inc. purchase price allocation is subject to further adjustment until all pertinent information regarding the assets acquired and liabilities assumed are fully evaluated by the Company.

On May 28, 2013, the Company announced that it had reached an agreement in principle to purchase Network Polymers, Inc., a U.S. niche engineered plastics compounding business, for approximately \$50 million. The

transaction is expected to close in early fiscal 2014.

(3) GOODWILL AND OTHER INTANGIBLE ASSETS

The carrying amount of goodwill by segment for the Company is as follows:

	EMEA	Americas	Total
	(In thousands)		
Balance as of August 31, 2012	\$68,540	\$59,813	\$128,353
Acquisitions	—	9,329	9,329
Translation and other	650	(145)	505
Balance as of May 31, 2013	\$69,190	\$68,997	\$138,187

The increase in goodwill from August 31, 2012 is due to the acquisition of ECM Plastics, Inc. in the first quarter of fiscal 2013. Goodwill associated with this transaction is deductible for income tax purposes.

Goodwill is tested for impairment at the reporting unit level on an annual basis in the fourth quarter and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value.

The Company completed its annual impairment review of goodwill as of June 1, 2012 and noted no impairment. The fair value used in the analysis was established using a combination of the income and market approaches. These valuation methodologies use estimates and assumptions including, but not limited to, the determination of appropriate market comparables, projected future cash flows (including timing and profitability), discount rate reflecting the risk inherent in future cash flows, perpetual growth rate, and projected future economic and market conditions. In addition, the Company is not aware of any triggers which would require a goodwill impairment test as of May 31, 2013.

The following table summarizes intangible assets with determinable useful lives by major category:

	May 31, 2013			August 31, 2012		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
	(In thousands)					
Customer related intangibles	\$85,482	\$(17,934)	\$67,548	\$74,039	\$(13,263)	\$60,776
Developed technology	19,487	(4,683)	14,804	19,189	(3,258)	15,931
Registered trademarks and tradenames	15,943	(3,814)	12,129	16,344	(3,013)	13,331
Total finite-lived intangible assets	\$120,912	\$(26,431)	\$94,481	\$109,572	\$(19,534)	\$90,038

The increase in intangible assets from August 31, 2012 is due to the previously discussed acquisition of ECM Plastics, Inc. Amortization expense of intangible assets was \$2.6 million and \$7.8 million for the three and nine months ended May 31, 2013, respectively, and \$2.1 million and \$5.9 million for the three and nine months ended May 31, 2012, respectively.

(4) FAIR VALUE MEASUREMENT

For a discussion of the Company's fair value measurement policies under the fair value hierarchy, refer to Note 1 in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2012. The Company has not changed its valuation techniques for measuring the fair value of any financial assets or liabilities during fiscal 2013, and transfers between levels within the fair value hierarchy, if any, are recognized at the end of each quarter. There were no transfers between levels during the periods presented.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The following table presents information about the Company's assets and liabilities measured at fair value:

	May 31, 2013				August 31, 2012			
	Total	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3
(In thousands)								
Assets recorded at fair value:								
Foreign exchange forward contracts	\$62	\$—	\$62	\$—	\$92	\$—	\$92	\$—
Liabilities recorded at fair value:								
Foreign exchange forward contracts	\$227	\$—	\$227	\$—	\$69	\$—	\$69	\$—
Liabilities not recorded at fair value:								
Long-term fixed-rate debt	\$62,752	\$—	\$62,752	\$—	\$65,210	\$—	\$65,210	\$—

Cash and cash equivalents are recorded at cost, which approximates fair value. Additionally, the carrying value of the Company's variable-rate debt approximates fair value.

The Company measures the fair value of its foreign exchange forward contracts using an internal model. The model maximizes the use of Level 2 market observable inputs including interest rate curves, currency forward and spot prices, and credit spreads. The total contract value of foreign exchange forward contracts outstanding was \$73.3 million and \$43.0 million as of May 31, 2013 and August 31, 2012, respectively. The amount of foreign exchange forward contracts outstanding as of the end of the period is indicative of the exposure of current balances and the forecasted change in exposures for the following quarter. Any gains or losses associated with these contracts as well as the offsetting gains or losses from the underlying assets or liabilities are included in the foreign currency transaction (gains) losses line in the Company's consolidated statements of operations. The fair value of the Company's foreign exchange forward contracts is recognized in other current assets or other accrued liabilities in the consolidated balance sheets based on the net settlement value. The foreign exchange forward contracts are entered into with credit-worthy financial institutions, generally have a term of three months or less, and the Company does not hold or issue foreign exchange forward contracts for trading purposes. There were no foreign exchange forward contracts designated as hedging instruments as of May 31, 2013 and August 31, 2012.

Long-term fixed-rate debt issued in Euros is recorded at cost and is presented at fair value for disclosure purposes as shown in the table above. The Level 2 fair value of the Company's long-term fixed-rate debt was estimated using prevailing market interest rates on debt with similar creditworthiness, terms and maturities. As of May 31, 2013 and August 31, 2012, the carrying value of the Company's long-term fixed-rate debt recorded on the consolidated balance sheets was \$58.9 million and \$60.3 million, respectively.

Additionally, the Company remeasures certain assets to fair value, using Level 3 measurements, as a result of the occurrence of triggering events. During the first and third quarters of fiscal 2013, the Company remeasured the carrying value of certain facilities to fair value using comparable prices for similar assets in conjunction with restructuring initiatives. For further discussion on asset impairments, refer to Note 12 of this Form 10-Q.

There were no additional significant assets or liabilities that were remeasured at fair value on a non-recurring basis during the periods presented.

(5) INCOME TAXES

A reconciliation of the statutory U.S. federal income tax rate with the effective tax rates for the three months ended May 31, 2013 and 2012 is as follows:

	Three months ended May 31, 2013			Three months ended May 31, 2012		
	(In thousands, except for %'s)					
Statutory U.S. tax rate	\$5,183	35.0	%	\$7,697	35.0	%
Amount of foreign taxes at less than U.S. statutory tax rate	(3,285)	(22.2))	(4,146)	(18.9))
U.S. and foreign losses with no tax benefit	1,919	13.0		375	1.7	
U.S. restructuring and other U.S. unusual charges with no benefit	479	3.2		392	1.8	
Valuation allowance changes	—	—		(1,633)	(7.4))
Establishment (resolution) of uncertain tax positions	36	0.2		1,674	7.6	
Other	165	1.1		63	0.3	
Total income tax expense (benefit)	\$4,497	30.3	%	\$4,422	20.1	%

The effective tax rates for the three months ended May 31, 2013 and 2012 are less than the U.S. statutory rate primarily because of the Company's overall foreign rate being less than the U.S. statutory rate. This favorable effect on the Company's tax rate was partially offset by no tax benefits being recognized for U.S. and certain foreign losses. The change in the effective tax rate as compared with the same period last year was driven primarily by the increase in the amount of U.S. and certain foreign losses with no tax benefits.

A reconciliation of the statutory U.S. federal income tax rate with the effective tax rates for the nine months ended May 31, 2013 and 2012 is as follows:

	Nine months ended May 31, 2013			Nine months ended May 31, 2012		
	(In thousands, except for %'s)					
Statutory U.S. tax rate	\$13,421	35.0	%	\$17,880	35.0	%

The effective tax rate for the nine months ended May 31, 2013 is less than the U.S. statutory rate primarily because of the Company's overall foreign rate being less than the U.S. statutory rate, realization of tax benefits due to changes in valuation allowances, and resolution of uncertain tax positions in various jurisdictions. These favorable effects on the Company's tax rate were partially offset by no tax benefits being recognized for U.S. and certain foreign losses. The change in the effective tax rate as compared with the same period last year was driven primarily by the net benefit recognized due to the change in valuation allowance and the increase in the amount of U.S. and certain foreign losses with no tax benefits.

The effective tax rate for the nine months ended May 31, 2012 is less than the U.S. statutory rate primarily because of the Company's overall foreign rate being less than the U.S. statutory rate and the benefit recorded for the adjustment of valuation allowance. These favorable effects on the Company's tax rate were partially offset by no tax benefits being recognized for U.S. and certain foreign losses and establishment of uncertain tax positions.

(Unaudited)

During the second quarter of fiscal 2013, the Company established a valuation allowance against the net operating loss deferred tax asset of its Brazilian entity due to the uncertainty in the realization of this asset. The recording of the valuation allowance resulted in a non-cash charge of approximately \$2.4 million.

During the second quarter of fiscal 2013, the Company recorded a non-cash tax benefit of approximately \$9.4 million to reverse a valuation allowance against certain deferred tax assets in Germany. Due to German tax law changes enacted in the second quarter, it is now more likely than not that the interest expense carryforward deferred tax asset will be realized resulting in the valuation allowance reversal.

As of May 31, 2013, the Company's gross unrecognized tax benefits totaled \$4.9 million. If recognized, \$3.7 million of the total unrecognized tax benefits would favorably affect the Company's effective tax rate. The Company reports interest and penalties related to income tax matters in income tax expense. As of May 31, 2013, the Company had \$0.6 million of accrued interest and penalties on unrecognized tax benefits.

During the second quarter of fiscal 2013, the Company recorded a reduction of unrecognized tax benefits of \$1.8 million related to the settlement of a local tax examination in a foreign jurisdiction during the period.

The Company is open to potential income tax examinations in Germany from fiscal 2005 onward, in the U.S. from fiscal 2010 onward and in Belgium from fiscal 2012 onward. The Company is open to potential examinations from fiscal 2007 onward for most other foreign jurisdictions.

The amount of unrecognized tax benefits is expected to change in the next 12 months; however, the change is not expected to have a significant impact on the financial position of the Company.

(8) LONG-TERM INCENTIVE COMPENSATION PLANS

For a discussion of the Company's incentive stock plans and employee stock purchase plan, refer to Note 10 in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2012. As of May 31, 2013, there were 413,159 shares of common stock available for grant pursuant to the Company's 2006 Incentive Plan and 393,415 shares of common stock available for grant pursuant to the Company's 2010 Rewards Plan.

Restricted stock awards under the Company's 2006 and 2010 plans earn dividends throughout the vesting period which are subject to the same vesting terms as the underlying stock award. The restricted stock awards outstanding under these plans have service vesting periods of three years following the date of grant. Also, the Company grants awards with market and performance vesting conditions. The following table summarizes the activity of time-based and performance-based restricted stock awards for the nine months ended May 31, 2013.

	Awards Outstanding		Weighted-Average Fair Market Value (per share)	
	Time-Based	Performance-Based	Time-Based	Performance-Based
Outstanding at August 31, 2012	118,395	1,010,743	\$22.15	\$16.90

Outstanding at May 31, 2013	136,813	1,104,505	\$25.16	\$19.39
-----------------------------	---------	-----------	---------	---------

Restrictions on the time-based restricted stock awards lapse at the end of a three-year period, and the awards were valued at the fair market value on the date of grant. Time-based awards earn dividends throughout the vesting period which are subject to the same vesting terms as the underlying restricted stock awards. The weighted-average grant date fair value of time-based awards granted during the nine months ended May 31, 2013 and 2012 were \$29.23 and \$22.64 per share, respectively.

Performance-based awards vest based on market or performance conditions and do not have voting rights. Included in the outstanding performance-based awards as of May 31, 2013 are 518,352 performance-based awards which earn dividends throughout the vesting period, and the remaining performance-based awards which do not earn dividends. Earned dividends are subject to the same vesting terms as the underlying performance-based awards.

The performance-based awards in the table above include 546,646 shares that are valued based upon a Monte Carlo valuation model. Vesting of the ultimate number of shares underlying such performance-based awards, if any, will be dependent upon the Company's total stockholder return in relation to the total stockholder return of a select group of peer companies over a three-year period. The probability of meeting the market criteria was considered when calculating the estimated fair market value using a Monte Carlo valuation model. The awards granted prior to fiscal 2013 were accounted for as equity awards with market conditions given that recipients receive shares of stock upon vesting, and expense for these awards is recognized over the service period regardless of whether the market condition is achieved and the awards ultimately vest. Awards granted in fiscal 2013 provide recipients an option to receive cash or shares of common stock upon vesting. As such, the fiscal 2013 awards were accounted for as liability awards with a market condition, and the Company will measure these awards at fair value on a quarterly basis over the service period. As of May 31, 2013, the awards granted in fiscal 2013 were remeasured which resulted in a minimal adjustment to fair value.

The fair value of the performance-based awards granted during fiscal 2013 was estimated using a Monte Carlo valuation model using the following assumptions as of May 31, 2013:

Expected volatility	37.00	%
Risk-free interest rate	0.50	%
Correlation	58.00	%

The expected volatility assumption was calculated using a historical range to correlate with the award's vesting period. The Company used the daily volatility for each company in the peer group to determine a reasonable assumption for the valuation. The risk-free interest rate is based on zero coupon treasury bond rates corresponding to the expected life of the awards. In using the Monte Carlo valuation model with this type of grant, a correlation rate of the Company's stock price and each of the peer companies is calculated. The Company determined a correlation percentage based on all correlation rates.

The fair value of the remaining 557,859 performance-based awards in the table above is based on the closing price of the Company's common stock on the date of the grant. Vesting of the ultimate number of shares underlying such performance-based awards, if any, will be dependent upon the Company's return on invested capital ("ROIC") in relation to an internal targeted ROIC over a three-year period.

The weighted-average grant date fair value of the performance-based awards granted during the nine months ended May 31, 2013 and 2012 was \$26.02 and \$17.71 per share, respectively.

A summary of stock option activity for the nine months ended May 31, 2013 is as follows:

	Outstanding Shares Under Option	Weighted- Average Exercise Price
Outstanding at August 31, 2012	86,955	\$18.61
Granted	—	\$—
Exercised	(63,452)) \$18.70

Outstanding at May 31, 2013	20,003	\$19.14
Exercisable at May 31, 2013	20,003	\$19.14

The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option. The total intrinsic value for stock options outstanding and exercisable as of May 31, 2013 was \$0.2 million with a remaining term for options outstanding and exercisable of 1.8 years. The total intrinsic value of options exercised for the nine months ended May 31, 2013 was \$0.6 million. All outstanding and exercisable stock options are fully vested as of May 31, 2013. The Company did not grant stock options in fiscal years 2013 or 2012.

Total unrecognized compensation cost, including a provision for forfeitures, related to nonvested stock-based compensation arrangements as of May 31, 2013 was \$9.5 million. This cost is expected to be recognized over a weighted-average period of 1.7 years.

The Company had minimal and \$1.5 million of cash-based liability awards outstanding as of May 31, 2013 and August 31, 2012, respectively. These awards were granted to certain employees and included terms similar to the Company's previously discussed restricted stock awards. The Company recorded a liability for these cash-based awards equal to the amount of the award vested to date and adjusted the performance-based awards based on expected payout.

In January 2013, the Company granted non-employee directors 27,860 shares of unrestricted common stock. The Company recorded compensation expense for this grant of \$0.9 million for the nine months ended May 31, 2013.

The following table summarizes the impact to the Company's consolidated statements of operations from long-term incentive compensation plans for the three and nine months ended May 31, 2013 and 2012, which is primarily included in selling, general and administrative expenses in the accompanying consolidated statements of operations:

Total long-term incentive compensation	\$919	\$1,052	\$3,573	\$3,615

(9) EARNINGS PER SHARE

Basic earnings per share is computed by dividing income available to common stockholders by the weighted-average number of shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if common stock equivalents were exercised and also the impact of restricted stock awards expected to vest, which combined would then share in the earnings of the Company.

The difference between basic and diluted weighted-average shares results from the assumed exercise of outstanding stock options and grants of restricted stock, calculated using the treasury stock method. The following table presents the number of incremental weighted-average shares used in computing diluted per share amounts:

	Three months ended May 31,		Nine months ended May 31,	
	2013	2012	2013	2012

Weighted-average shares outstanding:				
Basic	29,316	29,440	29,275	29,411
Incremental shares from equity awards	161	129	146	174
Diluted	29,477	29,569	29,421	29,585

(10) SEGMENT INFORMATION

The Company considers its operating structure and the types of information subject to regular review by its President and Chief Executive Officer, who is the Chief Operating Decision Maker ("CODM"), to identify reportable segments. The CODM makes decisions, assesses performance and allocates resources by the following regions, which are also the Company's reportable segments: EMEA, the Americas, and Asia Pacific ("APAC").

The CODM uses net sales to unaffiliated customers, gross profit and operating income before certain items in order to make decisions, assess performance and allocate resources to each segment. Segment operating income does not include items such as interest income or expense, other income or expense, foreign currency transaction gains or losses, restructuring related expenses including accelerated depreciation, asset impairments, or costs and inventory step-up charges related to business acquisitions. Corporate expenses include the compensation of certain personnel,

certain audit expenses, board of directors related costs, certain insurance costs, costs associated with being a publicly traded entity and other miscellaneous legal and professional fees.

(11) RESTRUCTURING**Fiscal 2013 Restructuring Plans****Brazil Consolidation Plan**

In the second quarter of fiscal 2013, the Company initiated restructuring activities to consolidate its two existing leased manufacturing facilities in the State of Sao Paulo, Brazil into a single new leased manufacturing facility in Brazil. Manufacturing activities at the existing two facilities will be relocated by the end of the first quarter of fiscal 2014 to the new facility. The Company offered eligible associates the ability to transfer from the two existing manufacturing facilities to the new facility. As a result of this consolidation, the Company reduced headcount in Brazil by approximately 55 in the third quarter of fiscal 2013. Partially offsetting this reduction of headcount will be the addition of approximately 35 associates at the Company's new Brazil manufacturing facility including associate transfers and new hires. During the three and nine months ended May 31, 2013, the Company recorded \$0.3 million and \$0.6 million of pretax employee-related restructuring costs, respectively. Additionally, the Company recorded \$0.3 million and \$0.6 million of accelerated depreciation included in cost of sales during the three and nine months ended May 31, 2013, respectively. The Company expects to recognize additional pretax employee-related and other cash charges of approximately \$1.0 million during the remainder of fiscal 2013. Cash payments associated with this plan are expected to occur through fiscal 2014 as the plan is completed.

EMEA Reorganization Plan

During fiscal 2013, the Company executed restructuring activities to better reflect its current business footprint and needs in the challenging economic environment in Europe. As part of this restructuring, the EMEA regional team plans to reduce headcount by approximately 50, half of the reductions occurred during the nine months ended May 31, 2013 and the remaining reductions are expected to occur in the fourth quarter of fiscal 2013. The Company recorded \$1.3 million and \$3.7 million of pretax employee-related restructuring costs during the three and nine months ended May 31, 2013, respectively. As of May 31, 2013, the Company has a balance of \$1.4 million accrued for employee-related costs related to this plan. The Company expects to recognize additional pretax employee-related

cash charges of approximately \$2.1 million during the remainder of fiscal 2013. Cash payments associated with this plan are expected to occur through the second quarter of fiscal 2016 as the plan is completed.

Bellevue, Ohio Facility Plan

In the first quarter of fiscal 2013, the Company sold its Bellevue, Ohio facility to continue its focus on higher-value technical products. As part of this sale, the Company recorded no charges during the three months ended May 31, 2013 and \$0.3 million of pretax employee-related costs and other restructuring expenses during the nine months ended May 31, 2013. Additionally, the Company recorded \$0.4 million of accelerated depreciation associated with this plan during the first nine months of fiscal 2013. As of May 31, 2013, the Company has a balance of \$0.1 million accrued for employee-related costs related to this plan. The Company anticipates recognizing approximately \$1.0 million of other pretax restructuring expenses during the remainder of fiscal 2013 and into fiscal 2014. Cash payments associated with this plan are expected to occur through fiscal 2014 as the plan is completed.

Fiscal 2012 Restructuring Plans

Masterbatch Reorganization Plan

In August 2012, the Company conducted an extensive evaluation of its three regional segments and specifically focused on each region's masterbatch product family. As a result of this evaluation, the Company realigned its regional masterbatch product family to put greater focus on its growth opportunities. Therefore, within each regional segment, effective September 1, 2012 the masterbatch product family was split into two separate product families, Custom Performance Colors and Masterbatch Solutions. As part of this plan, the Company reduced headcount in the EMEA and APAC segments in the fourth quarter of fiscal 2012. The Company recorded minimal charges related to this plan during fiscal 2013. As of May 31, 2013, the Company has a balance of \$1.9 million accrued primarily related to the EMEA segment for employee-related costs and expects minimal charges related to this plan to be recognized during the remainder of fiscal 2013. Cash payments associated with this plan are expected to occur through fiscal 2016 as the plan is completed.

EMEA Operations and Back-Office Plan

In November 2011, the Company initiated a restructuring plan of EMEA's operations and back-office functions to better leverage savings from its Shared Service Center located in Belgium. As part of this plan, the Company reduced headcount in EMEA by approximately 50, and the majority of the reductions occurred in the first and second quarters of fiscal 2012. The Company recorded minimal charges during the three months ended May 31, 2013 and \$0.3 million of pretax employee-related restructuring costs during the nine months ended May 31, 2013. The Company recorded \$0.7 million and \$4.6 million of pretax employee-related restructuring costs during the three and nine months ended May 31, 2012, respectively. As of May 31, 2013, the Company has a balance of \$0.3 million accrued for employee-related costs related to this plan. The Company expects minimal employee-related charges related to this plan during the remainder of fiscal 2013. Cash payments associated with this plan are expected to occur through fiscal 2014 as the plan is completed.

Fiscal 2011 Restructuring Plan

Americas Engineered Plastics Plan

On August 25, 2011, the Company announced that it would close the Nashville, Tennessee facility and move production to existing facilities in order to optimize the use of capacity and capitalize on growth opportunities. As of the end of February 2012, the Nashville facility ceased production and the Company reduced headcount by approximately 70, with the majority of the reductions occurring in the second quarter of fiscal 2012. The Company recorded minimal charges during the nine months ended May 31, 2013, and \$0.9 million and \$1.4 million of pretax employee-related restructuring expense during the three and nine months ended May 31, 2012, respectively. As of May 31, 2013, the Company has a balance of \$0.2 million accrued for employee-related costs related to this plan. The Company expects minimal charges related to this plan to be recognized during the remainder of fiscal 2013. Cash payments associated with this plan are expected to occur through fiscal 2013 as the plan is completed. During the third quarter of fiscal 2013, the Company sold the Nashville, Tennessee facility which resulted in a minimal impact on the Company's consolidated financial results.

(12) ASSET IMPAIRMENTS

The Company recorded \$0.5 million in asset impairments during the first quarter of fiscal 2013 primarily related to the remeasurement of the carrying value of its facility in Oyonnax, France at estimated fair value of \$0.7 million, which is held for sale. The disposal value of real estate was determined as the estimated sales value of the assets less the estimated costs to sell based on information provided by a third-party real estate valuation source using the market approach.

During the third quarter of fiscal 2013, the Company remeasured the carrying value of its facility in Verolanuova, Italy at estimated fair value of \$1.6 million using comparable prices for similar facilities provided by a third-party real estate valuation source using the market approach. As a result, the Company recorded a pretax impairment charge of \$1.1 million. In addition, the Company recorded a pretax impairment charge of \$2.4 million during the third quarter of fiscal 2012 related to the Verolanuova, Italy facility.

Refer to Note 16 of this Form 10-Q for the discussion on impairment charges included in discontinued operations.

(13) COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Company is at times subject to pending and threatened legal actions, some for which the relief or damages sought may be substantial. Although the Company is not able to predict the outcome of such legal actions, after reviewing all pending and threatened legal actions with counsel and based on information currently available, management believes that the outcome of such actions, individually or in the aggregate, will not have a material adverse effect on the results of operations or financial position of the Company. However, it is possible that the ultimate resolution of such matters, if unfavorable, may be material to the results of operations in a particular future period as the time and amount of any resolution of such legal actions and its relationship to the future results of operations are not currently known.

Reserves are established for legal claims only when losses associated with the claims are judged to be probable, and the loss can be reasonably estimated. In many lawsuits and arbitrations, it is not considered probable that a liability has been incurred or not possible to estimate the ultimate or minimum amount of that liability until the case is close to resolution, in which case no reserve would be recognized until that time.

Excluding cash paid of \$36.4 million for the acquisition of ECM Plastics, Inc. and \$1.8 million for the settlement of the Company's uncertain tax position, as of May 31, 2013 there were no material changes to the Company's future

obligations as previously reported in the Company's 2012 Annual Report on Form 10-K for the fiscal year ended August 31, 2012.

(14) SHARE REPURCHASE PROGRAM

The Company repurchased 23,407 shares of common stock during the third quarter of fiscal 2013 at an average price of \$25.75 per share. For the nine months ended May 31, 2013, the Company repurchased 43,496 shares of common stock at an average price of \$24.86 per share. Shares valued at \$63.6 million remain authorized for repurchase as of May 31, 2013. For further discussion of the Company's share repurchase program, refer to Note 18 in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2012.

(15) ACCOUNTING PRONOUNCEMENTS

In June 2011, the Financial Accounting Standards Board issued new accounting guidance related to the presentation of comprehensive income in consolidated financial statements. The new accounting guidance requires the presentation of the components of net income and other comprehensive income either in a single continuous financial statement, or in two separate but consecutive financial statements. The accounting standard eliminates the option to present other comprehensive income and its components as part of the statement of stockholders' equity. This standard was effective for fiscal years beginning after December 15, 2011, including interim periods. The Company adopted this standard for the first quarter of fiscal 2013.

No other new accounting pronouncements issued or with effective dates during fiscal 2013 had or are expected to have a material impact on the Company's consolidated financial statements.

(16) DISCONTINUED OPERATIONS

In May 2013, the Company announced plans to sell its rotational compounding business in Australia. The Company expects to complete the transaction within twelve months. The operating results for this business were previously included in the Company's specialty powders product family within the APAC segment and have been reclassified to discontinued operations for all of the periods presented. Additionally, the assets and liabilities of this business are classified as held for sale in the Company's consolidated balance sheet as of May 31, 2013 and are included in prepaid expenses and other current assets and other accrued liabilities, respectively.

The following summarizes select financial information included in net earnings from discontinued operations:

	Three months ended May 31,		Nine months ended May 31,	
	2013	2012	2013	2012
	(In thousands)

Loss from discontinued operations, net of tax	\$4,821	\$320	\$5,102	\$518

The results for the three and nine months ended May 31, 2013 include an impairment charge of \$4.0 million which represented the difference between the estimated fair market value and the carrying value of the net assets. The estimated fair value was determined based on expected sale price.

Income taxes were minimal for all periods presented. Additionally, assets and liabilities of discontinued operations were not considered significant.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

This Management’s Discussion and Analysis of Financial Condition and Results of Operations (“MD&A”) is intended to help investors understand our results of operations, financial condition and current business environment. The MD&A is provided as a supplement to, and should be read in conjunction with, our unaudited consolidated financial statements and related notes included elsewhere in this Quarterly Report and the Company’s Annual Report on Form 10-K for the fiscal year ended August 31, 2012. The MD&A is organized as follows:

- Overview: From management’s point of view, we discuss the following:

Summary of our business and the markets in which we operate;

Key trends, developments and challenges; and

Significant events during the current fiscal year.

• Results of Operations: An analysis of our results of operations as reflected in our consolidated financial statements.

• Liquidity and Capital Resources: An analysis of our cash flows, working capital, debt structure, contractual obligations and other commercial commitments.

Overview

Business Summary

A. Schulman, Inc. is a leading international supplier of high-performance plastic compounds and resins headquartered in Akron, Ohio. The Company’s customers span a wide range of markets such as packaging, mobility, building and construction, electronics and electrical, agriculture, personal care and hygiene, custom services, and sports, leisure and home. The Chief Operating Decision Maker makes decisions, assesses performance and allocates resources by the following regions which represent our reportable segments:

• Europe, Middle East and Africa (“EMEA”),

• Americas, and

• Asia Pacific (“APAC”).

The Company has approximately 3,300 employees and 34 manufacturing facilities worldwide. Globally, the Company operates primarily in five product families: (1) custom performance colors, (2) masterbatch solutions, (3) engineered plastics, (4) specialty powders, and (5) distribution services. The Company offers tolling services to customers in all product families except for distribution services.

Throughout this MD&A, the Company provides operating results exclusive of certain items such as costs related to acquisitions, restructuring related expenses and asset write-downs, as these costs are not indicative of the Company's ongoing core operations. The operating results presented in this manner are considered relevant to aid analysis and understanding of the Company’s results and business trends.

Key Trends, Developments and Challenges

We continue the execution of our growth strategy, which is a set of initiatives aimed at increasing our ability to leverage our innovative products into different geographic markets, explore adjacent markets and applications, and continually improve the profitability of the Company's product mix.

The following developments and trends present opportunities, challenges and risks as we work toward our goal of providing attractive returns for all of our stakeholders:

• Cross Selling. We engage in the cross selling of all of our products through the collaborative efforts and training of our sales teams. We encourage cross selling between different product families and promote cross regional sales to better service our valued customers.

• Development of New Products. We are dedicated to the development of new, higher-margin products and applications that optimize the appearance, performance, and processing of plastics to meet our customers' specifications. We strive to maintain a balanced position between low-cost production and technological leadership with focused application development. We are also committed to continuing our growth in high value-added markets and reducing our exposure to commodity markets. We look to enhance our efforts through strategic collaborations with leading innovators in key markets.

Table of Contents

Innovation Centers. We have two Innovation Centers in Mexico and Germany which promote collaborative partnerships between A. Schulman and our customers, suppliers and other technical organizations. These Innovation Centers enable us to undertake research and development activities that align our technical and product development capabilities with the emerging needs of our customers and end markets.

Adjacent Markets. While we remain a leader in markets such as packaging and niche automotive, we are committed to identifying and pursuing adjacent markets, such as personal care and cosmetics, for our products that have sustainable growth opportunities.

Purchasing and Pricing. We pursue opportunities to continue our savings on purchasing and to optimize pricing strategies and vendor payment terms. We continue to leverage our global volume base to enhance savings and are searching for alternate sourcing from the Middle East and Asia.

Continuous Improvement. The Company's Six Sigma Black Belt and Green Belt associates continue to look for ways to improve our processes and optimize our performance. We are also determined to control our selling, general and administrative expenses, especially in developed markets.

Acquisitions and Joint Ventures. We continue to seek acquisitions that are within our core capabilities, fit our strategic goals, expand our technical capabilities and contribute to our profitability.

Fiscal Year 2013 Significant Events

In addition to the items discussed above, the following items represent significant events during fiscal year 2013:

Dividend Activities. In October 2012, the Company increased its regular quarterly cash dividend by approximately 2.6% to \$0.195 per common share. Additionally, in December 2012, the Board declared early payment of the Company's regular quarterly cash dividend to be payable to shareholders on December 31, 2012. This reflected the Company's confidence in its ability to generate cash and its long-term growth prospects, along with a continued commitment to shareholders.

Business Acquisition. On September 4, 2012, the Company acquired ECM Plastics, Inc., a privately owned, leading plastics compounder located in Worcester, Massachusetts, for \$36.4 million. ECM Plastics, Inc. is a producer of custom color, specialty additive masterbatch and niche engineered plastics products with a strong presence in the personal care and cosmetics product markets.

Announced Agreement with Network Polymers, Inc. On May 28, 2013, the Company announced that it had reached an agreement in principle to purchase Network Polymers, Inc., a U.S. niche engineered plastics compounding business, for approximately \$50 million. The transaction is expected to close in early fiscal 2014.

Masterbatch Reorganization. In August 2012, the Company conducted an extensive evaluation of its three regional segments and specifically focused on each region's masterbatch product family. As a result of this evaluation, the Company realigned its regional masterbatch product family to put greater focus on its growth opportunities. Therefore, within each regional segment, effective September 1, 2012, the masterbatch product family was split into two separate product families, Custom Performance Colors and Masterbatch Solutions.

Fiscal 2013 Restructuring. In November 2012, the Company finalized the sale of its Bellevue, Ohio facility to continue its focus on higher-value technical products. This sale marked the completion of a transformation away from legacy plants that primarily served the volume automotive market. During the first nine months of fiscal 2013, the Company executed restructuring plans in the EMEA region in response to the current economic climate.

Furthermore, in the second quarter of fiscal 2013, the Company initiated restructuring activities to consolidate its existing two leased manufacturing facilities in Brazil into a single new leased manufacturing facility also in Brazil.

Global ROIC Initiative. During the first quarter of fiscal 2013, the Company introduced a global initiative to improve return on invested capital ("ROIC") by better understanding the components of ROIC through trainings and simulations. This will enable our associates to drive increased returns in their everyday responsibilities.

Global ERP Project. In July 2012, the Company announced it would be converging all of its information systems to a common Enterprise Resource Planning ("ERP") system which will provide for common business practices and enhanced global operational visibility. This ERP conversion project will be conducted in a phased approach which will take several years to complete. The Company is currently in the process mapping and design stage.

8.

Marketing Initiatives. During fiscal 2013, the Company continues to align its markets with megatrends, high value segments and adjacent markets. The Company is also upgrading its global strategic pricing tools to ensure the Company is obtaining maximum value for both its products and services. In the third quarter of fiscal 2013, the Company held its second annual internal global Growth Summit meeting in order to promote cross regional and business unit collaboration.

Offer To Acquire Ferro Corporation. On March 4, 2013, the Company announced that it made a proposal to the Board of Directors of Ferro Corporation ("Ferro") to acquire all of the outstanding shares of Ferro common stock. Ferro rejected the offer on February 26, 2013 and the offer expired.

Sale of Australia Business. On May 28, 2013, the Company announced plans to sell its rotational compounding business in Brisbane, Australia. The Company expects to complete the transaction within twelve months. The operating results for this business were previously included in the Company's specialty powders product family within the APAC segment and are now reported as discontinued operations for all periods presented.

EMEA net sales for the three months ended May 31, 2013 were \$362.8 million, a decrease of \$21.0 million, or 5.5%, compared with the prior-year period. Foreign currency translation negatively impacted net sales by \$2.9 million. Price per pound decreased 3.7% to \$1.195 per pound across nearly all product families as a result of increased competition, primarily in the distribution services and specialty powders product families. As customer demand decreased, volume declined 1.8% in all product families with the exception of the custom performance colors and masterbatch solutions product families.

EMEA gross profit was \$47.7 million for the three months ended May 31, 2013, a decrease of \$1.9 million compared with the same prior-year period. Foreign currency translation negatively impacted gross profit by \$0.4 million. The effective use of substitute raw materials in the custom performance colors and masterbatch solutions product families was more than offset by the challenging economic environment in Europe.

EMEA operating income for the three months ended May 31, 2013 was \$20.2 million, a decrease of \$3.2 million compared with the same period last year. Foreign currency translation negatively impacted EMEA operating income by \$0.2 million. The decrease in operating income was primarily due to the aforementioned decrease in gross profit and a \$1.3 million increase in selling, general and administrative ("SG&A") expenses. The increase in SG&A expense was primarily driven by pension expense of \$0.5 million, and non-restructuring severance charges of \$0.3 million.

Nine months ended May 31, 2013

EMEA net sales for the nine months ended May 31, 2013 were \$1,056.5 million, a decrease of \$12.8 million, or 1.2%, compared with the prior-year period. Excluding the negative impact of foreign currency translation of \$13.5 million, net sales increased \$0.7 million which includes \$15.8 million and 4.9 million pounds in incremental net sales and volume, respectively, from the fiscal 2012 acquisition of Elian. The decrease in price per pound was primarily in the masterbatch solutions and engineered plastics product families. Volume declined 0.8% primarily in the specialty powders and engineered plastics product families as customer demand decreased.

EMEA gross profit was \$130.7 million for the nine months ended May 31, 2013, a decrease of \$3.2 million compared with the same nine-month period last year. The positive contribution of the Elian acquisition was more than offset by the challenging economic environment in Europe and the adverse impact of foreign currency translation of \$1.7 million.

EMEA operating income for the nine months ended May 31, 2013 was \$47.9 million, a decrease of \$10.1 million compared with the same nine-month period last year. The decrease in operating income was primarily due to the aforementioned decrease in gross profit and a \$6.9 million increase in SG&A expenses. The increase in SG&A expense was primarily driven by increased compensation and benefits expense of \$2.4 million, excluding Elian, which includes increased pension expense and annual government regulated compensation increases. SG&A expense was also impacted by increased bad debt expense of \$1.3 million, increased information technology expense of \$0.7 million, and incremental expenses from Elian. These expenses were partially offset by the successful restructuring initiatives and a favorable impact of \$1.0 million from foreign currency translation. Operating income per pound decreased 16.7% to \$0.055 per pound primarily due to the aforementioned economic environment in Europe and increased SG&A expenses, while foreign currency translation adversely impacted EMEA operating income by \$0.7 million.

Three months ended May 31, 2013

Net sales for the Americas for the three months ended May 31, 2013 were \$152.5 million, an increase of \$5.5 million or 3.7% compared with the prior-year period. Incremental net sales and volume from the ECM Plastics, Inc.

acquisition were \$9.8 million and 8.5 million pounds during the third quarter of fiscal 2013, respectively. Excluding the impact of ECM Plastics, Inc., net sales declined primarily due to reduced volume in the engineered plastics and masterbatch solutions product families. Foreign currency translation favorably impacted net sales by \$0.6 million.

Gross profit for the Americas was \$19.8 million for the three months ended May 31, 2013, a decrease of \$1.5 million from the comparable period last year. The decrease in gross profit of 6.9% was primarily due to the unfavorable mix in the specialty powders product family combined with increased costs in Mexico due to anticipated improvement in local market demand that did not materialize. Additionally, the Company increased capacity in Mexico to serve the shortfall in production caused by the Brazilian facility consolidation. This was partially offset by the positive contribution of ECM Plastics, Inc.

Operating income for the Americas for the three months ended May 31, 2013 was \$5.3 million compared with \$7.9 million last year. Operating income decreased primarily due to the previously discussed decrease in gross profit and \$1.1 million increase in SG&A expenses. The increase in SG&A expenses was primarily due to bad debt expense of \$0.4 million during the third quarter of fiscal 2013 and incremental expenses from ECM Plastics, Inc. of \$1.0 million,

partially offset by the successful restructuring initiatives and cost control efforts.

Net sales for the Americas for the nine months ended May 31, 2013 were \$446.3 million, an increase of \$41.6 million or 10.3% compared with the prior-year period. Incremental net sales and volume from the ECM Plastics, Inc. acquisition were \$27.7 million and 24.7 million pounds during the nine months ended May 31, 2013, respectively. Excluding the impact of ECM Plastics, Inc., net sales increased \$13.9 million across all product families. Foreign currency translation negatively impacted net sales by \$0.7 million.

Gross profit for the Americas was \$59.3 million for the nine months ended May 31, 2013, a decrease of \$1.5 million from the comparable period last year. The positive contribution of volume improvement and the ECM Plastics, Inc. acquisition was offset by an unfavorable mix in the specialty powders product family and increased costs in Mexico as previously discussed.

Operating income for the Americas for the nine months ended May 31, 2013 was \$19.0 million compared with \$19.3 million last year. Operating income decreased as a result of the aforementioned decrease in gross profit, offset primarily by the favorable impact of \$0.5 million from foreign currency translation and a \$1.2 million decrease in SG&A expenses. The decrease in SG&A expenses was primarily due to successful restructuring initiatives and cost control efforts combined with reduced incentive compensation expense of \$0.7 million, partially offset by increased bad debt expense of \$0.4 million and the incremental expenses from ECM Plastics, Inc.

Three months ended May 31, 2013

Net sales for APAC for the three months ended May 31, 2013 were \$33.2 million, an increase of \$1.0 million compared with the same prior-year period primarily due to increased price per pound across all product families, which more than offset the decreased volume in the masterbatch solutions product family.

Gross profit for APAC for the three months ended May 31, 2013 was \$5.7 million, an increase of 8.2% compared with the prior-year period. The region was able to increase its gross profit levels primarily in the engineered plastics product family.

APAC operating income for the three months ended May 31, 2013 was \$2.7 million compared with \$3.0 million last year. The decrease in profitability was principally due to an increase of \$0.7 million in SG&A expenses mainly related to the establishment of the APAC regional office in Hong Kong and the new manufacturing facility in India, which

became operational during the third quarter of fiscal 2013.

Net sales for APAC for the nine months ended May 31, 2013 were \$93.3 million, an increase of \$3.7 million compared with the same prior-year period primarily due to increased price per pound across nearly all product families combined with increased volume in the engineered plastics product family, partially offset by decreased volume in the masterbatch solutions product family. Foreign currency translation favorably impacted net sales by \$0.7 million.

Gross profit for APAC for the nine months ended May 31, 2013 was \$16.2 million, an increase of 9.1% compared with last year. The increase in gross profit was primarily due to the 9.9% increase in price per pound combined with a continued focus on products with higher technical requirements.

APAC operating income for the nine months ended May 31, 2013 was \$8.2 million, which was consistent with the same nine-month period last year. The relatively consistent profitability was principally due to the increase in gross profit offset by an increase of \$1.4 million in SG&A expenses mainly related to the establishment of the APAC regional office in Hong Kong and the new manufacturing facility in India, which became operational during the third quarter of fiscal 2013.

Three months ended May 31, 2013

The decrease of \$14.5 million in consolidated net sales for the three months ended May 31, 2013 compared with the prior-year period was primarily a result of the aforementioned challenging economic environment in Europe, partially offset by the incremental net sales and volume from the ECM Plastics, Inc. acquisition of \$9.8 million and 8.5 million pounds, respectively. Net sales were negatively impacted by the 2.2% decrease in price per pound and a \$1.9 million negative impact of foreign currency translation.

The Company's SG&A expenses increased \$3.0 million for the three months ended May 31, 2013 compared with the same period in the prior year, excluding acquisition costs of \$0.8 million and restructuring related costs of \$1.3 million for the three months ended May 31, 2013 and \$0.2 million of acquisition costs for the three months ended

May 31, 2012. The increase was primarily attributable to an incremental \$1.0 million from recent acquisitions, higher bad debt expense of \$0.6 million and an increase in pension expense of \$0.5 million.

Operating income decreased \$6.6 million for the three months ended May 31, 2013 compared to the same prior year period. Total operating income, before certain items, for the three months ended May 31, 2013 was \$22.1 million, a decrease of \$5.9 million compared with last year. The decrease in both operating income and total operating income, before certain items, was primarily due to the aforementioned decrease in segment gross profit and increase in SG&A expense.

Nine months ended May 31, 2013

The increase of \$32.5 million in consolidated net sales for the nine months ended May 31, 2013 compared with the prior-year period was primarily a result of incremental net sales and volume from the Elian and ECM Plastics, Inc. acquisitions of \$43.5 million and 29.6 million pounds, respectively. Net sales were negatively impacted by the \$13.5 million unfavorable impact of foreign currency translation.

The Company's SG&A expenses increased \$8.1 million for the nine months ended May 31, 2013 compared with the same period in the prior year, excluding acquisition costs of \$1.8 million and restructuring related costs of \$1.3 million for the nine months ended May 31, 2013 and \$1.1 million of acquisition costs for the nine months ended May 31, 2012. The increase was primarily attributable to an incremental impact of \$5.1 million from recent acquisitions, bad debt expense of \$1.7 million and an increase in pension expense of \$1.3 million. In addition, the Company invested in global marketing related initiatives, strategic planning in the APAC region, the establishment of the APAC regional headquarters in Hong Kong and the global ERP project which was partially offset by savings from successful restructuring initiatives and cost control efforts. Foreign currency translation favorably impacted SG&A expense by \$1.5 million.

Operating income decreased \$12.3 million for the nine months ended May 31, 2013 compared to the same prior year period. Total operating income, before certain items, for the nine months ended May 31, 2013 was \$55.4 million, a decrease of \$11.5 million compared with last year. The decrease in both operating income and total operating income, before certain items, was primarily due to the aforementioned decrease in segment gross profit and increase in SG&A expense.

Additional consolidated results

The Company recorded asset impairment charges of \$0.5 million during the first quarter of fiscal 2013 primarily related to the write-down to estimated fair value of the Company's facility in Oyonnax, France and \$1.1 million during the third quarter of fiscal 2013 primarily related to the write-down to estimated fair value of the Company's facility in Verolanuova, Italy. Additionally, in the third quarter of fiscal 2012, the Company recorded a pretax impairment charge of \$2.4 million related to the aforementioned Verolanuova, Italy facility. For further discussion refer to Note 12 to the consolidated financial statements in this Quarterly Report.

Interest expense, net of interest income, increased \$0.2 million and decreased \$0.7 million for the three and nine months ended May 31, 2013, respectively, as compared with the same periods in the prior year.

Foreign currency transaction gains or losses represent changes in the value of currencies in major areas where the Company operates. The Company experienced a foreign currency loss of \$0.1 million and gain of \$0.2 million for the

three months ended May 31, 2013 and 2012, respectively. Additionally, the Company experienced foreign currency transaction losses of \$0.7 million and \$0.4 million for the nine months ended May 31, 2013 and 2012, respectively. Generally, the foreign currency transaction gains or losses relate to the changes in the value of the U.S. dollar compared with the Euro and other local currencies throughout the Americas, EMEA, and APAC regions, and also changes between the Euro and other non-Euro European currencies. The Company enters into foreign exchange forward contracts to reduce the impact of changes in foreign exchange rates on the consolidated statements of operations. These contracts reduce exposure to currency movements affecting the translation of foreign currency

denominated assets and liabilities primarily related to trade receivables and payables. Any gains or losses associated with these contracts, as well as the offsetting gains or losses from the underlying assets or liabilities, are recognized on the foreign currency transaction line in the consolidated statements of operations. There were no foreign exchange forward contracts designated as hedging instruments as of May 31, 2013 and August 31, 2012.

Other income for the three months ended May 31, 2013 and 2012 was minimal compared with other income of \$0.4 million and \$1.2 million for the nine months ended May 31, 2013 and 2012, respectively. There were no individually significant transactions during the nine months ended May 31, 2013 and May 31, 2012.

Noncontrolling interests represent a 49% equity position of Alta Plastica S.A. in an Argentinean venture with the Company and a 35% equity position of P.T. Prima Polycon Indah in an Indonesian joint venture with the Company. Effective December 31, 2011, the Company's partnership with Mitsubishi Chemical MKV Company, which held a 30% equity position, was dissolved by a vote of the partners.

Net income attributable to the Company's stockholders was \$5.2 million and \$17.0 million for the three months ended May 31, 2013 and 2012, respectively. Net income attributable to the Company's stockholders was \$28.8 million and \$39.7 million for the nine months ended May 31, 2013 and 2012, respectively. Foreign currency translation had a minimal impact on net income for the three months ended May 31, 2013 and a negative impact of \$0.1 million on net income for the nine months ended May 31, 2013.

Product Families

Globally, the Company operates primarily in five product families: (1) custom performance colors, (2) masterbatch solutions, (3) engineered plastics, (4) specialty powders and (5) distribution services. The amount and percentage of consolidated net sales for these product families are as follows:

Capacity

The Company's practical capacity is not based on a theoretical 24-hour, seven-day operation, rather it is determined as the production level at which the manufacturing facilities can operate with an acceptable degree of efficiency, taking into consideration factors such as longer term customer demand, permanent staffing levels, operating shifts, holidays, scheduled maintenance and mix of product. Capacity utilization is calculated by dividing actual production pounds by practical capacity at each plant. A comparison of capacity utilization levels is as follows:

	Three months ended May 31,		Nine months ended May 31,		
	2013	2012	2013	2012	
EMEA	81	% 87	% 77	% 81	%
Americas	67	% 70	% 65	% 67	%
APAC	66	% 89	% 69	% 82	%
Worldwide	74	% 80	% 71	% 75	%

During the third quarter of fiscal 2013, the Company's new facility in India became operational. Additionally, the Company's APAC segment experienced lower capacity utilization as additional manufacturing capacity was added to existing facilities to meet anticipated demand in the region.

Restructuring

Fiscal 2013 Restructuring Plans

Brazil Consolidation Plan

In the second quarter of fiscal 2013, the Company initiated restructuring activities to consolidate its two existing leased manufacturing facilities in the State of Sao Paulo, Brazil into a single new leased manufacturing facility in Brazil. Manufacturing activities at the existing two facilities will be relocated by the end of the first quarter of fiscal 2014 to the new facility. The Company offered eligible associates the ability to transfer from the two existing manufacturing facilities to the new facility. As a result of this consolidation, the Company reduced headcount in Brazil by approximately 55 in the third quarter of fiscal 2013. Partially offsetting this reduction of headcount will be the addition of approximately 35 associates at the Company's new Brazil manufacturing facility including associate transfers and new hires. During the three and nine months ended May 31, 2013, the Company recorded \$0.3 million and \$0.6 million of pretax employee-related restructuring costs, respectively. Additionally, the Company recorded \$0.3 million and \$0.6 million of accelerated depreciation included in cost of sales during the three and nine months ended May 31, 2013, respectively. The Company expects to recognize additional pretax employee-related and other cash charges of approximately \$1.0 million during the remainder of fiscal 2013. Cash payments associated with this plan are expected to occur through fiscal 2014 as the plan is completed.

EMEA Reorganization Plan

During fiscal 2013, the Company executed restructuring activities to better reflect its current business footprint and needs in the challenging economic environment in Europe. As part of this restructuring, the EMEA regional team plans to reduce headcount by approximately 50, half of the reductions occurred during the nine months ended May 31, 2013 and the remaining reductions are expected to occur in the fourth quarter of fiscal 2013. The Company recorded \$1.3 million and \$3.7 million of pretax employee-related restructuring costs during the three and nine months ended May 31, 2013, respectively. As of May 31, 2013, the Company has a balance of \$1.4 million accrued for employee-related costs related to this plan. The Company expects to recognize additional pretax employee-related cash charges of approximately \$2.1 million during the remainder of fiscal 2013. Cash payments associated with this plan are expected to occur through the second quarter of fiscal 2016 as the plan is completed.

Bellevue, Ohio Facility Plan

In the first quarter of fiscal 2013, the Company sold its Bellevue, Ohio facility to continue its focus on higher-value technical products. As part of this sale, the Company recorded no charges during the three months ended May 31, 2013 and \$0.3 million of pretax employee-related costs and other restructuring expenses during the nine months ended May 31, 2013. Additionally, the Company recorded \$0.4 million of accelerated depreciation associated with this plan during the first nine months of fiscal 2013. As of May 31, 2013, the Company has a balance of \$0.1 million accrued for employee-related costs related to this plan. The Company anticipates recognizing approximately \$1.0 million of other pretax restructuring expenses during the remainder of fiscal 2013 and into fiscal 2014. Cash payments associated

with this plan are expected to occur through fiscal 2014 as the plan is completed.

Income Tax

A reconciliation of the statutory U.S. federal income tax rate with the effective tax rates for the three months ended May 31, 2013 and 2012 is as follows:

	Three months ended May 31, 2013			Three months ended May 31, 2012		
	(In thousands, except for %'s)

The effective tax rates for the three months ended May 31, 2013 and 2012 are less than the U.S. statutory rate primarily because of the Company's overall foreign rate being less than the U.S. statutory rate. This favorable effect on the Company's tax rate was partially offset by no tax benefits being recognized for U.S. and certain foreign losses. The change in the effective tax rate as compared with the same period last year was driven primarily by the increase in the amount of U.S. and certain foreign losses with no tax benefits.

A reconciliation of the statutory U.S. federal income tax rate with the effective tax rates for the nine months ended May 31, 2013 and 2012 is as follows:

Table of Contents

The effective tax rate for the nine months ended May 31, 2013 is less than the U.S. statutory rate primarily because of the Company's overall foreign rate being less than the U.S. statutory rate, realization of tax benefits due to changes in valuation allowances, and resolution of uncertain tax positions in various jurisdictions. These favorable effects on the Company's tax rate were partially offset by no tax benefits being recognized for U.S. and certain foreign losses. The change in the effective tax rate as compared with the same period last year was driven primarily by the net benefit recognized due to the change in valuation allowance and the increase in the amount of U.S. and certain foreign losses with no tax benefits.

The effective tax rate for the nine months ended May 31, 2012 is less than the U.S. statutory rate primarily because of the Company's overall foreign rate being less than the U.S. statutory rate and the benefit recorded for the adjustment of valuation allowance. These favorable effects on the Company's tax rate were partially offset by no tax benefits being recognized for U.S. and certain foreign losses and establishment of uncertain tax positions.

During the second quarter of fiscal 2013, the Company established a valuation allowance against the net operating loss deferred tax asset of its Brazilian entity due to the uncertainty in the realization of this asset. The recording of the valuation allowance resulted in a non-cash charge of approximately \$2.4 million.

During the second quarter of fiscal 2013, the Company recorded a non-cash tax benefit of approximately \$9.4 million to reverse a valuation allowance against certain deferred tax assets in Germany. Due to German tax law changes enacted in the second quarter, it is now more likely than not that the interest expense carryforward deferred tax asset will be realized resulting in the valuation allowance reversal.

Goodwill

Goodwill is tested for impairment annually as of June 1 using a qualitative analysis, as well as a quantitative analysis using a combination of the income and market valuation techniques. These valuation techniques use significant estimates and assumptions that are judgmental in nature including, but not limited to, the determination of appropriate market comparables, projected future cash flows (including timing and profitability), discount rate reflecting the risk inherent in future cash flows, perpetual growth rate, and projected future economic and market conditions. If circumstances change during interim periods between annual tests that would more likely than not reduce the fair value of a reporting unit below its carrying value, the Company would test goodwill for impairment. Factors which could necessitate an interim goodwill impairment assessment include a sustained decline in the Company's stock price, prolonged negative industry or economic trends, and significant underperformance relative to expected historical or projected future operating results.

Effective September 1, 2012, the masterbatch product family was split into two separate product families, custom performance colors and masterbatch solutions. In the first quarter of fiscal 2013, the goodwill related to the Company's historical masterbatch reporting units in EMEA and the Americas, prior to this split, was allocated to the custom performance colors and masterbatch solutions reporting units in the EMEA and Americas reporting segments based on relative fair value. As of May 31, 2013, goodwill exists in four of the Company's reporting units in EMEA (custom performance colors, masterbatch solutions, specialty powders, and distribution services) and four reporting units in the Americas (custom performance colors, masterbatch solutions, specialty powders, and engineered plastics). Management concluded, based on the fiscal 2012 quantitative goodwill impairment analysis performed, that as of June 1, 2012, the fair value of the EMEA specialty powders reporting unit exceeded its carrying value by 10%. As of May 31, 2013, the Company's EMEA specialty powders reporting unit had goodwill of \$17.5 million. A change in European macroeconomic conditions, as well as future changes in the judgments, assumptions and estimates that were used in the Company's goodwill impairment testing for the EMEA specialty powders reporting unit, including the discount rate and future cash flow projections, could result in a significantly different estimate of the fair value. Generally, goodwill recorded in business combinations is more susceptible to risk of impairment soon after the acquisition primarily because the business combination is recorded at fair value based on operating plans and economic conditions present at the time of the acquisition. If operating results or economic conditions deteriorate soon after an acquisition, it could result in the impairment of the acquired goodwill.

As of May 31, 2013, the Company concluded there were no triggering events which would have required a goodwill impairment test.

Liquidity and Capital Resources

Edgar Filing: SCHULMAN A INC - Form 10-Q

Net cash provided from operations was \$52.6 million and \$34.5 million for the nine months ended May 31, 2013 and 2012, respectively. The increase of \$18.1 million in cash provided from operations was primarily due to improved working capital management, mostly in the area of accounts payable and inventory, for the nine months ended May 31, 2013 as compared to the prior year.

- 29 -

Table of Contents

The Company's cash and cash equivalents increased \$6.1 million from August 31, 2012. This increase was driven primarily by cash provided from operations coupled with increased net borrowings on revolving credit facilities of \$48 million and proceeds from the sale of assets of \$11.7 million. This was partially offset by the acquisition of ECM Plastics, Inc. for \$36.4 million in cash consideration, expenditures for capital projects of \$20.5 million, repayment of the \$30.0 million senior guaranteed notes ("Senior Notes") in the United States, and dividend payments of \$17.3 million. The Company's approximate working capital days are summarized as follows:

	May 31, 2013	August 31, 2012	May 31, 2012
Days in receivables	53	53	51
Days in inventory	53	51	51
Days in payables	49	46	43
Total working capital days	57	58	59

* Total debt less cash and cash equivalents

As of May 31, 2013, 93.1% of the Company's cash and cash equivalents were held by its foreign subsidiaries, compared to 71% as of August 31, 2012. The increase was a result of the use of cash in the U.S. for the acquisition of ECM Plastics, Inc. The majority of the foreign cash balances are associated with earnings that we have asserted are permanently reinvested and which we plan to use to support continued growth plans outside the U.S. through funding of capital expenditures, acquisitions, operating expenses or other similar cash needs of foreign operations. From time to time, we repatriate cash from foreign subsidiaries to the U.S. for normal operating needs and service outstanding debt through intercompany dividends. These dividends are typically paid out of current year earnings that we have not asserted to be permanently reinvested. The percentage of the Company's cash and cash equivalents held by foreign subsidiaries as of August 31, 2012 was impacted by an increase in the distribution of cash from current period earnings of the Company's European subsidiaries to the U.S.

Working capital, excluding cash, was \$261.7 million as of May 31, 2013, an increase of \$44.7 million from August 31, 2012. The primary reasons for the increase in working capital from August 31, 2012 included increases of \$18.2 million in accounts receivable, \$25.5 million in inventory, and \$13.7 million in prepaid expenses and other current assets as well as the repayment of the \$30.0 million Senior Notes in the United States, offset by increases in accounts payable and other accrued liabilities of \$32.1 million and \$10.3 million, respectively. The increase in prepaid expenses and other current assets as well as other accrued liabilities include the reclassification of assets and liabilities held for sale related to discontinued operations. The translation effect of foreign currencies, primarily the Euro, increased accounts receivable by \$4.4 million, inventory by \$4.0 million and accounts payable by \$4.4 million. The acquisition of ECM Plastics, Inc. contributed \$5.6 million, \$6.8 million, and \$2.5 million to the increases in accounts receivable, inventory and accounts payable, respectively. Inventory was impacted as a result of increased tonnage to support the increased sales volume during the quarter. Accounts payable increased primarily as a result of actions taken to extend vendor terms and the increase in inventory.

Capital expenditures for the nine months ended May 31, 2013 were \$20.5 million compared with \$27.5 million last year. Capital expenditures for fiscal 2013 primarily related to the regular and ongoing investment in the Company's manufacturing facilities.

In the second quarter of fiscal 2011, the Company and certain of its wholly-owned subsidiaries entered into a Credit Agreement which provides for an aggregate revolving loan facility (the "Revolving Facility") not to exceed \$300 million. For further discussion regarding the Company's Revolving Facility, refer to Note 5 in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2012. As of May 31, 2013, the Company was not in violation of any of its covenants relating to the Revolving Facility. The Company was well within compliance with these covenants and does not believe a subsequent covenant violation is

reasonably possible as of May 31, 2013. The Revolving Facility matures on January 7, 2016 and contains an accordion feature that would allow the Company to increase its total debt commitment by \$150 million with the same original terms and conditions, pending required approval and funding. As of May 31, 2013, the amount available under the Revolving Facility was reduced by outstanding letters of credit of \$1.7 million and borrowings of \$165 million which is included in long-term debt in the Company's consolidated balance sheet. On March 1, 2013, the Company repaid its \$30.0 million of Senior Notes in the United States upon maturity with existing capacity under the Revolving Facility.

On March 1, 2006, the Company issued Senior Notes in the private placement market consisting of the following: \$30.0 million of Senior Notes in the United States, maturing on March 1, 2013, with a variable interest rate of LIBOR plus 80 bps ("Dollar Notes"). The Dollar Notes are classified as short-term debt in the Company's consolidated balance sheet as of August 31, 2012. As previously noted, the Company repaid its Dollar Notes upon maturity with existing capacity under the Revolving Facility.

€50.3 million of Senior Notes in Germany, maturing on March 1, 2016, with a fixed interest rate of 4.485% ("Euro Notes"). The carrying value of the Euro Notes approximate €45.3 million, or \$58.9 million, as of May 31, 2013. Repayment of the Euro Notes prior to maturity would cost approximately \$7.9 million in early termination fees as of May 31, 2013.

The Senior Notes are guaranteed by the Company's wholly-owned domestic subsidiaries and contain covenants substantially identical to those in the \$300 million Revolving Facility. As of May 31, 2013, the Company was not in violation of any of its covenants relating to the Senior Notes. The Company was well within compliance with these covenants and does not believe a subsequent covenant violation is reasonably possible as of May 31, 2013.

Both the Revolving Facility and the Senior Notes are supported by guaranties of certain material domestic subsidiaries and pledges of up to 65% of the capital stock of certain of the Company's directly owned foreign subsidiaries.

Below summarizes the Company's available funds as of May 31, 2013 and August 31, 2012:

	May 31, 2013	August 31, 2012
	(In thousands)	
Existing capacity:		
Credit Facility	\$ 300,000	\$ 300,000
Foreign uncollateralized short-term lines of credit	57,186	48,098
Total gross available funds from credit lines and notes	\$ 357,186	\$ 348,098
Availability:		
Credit Facility	\$ 133,259	\$ 181,299
Foreign uncollateralized short-term lines of credit	51,017	43,752
Total net available funds from credit lines and notes	\$ 184,276	\$ 225,051

Total net available funds from credit lines and notes represents the total gross available funds from credit lines and notes less outstanding borrowings of \$171.2 million and \$121.3 million as of May 31, 2013 and August 31, 2012, respectively, and issued letters of credit of \$1.7 million as of May 31, 2013 and August 31, 2012.

The Company was in a net debt position of \$98.1 million and \$85.8 million as of May 31, 2013 and August 31, 2012, respectively. The change of \$12.3 million was a result of an increase in total debt of \$18.4 million due to the acquisition of ECM Plastics, Inc., dividend payments, share repurchases, working capital needs, and capital expenditures, partially offset by an increase in cash and cash equivalents of \$6.1 million.

During the three and nine months ended May 31, 2013, the Company declared and paid quarterly cash dividends of \$0.195 and \$0.585 per common share, respectively. The total amount of these dividends was \$5.6 million and \$17.3 million, respectively. Cash flow has been sufficient to fund the payment of these dividends.

On April 1, 2011, the Board of Directors approved a three-year share repurchase program under which the Company is authorized to repurchase up to \$100 million of its common stock in the open market or in privately negotiated transactions, subject to market and other conditions ("2011 Repurchase Program"). The 2011 Repurchase Program replaces the Company's previous share repurchase program which was approved in fiscal 2008.

As part of the 2011 Repurchase Program, on May 12, 2011, the Company entered into a one-year \$30 million share repurchase plan established under Rule 10b5-1 of the Securities Exchange Act of 1934, as amended (the “Repurchase Plan”). Under the

Repurchase Plan, the Company's designated broker repurchased 1,218,429 shares of its common stock under the 2011 Repurchase Program in the first quarter of fiscal 2012 at an average price of \$17.60 per share. As of October 10, 2011, the Company fulfilled the Repurchase Plan by repurchasing a cumulative 1,603,979 shares of its common stock in fiscal 2011 and the first quarter of fiscal 2012 at an average price of \$18.70 per share.

On November 28, 2011, the Company entered into a new 18-month \$30 million share repurchase plan established under Rule 10b5-1 of the Securities Exchange Act of 1934, as amended, and repurchases under this plan are subject to specific parameters and contain certain price and volume constraints. In the fourth quarter of fiscal 2012, the Company increased this share repurchase plan to \$70 million, the remaining amount under the 2011 Repurchase Program, and also repurchased 244,597 shares of common stock at an average price of \$21.56 per share. The Company repurchased 23,407 shares of common stock during the third quarter of fiscal 2013 at an average price of \$25.75 per share. For the nine months ended May 31, 2013, the Company repurchased 43,496 shares of common stock at an average price of \$24.86 per share. Shares valued at \$63.6 million remained authorized for repurchase as of May 31, 2013.

The Company has foreign currency exposures primarily related to the Euro, British pound sterling, Polish zloty, Mexican peso and Brazilian real, among others. The assets and liabilities of the Company's foreign subsidiaries are translated into U.S. dollars using current exchange rates. Income statement items are translated at average exchange rates prevailing during the period. The resulting translation adjustments are recorded in the accumulated other comprehensive income (loss) account in stockholders' equity. A significant portion of the Company's operations uses the Euro as its functional currency. The change in the value of the U.S. dollar during the nine months ended May 31, 2013 increased the accumulated other comprehensive income (loss) account by \$3.1 million which was primarily the result of a 3.1% increase in the value of the Euro from 1.261 Euros to 1 U.S. dollar as of August 31, 2012 to 1.3006 as of May 31, 2013.

Cash flow from operations, borrowing capacity under the credit facilities and current cash and cash equivalents are expected to provide sufficient liquidity to maintain the Company's current operations and capital expenditure requirements, pay dividends, repurchase shares, pursue acquisitions and service outstanding debt.

Contractual Obligations

Excluding cash paid of \$36.4 million for the acquisition of ECM Plastics, Inc. and \$1.8 million for the settlement of the Company's uncertain tax position, as of May 31, 2013 there were no material changes to the Company's future contractual obligations as previously reported in the Company's 2012 Annual Report on Form 10-K for the fiscal year ended August 31, 2012.

The Company's outstanding commercial commitments as of May 31, 2013 are not material to the Company's financial position, liquidity or results of operations.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements as of May 31, 2013.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. Management bases its estimates on historical experience and other factors it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates. The Company's critical accounting policies are the same as discussed in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2012.

Accounting Pronouncements

For a discussion of accounting pronouncements, see Note 15 to the consolidated financial statements in this Quarterly Report.

Cautionary Statements

A number of the matters discussed in this document that are not historical or current facts deal with potential future circumstances and developments and may constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by the fact that they do not relate strictly to historic or current facts and relate to future events and expectations. Forward-looking statements contain such words as “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “believe,” and other words and terms of similar meaning in connection with any discussion of future operating or financial performance. Forward-looking statements are based on management’s current expectations and include known and unknown risks, uncertainties and other factors, many of which management is unable to predict or control, that may cause actual results, performance or achievements to differ materially from those expressed or implied in the forward-looking statements. Important factors that could cause actual results to differ materially from those suggested by these forward-looking statements, and that could adversely affect the Company’s future financial performance, include, but are not limited to, the following:

- worldwide and regional economic, business and political conditions, including continuing economic uncertainties in some or all of the Company’s major product markets or countries where the Company has operations;
- the effectiveness of the Company’s efforts to improve operating margins through sales growth, price increases, productivity gains, and improved purchasing techniques;
- competitive factors, including intense price competition;
 - fluctuations in the value of currencies in major areas where the Company operates;
- volatility of prices and availability of the supply of energy and raw materials that are critical to the manufacture of the Company’s products, particularly plastic resins derived from oil and natural gas;
- changes in customer demand and requirements;
- effectiveness of the Company to achieve the level of cost savings, productivity improvements, growth and other benefits anticipated from acquisitions, joint ventures and restructuring initiatives;
- escalation in the cost of providing employee health care;
- uncertainties regarding the resolution of pending and future litigation and other claims;
- the performance of the global automotive market; and
- further adverse changes in economic or industry conditions, including global supply and demand conditions and prices for products.

The risks and uncertainties identified above are not the only risks the Company faces. Additional risk factors that could affect the Company’s performance are set forth in the Company’s Annual Report on Form 10-K for the fiscal year ended August 31, 2012. In addition, risks and uncertainties not presently known to the Company or that it believes to be immaterial also may adversely affect the Company. Should any known or unknown risks or uncertainties develop into actual events, or underlying assumptions prove inaccurate, these developments could have material adverse effects on the Company’s business, financial condition and results of operations.

Item 3 – Quantitative and Qualitative Disclosure about Market Risk

In the ordinary course of business, the Company is subject to interest rate, foreign currency, and commodity risks. Information related to these risks and management of these exposures is included in Part II, ITEM 7A, QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK, in the Company’s Annual Report on Form 10-K for the fiscal year ended August 31, 2012, filed with the Securities and Exchange Commission on October 24, 2012. Exposures to market risks have not changed materially since August 31, 2012.

Item 4 – Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company’s reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Commission’s rules and forms and that such information is accumulated and communicated to the Company’s management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no

matter how well designed and operated, can provide only reasonable assurance

of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

The Company carries out a variety of on-going procedures, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, to evaluate the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at a reasonable assurance level as of the end of the period covered by this report.

There has been no change in the Company's internal controls over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.

PART II – OTHER INFORMATION

Items 1, 3, 4 and 5 are not applicable or the answer to such items is negative; therefore, the items have been omitted and no reference is required in this Quarterly Report.

Item 1A – Risk Factors

There are certain risks and uncertainties in the Company’s business that could cause our actual results to differ materially from those anticipated. In “ITEM 1A. RISK FACTORS” of Part I of the Company’s Annual Report on Form 10-K for the fiscal year ended August 31, 2012, the Company included a detailed discussion of its risk factors. There are no changes from the risk factors previously disclosed.

Item 2 – Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

On April 1, 2011, the Board of Directors approved a three-year share repurchase program under which the Company is authorized to repurchase up to \$100 million of its common stock in the open market or in privately negotiated transactions, subject to market and other conditions (“2011 Repurchase Program”). The 2011 Repurchase Program replaces the Company’s previous share repurchase program which was approved in fiscal 2008.

As part of the 2011 Repurchase Program, on May 12, 2011, the Company entered into a one-year \$30 million share repurchase plan established under Rule 10b5-1 of the Securities Exchange Act of 1934, as amended (the “Repurchase Plan”). Under the Repurchase Plan, the Company’s designated broker repurchased 1,218,429 shares of its common stock under the 2011 Repurchase Program in the first quarter of fiscal 2012 at an average price of \$17.60 per share. As of October 10, 2011, the Company fulfilled the Repurchase Plan by repurchasing a cumulative 1,603,979 shares of its common stock in fiscal 2011 and the first quarter of fiscal 2012 at an average price of \$18.70 per share.

On November 28, 2011, the Company entered into a new 18-month \$30 million share repurchase plan established under Rule 10b5-1 of the Securities Exchange Act of 1934, as amended, and repurchases under this plan are subject to specific parameters and contain certain price and volume constraints. In the fourth quarter of fiscal 2012, the Company increased this share repurchase plan to \$70 million, the remaining amount under the 2011 Repurchase Program, and also repurchased 244,597 shares of common stock at an average price of \$21.56 per share. The Company repurchased 23,407 shares of common stock during the third quarter of fiscal 2013 at an average price of \$25.75 per share. For the nine months ended May 31, 2013, the Company repurchased 43,496 shares of common stock at an average price of \$24.86 per share. Shares valued at \$63.6 million remained authorized for repurchase as of May 31, 2013.

The Company's purchases of its common stock under the 2011 Repurchase Program during the third quarter of fiscal 2013 were as follows:

	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of a publicly announced plans or programs	Maximum dollar value of shares that may yet be purchased under the plans or programs
