Investments in funds involve risk. Certain investors' income may be subject to the federal Alternative Minimum Tax (AMT), and federal, state and local taxes may also apply. The fund invests in individual bonds whose yields and market values fluctuate, so that your investment may be worth more or less than its original cost. Bond investments are subject to interest-rate risk such that, when interest rates rise, the prices of the bonds, and thus the value of the bond investment, can decline and the investor can lose principal value. Leverage results in additional risks and can magnify the effect of any losses. All of these factors may result in greater share price volatility. Closed-end funds, unlike open-end funds, are not continuously offered. There is an initial public offering and, once issued, shares of closed-end funds are sold in the open market through a stock exchange. Shares of closed-end funds frequently trade at a discount to net asset value. The price of the fund's shares is determined by a number of factors, several of which are beyond the control of the fund. Therefore, the fund cannot predict whether its shares will trade at, below or above net asset value.

DWS Investments is part of Deutsche Bank's Asset Management division and, within the US, represents the retail asset management activities of Deutsche Bank AG, Deutsche Bank Trust Company Americas, Deutsche Investment Management Americas Inc. and DWS Trust Company.

Performance Summary May 31, 2009

Edgar Filing: DWS STRATEGIC MUNICIPAL INCOME TRUST - Form N-CSRS

Performance is historical, assumes reinvestment of all dividend and capital gain distributions, and does not guarantee future results. Investment return and principal value fluctuate with changing market conditions so that, when sold, shares may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Please visit www.dws-investments.com for the Fund's most recent month-end performance.

Fund specific data and performance are provided for informational purposes only and are not intended for trading purposes.

Returns and rankings based on net asset value during the 1-year, 3-year, 5-year and 10-year periods shown reflect fee reductions. Without these fee reductions, returns and rankings would have been lower.

Total returns shown for periods less than one year are not annualized.

Net Asset Value and Market Price		
	As of 5/31/09	As of 11/30/08
Net Asset Value	\$ 11.08	\$ 9.66
Market Price	\$ 10.80	\$ 7.80

Prices and net asset value fluctuate and are not guaranteed.

^(a) Total return based on net asset value reflects changes in the Fund's net asset value during each period. Total return based on market price reflects changes in market value. Each figure assumes that dividend and capital gain distributions, if any, were reinvested. These figures will differ depending upon the level of any discount from or premium to net asset value at which the Fund's shares traded during the period.

^(b) The Barclays Capital Municipal Bond Index is an unmanaged, unleveraged market-value-weighted measure of municipal bonds issued across the United States. Index issues have a credit rating of at least Baa and a maturity of at least two years. Index returns, unlike Fund returns, do not reflect any fees or expenses. It is not possible to invest directly into an index.

^(c) The Lipper Closed-End High Yield Municipal Debt Funds Category includes funds that invest at least 50% of their assets in lower-rated municipal debt issues. Lipper figures represent the average of the total returns based on net asset value reported by all of the closed-end funds designated by Lipper Inc. as falling into the Closed-End High Yield Municipal Debt Funds Category. Category returns assume reinvestment of all distributions. It is not possible to invest directly into a Lipper category.

Distribution Information	
Six Months as of 5/31/09:	
Income Dividends (common shareholders)	\$.42
May Income Dividend (common shareholders)	\$.07
Current Annualized Distribution Rate (Based on Net Asset Value) as of 5/31/09 ⁺	7.58%
Current Annualized Distribution Rate (Based on Market Price) as of 5/31/09 ⁺	7.78%
Tax Equivalent Distribution Rate (Based on Net Asset Value) as of 5/31/09 ⁺	11.66%
Tax Equivalent Distribution Rate (Based on Market Price) as of 5/31/09 ⁺	11.97%

⁺ Current annualized distribution rate is the latest monthly dividend shown as an annualized percentage of net asset value/market price on May 31, 2009. Distribution rate simply measures the level of dividends and is not a complete measure of performance. Tax equivalent distribution rate is based on the Fund's distribution rate and a marginal income tax rate of 35%. Distribution rates are historical, not guaranteed, and will fluctuate.

The quality ratings represent the lower of Moody's Investors Service, Inc. ("Moody's") or Standard & Poor's Corporation ("S&P") credit ratings. The ratings of Moody's and S&P represent their opinions as to the quality of the securities they rate. Ratings are relative and subjective and are not absolute standards of quality. The Fund's credit quality does not remove market risk.

For more complete details about the Fund's investment portfolio, see page 7. A quarterly Fact Sheet is available upon request. A complete list of the Fund's portfolio holdings is posted as of the month end on www.dws-investments.com on or about the 15th day of the following month. More frequent posting of portfolio holdings information may be made from time to time on www.dws-investments.com. Please see the Additional Information section for contact information.

Following the Fund's fiscal first and third quarter-end, a complete portfolio holdings listing is filed with the SEC on Form N-Q. The form will be available on the SEC's Web site at www.sec.gov, and it also may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the SEC's Public Reference Room may be obtained by calling (800) SEC-0330.

* Non-income producing security. In the case of a bond, generally denotes that the issuer has defaulted on the payment of principal or interest. The following table represents bonds that are in default:

Security	Coupon	Maturity Date	Principal Amount (\$)	Acquisition Cost (\$)	Value (\$)
Austin, TX, Austin-Bergstrom Landhost Enterprises, Inc., Airport Hotel Project, Series A	6.75%	4/1/2027	1,960,000	1,960,000	1,349,362

** Variable rate demand notes are securities whose interest rates are reset periodically at market levels. These securities are often payable on demand and are shown at their current rates as of May 31, 2009.

+ The cost for federal income tax purposes was \$203,443,444. At May 31, 2009, net unrealized depreciation for all securities based on tax cost was \$2,694,415. This consisted of aggregate gross unrealized appreciation for all securities in which there was an excess of value over tax cost of \$11,486,875 and aggregate gross unrealized depreciation for all securities in which there was an excess of tax cost over value of \$14,181,290.

(a) When-issued security.

(b) Bond is insured by one of these companies:

Insurance Coverage	As a % of Total Investment Portfolio
Ambac Financial Group, Inc.	1.8
Assured Guaranty Corp.	0.7
Financial Guaranty Insurance Co.	9.4
Financial Security Assurance, Inc.	2.9
Radian	0.2

Many insurers who have traditionally guaranteed payment of municipal issues have been downgraded by the major rating agencies. As a result, most insured issues are now trading on the basis of the underlying credits.

(c) Partial interest paying security. The rate shown represents 50% of the original coupon rate.

(d) Securities represent the underlying municipal obligations of inverse floating rate obligations held by the Fund.

(e) Security forms part of the below tender option bond trust. Principal Amount and Value shown take into account the leverage factor.

144A: Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.

Edgar Filing: DWS STRATEGIC MUNICIPAL INCOME TRUST - Form N-CSRS

AMT: Subject to alternative minimum tax.

ETM: Bonds bearing the description ETM (escrow to maturity) are collateralized usually by US Treasury securities which are held in escrow and used to repay principal and pay interest on bonds so designated.

Prerefunded: Bonds which are prerefunded are collateralized usually by US Treasury securities which are held in escrow and are used to repay principal and pay interest on tax-exempt issues and to retire the bonds in full at the earliest refunding date.

Fair Value Measurements

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements, establishes a three-tier hierarchy for measuring fair value and requires additional disclosure about the classification of fair value measurements.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three broad levels. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds and credit risk). Level 3 includes significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments). The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of May 31, 2009 in valuing the Fund's investments. For information on the Fund's policy regarding the valuation of investments, please refer to the Security Valuation section of Note A in the accompanying Notes to the Financial Statements.

A. Organization and Significant Accounting Policies

DWS Strategic Municipal Income Trust (the "Fund") is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a closed-end, diversified management investment company organized as a Massachusetts business trust.

The Fund's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America which require the use of management estimates. Actual results could differ from those estimates. The policies described below are followed consistently by the Fund in the preparation of its financial statements.

Security Valuation. Investments are stated at value determined as of the close of regular trading on the New York Stock Exchange on each day the exchange is open for trading. Debt securities are valued by independent pricing services approved by the Trustees of the Fund, whose valuations are intended to reflect the mean between the bid and asked prices. If the pricing services are unable to provide valuations, the securities are valued at the mean of the most recent bid and asked quotations or evaluated price obtained from one or more broker-dealers. Such services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes.

Money market instruments purchased with an original or remaining maturity of sixty days or less, maturing at par, are valued at amortized cost.

Securities and other assets for which market quotations are not readily available or for which the above valuation procedures are deemed not to reflect fair value are valued in a manner that is intended to reflect their fair value as determined in accordance with procedures approved by the Trustees. In accordance with the Fund's valuation procedures, factors used in determining value may include, but are not limited to, the type of the security, the size of the holding, the initial cost of the security, the existence of any contractual restrictions on the security's disposition, the price and extent of public trading in similar securities of the issuer or of comparable companies, quotations or evaluated prices from broker-dealers and/or pricing services, information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange-traded securities), an analysis of the company's financial statements, an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold and with respect to debt securities, the maturity, coupon, creditworthiness, currency denomination, and the movement of the market in which the security is normally traded. The value determined under these procedures may differ from published values for the same securities.

New Accounting Pronouncement. In April 2009, the Financial Accounting Standards Board ("FASB") issued FASB Staff Position No. 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly" ("FSP 157-4"). FSP 157-4 provides additional guidance for estimating fair value in accordance with Statement of Financial Accounting Standards No. 157, "Fair Value Measurements," when the volume and level of activity for the asset or liability have significantly decreased as well as guidance on identifying circumstances that indicate a transaction is not orderly. FSP 157-4 is effective for fiscal years and interim periods ending after June 15, 2009. Management is currently reviewing the enhanced disclosure requirements for the adoption of FSP 157-4.

Inverse Floaters. Inverse floating rate notes are debt instruments with a weekly floating rate of interest that bears an inverse relationship to changes in short-term market interest rates. Investments in this type of instrument involve special risks as compared to investments in a fixed rate municipal security. The debt instrument in which the Fund may invest is a tender option bond trust (the "trust") which can be established by the Fund, a financial institution, or a broker consisting of underlying municipal obligations with intermediate to long maturities and a fixed interest rate ("underlying bond"). Other investors in the trust usually consist of money market fund investors receiving weekly floating interest rate payments who have put options with the financial institutions. The Fund may enter into shortfall and forbearance agreements by which the Fund agrees to reimburse the trust, in certain circumstances, for the difference between the liquidation value of the fixed rate municipal security held by the trust and the liquidation value of the floating rate notes. These transactions are considered a form of financing for accounting purposes. As a result, the Fund includes the underlying bond in its investment portfolio and a corresponding liability in the statement of assets and liabilities equal to the floating rate note issued. When a trust is terminated and/or collapsed by either party, the related fixed rate securities held by the trust are delivered back to the Fund where they are either held or sold, and

the related liability of the floating rate note issued is adjusted. The Fund does not consider the Fund's investment in inverse floaters borrowing within the meaning of the 1940 Act. Inverse floating rate notes exhibit added interest rate sensitivity compared to other bonds with a similar maturity. Moreover, since these securities are in a trust form, a sale may take longer to settle than the standard two days after the trade date.

The weighted average outstanding daily balance of the floating rate notes during the six months ended May 31, 2009 was approximately \$11,000,000, with a weighted average interest rate of 1.97%.

When-Issued/Delayed Delivery Securities. The Fund may purchase securities with delivery or payment to occur at a later date beyond the normal settlement period. At the time the Fund enters into a commitment to purchase a security, the transaction is recorded and the value of the security is reflected in the net asset value. The price of such security and the date when the security will be delivered and paid for are fixed at the time the transaction is negotiated. The value of the security may vary with market fluctuations. No interest accrues to the Fund until payment takes place. At the time the Fund enters into this type of transaction it is required to segregate cash or other liquid assets at least equal to the amount of the commitment.

Certain risks may arise upon entering into when-issued or delayed delivery securities from the potential inability of counterparties to meet the terms of their contracts or if the issuer does not issue the securities due to political, economic, or other factors. Additionally, losses may arise due to changes in the value of the underlying securities.

Federal Income Taxes. The Fund's policy is to comply with the requirements of the Internal Revenue Code, as amended, which are applicable to regulated investment companies, and to distribute all of its taxable and tax-exempt income to its shareholders.

At November 30, 2008, the Fund had a net tax basis capital loss carryforward of approximately \$1,254,000, which may be applied against any realized net taxable capital gains of each succeeding year until fully utilized or until November 30, 2011 (\$1,069,000) and November 30, 2012 (\$185,000), the respective expiration dates, whichever occurs first.

The Fund has reviewed the tax positions for the open tax years as of November 30, 2008 and has determined that no provision for income tax is required in the Fund's financial statements. The Fund's federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

Distribution of Income and Gains. Net investment income of the Fund, if any, is declared and distributed to shareholders monthly. Net realized gains from investment transactions, in excess of available capital loss carryforwards, would be taxable to the Fund if not distributed, and, therefore, will be distributed to shareholders at least annually.

The timing and characterization of certain income and capital gains distributions are determined annually in accordance with federal tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences primarily relate to certain securities sold at a loss and accretion of market discount on debt securities. As a result, net investment income (loss) and net realized gain (loss) on investment transactions for a reporting period may differ significantly from distributions during such period. Accordingly, the Fund may periodically make reclassifications among certain of its capital accounts without impacting the net asset value of the Fund.

The tax character of current year distributions will be determined at the end of the current fiscal year.

Preferred Shares. The Fund has issued and outstanding 2,800 Series T municipal auction rate cumulative preferred shares ("Preferred Shares"), at a liquidation value of \$25,000 per share. The Preferred Shares are senior to and have certain class specific preferences over the common shares. The dividend rate on the Preferred Shares is set through a "Dutch" auction process, and the dividends are generally paid every seven days. In the auction process, holders of the

Preferred Shares indicate the dividend rate at which they would be willing to hold or sell their Preferred Shares. An auction fails if there are more Preferred Shares offered for sale than there are buyers. If an auction fails, the Preferred Shares' dividend rate adjusts to a "maximum rate," which, based on current Preferred Share ratings (AAA as of May 31, 2009), is 110% times the higher of the "Taxable Equivalent of the Short-Term Municipal Bond Rate" (defined as the approximate taxable yield equivalent of the yield on short-term municipal securities derived by reference to the S&P Kenny 30-day High Grade Index) and the applicable AA Composite Commercial Paper Rate. In addition, existing Preferred Shareholders that submit sell orders in a failed auction may not be able to sell any or all of the shares for which they have submitted sell orders. Preferred Shareholders may sell their shares at the next scheduled auction, subject to the same risk that the subsequent auction will not attract sufficient demand for a successful auction to occur. Broker-dealers may also try to facilitate secondary trading in the Preferred Shares, although such secondary trading may be limited and may only be available for shareholders willing to sell at a discount.

During the six months ended May 31, 2009, the dividend rates ranged from 0.563% to 2.694%. The 1940 Act requires that the Preferred Shareholders of the Fund, voting as a separate class, have the right to: a) elect at least two trustees at all times, and b) elect a majority of the trustees at any time when dividends on the Preferred Shares are unpaid for two full years. Unless otherwise required by law or under the terms of the preferred shares designation statement, each Preferred Share is entitled to one vote and Preferred Shareholders will vote together with common shareholders as a single class and have the same voting rights.

Since February 2008, the Fund, like many other closed-end funds throughout the industry, has experienced failed auctions on its Preferred Shares. These auctions have failed because there were not enough bids to cover the shares for sale, indicating a lack of liquidity in the market. While repeated auction fails have affected the liquidity for the Preferred Shares, a failed auction does not represent a default or loss of capital of the Fund's Preferred Shares and the Preferred Shareholders have continued to receive dividends at the previously defined "maximum rate." As of May 31, 2009, the Preferred Shares of the Fund continue to be AAA rated by its respective rating agencies. Prolonged auction failures may increase the cost of leverage to the Fund. DWS continues to evaluate alternatives for restructuring the leverage of the Fund.

Statement of Cash Flows. Information on financial transactions which have been settled through the receipt and disbursement of cash is presented in the Statement of Cash Flows. The cash amount shown in the Statement of Cash Flows represents cash held at the Fund's custodian bank at May 31, 2009.

Contingencies. In the normal course of business, the Fund may enter into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet been made. However, based on experience, the Fund expects the risk of loss to be remote.

Other. Investment transactions are accounted for on a trade date plus one basis for daily net asset value calculations. However, for financial reporting purposes, investment transactions are reported on trade date. Interest income is recorded on the accrual basis. Realized gains and losses from investment transactions are recorded on an identified cost basis. All premiums and discounts are amortized/accreted for financial reporting purposes, with the exception of securities in default of principal.

B. Purchases and Sales of Securities

During the six months ended May 31, 2009, purchases and sales of investment securities (excluding short-term investments) aggregated \$107,520,936 and \$108,932,557, respectively.

C. Related Parties

Management Agreement. Under the Investment Management Agreement with Deutsche Investment Management Americas Inc. ("DIMA" or the "Advisor"), an indirect, wholly owned subsidiary of Deutsche Bank AG, the Advisor directs the investments of the Fund in accordance with its investment objectives, policies and restrictions. The Advisor determines the securities, instruments and other contracts relating to investments to be purchased, sold or entered into by the Fund. In addition to portfolio management services, the Advisor provides certain administrative services in accordance with the Management Agreement. The management fee payable under the Investment Management Agreement is equal to an annualized rate of 0.60% of the Fund's average weekly net assets, computed and accrued daily and payable monthly.

Service Provider Fees. DWS Investments Service Company ("DISC"), an affiliate of the Advisor, is the transfer agent, dividend-paying agent and shareholder service agent for the Fund. Pursuant to a sub-transfer agency agreement between DISC and DST Systems, Inc. ("DST"), DISC has delegated certain transfer agent, dividend-paying agent and shareholder service agent functions to DST. DISC compensates DST out of the shareholder servicing fee it receives from the Fund. For the six months ended May 31, 2009, the amount charged to the Fund by DISC aggregated \$11,371, of which \$7,114 is unpaid.

Typesetting and Filing Service Fees. Under an agreement with DIMA, DIMA is compensated for providing typesetting and certain regulatory filing services to the Fund. For the six months ended May 31, 2009, the amount charged to the Fund by DIMA included in the Statement of Operations under "reports to shareholders" aggregated \$7,219, of which \$5,787 is unpaid.

Trustees' Fees and Expenses. The Fund paid each Trustee not affiliated with the Advisor retainer fees plus specified amounts for various committee services and for the Board Chairperson.

Other Related Parties. Deutsche Bank Trust Company Americas, an affiliate of the Advisor, is the auction agent with respect to the Preferred Shares. The auction agent pays each broker-dealer a service charge from funds provided by the Fund ("Auction Service Fee"). The Auction Service Fee charged to the Fund for the six months ended May 31, 2009 aggregated \$88,816, of which \$2,468 is unpaid.

In addition, Deutsche Bank Trust Company Americas charges an administration fee for Preferred Shares. The amount charged to the Fund for the six months ended May 31, 2009 aggregated \$2,912, of which \$2,772 is unpaid.

D. Fee Reductions

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the six months ended May 31, 2009, the Fund's custodian fee was reduced by \$5 for custody credits earned.

E Line of Credit

The Fund and other affiliated funds (the "Participants") share in a \$450 million revolving credit facility provided by a syndication of banks. The Fund may borrow for temporary or emergency purposes, including the meeting of redemption requests that otherwise might require the untimely disposition of securities. The Participants are charged an annual commitment fee which is allocated based on net assets, among each of the Participants. Interest is calculated at a rate per annum equal to the sum of the Federal Funds Rate plus 1.25 percent plus if LIBOR exceeds the Federal Funds Rate the amount of such excess. The Fund may borrow up to a maximum of 33 percent of its net assets under the agreement.

Certifications

Edgar Filing: DWS STRATEGIC MUNICIPAL INCOME TRUST - Form N-CSRS

The Fund's chief executive officer has certified to the New York Stock Exchange that, as of June 24, 2009, he was not aware of any violation by the Fund of applicable NYSE corporate governance listing standards. The Fund's reports to the Securities and Exchange Commission on Forms N-CSR and N-Q contain certifications by the Fund's chief executive officer and chief financial officer that relate to the Fund's disclosure in such reports and that are required by rule 30a-2 under the 1940 Act.

Amended and Restated Bylaws

On March 11, 2009, the Fund's Board of Trustees amended and restated the Fund's by-laws in their entirety (the "Amended and Restated Bylaws"). The Amended and Restated Bylaws provide for, among other things, (i) a classified Board; (ii) certain advance notice requirements for a shareholder to properly bring a matter, including nominees for Trustee, before a shareholder meeting; and (iii) certain procedural requirements for shareholders to call a meeting of shareholders.

Notice of Possible Share Repurchases

In accordance with Section 23(c) of the Investment Company Act of 1940, the Fund hereby gives notice that it may from time to time repurchase shares of the Fund in the open market at the option of the Board of Trustees and on such terms as the Trustees may determine.

Shareholder Meeting Results (Unaudited)

The Annual Meeting of Shareholders (the "Meeting") of DWS Strategic Municipal Income Trust (the "Fund") was held on May 28, 2009 at the New York Marriott East Side, 525 Lexington Avenue, New York, New York 10017. At the Meeting, the following matter was voted upon by the shareholders (the resulting votes are presented below).

Dividend Reinvestment Plan

A summary of the Fund's Dividend Reinvestment Plan (the "Plan") is set forth below. Shareholders may obtain a copy of the entire Plan by visiting the Fund's Web site at www.dws-investments.com or by writing or calling DWS Investment Service Company ("DISC") at:

P.O. Box 219066
Kansas City, Missouri 64121-9066
(800) 294-4366

If you wish to participate in the Plan and your shares are held in your own name, simply contact DISC for the appropriate form. If your shares are held in the name of a broker or other nominee, you should contact the broker or nominee in whose name your shares are held to determine whether and how you may participate in the Plan. The Fund's transfer agent and dividend disbursing agent (the "Transfer Agent") will establish a Dividend Investment Account (the "Account") for each shareholder participating in the Plan. The Transfer Agent will credit to the Account of each participant any cash dividends and capital gains distributions (collectively, "Distributions") paid on shares of the Fund (the "Shares"). Shares in a participant's Account are transferable upon proper written instructions to the Transfer Agent. Upon request to the Transfer Agent, a certificate for any or all full Shares in a participant's Account will be sent to the participant.

If, on the record date for a Distribution (the "Record Date"), Shares are trading at a discount from net asset value per Share, funds credited to a participant's Account will be used to purchase Shares (the "Purchase"). The Plan Agent (currently Computershare Inc.) will attempt, commencing five days prior to the Payment Date and ending at the close of business on the Payment Date ("Payment Date" as used herein shall mean the last business day of the month in which such Record Date occurs), to acquire Shares in the open market. If and to the extent that the Plan Agent is unable to acquire sufficient Shares to satisfy the Distribution by the close of business on the Payment Date, the Fund will issue to the Plan Agent, Shares valued at net asset value per Share in the aggregate amount of the remaining value of the Distribution. If, on the Record Date, Shares are trading at a premium over net asset value per Share, the Fund will issue on the Payment Date Shares valued at net asset value per Share on the Record Date to the Transfer Agent in the aggregate amount of the funds credited to the participants' Accounts. The Fund will increase the price at which Shares may be issued under the Plan to 95% of the fair market value of the shares on the Record Date if the net asset value per Share of the Shares on the Record Date is less than 95% of the fair market value of the Shares on the Record Date.

The cost of Shares acquired for each participant's Account in connection with a Purchase shall be determined by the average cost per Share, including brokerage commissions, of the Shares acquired in connection with that Purchase. There will be no brokerage charges with respect to Shares issued directly by the Fund as a result of Distributions. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to open market purchases. Brokerage charges for purchasing small amounts of Shares for individual Accounts through the Plan can be expected to be less than the usual brokerage charges for such transactions, as the Plan Agent will be purchasing Shares for all participants in blocks and prorating the lower commission thus attainable.

A participant may from time to time make voluntary cash contributions to his Account in a minimum amount of \$100 (no more than \$500 may be contributed per month). Participants making voluntary cash investments will be charged a \$0.75 service fee for each such investment and will be responsible for their pro rata share of brokerage commissions. Please contact DISC for more information on voluntary cash contributions.

The Fund reserves the right to amend the Plan, including provisions with respect to any Distribution paid, subsequent to notice thereof sent to participants in the Plan at least ninety days before the record date for such Distribution, except when such amendment is necessary or appropriate to comply with applicable law or the rules or policies of the Securities and Exchange Commission or any other regulatory authority, in which case such amendment shall be effective as soon as practicable. The Plan may be terminated by the Fund.

Shareholders may withdraw from the Plan at any time by giving the Transfer Agent a written notice. A notice of withdrawal will be effective for the next Distribution following receipt of the notice by the Transfer Agent provided the notice is received by the Transfer Agent at least ten days prior to the Record Date for the Distribution. When a participant withdraws from the Plan, or when the Plan is terminated by the Fund, the participant will receive a certificate for full Shares in the Account, plus a check for any fractional Shares based on market price; or, if a Participant so desires, the Transfer Agent will notify the Plan Agent to sell his Shares in the Plan and send the proceeds to the participant, less brokerage commissions and a \$2.50 service fee.

Edgar Filing: DWS STRATEGIC MUNICIPAL INCOME TRUST - Form N-CSRS

Shareholders will receive tax information annually for personal records and to assist in preparation of their federal income tax returns. If Shares are purchased at a discount, the amount of the discount is considered taxable income and is added to the cost basis of the purchased Shares.
