REQUIRED INFORMATION

Financial Statements and Schedules. The financial statements and schedules included herewith relating to the KEMET Employees' Savings Plan (the "Plan") were prepared in accordance with the financial reporting requirements of the Employee Retirement Income Security Act of 1974 and are provided pursuant to Instruction 4 of Form 11-K.

Consent of Independent Registered Public Accounting Firm.

SIGNATURE

The Plan pursuant to the requirements of the Securities Act of 1934, the Administrative Committee of the KEMET Employees' Savings Plan has duly caused this annual report to be signed on its behalf by the undersigned hereunto duly authorized.

KEMET EMPLOYEES' SAVINGS PLAN

June 28, 2016 By/s/ WILLIAM M. LOWE, JR.  
William M. Lowe, Jr.

Executive Vice President and Chief Financial Officer for the Administrative Committee

Report of Independent Registered Public Accounting Firm

To the Participants of the KEMET Employees' Savings Plan and  
The Board of Directors of KEMET Corp.  
Simpsonville, South Carolina

We have audited the accompanying statements of net assets available for benefits of the KEMET Employees' Savings Plan (the Plan) as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan has determined it is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The supplemental information in the accompanying schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2015 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but includes supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedule, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated in all material respects in relation to the financial statements as a whole.

## KEMET EMPLOYEES' SAVINGS PLAN

Notes to Financial Statements

December 31, 2015 and 2014

### (1) Description of Plan

The following description of the KEMET Employees' Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

#### (a) General

The Plan is a defined contribution plan sponsored by KEMET Electronics Corporation (the "Company" or "KEMET") covering all full-time employees of the Company, its parent and its subsidiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Effective January 1, 2007, the Plan was amended to allow participants to make contributions on an after-tax basis, "Roth-type". In December of 2010, the Plan was amended to comply with the Heroes Earnings Assistance and Relief Tax Act of 2008 ("HEART ACT") and the Worker, Retiree, and Employer Recovery Act of 2008 ("WRERA").

#### (b) Contributions

Each year, participants may contribute up to 75% of their pretax annual compensation, as defined in the plan document, subject to Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. After a participant contributes the maximum allowed contribution, \$18,000 for calendar year 2015 and \$17,500 for calendar year 2014, a catch-up contribution may be made on a pre-tax or after-tax basis subject to Internal Revenue Service ("IRS") limitations, \$5,500 for each calendar year 2015 and 2014. The Company contributes 100% of the first 6% of compensation that a participant contributes to the Plan.

In addition, the Company, at its discretion, may make certain additional contributions as determined by the Board of Directors of the Company. No discretionary contributions were made in calendar years 2015 or 2014.

#### (c) Participant Accounts

Each participant's account is credited (charged) with (a) the participant's contribution, (b) the Company's matching contribution, (c) allocations of the Company's additional contribution, and (d) investment earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

#### (d) Vesting

Participants are immediately vested in their voluntary contributions, the Company's matching contributions, and any discretionary contributions made by the Company plus actual earnings (losses) thereon.

#### (e) Investment Options

Participants may direct their investments in one or more of 22 investment options, which include 21 mutual funds (registered investment companies and retirement funds) and a common trust fund. The Plan's administrative committee froze the option to purchase KEMET Corporation common stock effective December 31, 2008. As such, participants may no longer direct their investments into the KEMET Corporation Stock fund.

(f) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 less the participant's highest outstanding loan balance from the preceding 12 months, or 50% of their vested account balance. Loan transactions are treated as deductions from participants' accounts and accounted for separately. Loan terms range from 1-5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime lending rate plus 1% as of the date of the loan. As of December 31, 2015, interest rates ranged from 4.25% to 8.5% on participant loans. Principal and interest are paid through payroll deductions.

(g) Payment of Benefits

On termination of service due to death, disability, or retirement, participants may elect to receive either a lump-sum amount equal to the value of the vested interest in their account, or annual installments over a ten year period. For termination of service due to other reasons, participants may receive the value of the vested interest in their account as a lump-sum distribution.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting. Certain amounts for calendar year 2014 have been reclassified within the Statement of Net Assets Available for Benefits to conform to the calendar year 2015 preparation.

(b) Notes receivable from participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged to the participants' account balance. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(c) Investment Valuation and Income Recognition

Under the terms of a trust agreement between T. Rowe Price and the Plan, T. Rowe Price manages a trust fund on behalf of the Plan which includes all Plan investments. Transactions with T. Rowe Price represent party-in-interest transactions with the Plan.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefit payments are recorded when paid.

(e) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions. These estimates and assumptions affect the reported amount of assets, liabilities, and changes therein and the disclosure of contingent assets and liabilities. Actual results could differ from these estimates and assumptions.

(f) Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in the net appreciation of fair value of investments.

(g) Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are issued. Recognized subsequent events are events or transactions that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing financial statements. Nonrecognized subsequent events are events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after that date.

7

---

Management has reviewed events occurring through the date the financial statements were available to be issued and no subsequent events occurred requiring accrual or disclosure.

(h) Recently issued accounting pronouncements

In May 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this ASU remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of net assets available for benefits. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this ASU are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this Update for the 2015 plan year, and it was retrospectively applied to December 31, 2014. Prior year disclosures have been revised to reflect the retrospective application of this ASU. The impact of adopting this ASU is reflected in Note 3.

In July 2015, the FASB issued ASU No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) - (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force). The purpose of this ASU is to simplify plan accounting.

The amendments in Part I of this ASU designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value, accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

The amendments in Part II of this ASU will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment’s strategy will no longer be required.

The amendments in Part III of this ASU reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan’s fiscal year-end, when the fiscal period does not coincide with month-end.

This ASU may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted this ASU for the 2015 plan year, and the amendments in Part II were retrospectively applied to December 31, 2014. Prior year disclosure in Note 3 has been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

In January 2016, FASB issued ASU No. 2016-01, Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities, which addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The amendments in this ASU are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. With certain exceptions, early adoption is not permitted. Plan management is currently evaluating the impact that ASU 2016-01 will have on its financial statements.

(3) Fair Value Measurements

The Financial Accounting Standards Board (“FASB”) issued a statement that defines fair value, establishes a framework for measuring fair value, and expands disclosures about assets and liabilities measured at fair value. That framework:

8

---

- defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, and establishes a framework for measuring fair value;
- establishes a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date;
- eliminates large position discounts for financial instruments quoted in active markets; and
- expands disclosures about instruments measured at fair value.

The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

- Level 1 — inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 — inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset and liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 — inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Assets and liabilities measured at fair value are based on one or more of the following three valuation techniques:

- a. Market approach: Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.
- b. Cost approach: Amount that would be required to replace the service capacity of an asset (replacement cost).
- c. Income approach: Techniques to convert future amounts to a single present amount based upon market expectations (including present value techniques, option-pricing and excess earnings models).

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Common stock: Valued at the closing price reported on the active market on which the individual security is traded.

Mutual funds: Valued at the quoted market prices of shares held by the Plan at year end. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable Value Fund: Valued at NAV. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an

amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that the securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level within the fair value hierarchy a summary of the Plan's assets measured at fair value on a recurring basis as of December 31, 2015 (amounts in thousands):

9

---

	Level 1	Level 2	Level 3	Total
Balanced mutual funds	\$15,273	\$ —	—	—\$15,273
Fixed income mutual funds	5,697	—	—	5,697
Growth mutual funds	63,650	—	—	63,650
Common stock of KEMET Corporation	741	—	—	741
Total assets in the fair value hierarchy	85,361	—	—	85,361
Investments measured at net asset value (a)				19,998
Total investments	\$85,361	\$ —	—	—\$105,359

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table sets forth by level within the fair value hierarchy a summary of the Plan's assets measured at fair value on a recurring basis as of December 31, 2014 (amounts in thousands):

	Level 1	Level 2	Level 3	Total
Balanced mutual funds	\$14,671	\$ —	—	—\$14,671
Fixed income mutual funds	5,671	—	—	5,671
Growth mutual funds	62,163	—	—	62,163
Common stock of KEMET Corporation	1,381	—	—	1,381
Total assets in the fair value hierarchy	83,886	—	—	83,886
Investments measured at net asset value (a)	—	—	—	21,537
Total investments	\$83,886	\$ —	—	—\$105,423

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table for December 31, 2015 and 2014 sets forth a summary of the Plan's investments reported at NAV as a practical expedient to estimate fair value (amounts in thousands):

Investment	December 31, 2015		Redemption frequency	Redemption notice period
	Fair Value	Unfunded commitment		
Common collective trust fund				
Stable value fund (a)	\$19,998	\$ —	—Daily	See (a)
	December 31, 2014			
Investment	Fair Value	Unfunded commitment	Redemption frequency	Redemption notice period
Common collective trust fund				
Stable value fund (a)	\$21,537	\$ —	—Daily	See (a)

(a) Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets. Retirement plans invested in the trust are required to provide either twelve or thirty months' advance written notice prior to redemption of trust units; this required notice period may be shortened or

waived.

(4) Related Party Transactions

Certain plan investments are shares of mutual funds and a stable value fund managed by T. Rowe Price. T. Rowe Price is the trustee as defined by the Plan; and therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to T. Rowe Price for loan administration services were \$4,084 and 4,707 for the years ended December 31, 2015 and 2014, respectively.

10

---

The Company pays for the annual audit and all legal and fiduciary related services related to the Plan. The Plan also has investments in common stock of KEMET Corporation. As described in Note 2, the Plan made direct payments to the third party administrator of approximately \$75,000 for the years ended December 31, 2015 and 2014 which were not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

(5) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend it from time to time, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will remain 100% vested in their accounts.

(6) Tax Status

The Company applied for and received a determination letter dated July 7, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan's administrative committee believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC and, therefore, believes the Plan is qualified and the related trust is tax exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## (7) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 (amounts in thousands):

	2015
Net assets available for benefits per the financial statements	\$106,929
Employer contribution receivable not recorded on Form 5500	(153 )
Employee contribution receivable not recorded on Form 5500	(237 )
Net assets available for benefits per the Form 5500	\$106,539

The following is a reconciliation of net increase in assets available for benefits per the financial statements to net increase (decrease) per Form 5500 (amounts in thousands):

	Year Ended December 31, 2015
Net increase per the financial statements	\$ 340
Employer contributions accrued per the financial statements and not accrued per Form 5500 as of December 31, 2015	(153 )
Employee contributions accrued per the financial statements and not accrued per Form 5500 as of December 31, 2015	(237 )
Net decrease per Form 5500	\$ (50 )

## (8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
