STRONG FULL-YEAR RESULTS EXPECTED FOR SMITH & NEPHEW Medical Devices Company Continues to Sustain Business Growth

Smith & Nephew plc, the advanced medical devices group, has continued to deliver strong business performance in the second half of the year, with the underlying rate of sales growth in the ongoing businesses expected to be 14% for the full year - the same as last year. Acquisitions added a further 4% to this growth, but currency will be 3% adverse.

Smith & Nephew is to give a trading update to investors and analysts today ahead of the close period preceding its Preliminary Results announcement. The company, whose business is focused on the fast-growing markets for orthopaedics, endoscopy and advanced wound management products, will report its preliminary results on 7 February 2003 at 2pm GMT (8am CST). Please note that this is a change from the previously published date in order to present simultaneously to analysts and investors in London and New Orleans during the American Academy of Orthopaedic Surgeons meeting.

Smith & Nephew has continued to perform strongly in all of its businesses throughout 2002. Orthopaedics led the way once again, with underlying sales expected to grow by 19% for the full year, and extremely strong knee growth at 33% over last year. Endoscopy's underlying sales growth will be 10% for the full year, with the acquisition of Oratec this year adding 9% to this. Wound Management will once again deliver underlying sales growth of 11%, with last year's acquisition of the Beiersdorf and Acticoat ranges adding 4% to this for the full year.

3

Chris O'Donnell, Chief Executive of Smith & Nephew said, "Our innovative products and the investments we have made in our sales forces are delivering sustained growth above that of the markets in which we operate. We are pleased with the progress made by Smith & Nephew this year, and we are focused on delivering continued sales growth and expanding our group operating margins moving forward."
