Approximate date of proposed public offering: As soon as practicable after the effective date of this Registration Statement.

If any securities being registered on this form are to be offered on a delayed or continuous basis in reliance on Rule 415 under the Securities Act of 1933, as amended (the "Securities Act"), other than securities offered in connection with dividend or interest reinvestment plans, check the following box. / X /

It is proposed that this filing will become effective when declared effective pursuant to Section 8(c)

THE REGISTRANT HEREBY AMENDS THIS REGISTRATION STATEMENT ON SUCH DATE OR DATES AS MAY BE NECESSARY TO DELAY ITS EFFECTIVE DATE UNTIL THE REGISTRANT SHALL

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

FILE A FURTHER AMENDMENT, WHICH SPECIFICALLY STATES THAT THIS REGISTRATION STATEMENT SHALL THEREAFTER BECOME EFFECTIVE IN ACCORDANCE WITH SECTION 8(A) OF THE SECURITIES ACT OF 1933 OR UNTIL THE REGISTRATION STATEMENT SHALL BECOME EFFECTIVE ON SUCH DATE AS THE COMMISSION, ACTING PURSUANT TO SAID SECTION 8(A), MAY DETERMINE.

THE TOPIARY FUND FOR BENEFIT PLAN INVESTORS (BPI) LLC

Limited Liability Company Interests

The Topiary Fund for Benefit Plan Investors (BPI) LLC (the "Fund") is a Delaware limited liability company registered under the Investment Company Act of 1940, as amended ("1940 Act"), as a closed-end, non-diversified, management investment company. This Fund is designed for investment primarily by tax-exempt and tax-deferred investors.

The Fund invests substantially all of its investable assets into The Topiary Offshore Fund for Benefit Plan Investors (BPI) LDC, a Cayman Islands limited duration company with the same investment objectives as the Fund (the "Offshore Fund"). The Offshore Fund in turn invests substantially all of its investable assets in The Topiary Master Fund for Benefit Plan Investors (BPI) LLC, a registered investment company with the same investment objectives as the Fund and the Offshore Fund (the "Master Fund"). The Offshore Fund serves solely as an intermediate entity through which the Fund invests in the Master Fund. The Offshore Fund makes no independent investment decisions and has no investment or other discretion over the investable assets. The Fund's investment objective is to generate long-term capital appreciation by investing substantially all of its assets, through its indirect investment in the Master Fund, in the securities of privately placed investment vehicles, typically referred to as hedge funds ("Investment Funds"), managed pursuant to various alternative or non-traditional investment strategies. The Investment Funds in which the Master Fund will invest are subject to special risks. See "Principal Risk Factors, Types of Investments, and Investment Strategies of the Investment Funds."

This Prospectus applies to the offering of limited liability company interests ("Interests") of the Fund. The Interests are offered in a continuous offering at net asset value, plus any applicable sales charge, as described herein. The Fund has registered \$500,000,000 in Interests for sale under the registration statement to which this Prospectus relates. No person who is admitted as a member of the Fund ("Member") will have the right to require the Fund to redeem any Interest.

IF YOU PURCHASE AN INTEREST IN THE FUND, YOU WILL BECOME BOUND BY THE TERMS AND CONDITIONS OF THE LIMITED LIABILITY COMPANY OPERATING AGREEMENT ("OPERATING AGREEMENT"). A COPY OF THE OPERATING AGREEMENT IS ATTACHED AS APPENDIX B TO THIS PROSPECTUS.

INVESTMENTS IN THE FUND MAY BE MADE ONLY BY "ELIGIBLE INVESTORS" AS DEFINED HEREIN. SEE "ELIGIBLE INVESTORS."

The Interests will not be listed on any securities exchange and it is not anticipated that a secondary market for the Interests will develop. The Interests are subject to substantial restrictions on transferability and resale and may not be transferred or resold except as permitted under the Operating Agreement of the Fund. Although the Fund may offer to repurchase Interests from time to time, Interests will not be redeemable at an investor's option nor will they be exchangeable for interests or shares of any other

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

fund. As a result, an investor may not be able to sell or otherwise liquidate his or her Interest. See "Principal Risk Factors Relating to the Fund's Structure -- Closed-End Fund; Limited Liquidity; Interests Not Listed; Repurchases of Interests." The Interests are appropriate only for those investors who can tolerate a high degree of risk and do not require a liquid investment.

This Prospectus provides information that you should know about the Fund before investing. You are advised to read this Prospectus carefully and to retain it for future reference. Additional information about the Fund, including the Fund's statement of additional information ("SAI"), dated July 25, 2005, has been filed with the U.S. Securities and Exchange Commission ("SEC"). You can request a copy of the SAI without charge by writing to Scudder Distributors, Inc., 222 South Riverside Plaza, Attn: Correspondence 27th Floor, Chicago, IL 60606-1048; or by calling Scudder Distributors, Inc. at 1-888-262-0695. The SAI is incorporated by reference into this Prospectus in its entirety. The table of contents of the SAI appears on page 62 of this Prospectus. You can obtain the SAI, and other information about the Fund, on the SEC's website (<http://www.sec.gov>).

NEITHER THE SEC NOR ANY STATE SECURITIES COMMISSION HAS DETERMINED WHETHER THIS PROSPECTUS IS TRUTHFUL OR COMPLETE, NOR HAVE THEY MADE, NOR WILL THEY MAKE, ANY DETERMINATION AS TO WHETHER ANYONE SHOULD BUY THESE SECURITIES. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

	Total (1)

Offering Amount (2).....	\$500,000,000
Sales Load(3).....	\$12,500,000
Proceeds to the Fund(4).....	\$487,500,000

The Fund's distributor is Scudder Distributors, Inc.

The date of this Prospectus is July 25, 2005.

- (1) The Fund previously registered \$500,000,000 of Interests, and no additional Interests are being registered in connection with this Prospectus. Consequently, the listed information relates to those Interests already registered.
- (2) Scudder Distributors, Inc. acts as the distributor ("Distributor") of the Fund's Interests on a best-efforts basis, subject to various conditions. The Fund may also distribute Interests through other brokers or dealers. The Fund will sell Interests only to investors who certify that they are "Eligible Investors." See "Eligible Investors." The minimum initial investment is \$25,000, subject to waiver. Pending investment in the Fund, the proceeds of the continuous offering will be placed in an interest-bearing escrow account by PFPC Inc. ("PFPC"), the Fund's escrow agent. After any closing, the balance in the escrow account, including any interest earned, will be invested pursuant to the Fund's investment policies.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

See "Subscription for Interests" and "Use of Proceeds."

- (3) Investments may be subject to a sales charge of up to 2.5%, subject to waivers for certain types of investors. See "Subscription for Interests." The Distributor retains the sales charge, and may reallocate to broker-dealers participating in the offering up to the full applicable sales charge of 2.5%. The Distributor, DB Investment Managers, Inc. ("DBIM" or the "Adviser"), or their affiliates also may pay from their own resources additional compensation to brokers or dealers in connection with the sale and distribution of the Interests or servicing of investors.
- (4) Assumes sale of all Interests currently registered at the net asset value. The Interests are offered at the offering price (which is net asset value), plus any applicable sales charge.

THE INTERESTS ARE NOT DEPOSITS OR OBLIGATIONS OF, OR GUARANTEED OR ENDORSED BY, ANY BANK OR OTHER INSURED DEPOSITORY INSTITUTION, AND ARE NOT FEDERALLY INSURED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION, THE FEDERAL RESERVE BOARD, OR ANY OTHER GOVERNMENT AGENCY.

PROSPECTIVE INVESTORS SHOULD NOT CONSTRUE THE CONTENTS OF THIS PROSPECTUS AS LEGAL, TAX, FINANCIAL, OR OTHER ADVICE. EACH PROSPECTIVE INVESTOR SHOULD CONSULT WITH HIS OR HER OWN PROFESSIONAL ADVISERS AS TO THE LEGAL, TAX, FINANCIAL, OR OTHER MATTERS RELEVANT TO THE SUITABILITY OF AN INVESTMENT IN THE FUND.

THESE SECURITIES ARE SUBJECT TO SUBSTANTIAL RESTRICTIONS ON TRANSFERABILITY AND RESALE AND MAY NOT BE TRANSFERRED OR RESOLD EXCEPT AS PERMITTED UNDER THE OPERATING AGREEMENT OF THE FUND.

SUMMARY

This is only a summary and does not contain all of the information that a prospective investor should consider before investing in the Fund. Before investing, a prospective investor in the Fund should carefully read the more detailed information appearing elsewhere in this Prospectus and the Fund's SAI and the terms and conditions of the Operating Agreement, each of which should be retained by any prospective investor.

The Fund The Fund is a Delaware limited liability company that is registered under the 1940 Act as a closed-end, non-diversified, management investment company. The Fund's Interests are registered under the Securities Act of 1933, as amended (the "Securities Act"), but are subject to substantial limits on transferability and resale.

The Fund invests substantially all of its investable assets in The Topiary Offshore Fund for Benefit Plan

Investors (BPI) LDC, a Cayman Islands limited duration company with the same investment objectives as the Fund (the "Offshore Fund"). The Offshore Fund in turn invests substantially all of its investable assets in The Topiary Master Fund for Benefit Plan Investors (BPI) LLC, a separate closed-end, non-diversified, management investment company with the same investment objectives as the Offshore Fund and the Fund (the "Master Fund"). DB Investment Managers, Inc. ("DBIM" or the "Adviser"), an investment adviser registered with the Securities and Exchange Commission (the "SEC") under the Investment Advisers Act of 1940, as amended (the "Advisers Act"), serves as investment adviser to the Master Fund.

The Master Fund is a "fund of funds" that provides a means for investors to participate in investments in the securities of Investment Funds that pursue a variety of alternative or non-traditional investment strategies. The Fund is intended to afford its members ("Members"), through an indirect investment in the Master Fund, access to a variety of Investment Funds, the benefits of reduced risk through diversification, and the benefits of professional portfolio managers. An investment in a single professionally managed fund of funds eliminates the need for investors to monitor or purchase securities in individual hedge funds. The Fund is an appropriate investment only for those investors who can tolerate a high degree of risk and do not require a liquid investment. The Fund is similar to a private investment fund in that Interests in the Fund are sold only to certain high net worth and sophisticated investors in large denominations, and in that investors in the Fund are subject to asset-based and performance-based fees. However, unlike a private investment fund, the Fund has registered under the 1940 Act to facilitate investment by certain investors subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and other "benefit plan investors" as defined in ERISA and/or Section 4975 of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code" or the "Code"). The Fund is designed for investment primarily by tax-exempt and tax-deferred investors.

The Offering

Initial and subsequent purchases of Interests generally are accepted monthly.

Use of Proceeds

The Fund invests the proceeds of the offering in the Offshore Fund, which in turn invests such proceeds in the Master Fund, after each month-end closing of the offering. The Master Fund invests such proceeds in accordance with its investment objective and principal strategies as soon as possible following receipt of such proceeds. Pending the investment of the proceeds of the offering pursuant to the Master Fund's investment policies, a portion of the proceeds of the offering not invested in the Investment Funds may be invested in short-term, high quality debt securities, money market funds, or other cash equivalents. In addition, the Fund and the Master Fund may maintain a portion of the proceeds of the offering in cash to meet operational needs.

Investment

Objective and
Strategies

The Fund's, the Offshore Fund's, and the Master Fund's investment objective is to seek to generate long-term capital appreciation. The Fund attempts to achieve this objective by investing all or substantially all of its investable assets, through the Offshore Fund, in the

Master Fund, which invests in the securities of approximately 50 to 100 Investment Funds managed pursuant to various alternative or non-traditional investment strategies, which may be viewed as encompassing four broadly defined primary categories: Relative Value; Event Driven; Equity Long/Short; and Global Macro. The actual number of Investment Funds is determined in the absolute discretion of the Adviser.

Relative Value Category. Relative Value strategies generally seek to produce returns without taking on specific market exposures. Investment Funds employing Relative Value strategies seek to achieve attractive risk-adjusted returns through the use of both long and short positions in fixed income and/or equity instruments, attempting to exploit pricing inefficiencies that occur in the markets from time to time. Relative Value Investment Funds may employ Convertible Arbitrage, Fixed Income Arbitrage, and Quantitative Market Neutral Equity strategies.

Event Driven Category. Event Driven strategies generally seek to produce returns based on anticipated outcomes of company specific or transaction specific situations, such as a corporate merger, corporate restructuring, or pending bankruptcy. Event Driven Investment Funds may employ Merger Arbitrage/Multi-Event, Bankruptcy/Distressed, and Multi-Strategy/Rotational strategies.

Equity Long/Short Category. Equity Long/Short strategies generally seek to produce returns from investments in the global equity markets. These strategies are generally focused on absolute returns and trade based on the manager's beliefs about specific equity markets, regions, sectors, and/or securities. Although these strategies involve both long and short positions, most managers will have a directional bias. Equity Long/Short Investment Funds may employ Opportunistic, Global-International, Sector Specific, and Short-Biased strategies.

Global Macro. Global Macro strategies generally focus on macro-economic opportunities across numerous markets and instruments. Investments may be made in cash, securities, futures contracts, derivative contracts, or options in the equity, fixed income, currency, or commodity markets. Global Macro Investment Funds may employ Discretionary or Systematic strategies.

The Adviser employs a two-step process in structuring the Master Fund's portfolio of Investment Funds. First, the Adviser determines an allocation for the Master Fund's assets across the universe of potential hedge fund strategies, seeking to achieve a portfolio composition

that demonstrates volatility that is lower than the broad-based equity market and returns that are not correlated to either the broad-based equity or bond markets. Using data categorizing and analyzing the historical returns of select managers within each strategy in each category discussed above, the Adviser employs a number of quantitative modeling techniques in conjunction with fundamental research analysis to ascertain an optimized allocation of Master Fund assets among primary categories and underlying strategies.

Second, the Adviser identifies and evaluates potential investments based on specific quantitative, qualitative, and due diligence criteria. Upon completion of its review, the Adviser selects appropriate Investment Funds. The Master Fund may invest in Investment Funds either directly or indirectly by purchasing a structured note or other derivative instrument linked to such Investment Fund.

The Master Fund intends generally to limit investments in any one Investment Fund in its portfolio to no more than 10% of the Fund's assets.

2

There can be no assurance that the Fund or the Master Fund will achieve its investment objective or avoid substantial losses. The Fund's and the Master Fund's investment objective may be changed by the Board without the vote of a majority of the Fund's outstanding voting securities. Notice will be provided to Members prior to any such change.

Use of Leverage

The Master Fund may, but does not currently intend to, borrow money to leverage its investments in the Investment Funds. The Master Fund is authorized to borrow money to meet repurchase requests, for bridge financing of investments in Investment Funds, and for cash management purposes. The Fund is authorized to borrow money to meet repurchase requests and for cash management purposes, but does not expect to ordinarily conduct such activities. Borrowings will be subject to a 300% asset coverage requirement under the 1940 Act. Borrowings by Investment Funds are not subject to this requirement. See "Principal Risk Factors, Types of Investments, and Investment Strategies of the Investment Funds."

Risk Factors

The Fund's and the Master Fund's investment program is speculative and entails substantial risks. Each of the Fund, the Offshore Fund, and the Master Fund is recently formed and has a limited operating history. Interests in the Fund will be subject to substantial restrictions on transferability and resale. The Fund may offer to repurchase Interests, but an Interest will not be redeemable at a Member's option nor will it be exchangeable for interests, units, or shares of any other fund, because the Fund is a closed-end investment company. The Fund may repurchase less than the full amount of the Interest that a Member requests to be repurchased. If the

Fund does not repurchase a Member's Interest, the Member may not be able to dispose of his or her Interest, even during periods of Fund underperformance, due to the substantial restrictions on the transferability and resale of the Interests.

The Fund's performance depends upon the performance of the Investment Funds in the Master Fund's portfolio and the Adviser's ability to select, allocate, and reallocate effectively the Master Fund's assets among them. The Investment Funds generally are not registered as investment companies under the 1940 Act, and, therefore, the Master Fund is not entitled to the protections of the 1940 Act with respect to the Investment Funds. An investment adviser of an Investment Fund may use investment strategies that differ from its past practices and are not fully disclosed to the Adviser, and that involve risks that are not anticipated by the Adviser. Investment Funds may have a limited operating history, and investment advisers of the Investment Funds may have limited experience in managing assets.

The value of the Master Fund's net assets (and, accordingly, the value of the Fund's indirect investment in the Master Fund) will fluctuate primarily based on the fluctuation in the value of the Investment Funds in which the Master Fund invests. To the extent that the portfolio of an Investment Fund is concentrated in securities of a single issuer or issuers in a single industry or market, the risk of the Master Fund's investment in that Investment Fund is increased. Investment Funds may be more likely than other types of funds to engage in the use of leverage, short sales, and derivative transactions. An Investment Fund's use of such transactions is likely to cause the value of the Investment Fund's portfolio to appreciate or depreciate at a greater rate than if such techniques were not used. The investment environment in which the Investment Funds invest may be influenced by, among other things, interest rates, inflation, politics, fiscal policy, current events, competition, productivity gains and losses, and technological and regulatory change.

The Fund values its investment in the Master Fund through the Offshore Fund at the net asset value provided by the Master Fund to the Offshore Fund and the Fund. The Master Fund computes its net asset value (total assets less total liabilities, including accrued fees and expenses) as of the last "business day" of each month. As used in this Prospectus, a

"business day" is any day, other than Saturday, Sunday, or a day on which banking institutions are authorized or obliged by law or regulation to close in New York. When the Master Fund values its securities, market prices will not be readily available for its investments in Investment Funds. Securities for which market prices are not readily available (i.e., as is expected with respect to the Master

Fund's investments in Investment Funds) are valued by the Master Fund at fair value as determined in good faith in accordance with procedures approved by the Board. As the Adviser and the Board anticipate that market prices will not be readily available for most Investment Funds in which the Master Fund invests, the Master Fund's valuation procedures provide that the fair value of the Master Fund's investments in Investment Funds ordinarily will be the value determined for each Investment Fund in accordance with the Investment Fund's valuation policies. Although the Master Fund receives information from each Investment Fund regarding its investment performance and investment strategy, the Adviser may have little or no means of independently verifying this information. Prospective investors should be aware that situations involving uncertainties as to the value of portfolio positions could have an adverse effect on the Master Fund's net assets if the judgments of the Board, the Adviser, or investment advisers to the Investment Funds should prove incorrect. Investment advisers to the Investment Funds only provide determinations of the net asset value of Investment Funds on a weekly or monthly basis, in which event it will not be possible to determine the net asset value of the Master Fund (and, therefore, the Fund) more frequently.

The interests in the Investment Funds in which the Master Fund invests or plans to invest are generally illiquid. The Master Fund may not be able to dispose of Investment Fund interests that it has purchased.

Each Investment Fund generally is charged or is subject to an asset-based fee and may be subject to performance-based allocations or fees payable or allocated to the investment adviser of such Investment Fund. By investing in Investment Funds indirectly through the Fund, an investor in the Fund (as an investor in the Master Fund through the Offshore Fund) bears asset-based fees at the Master Fund level, in addition to any asset-based and performance-based management fees and allocations at the Investment Fund level. Thus, an investor in the Fund may be subject to higher operating expenses than if he or she invested in another closed-end fund with a different investment focus. The performance-based compensation received by the Adviser and an investment adviser of an Investment Fund also may create an incentive for the Adviser or that investment adviser to make investments that are riskier or more speculative than those that it might have made in the absence of the performance-based allocation. That compensation may be based on calculations of realized and unrealized gains made by the Adviser or the investment adviser without independent oversight.

Investments by the Investment Funds in foreign financial markets, including markets in developing countries, present political, regulatory, economic, and other risks that are significant and that may differ in kind and degree from risks presented by investments in the United States.

The investment activities of the Adviser, the investment advisers of the Investment Funds, and their respective

affiliates, and their respective directors, trustees, managers, members, partners, officers, and employees, for their own accounts and other accounts they manage, may give rise to conflicts of interest in relation to the Fund. The Fund's operations may give rise to other conflicts of interest.

To the extent the Master Fund purchases non-voting securities of, or contractually forego the right to vote its interests in, an Investment Fund, it will not be able to vote on matters that require the approval of the investors of the Investment Fund, including a matter that could adversely affect the Master Fund's investment in it.

4

The Offshore Fund is not registered under the 1940 Act, and is not subject to the investor protections offered by that Act. The Fund, by investing in the Offshore Fund, does not have the protections offered to investors in registered investment companies. The Fund, however, controls the Offshore Fund, making it unlikely that the Offshore Fund will take action contrary to the interests of investors in the Fund.

If there are changes in the laws of the United States and/or the Cayman Islands, under which the Fund and the Offshore Fund, respectively, are organized, so as to result in the inability of the Fund and/or the Offshore Fund to operate as set forth in this Prospectus, there may be a substantial effect on investors. For example, if Cayman Islands law changes such that the Offshore Fund must conduct business within the Cayman Islands, or pay taxes, investors in the Fund would likely suffer decreased investment returns. If Cayman Islands law, which requires a limit for a limited duration company's existence of thirty years, were to change such that, at the end of thirty years, the Fund could not replace the Offshore Fund with another identical limited duration company, the structure of the Fund would be affected, potentially adversely. Such changes also could result in the inability of the Fund to operate on a going-forward basis, resulting in the liquidation of the Fund.

Special tax risks are associated with an investment in the Fund. There can be no assurance that the positions of the Fund relating to the consequences of its investment transactions will be accepted by the tax authorities. See "Taxes."

Management

The Board has overall responsibility for the management and supervision of the operations of the Fund and the Master Fund. The Offshore Fund has two members -- the Fund (to which responsibility for the day-to-day management of the Offshore Fund has been delegated) and the Adviser (which holds only a nominal, non-voting interest) -- and is effectively controlled by the Board of the Fund.

The Adviser

Under the supervision of the Board and pursuant to an

investment management agreement (the "Investment Management Agreement"), DBIM, an investment adviser registered under the Advisers Act, serves as the investment adviser for the Master Fund. Steven L. Bossi, Director and Global Head of Funds of Funds of the Adviser, is primarily responsible for the Master Fund's day-to-day portfolio management, subject to oversight by the Board.

The Adviser is an indirect, wholly owned subsidiary of Deutsche Bank AG ("Deutsche Bank"), an international commercial and investment banking group. Deutsche Bank is a major global banking institution that is engaged in a wide range of financial services activities, including investment management, mutual funds, retail, private, and commercial banking, investment banking, and insurance.

The Administrator;
the Transfer Agent

PFPC, Inc. ("PFPC") serves as the administrator of the Fund, the Offshore Fund, and the Master Fund. The Master Fund compensates PFPC for providing administrative services (and the Fund as an indirect investor in the Master Fund bears its pro rata share of such compensation). The Fund and the Master Fund have also retained PFPC to serve as transfer agent, and compensate PFPC for providing investor services, including services relating to transfer agency, processing of subscriptions, and account-related functions, among other services.

Fees, Incentive
Allocation, and
Expenses

Investment Management Fee. The Master Fund pays to the Adviser, and the Fund as an indirect investor in the Master Fund bears, an investment management fee (the "Investment Management Fee") at an annual rate equal to 1.0% of the Master Fund's month-end net assets, including assets attributable to the Adviser (or its affiliates). The Investment Management Fee accrues monthly and is payable at the end of each quarter before giving effect to any repurchases occurring on such quarter-end. The Investment Management Fee is paid to the Adviser out of the Master Fund's assets and debited against Members' Capital Accounts.

5

Incentive Allocation. As of each March 31, upon any repurchases of Interests (solely with respect to the Interests repurchased), and upon termination of the Fund (each, a "Performance Period"), a reallocation (the "Incentive Allocation") will be made from the Capital Account of each Member to the Capital Account of the Adviser equal to 10% of the amount, if any, by which the net profit allocated to such Member's Capital Account for such Performance Period in excess of the Hurdle (based on 90-day U.S. Treasury bill rates) for such Performance Period exceeds the positive balance of such Member's Loss Carryforward Account (as defined herein).

The Incentive Allocation is applied on a "high water mark"

basis such that in the event a Capital Account suffers a net loss in a particular Performance Period, no Incentive Allocation will be made with respect to such Performance Period or any subsequent Performance Period, until such net loss is first recovered (taking into account interim repurchases, if any).

Administrative Fee. PFPC provides certain administrative services to the Fund, the Offshore Fund, and the Master Fund. For its services to the Fund and the Master Fund, the Master Fund pays, and the Fund as an indirect investor in the Master Fund bears, PFPC an administrative fee at an annual rate equal to 0.08% of the Master Fund's month-end net assets. The Offshore Fund is expected to have minimal expenses, and the Adviser, or an affiliate of the Adviser, has agreed to bear all costs related to the Offshore Fund.

Distribution Expenses. Investments may be subject to a sales charge of up to 2.5% of the subscription amount. The sales charge may be waived or adjusted at the sole discretion of the placement agent, and, without limiting the foregoing, is expected to be waived for institutional investors and certain persons associated with the Adviser and its affiliates.

Other Expenses. The Fund and the Master Fund each bear their respective operational expenses, including, without limitation: offering expenses associated with each offering; research expenses; data processing costs and expenses; quotation and news services; legal and recording fees and expenses; professional fees (including, without limitation, expenses of consultants and experts) relating to investments; accounting, auditing, administration, infrastructure, risk monitoring, and tax preparation expenses; custodial expenses; taxes; insurance; printing and mailing expenses; costs and expenses related to exchange listings; all investment expenses (i.e., expenses which the Directors or the Adviser reasonably determines to be directly related to the investment of the Fund's assets, such as brokerage commissions, clearing and settlement charges, bank service fees, spreads, interest expenses, borrowing charges, short dividends, and other investment expenses); pro rata costs and expenses of the Investment Funds, including management fees to managers of Investment Funds (generally ranging from 1% to 3% of assets under management) and performance fees or allocations to such managers (generally ranging from 10% to 25% of net profits); costs and expenses of entering into and utilizing credit facilities; the Administrator's fees and expenses; and any extraordinary expenses (such as litigation and indemnification of the Directors). Included in the investment expenses borne by the Fund and the Master Fund are the reasonable out-of-pocket expenses of the Adviser, for example, travel expenses related to due diligence investigations of existing and prospective Investment Funds. The Adviser and the Administrator each bear the costs of providing their respective services to the Fund, the Master Fund, and the Offshore Fund, including their general overhead, salary, and office expenses. The Offshore Fund is expected to have minimal expenses, and the Adviser, or an affiliate of the Adviser, has agreed to bear all operating expenses of the Offshore

Fund.

The expenses of the offering of Interests are being amortized over a twelve month period beginning upon commencement of the Fund's operations ending on September 30, 2005. The organizational expenses of the Fund, the Offshore Fund, and the Master Fund were paid by the Adviser.

6

Expense Limitation Agreement. The Adviser has entered into an agreement with the Fund and the Master Fund whereby it has contractually agreed to waive its fees and/or reimburse the Fund's expenses to the extent necessary to ensure that the Fund's annualized expenses will not exceed 1.75% (excluding the Incentive Allocation, if any) ("Expense Limitation Agreement"). The initial term of the Expense Limitation Agreement ended on March 31, 2005. The Adviser agreed to renew the Expense Limitation Agreement for an additional one-year term ending on March 31, 2006. Thereafter, the Expense Limitation Agreement will be automatically renewed for each fiscal year unless the Adviser provides written notice to the Fund and the Master Fund of the termination of the Expense Limitation Agreement at least 30 days prior to the end of the then-current term.

Repurchases of
Interests

No Member will have the right to require the Fund to redeem its Interest in the Fund. The Fund from time to time may offer to repurchase Interests. These repurchases will be made at such times and on such terms as may be determined by the Board from time to time in its complete and absolute discretion. The Fund may repurchase less than the full amount of Interests that Members request to be repurchased. In determining whether the Fund should repurchase Interests from Members pursuant to repurchase requests, the Board will consider, among other things, the recommendation of the Adviser. The Adviser expects that it will recommend to the Board that the Fund offer to repurchase Interests from Members on a semi-annual basis. A Member who tenders some but not all of the Member's Interest for repurchase will be required to maintain a minimum Capital Account balance of \$25,000. The Fund reserves the right to reduce the amount to be repurchased from a Member so that the required Capital Account balance is maintained.

The Fund's assets consist primarily of its interest in the Master Fund, which is held through the Offshore Fund. Therefore, in order to finance the repurchase of Interests pursuant to tender offers, the Fund will have to liquidate all or a portion of its interest in the Master Fund. The Fund controls the Offshore Fund, and, because interests in the Master Fund may not be transferred, the Fund may withdraw a portion of its interest only pursuant to repurchase offers by the Master Fund made to the Offshore Fund, and a distribution from the Offshore Fund to the

Fund of the proceeds. The Fund will not conduct a repurchase offer for Interests unless the Master Fund simultaneously conducts a repurchase offer for the Master Fund's interests. The Master Fund's Board of Directors expects that the Master Fund will conduct repurchase offers on a semi-annual basis in order to permit the Fund to meet its obligations under its repurchase offers. However, there can be no assurance that the Master Fund's Board will, in fact, decide to undertake a repurchase offer. The Fund cannot make a repurchase offer larger than a repurchase offer made by the Master Fund. The Master Fund will make repurchase offers, if any, to all of its investors, including the Fund (through the Offshore Fund), on the same terms, which may affect the size of the Master Fund's repurchase offers. Subject to the Master Fund's investment restriction with respect to borrowings, the Master Fund may borrow money or issue debt obligations to finance its repurchase obligations pursuant to any such repurchase offer.

Allocation of
Profit and Loss

The net profits or net losses of the Fund (including, without limitation, net realized Loss gain or loss and the net change in unrealized appreciation or depreciation of securities positions) are credited to or debited against the Capital Accounts of Members at the end of each fiscal period in accordance with their respective investment percentages for the period. Each Member's investment percentage is determined by dividing as of the start of a fiscal period the balance of the Member's Capital Account by the sum of the balances of the Capital Accounts of all Members of the Fund.

Eligible Investors

Each prospective investor (and Members who subscribe for additional Interests) will be required to certify that the Interest purchased is being acquired directly or indirectly for the account of an "Eligible Investor" as defined herein. An "Eligible Investor" includes, among other investors, a person that is: (i) an "accredited investor" as defined in Regulation D under the Securities Act; and (ii) a "qualified client" as defined in Rule 205-3

7

of the Advisers Act (except as otherwise determined by the Fund). In addition, because the Fund is designed for investment primarily by tax-exempt and tax-deferred investors, investors must qualify as tax-exempt or tax-deferred for U.S. federal income tax purposes. The relevant investor qualifications are set forth in the investor certification that each investor must sign in order to invest in the Fund, a form of which appears as Appendix A to this Prospectus.

Investor
Suitability

An investment in the Fund involves a considerable amount of risk. It is possible that some or all of an investor's investment may be lost. Before making an investment

decision, an investor should consider (among other things): (i) the suitability of the investment with respect to its investment objectives and personal situation; and (ii) other factors, including its personal net worth, income, age, risk tolerance, tax situation, and liquidity needs. An investor should invest in the Fund only money that it can afford to lose, and it should not invest in the Fund money to which it will need access in the short-term or on a frequent basis. In addition, all investors should be aware of how the Fund's investment strategies fit into their overall investment portfolios because the Fund is not designed to be, by itself, a well-balanced investment for a particular investor.

Purchase of
Interests

The Fund may accept both initial and additional applications by investors to purchase Interests at such times as the Fund may determine, subject to the receipt of cleared funds two business days prior to the acceptance date set by the Fund. Pending investment in the Fund, the proceeds of the continuous offering will be placed in an interest-bearing escrow account by PFPC, the Fund's escrow agent. After any closing, the balance in the escrow account, including any interest earned, will be invested pursuant to the Fund's investment policies. Initial and subsequent purchases will generally be accepted monthly. The Fund reserves the right to reject in its complete and absolute discretion any application for Interests in the Fund. The Fund also reserves the right to suspend purchases of Interests at any time. Generally, the minimum initial investment in the Fund is \$25,000.

Taxes

The Fund and the Master Fund intend to operate so that each will be treated as a partnership for Federal income tax purposes and not as an association or a "publicly traded partnership" taxable as a corporation for Federal income tax purposes. Accordingly, neither the Fund nor the Master Fund should be subject to federal income tax, and each Member will be required to report on its own annual tax return such Member's share of the Fund's taxable income, gain, or loss. With respect to the Fund's investments in Investment Funds, see "Taxes -- Investment by Qualified Retirement Plans and Other Tax-Exempt Investors."

If it were determined that the Fund or the Master Fund should be treated as an association or a publicly traded partnership taxable as a corporation, the taxable income of the Fund would be subject to corporate income tax and any distributions of profits from the Fund would be treated as dividends.

The Offshore Fund is classified as a corporation for Federal income tax purposes.

The Offshore Fund is interposed between the Fund and the Master Fund and serves as an intermediate entity so that any unrelated business taxable income ("UBTI") generated by certain investment activities of the Master Fund, through the Investment Funds, is not ultimately incurred by a Member. The Offshore Fund is organized as a Cayman Islands limited duration company. The Offshore Fund has

two members: the Fund, which serves as the managing member; and the Adviser, which holds only a nominal, non-voting interest in the Offshore Fund. The Fund and the Adviser have delegated all management of the Offshore Fund to the Fund, and the Fund is the managing member of the Offshore Fund. The Offshore Fund has no independent investment discretion or other decision-making capabilities and effectively is controlled by the Board of the Fund. As a limited duration company, the Offshore Fund offers its members limited liability and is treated as a corporation under the taxation laws of the Cayman Islands and the United States. Any

8

income received by the Offshore Fund will be distributed to the Fund as dividend income. UBTI should therefore not flow through the Offshore Fund to Members of the Fund. Eligible Investors should therefore not receive UBTI that would otherwise be taxable income despite their tax-deferred or tax-exempt status. See "Taxes."

ERISA Plans and
Other Tax-Exempt
Entities

Because the Master Fund, in which the Fund invests substantially all of its investable assets through the Offshore Fund, and the Investment Funds may use leverage, investors subject to ERISA, and other tax-exempt entities, including individual retirement accounts ("IRA") and Keogh Plans, ordinarily could incur income tax liability to the extent that the Master Fund's transactions are treated as giving rise to UBTI. The Fund, however, because of its structure, should not pass UBTI on to its investors. See "Taxes -- Investment by Qualified Retirement Plans and Other Tax-Exempt Investors." The Fund's assets will not be considered to be "plan assets" for purposes of ERISA's fiduciary responsibility and prohibited transaction rules or similar provisions of Section 4975 of the Code.

Term

The Fund's term is perpetual unless the Fund is otherwise terminated under the terms of the Operating Agreement.

Reports to Members

The Fund will furnish to Members as soon as practicable after the end of each taxable year such information as is necessary for them to complete Federal and state income tax or information returns along with any tax information required by law. The Master Fund does not expect to receive tax information from Investment Funds in a sufficiently timely manner to enable the Master Fund (and, therefore, the Fund) to prepare its information returns in time for members to file their returns without requesting an extension of the time to file from the Internal Revenue Service ("IRS") (or state taxing agencies). Accordingly, Members should be prepared to obtain extensions of time to file their income tax returns. Members are encouraged to consult with their tax advisers concerning how such delayed reporting may affect them. The Fund anticipates sending Members an unaudited semi-annual report and an audited annual report within 60 days after the close of

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

the period for which the report is being made, or as required by the 1940 Act.

Fiscal Year For accounting purposes, the Fund's, the Master Fund's, and the Offshore Fund's fiscal year is the period ending on March 31. The Fund's, the Offshore Fund's, and the Master Fund's taxable year is the period ending December 31.

NO BROKER-DEALER, SALESPERSON, OR OTHER PERSON IS AUTHORIZED TO GIVE AN INVESTOR ANY INFORMATION OR TO REPRESENT ANYTHING NOT CONTAINED IN THIS PROSPECTUS. AS A PROSPECTIVE INVESTOR, YOU MUST NOT RELY ON ANY UNAUTHORIZED INFORMATION OR REPRESENTATIONS THAT ANYONE PROVIDES TO YOU. THIS PROSPECTUS IS AN OFFER TO SELL OR A SOLICITATION OF AN OFFER TO BUY THE SECURITIES IT DESCRIBES, BUT ONLY UNDER THE CIRCUMSTANCES AND IN JURISDICTIONS WHERE AND TO PERSONS TO WHICH IT IS LAWFUL TO DO SO. THE INFORMATION CONTAINED IN THIS PROSPECTUS IS CURRENT ONLY AS OF THE DATE OF THIS PROSPECTUS.

THE INVESTMENT FUNDS IN WHICH THE MASTER FUND INVESTS MAY PURSUE VARIOUS INVESTMENT STRATEGIES AND ARE SUBJECT TO SPECIAL RISKS. THE INTERESTS WILL NOT BE LISTED ON ANY SECURITIES EXCHANGE AND IT IS NOT ANTICIPATED THAT A SECONDARY MARKET FOR THE INTERESTS WILL DEVELOP. THE INTERESTS WILL ALSO BE SUBJECT TO SUBSTANTIAL RESTRICTIONS ON TRANSFERABILITY AND RESALE AND MAY NOT BE TRANSFERRED OR RESOLD EXCEPT AS PERMITTED UNDER THE OPERATING AGREEMENT OF THE FUND AND IN COMPLIANCE WITH FEDERAL AND STATE SECURITIES LAWS. THE INTERESTS WILL NOT BE REDEEMABLE AT AN INVESTOR'S OPTION NOR WILL THEY BE EXCHANGEABLE FOR INTERESTS OF ANY OTHER FUND BECAUSE THE FUND IS A CLOSED-END INVESTMENT COMPANY. AS A RESULT, AN INVESTOR MAY NOT BE ABLE TO SELL OR OTHERWISE LIQUIDATE HIS OR HER INTEREST. THE INTERESTS ARE APPROPRIATE ONLY FOR THOSE INVESTORS WHO CAN TOLERATE A HIGH DEGREE OF RISK AND DO NOT REQUIRE A LIQUID INVESTMENT.

9

SUMMARY OF FUND EXPENSES

The following table summarizes the aggregate expenses of the Fund, the Offshore Fund, and the Master Fund and is intended to assist Members and potential Members in understanding the various costs and expenses that they will bear, directly or indirectly, by investing in the Fund. Each figure below relates to a percentage of the Fund's average net asset value at month-end over the course of a year. The expenses associated with investing in a "fund of funds" such as the Fund are generally higher than those of other types of funds that do not invest primarily in other investment vehicles. This is because the members of a fund of funds also indirectly pay a portion of the fees and expenses, including performance-based compensation, charged at the underlying Investment Fund level. These indirect items are not reflected in the following chart or the example below. The fees associated with an Investment Fund will generally include an investment management fee ranging from 1% to 3% (annualized) of the average net asset value of the Master Fund's investment in such Investment Fund, plus incentive allocations or fees generally ranging from 10% to 25% of net profits earned by the Investment Fund.

Member Transaction Expenses

Maximum Sales Charge (Load) (as a percentage of

2.50%

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

the offering price) (1).....	None
Maximum Sales Charge on Reinvested Distributions.....	None
Maximum Early Withdrawal Charge.....	None
Annual Expenses (as a percentage of net assets attributable to Interests)	
Investment Management Fee(2).....	1.00%
Administrative Fee(2).....	0.08%
Other Expenses(3) (4).....	4.24%
Total Annual Expenses.....	5.32%
Waivers/Reimbursement (5).....	(3.57%)
Net Annual Expenses.....	1.75%
Incentive Allocation (6).....	0.58%
Net Annual Expenses and Incentive Allocation.....	2.33%

-
- (1) The sales charge is subject to waivers for certain types of investors. See "Subscription for Interests."
 - (2) Although neither the Fund nor the Offshore Fund pay any direct investment management or advisory fee, the Fund and the Offshore Fund bear, as a result of their investment in the Master Fund, their allocable portion of the 1.00% Investment Management Fee and 0.08% Administrative Fee charged to the Master Fund. See "Management of the Fund" and "Fees, Allocations, and Expenses" for additional information.
 - (3) Reflects all expected ordinary operating expenses of the Fund, and the Fund's allocable portion of all expected ordinary expenses of the Master Fund, other than the Investment Management Fee and the Administrative Fee. The expenses of the offering of Interests are being amortized over a twelve month period beginning upon commencement of the Fund's operations and ending September 30, 2005. The organizational expenses of the Fund, the Offshore Fund, and the Master Fund were paid by the Adviser. The Offshore Fund is expected to have minimal expenses, and the Adviser, or an affiliate of the Adviser, has agreed to bear all operating expenses of the Offshore Fund.
 - (4) "Other Expenses" are based on estimated amounts for the current fiscal year based on amounts incurred in the period beginning on commencement of operations of the Fund and ending on March 31, 2005.

- (5) Pursuant to the Expense Limitation Agreement, the Adviser has contractually agreed to waive and/or reimburse the Fund's expenses to the extent necessary to ensure that the Fund's annualized expenses (excluding the Incentive Allocation, if any) will not exceed 1.75%. The initial term of the Expense Limitation Agreement ended on March 31, 2005. The Adviser has agreed to renew the Expense Limitation Agreement for an additional one-year term ending on March 31, 2006. Thereafter, the Expense Limitation Agreement will be automatically renewed

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

for each fiscal year thereafter unless the Adviser provides written notice to the Fund and the Master Fund of the termination of the Expense Limitation Agreement at least 30 days prior to the end of the then-current term.

- (6) An Incentive Allocation of 10% of the net profits in excess of the Hurdle, if any, of the Capital Account of each Member will be made to the Adviser in respect of such Capital Account with respect to each Performance Period. The Incentive Allocation will be applied on a "high water mark" basis such that in the event a Capital Account incurs a net loss with respect to one Performance Period, no Incentive Allocation will be made for any subsequent Performance Period until such net loss is first recovered (taking into account interim Repurchases, if any).

The following hypothetical example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. The example assumes that all distributions are reinvested at net asset value and that the percentage amounts listed under annual expenses remain the same in the years shown. The tables and the assumption in the hypothetical example of a 5% annual return are required by regulation of the SEC applicable to all investment companies; the assumed 5% annual return is not a prediction of, and does not represent, the projected or actual performance of the Interests. The examples reflect allocation by the Fund to the Adviser of the Incentive Allocation, which is calculated based on the assumed 5% annual return and an assumed 90-day Treasury bill rate of 1.25%. The Incentive Allocation depends on the Fund's future net capital appreciation exceeding the Hurdle. Given the uncertainty of the Fund's future net capital appreciation and the fluctuating nature of the Hurdle, the Fund could make an Incentive Allocation that is higher or lower than the Incentive Allocation that has been calculated based on the foregoing assumptions for the purpose of inclusion in the example below. See "Fees, Allocations, and Expenses" for a more complete description of the Fund's costs and expenses.

The following example should not be considered a representation of past or future expenses, because actual expenses may be greater or less than those shown.

Example

	1 YEAR -----	3 YEARS (2) -----	5 YEARS (2) -----
You would pay the following expenses on a \$1,000 investment, assuming a 5% annual return(1).....	\$44	\$78	\$113

- (1) Actual expenses may be higher or lower than the amounts shown in the fee table and, consequently, the actual expenses incurred by an investor may be greater or less than the amounts shown in the Example.
- (2) The expenses listed for the three-, five-, and ten-year periods are based on the Fund's total operating expenses for the period beginning on commencement of Fund operations and ending on March 31, 2005 without taking into account the Expense Limitation Agreement. There is no guarantee that the Expense Limitation Agreement will remain in effect during these periods. If the Expense Limitation Agreement remains in effect, however, the actual expenses that will ultimately be borne by the Fund during these periods will be lower than those listed in this Example.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

to the extent the Fund's expenses exceed the expense limitation then in place.

11

FINANCIAL HIGHLIGHTS

The table below sets forth selected financial information that has been derived from the financial statements in the Fund's Annual Report, for the fiscal year ended March 31, 2005. The information in the table below has been audited by PricewaterhouseCoopers LLP, independent registered public accounting firm. The report of the independent registered public accounting firm for the year ended March 31, 2005 is contained in the Fund's Annual Report dated as of March 31, 2005. A free copy of the Annual Report may be obtained by calling 1-888-262-0695.

	Period From October 1, 2004 (commencement of operations) Through March 31, 2005
Ratios to average net assets:	
Net investment loss (a) (b) (c)	(1.67%)
Net expenses (a) (b) (c)	1.75%
Incentive allocation	0.58%

Net expenses and incentive allocation	2.33%
Total return	5.04%
Incentive allocation	0.20%

Total return net of incentive allocation	4.84%
Portfolio turnover rate	3%
Members' capital, end of period (thousands)	\$29,173

- (a) Annualized for periods of less than one year.
- (b) The Adviser waived and/or reimbursed \$349,691 of fees and expenses for the six month period ended March 31, 2005. The net investment loss ratio would have been 3.57% greater and the total expense ratio would have been 3.57% greater had these fees and expenses not been waived and/or reimbursed by the Adviser.
- (c) Expense ratios for the underlying Investment Funds are not included in the expense ratio.

The above ratios and total returns are calculated for all Members taken as a whole. An individual investor's return may vary from these returns based on the timing of capital contributions.

12

USE OF PROCEEDS

The proceeds of the offering, excluding the amount of any sales charges paid by investors and net of the Fund's ongoing fees and expenses, will be invested

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

by the Fund in the Offshore Fund, and then by the Offshore Fund in the Master Fund, and by the Master Fund in Investment Funds, in accordance with the Fund's, the Offshore Fund's, and the Master Fund's investment objective and strategies as soon as practicable after each month-end closing of the offering. Such proceeds will be invested together with any interest earned in the Fund's escrow account prior to such closing.

Pending the investment of the proceeds from the sale of Interests in Investment Funds pursuant to the Fund's, the Offshore Fund's, and the Master Fund's investment objective and strategies, the Master Fund may invest a portion of the proceeds of the offering that is not invested in Investment Funds, which may be a substantial portion of the proceeds of the offering, in short-term, high quality debt securities, money market funds, or other cash equivalents. In addition, the Fund and the Master Fund may maintain a portion of the proceeds in cash to meet operational needs. The Master Fund may be prevented from achieving its objective during any time in which the Master Fund's assets are not substantially invested in accordance with its principal investment strategies.

THE FUND'S STRUCTURE

The Fund, a registered, closed-end, non-diversified, management investment company, invests substantially all of its investable assets in the Offshore Fund, which in turn invests substantially all of its assets in the Master Fund. The Master Fund is a separate, registered, closed-end, non-diversified, management investment company with the same investment objectives as the Fund and the Offshore Fund. The Board does not believe that this multi-level structure provides the Fund with any economic or administrative benefit. However, the Board believes that the fees and expenses of the Fund incurred under its current structure would be substantially the same whether the Fund invested in the Master Fund via the Offshore Fund, invested in the Master Fund directly, or invested directly into Investment Funds.

The Offshore Fund is not registered under the 1940 Act. The Offshore Fund serves as a conduit entity through which the Fund invests in the Master Fund, and has no investment or other discretion over its assets. The Offshore Fund serves as an intermediate entity whereby UBTI generated by the investment activities of the Master Fund (and the Investment Funds) should not be ultimately incurred by a Member. The Offshore Fund is organized under the laws of the Cayman Islands as a limited duration company, and, accordingly, may generally only carry on activities in the Cayman Islands in furtherance of its non-Cayman Islands activities. The Offshore Fund has a duration of 30 years and has two members: the Fund, which serves as the managing member; and the Adviser, which holds only a nominal voting interest in the Offshore Fund. All day-to-day management responsibilities of the Offshore Fund are controlled by the Fund. Therefore, all decisions involving the Offshore Fund are effectively controlled by the Fund's Board.

The Fund may redeem all of its assets from the Offshore Fund and, therefore, the Master Fund, if the Board determines it is in the best interests of the Fund to do so. If the Fund so withdraws, the Board would consider what action might be taken, including investing the assets in the Fund, via the Offshore Fund, into another pooled investment entity, or retaining the Adviser to invest the Fund's assets directly in accordance with its investment objectives.

The structure of the Fund is designed to permit certain sophisticated, high net worth tax-exempt and tax-deferred investors to participate in the risks and benefits of an investment in Investment Funds without requiring the high minimum capital contribution requirements that are required by the Investment Funds themselves. The Fund also provides such investors with access to the Master Fund without incurring any UBTI, through the Fund's investment in the

Offshore Fund.

Subject to obtaining any required regulatory approval, the Fund may determine to invest its assets directly in non-U.S. Investment Funds that are classified as "passive foreign investment companies" ("PFICs") for U.S. federal income tax purposes. The Fund may pursue such an investment approach only if it believes that it could avoid generating UBTI by making such investments and the approach is approved by the Fund's Board of Directors. The Fund will provide Members with at least 90 days' notice before implementing such a change.

13

INVESTMENT OBJECTIVES, METHODOLOGY, AND POLICIES

Investment Objectives

The Fund's, the Offshore Fund's, and the Master Fund's investment objective is to generate long-term capital appreciation. The Fund attempts to achieve its investment objective by investing substantially all of its investable assets in the Offshore Fund, which has the same investment objectives as the Fund. The Offshore Fund in turn invests all or substantially all of its investable assets in the Master Fund, which in turn invests substantially all of its assets, either directly or indirectly, in approximately 50 to 100 Investment Funds to be managed pursuant to various alternative or non-traditional investment strategies, which may be viewed as encompassing four broadly defined primary categories: Relative Value; Event Driven; Equity Long/Short; and Global Macro. The actual number of Investment Funds is determined in the absolute discretion of the Adviser. There can be no assurance that the Fund will achieve its investment objective or avoid substantial losses. The Fund's investment objective may be changed by the Fund's Board without the vote of a majority of the Fund's outstanding voting securities. Notice will be provided to Members prior to any such change.

Investment Process in General

The Adviser employs a two-step process in structuring the Master Fund's portfolio. First, the Adviser determines an allocation for the Master Fund's assets across the universe of potential hedge fund strategies, seeking to achieve a portfolio composition that demonstrates volatility that is lower than the broad-based equity market, as measured by the Standard & Poor's 500 Composite Stock Price Index (the "S&P 500"), and returns that show little correlation to either the S&P 500 or the broad-based bond market, as measured by the J.P. Morgan Global Bond Index, U.S. Traded Segment. The Adviser currently views the universe of hedge fund strategies as encompassing the following four primary categories: Relative Value; Event Driven; Equity Long/Short; and Global Macro. Within these broad primary categories there are a number of underlying investment management strategies ("Management Strategies"). See "The Hedge Fund Universe." Using data categorizing and analyzing the historical returns of select managers within each Management Strategy, the Adviser employs a number of quantitative modeling techniques in conjunction with fundamental research analysis to ascertain an optimized allocation of Master Fund assets among primary categories and underlying Management Strategies.

Second, the Adviser identifies and evaluates potential investments based on specific quantitative, qualitative, and due diligence criteria. Upon completion of its review, the Adviser selects appropriate Investment Funds. The Master Fund may invest in Investment Funds either directly or indirectly

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

by purchasing a structured note or other derivative instrument linked to such Investment Fund (a "Structured Investment").

To the extent permitted by applicable regulations or as expressly provided in this Prospectus, none of the name of the Fund, the Offshore Fund, or the Master Fund, any aspect of the Fund's, the Offshore Fund's, or the Master Fund's investment program, or the portfolio allocation range described below will be a fundamental investment policy of the Fund, and each can be changed by the Fund's Board without Member approval. In the event of such a change, Members would receive prior notice. The Investment Funds in which the Master Fund invests may pursue various investment strategies and are subject to special risks. See "Principal Risk Factors, Types of Investments, and Investment Strategies of the Investment Funds."

The Master Fund may seek exemptive relief from the SEC to the extent necessary to permit it to pursue its investment program by investing in Investment Funds through one or more investment vehicles that are affiliated with the Fund or the Adviser. There can be no assurance that such relief will be granted.

Asset Allocation and Optimization

The Adviser's asset allocation and optimization process utilizes a number of quantitative modeling techniques in conjunction with an in-depth fundamental analysis of the historical returns and the outlook associated with each of the Management Strategies. The Adviser considers the performance characteristics associated with each Management Strategy and their relationship/correlation to the broader markets. The Adviser utilizes this analysis to derive specific assumptions regarding the persistency of the return, risk, and correlation relationships that exist

14

within the Management Strategies to develop an asset allocation. These assumptions may, and likely will, change over time.

In addition to quantitative data, the Adviser's optimization process allows for the consideration of a qualitative forecast of developing market trends. While historical data plays a major role in the asset allocation and optimization process, the Adviser also considers forward-looking assessments of future return, risks, and correlations between groups of assets. The Adviser's forward-looking expectations with respect to return, risk, and correlation may result in changes in the Master Fund's asset allocation. By considering developing market trends, the Adviser's allocation process attempts to safeguard against the potential for over-reliance on historical patterns and further attempts to produce allocations that may be better suited to perform in changing market conditions.

The asset allocations to each Management Strategy are reviewed by the Adviser with specific Investment Fund data to assess whether the actual performance characteristics generated by the optimization process and the allocation characteristics originally arrived at using the Management Strategies data are comparable. While it is generally intended for the Master Fund to allocate assets among all of the Management Strategies, the Master Fund may not necessarily invest in each of the primary categories or Management Strategies. There can be no assurance that actual results achieved by the Master Fund will meet these objectives or otherwise conform to any anticipated results derived from the optimization process.

Investment Fund Selection Process

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

The Adviser identifies and selects Investment Funds representative of the Management Strategies in accordance with the Adviser's investment approach. The Adviser's quantitative consideration of potential investments undertakes a variety of analyses to evaluate prospective Investment Funds. Quantitative considerations may include an analysis of each Investment Fund's return, risk (the standard deviation of the Investment Fund's return), drawdowns (any period during which a prospective Investment Fund's value is below its previous highest value; that is, any period during which it has suffered a loss), and correlations (the statistical relationship between a prospective Investment Fund's return and the return of other Investment Funds or certain markets) on both an individual basis and relative to its Management Strategy and to the broader markets. In addition, the Adviser considers certain historical portfolio information (including performance attribution, which is identifying the specific factors and positions that contributed to a portfolio's performance) for each prospective Investment Fund. The Adviser uses the results of each of its quantitative analyses to identify potential Investment Fund candidates in each of the Management Strategies.

The potential Investment Funds identified through quantitative analysis are then evaluated on the basis of certain qualitative and due diligence criteria. Qualitative considerations include organizational profile, growth of assets under management, quality and experience of key investment personnel, quality of administrative systems, and quality of support staff, as well as a document review and a consideration of various portfolio oversight mechanisms employed by the Investment Fund.

Generally, an Investment Fund should (i) be generally representative of a particular Management Strategy, (ii) be open for investment and meet certain liquidity standards, (iii) have at least one year of performance history, (iv) have annually audited returns, and (v) have at least \$20 million in net assets. The Adviser may waive or vary any of these guidelines in its discretion. For example, if the Adviser determines that the manager of a potential Investment Fund has comparable investment experience of more than one year with another hedge fund, it may determine to invest the Master Fund's assets in such Investment Fund regardless of the fact that such Investment Fund does not have one year of audited performance history. To the extent the Adviser accesses an Investment Fund through a Structured Investment, it may vary its liquidity standards.

The Master Fund intends generally to limit investments in any one Investment Fund in its portfolio to no more than 10% of the Master Fund's assets.

Prior to any investment by the Master Fund, the Adviser generally conducts an on-site due diligence session with the principals and staff of the investment manager of each Investment Fund with the objective of obtaining a better understanding of the thought process being employed by the Investment Fund's manager and ensuring that the manager's investment process is consistent with the relevant Management Strategy. Topics discussed during an on-

site due diligence session generally include the investment background and philosophy of the investment manager's principals and their rationale behind historical and current portfolio positions. The Adviser may also review an Investment Fund's service provider relationships and its audited financial statements.

Investment Fund Investment Process

The Master Fund typically invests directly in an Investment Fund by subscribing to purchase such Investment Fund's ownership interests. There are certain instances, however, where an Investment Fund may not be open or available for direct investment by the Master Fund. Such an instance may arise, for example, where the Master Fund's proposed allocation does not meet an Investment Fund's investment minimum or when an Investment Fund is closed to new investments. On occasions where the Adviser determines that a Structured Investment is the most effective or efficient means of gaining exposure to an Investment Fund, the Master Fund may purchase such a Structured Investment, which may involve the purchase by the Master Fund of a structured note or the entering into by the Master Fund of a swap or other contract paying a return approximately equal to the total return of an Investment Fund. In each case, a counterparty would agree to pay the Master Fund a return determined by the return of the Investment Fund, in return for consideration paid by the Master Fund equivalent to the cost of purchasing an ownership interest in the Investment Fund. A structured note with interest or principal payments indexed to the return of a referenced Investment Fund would substitute a contractual commitment running from the counterparty to the Master Fund for direct ownership by the Master Fund of a share of the Investment Fund. Similarly, a swap structure could provide a return equivalent to direct investment in an Investment Fund by establishing a contractual obligation on the part of the counterparty to pay the Master Fund a return equivalent to the return that would have been obtained by direct investment in the Master Fund. Indirect investment through an indexed security, swap, or similar contract in an Investment Fund carries with it the credit risk associated with the counterparty.

Deutsche Bank AG and any affiliate investing in the Master Fund may be subject to the provisions of the United States banking laws and regulations and various other laws and regulations applicable to banks and bank holding companies generally, including the Bank Holding Company Act of 1956, as amended. Such laws and regulations, among other things, impose restrictions on the types and amounts of investments that the Master Fund may make and on the type of activities in which the Master Fund may engage. In order to comply with such laws and regulations, the Master Fund may be required to structure its investment in an Investment Fund in a manner that limits the Master Fund's ownership for such Investment Fund's voting interests and non-voting equity interests to prescribed levels.

Monitoring Investment Fund Performance

The Adviser maintains periodic contact with each Investment Fund in which the Master Fund invests. The Adviser regularly monitors the returns of each Investment Fund in its portfolio in an effort to evaluate whether its return pattern is consistent with the expected return pattern for that Management Strategy. The Adviser also uses various proprietary statistical techniques developed by it in considering whether an Investment Fund's performance is attributable to underlying market performance or represents the Investment Fund portfolio manager's added-value. The expected return of each Investment Fund is modeled as a function of performance data and Management Strategy. If any Investment Fund's returns fall outside the confidence limits established by the Adviser, a formal review of the Investment Fund will be carried out by the Adviser. As a general matter, Investment Fund managers with statistical evidence of consistent added-value are favored over portfolio managers whose records do not provide such evidence. In addition, the Adviser may periodically, to the extent that it deems necessary, examine each Investment Fund's actual holdings (to the extent this information is available) in order to confirm that the Investment Fund continues to conform to its particular Management Strategy.

In managing the Master Fund, the Adviser may utilize portfolio construction

models which consider various proposed attributes of the Master Fund, including the Master Fund's investment objective, investment limitations, and other factors, including a proposed number of Investment Funds in which the Adviser would propose to invest the Master Fund's assets or the proposed allocation of the Master Fund's assets among the Management Strategies or in any one Investment Fund. The Master Fund may not be able to maintain any certain number of Investment Funds in its portfolio at all times or any specific allocation of its assets in any single Investment Fund. In particular, the proceeds from the sale of Interests may not be invested in Investment Funds immediately upon receipt of the

16

proceeds by the Master Fund. Pending each month-end closing, the proceeds will be placed in an interest-bearing escrow account and will not be invested by the Master Fund until after such closing.

Leverage

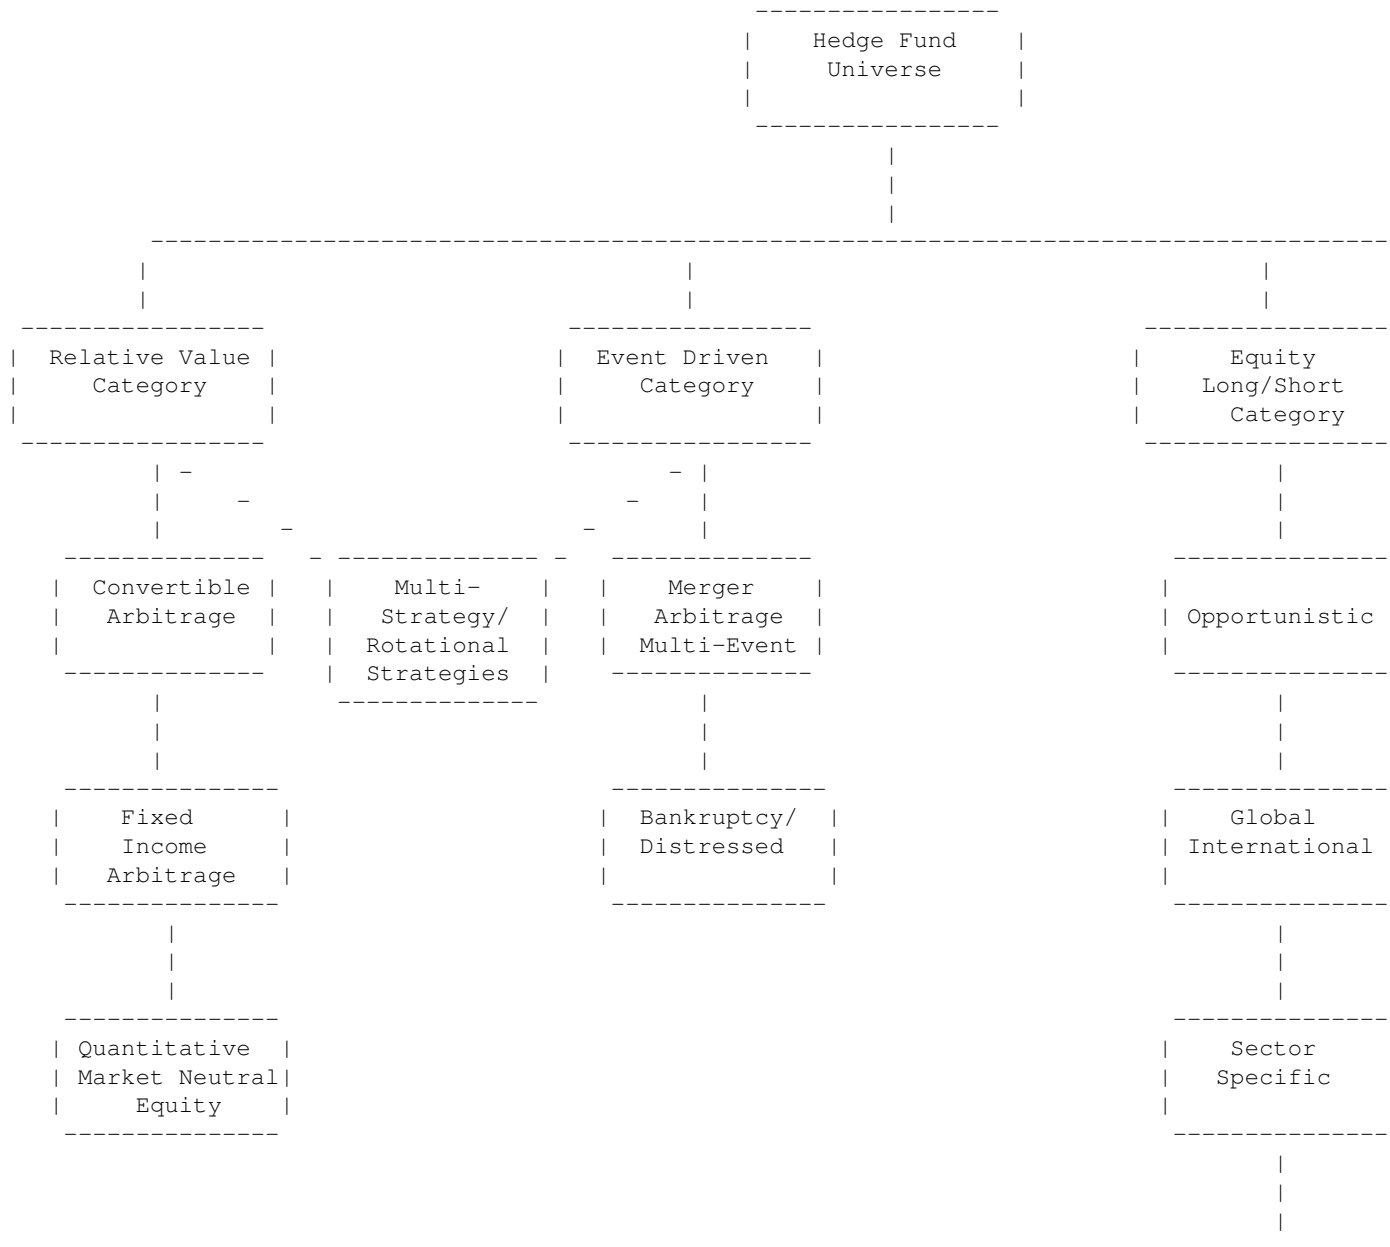

In effecting the Master Fund's investment strategies, the Master Fund may, but does not currently intend to, leverage its investments in Investment Funds. In addition, the Master Fund may engage in borrowing from a credit line or other credit facility in order to meet repurchase requests, for bridge financings of investments in Investment Funds, or for cash management purposes. The Master Fund may choose to engage in such leveraging of its investment because it believes it can generate greater returns on such borrowed funds than the cost of borrowing. However, there is no assurance that returns from borrowed funds will exceed interest expense. Borrowings will be subject to a 300% asset coverage requirement under the 1940 Act. Borrowings by Investment Funds are not subject to this requirement. Short-term borrowings for the purpose of meeting repurchase requests, for bridge financing of investments in Investment Funds, or for cash management purposes will not be considered the use of investment leverage, and will not be subject to the above asset coverage requirement. Many Investment Fund managers also use leverage in their investment activities through purchasing securities on margin and through selling securities short. Investment Fund managers may also use leverage by entering into total return swaps or other derivative contracts as well as repurchase agreements whereby the Investment Fund manager effectively borrows funds on a secured basis by "selling" portfolio securities to a financial institution for cash and agreeing to "repurchase" such securities at a specified future date for the sales price paid plus interest at a negotiated rate. Certain Investment Fund managers also trade futures, which generally involve greater leverage than other investment activities due to the low margin requirements associated with futures trading.

Cash Reserves

The Adviser is not required to allocate all the Master Fund's assets to Investment Funds and may maintain such cash reserves as it may from time to time deem to be appropriate for defensive purposes, to fund future allocations, or to pay operating costs. The Adviser may invest and manage such cash reserves in Treasury securities, money market funds, bank deposits, and similar short-term instruments or accounts. If the Adviser allocates some of the Master Fund's assets to a money market fund or similar investment, the Master Fund will bear the standard management fees and costs and expenses of such money market fund in addition to the fees and expenses payable at the Master Fund level.

THE HEDGE FUND UNIVERSE

The following is an overview of the strategies that may be used by the Investment Funds in which the Master Fund may invest. The Adviser currently views the universe of hedge funds as generally encompassing the following primary categories: Relative Value; Event Driven; Equity Long/Short; and Global Macro. Within each of these broad primary categories are a number of underlying Management Strategies.

Relative Value Category

Relative Value strategies generally seek to produce returns without taking on specific market exposures. Managers employing Relative Value strategies seek to achieve attractive risk-adjusted returns through the use of both long and short positions in fixed income and/or equity instruments, attempting to exploit pricing inefficiencies that occur in the markets from time to time. Relative Value strategies may or may not utilize leverage. The Relative Value category is composed of three Management Strategies: Convertible Arbitrage; Fixed Income Arbitrage; and Quantitative Market Neutral Equity.

Convertible Arbitrage Strategies. Managers utilizing Convertible Arbitrage strategies analyze convertible bonds and warrants across the globe to take advantage of opportunities presented by market and information inefficiencies. Convertible Arbitrage managers seek to monetize such opportunities through the use of both fundamental analysis of the issuing companies and quantitative option and security valuation techniques. Convertible Arbitrage managers generally engage in short selling, options hedging, and other arbitrage techniques to capture price differentials found in the convertible securities and warrants in which they invest. As a general matter, these managers are long the convertible bond and short a percentage (known as the delta amount) of the underlying stock. While most Convertible Arbitrage managers attempt to capture a perceived mispricing of the option component of a convertible

18

security, Convertible Arbitrage managers may also look for mispricing of the underlying credit of the issuing company. Convertible Arbitrage managers may periodically utilize a significant amount of leverage.

Fixed Income Arbitrage Strategies. Managers utilizing Fixed Income Arbitrage strategies analyze a variety of fixed income securities across several markets. Fixed Income Arbitrage managers may look to capture changes in the shape of a country's yield curve (the spread or difference in yield between different maturities of an issuer; e.g., two-year U.S. Treasury Notes versus ten-year U.S. Treasury Notes) or the relationship spread between the fixed income securities of two different countries (e.g., yield curves on five-year German bonds versus five-year U.S. Treasury Notes). Trading strategies also may be structured to capture expected changes in credit spreads, such as the difference between the yield on a specific company's debt and the yield on U.S. Treasury securities (e.g., sell a company's bond and buy a Treasury security), or credit spreads within a specific company's capital structure (e.g., buy a company's senior debt and sell short its subordinated debt or equity). Fixed Income Arbitrage managers may also focus on mortgage and mortgage-related securities. Fixed Income Arbitrage managers tend to utilize significant amounts of leverage and take both long and short positions and employ options, futures, and other derivative strategies.

Quantitative Market Neutral Equity Strategies. Managers utilizing Quantitative Market Neutral Equity strategies seek to generate capital appreciation and absolute returns through a portfolio of investments that is generally anticipated to be net flat or "market neutral." Quantitative Market Neutral

Equity strategies seek to exploit price discrepancies that a Quantitative Market Neutral Equity manager believes exist between individual securities or sectors. These managers primarily establish both long and short positions and tend to utilize leverage. Under most circumstances, Quantitative Market Neutral Equity managers will attempt to maintain a net zero exposure (i.e., gross long positions less gross short positions equal zero); however, gross long and short positions may be significantly large. In most cases, Quantitative Market Neutral Equity managers have high portfolio turnover. The Quantitative Market Neutral Equity strategy relies heavily on models that primarily seek to identify and take advantage of the relative price movements between specific securities. Some Quantitative Market Neutral Equity managers incorporate subjective investment decisions that are based on fundamental analysis when selecting pairs of securities to be held long and short. These opportunities may result from changes in the valuations of specific companies or sectors. For example, if two stocks with similar fundamentals in a given industry have diverged from their historical price relationship, the manager may acquire long positions in the underpriced stock and short the overpriced stock with the intention of unwinding the positions when the historical price relationship returns.

Event Driven Category

Event Driven strategies generally seek to produce returns based on anticipated outcomes of company specific or transaction specific situations. Event Driven managers attempt to capture an underlying change in value based on a particular event, such as a corporate merger, corporate restructuring, or pending bankruptcy. Event Driven managers typically invest either long or short (or both), and tend to have a directional bias. The Event Driven category is composed of two Management Strategies: Merger Arbitrage/Multi-Event and Bankruptcy/Distressed. In addition, certain managers may utilize a Multi-Strategy/Rotational Strategies approach, which often combines Merger Arbitrage/Multi-Event, Bankruptcy/Distressed, event driven, Equity Long/Short, and capital structure arbitrage strategies.

Merger Arbitrage/Multi-Event Strategies. Managers utilizing Merger Arbitrage/Multi-Event strategies seek to profit by realizing price differentials that they perceive exist between the current market price of a security and its expected future value based upon the occurrence of a specific event. Merger Arbitrage/Multi-Event transactions typically involve the purchases or sales of securities in connection with announced corporate actions which may include, but are not limited to, mergers, consolidations, acquisitions, transfers of assets, tender offers, exchange offers, re-capitalizations, liquidations, divestitures, spin-offs, and similar transactions. The portfolios are generally actively traded and may exhibit a high rate of turnover. Merger Arbitrage/Multi-Event managers may periodically utilize leverage and may enter into swaps and other similar financial contracts in an effort to increase portfolio returns. Merger Arbitrage/Multi-Event managers generally engage in short selling, options hedging, and other arbitrage techniques to capture price differentials. Merger Arbitrage/Multi-Event managers may from time to time take positions in the securities of companies not currently involved in announced transactions, but that are believed to be undervalued and likely candidates for future corporate actions. Multi-Event managers may also invest in risk arbitrage, distressed opportunities, equity restructurings, reorganizations, spin-offs, and share class arbitrage.

Bankruptcy/Distressed Strategies. Managers utilizing Bankruptcy/Distressed

strategies generally invest in the securities of financially troubled companies (companies involved in bankruptcies, exchange offers, workouts, financial reorganizations, and other special credit event-related situations). These investment strategies may seek to identify distressed securities in general or focus on one particular segment of the market (such as the senior secured debt sector or the equity portion of distressed companies). Investments may be acquired passively in the secondary market, acquired through participation in merger and acquisition activity, or acquired with a view toward actively participating in a re-capitalization or restructuring plan. Bankruptcy/Distressed managers may actively attempt to modify or improve a restructuring plan with the intent of improving the value of such securities upon consummation of a restructuring. Additionally, they may take an active role and seek representation in management on a board of directors or a creditors' committee. In order to achieve these objectives, the manager may purchase, sell, exchange, or otherwise deal in and with restricted or marketable securities including, without limitation, any type of debt security, preferred or common stock, warrants, options, and hybrid instruments. A significant portion of a Bankruptcy/Distressed manager's portfolio may be invested in restricted securities that may not be registered and for which a market may not be readily available, and therefore a significant portion of the portfolio may not be freely traded. Investments may involve both U.S. and non-U.S. entities and may utilize leverage. Information about specific investments may be limited, thereby reducing the manager's ability to monitor the performance and to evaluate the advisability of continued investments in specific situations.

Multi-Strategy/Rotational Strategies. Managers utilizing a Multi-Strategy/Rotational Strategies approach generally engage in a broad range of arbitrage strategies across three primary markets: (i) long and short positions in equity markets; (ii) U.S. and international positions in investment grade and non-investment grade fixed income securities; and (iii) special situations arising from anomalies in the global securities markets. These managers may also seek to take advantage of any number of different event driven opportunities. Events may involve corporate actions, credit events, political events, or other situations that may have an effect on the value of the securities or financial instruments traded by the Multi-Strategy/Rotational Strategies manager. Multi-Strategy/Rotational Strategies managers generally seek to profit by realizing the price differentials that they perceive exist between equivalent or nearly equivalent securities or between the current market price of a security and its expected future value based on the occurrence of a specific event. Investments may involve both U.S. and non-U.S. markets and may utilize significant amounts of leverage. Multi-Strategy/Rotational Strategies managers employ both long and short strategies, warrant and option arbitrage and hedging strategies, inter- and intra-market spread trading, futures, options, and currency trading.

Equity Long/Short Category

Equity Long/Short strategies generally seek to produce returns from investments in the global equity markets. These strategies are generally focused on absolute returns, and the trades implemented in the strategy generally capitalize on the investment manager's views and outlooks for specific equity markets, regions, sectors, and securities. While these strategies involve both long and short positions in various equity securities, the strategies will generally represent a specific directional view. However, unlike traditional equity funds, the directional view relates less to the absolute direction of the market and more toward the specific positions (longs versus shorts) held within a portfolio. In addition to making shifts in markets, regions, sectors, and securities, managers have the flexibility to shift from a net long to a net short position, but in general will maintain net long exposure. An exception is for those managers that are classified as Short-Biased, which will in general maintain a net short exposure. The Equity

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Long/Short category is composed of four Management Strategies: Opportunistic; Global-International; Sector Specific; and Short-Biased.

Opportunistic Strategies. Managers utilizing Opportunistic strategies seek to generate capital appreciation through a portfolio of investments representing a variety of U.S. equity strategies. These managers primarily establish both long and short positions in U.S. equity securities and may utilize leverage. Under most circumstances, such managers will maintain net long market exposures. The degree to which different managers maintain net long positions will vary. The more opportunistic managers within the strategy generally maintain net long positions of 20% to 80%; however, they may be net short from time to time. The more long-biased managers within the strategy generally maintain net long positions of 50% to 150%. In both cases, gross positions may be significantly larger. Managers within this strategy seek to profit by establishing both long and short positions in specific equity situations with an objective of outperforming the U.S. equity markets on a risk-adjusted and absolute basis. These managers utilize the cash and derivatives markets, and may utilize leverage when establishing positions. Their investments

20

may be highly concentrated and may lack liquidity. In most cases, Opportunistic managers tend to trade positions within their portfolio actively, which results in high levels of portfolio turnover.

Global-International Strategies. Managers utilizing Global-International strategies seek to generate capital appreciation through a portfolio of investments representing a variety of globally oriented strategies. These strategies may include positions in the cash, futures, and forward markets. These managers employ such approaches as long/short strategies, warrant and option arbitrage, hedging strategies, inter- and intra-market equity spread trading, futures, options, and currency trading, and emerging markets and other special situation investing. Trading positions are generally held both long and/or short in both U.S. and non-U.S. markets. Global-International managers may assume aggressive investment postures with respect to position concentrations, use of leverage, and various instruments used, and typically have high levels of portfolio turnover.

Sector Specific Strategies. Managers utilizing Sector Specific strategies seek to generate capital appreciation through a portfolio of investments representing a specific market sector or sectors. For example, a manager may focus on technology or bio-tech companies. Managers may define their specific strategy more broadly, for example, healthcare and life sciences or "TMT" (technology, media, and telecommunications). These managers may establish both long and short positions in equity securities and may utilize leverage. Investments may be in both U.S. and non-U.S. companies. Although these managers tend to maintain net long market exposures, the degree to which different managers maintain net long positions will vary, and managers may also be net short from time to time. These managers utilize the cash and derivatives markets, and may utilize leverage when establishing positions. Their investments may be highly concentrated and may lack liquidity. In most cases, Sector Specific managers will tend to trade positions within their portfolio actively, which results in high levels of portfolio turnover.

Short-Biased Strategies. Managers utilizing Short-Biased strategies seek to produce absolute returns from portfolios that are generally net short; however, these managers may hold long positions as well. Positions may or may not involve the use of leverage, and managers tend to have a high level of portfolio turnover and may maintain concentrated positions. Short-Biased

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

managers attempt to capitalize from price declines in specific equity securities. Short-Biased managers primarily focus on identifying overvalued securities that have either deteriorating fundamentals or a catalyst that will result in a negative price movement for the stock. These managers seek positive returns regardless of market direction. Short-Biased managers tend to achieve better results in bearish markets.

Global Macro Category

Global Macro strategies generally focus on macro-economic opportunities across numerous markets and instruments. Investments may be either long or short in cash securities, futures contracts, derivative contracts, or options, and may be in equities, fixed income markets, currencies, or commodities (e.g., agricultural, metals, energy). This category is composed of two major Management Strategies: Discretionary Strategies; and Systematic Strategies.

Discretionary Strategies. Managers utilizing Discretionary Global Macro strategies seek to profit by capturing market moves throughout a broad universe of investment opportunities. These opportunities include financial markets, such as global equity, currency, and fixed income markets, as well as non-financial markets, such as the energy, agricultural, and metals sectors. These managers utilize a combination of fundamental market research and information in conjunction with quantitative modeling to identify opportunities that exist within the markets. While the markets they invest in may be diverse, these managers may hold more concentrated positions in a limited number of markets at any one time. Positions may be long and short in different markets, and the managers tend to employ leverage.

Systematic Strategies. Managers utilizing Systematic Global Macro strategies utilize proprietary models to identify opportunities that exist within a diverse group of financial and non-financial markets and establish positions based on the models. While subjective investment decisions occasionally can be made, such decisions tend to be the result of a heavier reliance upon models than is the case with discretionary strategies. Managers employing Systematic strategies tend to hold positions in several markets at the same time, may be both long and short, and tend to use margin when establishing positions.

21

PRINCIPAL RISK FACTORS RELATING TO THE FUND'S STRUCTURE

All investments involve the risk of the loss of capital. No guarantee or representation is made that the Fund, the Offshore Fund, or the Master Fund will achieve their investment objectives. The Investment Funds in which the Master Fund may invest may purchase certain instruments or utilize certain investment techniques that carry specific risks. Accordingly, an investment in the Fund involves considerations and risk factors that prospective investors should consider before investing.

THE PAST RESULTS OF THE FUND, THE MASTER FUND, AND THE INVESTMENT FUNDS SELECTED FOR THE MASTER FUND ARE NOT NECESSARILY INDICATIVE OF FUTURE PERFORMANCE. NO ASSURANCE CAN BE MADE THAT PROFITS WILL BE ACHIEVED OR THAT SUBSTANTIAL LOSSES WILL NOT BE INCURRED. THE FUND IS NOT A COMPLETE INVESTMENT PROGRAM AND SHOULD REPRESENT ONLY A PORTION OF AN INVESTOR'S PORTFOLIO MANAGEMENT STRATEGY.

The following discussion of the principal risk factors does not purport to be an exhaustive list or a complete explanation of all of the risks involved in an investment in the Fund. An investment in the Fund should only be made after

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

consultation with independent qualified sources of investment and tax advice.

The following are the principal risk factors that relate to the operations and structure of the Fund. The investments of the Investment Funds in which the Master Fund invests are also subject to special risks.

Limited Operating History

Each of the Fund, the Offshore Fund, and the Master Fund is recently formed and has a limited operating history. In any event, past performance is not necessarily indicative of future results, and there can be no assurance that the Fund, the Offshore Fund, or the Master Fund will meet their investment objectives.

Closed-end Fund; Limited Liquidity; Interests Not Listed; Repurchases of Interests

The Fund is a closed-end, non-diversified, management investment company designed primarily for long-term investment and is not intended to be a trading vehicle. Investors should not invest in the Fund if they need a liquid investment. Closed-end funds differ from open-end management investment companies (commonly known as mutual funds) in that investors in a closed-end fund do not have the right to redeem their shares on a daily basis at a price based on net asset value. In order to be able to meet daily redemption requests, mutual funds are subject to more stringent liquidity requirements than closed-end funds. In particular, a mutual fund generally may not invest more than 15% of its net assets in illiquid securities. The Adviser believes that unique investment opportunities exist in the market for Investment Funds. However, these investments are illiquid, and an open-end fund's ability to make such investments is limited. For this reason, among others, the Fund has been organized as a closed-end fund.

The Fund does not intend to list its Interests for trading on any national securities exchange. There is no secondary trading market for the Interests, and none is expected to develop. The Interests are, therefore, not readily marketable. Because the Fund is a closed-end investment company, its Interests are not redeemable at the option of Members, and they are not exchangeable for interests of any other fund. Although the Board, in its complete and absolute discretion, may cause the Fund to offer to make repurchase offers for outstanding Interests at their net asset value, the Interests are considerably less liquid than shares of funds that trade on a stock exchange, or shares of open-end investment companies. The amount that the Fund will offer to repurchase during any repurchase offer is determined by the Board in its complete and absolute discretion, and such repurchase amount may be a portion of the Fund's outstanding Interests. In addition, in extreme cases, the Fund may not be able to complete repurchases if the Master Fund is unable to repurchase a portion of the Fund's interest in the Master Fund, held through the Offshore Fund, due to the Master Fund's holding of illiquid investments. Members whose Interests are accepted for repurchase will bear the risk that the Fund's net asset value may fluctuate significantly between the time that they submit their repurchase requests and the effective date of the repurchase (i.e., the Full Repurchase Valuation Date). Further, repurchases of Interests, if any, may be suspended or postponed in the complete and absolute discretion of the Board. An investment in the Fund is suitable only for investors who can bear the risks associated with the

limited liquidity of the Interests and the underlying investments of the Fund.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

See "Investor Suitability" and "Repurchases of Interests." Also, because the Interests will not be listed on any securities exchange, the Fund is not required, and does not intend, to hold annual meetings of its Members.

Non-Diversified Status

The Fund and the Master Fund are "non-diversified" investment companies. Thus, there are no limitations imposed by the 1940 Act on the percentage of the Fund's or the Master Fund's assets that may be invested in the securities of any one issuer. This may result in the Fund's investment portfolio being more susceptible to a single economic, political, or regulatory occurrence than would be the case if the Fund or the Master Fund were operated as a diversified investment company. The Master Fund generally will not invest more than 10% of its assets (measured at the time of purchase) in the securities of a single Investment Fund.

Special Risks of the Offshore Fund

Investment in Offshore Fund. The Offshore Fund is not registered under the 1940 Act, and is not subject to the investor protections offered thereby. The Fund, as an investor in the Offshore Fund, does not have the protections offered to investors in registered investment companies. However, the Fund controls the Offshore Fund, making it unlikely that the Offshore Fund will take any action adverse to the interests of the Fund.

Changes in United States and/or Cayman Islands Law. If there are changes in the laws of the United States and/or the Cayman Islands, under which the Fund and the Offshore Fund, respectively, are organized, so as to result in the inability of the Fund and/or the Offshore Fund to operate as set forth in this Prospectus, there may be a substantial effect on investors. For example, if Cayman Islands law changes such that the Offshore Fund must conduct business operations within the Cayman Islands, or pay taxes, investors in the Fund would likely suffer decreased investment returns. If Cayman Islands law, which requires a limit for a limited duration company's existence of 30 years, were to change such that, at the end of 30 years, the Fund could not replace the Offshore Fund with another identical limited duration company, the structure of the Fund would be affected, potentially adversely. Such changes could also result in the inability of the Fund to operate on a going-forward basis, resulting in the Fund being liquidated.

Regulatory Change. The Fund relies on a position taken by the staff of the SEC with respect to a non-affiliated investment company allowing a structure whereby the Fund invests in the Master Fund via the Offshore Fund. To the extent that the views of the SEC staff, which do not represent the views of the SEC itself, were to change, the structure of the Fund's investment in the Master Fund could be adversely affected, possibly affecting the treatment of UBTI.

The Fund may determine to invest its assets directly in non-U.S. Investment Funds that are classified as PFICs for U.S. federal income tax purposes. The Fund may pursue such an investment approach only if it believes that it could avoid generating UBTI by making such investments and the approach is approved by the Fund's Board of Directors. The Fund will provide Members with at least 90 days' notice before implementing such a change.

Special Risks of Fund of Funds Structure, Including Investing in Unregistered Funds

Multiple Investment Fund Managers. The Master Fund employs a multi-manager strategy, and each Investment Fund trades independently of the others. There can be no assurance that the use of a multi-manager approach will not effectively result in losses by certain of the Investment Funds offsetting any

profits achieved by others. Such offsetting results could result in a significant reduction in the Fund's assets, as incentive fees may be allocable to those Investment Funds that recognized profits irrespective of the offsetting losses. Various Investment Funds will from time to time compete with the others for the same positions. Conversely, opposite positions held by the Investment Funds will be economically offsetting. As long as Investment Funds hold positions that offset those held by other Investment Funds, the Fund as a whole will be unable to recognize any gain or loss on such open positions, while at the same time incurring brokerage commissions in respect of each of the offsetting positions and paying advisory fees.

23

Duplicative Transaction Costs. Investment decisions of the Investment Funds are made by their investment advisers independently of each other. As a result, at any particular time, one Investment Fund may be purchasing securities of an issuer whose securities are being sold by another Investment Fund. Consequently, the Fund could incur indirectly transaction costs without accomplishing any net investment result.

Investment Funds Not Registered. The Investment Funds are not registered as investment companies under the 1940 Act and, therefore, the Master Fund is not entitled to the protections of the 1940 Act with respect to the Investment Funds. For example, the Investment Funds are not required to, and may not, hold custody of their assets in accordance with the requirements of the 1940 Act. As a result, bankruptcy or fraud at institutions, such as brokerage firms, banks, or administrators, into whose custody those Investment Funds have placed their assets could impair the operational capabilities or the capital position of the Investment Funds and may, in turn, have an adverse impact on the Fund. In addition, the investment advisers to, or general partners of, the Investment Funds often will not be registered as investment advisers under the Advisers Act.

Investment Fund Securities Generally Illiquid. The securities of the Investment Funds in which the Master Fund invests are generally anticipated to be illiquid. Subscriptions to purchase the securities of Investment Funds are generally subject to restrictions or delays. Similarly, the Master Fund may not be able to dispose of Investment Fund securities that it has purchased in a timely manner and, if adverse market conditions were to develop during any period in which the Master Fund is unable to sell Investment Fund securities, the Master Fund might obtain a less favorable price than prevailed when it decided to buy or sell. Further, the Fund may need to suspend or postpone repurchase offers if the Master Fund is not able to dispose of Investment Fund securities in a timely manner. Certain Investment Funds may permit withdrawals only on a semi-annual, annual, or less frequent basis or impose certain restrictions on withdrawals, such as lock-ups, gates, or suspensions of withdrawal rights under certain circumstances. Further, the Investment Funds in which the Master Fund invests are not subject to the disclosure and other investor protection requirements that would be applicable if their securities were registered or publicly traded.

Delayed Schedule K-1s. It is unlikely that the Fund will be able to provide final Schedule K-1s to Members for any given taxable year until after April 15 of the following year. The Fund will endeavor to provide Members with estimates of taxable income or loss allocated to their investment in the Fund on or before such date, but final Schedule K-1s may not be available until completion of the Fund's annual audit. Members therefore may be required to obtain extensions of the filing date for their income tax returns at the federal, state, and local level.

Second-Tier Fund Investments. One of the principal disadvantages and risks inherent in a fund of funds structure is the restrictions imposed on the asset allocation flexibility and risk control capability of the manager of the top-tier fund as a result of the limited liquidity of the second-tier funds in which the former invests. The Master Fund could be unable to withdraw its capital from Investment Funds in which it invests for some months after the Adviser has determined that the Investment Fund operating such entity has begun to deviate from its announced trading policies and strategy. Certain entities in which the Master Fund invests may suspend redemptions, especially during periods of market disruption, preventing the Master Fund from withdrawing.

Investment Fund Manager Compensation. An Investment Fund typically provides for a performance fee or allocation to its general partner, manager, or person serving in an equivalent capacity over and above a basic asset-based advisory fee. Performance-based fees or allocations could create an incentive for a manager of an Investment Fund to choose riskier or more speculative underlying investments than would otherwise be the case.

"Soft Dollar" Payments. In selecting brokers, banks, and dealers to effect portfolio transactions, certain managers of Investment Funds may consider such factors as price, the ability of brokers, banks, and dealers to effect transactions, their facilities, reliability, and financial responsibility, as well as any products or services provided, or expenses paid, by such brokers, banks, and dealers. Products and services may include research items used by the managers of Investment Funds in making investment decisions, and expenses may include general overhead expenses of such manager. Such "soft dollar" benefits may cause a manager of an Investment Fund to execute a transaction with a specific broker, bank, or dealer even though it may not offer the lowest transaction fees.

Investment Fund Operations Not Transparent. The Adviser will not be able to control or monitor the activities of the Investment Funds on a continuous basis. An Investment Fund may use investment strategies that differ from its

past practices and are not fully disclosed to the Adviser and that involve risks that are not anticipated by the Adviser. Investment Funds may have limited operating history and investment advisers of Investment Funds may have limited experience in managing assets.

Valuation of the Fund's Investments. As market prices are not readily available for all or most Investment Funds in which the Master Fund invests, the Master Fund's valuation procedures provide that the fair value of the Master Fund's investments in Investment Funds ordinarily will be the value determined for each Investment Fund in accordance with the Investment Fund's valuation policies and provided to the Master Fund. Although the Adviser reviews the valuation procedures used by the investment advisers of the Investment Funds, the Adviser and the Board have little or no means of independently verifying valuations provided by such investment advisers. In calculating its net asset value, although the Master Fund reviews other relevant factors, the Master Fund relies significantly on values of Investment Funds that are reported by the Investment Funds themselves. The Master Fund will not have information about the securities in which the Investment Funds invest or their valuation. The Fund relies on the net asset value reported by the Master Fund in determining its own net asset value. For more information on the valuation of the Fund's investments, including the valuation of the

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Master Fund's investments in Investment Funds, and related risks, see "Net Asset Valuation."

As a general matter, the governing instruments of the Investment Funds provide that any securities or investments that are illiquid, not traded on an exchange or in an established market, or for which no value can be readily determined, are assigned such fair value as the respective Investment Fund Managers may determine in their judgment based on various factors. Such factors include, but are not limited to, dealer quotes or independent appraisals. Such valuations may not be indicative of what actual fair market value would be in an active, liquid, or established market. An Investment Fund's investment adviser may face a conflict of interest in valuing the Investment Fund's portfolio securities because their values will affect the compensation of the Investment Fund's investment adviser.

Other Accounts Advised by Investment Fund Managers. The managers of the Investment Funds may manage other accounts (including other accounts in which such managers may have an interest) which, together with accounts already being managed, could increase the level of competition for the same trades the relevant Investment Fund might otherwise make, including the priorities of order entry. This could make it difficult or impossible to take or liquidate a position in a particular security or futures contract at a price indicated by a manager's strategy.

Litigation and Enforcement Risk. An Investment Fund's investment adviser might accumulate substantial positions in the securities of a specific company and engage in a proxy fight, become involved in litigation, or attempt to gain control of a company. Under such circumstances, an Investment Fund's investment adviser conceivably could be named as a defendant in a lawsuit or regulatory action. There have been a number of widely reported instances of violations of securities laws through the misuse of confidential information, diverting or absconding with hedge fund assets, falsely reporting hedge fund values and performance, and other violations of the securities laws. Such violations may result in substantial liabilities for damages caused to others, for the disgorgement of profits realized, and for penalties. Investigations and enforcement proceedings are ongoing and it is possible that hedge funds may be charged with involvement in such violations. If that were the case, the performance records of the hedge funds would be misleading. Furthermore, if an Investment Fund has engaged in such violations, the Master Fund could be exposed to losses.

Possibility of Fraud and Other Misconduct. When the Master Fund allocates assets to an Investment Fund, the Master Fund does not have custody of the assets or control over their investment by the Investment Fund. An Investment Fund could divert or abscond with the assets, fail to follow agreed-upon investment strategies, provide false reports of operations, or engage in other misconduct.

Institutional Risk. Institutions, such as brokerage firms, banks, or limited partnerships, generally have custody of the Fund's assets and the assets of the Investment Funds. Often these assets are not registered in the name of the Fund or the Investment Fund. Bankruptcy or fraud at one of these institutions could impair the operational capabilities or the capital position of the Fund and/or the Investment Fund. The Fund attempts to limit any direct investment transactions to well-capitalized and established financial institutions and brokerage firms in an effort to mitigate such risks.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Sole Principal Managers. Some of the Investment Funds to which the Master Fund may allocate capital may be or consist of only one principal. If that individual died or became incapacitated, the Fund might sustain losses.

Multiple Levels of Fees and Expenses. Although in many cases investor access to the Investment Funds may be limited or unavailable, an investor who meets the conditions imposed by an Investment Fund may be able to invest directly with the Investment Fund. By investing in Investment Funds indirectly through the Fund as an investor in the Master Fund, the investor bears asset-based management fees at the Master Fund level, in addition to any asset-based management and performance-based fees and allocations at the Investment Fund level and the Incentive Allocation at the Fund level. Moreover, an investor in the Fund bears a proportionate share of the fees and expenses of the Fund and the Master Fund (including operating costs, distribution expenses, brokerage transaction expenses, and administrative fees) and, indirectly, similar expenses of the Investment Funds. Thus, an investor in the Fund may be subject to higher operating expenses than if he or she invested in another closed-end fund with a different investment focus. The Offshore Fund's expenses are expected to be minimal and are borne by the Adviser or an affiliate of the Adviser.

Each Investment Fund generally is subject to a performance-based fee or allocation, irrespective of the performance of other Investment Funds and the Master Fund generally. Accordingly, an investment adviser to an Investment Fund with positive performance may receive performance-based compensation from the Investment Fund, and thus indirectly from the Fund and its Members, even if the Fund's overall performance is negative. Generally, fees payable to investment advisers of the Investment Funds range from 1% to 3% (annualized) of the average net asset value of the Master Fund's investment, and incentive allocations or fees generally range from 10% to 25% of an Investment Fund's net profits. The performance-based compensation received by an investment adviser of an Investment Fund also may create an incentive for that investment adviser to make investments that are riskier or more speculative than those that it might have made in the absence of the performance-based fee or allocation. That compensation may be based on calculations of realized and unrealized gains made by the investment adviser without independent oversight.

Estimates. The net asset values received by the Master Fund from Investment Funds and used to calculate the Master Fund's net asset value (upon which the Fund's Net Asset Value will be based), and therefore for the payment of repurchase proceeds and the issuance of additional Interests, are only estimates and may differ materially from actual valuations. The Master Fund relies on these estimates in calculating the Master Fund's net asset value (and, accordingly, the Fund's net asset value) for reporting, subscriptions, repurchases, fees, and other purposes and generally will not make any adjustments with respect to withdrawal payments or the issuance of Interests.

Turnover. The Master Fund's activities involve investment in the Investment Funds, which may invest on the basis of short-term market considerations. The turnover rate within the Investment Funds may be significant, potentially involving substantial brokerage commissions and fees. The Master Fund has no control over this turnover. As a result of this turnover, it is anticipated that the Fund's income and gains, if any, will be primarily derived from ordinary income and short-term capital gains. In addition, the withdrawal of the Master Fund from an Investment Fund could involve expenses to the Master Fund under the terms of the Master Fund's investment.

Changes in Investment Funds and Allocations. The Adviser may from time to time select new or replacement Investment Funds and change the percentage of Master Fund assets allocated to each Investment Fund. These changes will be made in the Adviser's sole discretion, subject to the Investment Funds' liquidity constraints. The Master Fund's success (and, therefore, the Fund's) depends to

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

a great extent on the Adviser's ability to identify and allocate assets successfully among Investment Funds.

Other Trading Strategies. Certain of the Investment Funds may employ strategies for which no specific "risk factors" are provided. Nevertheless, such strategies should be considered to be speculative, volatile, and, in general, no less risky than other strategies more fully described herein.

Inability to Vote or Exercise Control. The Master Fund may elect to hold non-voting securities in Investment Funds or waive the right to vote in respect of an Investment Fund. In such cases, the Master Fund will not be able to vote on matters that require the approval of the interestholders of the Investment Fund, including matters adverse to the Master Fund's interests. The Master Fund does not intend to acquire a sufficient percentage of the economic interests in any Investment Fund to cause the Master Fund to control the Investment Fund. Applicable securities and

26

banking rules and interpretations may limit the percentage of voting or non-voting securities of any Investment Fund that may be held by the Master Fund.

Inability to Invest in Investment Funds. In the event that the Master Fund is able to make investments in Investment Funds only at certain times, the Master Fund may invest any portion of its assets that is not invested in Investment Funds in money market securities, or other liquid assets pending investment in Investment Funds. During this time that the Master Fund's assets are not invested in Investment Funds, that portion of the Master Fund's assets will not be used to pursue the Master Fund's investment objective.

Indemnification of Investment Advisers. The Investment Funds may agree to indemnify certain of their investment advisers from any liability, damage, cost, or expense arising out of, among other things, certain acts or omissions. The investment advisers of the Investment Funds often have broad limitations on liability and indemnification rights.

Indirect Investment in Investment Funds. Any transaction by which the Master Fund indirectly gains exposure to an Investment Fund by the purchase of a structured note, swap, or other contract is subject to special risks. The value of such instruments depends largely upon price movements in the underlying Investment Funds to which such instruments are linked. Therefore, many of the risks applicable to the underlying asset (i.e., the Investment Funds themselves) are also applicable to such instruments. The Master Fund's use of such instruments can result in volatility, and each type of instrument is subject to special risks. See "Principal Risk Factors, Types of Investments, and Investment Strategies of the Investment Funds -- Special Investment Instruments and Techniques, Including Derivative Instruments." Indirect investments will generally be subject to transaction and other fees, which will reduce the value of the Master Fund's investment. There can be no assurance that the Master Fund's indirect investment in an Investment Fund will have the same or similar results as a direct investment in the Investment Fund, and the Master Fund's value may decrease as a result of such indirect investment. Also, the Master Fund's indirect investment in an Investment Fund carries with it the credit risk associated with the counterparty.

Investments in Foreign Markets. Certain of the Investment Funds may be organized outside of the United States. In addition, investments by the Investment Funds in foreign financial markets, including markets in developing

countries, present political, regulatory, and economic risks that are significant and that may differ in kind and degree from risks presented by investments in the United States and pose a range of potential risks that could include, depending upon the country involved, expropriation, confiscatory taxation, political or social instability, illiquidity, price volatility, and market manipulation. In addition, less information may be available regarding non-U.S. issuers, and non-U.S. companies may not be subject to accounting, auditing, and financial reporting standards and requirements comparable to or as uniform as those of U.S. companies. Further, non-U.S. securities may not be as liquid as U.S. markets. Transaction costs of investing outside the U.S. are generally higher than in the U.S. Higher costs result because of the cost of converting a non-U.S. currency to dollars, the payment of fixed brokerage commissions on some non-U.S. exchanges, and the imposition of transfer taxes or transaction charges by non-U.S. exchanges. There is generally less government supervision and regulation of exchanges, brokers, and issuers outside the U.S. than there is in the U.S., and there is greater difficulty in taking appropriate legal action in non-U.S. courts. Non-U.S. markets also have different clearance and settlement procedures which in some markets have at times failed to keep pace with the volume of transactions, thereby creating substantial delays and settlement failures that could adversely affect the Fund's performance.

Additional Government or Market Regulation. Market disruptions and the dramatic increase in the capital allocated to alternative asset management during recent years have led to increased governmental as well as self-regulatory organization scrutiny of the "hedge fund" industry in general. The SEC recently adopted regulations requiring substantially all "hedge fund" managers (including those operating in the same or substantially similar manner as the Adviser and most managers of the Investment Funds) to register with the SEC by February 2006 as "investment advisers" under the Advisers Act. The Adviser is already registered as an investment adviser under the Advisers Act. The recently adopted regulations grant an exemption from registration pursuant to which a "hedge fund" manager may avoid registration in situations where it "locks up" (for a period of at least two years) any capital contributed by investors on or after that date. It is not possible to predict the degree to which Investment Fund managers will seek to take advantage of this exemption from registration, nor is it possible to predict the overall effect on the liquidity of the Fund's portfolio if the Investment Fund managers seek to take advantage of this exemption. In addition, certain legislation proposing greater regulation of the industry is periodically considered by

27

Congress, as well as by the governing bodies of non-U.S. jurisdictions. It is impossible to predict what, if any, changes in the regulations applicable to the Fund, the Offshore Fund, the Master Fund, the Adviser, the Investment Funds, the Investment Fund managers, the markets in which they trade and invest, or the counterparties with which they do business may be instituted in the future. Any such regulation could have a material adverse impact on the profit potential of the Fund, as well as require increased transparency as to the identity of Members.

PRINCIPAL RISK FACTORS, TYPES OF INVESTMENTS, AND
INVESTMENT STRATEGIES OF THE INVESTMENT FUNDS

General

This section discusses the types of investments generally made by the

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Investment Funds in which the Master Fund invests and the related risk factors with respect to such investments. It is possible that an Investment Fund will make an investment that is not described below, which would be subject to its own particular risks. Unless expressly stated otherwise herein, an investor's determination to invest in the Fund should not be based on a belief that the Investment Funds will not make a certain type of investment. The impact of a particular risk in an Investment Fund will, in turn, have a corresponding impact on the Fund via its indirect investment in the Master Fund.

The Fund's investment program entails substantial risks. Investors should expect the value of the Fund's net assets to fluctuate. Due to the types of investments and investment strategies to be used by the Investment Funds, fluctuations in the net asset value of the Fund may be more volatile than is typical for traditional mutual funds. There can be no assurance that the Fund's or the Investment Funds' investment objectives will be achieved or that their investment programs will be successful. In particular, each Investment Fund's use of leverage, short sales, and derivative transactions and limited diversification can, in certain circumstances, cause the value of an Investment Fund's portfolio to appreciate or depreciate at a greater rate than if such techniques were not used, which, in turn, could result in significant losses to the Fund.

All securities investments are subject to the risk of loss of capital. The value of the Fund's net assets will fluctuate based on the fluctuation in the value of the Investment Funds in which the Master Fund invests. To the extent that the portfolio of an Investment Fund is concentrated in securities of a single issuer or issuers in a single industry or market sector, the risk of the Fund's indirect investment in that Investment Fund is increased.

The investment environment in which the Investment Funds invest may be influenced by, among other things, interest rates, inflation, politics, fiscal policy, current events, competition, productivity, and technological and regulatory change. Investors should consider the Fund as a supplement to an overall investment program and should invest only if they are willing to undertake the risks involved. Investors may experience a significant decline in the value of their investments and could lose money. Prospective investors should consider the Fund a speculative investment, and should invest in the Fund only if they can sustain a complete loss of their investment.

Equity Securities

Investment Funds' portfolios may include long and short positions in common stocks, preferred stocks, and convertible securities of U.S. and foreign issuers. Investment Funds also may invest directly in foreign securities or in depository receipts relating to foreign securities. See "Foreign Securities" and "Principal Risk Factors Relating to the Fund's Structure -- Investment Risks -- Investments in Foreign Markets." Equity securities fluctuate in value, often based on factors unrelated to the value of the issuer of the securities.

Investment Funds may invest in equity securities without restriction as to the market capitalization of issuers, including securities of companies with market capitalizations that are small compared to other publicly traded companies (including micro-cap companies). Smaller companies may have limited product lines, markets, or financial resources or may depend on a small inexperienced management group. Securities of small companies may trade less frequently and in lesser volume than more widely held securities, and their values may fluctuate more abruptly or erratically than securities of larger companies. They may also trade in the over-the-counter market or on a regional exchange, or may otherwise have limited liquidity. These securities may therefore be more vulnerable to

adverse market developments than securities of larger companies. Also, there may be less publicly available information about smaller companies or less market interest in their securities as compared to larger companies, and it may take longer for the prices of the securities to reflect the full value of a company's earnings potential or assets.

Fixed Income Securities

Investment Funds may invest in fixed income securities. Investment in these securities may offer opportunities for income and capital appreciation, and may also be used for temporary defensive purposes and to maintain liquidity. Fixed income securities are subject to the risk of the issuer's inability to meet principal and interest payments on its obligations (i.e., credit risk) and are subject to price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer, and general market liquidity (i.e., market risk).

Foreign Securities

Investment Funds may invest in securities of foreign issuers and in depository receipts, such as American Depositary Receipts ("ADRs"), that represent indirect interests in securities of foreign issuers. Investing in foreign securities involves special risks and considerations not typically associated with investing in U.S. securities. Foreign securities in which the Investment Funds may invest may be listed on foreign securities exchanges or traded in foreign over-the-counter markets. Foreign securities markets generally are not as developed or efficient or as strictly regulated as securities markets in the United States. Securities of some foreign issuers are less liquid and more volatile than securities of comparable U.S. issuers. Similarly, volume and liquidity in most foreign securities markets are lower than in the United States, and at times, volatility of prices can be greater than in the United States. Investment Funds will be subject to risks of possible adverse political and economic developments, seizure or nationalization of foreign deposits, or adoption of governmental restrictions that might adversely affect or restrict the payment of principal and interest on foreign securities to investors located outside the country of the issuer, whether from currency blockage or otherwise. Since foreign securities often are purchased with and payable in currencies of foreign countries, their value may be affected favorably or unfavorably by changes in currency rates and exchange control regulations. These risks are accentuated with respect to investments in emerging market countries.

To the extent that Investment Funds invest in emerging markets countries, the political, regulatory, and economic risks inherent in such investments are significant and may differ in kind and degree from the risks presented by investments in major securities markets in developed countries. Additional risks of emerging markets countries may include: greater social, economic, and political uncertainty and instability; more substantial governmental involvement in the economy; less governmental supervision and regulation; unavailability of certain currency hedging techniques; companies that are newly organized and small; differences in auditing and financial reporting standards, which may result in unavailability of material information about issuers; and less developed legal systems.

Investment income received by an Investment Fund from sources within foreign countries may be subject to foreign income taxes withheld at the source. The United States has entered into tax treaties with many foreign countries which

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

entitle the Investment Fund to a reduced rate of such taxes or exemption from taxes on such income. It is impossible to determine the effective rate of foreign tax in advance since the amounts of the Investment Fund's assets to be invested within various countries is not known.

Foreign Currency Transactions

The Investment Funds may engage in foreign currency transactions for a variety of purposes, including to "lock in" the U.S. dollar price of the security, between trade and settlement date, the value of a security an Investment Fund has agreed to buy or sell, or to hedge the U.S. dollar value of securities the Investment Fund already owns. The Investment Funds may also engage in foreign currency transactions for non-hedging purposes to generate returns.

Foreign currency transactions may involve, for example, the purchase of foreign currencies for U.S. dollars or the maintenance of short positions in foreign currencies. Foreign currency transactions may involve an Investment Fund agreeing to exchange an amount of a currency it does not currently own for another currency at a future date.

29

An Investment Fund would typically engage in such a transaction in anticipation of a decline in the value of the currency it sells relative to the currency that the Investment Fund has contracted to receive in the exchange. An investment adviser's success in these transactions will depend principally on its ability to predict accurately the future exchange rates between foreign currencies and the U.S. dollar.

Concentration of Investments; Non-Diversified Portfolios

Investment Funds may target or concentrate their investments in particular markets, sectors, or industries. Investment Funds also may be considered to be non-diversified and invest without limit in a single issuer. As a result of any such concentration of investments or non-diversified portfolios, the portfolios of such Investment Funds are subject to greater volatility than if they had non-concentrated and diversified portfolios. Those Investment Funds that concentrate in a specific industry or target a specific sector will also be subject to the risks of that industry or sector, which may include, but not be limited to, rapid obsolescence of technology, sensitivity to regulatory changes, minimal barriers to entry, and sensitivity to overall market swings.

Leverage

Some or all of the Investment Funds may borrow money from brokers and banks for investment purposes. This practice, which is known as engaging in "leverage" or making purchases on "margin," is speculative and involves certain risks.

Trading equity securities on margin involves an initial cash requirement representing at least 50% of the underlying security's value with respect to transactions in U.S. markets and varying (typically lower) percentages with respect to transactions in foreign markets. Borrowings to purchase equity securities typically will be secured by the pledge of those securities. The financing of securities purchases may also be effected through reverse repurchase agreements with banks, brokers, and other financial institutions.

Although leverage will increase investment return if an Investment Fund earns a greater return on the investments purchased with borrowed funds than it pays

for the use of those funds, the use of leverage will decrease investment return if an Investment Fund fails to earn as much on investments purchased with borrowed funds as it pays for the use of those funds. The use of leverage will therefore magnify the volatility of changes in the value of the Fund's investment in the Investment Fund. In the event that an Investment Fund's equity or debt instruments decline in value, the Investment Fund could be subject to a "margin call" or "collateral call," pursuant to which the Investment Fund must either deposit additional collateral with the lender or suffer mandatory liquidation of the pledged securities to compensate for the decline in value. In the event of a sudden, precipitous drop in value of an Investment Fund's net assets, the Investment Fund's investment adviser might not be able to liquidate assets quickly enough to pay off the Investment Fund's borrowing. Money borrowed for leveraging will be subject to interest costs that may or may not be recovered by return on the securities purchased. The Investment Fund also may be required to maintain minimum average balances in connection with its borrowings or to pay a commitment or other fee to maintain a line of credit, either of which requirements would increase the cost of borrowing over the stated interest rate.

Investment Funds may not be subject to the same or similar asset coverage requirements that the 1940 Act imposes in connection with borrowing. Therefore, Investment Funds may be able to achieve greater levels of indebtedness and, consequently, greater risk due to leveraging or high interest payments, than would be permitted for a registered investment company.

In order to obtain "leveraged" market exposure in certain investments and to increase overall returns, an Investment Fund may purchase options and other synthetic instruments that do not constitute "indebtedness" for purposes of any applicable or self-imposed asset coverage requirement. These instruments may nevertheless involve significant economic leverage and therefore may, in some cases, involve significant risks of loss.

30

Short Sales

Some or all of the Investment Funds may attempt to limit their exposure to a possible market decline in the value of their portfolio securities through short sales of securities that the Investment Funds believe possess volatility characteristics similar to those being hedged. In addition, the Investment Funds may use short sales for non-hedging purposes to pursue their investment objectives. For example, an Investment Fund may "short" a security of a company if, in its investment adviser's view, the security is over-valued in relation to the issuer's prospects for earnings growth.

A short sale involves the sale of a security that is borrowed from a broker or other institution to complete the sale. Short sales expose an Investment Fund to the risk that it will be required to acquire, convert, or exchange securities to replace the borrowed securities (also known as "covering" the short position) at a time when the securities sold short have appreciated in value, thus resulting in a loss to an Investment Fund. The risk of loss on a short sale is theoretically unlimited.

Reverse Repurchase Agreements

Reverse repurchase agreements involve a sale of a security by an Investment Fund to a bank or securities dealer and the Investment Fund's simultaneous agreement to repurchase that security for a fixed price (reflecting a market

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

rate of interest) on a specific date. These transactions involve a risk that the other party to a reverse repurchase agreement will be unable or unwilling to complete the transaction as scheduled, which may result in losses to the Investment Fund. Reverse repurchase transactions are a form of leverage that may also increase the volatility of an Investment Fund's investment portfolio.

Purchasing Initial Public Offerings

Investment Funds may purchase securities of companies in initial public offerings or shortly thereafter. Special risks associated with these securities may include a limited number of shares available for trading, unseasoned trading, lack of investor knowledge of the issuer, and limited operating history. These factors may contribute to substantial price volatility for the shares of these companies. Such volatility can affect the value of the Fund's investment in Investment Funds that invest in such shares. The limited number of shares available for trading in some initial public offerings may make it more difficult for an Investment Fund to buy or sell significant amounts of shares without having an unfavorable impact on prevailing market prices. In addition, some companies in initial public offerings are involved in relatively new industries or lines of business, which may not be widely understood by investors. Some of these companies may be undercapitalized or regarded as developmental stage companies, without revenues or operating income, or the near-term prospects of achieving them.

Special Investment Instruments and Techniques, Including Derivative Instruments

Investment Funds may utilize a variety of special investment instruments and techniques (described below) to hedge their portfolios against various risks (such as changes in interest rates or other factors that affect security values) or for non-hedging purposes to pursue their investment objectives. These strategies may be executed through transactions in derivative instruments ("Derivatives"), as well as forward contracts, swap agreements, and when-issued and forward commitment securities. The instruments the Investment Funds may use and the particular manner in which they may be used can be expected to change over time as new instruments and techniques are developed or regulatory changes occur. Certain of the special investment instruments and techniques that the Investment Funds may use are speculative and involve a high degree of risk, particularly in the context of non-hedging transactions.

Lending Portfolio Securities

Some or all of the Investment Funds may lend securities from their portfolios to brokers, dealers, and other financial institutions needing to borrow securities to complete certain transactions. The lending portfolio continues to be entitled to payments of amounts equal to the interest, dividends, or other distributions payable on the loaned securities which affords it an opportunity to earn interest on the amount of the loan and on the loaned securities'

collateral. Investment Funds may not be subject to the same borrowing limitations that apply to registered investment companies. An Investment Fund might experience loss if the institution with which it has engaged in a portfolio loan transaction breaches its agreement with the Investment Fund.

Restricted and Illiquid Investments

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Investment Funds may acquire securities through private placements, which may have contractual restrictions on their resale, preventing their disposition by the Fund at any time when such sale would be desirable. Investment Funds may also acquire securities for which no liquid market exists. The market prices, if any, of such investments tend to be more volatile, and it may be impossible to sell such investments when desired or to realize their fair value in the event of a sale. Moreover, securities in which Investment Funds may invest include those that are not listed on a stock exchange or traded on an over-the-counter market. As a result of the absence of a public trading market for these securities, they may be less liquid than publicly traded securities. There may be substantial delays in attempting to sell non-publicly traded securities. Although these securities may be resold in privately negotiated transactions, the prices realized from these sales could be less than those originally paid. Further, companies whose securities are not registered or publicly traded are not subject to the disclosure and other investor protection requirements which would be applicable if their securities were registered or publicly traded.

Where registration is required to sell a security, an Investment Fund may be obligated to pay all or part of the registration expenses, and a considerable period may elapse between the decision to sell and the time the Investment Fund may be permitted to sell a security under an effective registration statement. If, during such period, adverse market conditions were to develop, the Investment Fund might obtain a less favorable price than prevailed when it decided to sell. Investment Funds may be unable to sell restricted and other illiquid securities at the most opportune times or at prices approximating the value at which they purchased such securities.

Investment Funds' Investment Strategies

Many of the Investment Funds in which the Master Fund invests seek, among other things, to utilize specialized investment strategies, follow allocation methodologies, apply investment models or assumptions, achieve a certain level of performance relative to specified benchmarks, and enter into hedging and other strategies intended, among other things, to affect the Investment Funds' performance, risk levels, and/or market correlation. There can be no assurance that any Investment Fund will have success in achieving any goal related to such practices. The Investment Funds may be unable or may choose in their judgment not to achieve such goals.

Limits on Hedged Strategies

While certain Investment Funds may use "market neutral" or "relative value" hedging or arbitrage strategies, this in no respect should be taken to imply that the Master Fund's investments with such Investment Funds are without risk. Substantial losses may be recognized on "hedge" or "arbitrage" positions, and illiquidity and default on one side of a position can effectively result in the position being transformed into an outright speculation. Every market neutral or relative value strategy involves exposure to some second order risk of the market, such as the implied volatility in convertible bonds or warrants, the yield spread between similar term government bonds, or the price spread between different classes of stock for the same underlying firm. Further, many "market neutral" Investment Funds employ limited directional strategies that expose such Investment Funds to certain market risks.

Reliance on Corporate Management and Financial Reporting

Certain of the strategies implemented by the Investment Funds rely on the financial information made available by the issuers in which the Investment Funds place assets. Neither the Adviser nor the managers of the Investment Funds have the ability to independently verify the financial information

disseminated by these issuers and are dependent upon the integrity of both the management of these issuers and the financial reporting process in general. Recent events have demonstrated the material losses which investors such as the Fund can incur as a result of corporate mismanagement, fraud, and accounting irregularities.

32

Legal, Tax, and Regulatory Risks

Legal, tax, and regulatory changes affecting the Investment Funds could occur during the term of the Fund which may materially adversely affect the Fund. For example, the regulatory and tax environment for derivative instruments in which an Investment Fund may participate is evolving, and changes in the regulation or taxation of derivative instruments may materially adversely affect the value of derivative instruments held by the Investment Fund, the ability of the Investment Fund to pursue its trading strategies, and consequently, the Fund's performance. Similarly, the regulatory environment for leveraged investors and for hedge funds generally is evolving, and changes in the direct or indirect regulation of leveraged investors or hedge funds may materially adversely affect the ability of the Fund to pursue its investment objective or strategies.

Limits of Risk Disclosure

The above discussions and the discussions in the Fund's SAI on various risks associated with the Fund, the Offshore Fund, the Master Fund, the Interests, and the Investment Funds are not, and are not intended to be, a complete enumeration or explanation of the risks involved in an investment in the Fund. Prospective investors should read this entire Prospectus, the Fund's SAI, and the Operating Agreement and consult with their own advisers before deciding whether to invest in the Fund. In addition, as the Fund's investment program or market conditions change or develop over time, an investment in the Fund may be subject to risk factors not currently contemplated or described in this Prospectus.

INVESTOR SUITABILITY

An investment in the Fund involves a considerable amount of risk. It is possible that an investor may lose some or all of its money. Before making an investment decision, each prospective investor should, among other things: (i) consider the suitability of the investment with respect to its investment objectives and personal situation; and (ii) consider other factors including its personal net worth, income, risk tolerance, tax situation, and liquidity needs. An investor should invest in the Fund only money that it can afford to lose, and it should not invest in the Fund money to which it will need access in the short-term or on a frequent basis. In addition, prospective investors should be aware of how the Fund's investment strategies fit into its overall investment portfolio because the Fund is not designed to be, by itself, a well-balanced investment for a particular investor.

MANAGEMENT OF THE FUND

The Board

The Board of the Fund and the Master Fund has overall responsibility to manage and control the business operations of the Fund and the Master Fund on behalf of the Members. At least a majority of the Board are and will be persons who are not "interested persons," as defined in Section 2(a)(19) of the 1940 Act

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

("Independent Directors"). See "Directors and Officers" in the Fund's SAI for identities of the Directors and executive officers of the Fund, brief biographical information regarding each of them, and other information regarding election of the Board and Board membership. The Offshore Fund has two members, the Fund and the Adviser (which holds only a nominal, non-voting interest). The Fund is the managing member of the Offshore Fund, and the members have delegated the day-to-day management and general oversight responsibilities of the Offshore Fund to the Fund. The Offshore Fund therefore is effectively controlled by the Board of the Fund.

The Adviser

Under the supervision of the Board and pursuant to the Investment Management Agreement, DBIM, a registered investment adviser with headquarters at 25 DeForest Avenue, Summit, New Jersey 07901, provides investment supervisory services to the Master Fund, including serving as investment adviser for the Master Fund. As the Master Fund's investment adviser, DBIM makes the Master Fund's investment decisions. DBIM buys and sells securities for the Master Fund and conducts the research that leads to the purchase and sale decisions. As necessary, DBIM is also responsible for selecting brokers and dealers and for negotiating brokerage commissions and dealer charges or other transaction costs.

33

DBIM is an indirect, wholly owned subsidiary of Deutsche Bank, an international commercial and investment banking group. Deutsche Bank is a major global banking institution that is engaged in a wide range of financial services activities, including investment management, mutual funds, retail, private, and commercial banking, investment banking, and insurance.

DB Absolute Return Strategies is the marketing name for the absolute return strategies activities of Deutsche Bank AG and certain of its subsidiaries, including DBIM, Deutsche Asset Management, Inc., Deutsche Bank Trust Company Americas, Deutsche Bank Securities Inc., Deutsche Asset Management Investmentgesellschaft mbH Frankfurt am Main, Deutsche Asset Management (Australia) Limited, and Deutsche Asset Management Limited. DBIM serves as investment adviser to the Master Fund and other institutional and privately managed accounts. As of April 1, 2005, DB Absolute Return Strategies (including DBIM) had total assets of approximately US \$8.2 billion under management. As of December 31, 2004, Deutsche Bank had total assets of approximately U.S. \$730 billion under management.

DBIM and its affiliates serve as investment adviser to other registered and/or private investment funds that utilize investment programs similar to that of the Master Fund, and DBIM and/or its affiliates may in the future serve as an investment adviser or general partner of other registered and/or private investment companies with similar investment programs.

Subject to the general supervision of the Board and in accordance with the investment objective, policies, and restrictions of the Master Fund, DBIM provides the Master Fund with ongoing investment guidance, policy direction, and monitoring of the Master Fund pursuant to the Investment Management Agreement. The Investment Management Agreement may be terminated by the Board, by a majority vote of the Members, or by the Adviser.

Portfolio Manager

The DB Absolute Return Strategies Fund of Funds team ("DB ARS-FOF") is

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

primarily responsible for the investment management of the Master Fund with respect to the Adviser. The DB ARS-FOF team is comprised of a group of dedicated analysts with responsibility for performing due diligence and analysis on Investment Fund investments and for the portfolio management of the Master Fund. A senior analyst is responsible for the day-to-day investment management of the Master Fund and is supported by a back-up analyst. Mr. Steven L. Bossi, who had been Deputy Head of the DB ARS-FOF team and a portfolio manager thereon, has been promoted to Global Head of Fund-of-Funds for DB Absolute Return Strategies and is primarily responsible for management of the DB ARS-FOF team and the investment management and development of the Adviser's multi-manager hedge fund products. Mr. Bossi also manages a DB Absolute Return Strategies multi-strategy fund of funds and is lead analyst for several relative value and event-driven strategies. Mr. Bossi joined the Adviser in 2001 after nine years of experience as president and chief operating officer of AI International Corporation, an investment advisory firm, where he actively managed global investments in traditional and alternative markets, including equity, fixed income, emerging markets, distressed securities, merger arbitrage, convertible arbitrage, and private equity securities. Prior to that, Mr. Bossi was a fixed income portfolio manager at Aetna Life & Casualty. Mr. Bossi received a B.S. from the University of Connecticut and an M.B.A. from the University of Chicago.

The Fund's SAI provides additional information about the portfolio managers' investments in the Fund, a description of their compensation structure, and information regarding other accounts they manage.

The Administrator

PFPC, whose principal business address is 400 Bellevue Parkway, Wilmington, Delaware 19809, has responsibility for providing administrative services and assisting the Fund, the Offshore Fund, and the Master Fund with operational needs pursuant to separate administration agreements with each of the Fund, the Offshore Fund, and the Master Fund (the "Administration Agreements"). Pursuant to the Administration Agreements, PFPC provides the following services, among others: journalizing investment, capital, and income and expense activities; verifying investment instructions before directing cash flows and confirming receipt of money at Investment Funds in accordance with PFPC's internal procedures; maintaining individual ledgers for investment securities; maintaining historical tax lots for each security; recording and reconciling corporate action activity and all other capital changes; reconciling cash and investment balances of the Fund and the Master Fund with the Fund's and the Master Fund's

34

custodian and providing information about available cash balances; calculating contractual expenses, including Investment Management Fees and Incentive Allocations; preparing financial statements; monitoring expense accruals; controlling all disbursements and authorizing disbursements from the Fund's and the Master Fund's account with the custodian; calculating capital gains and losses; determining net investment income; assisting with the preparation and distribution of portfolio management reports; obtaining net asset values from Investment Funds and calculating net asset values in accordance with this Prospectus and the Operating Agreement; and preparing regulatory filings. In consideration for these services, the Master Fund pays, and the Fund as an indirect investor in the Master Fund bears, PFPC a fee at the annual rate of 0.08% of the Master Fund's month-end net assets.

PFPC also serves as the Fund's and the Master Fund's transfer and distribution

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

disbursing agent, and has agreed to provide the following services, among others: maintaining the register of Members and entering on such register all issues, transfers, and repurchases of Interests; calculating repurchase prices; allocating income, expenses, gains, and losses to Members' Capital Accounts; preparing and mailing tax forms; preparing and distributing interim tax reports; mailing prospectuses; processing payments; and confirming account activity. The Fund compensates PFPC for its services under the Administration Agreements based on the Fund's proportional investment in the Master Fund.

PFPC is an affiliate of PFPC Trust Company, the Custodian.

The Fund and the Master Fund also have retained Investment Company Capital Corporation ("ICCC"), an affiliate of DBIM, to provide board-related administration services pursuant to a services agreement. Under this agreement, ICCC, among other things: drafts board meeting agendas and resolutions; prepares and mails board materials; communicates with the Directors; and attends board meetings and drafts board meeting minutes. ICCC is compensated for its services by the Adviser at no additional expense to the Fund.

The Custodian

PFPC Trust Company (the "Custodian"), whose principal business address is 8800 Tinicum Boulevard, 3rd Floor, Philadelphia, Pennsylvania 19153, serves as the custodian of the Fund's, the Offshore Fund's, and the Master Fund's assets pursuant to a custodian services agreement, under which the Custodian, among other things: opens and maintains separate accounts in the Fund's, the Offshore Fund's, and the Master Fund's name; makes cash payments from the accounts for purposes set forth in the agreement; holds securities in accounts; releases and delivers or exchanges securities owned by the Fund, the Offshore Fund, and the Master Fund as set forth in the agreement; collects and receives for the account of the Fund, the Offshore Fund, and the Master Fund all income, property, and similar items; settles purchased securities upon receipt; and furnishes to the Fund, the Offshore Fund, and the Master Fund periodic and special reports, statements, and other information. The Custodian is an affiliate of PFPC, the Fund's, the Offshore Fund's, and the Master Fund's administrator and the Fund's and the Master Fund's transfer and distribution disbursing agent.

FEES, ALLOCATIONS, AND EXPENSES

Investment Management Fee

The Master Fund pays to the Adviser, and the Fund as an indirect investor in the Master Fund bears its allocable share of, an Investment Management Fee at an annual rate equal to 1.0% of the Master Fund's month-end net assets, including assets attributable to the Adviser (or its affiliates) and before giving effect to any repurchases by the Master Fund of interests in the Master Fund. The Investment Management Fee accrues monthly and is payable at the end of each quarter. The Investment Management Fee is an expense payable out of the Master Fund's assets, and is reflected in each Member's Capital Account (including Capital Accounts of the Adviser and its affiliates, if any). Net assets means the total value of all assets under management of the Master Fund, less all accrued debts, liabilities, and obligations of the Master Fund, calculated before giving effect to any repurchase of Interests on the date of calculation.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Incentive Allocation

The Operating Agreement provides that as of each March 31, upon any repurchase of Interests (solely with respect to the Interests repurchased), and upon termination of the Fund (each, a "Performance Period"), a reallocation (the "Incentive Allocation") will be made from the Capital Account of each Member (other than the Adviser) to the Capital Account of the Adviser. The Incentive Allocation is equal to 10% of the amount, if any, by which (i) the net profit, if any, initially allocated to such Member's Capital Account during such Performance Period in excess of the Hurdle (as defined below) for such Performance Period exceeds (ii) the positive balance, if any, as of the beginning of such Performance Period in such Member's Loss Carryforward Account (as defined below); provided, that the Hurdle will be adjusted appropriately for additional Capital Contributions or repurchases made by the relevant Member during such Performance Period. For the period from October 1, 2004 (commencement of operations) to March 31, 2005, the Adviser earned an Incentive Allocation of \$57,188.

The Hurdle Rate is calculated monthly and equals the average of the weekly average 90-day U.S. Treasury bill rates for that month as reported in Federal Reserve Bulletin H-15 (or other available source). The Hurdle is calculated for each Performance Period, is non-cumulative from Performance Period to Performance Period, and is equal to the product of (i) the average of the Hurdle Rates during such Performance Period and (ii) the Net Assets of the relevant Capital Account at the beginning of such Performance Period (adjusted for Capital Contributions and repurchases). For the six months ended March 31, 2005, the average Hurdle Rate was 2.289%.

The "Loss Carryforward Account" with respect to a Capital Account held by each Member is a bookkeeping account which commences at zero and as of the first day of each Performance Period is increased by the aggregate amount of net loss allocated to such Member's Capital Account for the immediately prior Performance Period, and decreased (but not below zero) by the aggregate amount of net profit allocated to such Member's Capital Account for such prior Performance Period. Further adjustments are made to the Loss Carryforward Account in the case of repurchases of part but not all of a Member's Interest to reduce any positive balance by the percentage that the amount of the Interest so repurchased is of the total Capital Account balance before such repurchase. Thus, the Incentive Allocation is applied on a "high water mark" basis such that in the event a Capital Account suffers a net loss in a particular Performance Period, no Incentive Allocation will be made to the Adviser in respect of such Capital Account with respect to such Performance Period or any subsequent Performance Period, until such net loss is first recovered (taking into account interim repurchases of Interests, if any).

Distribution Expenses

Pursuant to an Underwriting and Distribution Services Agreement between the Fund and the Distributor (the "Underwriting Agreement"), the Distributor bears all of its expenses of providing distribution services as described under that agreement. The Fund assumes and pays all charges not specifically assumed or otherwise to be provided by the Distributor under the Underwriting Agreement. The Fund pays (or will enter into arrangements providing that others will pay), among other things: (i) all fees and expenses in connection with the registration of the Fund and the Interests under the United States securities laws and the registration and qualification of Interests for sale in the various jurisdictions in which the Fund will determine it advisable to qualify such Interests for sale; and (ii) the cost of preparing and printing of sufficient copies of the Fund's Prospectus, SAI, and any other sales material (and any supplements or amendments thereto).

The Distributor may enter into related selling group agreements with various broker-dealers, including affiliates of the Distributor, that provide distribution services to investors. The Distributor may also provide distribution services. The Distributor may reallocate to broker-dealers participating in the offering up to the full applicable sale charge of 2.5%. The Distributor, the Adviser, or their affiliates may pay from their own resources additional compensation to brokers and dealers in connection with the sale and distribution of the Interests or servicing of investors. For the period from October 1, 2004 (commencement of operations) to March 31, 2005, the Adviser paid such compensation out of its own resources amounting in the aggregate to \$49,386.

Sales Charges

Investments may be subject to a sales charge of up to 2.5%, subject to waiver or adjustment in the sole discretion of the Distributor. Without limiting the foregoing, the sales charge is expected to be waived for certain institutional investors and certain persons associated with the Adviser or its affiliates. The sales charge will be added to each

36

prospective investor's purchase amount, and will not constitute part of a Member's capital contribution to the Fund or part of the assets of the Fund.

Administrative Fee

The Master Fund pays, and the Fund as an indirect investor in the Master Fund bears its allocable share of, PFPC an administrative fee at an annual rate equal to 0.08% of the Master Fund's month-end net assets, before giving effect to any repurchases by the Master Fund of Interests.

Other Expenses

The Fund pays all of the Fund's or the Master Fund's expenses other than those that the Adviser or an affiliate of the Adviser assumes, including, without limitation: offering expenses associated with each offering; research expenses; data processing costs and expenses; quotation and news services; legal and recording fees and expenses; professional fees (including, without limitation, expenses of consultants and experts) relating to investments; accounting, auditing, administration, infrastructure, risk monitoring, and tax preparation expenses; custodial expenses; taxes; insurance; printing and mailing expenses; costs and expenses related to exchange listings; all investment expenses (i.e., expenses which the Directors or the Adviser reasonably determines to be directly related to the investment of the Fund's assets, such as brokerage commissions, clearing and settlement charges, bank service fees, spreads, interest expenses, borrowing charges, and short dividends, and other investment expenses); pro rata costs and expenses of the Investment Funds including management fees to managers of Investment Funds (generally ranging from 1% to 3% of assets under management) and performance fees or allocations to such managers (generally ranging from 10% to 25% of net profits); costs and expenses of entering into and utilizing credit facilities; the Administrator's fees and expenses; and any extraordinary expenses (such as litigation and indemnification of the Directors). Included in the investment expenses borne by the Fund and the Master Fund are the reasonable out-of-pocket expenses of the Adviser, for example, travel expenses related to due diligence investigations of existing and prospective Investment Funds. The Adviser and the Administrator each bear the costs of providing their

respective services to the Fund, the Master Fund, and the Offshore Fund, including their general overhead, salary, and office expenses. The Fund also bears, as an indirect investor in the Master Fund, its allocable portion of the fees and expenses of the Master Fund. The Fund may need to sell portfolio securities to pay fees and expenses, which could cause the Fund to realize taxable gains.

The Fund's offering expenses are being amortized over a twelve month period beginning upon commencement of the Fund's operations and ending on September 30, 2005. The organizational expenses of the Fund, the Offshore Fund, and the Master Fund were paid by the Adviser.

The Offshore Fund is expected to have minimal expenses, and the Adviser, or an affiliate of the Adviser, has agreed to bear all operating expenses of the Offshore Fund.

The Investment Funds bear various fees and expenses in connection with their operations. These fees and expenses are similar to those to be incurred by the Fund. The Investment Funds pay asset-based fees to their investment advisers and generally pay performance-based fees or allocations to the investment advisers, which effectively reduce the investment returns of the Investment Funds. These expenses, fees, and allocations are in addition to those incurred by the Fund and/or the Master Fund itself. As an indirect investor in the Investment Funds, the Fund bears a portion of the expenses and fees of the Investment Funds. Fees payable to investment advisers of the Investment Funds generally range from 1% to 3% (annualized) of the average net asset value of the Master Fund's investment, and incentive allocations or fees generally range from 10% to 25% of an Investment Fund's net profits.

Expense Limitation Agreement

Pursuant to the Expense Limitation Agreement, the Adviser has contractually agreed to waive its fees and/or reimburse the Fund's expenses to the extent necessary to ensure that the Fund's annualized expenses (excluding the Incentive Allocation, if any) will not exceed 1.75%. The initial term of the Expense Limitation Agreement ended on March 31, 2005. The Adviser agreed to renew the Expense Limitation Agreement for an additional one-year term ending on March 31, 2006. Thereafter, the Expense Limitation Agreement will be automatically renewed for each

37

fiscal year thereafter unless the Adviser provides written notice to the Fund and the Master Fund of the termination of the Expense Limitation Agreement at least 30 days prior to the end of the then-current term.

PORTFOLIO TRANSACTIONS

The Master Fund

It is the policy of the Master Fund to obtain the best results in connection with effecting its portfolio transactions taking into account certain factors as set forth below. In most instances, the Master Fund purchases securities directly from an Investment Fund, and such purchases by the Master Fund may be, but are generally not, subject to transaction expenses. Nevertheless, the Master Fund anticipates that some of its portfolio transactions may be subject to expenses.

The Master Fund contemplates that, consistent with the policy of obtaining the

best net result, any brokerage transactions of the Master Fund may be conducted through affiliates of the Adviser. The Board has adopted procedures in conformity with Section 17(e) of the 1940 Act to ensure that all brokerage commissions paid to affiliates are fair and reasonable. As discussed below, the Investment Funds may also conduct brokerage transactions through affiliates of the Adviser. Transactions for the Master Fund will not be effected on a principal basis with the Adviser, any of its affiliates, or other affiliates of the Fund or the Master Fund (unless, and in the manner, permitted under the 1940 Act). However, such entities may effect brokerage transactions for the Master Fund. These transactions would be effected in accordance with procedures adopted by the Master Fund pursuant to Section 17(e) of the 1940 Act and rules and regulations promulgated thereunder. Among other things, Section 17(e) and those procedures provide that, when acting as broker for the Master Fund in connection with the sale of securities to or by the Master Fund, the Adviser, or their affiliates may receive compensation not exceeding: (i) the usual and customary broker's commission for transactions effected on a national securities exchange; (ii) 2% of the sales price for secondary distributions of securities; and (iii) 1% of the sales price for other purchases or sales. Brokerage transactions effected by the Investment Funds with the Adviser or any of its affiliates will not be subject to the limitations imposed by Section 17(e) of the 1940 Act.

The Master Fund (and the Fund, as an indirect investor in the Master Fund) bears any commissions or spreads in connection with its portfolio transactions. In placing orders, it is the policy of the Master Fund to obtain the best results taking into account the broker-dealer's general execution and operational facilities, the type of transaction involved, and other factors such as the broker-dealer's risk in positioning the securities involved. While the Adviser generally seeks reasonably competitive spreads or commissions, the Master Fund will not necessarily be paying the lowest spread or commission available. In executing portfolio transactions and selecting brokers or dealers, the Adviser will seek to obtain the best overall terms available for the Master Fund. In assessing the best overall terms available for any transaction, the Adviser will consider factors deemed relevant, including the breadth of the market in the security, the price of the security, the financial condition and execution capability of the broker or dealer, and the reasonableness of the commission, if any, both for the specific transaction and on a continuing basis. The overall reasonableness of brokerage commissions paid will be evaluated by the Adviser based upon its knowledge of available information as to the general level of commission paid by other institutional investors for comparable services. Transactions on U.S. stock exchanges and on some foreign stock exchanges involve the payment of negotiated brokerage commissions. On the great majority of foreign stock exchanges, however, commissions are fixed. No stated commission is generally applicable to securities traded in over-the-counter markets, but the prices of those securities include undisclosed commissions or mark-ups.

The Investment Funds

The Investment Funds incur transaction expenses in the management of their portfolios, which decrease the value of the Master Fund's investment in the Investment Funds. In view of the fact that the investment program of certain of the Investment Funds may include "trading" as well as "investments," short-term market considerations will frequently be involved, and it is anticipated that the turnover rates of the Investment Funds may be substantially greater than the turnover rates of other types of investment vehicles. In addition, the order execution practices of the Investment Funds may not be transparent to the Master Fund. Each Investment Fund is responsible for placing orders for the execution of its portfolio transactions and for the allocation of its brokerage. The Adviser will have no direct or indirect control over the brokerage or portfolio trading policies employed by the investment advisers of the

Investment Funds. The Adviser expects that each Investment Fund will generally select broker-dealers to effect transactions on the Investment Fund's behalf substantially in the manner set forth below.

Each Investment Fund will have a policy of generally seeking reasonably competitive commission rates. However, an Investment Fund will not necessarily pay the lowest commission available on each transaction, and may engage in transactions with broker-dealers based on different criteria than those considered by the Master Fund, and use "soft dollars" for payment of expenses related to research and other services used by the investment adviser of the Investment Fund. Investment Funds may not be subject to the same regulatory restrictions on principal and agency transactions. It is anticipated that some Investment Funds may effect principal or agency transactions through affiliates of the Adviser. The Fund indirectly bears the commissions or spreads in connection with the portfolio transactions of the Investment Funds.

No guarantee or assurance can be made that an Investment Fund's brokerage transaction practices will be transparent or that the Investment Fund will establish, adhere to, or comply with its stated practices. As the Investment Funds are not investment companies registered under the 1940 Act, they may select brokers on a basis other than that outlined above and may receive benefits other than research or that benefit the Investment Fund's investment adviser or its affiliates rather than the Investment Fund.

As with the Master Fund, Investment Funds may make investments directly in the issuers of their underlying securities, and in some instances may not be subject to transaction expenses.

VOTING

Each Member has the right to cast a number of votes based on the value of such Member's Capital Account at any meeting of Members called by the (i) Directors or (ii) Members holding at least a majority of the total number of votes eligible to be cast by all Members. Members will be entitled to vote on any matter on which shareholders of a registered investment company organized as a corporation would be entitled to vote, including selection of Directors. Except for the exercise of their voting privileges, Members will not be entitled to participate in the management or control of the Fund's business, and may not act for or bind the Fund.

Whenever the Fund as an investor in the Master Fund, through the Offshore Fund, is requested to vote on matters pertaining to the Master Fund (other than the termination of the Master Fund's business, which may be determined by the Board of the Master Fund without investor approval), the Offshore Fund will pass voting rights to the Fund, and the Fund will hold a meeting of the Members and vote its interest in the Master Fund, through the Offshore Fund, for or against such matters proportionately to the instructions to vote for or against such matters received from the Members. Thus, the Offshore Fund will not vote on Master Fund matters requiring a vote of Master Fund members without the instruction of the Members of the Fund. The Fund will vote Interests for which it receives no voting instructions in the same proportion as the Interests for which it receives voting instructions.

CONFLICTS OF INTEREST

Certain conflicts of interest may arise in relation to the Fund, the Offshore Fund, and the Master Fund.

The Adviser and its Affiliates

Other Ventures of the Adviser. The Adviser and its affiliates may organize or become involved in other business ventures. None of the Fund, the Offshore Fund, or the Master Fund will share in the risks or rewards of such other ventures. However, such other ventures will compete with the Master Fund for the time and attention of the Adviser and might create additional conflicts of interest. The Investment Management Agreement does not require the Adviser to devote its full time or any specified portion of its time to the Master Fund, although the Adviser intends to dedicate a reasonable amount of time to the Master Fund and its activities.

Other Products Offered by the Adviser. The Master Fund may utilize an investment program similar to the investment program utilized by the Adviser for other funds of funds it advises. Such other products may make continuous offerings of securities contemporaneously with the offerings of the Fund, and the Adviser has discretion as to whether investors are offered an interest in the Fund or such other funds of funds. Even if such other funds of funds are generally closed to new investment, such funds may accept subscriptions at any time to replace amounts withdrawn.

Advisory Time. Although the officers and employees of the Adviser and the Administrator devote as much time to the Fund, the Offshore Fund, and the Master Fund as they believe is necessary to assist the Fund in achieving its investment objectives and to administer the operations of such entities, they do not devote substantially all or any specific portion of their working time to the affairs of the Fund, the Offshore Fund, and the Master Fund as they must devote a portion of their time to other funds and investments. The officers and key employees of the Adviser and the Administrator may not have or may terminate employment agreements and the loss of the services of one or more of them may have a material adverse effect on the Fund.

Allocation of Investment Opportunities. The Adviser and its affiliates have other investment advisory clients and investment vehicles and have discretion to allocate investment opportunities and dispositions fairly among all clients or vehicles. The Adviser may determine that an investment opportunity in an Investment Fund is appropriate for a particular fund or account that it manages, or for itself, but not for the Master Fund. Situations may arise in which private investment funds managed by the Adviser or its affiliates have made investments that would have been suitable for investment by the Master Fund but, for various reasons, were not pursued by, or available to, the Master Fund. To the extent that the Adviser, its affiliates, or another advisory client invest in Investment Funds, the ability of the Master Fund to invest in the same Investment Funds may be adversely affected by any limitation on availability of the investment. In addition, the Adviser may be required to choose between the Master Fund and other advisory clients in allocating investments in Investment Funds and managed accounts. Decisions with regard to the allocation of investment opportunities between the Master Fund and other clients of the Adviser will be made in accordance with the allocation procedures of the Master Fund, which have been approved by the Board.

Preferential Terms. The Adviser, its affiliates, or accounts other than the Master Fund managed by the Adviser or its affiliates may invest in Investment Funds on terms more favorable than those available to the Master Fund, and as

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

investors in such Investment Funds may act in ways adverse to the interests of the Master Fund.

Cross Trades with other Adviser Clients. To the extent permitted under Section 17 of the 1940 Act, the Adviser may cause the Master Fund to purchase securities from or sell securities and interests in Investment Funds to other clients or vehicles when the Adviser believes such transactions are appropriate and in the best interests of the Master Fund. In the event the Adviser wishes to reduce the investment of one or more such funds in an Investment Fund and increase the investment of other funds in such Investment Fund, it may effect such transactions by directing the transfer of the interests between funds. Any incremental costs and expenses associated with any such investment will be borne by all such classes of such funds (including the Master Fund) on a pro rata basis. In addition, the Adviser may recommend that the Master Fund purchase or sell an investment that is being sold or purchased, respectively, at the same time by the Adviser, an affiliate, or another advisory client.

40

Fees and Incentive Allocation. The Advisory Fee and Incentive Allocation have not been negotiated at arm's-length and may be higher than advisory fees or incentive allocations charged by or to others. The Board has determined the level of such Advisory Fee and Incentive Allocation to be appropriate in light of the services provided. The Incentive Allocation allocable to the Adviser is based on net profits. This arrangement may create an incentive for the Adviser to invest Master Fund assets in investments that are riskier or more speculative than would be the case if the Adviser was compensated solely based on a flat percentage of capital. In addition, the Incentive Allocation is determined on the basis of the value of Capital Accounts, including value attributable to unrealized appreciation. Any securities traded directly by the Master Fund for which market quotations are not available may be valued by or at the direction of the Adviser at such value as it may reasonably determine and may not be independently valued or verified by a third party. The Adviser may have an incentive to place the highest reasonable value on the Master Fund's investments.

Structured Investments. To the extent permitted by Section 17 of the 1940 Act, the Adviser or an affiliate thereof may serve as counterparty to the Master Fund for certain Structured Investments and may earn additional revenues in connection with structuring such transactions. Although such transactions will only be undertaken when the Adviser believes they are in the best interest of the Master Fund and the Board will review and approve such transactions, the additional revenues available from Structured Investments may create an incentive for the Adviser to purchase Structured Investments linked to the return of Investment Funds rather than making direct investments.

Investment Fund Transactions with Affiliates. The Adviser and its affiliates, including Deutsche Bank AG and its brokerage subsidiaries, may invest in and have other relationships with the Investment Funds in which the Master Fund invests that may give rise to potential conflicts. The Adviser and its affiliates may, for example, enter into transactions, as principal, with any of the Investment Funds, including derivative transactions, or perform routine broker-dealer transactions. Other relationships may include, but are not limited to, providing seed capital, lending transactions in which the affiliate provides financing, serving as placement agent or prime broker, providing administrative services, and providing general financial advisory services to an Investment Fund. In addition, to the extent permitted by the 1940 Act, certain Deutsche Bank affiliates may provide brokerage or other

services from time to time to one or more accounts or entities managed by the investment advisers of Investment Funds or their affiliates. Deutsche Bank affiliates may provide prime brokerage or other brokerage services to the Investment Funds in compliance with applicable law. Accordingly, the Adviser may face a conflict of interest in evaluating investments in and withdrawals from Investment Funds (e.g., a withdrawal from an Investment Fund could adversely impact the business relationships between Deutsche Bank AG or its affiliates and such Investment Fund). In addition, situations may arise in which the Adviser or an affiliate believes that, to protect its own commercial interests, it may be necessary to take action with respect to an Investment Fund that may be detrimental to such Investment Fund (e.g., terminating a trading facility or foreclosing on collateral), and therefore inadvertently detrimental to the Fund. Deutsche Bank AG or its affiliates may keep any profits, commissions, and fees accruing to it in connection with its activities for itself and other clients, including such Investment Funds, and the fees payable from the Master Fund to the Adviser will not be reduced thereby.

Material Nonpublic Information. Due to the relationships described above, affiliates of the Adviser may have access to material nonpublic information regarding the Investment Funds in which the Master Fund invests. Investors should be aware, however, that the Adviser will generally be unable to access such information due to confidentiality, "Ethical Wall," or other legal considerations. As a result, the Adviser may sometimes make investment decisions different than those it would make if it had such access, and such decisions may result in a material loss to the Fund. The Adviser's affiliates are not required to afford the Adviser access to all relevant information they may possess. However, in the event that the Adviser does receive such material nonpublic information, it may be prohibited from effecting transactions in Investment Funds that it would desire to effect and thus incur losses. Further, by reason of the advisory, due diligence, committee participation, and other activities of the Adviser and its affiliates, the Adviser or related persons may acquire confidential or material nonpublic information or be restricted from initiating transactions in certain securities. The Adviser and related persons will not be free to divulge, or to act upon, any such confidential or material nonpublic information and, due to these restrictions, the Adviser may not initiate a transaction for the Master Fund's account that the Adviser otherwise might have initiated, and the Master Fund may be frozen in an investment position that it otherwise might have liquidated or closed out.

41

Underwriting. An Investment Fund may purchase investments that are issued, or the subject of an underwriting or other distribution, by Deutsche Bank AG or an affiliate. An Investment Fund may invest, directly or indirectly, in the securities of companies affiliated with Deutsche Bank AG or in which Deutsche Bank AG has an equity or participation interest. The purchase, holding, and sale of such investments by an Investment Fund may enhance the profitability of Deutsche Bank AG's own investments in such companies.

Proprietary Trading. Deutsche Bank AG and its affiliates are major participants in the equity, fixed income, global currency, commodity, derivative, and other markets. As such, Deutsche Bank AG and its affiliates, including the Adviser, are actively engaged in transactions in the same securities and other instruments in which the Investment Funds may invest. Deutsche Bank AG and its affiliates are not under any obligation to share any investment opportunity, idea, or strategy with the Master Fund or an Investment Fund. As a result, Deutsche Bank AG and its affiliates may compete

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

with the Master Fund and the Investment Funds for appropriate investment opportunities. Deutsche Bank AG and its affiliates may also have material nonpublic information about an issuer in whose securities the Fund has invested and generally will not share such information with the Master Fund or the Investment Funds.

The Adviser and its principals, affiliates, and employees may trade in the securities and derivatives markets for their own accounts and the accounts of their clients, and in doing so may take positions opposite to, or ahead of, those held by the Master Fund or may be competing with the Master Fund for positions in the marketplace. Such trading may result in competition for investment opportunities or create other conflicts of interest on behalf of one or more such persons in respect of their obligations to the Master Fund and the Fund. Records of this trading will not be available for inspection by Members.

The proprietary activities or portfolio strategies of Deutsche Bank AG or its affiliates or the activities or strategies used for accounts managed by Deutsche Bank AG and its affiliates for other customer accounts could conflict with the transactions and strategies employed by the Master Fund or an Investment Fund and affect the prices and availability of the securities and instruments in which the Master Fund or an Investment Fund invests. Issuers of securities held by the Investment Funds may have publicly or privately traded securities in which Deutsche Bank AG affiliates are investors or make a market. The trading activities of Deutsche Bank AG affiliates generally are carried out without reference to positions held directly or indirectly by the Investment Funds and may have an effect on the value of the positions so held or may result in Deutsche Bank AG affiliates having an interest in the issuer adverse to that of the Investment Fund.

In particular, various affiliates of the Adviser may be significant investors in Investment Funds for their proprietary accounts and to hedge derivative transactions linked to such Investment Funds. Such affiliates' investments in and withdrawals from Investment Funds will be made in their best interests and without regard to the Master Fund's interests. The Adviser may share information regarding Investment Funds with such affiliates and may receive referrals regarding Investment Funds from such affiliates.

Selling Agents. As selling agents may receive ongoing compensation in respect of selling Interests, they may have a conflict of interest in consulting with investors as to the purchase and repurchase of Interests. Further, selling agents may receive different amounts of compensation with respect to sales of the Fund than from other products advised by the Adviser and/or its affiliates, and therefore may have incentives to favor one or more products over others.

Investment Advisers to the Investment Funds

Other Clients Advised by Investment Advisers. Conflicts of interest may arise from the fact that the investment advisers of the Investment Funds and their affiliates generally will be carrying on substantial investment activities for other clients, including other investment funds, in which the Master Fund will have no interest. The investment advisers of the Investment Funds may have financial incentives to favor certain of such accounts over the Investment Funds. Any of their proprietary accounts and other customer accounts may compete with the Investment Fund for specific trades, or may hold positions opposite to positions maintained on behalf of the Investment Fund. The investment advisers of the Investment Funds may give advice and recommend securities to, or buy or sell securities for, an Investment Fund in which the Master Fund has invested, which advice or securities may differ from advice given to, or securities recommended or bought or sold for, other accounts and customers even though

their investment objectives may be the same as, or similar to, those of the Investment Fund in which the Master Fund is invested.

Allocation of Investment Opportunities. Each investment adviser of an Investment Fund will evaluate a variety of factors that may be relevant in determining whether a particular investment opportunity or strategy is appropriate and feasible for the relevant Investment Fund and accounts under management at a particular time, including, but not limited to, the following: (i) the nature of the investment opportunity taken in the context of the other investments at the time; (ii) the liquidity of the investment relative to the needs of the particular entity or account; (iii) the availability of the opportunity (i.e., size of obtainable position); (iv) the transaction costs involved; and (v) the investment or regulatory limitations applicable to the particular entity or account. Because these considerations may differ, the investment activities of an Investment Fund, on the one hand, and other managed accounts, on the other hand, may differ considerably from time to time. In addition, the fees and expenses of the Investment Fund may differ from those of the other managed accounts. Accordingly, prospective Members should note that the future performance of an Investment Fund and its investment adviser's other accounts will vary.

"Soft Dollar" Payments. The brokers utilized by the Investment Funds will be selected by the managers of the Investment Funds. Any manager of a Investment Fund may engage in "soft dollar" practices whether or not such practices fall within the soft dollar safe harbor established by Section 28(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Thus, an Investment Fund manager may receive "brokerage and related services" covered by such safe harbor as well as office space, overhead expense reimbursement, and similar benefits not covered by such safe harbor. In doing so, the Investment Fund managers may pay higher commissions than those charged by brokers that do not provide such services or benefits.

Aggregation of Orders. When an investment adviser of an Investment Fund determines that it would be appropriate for an Investment Fund and one or more of its other accounts to participate in an investment opportunity at the same time, it may attempt to aggregate, place, and allocate orders on a basis that the investment adviser of the Investment Fund believes to be fair and equitable, consistent with its responsibilities under applicable law. Decisions in this regard are necessarily subjective, and there is no requirement that the Investment Fund participate, or participate to the same extent as the other accounts, in all trades.

Situations may occur, however, where the Fund could be disadvantaged because of the investment activities conducted by an investment adviser of an Investment Fund for its other accounts. Such situations may be based on, among other things, the following: (i) legal restrictions on the combined size of positions that may be taken for an Investment Fund or the other accounts, thereby limiting the size of the Investment Fund's position; (ii) the difficulty of liquidating an investment for an Investment Fund or the other accounts where the market cannot absorb the sale of the combined positions; and (iii) the determination that a particular investment is warranted only if hedged with an option or other instrument and there is a limited availability of such options or other instruments.

Proprietary Trading. Each investment adviser of an Investment Fund, and its principals, officers, employees, and affiliates, may buy and sell securities

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

or other investments for their own accounts and may have actual or potential conflicts of interest with respect to investments made on behalf of the Fund or an Investment Fund. As a result of differing trading and investment strategies or constraints, positions may be taken by principals, officers, employees, and affiliates of the investment adviser of the Investment Fund that are the same, different, or made at a different time than positions taken for the Investment Fund.

Performance-Based Compensation. The investment advisers of the Investment Funds may receive incentive fees or allocations in the event that the relevant Investment Fund generates net profits. The fact that such incentive fees or allocations are payable or made only out of net profits may create an incentive for the investment adviser of an Investment Fund to make investments that are riskier or more speculative than would be the case if such investment adviser were compensated solely based on a flat percentage of capital. In addition, the investment adviser of an Investment Fund may receive increased compensation because the incentive fee or allocation may be calculated on a basis that includes unrealized appreciation as well as realized gains.

43

OUTSTANDING SECURITIES

Title of Class -----	Amount Authorized -----	Amount Held by Registrant for its Account -----	Amount April of A "Amount fo ---
Interests	Unlimited	N/A	\$

CONTROL PERSONS

As of April 30, 2005, 43.69% of the interests of the Master Fund outstanding as of that date were owned by DBAH Capital LLC ("DBAH"). In addition, DBAH owns 0.31% of the Interests of the Fund outstanding as of April 30, 2005. Accordingly, as of that date, DBAH may be deemed to "control" the Master Fund (as that term is defined in the 1940 Act) by virtue of its direct and indirect investments in the Master Fund, because interests of the Master Fund held by DBAH constituted more than 25% of the outstanding interests. DBAH is an affiliate of the Adviser.

ELIGIBLE INVESTORS

Each prospective investor (and each Member who makes an additional capital contribution) will be required to certify that the Interest purchased is being acquired directly or indirectly for the account of an "Eligible Investor." An "Eligible Investor" includes, among other investors, a person who is (i) an "accredited investor" as defined in Regulation D under the Securities Act, and (ii) a "qualified client" as defined in Rule 205-3 of the Advisers Act, except as otherwise determined by the Fund. In addition, investors must qualify as a "tax-exempt investor" for U.S. federal income tax purposes. The relevant investor qualifications are set forth in the investor certification that each investor must sign in order to invest in the Fund, a form of which appears as

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Appendix A to this Prospectus. Existing Members who make additional capital contributions will be required to meet the Fund's eligibility criteria at the time of the additional capital contribution. Any transferee of an Interest must satisfy the Fund's eligibility criteria at the time of the transfer. See "Transfers of Interests."

SUBSCRIPTION FOR INTERESTS

Scudder Distributors, Inc., 222 South Riverside Plaza, Attn: Correspondence 27th Floor, Chicago, IL 60606-1048, is the distributor of the Interests pursuant to an Underwriting Agreement between the Fund and the Distributor. The Distributor will offer the Interests in a continuous offering at net asset value, plus any applicable sales charges. Initial and subsequent purchases of Interests generally are accepted monthly.

Investments may be subject to a sales charge of up to 2.5%, subject to waiver or adjustment in the sole discretion of the placement agent. Without limiting the foregoing, the sales charge is expected to be waived for certain institutional investors and certain persons associated with the Adviser or its affiliates. The sales charge will be added to each prospective investor's purchase amount, and will not constitute part of a Member's capital contribution to the Fund or part of the assets of the Fund. All purchases are subject to the receipt of cleared funds two business days prior to the acceptance date. Generally, the minimum required initial purchase by each investor is \$25,000, subject to the discretion of the Board to accept lesser amounts. The Distributor, the Adviser, or their affiliates may also pay from their own resources additional compensation to brokers or dealers in connection with the sale and distribution of the Interests or servicing of investors.

Both initial and additional purchases of Interests in the Fund may be accepted from investors at such times as the Board may determine on the terms set forth below. The Board may, in its discretion, suspend or discontinue the offering of Interests at any time (e.g., to the extent required for purposes of compliance with the securities laws, in response to market conditions in the securities market(s), or otherwise) or permit purchases on a more frequent basis. The Board reserves the right to reject any purchase of Interests in the Fund or to repurchase all of the Interest held by a Member upon notice to such Member.

44

Except as otherwise permitted by the Board, initial and subsequent purchases of Interests will be payable in cash. Each initial or subsequent purchase of Interests is payable in one installment and is due at least two business days prior to the proposed acceptance of the purchase, although the Board may accept, in its discretion, purchases prior to its receipt of cleared funds.

By purchasing an Interest in the Fund, each new Member will be bound by all of the terms of the Operating Agreement. Each prospective investor will also be required to represent and warrant in a subscription agreement, among other things, that the Investor is purchasing an Interest for its own account, and not with a new to the distribution, assignment, transfer, or other disposition of the Interest. The Fund has the sole right to accept subscriptions for Interests and reserves the right to reject any subscription in whole or in part.

Pending investment in the Fund, the proceeds of the continuous offering will be placed in an interest-bearing escrow account by PFPC, the Fund's escrow

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

agent. After any closing, the balance in the escrow account, including any interest earned, will be invested pursuant to the Fund's investment policies.

REPURCHASES OF INTERESTS

No Right of Redemption

No Member will have the right to require the Fund to redeem its Interest. No public market exists for the Interests, and none is expected to develop. Consequently, Members will not be able to liquidate their investment other than as a result of repurchases of Interests by the Fund, as described below.

Repurchases of Interests

The Board of the Fund, from time to time and in its complete and absolute discretion, may determine to cause the Fund to offer to repurchase Interests from Members, including affiliates of the Adviser, pursuant to written requests by Members on such terms and conditions as it may determine. In determining whether the Fund should offer to repurchase Interests from Members pursuant to written requests, the Board will consider, among other things, the recommendation of the Adviser. The repurchase amount will be determined by the Board in its complete and absolute discretion, and such repurchase amount may be a portion of the Fund's outstanding Interests. The Fund made its first offer to repurchase Interests from Members as of June 30, 2005. The Board expects that the Fund will offer to repurchase Interests from Members again as of September 30, 2005, and, thereafter, twice a year, as of the last business day of June and December. As used in this Prospectus, a "business day" is any day, other than Saturday, Sunday, or a day on which banking institutions are authorized or obliged by law or regulation to close in New York. The Board of the Fund also will consider the following factors, among others, in making such determination: (i) whether any Members have requested that the Fund repurchase Interests; (ii) the liquidity of the Fund's assets; (iii) the investment plans and working capital requirements of the Fund; (iv) the relative economies of scale with respect to the size of the Fund; (v) the history of the Fund in repurchasing Interests; (vi) the economic condition of the securities markets; and (vii) the anticipated tax consequences of any proposed repurchases of Interests.

The Fund's assets consist primarily of its interest in the Master Fund (held through its investment in the Offshore Fund). Accordingly, the Fund will be required to liquidate a portion of its interest in the Master Fund in order to fund repurchases. In order to liquidate its interest in the Master Fund, the Offshore Fund (which is effectively controlled by the Fund's Board) must accept repurchase offers made by the Master Fund and distribute the proceeds of such repurchases to the Fund. The Fund will not conduct repurchase offers unless the Master Fund simultaneously conducts a repurchase offer for the Master Fund's interests. The Master Fund conducted its first repurchase offer as of June 30, 2005. The Board of the Master Fund expects that the Master Fund will conduct repurchase offers again as of September 30, 2005 and, thereafter, twice a year, as of the last business day of June and December. However, there are no assurances that the Board of the Master Fund will determine to make such an offer. The Fund cannot make a repurchase offer larger than the repurchase offer made by the Master Fund. The Master Fund will make repurchase offers, if any, to all of its investors, including the Fund (via the Offshore Fund), on the same terms, which may affect the size of the Master Fund's offers. Subject to the Master Fund's restrictions on borrowings, the Master Fund may borrow money or issue debt obligations to finance its repurchase obligations pursuant to any such repurchase offer.

The Operating Agreement provides that the Fund will be dissolved if any Member that has submitted a written request, in accordance with the terms of the Operating Agreement, to tender all of such Member's Interest for repurchase by the Fund has not been given the opportunity to so tender within a period of two years after the request (whether in a single repurchase offer or multiple consecutive offers within the two-year period). A Member who intends to cause the Fund to be dissolved must so indicate in a separate written request submitted within the applicable two-year period.

The Board will determine that the Fund will offer to repurchase Interests pursuant to written requests only on terms that the Board determines to be fair to the Fund and Members. When the Board determines that the Fund will offer to repurchase Interests, written notice will be provided to Members that describes the commencement date of the repurchase offer, specifies the date on which repurchase requests must be received by the Fund (the "Repurchase Request Deadline"), and contains other information Members should consider in deciding whether and how to participate in such repurchase opportunity. The Repurchase Request Deadline will be a date set by the Board occurring no sooner than 20 business days after the commencement date of the repurchase offer and such Repurchase Request Deadline may be extended by the Board in its absolute discretion. The Fund will not accept any repurchase request received by it or its designated agent after the Repurchase Request Deadline.

Due to liquidity constraints associated with the Master Fund's investments in Investment Funds and the fact that the Fund will have to effect withdrawals from the Master Fund (via the Offshore Fund) to pay for Interests being repurchased, and, in turn, the Master Fund will have to effect withdrawals from Investment Funds in order to finance such withdrawal, it is presently expected that, under the procedures applicable to the repurchase of Interests, for Members tendering all of their Interests in the Fund, Interests will be valued for purposes of determining their repurchase price as of a date approximately 65 days after the Repurchase Request Deadline (the "Full Repurchase Valuation Date"). The amount that a Member who is tendering all of its Interests in the Fund may expect to receive on the repurchase of such Member's Interest will be the value of the Member's Capital Account determined on the Full Repurchase Valuation Date and based on the net asset value of the Fund's assets (based in part on oral or written estimates of the value of the Master Fund's investments received from Investment Funds) as of that date, after giving effect to all allocations to be made as of that date to the Member's Capital Account. Therefore, such repurchase payments may not reflect final net asset values for the Full Repurchase Valuation Date calculated by the Investment Funds; however, the Fund will generally not make any adjustments for final valuations from the Master Fund based on adjustments received from the Investment Funds, and the withdrawing Member (if such valuations are adjusted upwards) or the remaining Members (if such valuations are adjusted downwards) will bear the risk of change of any such valuations.

Members who tender a portion of their Interests in the Fund (defined as a specific dollar value in their repurchase request), and which portion is accepted for repurchase by the Fund, will receive such specified dollar amount. For Members tendering all of their Interests in the Fund, the value of such Interests being repurchased will be determined on the Full Repurchase Valuation Date. Within five days of the Repurchase Request Deadline, each Member whose Interest or portion thereof has been accepted for repurchase will be given a non-interest bearing, non-transferable promissory note by the Fund entitling the Member to be paid an amount equal to 100% of the unaudited net asset value such Member's Capital Account (or portion thereof) being repurchased, determined as of the Full Repurchase Valuation Date (after giving effect to all allocations to be made as of that date to such Member's Capital Account). The note will entitle the Member to be paid within 65 days after the

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Full Repurchase Valuation Date, or, if the Master Fund has requested withdrawals of its capital from any Investment Funds in order to fund the repurchase of Interests, ten business days after the Master Fund has received at least 90% of the aggregate amount withdrawn by the Master Fund from such Investment Funds, whichever is later (either such date, a "Payment Date"). Notwithstanding the foregoing, if a Member has requested the repurchase of 90% or more of the Interest held by such Member, such Member shall receive (i) cash or a non-interest bearing, non-transferable promissory note, which need not bear interest, in an amount equal to 90% of the estimated unaudited net asset value of such Member's Capital Account (or portion thereof) being repurchased, determined as of the Full Repurchase Valuation Date (after giving effect to all allocations to be made as of that date to such Member's Capital Account) (the "Initial Payment"), which will be paid on or prior to the Payment Date; and (ii) a promissory note entitling the holder thereof to the balance of the proceeds, to be paid following the later of (x) 90 days following the applicable Full Repurchase Valuation Date, so as to effectuate the orderly liquidation of enough Investment Funds in which the Master Fund is invested or otherwise, or (y) such longer period as the Board of Directors in its discretion deems necessary to protect the interests of the remaining Members.

46

The Board in its discretion may also pay repurchase proceeds, in whole or in part, in securities of equivalent value. The Fund does not expect that it will distribute securities as payment for repurchased Interests except in unusual circumstances, such as in the unlikely event that (i) making a cash payment would result in a material adverse effect on the Fund or on Members not requesting that their Interests be repurchased or (ii) that the Master Fund has received distributions from Investment Funds in the form of securities that are transferable to the Members. In the event that the Fund makes such a distribution of securities as payment for Interests, Members will bear any risks of the distributed securities and may be required to pay a brokerage commission or other costs in order to dispose of such securities.

Under these procedures, Members tendering all of their Interests in the Fund will have to decide whether to request that the Fund repurchase their Interests, without the benefit of having current information regarding the value of Interests on a date proximate to the Full Repurchase Valuation Date. In addition, there will be a substantial period of time between the Repurchase Request Deadline and the date they can expect to receive payment for their Interests from the Fund. As noted above, Members whose Interests are accepted for repurchase will bear the risk that the Fund's net asset value may fluctuate significantly between the Repurchase Request Deadline and the Full Repurchase Valuation Date. This period of time is intended, in part, to assist the Fund in paying the amount due to Members on the Payment Date. The Fund's schedule with respect to repurchases of Interests will be based on operational considerations and various factors relating to the best interests of Members, including, but not limited to, the intent that the Fund pay Members their repurchase proceeds, to the extent practicable, based on redemption proceeds received by the Master Fund from Investment Funds and to minimize the need for the Fund to maintain cash or borrow money to meet repurchase requests. Payments for repurchased Interests may be further delayed under circumstances where the Master Fund has determined to redeem its interests in Investment Funds to make such payments, but has experienced unusual delays in receiving payments from the Investment Funds.

The Fund may suspend or postpone a repurchase offer in limited circumstances, and only by a vote of a majority of the Board, including a majority of the

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Independent Directors. These circumstances may include the following: (i) for any period during which an emergency exists as a result of which it is not reasonably practicable for the Fund to dispose of securities it owns or to determine the value of the Fund's net assets; (ii) for any other periods that the SEC permits by order for the protection of Members; or (iii) other unusual circumstances as the Board deems advisable to the Fund and its Members.

If Members request that the Fund repurchase a greater number of Interests than the repurchase offer amount as of the Repurchase Request Deadline, as determined by the Board in its complete and absolute discretion, the Fund may repurchase an additional amount of Interests not to exceed 2% of the Interests outstanding on the Repurchase Request Deadline. If the Board determines not to repurchase more than the repurchase offer amount or if Members request that the Fund repurchase Interests in an amount exceeding the repurchase offer amount plus 2% of the Interests outstanding on the Repurchase Request Deadline, the Fund shall repurchase the Interests pursuant to repurchase requests on a pro rata basis, disregarding fractions, according to the amount of Interests requested by each Member to be repurchased as of the Repurchase Request Deadline.

Payment for repurchased Interests will require the Fund to withdraw from the Offshore Fund, and the Offshore Fund from the Master Fund, which in turn may be required to liquidate portfolio holdings in Investment Funds earlier than the Adviser otherwise would liquidate such holdings, potentially resulting in losses, and may increase the Master Fund's portfolio turnover. The Adviser intends to take measures to attempt to avoid or minimize such potential losses and turnover. The Master Fund may maintain cash or borrow money to meet repurchase requests, which would increase the Master Fund's operating expenses and would adversely impact the ability of the Fund to achieve its investment objective.

The repurchase of Interests is subject to regulatory requirements imposed by the SEC. The Fund's and the Master Fund's repurchase procedures are intended to comply with such requirements. However, in the event that the Board determines that modification of these repurchase procedures is required or appropriate, the Board will adopt revised repurchase procedures as necessary to ensure the Fund's compliance with applicable regulations or as the Board in its sole discretion deems appropriate.

The Fund does not presently intend to impose any charges on the repurchase of Interests, although the Fund may allocate to Members whose interests are repurchased withdrawal or similar charges imposed by Investment Funds if

the Adviser determines to withdraw from one or more Investment Funds as a result of Member repurchase requests and such charges are imposed on the Master Fund.

A Member who tenders some but not all of the Member's Interest for repurchase will be required to maintain a minimum Capital Account balance of \$25,000. The Fund reserves the right to reduce the amount to be repurchased from a Member so that the required Capital Account balance is maintained.

In accordance with the terms and conditions of the Fund's Operating Agreement, the Fund may cause a mandatory redemption of all or a portion the Interest of a Member or any person acquiring an Interest from or through a Member if the Board or, on behalf of the Board, the Adviser determines or has reason to believe that, among other things: (i) all or part of the Member's Interest has

been transferred, or the Interest has vested in any person, by operation of law as a result of the death, dissolution, bankruptcy, or incompetency of a Member; (ii) ownership of an Interest by such Member or other person will cause the Fund to be in violation of, or subject the Fund or the Adviser to additional registration or regulation under the securities, commodities, or other laws of the United States or any other relevant jurisdiction; (iii) continued ownership of such Interest may be harmful or injurious to the business or reputation of the Fund or the Adviser, or may subject the Fund or any Members to an undue risk of adverse tax or other fiscal consequences; (iv) any representation or warranty made by a Member in connection with the acquisition of its Interest was not true when made or has ceased to be true; or (v) it would be in the best interests of the Fund for the Fund to cause a mandatory redemption of such Interest. Members whose Interests are redeemed by the Fund will not be entitled to a return of any amount of sales load that was charged in connection with the Member's purchase of an Interest.

TRANSFERS OF INTERESTS

No person will become a substituted Member without the consent of the Board, which consent may be withheld in its sole and absolute discretion. Interests held by Members may be transferred only (i) by operation of law pursuant to the death, divorce, bankruptcy, insolvency, or dissolution of a Member or (ii) under extremely limited circumstances, with the written consent of the Board (which may be withheld in its sole and absolute discretion). The Board generally will not consider consenting to a transfer unless the transfer is (i) one in which the tax basis of the Interest in the hands of the transferee is determined, in whole or in part, by reference to its tax basis in the hands of the transferring Member (e.g., certain gifts and contributions to family entities) or (ii) to members of the transferring Member's immediate family (siblings, spouse, parents, and children). Notice to the Fund of any proposed transfer must include evidence satisfactory to the Board that the proposed transferee, at the time of transfer, meets any requirements imposed by the Fund with respect to investor eligibility and suitability. See "Eligible Investors." The Board may not consent to a transfer of an Interest by a Member unless such transfer is to a single transferee or after the transfer of the Interest, the balance of the Capital Account of each of the transferee and transferor is not less than \$25,000. The Board has delegated authority to the Adviser to approve a transfer of Fund Interests for purposes of facilitating the transfer of such Interests in accordance with these limitations, for financial purposes, or in situations that involve no change of beneficial ownership. All such transfers will be reported to the Board on a quarterly basis. Each transferring Member and transferee must agree to pay all expenses, including, but not limited to, attorneys' and accountants' fees, incurred by the Fund in connection with the transfer. If a Member transfers an Interest with the approval of the Board, the Fund will promptly take all necessary actions so that each transferee or successor to whom the Interest is transferred is admitted to the Fund as a Member.

By subscribing for an Interest, each Member agrees to indemnify and hold harmless the Fund, the Board, the Adviser, and each other Member, and any affiliate of the foregoing against all losses, claims, damages, liabilities, costs, and expenses (including legal or other expenses incurred in investigating or defending against any losses, claims, damages, liabilities, costs, and expenses or any judgments, fines, and amounts paid in settlement), joint or several, to which such persons may become subject by reason of or arising from any transfer made by that Member in violation of the Operating Agreement or any misrepresentation made by that Member in connection with any such transfer.

NET ASSET VALUATION

The Fund and the Offshore Fund will compute their net asset value as of the last business day of each fiscal period (as defined in "Capital Accounts and Allocations"). In determining their net asset value, the Fund and the Offshore Fund value their investments as of such fiscal period end. The net asset value of the Fund and the Offshore Fund equal the value of the assets of the Fund and the Offshore Fund, respectively, less all of each entity's respective liabilities, including accrued fees and expenses. In computing its net asset value, the Fund values its interest in the Offshore Fund at the value of the Offshore Fund's interest in the Master Fund, and the Offshore Fund values its interest in the Master Fund at the net asset value provided by the Master Fund to the Offshore Fund and the Fund.

The net asset value of the Master Fund equals the value of the total assets of the Master Fund less all of its liabilities, including accrued fees and expenses. The Board has approved procedures pursuant to which the Master Fund will value its investments in Investment Funds at fair value. In accordance with these procedures, fair value as of each month-end ordinarily will be the value determined as of such month-end for each Investment Fund in accordance with the Investment Fund's valuation policies and reported at the time of the Master Fund's valuation. As a general matter, the fair value of the Master Fund's interest in an Investment Fund represents the amount that the Master Fund could reasonably expect to receive from an Investment Fund if the Master Fund's interest were redeemed at the time of valuation, based on information reasonably available at the time the valuation is made and that the Master Fund believes to be reliable. In the event that an Investment Fund does not report a month-end value to the Master Fund on a timely basis, the Master Fund will determine the fair value of such Investment Fund based on the most recent final or estimated value reported by the Investment Fund, as well any other relevant information available at the time the Master Fund values its portfolio. Using the nomenclature of the hedge fund industry, any values reported as "estimated" or "final" values will reasonably reflect market values of securities for which market quotations are available or fair value as of the Master Fund's valuation date.

Prior to investing in any Investment Fund, the Adviser conducts a due diligence review of the valuation methodology utilized by the Investment Fund, which as a general matter utilizes market values when available, and otherwise utilizes principles of fair value that the Adviser reasonably believes to be consistent with those used by the Master Fund for valuing its own investments. Although the procedures approved by the Board provide that the Adviser will review the valuations provided by the investment advisers to the Investment Funds, neither the Adviser nor the Board will be able to confirm independently the accuracy of valuations provided by such investment advisers (which are unaudited).

The Master Fund's valuation procedures require the Adviser to consider all relevant information available at the time the Master Fund values its portfolio. The Adviser and/or the Board will consider such information, and may conclude in certain circumstances that the information provided by the investment adviser of an Investment Fund does not represent the fair value of the Master Fund's interests in the Investment Fund. Although redemptions of interests in Investment Funds are subject to advance notice requirements, Investment Funds typically make available net asset value information to holders which represent the price at which, even in the absence of redemption activity, the Investment Fund would have effected a redemption if any such requests had been timely made or if, in accordance with the terms of the Investment Fund's governing documents, it would be necessary to effect a mandatory redemption. Following procedures adopted by the Board, in the

absence of specific transaction activity in interests in a particular Investment Fund, the Master Fund would consider whether it was appropriate, in light of all relevant circumstances, to value such a position at its net asset value as reported at the time of valuation, or whether to adjust such value to reflect a premium or discount to net asset value. In accordance with generally accepted accounting principles and industry practice, the Master Fund may not always apply a discount in cases where there was no contemporaneous redemption activity in a particular Investment Fund. In other cases, as when an Investment Fund imposes extraordinary restrictions on redemptions, or when there have been no recent transactions in Investment Fund interests, the Master Fund may determine (but is not required to) that it is appropriate to apply a discount to the net asset value of the Investment Fund. Any such decision would be made in good faith, and subject to the review and supervision of the Board.

The valuations reported by the investment advisers of the Investment Funds, upon which the Master Fund calculates its month-end net asset value, may be subject to later adjustment, based on information reasonably available at that time. For example, fiscal year-end financial statements of the Investment Funds are audited by their independent auditors and may be revised as a result of such audits. Other adjustments may occur from time to time. Because

49

such adjustments or revisions, whether increasing or decreasing the net asset value of the Master Fund at the time they occur, relate to information available only at the time of the adjustment or revision, the adjustments or revisions will not affect the amount of the repurchase proceeds of the Master Fund received by Members who had their Interests repurchased prior to such adjustments and received their repurchase proceeds. As a result, to the extent that such subsequently adjusted valuations from the Investment Funds or revisions to net asset value of an Investment Fund adversely affect the Master Fund's net asset value, the outstanding Interests will be adversely affected by prior repurchases to the benefit of Members who had their Interests repurchased at a net asset value higher than the adjusted amount. Conversely, any increases in the net asset value resulting from such subsequently adjusted valuations will be entirely for the benefit of the outstanding Interests and to the detriment of Members who previously had their Interests repurchased at a net asset value lower than the adjusted amount. The same principles will apply to the purchase of Interests. New Members may be affected in a similar way.

The procedures approved by the Board provide that, where deemed appropriate by the Adviser and consistent with the 1940 Act, investments in Investment Funds may be valued at cost. Cost would be used only when cost is determined to best approximate the fair value of the particular security under consideration. For example, cost may not be appropriate when the Master Fund is aware of sales of similar securities to third parties at materially different prices or in other circumstances where cost may not approximate fair value (which could include situations where there are no sales to third parties). In such a situation, the Master Fund's investment will be revalued in a manner that the Adviser, in accordance with procedures approved by the Board, determines in good faith best reflects approximate market value. The Board will be responsible for ensuring that the valuation policies utilized by the Adviser are fair to the Master Fund and consistent with applicable regulatory guidelines.

To the extent the Adviser invests the assets of the Master Fund in securities or other instruments that are not investments in Investment Funds, the Master Fund generally values such assets as described below. Securities traded on one

or more of the U.S. national securities exchanges or the OTC Bulletin Board are valued at their last composite sale prices as reported at the close of trading on the exchanges or markets where such securities are traded for the business day as of which such value is being determined. Securities traded on the NASDAQ stock market are valued at the NASDAQ Official Closing Price. Securities traded on a foreign securities exchange are generally valued at their last sale prices on the exchange where such securities are primarily traded. If no sales of particular securities are reported on a particular day, the securities will be valued based on their composite bid prices for securities held long, or their composite ask prices for securities held short, as reported by the appropriate exchange, dealer, or pricing service. Redeemable securities issued by a registered open-end investment company are valued at the investment company's net asset value per share. Other securities for which market quotations are readily available are generally valued at their bid prices, or ask prices in the case of securities held short, as obtained from the appropriate exchange, dealer, or pricing service. If market quotations are not readily available, securities and other assets will be valued at fair value as determined in good faith in accordance with procedures approved by the Board.

In general, fair value represents a good faith approximation of the current value of an asset and is used when there is no public market or possibly no market at all for the asset. The fair values of one or more assets may not be the prices at which those assets are ultimately sold. In such circumstances, the Adviser and/or the Board will reevaluate its fair value methodology to determine, what, if any, adjustments should be made to the methodology.

Debt securities will be valued in accordance with the Master Fund's valuation procedures, which generally provide for using a third-party pricing system, agent, or dealer selected by the Adviser, which may include the use of valuations furnished by a pricing service that employs a matrix to determine valuations for normal institutional size trading units. The Board periodically monitors the reasonableness of valuations provided by any such pricing service. Debt securities with remaining maturities of 60 days or less, absent unusual circumstances, are valued at amortized cost, so long as such valuations are determined by the Board to represent fair value.

Assets and liabilities initially expressed in foreign currencies will be converted into U.S. dollars using foreign exchange rates provided by a pricing service. Trading in foreign securities generally is completed, and the values of such securities are determined, prior to the close of securities markets in the United States. Foreign exchange rates are also determined prior to such close. On occasion, the values of securities and exchange rates may be affected by events occurring between the time as of which determination of such values or exchange rates are made and the time as of which the net asset value of the Master Fund is determined. When such events materially affect the values of

securities held by the Master Fund or its liabilities, such securities and liabilities may be valued at fair value as determined in good faith in accordance with procedures approved by the Board.

The Adviser or its affiliates act as investment adviser to other clients that may invest in securities for which no public market price exists. Valuation determinations by the Adviser or its affiliates for other clients may result in different values than those ascribed to the same security owned by the Master Fund. Consequently, the fees charged to the Master Fund and other

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

clients may be different, since the method of calculating the fees takes the value of all assets, including assets carried at different valuations, into consideration.

Expenses of the Fund and the Master Fund (including the Adviser's Investment Management Fee) and the costs of any borrowings, are accrued on a monthly basis on the day net asset value is calculated and taken into account for the purpose of determining net asset value.

Prospective investors should be aware that situations involving uncertainties as to the value of portfolio positions could have an adverse effect on the Master Fund's net asset value if the judgments of the Board, the Adviser, or investment advisers to the Investment Funds should prove incorrect. Also, investment advisers to the Investment Funds will only provide determinations of the net asset value of Investment Funds on a weekly or monthly basis, in which event it will not be possible to determine the net asset value of the Master Fund or the Fund more frequently.

CAPITAL ACCOUNTS AND ALLOCATIONS

Capital Accounts

The Fund maintains a separate Capital Account for each Member (including the Adviser in respect of its Incentive Allocation and the Adviser or its affiliates in respect of any capital contribution to the Fund by the Adviser or an affiliate, as a Member), which has an opening balance equal to the Member's initial contribution to the capital of the Fund. Each Member's Capital Account (other than the Capital Account of the Adviser in respect of its Incentive Allocation) is increased by the sum of the amount of cash and the value of any securities constituting additional contributions by the Member to the capital of the Fund, plus any amounts credited to the Member's Capital Account as described below. Similarly, each Member's Capital Account is reduced by the sum of the amount of any repurchase by the Fund of the Interest of the Member, plus the amount of any distributions to the Member that are not reinvested, plus any amounts debited against the Member's Capital Account as described below.

Capital Accounts of Members are adjusted as of the close of business on the last day of each fiscal period. Fiscal periods begin on the day after the last day of the preceding fiscal period and end at the close of business on the first to occur of the following: (i) the last day of a fiscal year; (ii) the day preceding any day on which a contribution to the capital of the Fund is made; (iii) any day on which the Fund repurchases any Interest of any Member; (iv) any day in which there is any distribution to a Member; (v) any day on which any amount is credited to or debited against the Capital Account of any Member other than an amount to be credited to or debited against the Capital Accounts of all Members in accordance with their respective investment percentages; or (vi) any other date as established by the Board. An investment percentage is determined for each Member as of the start of each fiscal period by dividing the balance of the Member's Capital Account as of the commencement of the period by the sum of the balances of all Capital Accounts of all Members as of that date, after giving effect to additional contributions as of that date.

The Fund, in its complete and absolute discretion, may authorize the division or combination of the Interests into a greater or lesser number without thereby materially changing the value of a Member's Capital Account.

Allocation of Net Profits and Net Losses

Net profits or net losses of the Fund for each fiscal period are allocated among and credited to or debited against the Capital Accounts of all Members

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

as of the last day of the fiscal period in accordance with Members' respective investment percentages for such fiscal period. The Incentive Allocation is allocated separately to the Adviser from each Member's Capital Account based on its share of net profit as of the end of each Performance Period. Net profits or net losses are measured as the change in the net asset value of the Fund (including any net change in

51

unrealized appreciation or depreciation of investments and realized income and gains or losses and accrued expenses and any withholding or other taxes applicable to the Offshore Fund), before giving effect to any repurchase by the Fund of Interests, and excluding the amount of any items to be allocated among the Capital Accounts of the Members other than in accordance with the Members' respective investment percentages.

Allocations for Federal income tax purposes are generally made among the Members so as to reflect equitably amounts credited or debited to each Member's Capital Account for the current and prior fiscal years.

Withholding taxes or other tax obligations incurred by the Member that are attributable to any Member are debited against the Capital Account of that Member as of the close of the fiscal period during which the Fund paid those obligations, and any amounts then or thereafter distributable to the Member are reduced by the amount of those taxes. If the amount of those taxes is greater than the distributable amounts, then the Member and any successor to the Member's Interest is required to pay upon demand to the Fund, as a contribution to the capital of the Fund, the amount of the excess. The Fund is not obligated to apply for or obtain a reduction of or exemption from withholding tax on behalf of any Member, although in the event that the Fund determines that a Member is eligible for a refund of any withholding tax, it may, at the request and expense of that Member, assist the Member in applying for the refund.

Reserves

Appropriate reserves may be created, accrued, and charged against net assets and proportionately against the Capital Accounts of the Members for contingent liabilities as of the date the contingent liabilities become known to the Fund. Reserves will be in such amounts (subject to increase or reduction) that the Fund may deem necessary or appropriate.

TAXES

The following is a summary of certain aspects of the income taxation of the Fund and its Members that should be considered by a prospective Member. The Fund has not sought a ruling from the Internal Revenue Service (the "IRS") or any other federal, state, or local agency with respect to any of the tax issues affecting the Fund, nor will it obtain an opinion of counsel with respect to any tax issues, except as described below.

This summary of certain aspects of the federal income tax treatment of the Fund is based upon the Code, judicial decisions, Treasury Regulations (the "Regulations"), and rulings in existence on the date hereof, all of which are subject to change. This summary does not attempt to discuss all the federal income tax consequences of such an investment. Prospective Members should not consider the contents of this Memorandum as legal or tax advice.

EACH PROSPECTIVE MEMBER SHOULD CONSULT WITH ITS OWN TAX ADVISER IN ORDER TO

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

UNDERSTAND FULLY THE FEDERAL, STATE, LOCAL, AND FOREIGN INCOME TAX CONSEQUENCES OF AN INVESTMENT IN THE FUND.

In addition to the particular matters set forth in this section, tax-exempt organizations should review carefully those sections of the Memorandum regarding liquidity and other financial matters to ascertain whether the investment objectives of the Fund are consistent with their overall investment plans. Each prospective tax-exempt Member is urged to consult with its own counsel regarding the acquisition of an Interest. See "Investment by Qualified Retirement Plans and Other Tax-Exempt Investors" below and also "Investment by Employee Benefit Plans."

Classification of the Fund and the Master Fund

The Fund and the Master Fund have each received an opinion of Sidley Austin Brown & Wood LLP, counsel to the Fund and the Master Fund, that, under the provisions of the Code and the Regulations, as in effect on the date of the opinion, as well as under the relevant authority interpreting the Code and the Regulations, and based upon certain assumptions and representations of the Fund and the Master Fund, the Fund and the Master Fund will be treated as a partnership for Federal income tax purposes and not as an association taxable as a corporation.

52

Under Section 7704 of the Code, "publicly traded partnerships" are generally treated as corporations for federal income tax purposes. A publicly traded partnership is any partnership the interests in which are traded on an established securities market or which are readily tradable on a secondary market (or the substantial equivalent thereof). Interests in the Fund and the Master Fund will not be traded on an established securities market. Regulations concerning the classification of partnerships as publicly traded partnerships (the "Section 7704 Regulations") provide certain safe harbors under which interests in a partnership will not be considered readily tradable on a secondary market (or the substantial equivalent thereof). The Fund and/or the Master Fund may not be eligible for any of those safe harbors. The Section 7704 Regulations specifically provide that the fact that a partnership does not qualify for the safe harbors is disregarded for purposes of determining whether interests in a partnership are readily tradable on a secondary market (or the substantial equivalent thereof). Rather, in this event the partnership's status is examined under a general facts and circumstances test. Sidley Austin Brown & Wood LLP has also rendered its opinion that, under this "facts and circumstances" test, and based upon the anticipated operations of the Fund and the Master Fund as well as the legislative history to Section 7704, the text of the Section 7704 Regulations, and certain representations of the Fund and the Master Fund, the Interests in the Fund and the Master Fund will not be readily tradable on a secondary market (or the substantial equivalent thereof) and, therefore, neither the Fund nor the Master Fund will be treated as a publicly traded partnership taxable as a corporation.

Neither of the opinions of counsel described above, however, is binding on the IRS or the courts. If it were determined that the Fund or the Master Fund should be treated as an association or a publicly traded partnership taxable as a corporation for federal income tax purposes (as a result of a successful challenge to such opinions by the IRS, changes in the Code, the Regulations, or judicial interpretations thereof, a material adverse change in facts, or otherwise), the taxable income of the Fund or the Master Fund would be subject to corporate income tax when recognized by the Fund or the Master Fund. In addition, distributions of such income, other than in certain repurchases of

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Interests, would be treated as dividend income when received by the Members to the extent of the current or accumulated earnings and profits of the Fund.

Classification of the Offshore Fund

The tax status of the Offshore Fund and its members under the tax laws of the Cayman Islands and the United States is summarized below. The summary is based on the assumption that the Offshore Fund is owned, managed, and operated as contemplated, and that shares of the Offshore Fund will be held by the Fund, and that Interests of the Fund will be held by tax-exempt investors. The summary is considered to be a correct interpretation of existing laws as applied on the date of this Prospectus but no representation is made or intended by the Offshore Fund (i) that changes in such laws or their application or interpretation will not be made in the future or (ii) that the IRS will agree with the interpretation described below as applied to the method of operating the Offshore Fund. Prospective investors should consult their own tax and legal advisers with respect to the tax consequences, including the income tax consequences, of the purchase, holding, redemption, sale, or transfer of Interests.

The Offshore Fund will be classified as an association taxable as a corporation for U.S. federal income tax purposes.

The Offshore Fund generally will not be subject to taxation by the United States on income or gain realized by the Master Fund from its stock, securities, commodities, or derivatives trading for a taxable year, provided that the Offshore Fund is not engaged or deemed to be engaged in a U.S. trade or business during a taxable year to which such income, gain, or loss of the Master Fund is treated as effectively connected. An investment in the Master Fund should not, by itself, cause the Offshore Fund to be engaged in a U.S. trade or business for the foregoing purposes, so long as (i) the Master Fund is not considered a dealer in stock, securities, or commodities and does not regularly offer to enter into, assume, offset, assign, or otherwise terminate positions in derivatives with customers, (ii) the U.S. business activities of the Master Fund consist solely of trading in stock, securities, commodities, and derivatives for its own account (and, in the case of commodities, is limited to trading in commodities of a kind customarily dealt in on an organized exchange in transactions of a kind customarily consummated at such place), and (iii) any entity treated as a partnership for U.S. federal income tax purposes in which the Master Fund invests is not deemed to be engaged in a U.S. trade or business.

With respect to (iii) above, the Offshore Fund has no control over whether the entities treated as partnerships for U.S. federal income tax purposes in which the Master Fund invests are engaged or deemed to be engaged in a U.S. trade or business. However, the Master Fund intends to use reasonable efforts to reduce or eliminate the extent to

which it allocates investment assets to entities treated as partnerships for U.S. federal income tax purposes that are engaged or deemed to be engaged in a U.S. trade or business.

In the event that the Master Fund were found to be engaged in a U.S. trade or business, the Offshore Fund would be required to file a U.S. federal income tax return for such year on IRS Form 1120-F and pay tax at full U.S. rates on the portion of its income that is treated as effectively connected with such U.S. trade or business, and an additional 30% branch profits tax would be

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

imposed. In addition, in such event, the Master Fund would be required to withhold taxes from the income or gain allocable to the Offshore Fund under Section 1446 of the Code.

Even assuming the Master Fund meets such requirements, the Offshore Fund will be subject to withholding of federal income tax at a 30% rate on its respective share of the Master Fund's U.S. source dividend income, U.S. source interest income (unless such interest income is either "portfolio interest" or received by the Master Fund on U.S. bank deposits, certificates of deposit, or discount obligations with maturities (from original issue) of 183 days or less), and any other U.S. source fixed or determinable annual or periodic gains, profits, or income. In general, "portfolio interest" is interest (other than certain contingent interest) on an obligation issued after July 18, 1984 that (i) if in bearer form, is issued under arrangements reasonably designed to ensure that such obligation will be sold only to non-U.S. persons, is payable only outside the United States, and bears a legend on its face that any U.S. person who holds such obligation is subject to certain limitations under the U.S. income tax laws, or (ii) if in registered form, the U.S. person responsible for paying interest received a statement either from the beneficial owner of such obligation or from certain qualifying agents of the beneficial owner of such obligation that such owner is not a U.S. person. The Master Fund intends to provide such a statement as required by applicable law to such U.S. persons and will obtain from the Offshore Fund a statement documenting the Offshore Fund's foreign status on IRS Form W-8BEN or its equivalent. The Master Fund will not qualify for the portfolio interest exception with respect to a debt instrument issued by an entity if the Master Fund owns 10% or more of the voting stock interest in or capital and profits of such issuer.

The Offshore Fund does not expect to maintain cash reserves, but generally intends to invest any cash reserves that may exist in a manner so as not to be subject to 30% withholding.

Taxation of Members

As an entity taxed as a partnership, the Fund is not itself subject to Federal income tax. The Fund will file an annual partnership information return with the IRS that reports the results of operations. Each Member will be required to report separately on its federal income tax return its share of the Fund's net long-term capital gain or loss, net short-term capital gain or loss, and all other items of ordinary income or loss. Each Member will be taxed on its share of the Fund's taxable income and gain regardless of whether it has received or will receive a distribution from the Fund. The Fund generally will have no power to control the timing of cash distributions by the Investment Funds. In addition, the Fund does not intend to make periodic distributions of its net income or gains, if any, to Members. The amount and timing of any distributions will be determined in the sole discretion of the Board. Accordingly, a Member's share of taxable income from the Fund (as well as the taxes imposed on that income) could exceed the distributions, if any, it receives from the Fund. As a result, Members will be required each year to pay any applicable federal and state taxes on their respective share of the Fund's taxable income or gains (if the Fund has any such income or gains), and any such taxes would have to be paid by the Member from other sources. As discussed below, Members will be furnished with a tax information report annually stating each Member's respective share of the Fund's tax items.

Allocation of Profits and Losses

Under the Operating Agreement, the Fund's net profit or net loss for each accounting period is allocated among the Members and to their Capital Accounts without regard to the amount of income or loss actually recognized by the Fund for federal income tax purposes. It is expected that the Fund's income and

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

gains, if any, will be primarily derived from ordinary income.

The Operating Agreement provides that items of income, deduction, gain, loss, or credit actually recognized by the Fund for each fiscal year generally are to be allocated for federal income tax purposes among the Members pursuant

54

to Regulations issued under Section 704 of the Code, based upon amounts of the Fund's net profit or net loss allocated to each Member's Capital Account for the current and prior fiscal years.

Under the Operating Agreement, the Fund has the discretion to allocate specially an amount of the Fund's capital gain and losses (including short-term and long-term capital gain and losses) for Federal income tax purposes: (i) to a withdrawing Member to the extent that the Member's Capital Account differs from its federal income tax basis in its partnership interest or (ii) to the Adviser in its capacity as Special Advisory Member to the extent that the receipt of an Incentive Allocation causes such Special Advisory Member's Capital Account to differ from its federal income tax basis in its partnership interest. There can be no assurance that, if the Fund makes any such special allocation, the IRS will accept such allocation. If such allocation is successfully challenged by the IRS, the Fund's gains or losses allocable to the remaining Members would be increased.

Distributions and Adjusted Basis

The receipt of a cash distribution from the Fund by a Member generally will not result in the recognition of gain or loss for Federal income tax purposes. Cash distributions in excess of a Member's adjusted tax basis for its Interest (including any distributions in connection with a repurchase of Interests) will generally result in the recognition by such Member of gain in the amount of such excess.

A Member's tax basis for its Interest in the Fund will include the amount of money the Member contributed to the Fund. A Member's tax basis will be increased by the Member's respective share of the Fund's taxable income and gains, and will be decreased by distributions from the Fund to the Member and by the Member's respective share of any taxable losses.

Potential Foreign Investments

The Fund, the Master Fund, or the Investment Funds may make investments that may involve additional foreign tax issues. The tax consequences to Members depend in large part on the activities and investments of the Investment Funds in which the Master Fund will invest, and such Investment Funds will not be controlled by the Master Fund.

Fund Tax Returns and Tax Information

The Fund is required to use the accrual method of accounting and uses the calendar year as its tax year for income tax purposes. Income or loss of an Investment Fund that is taxed as a partnership using the calendar year or a fiscal year other than the Fund's fiscal year will be treated as if distributed to the Fund on the last day of the Investment Fund's fiscal year. The Fund does not expect to receive tax information from Investment Funds (through the Master Fund) in a sufficiently timely manner to enable the Fund to prepare its information returns in time for Members to file their returns without requesting an extension of the time to file from the IRS (or state

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

taxing agencies). Accordingly, Members should be prepared to obtain extensions of time to file their income tax returns.

The investment advisers of the Investment Funds will not prepare income tax information returns of the Investment Funds in which the Master Fund will invest, which will be prepared by management and/or independent accountants for each such Investment Fund. An audit of the Fund's or an Investment Fund's information return may affect the tax consequences of an investment in the Fund by a Member and may cause audits of the returns of the Member. The activities of Investment Funds in which the Master Fund will invest may give rise to additional tax issues, which in turn can affect the tax results of Members in the Fund.

State and Local Taxes

In addition to the federal income tax consequences summarized above, prospective investors should consider the potential state and local tax consequences of an investment in the Fund. The Fund may become subject to income and other taxes in states and localities based on the Fund's activities, including investments in entities that conduct business in those jurisdictions. Members of the Fund are generally taxable in their state of residence on their share of the Fund's income. Members of the Fund may be subject to tax in other jurisdictions depending on the Fund's activities and/or activities of the Investment Funds in which the Master Fund will invest and the laws of those

55

jurisdictions. Additionally, Members of the Fund may be entitled to a credit in their state of residence for taxes paid to other jurisdictions.

Investment by Qualified Retirement Plans and Other Tax-Exempt Investors

Qualified pension and profit-sharing plans (including Keogh or HR-10 Plans), IRAs, educational institutions, and other investors exempt from taxation under Code Section 501 are generally exempt from federal income tax except to the extent that they have UBTI. UBTI is income from an unrelated trade or business regularly carried on, excluding various types of investment such as dividends, interest, certain rental income, and capital gain, so long as not derived from debt-financed property. If a tax-exempt organization is a partner in a partnership that generates UBTI, the UBTI of the partnership will pass through to the organization. In addition, income derived from debt-financed property; that is, property as to which there is "acquisition indebtedness" is UBTI. Acquisition indebtedness is the unpaid amount of any debt incurred directly or indirectly to acquire or improve the property. During the period that any acquisition indebtedness is outstanding, a pro rata share of the income from the property will generally be UBTI based on the ratio of the average outstanding principal balance of such debt to the average basis of the property during the applicable tax year. To the extent the Offshore Fund holds debt-financed property or property primarily for sale to customers or becomes actively involved in trading securities, income attributable to such property or activity may constitute UBTI. However, such UBTI should not be attributable to shareholders of the Offshore Fund because the Offshore Fund is classified as a corporation, and UBTI generally should not pass through or be deemed to pass through a corporation to its U.S. tax-exempt investors.

Because all of the shares of the Offshore Fund will be held by the Fund, which is a U.S. partnership for income tax purposes, the Offshore Fund will be considered a controlled foreign corporation ("CFC") for U.S. income tax

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

purposes. Under current law applicable to U.S. tax-exempt entities, income attributed from a CFC to a tax-exempt entity is taxable to a tax-exempt entity only if the income attributed from the CFC is made taxable to the tax-exempt entity under the Code and regulations relating to particular categories of UBTI (for example, if the Offshore Fund were to generate certain insurance income as defined in Section 512(b)(17) of the Code). The Offshore Fund does not expect to generate UBTI of this type. The Fund has received an opinion of Sidley Austin Brown & Wood LLP, counsel to the Fund, that under the provisions of the Code and the Regulations, as in effect on the date of the opinion, as well as under the relevant authority interpreting the Code and the Regulations, and based upon certain representations of the Board, income of the Fund allocable to tax-exempt investors (subject to certain exceptions) should not constitute UBTI. The Fund has not sought a ruling from the IRS with respect to any of the tax issues affecting the Fund, but the Fund may decide in the future to seek a ruling with respect to the question of whether or not any income allocable to a tax-exempt investor in the Fund would be UBTI. The foregoing discussion is intended to apply primarily to exempt organizations that are qualified plans. The UBTI of certain other exempt organizations may be computed in accordance with special rules. Further, certain types of tax-exempt entities under the Code, such as "charitable remainder trusts" that are required to make taxable distributions based upon income received from all sources, may be disadvantaged under the rules relating to CFCs in a manner similar to taxable investors. Charitable remainder trusts are generally required, under their trust instruments and for purposes of qualifying under the Code for tax exemption, to make current distributions of all or a significant portion of their income. As an investor in a CFC, such a trust would be deemed to receive income each year from the CFC whether or not the CFC currently distributes such income. For these reasons, the Fund would not be an appropriate investment for charitable remainder trusts.

U.S. TAX-EXEMPT INVESTORS ARE STRONGLY URGED TO CONSULT THEIR OWN TAX ADVISORS CONCERNING THE U.S. TAX CONSEQUENCES TO THEM OF ANY INVESTMENT IN THE FUND, INCLUDING THE POSSIBLE APPLICATION OF SECTION 269 OF THE CODE (OR OTHER ANTI-TAX AVOIDANCE PROVISIONS).

Tax Shelter Regulations

The IRS has recently issued final regulations (the "Regulations") that may require the Fund or Members to report their direct or indirect participation in certain "reportable transactions" by filing IRS Form 8886 ("Reportable Transaction Disclosure Statement").

A "reportable transaction" includes a transaction that results in a loss claimed under Section 165 of the Code by a taxpayer (computed without taking into account offsetting income or gain items, and without regard to limitations on its deductibility) in excess of the thresholds described below, unless the transaction has been exempted from reporting by the IRS. Disclosure is required if the Fund incurs losses of at least \$2 million in any single taxable year or \$4 million for the taxable year the transaction is entered into and the five succeeding taxable years. Members that are individuals, S corporations, or trusts similarly are required to disclose transactions if they individually incur losses which are equal to the same thresholds. Note, however, that the annual threshold applicable to losses from a "section 988 transaction" (relating to foreign currency transactions) allocable to a Member that is an individual or trust is reduced to \$50,000. For Members that are C corporations the thresholds generally will be losses of at least \$10 million in any single taxable year or \$20 million for the taxable year the transaction

is entered into and the five succeeding taxable years.

Published guidance from the IRS has exempted certain loss transactions from the reporting requirements. A transaction will be exempt if the assets underlying the transaction have a "qualifying basis," which includes, among others, an asset purchased for cash; provided however that each of the following remains subject to reporting requirements unless the loss generated in the transaction arises from mark to market treatment under the Code: (i) a transaction involving an asset that is, or was, part of a straddle (other than a mixed straddle), (ii) a transaction involving certain "stripped" instruments, (iii) the disposition of an interest in a pass-through entity (such as an Investment Fund), and (iv) a foreign currency transaction which generates an ordinary loss.

The Regulations describe several other categories of "reportable transactions" in addition to the transactions described above, including a transaction with a significant book-tax difference. This is applicable to the taxpayer which is a business entity with gross assets of \$250 million or more or a reporting entity under the Exchange Act. Generally, a transaction with a significant book-tax difference is one where such a taxpayer's treatment for U.S. Federal income tax purposes of one or more items from the transaction differs by more than \$10 million on a gross basis from its treatment of the item(s) for book purposes in any taxable year. Note, however, that the IRS has published guidance exempting book-tax differences that occur solely because the taxpayer marks to market its positions for book purposes but not for tax purposes.

At this time the Fund cannot predict whether any of its investments will require it or any of the Members to file a Reportable Transaction Disclosure Statement. If the Fund later determines that one or more investments require Members to file a Reportable Transaction Disclosure Statement, the Fund will provide each Member with the information required to complete and file the form. In addition, if the Fund participates in a transaction that requires reporting to the IRS, the Fund is required to maintain certain information including a list of Members and a detailed description of the Fund, its activities and the expected U.S. federal income tax consequences to Members. This information must be available to the IRS for inspection upon its written request. The Fund does not anticipate registering with the IRS as a tax shelter.

Other Taxes

The foregoing is a summary of some of the tax rules and considerations affecting Members, the Fund, and the Fund's operations, and does not purport to be a complete analysis of all relevant tax rules and considerations, nor does it purport to be a complete listing of all potential tax risks inherent in making an investment in the Fund. A Member may be subject to other taxes, including, but not limited to, state and local taxes, estate and inheritance taxes, and intangible taxes that may be imposed by various jurisdictions. The Fund also may be subject to state, local, and foreign taxes that could reduce cash distributions to Members. It is the responsibility of each Member to file all appropriate tax returns that may be required. Each prospective Member is urged to consult with his or her tax adviser with respect to any investment in the Fund.

INVESTMENT BY EMPLOYEE BENEFIT PLANS

The following section sets forth certain consequences under ERISA and the Code

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

which a fiduciary of an "employee benefit plan" as defined in and subject to ERISA (an "ERISA Plan") or of a "plan" as defined in and subject to Section 4975 of the Code who has investment discretion should consider before deciding to invest the plan's assets in the Fund (such ERISA Plans and other "plans" being referred to herein as "Plans," and such fiduciaries with investment discretion being referred to herein as "Plan Fiduciaries"). The following summary is not intended to be complete, but only to address certain questions under ERISA and the Code which are likely to be raised by the Plan Fiduciary's own counsel.

In general, the terms "employee benefit plan" as defined in ERISA and "plan" as defined in Section 4975 of the Code together refer to any plan or account of various types which provides retirement benefits or welfare benefits to an individual or to an employer's employees and their beneficiaries. Such plans and accounts include, but are not limited to, corporate pension and profit-sharing plans, "simplified employee pension plans," KEOGH plans for self-employed individuals (including partners), individual retirement accounts described in Section 408 of the Code, and medical benefit plans.

Each Plan Fiduciary of an ERISA Plan must give appropriate consideration to the facts and circumstances that are relevant to an investment in the Fund, including the role an investment in the Fund plays in the ERISA Plan's investment portfolio and the projected return of the ERISA Plan's total portfolio relative to the Plan's funding objectives. Each Plan Fiduciary of an ERISA Plan, before deciding to invest in the Fund, must be satisfied that investment in the Fund is a prudent investment for the ERISA Plan, that the investments of the ERISA Plan, including the investment in the Fund, are diversified so as to minimize the risks of large losses and that an investment in the Fund complies with the documents of the ERISA Plan and related trust. If a Plan Fiduciary of an ERISA Plan breaches his or her fiduciary responsibilities with regard to selecting an investment for an ERISA Plan, the Plan Fiduciary may be held personally liable for losses incurred by the ERISA Plan as a result of such breach.

Because the Fund will be registered as an investment company under the 1940 Act, the underlying assets of the Fund will not be considered to be "plan assets" of the Plans investing in the Fund for purposes of ERISA's fiduciary responsibility and prohibited transaction rules or the prohibited transaction rules of Section 4975 of the Code. Thus, the Adviser will not be a fiduciary with respect to the assets of any Plan that becomes a Member of the Fund, solely as a result of the Plan's investment in the Fund.

The Board will require a Plan proposing to invest in the Fund to represent that it, and any fiduciaries responsible for the Plan's investments, are aware of and understand the Fund's investment objective, policies, and strategies, that the decision to invest plan assets in the Fund was made with appropriate consideration of relevant investment factors with regard to the Plan, and, with respect to an ERISA Plan, that the decision to invest plan assets in the Fund is consistent with the duties and responsibilities imposed upon fiduciaries with regard to their investment decisions under ERISA.

Certain prospective Plan investors may currently maintain relationships with the Adviser or one or more investment advisers of Investment Funds in which the Master Fund will invest, or with other entities that are affiliated with the Adviser or such investment advisers. Each of such persons may be deemed to be a party in interest to and/or a fiduciary of any Plan to which it provides investment management, investment advisory, or other services. ERISA and Section 4975 of the Code prohibit Plan assets to be used for the benefit of a party in interest and also prohibits a Plan Fiduciary from using its position to cause the Plan to make an investment from which it or certain third parties in which such Plan Fiduciary has an interest would receive a fee or other consideration. Plan investors should consult with legal counsel to determine

if participation in the Fund is a transaction that is prohibited by ERISA or the Code, and will be required to represent that the purchase of Interests in the Fund is not such a prohibited transaction. Plan Fiduciaries also will be required to represent that the decision to invest in the Fund was made by them as fiduciaries that are independent of such affiliated persons, that are duly authorized to make such investment decisions, and that have not relied on any individualized advice or recommendation of such affiliated persons, as a primary basis for the decision to invest in the Fund.

The foregoing statements regarding the consequences under ERISA and the Code of an investment in the Fund are based on the provisions of the Code and ERISA as currently in effect, and the existing administrative and judicial

58

interpretations thereunder. No assurance can be given that administrative, judicial, or legislative changes will not occur that will not make the foregoing statements incorrect or incomplete.

ACCEPTANCE OF SUBSCRIPTIONS ON BEHALF OF PLANS IS IN NO RESPECT A REPRESENTATION BY THE BOARD, THE ADVISER, OR ANY OTHER PARTY RELATED TO THE FUND THAT THIS INVESTMENT MEETS THE LEGAL REQUIREMENTS WITH RESPECT TO INVESTMENTS BY ANY PARTICULAR PLAN OR THAT THIS INVESTMENT IS APPROPRIATE FOR ANY PARTICULAR PLAN. THE PERSON WITH INVESTMENT DISCRETION SHOULD CONSULT WITH HIS OR HER ATTORNEY AND FINANCIAL ADVISERS AS TO THE PROPRIETY OF AN INVESTMENT IN THE FUND IN LIGHT OF THE CIRCUMSTANCES OF THE PARTICULAR PLAN.

SUMMARY OF THE OPERATING AGREEMENT

An investor in the Fund will be a Member of the Fund and its rights in the Fund will be established and governed by the Operating Agreement that is included as Appendix B to this Prospectus. An investor and his or her advisers should carefully review the Operating Agreement, as each Member will agree to be bound by its terms and conditions. The following is a summary description of additional items and of select provisions of the Operating Agreement that may not be described elsewhere in this Prospectus. The description of such items and provisions is not definitive and reference should be made to the complete text of the Operating Agreement.

Interests; Members

Persons who purchase Interests will be Members of the Fund. The Adviser and its affiliates may contribute capital to and maintain an investment in the Fund, and to that extent will be Members of the Fund. The Adviser is also the Special Advisory Member with respect to the Capital Account established in respect of its Incentive Allocation. The Adviser and its affiliates may, but are under no obligation to, invest in the Fund, and may subscribe for Interests or have their Interests repurchased by the Fund without notice to Members. Any purchase or repurchase of Fund Interests by the Adviser or its affiliates will occur only on the Fund's terms and conditions as set forth in this Prospectus.

The Fund reserves the right to issue additional classes of Interests in the future subject to fees, charges, repurchase rights, and other characteristics different from those of the Interests offered in this Prospectus.

Persons to whom Interests are transferred in accordance with the Operating Agreement will be Members of the Fund, subject to such person meeting any transferability requirements. The Interests are subject to substantial

restrictions on transferability and resale and may not be transferred or resold except as permitted under the Operating Agreement. By subscribing for an Interest, each Member agrees to indemnify and hold harmless the Fund, the Board, the Adviser, each other Member, and any affiliate of the foregoing against all losses, claims, damages, liabilities, costs, and expenses (including legal or other expenses incurred in investigating or defending against any losses, claims, damages, liabilities, costs, and expenses or any judgments, fines, and amounts paid in settlement), joint or several, to which such persons may become subject by reason of or arising from any transfer made by that Member in violation of the Operating Agreement or any misrepresentation made by that Member in connection with any such transfer.

Limited Liability of Members

Under Delaware law and the Operating Agreement, each Member will be liable for the debts and obligations of the Fund only to the extent of any contributions to the capital of the Fund (plus any accretions in value thereto prior to withdrawal), and a Member, in the sole discretion of the Board, may be obligated to return to the Fund amounts distributed to the Member in accordance with the Operating Agreement in certain circumstances where after giving effect to the distribution, certain liabilities of the Fund exceed the fair market value of the Fund's assets.

59

Duty of Care

The Operating Agreement provides that the Board and the Adviser (including certain of its affiliates, among others) will not be liable to the Fund or any of the Members for any loss or damage occasioned by any act or omission in the performance of their services as such in the absence of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of their office or as otherwise required by applicable law. The Operating Agreement also contains provisions for the indemnification, to the extent permitted by law, of the Board and the Adviser (including certain of its affiliates, among others) by the Fund (but not by the Members individually) against any liability and expense to which any of them may be liable that arise in connection with the performance of their activities on behalf of the Fund. None of these persons will be personally liable to any Member for the repayment of any positive balance in the Member's Capital Account or for contributions by the Member to the capital of the Fund or by reason of any change in the federal or state income tax laws applicable to the Fund or its investors. The rights of indemnification and exculpation provided under the Operating Agreement will not be construed so as to limit liability or provide for indemnification of the Board and the Adviser (including certain of its affiliates, among others) for any liability (including liability under applicable federal or state securities laws which, under certain circumstances, impose liability even on persons that act in good faith), to the extent (but only to the extent) that such indemnification or limitation on liability would be in violation of applicable law, but will be construed so as to effectuate the applicable provisions of the Operating Agreement to the fullest extent permitted by law.

Amendment of the Operating Agreement

The Operating Agreement may generally be amended, in whole or in part, with the approval of the Board (including a majority of the Independent Directors, if required by the 1940 Act) and without the approval of the Members unless the approval of Members is required by the 1940 Act. However, certain

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

amendments to the Operating Agreement involving Capital Accounts and allocations thereto may not be made without the written consent of any Member adversely affected thereby or unless each Member has received written notice of the amendment and any Member objecting to the amendment has been allowed a reasonable opportunity (pursuant to any procedures as may be prescribed by the Board) to have all of its Interest repurchased by the Fund.

Term, Dissolution, and Liquidation

The Fund will be dissolved: (i) upon the affirmative vote to dissolve the Fund by (a) the Board or (b) Members holding at least two-thirds (2/3) of the total number of votes eligible to be cast by all Members; (ii) if any Member that has submitted a written request, in accordance with the terms of the Operating Agreement, to tender all of such Member's Interest for repurchase by the Fund has not been given the opportunity to so tender within a period of two years after the request (whether in a single repurchase offer or multiple consecutive offers within the two-year period); provided, however, that a Member who intends to cause the Fund to be dissolved must so indicate in a separate written request submitted within the applicable two-year period; (iii) as required by operation of law; or (iv) as set forth in the Operating Agreement.

Upon the occurrence of any event of dissolution, the Board or the Adviser, acting as liquidator under appointment by the Board (or another liquidator, if the Board does not appoint the Adviser to act as liquidator or is unable to perform this function) is charged with winding up the affairs of the Fund and liquidating its assets. Net profits or net loss during the fiscal period including the period of liquidation will be allocated as described in the section titled "Capital Accounts and Allocations."

Upon the liquidation of the Fund, its assets will be distributed: (i) first to satisfy the debts, liabilities, and obligations of the Fund (other than debts to Members), including actual or anticipated liquidation expenses; (ii) next to repay debts owing to the Members; and (iii) finally to the Members proportionately in accordance with the balances in their respective Capital Accounts. Assets may be distributed in kind on a pro rata basis if the Board or liquidator determines that such a distribution would be in the interests of the Members in facilitating an orderly liquidation.

60

Reports to Members

The Fund will furnish to Members as soon as practicable after the end of each taxable year such information as is necessary for them to complete federal and state income tax or information returns, along with any other tax information required by law. However, a delay by the investment adviser of an Investment Fund in providing this information could delay the Fund's preparation of tax information for investors, which will require Members to seek extensions on the time to file their tax returns, and could delay the preparation of the Fund's annual report. Accordingly, Members should be prepared to obtain extensions of time to file their income tax returns. The Fund anticipates sending to Members an unaudited semi-annual and an audited annual report within 60 days after the close of the period for which the report is being made, or as otherwise required by the 1940 Act. Members also will be sent monthly reports regarding the Fund's operations during each month. Any Member may request from the Adviser an estimate, based on unaudited data, of the net asset value of the Fund as of the end of any calendar month.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Fiscal Year

For accounting purposes, the Fund's, the Offshore Fund's, and the Master Fund's fiscal year is the twelve-month period ending on March 31. The twelve-month period ending December 31 of each year will be the taxable year of the Fund, the Offshore Fund, and the Master Fund.

GENERAL INFORMATION

Description of the Fund

The Fund is registered under the 1940 Act as a closed-end, non-diversified, management investment company. The Fund was established as a limited liability company under the laws of the State of Delaware on December 8, 2003, and commenced operations on October 1, 2004. The Fund's office is located at 25 DeForest Avenue, Summit, New Jersey 07901. The Fund's Prospectus and SAI are available upon request and without charge by writing to PFPC, Inc., 400 Bellevue Parkway, Wilmington, Delaware 19801. The telephone number of the Fund is 1-888-262-0695.

Liquidating Trust

The Board may, at its discretion if determined to be in the best interests of Members, distribute the assets of the Fund into and through a liquidating trust to effect the liquidation of, all or a portion of, the Fund. The use of a liquidating trust would be subject to the regulatory requirements of the 1940 Act and applicable Delaware law, and could result in expenses that the Members would bear indirectly. There are no current plans to liquidate the Fund.

Independent Registered Public Accounting Firm and Legal Counsel

The Board has selected PricewaterhouseCoopers LLP as the independent registered public accounting firm of the Fund and the Master Fund. PricewaterhouseCoopers LLP's principal business address is located at 300 Madison Avenue, New York, New York 10017.

The law firm of Sidley Austin Brown & Wood LLP, 787 Seventh Avenue, New York, New York 10019, serves as legal counsel to the Fund and the Master Fund. Walkers, Walker House, P.O. Box 265GT, Mary Street, George Town, Grand Cayman, Cayman Islands, acts as legal counsel to the Offshore Fund.

APPENDIX A

The Topiary Fund for Benefit Plan Investors (BPI) LLC

Form of Investor Certification

This certificate relates to The Topiary Fund for Benefit Plan Investors (BPI) LLC (the "Fund") and is given to you with respect to a potential purchase of a limited liability company interest (an "Interest") in the Fund. Please check the box at the end of the applicable paragraph.

[For individual investors] I hereby certify that I either (i) have an individual net worth, or joint net worth with my spouse, in excess of \$1,500,000 or (ii) have (or will have upon the acceptance of my capital contribution) at least \$750,000 under the management of DB Investment Managers, Inc. (the "Adviser") (including any Interest in the Fund), and further certifies that (i) I either (a) have a net worth, (1) or joint net worth with my spouse, in excess of \$1,000,000 or (b) I had an individual income (exclusive of any income attributable to my spouse) of more than \$200,000 for each of the past two years or joint income with my spouse in excess of \$300,000 for each of those years, and I reasonably expect to reach the same income level, or the same joint income level, in the current year. |_ |

[For corporations, partnerships, or limited liability companies] I hereby certify that the entity on behalf of which I am signing either (i) has total assets in excess of \$5,000,000, was not formed for the specific purpose of investing in the Fund and is (a) a futures commission merchant registered pursuant to Section 4(d) of the Commodity Exchange Act, (b) a registered commodity trading advisor who has been registered and active as such for two years or who provides commodity interest trading advice to commodity accounts

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

which, in the aggregate, have total assets in excess of \$5,000,000 deposited at one or more futures commission merchants, (c) a registered commodity pool operator who has been registered and active as such for two years or who operates pools which, in the aggregate, have total assets in excess of \$5,000,000, or (d) a broker or dealer registered pursuant to Section 15 of the Securities Exchange Act of 1934; or (ii) has total assets in excess of \$5,000,000, was not formed for the specific purpose of investing in the Fund, and its purchase of an Interest is directed by a sophisticated person within the meaning of Regulation D promulgated under the Securities Act; or (iii) all of the equity owners, unit owners, and participants of the undersigned are accredited investors. |_|

[For trusts] I hereby certify that the trust on behalf of which I am signing either (i) has total assets in excess of \$5,000,000, was not formed for the specific purpose of investing in the Fund, and its purchase of an Interest is directed by sophisticated person within the meaning of Regulation D promulgated under the Securities Act; (ii) is a bank as defined in Section 3(a)(2) of the Securities Act, is acting in its fiduciary capacity as trustee, and is subscribing for an Interest on behalf of a trust that qualifies as an accredited investor(2); or (iii) is a revocable trust that may be amended or revoked at any time by the grantors thereof, and all of the grantors are accredited investors. |_|

[For all other entities] I hereby certify that the entity on behalf of which I am signing (A) is not (i) an investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"), (ii) an entity which would be defined as an investment company under Section 3(a) of the 1940 Act (e.g., an entity engaged primarily in investing, owning, holding, or trading in securities) but for the exclusion from such definition provided by Section 3(c)(1) of the 1940 Act for entities that have not publicly offered their securities and whose outstanding securities are beneficially owned by not more than 100 persons, or (iii) a private business development company as defined in Section 202(a)(11) of the Investment Advisers Act of 1940, as amended; and (B) that such entity has a net worth in excess of \$1,500,000 or (ii) has (or will have upon the acceptance of its capital contribution) at least \$750,000 under the management of the Adviser (including any Interest in the Fund). I hereby further certify that each equity owner of the entity on behalf of which I am signing is either (i) a natural person with an individual net worth, or joint net

(1) "Net worth" for these purposes means the excess of total assets at fair market value, including home, home furnishings and automobiles, over total liabilities.

(2) "Bank" is defined in Section 3(a)(2) of the Securities Act as "any national bank, or any banking institution organized under the laws of any state, territory, or the District of Columbia, the business of which is substantially confined to banking and is supervised by the state or territorial banking commission or similar official."

A-1

worth with his or her spouse, in excess of \$1,500,000, (ii) a natural person who has (or will have immediately after acceptance of this capital contribution) at least \$750,000 under management with the Adviser, whether in the Fund or otherwise, (iii) an entity which is not described in sub-clauses (i), (ii), or (iii) of clause (A) above which (a) has a net worth in excess of \$1,500,000 or (b) has (or will have upon acceptance of its capital contribution) at least \$750,000 under the management of the Adviser (including

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

any Interest in the Fund), or (iv) an entity described in sub-clause (i), (ii), or (iii) of clause (A) above of which each and every equity owner is a person described in clauses (i) through (iii) of this sentence. |_|

I hereby further certify under penalty of perjury that: (i) the taxpayer identification number contained on accompanying W-9 (or to be issued to me) is true, correct, and complete; and (ii) I am either (a) exempt from taxation under Section 501(a) of the Internal Revenue Code of 1986, as amended (the "Code"), or (b) an individual retirement account (as defined in Section 408 of the Code).

In addition, I hereby confirm that I understand and agree that should I (or the company) purchase an Interest, the following conditions will apply to the ownership and transfer of the Interest:

- (A) An Interest may be held only through a broker, dealer, or other financial intermediary that has entered into an agreement for the provision of shareholder services to the Fund;
- (B) An Interest (or portion thereof) may not be transferred, including by bequest, except to a person who has a net worth (if a natural person, together with assets held jointly with spouse) of more than \$1,500,000, who agrees to hold his, her or its Interests through a broker, dealer, or other financial intermediary that has entered into an agreement for the provision of shareholder services to the Fund, and who agrees not to transfer the Interest (or portion thereof) except to another person who has a net worth (if a natural person, together with assets held jointly with spouse) of more than \$1,500,000 and agrees to comply with the foregoing ownership and transfer restrictions; and
- (C) Upon any transfer of an Interest (or portion thereof) in violation of the foregoing clauses (A) or (B), in addition to any other remedy that it may have, the Fund will have the right (but not the obligation) to repurchase all or a portion of any such improperly transferred Interest.

I further certify that:

- (A) I understand that it may be a violation of state and/or Federal law for me to provide this certification if I know that it is not true;
- (B) I have read the Prospectus and the Statement of Additional Information of the Fund, including the investor qualification and investor eligibility provisions contained therein;
- (C) I understand that an investment in the Fund involves a considerable amount of risk and that some or all of my investment may be lost;
- (D) I understand that an investment in the Fund is suitable only for investors who can bear the risks associated with the limited liquidity of the investment and should be viewed as a long-term investment;
- (E) I am aware of the Fund's limited provisions for transferability and withdrawal and have carefully read and understand the "Repurchases of Interests" and "Transfers of Interests" provisions in the Prospectus;
- (F) I understand that the Fund, the Offshore Fund, the Master Fund, the Adviser, and their respective affiliates are relying on the certification and agreements made herein in determining my

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

qualification and suitability for an investor in the Fund; and

A-2

- (G) I understand that an investment in the Fund is not appropriate for, and may not be acquired by, any person who cannot make this certification, and agree to indemnify the Adviser and its affiliates and hold harmless from any liability that it may incur as a result of this certification being untrue in any respect.

If I am acting on behalf of a "benefit plan investor" as defined in Department of Labor Regulation ss. 2510.3-103(f)(2), I further certify, on my own behalf and on behalf of the benefit plan investor, that:

- (A) Each fiduciary (a "Plan Fiduciary") of the benefit plan investor who has caused the benefit plan investor to acquire an Interest in the Fund (i) is aware of and understands the Fund's investment objective, policies, and strategies, (ii) has considered an investment in the Fund for such benefit plan investor in light of the risks relating thereto, as well as all other relevant investment factors, and (iii) if the benefit plan investor is subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), has determined that, in view of such considerations, the investment in the Fund for such benefit plan investor is consistent with the Plan Fiduciary's responsibilities under ERISA.
- (B) The investment in the Fund by the benefit plan investor does not violate and is not otherwise inconsistent with the terms of any legal document constituting the benefit plan investor, any trust agreement thereunder, or any other constituent document.
- (C) The benefit plan investor's investment in the Fund has been duly authorized and approved by all necessary parties.
- (D) None of the Adviser, any investment adviser of any Investment Fund in which the Master Fund will invest, any member of the Board of Directors, PFPC, the Distributor, any other selling agent, any of their respective affiliates, or any of their respective agents or employees: (i) has investment discretion with respect to the investment of assets of the benefit plan investor used to purchase an Interest in the Fund; (ii) has authority or responsibility to or regularly gives investment advice with respect to the assets of the benefit plan investor used to purchase an Interest in the Fund for a fee and pursuant to an agreement or understanding that such advice will serve as a primary basis for investment decisions with respect to the benefit plan investor and that such advice will be based on the particular investment needs of the benefit plan investor; or (iii) is an employer maintaining or contributing to the benefit plan investor.
- (E) The Plan Fiduciary (i) is authorized to make, and is responsible for, the decision for the benefit plan investor to invest in the Fund, including, if the benefit plan investor is subject to ERISA, the determination that such investment is consistent with the requirement imposed by Section 404 of ERISA that plan investments be diversified so as to minimize the risks of large losses, (ii) is independent of the Adviser, each investment adviser of each Investment Fund in which the Master Fund invests, each member of the Board of Directors, PFPC, the Distributor, each other selling agent,

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

and each of their respective affiliates, and (iii) is qualified to make such investment decision.

(F) The purchase and holding of an Interest in the Fund by the benefit plan investor is not a prohibited transaction under ERISA or Section 4975 of the Code because one of the following is applicable: (i) a prohibited transaction exemption applies to the purchase and holding of an Interest in the Fund by the benefit plan investor; (ii) the benefit plan investor is not subject to ERISA or Section 4975 of the Code; or (iii) the Plan Fiduciary has determined that the benefit plan investor has no relationship with the Adviser, any investment adviser of any Investment Fund in which the Master Fund invests, any member of the Board of Directors, PFPC, the Distributor, any other selling agent, DBAH Capital LLC, or any of their respective affiliates that would make such purchase and holding a prohibited transaction under ERISA or Section 4975 of the Code.

A-3

I hereby further certify that I agree to produce evidence to support the foregoing certifications upon request.

APPENDIX B

THE TOPIARY FUND FOR BENEFIT PLAN INVESTORS (BPI) LLC
SECOND AMENDED AND RESTATED
LIMITED LIABILITY COMPANY OPERATING AGREEMENT

THIS SECOND AMENDED AND RESTATED LIMITED LIABILITY COMPANY OPERATING AGREEMENT of The Topiary Fund for Benefit Plan Investors (BPI) LLC (the "Fund") is made effective as of June [o], 2005 by and among the Organizational Member, the Investment Adviser, and each person hereinafter admitted to the Fund and reflected on the books of the Fund as a Member.

W I T N E S S E T H :

WHEREAS, the Fund heretofore has been formed as a limited liability company under the Delaware Act, pursuant to the Certificate dated as of December 5, 2003 and filed with the Secretary of State of the State of Delaware on December 8, 2003;

WHEREAS, the Fund was initially governed by the Limited Liability Company Agreement dated as of December 8, 2003, which was subsequently amended and restated in its entirety by the Amended and Restated Limited Liability Company Operating Agreement dated July 21, 2004 (the "Existing Agreement"); and

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

WHEREAS, the Board desires to amend and restate the Existing Agreement to amend and modify certain of the provisions hereof pursuant to the Board's authority to do so under Section 8.1(a)(i) of the Existing Agreement and to set forth the terms on which the Fund shall hereafter be governed; and

WHEREAS, the Board has approved the amendments contained in this Agreement in accordance with the provisions of Section 8.1(a)(ii) and has provided the Members with notice of such proposed amendments in accordance with the provisions of Section 8.1(d);

NOW, THEREFORE, for and in consideration of the foregoing and the mutual covenants hereinafter set forth, it is hereby agreed as follows:

ARTICLE I
DEFINITIONS

For purposes of this Agreement:

1.1 ADVISERS ACT means the Investment Advisers Act of 1940 and the rules, regulations, and orders thereunder, as amended from time to time, or any successor law.

1.2 AFFILIATE means affiliated person as such term is defined in the 1940 Act, as hereinafter defined.

1.3 AGREEMENT means this Second Amended and Restated Limited Liability Company Operating Agreement, as amended and/or restated from time to time.

1.4 BOARD means the Board of Directors established pursuant to Section 2.6 and each Director on the Board shall be deemed a "Manager" of the Fund within the meaning of the Delaware Act.

1.5 CAPITAL ACCOUNT means, with respect to each Member, the capital account established and maintained on behalf of each Member pursuant to Section 5.3.

B-1

1.6 CAPITAL CONTRIBUTION means the contribution, if any, made, or to be made, as the context requires, to the capital of the Fund by a Member.

1.7 CERTIFICATE means the Certificate of Formation of the Fund and any amendments thereto as filed with the office of the Secretary of State of the State of Delaware.

1.8 CLASS means any class of limited liability company interests established by the Board from time to time.

1.9 CLOSING means the closing of a subscription to purchase an Interest.

1.10 CODE means the United States Internal Revenue Code of 1986, as amended and as hereafter amended from time to time, or any successor law.

1.11 CONFIDENTIAL INFORMATION shall have the meaning as set forth in Section 8.12(a).

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

1.12 DELAWARE ACT means the Delaware Limited Liability Company Act (6 DEL.C. ss.ss. 18-101, et seq.) as in effect on the date hereof and as amended from time to time, or any successor law.

1.13 DIRECTOR means each person who initially serves on the Board pursuant to Section 2.6 or who, from time to time, pursuant to this Agreement shall serve on the Board as indicated in the records of the Fund. Each Director shall be deemed a "Manager" of the Fund within the meaning of the Delaware Act.

1.14 EXPENSE ALLOCATION DATE means the initial Closing, and thereafter each day, through and including the date which is twelve months after the initial Closing, as of which a contribution to the capital of the Fund is made pursuant to Section 5.1.

1.15 FISCAL PERIOD means the period commencing on the initial Closing, and thereafter each period commencing on the day immediately following the last day of the preceding Fiscal Period, and ending at the close of business on the first to occur of the following dates:

- (1) the last day of a Fiscal Year;
- (2) the day preceding any day as of which a contribution to the capital of the Fund is made pursuant to Section 5.1;
- (3) the day as of which the Fund repurchases all or a portion of an Interest of any Member pursuant to this Agreement;
- (4) any day as of which there is any distribution to a Member pursuant to Section 5.9;
- (5) any other day as of which this Agreement provides for any amount to be credited to or debited against the Capital Account of any Member, other than an amount to be credited to or debited against the Capital Accounts of all Members in accordance with their respective Fund Percentages;
- (6) the date as of which the Fund terminates; or
- (7) any other date as established by the Board.

1.16 FISCAL YEAR, for accounting purposes, means the period commencing on the initial Closing and ending on March 31 and thereafter each period commencing on April 1 of each year and ending on March 31 of each year (or on the date of a final distribution pursuant to Section 6.2 hereof), unless the Directors shall designate another fiscal year for the Fund that is a permissible taxable year under the Code. For tax purposes, the 12-month period ending December 31 of each year will be the Fund's taxable year.

B-2

1.17 FORM N-2 means the Fund's Registration Statement on Form N-2 or any successive form filed with the Securities and Exchange Commission ("SEC"), as amended from time to time.

1.18 FUND means the limited liability company governed hereby, as such limited liability company may from time to time be constituted.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

1.19 FUND PERCENTAGE means a percentage established for each Member on the Fund's books as of the first day of each Fiscal Period. The Fund Percentage of a Member for a Fiscal Period shall be determined by dividing the balance of the Member's Capital Account as of the commencement of such Fiscal Period by the sum of the Capital Accounts of all of the Members as of the commencement of such Fiscal Period. The sum of the Fund Percentages of all Members for each Fiscal Period shall equal 100%.

1.20 INCENTIVE ALLOCATION means the incentive allocation made to the Special Advisory Member with respect to each Member's Capital Account, in respect of the Net Profit (if any) of such Capital Account in excess of the Hurdle (as such term is defined in Section 5.5(a)) in accordance with Section 5.5 hereof.

1.21 INDEPENDENT DIRECTORS means those Directors who are not "interested persons" of the Fund as such term is defined in the 1940 Act.

1.22 INTEREST means the entire limited liability company interest (as defined in the Delaware Act) in the Fund at any particular time of a Member or other person to whom an Interest or portion thereof has been transferred pursuant to this Agreement, including the rights and obligations of such Member or other person under this Agreement and the Delaware Act.

1.23 INVESTED CAPITAL means, with respect to any Member, the amount of such Member's aggregate Net Capital Contributions to the Fund, subject to any adjustments made and decreased by any repurchases or distributions.

1.24 INVESTMENT ADVISER means the person who at any particular time serves as the investment adviser to the Master Fund pursuant to a written agreement with the Master Fund.

1.25 INVESTMENT MANAGEMENT AGREEMENT means the separate written agreement between the Master Fund and the Investment Adviser pursuant to which the Investment Adviser performs certain investment advisory and supervisory services to the Master Fund.

1.26 MANAGEMENT FEE means the management fee paid to the Investment Adviser out of the Master Fund's assets pursuant to the Investment Management Agreement.

1.27 MASTER FUND means The Topiary Master Fund for Benefit Plan Investors (BPI) LLC, the "master fund" in which the Offshore Fund will invest all or substantially all of its assets.

1.28 MEMBER means any person who shall have been admitted to the Fund as a member or a substitute Member who is admitted to the Fund pursuant to this Agreement, in such person's capacity as a Member until the Fund repurchases the entire Interest of such person as a Member pursuant to Section 4.5 hereof or a substituted Member or Members are admitted with respect to any such person's entire Interest as a Member pursuant to Section 4.5 hereof. The Members shall constitute a single class or group of members.

1.29 NEGATIVE BASIS shall have the meaning set forth in Section 5.8.

1.30 NEGATIVE BASIS MEMBER shall have the meaning as set forth in Section 5.8.

1.31 NET ASSET VALUE means the total value of all assets of the Fund as valued pursuant to Section 7.3, less an amount equal to all accrued debts, liabilities, and obligations of the Fund, calculated before giving effect to any repurchase of Interests.

B-3

1.32 NET CAPITAL CONTRIBUTION means a Member's Capital Contribution minus fees or expenses, if any.

1.33 NET PROFIT OR NET LOSS means the amount by which the Net Assets as of the close of business on the last day of a Fiscal Period exceed (in the case of Net Profit) or are less than (in the case of Net Loss) the Net Assets as of the commencement of the same Fiscal Period, such amount to be adjusted to exclude any items to be allocated among the Capital Accounts of the Members on a basis that is not in accordance with the respective Fund Percentages of all Members as of the commencement of such Fiscal Period pursuant to this Agreement.

1.34 1940 ACT means the Investment Company Act of 1940 and the rules, regulations, and orders thereunder, as amended from time to time, or any successor law.

1.35 1934 ACT means the Securities Exchange Act of 1934 and the rules, regulations, and orders thereunder, as amended from time to time, or any successor law.

1.36 OFFERING EXPENSES means the expenses of offering Interests in the Fund.

1.37 OFFSHORE FUND means a fund organized as a limited duration company or similar entity in the Cayman Islands (or as a similar entity in a similar non-United States jurisdiction) in which the Fund intends to invest substantially all of its assets.

1.38 ORGANIZATIONAL EXPENSES means the expenses incurred by the Fund in connection with its formation and initial registration as an investment company under the 1940 Act.

1.39 ORGANIZATIONAL MEMBER means John T. Ferguson, Jr.

1.40 PERSON means any individual, entity, corporation, partnership, association, limited liability company, joint-stock company, trust, estate, joint venture, organization, or unincorporated organization.

1.41 POSITIVE BASIS shall have the meaning as set forth in Section 5.8.

1.42 POSITIVE BASIS MEMBER shall have the meaning as set forth in Section 5.8.

1.43 FULL REPURCHASE VALUATION DATE shall have the meaning set forth in Section 4.5.

1.44 SECURITIES means securities (including, without limitation, equities, debt obligations, options, and other "securities" as that term is defined in Section 2(a)(36) of the 1940 Act) and any contracts for forward or future delivery of any security, debt obligation, currency, or commodity, all manner of derivative instruments and any contracts based on any index or group of securities, debt obligations, currencies, or commodities, and any options thereon.

1.45 SECURITIES ACT means the Securities Act of 1933, as amended and any regulations promulgated thereunder.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

1.46 SERIES means any series of limited liability company interests established by the Board relating to a distinct portfolio and having separate rights and powers with respect to the assets of the Fund allocated to such Series.

1.47 SPECIAL ADVISORY MEMBER means the Investment Adviser in its capacity as the investment adviser to the Master Fund, in which the Fund will invest substantially all of its assets through the Offshore Fund and which will therefore be responsible for the investment and trading of the assets of the Fund.

1.48 TAX MATTERS MEMBER means the Member designated as "tax matters member" of the Fund pursuant to Section 8.18 hereof.

B-4

1.49 TRANSFER means the assignment, transfer, sale, or other disposition of all or any portion of an Interest, including any right to receive any allocations and distributions attributable to an Interest.

1.50 VALUATION DATE means any date in which the Net Asset Value of the Fund is computed.

ARTICLE II
ORGANIZATION; ADMISSION OF MEMBERS; BOARD

2.1 FORMATION OF LIMITED LIABILITY COMPANY. The Organizational Member and any person designated by the Board hereby are designated as authorized persons, within the meaning of the Delaware Act, to execute, deliver, and file all certificates (and any amendments and/or restatements thereof) required or permitted by the Delaware Act to be filed in the office of the Secretary of State of the State of Delaware. The Board shall cause to be executed and filed with applicable governmental authorities any other instruments, documents, and certificates which, in the opinion of the Fund's legal counsel, may from time to time be required by the laws of the United States of America, the State of Delaware, or any other jurisdiction in which the Fund shall determine to do business, or any political subdivision or agency thereof, or which such legal counsel may deem necessary or appropriate to effectuate, implement, and continue the valid existence and business of the Fund.

2.2 NAME. The name of the Fund shall be The Topiary Fund for Benefit Plan Investors (BPI) LLC, pursuant to the Certificate dated as of December 5, 2003 and filed with the Secretary of State of the State of Delaware on December 8, 2003, and amended on July 21, 2004 pursuant to the Certificate of Amendment filed with the Secretary of the State of Delaware, or such other name as the Board hereafter may adopt upon: (i) causing an appropriate amendment to the Certificate to be filed in accordance with the Delaware Act; and (ii) sending notice thereof to each Member. The Fund's business may be conducted under the name of the Fund or, to the fullest extent permitted by law, any other name or names deemed advisable by the Board.

2.3 PRINCIPAL AND REGISTERED OFFICE. The Fund shall have its principal office at the principal office of the Investment Adviser, or at such other place designated from time to time by the Board.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

The Fund shall have its registered office in the State of Delaware at 1209 Orange Street, Wilmington, New Castle County, Delaware 19801, and shall have the Corporation Trust Company as its registered agent at such registered office for service of process in the State of Delaware, unless a different registered office or agent is designated from time to time by the Board in accordance with the Delaware Act.

2.4 DURATION. The term of the Fund shall commence on the filing of the Certificate with the Secretary of State of the State of Delaware and shall continue perpetually unless and until the Fund is dissolved pursuant to Section 6.1 hereof.

2.5 BUSINESS OF THE FUND. The business of the Fund is, without limitation, either directly or indirectly through one or more pooled investment vehicles, to purchase, sell, invest, and trade in Securities on margin or otherwise, to invest as a feeder fund, either directly or indirectly (including via the Offshore Fund) in a master fund as part of a master-feeder structure, including the Master Fund, and to engage in any financial or derivative transactions relating thereto or otherwise and to engage in such other activities and to exercise such rights and powers as permitted by limited liability companies under the Delaware Act. On behalf of the Fund, the officers of the Fund may execute, deliver, and perform all contracts, agreements, and other undertakings and engage in all activities and transactions as may in the opinion of the Board be necessary or advisable to carry out the Fund's business and any amendments to any such contracts, agreements, and other undertakings, all without any further act, vote, or approval of any other person, notwithstanding any other provision of this Agreement.

B-5

2.6 THE BOARD.

(a) The Organizational Member shall serve as the sole Director on the initial Board as of December 8, 2003, until the proper designation of those persons first listed on Schedule I who shall agree to be bound by all of the terms of this Agreement to serve as Directors on the initial Board, which agreement to be bound shall be effective as of the date of their acceptance of their appointment as Director. The Board may, subject to the provisions of paragraphs (a) and (b) of this Section 2.6 with respect to the number of and vacancies in the position of Director and the provisions of Section 3.3 hereof with respect to the election of Directors by Members, designate any person who shall agree to be bound by all of the terms of this Agreement as a Director. The names and mailing addresses of the Directors shall be set forth in the books and records of the Fund. The number of Directors shall be fixed from time to time by a written instrument signed by, or by resolution approved at a duly constituted meeting by vote of, a majority of the Board, provided however that the number of Directors shall at all times be at least one and no more than ten as determined, from time to time, by the Directors pursuant to this Agreement.

(b) Each Director shall serve as a Director for the duration of the term of the Fund, unless his or her status as a Director shall be sooner terminated pursuant to Section 4.2 hereof. If any vacancy in the position of a Director occurs, the remaining Directors may appoint a person to serve in such capacity, provided such appointment is in accordance with the 1940 Act. The Directors may call a meeting of Members to fill any vacancy in the position of Director, and shall do so when required by the 1940 Act.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

(c) In the event that no Director remains to continue the business of the Fund, the Investment Adviser shall promptly call a meeting of the Members, to be held within 60 days after the date on which the last Director ceased to act in that capacity, for the purpose of determining whether to continue the business of the Fund and, if the business shall be continued, of electing the required number of Directors to the Board. If the Members shall determine at such meeting not to continue the business of the Fund or if the required number of Directors is not elected within 60 days after the date on which the last Director ceased to act in that capacity, then the Fund shall be dissolved pursuant to Section 6.1 hereof and the assets of the Fund shall be liquidated and distributed pursuant to Section 6.2 hereof.

2.7 MEMBERS.

(a) The Board may admit one or more Members at such times as the Board may determine. Members may be admitted to the Fund subject to the condition that each such Member execute an appropriate signature page of this Agreement, application, subscription agreement, or without such execution, if such Member orally, in writing, or by other action, including, but not limited to payment for an Interest, complies with the conditions for becoming a Member and pursuant to which such Member agrees to be bound by all the terms and provisions hereof. This Agreement shall not be unenforceable by reason of it not having been signed by a person being admitted as a Member. The Board, in its sole and absolute discretion, may reject applications or subscription agreements for Interests in the Fund. The admission of any person as a Member shall be effective upon the revision of the books and records of the Fund to reflect the name and the contribution to the capital of the Fund of such additional Member. The Organizational Member is hereby admitted as a Member on the date hereof.

(b) If a Member is admitted to the Fund prior to the initial Closing, the Invested Capital of such Member shall be adjusted by any Net Profit or Net Loss allocable to such Member for the period through the initial Closing.

2.8 BOTH DIRECTORS AND MEMBERS. A Member may at the same time be a Director, a Special Advisory Member, or an Investment Adviser and a Member in which event such Member's rights and obligations in each capacity shall be determined separately in accordance with the terms and provisions hereof and as provided in the Delaware Act and the 1940 Act. A Director need not be a Member.

2.9 SPECIAL ADVISORY MEMBER. Upon signing this Agreement, the Investment Adviser shall be admitted to the Fund as the Special Advisory Member, subject to due approval, in accordance with the requirements of the 1940 Act, of the Investment Management Agreement. The Interest of the Special Advisory Member shall be non-voting. If at any time the Investment Management Agreement between the Master Fund and the person then serving as Investment Adviser terminates, the Board shall admit as a substitute Special Advisory

B-6

Member, upon its signing this Agreement, such person as may be retained by the Master Fund to provide investment advisory services pursuant to an Investment Management Agreement, subject to the due approval of such Investment Management Agreement in accordance with the requirements of the 1940 Act.

2.10 ORGANIZATIONAL MEMBER. John T. Ferguson shall be the Organizational Member of the Fund.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

2.11 LIMITED LIABILITY. To the fullest extent permitted under applicable law, a Member (including, in its capacity as such, the Special Advisory Member) shall not be liable for the Fund's debts, obligations, or liabilities in any amount in excess of the Capital Account balance of such Member. To the fullest extent permitted under applicable law, the Investment Adviser and Directors shall not be liable for the Fund's debts, obligations, or liabilities.

2.12 SERIES. The Fund may create one or more Series and/or classes from time to time. With respect to any Series established by the Fund, the following provisions shall apply:

(a) separate and distinct records shall be maintained for each Series, and the assets associated with any such Series shall be held and accounted for separately from the other assets of the Fund or any other Series;

(b) the debts, liabilities, and obligations incurred, contracted for, or otherwise existing with respect to a particular Series shall be enforceable against the assets of such Series only, and not against the assets of the Fund generally or any other Series;

(c) the Board, in its sole and absolute discretion, shall have authority to restrict allocations or transfers of Member Capital Contributions to or from any Series; and

(d) notwithstanding Section 18-215 of the Delaware Act, the failure of a Series to have any Member associated with it shall not be the basis for the dissolution of the Series and the winding up of its affairs unless in accordance with the provisions of Article VI.

ARTICLE III
MANAGEMENT

3.1 MANAGEMENT AND CONTROL.

(a) Management and control of the business of the Fund shall be vested in the Board, which shall have the right, power, and authority, on behalf of the Fund and in its name, to exercise all rights, powers, and authority of "managers" under the Delaware Act and to do all things necessary and proper to carry out the objective and business of the Fund and its duties hereunder. No Director shall have the authority individually to act on behalf of or to bind the Fund except within the scope of such Director's authority as delegated by the Board. The parties hereto intend that, except to the extent otherwise expressly provided herein: (i) each Director shall be vested with the same powers, authority, and responsibilities on behalf of the Fund as are customarily vested in each director of a Delaware corporation; and (ii) each Independent Director shall be vested with the same powers, authority, and responsibilities on behalf of the Fund as are customarily vested in each director of a closed-end management investment company registered under the 1940 Act that is organized as a Delaware corporation who is not an "interested person" of such company as such term is defined in the 1940 Act. During any period in which the Fund shall have no Directors, the Investment Adviser shall continue to have the authority to manage the business and affairs of the Fund. The Directors may make Capital Contributions and own Interests in the Fund.

(b) Each Member agrees not to treat, on his personal income tax return or in any claim for a tax refund, any item of income, gain, loss, deduction, or credit in a manner inconsistent with the treatment of such item

B-7

by the Fund. The Board shall have the exclusive authority and discretion to make any elections required or permitted to be made by the Fund under any provisions of the Code or any other revenue laws.

(c) Members shall have no right to participate in and shall take no part in the management or control of the Fund's business, except to the extent specifically provided herein, and shall have no right, power, or authority to act for or bind the Fund. Members shall have the right to vote on any matters only as provided in this Agreement or on any matters that require the approval of the holders of voting securities under the 1940 Act or as otherwise required in the Delaware Act.

(d) The Board may delegate to any person, including officers of the Fund, any rights, power, and authority vested by this Agreement in the Board to the extent permissible under applicable law.

3.2 ACTIONS BY THE BOARD.

(a) Unless provided otherwise in this Agreement, the Board shall act only: (i) by the affirmative vote of a majority of the Directors (which majority shall include any requisite number of Independent Directors required by the 1940 Act) present at a meeting duly called at which a quorum of the Directors shall be present (in person, which may include any means of communication that allows all Directors participating to hear each other simultaneously during the meeting, as permitted by the SEC and/or the 1940 Act, or, if in person attendance is not required by the 1940 Act, in person or by telephone); or (ii) by unanimous written consent of all of the Directors without a meeting, if permissible under the 1940 Act.

(b) The Board may designate from time to time a Chairperson who shall preside at all meetings. Meetings of the Board may be called by the Chairperson or any two Directors, and may be held on such date and at such time and place as the Board shall determine. Each Director shall be entitled to receive written notice of the date, time, and place of such meeting within a reasonable time in advance of the meeting. Notice need not be given to any Director who shall attend a meeting without objecting to the lack of notice or who shall execute a written waiver of notice with respect to the meeting. Directors may attend and participate in any meeting by telephone, except where in person attendance at a meeting is required by the 1940 Act. A majority of the Directors then in office shall constitute a quorum at any meeting.

(c) The Board may designate from time to time agents and employees of the Fund, including without limitation employees of the Investment Adviser, who shall have the same powers and duties on behalf of the Fund (including the power to bind the Fund) as are customarily vested in officers of a Delaware corporation, and designate them as officers of the Fund.

3.3 MEETINGS OF MEMBERS.

(a) Actions requiring the vote of the Members may be taken at any duly constituted meeting of the Members at which a quorum is present. Meetings of the Members may be called by the Board or by Members holding a majority of the total number of votes eligible to be cast by all Members, and may be held at such time, date, and place as the Board shall determine. The Board shall arrange to provide written notice of the meeting, stating the date, time, and place of the meeting and the record date therefor, to each Member entitled to

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

vote at the meeting within a reasonable time prior thereto. Failure to receive notice of a meeting on the part of any Member shall not affect the validity of any act or proceeding of the meeting, so long as a quorum shall be present at the meeting. Only matters set forth in the notice of a meeting may be voted on by the Members at a meeting. The presence in person or by proxy of Members holding a majority of the total number of votes eligible to be cast by all Members as of the record date shall constitute a quorum at any meeting. In the absence of a quorum, a meeting of the Members may be adjourned by action of a majority of the Members present in person or by proxy without additional notice to the Members. Except as otherwise required by any provision of this Agreement or of the 1940 Act: (i) those candidates receiving a plurality of the votes cast at any meeting of Members shall be elected as Directors; and (ii) all other actions of the Members taken at a meeting shall require the affirmative vote of Members holding a majority of the total number of votes eligible to be cast by those Members who are present in person or by proxy at such meeting.

B-8

(b) Each Member (other than the Special Advisory Member) shall be entitled to cast at any meeting of Members a number of votes equivalent to such Member's Fund Percentage as of the record date for such meeting. The Board shall establish a record date not less than 10 nor more than 60 days prior to the date of any meeting of Members to determine eligibility to vote at such meeting and the number of votes which each Member will be entitled to cast thereat, and shall maintain for each such record date a list setting forth the name of each Member and the number of votes that each Member will be entitled to cast at the meeting.

(c) A Member may vote at any meeting of Members by a proxy properly executed in writing by the Member and filed with the Fund before or at the time of the meeting. A proxy may be suspended or revoked, as the case may be, by the Member executing the proxy by a later writing delivered to the Fund at any time prior to exercise of the proxy or if the Member executing the proxy shall be present at the meeting and decide to vote in person. Any action of the Members that is permitted to be taken at a meeting of the Members may be taken without a meeting if consents in writing, setting forth the action taken, are signed by Members holding a majority of the total number of votes eligible to be cast or such greater percentage as may be required in order to approve such action.

3.4 CUSTODY OF ASSETS OF THE FUND. The physical possession of all funds, Securities, or other property of the Fund shall at all times, be held, controlled, and administered by one or more custodians retained by the Fund in accordance with the requirements of the 1940 Act.

3.5 OTHER ACTIVITIES OF MEMBERS AND DIRECTORS.

(a) The Directors shall not be required to devote full time to the affairs of the Fund, but shall devote such time as may reasonably be required to perform their obligations under this Agreement.

(b) Any Member, Director, or Affiliate of the foregoing may engage in or possess an interest in other business ventures or commercial dealings of every kind and description, independently or with others, including, but not limited to, acquisition and disposition of Securities, provision of investment advisory or brokerage services, serving as directors, officers, employees, advisers, or agents of other companies, partners of any partnership, members of any limited liability company, or trustees of any trust, or entering into

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

any other commercial arrangements. No Member shall have any rights in or to such activities of any other Member or Director, or any profits derived therefrom.

3.6 DUTY OF CARE.

(a) A Director shall not be liable to the Fund or to any of its Members for any loss or damage occasioned by any act or omission in the performance of the Director's services under this Agreement, unless it shall be determined by final judicial decision in a court of competent jurisdiction on the merits from which there is no further right to appeal that such loss is due to an act or omission of such person constituting willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of such Director's office or as otherwise required by law.

(b) A Member not in breach of any obligation hereunder or under any agreement pursuant to which the Member subscribed for an Interest shall be liable to the Fund, any other Member, or third parties only as required by the Delaware Act or otherwise provided in this Agreement.

3.7 INDEMNIFICATION.

(a) To the fullest extent permitted by law, the Fund shall, subject to Section 3.7(b) hereof, indemnify each Director (including for this purpose their executors, heirs, assigns, successors, or other legal representatives), the Investment Adviser and Tax Matters Member (including for this purpose each affiliate, shareholder, partner, member, officer, director, principal, employee, or agent of the Investment Adviser and the Tax Matters Member) and the executors, heirs, assigns, successors, or other legal representatives of each of the foregoing, and of any person who controls or is under common control, or otherwise affiliated, with the Investment Adviser or the Tax Matters Member (and their executors, heirs, assigns, successors, or other legal representatives) against all losses, claims, damages, liabilities, costs, and expenses, including, but not limited to, amounts paid in satisfaction of

B-9

judgments, in compromise, or as fines or penalties, and reasonable counsel fees, incurred in connection with the defense or disposition of any action, suit, investigation, or other proceeding, whether civil or criminal, before any judicial, arbitral, administrative, or legislative body, in which such indemnitee may be or may have been involved as a party or otherwise, or with which such indemnitee may be or may have been threatened, while in office or thereafter, by reason of being or having been a Director, the Investment Adviser, or the Tax Matters Member, as the case may be, of the Fund or the past or present performance of services to the Fund by such indemnitee, except to the extent such loss, claim, damage, liability, cost, or expense shall have been finally determined in a decision on the merits in any such action, suit, investigation, or other proceeding to have been incurred or suffered by such indemnitee by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of such indemnitee's office. The rights of indemnification provided under this Section 3.7 shall not be construed so as to provide for indemnification of an indemnitee for any liability (including liability under federal securities laws which, under certain circumstances, impose liability even on persons that act in good faith) to the extent (but only to the extent) that such indemnification would be in violation of applicable law, but shall be construed so as to effectuate the applicable provisions of this Section 3.7 to the fullest extent permitted

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

by law.

(b) Expenses, including reasonable counsel fees, so incurred by any such indemnitee (but excluding amounts paid in satisfaction of judgments, in compromise, or as fines or penalties), may be paid from time to time by the Fund in advance of the final disposition of any such action, suit, investigation, or proceeding upon receipt of an undertaking by or on behalf of such indemnitee to repay to the Fund amounts so paid if it shall ultimately be determined that indemnification of such expenses is not authorized under Section 3.7(a) hereof; provided, however, that: (i) such indemnitee shall provide security for such undertaking, (ii) the Fund shall be insured by or on behalf of such indemnitee against losses arising by reason of such indemnitee's failure to fulfill his or its undertaking; or (iii) a majority of the Directors (excluding any Director who is seeking advancement of expenses hereunder or is or has been a party to any action, suit, investigation, or proceeding involving claims similar to those involved in the action, suit, investigation, or proceeding giving rise to a claim for advancement of expenses hereunder) or independent legal counsel in a written opinion shall determine based on a review of readily available facts (as opposed to a full trial-type inquiry) that there is reason to believe such indemnitee ultimately will be entitled to indemnification.

(c) As to the disposition of any action, suit, investigation, or proceeding (whether by a compromise payment, pursuant to a consent decree, or otherwise) without an adjudication or a decision on the merits by a court of competent jurisdiction, or by any other body before which the proceeding shall have been brought, that an indemnitee is liable to the Fund or its Members by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of such indemnitee's office, indemnification shall be provided pursuant to Section 3.7(a) hereof if: (i) approved as in the best interests of the Fund by vote of a majority of the Directors (excluding any Director who is seeking indemnification hereunder or is or has been a party to any action, suit, investigation, or proceeding involving claims similar to those involved in the action, suit, investigation, or proceeding giving rise to a claim for advancement of expenses hereunder) upon a determination based upon a review of readily available facts (as opposed to a full trial-type inquiry) that such indemnitee acted in good faith and in the reasonable belief that such actions were in the best interests of the Fund and that such indemnitee is not liable to the Fund or its Members by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of such indemnitee's office; or (ii) the Directors secure a written opinion of independent legal counsel based upon a review of readily available facts (as opposed to a full trial-type inquiry) to the effect that such indemnitee acted in good faith and in the reasonable belief that such actions were in the best interests of the Fund and that such indemnitee is not liable to the Fund or its Members by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of such indemnitee's office.

(d) Any indemnification or advancement of expenses made pursuant to this Section 3.7 shall not prevent the recovery from any indemnitee of any such amount if such indemnitee subsequently shall be determined in a final decision on the merits in a court of competent jurisdiction in any action, suit, investigation, or proceeding involving the liability or expense that gave rise to such indemnification or advancement of expenses to be liable to the Fund or its Members by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of such indemnitee's office. In any suit brought by an indemnitee to enforce a right to indemnification under this Section 3.7 it shall be a defense that, and in any suit in the name of the Fund to recover any indemnification or advancement of expenses made pursuant to this Section 3.7 the Fund shall be entitled to

B-10

recover such expenses upon a final adjudication that, the indemnitee has not met the applicable standard of conduct set forth in this Section 3.7. In any such suit brought to enforce a right to indemnification or to recover any indemnification or advancement of expenses made pursuant to this Section 3.7, the burden of proving that the indemnitee is not entitled to be indemnified, or to any indemnification or advancement of expenses, under this Section 3.7 shall be on the Fund (or any Member acting derivatively or otherwise on behalf of the Fund or its Members).

(e) An indemnitee may not satisfy any right of indemnification or advancement of expenses granted in this Section 3.7 as to which he, she, or it may otherwise be entitled except out of the assets of the Fund, and no Member shall be personally liable with respect to any such claim for indemnification or advancement of expenses.

(f) The rights of indemnification provided hereunder shall not be exclusive of or affect any other rights to which any person may be entitled by contract or otherwise under law. Nothing contained in this Section 3.7 shall affect the power of the Fund to purchase and maintain liability insurance on behalf of any Director or other person.

3.8 FEES, EXPENSES, AND REIMBURSEMENT.

(a) The Board may cause the Fund to compensate each Director for his or her services hereunder. In addition, the Fund shall reimburse the Directors for reasonable out-of-pocket expenses incurred by them in performing their duties under this Agreement.

(b) The Fund shall bear all of its own operating expenses incurred in the business of the Fund other than those specifically required to be borne by the Investment Adviser or another party pursuant to a separate written agreement with the Fund. Expenses to be borne by the Fund include, but shall not be limited to: fees and expenses in connection with the organization of the Fund, including offering expenses; brokerage commissions; interest and fees on any borrowings by the Fund; fees and expenses of outside legal counsel (including fees and expenses associated with review of documentation for prospective investments by the Fund), including foreign legal counsel; independent auditors' fees; fees and expenses in connection with repurchase offers and any repurchases of Interests; taxes and governmental fees (including tax preparation fees); administration and custody fees; expenses of preparing, printing, and distributing offering memoranda and prospectuses, and any other sales material (and any supplements or amendments thereto), reports, notices, other communications to Members, and proxy materials; expenses of preparing, printing, and filing reports and other documents with government agencies; expenses of Members' meetings; expenses of corporate data processing and related services; Member recordkeeping and Member account services, fees, and disbursements; fees and expenses of the Directors not employed by the Investment Adviser or its Affiliates, the Distributor, or their respective affiliates; insurance premiums; extraordinary expenses such as litigation expenses; and such other types of expenses as may be approved from time to time by the Board. The Fund will also bear its allocable portion of the operating expenses of any master fund in which it invests (directly or indirectly), which expenses may include asset-based compensation payable to the Investment Adviser.

(1) The Investment Adviser shall be entitled to reimbursement from the Fund for any of the above expenses that it pays on behalf of the

Fund.

(c) Subject to procuring any required regulatory approvals, the Fund from time to time, alone or in conjunction with other accounts for which the Investment Adviser, or any Affiliate of the Investment Adviser, acts as general partner, managing member, or investment adviser, may purchase insurance in such amounts, from such insurers and on such terms as the Board shall determine.

B-11

ARTICLE IV
TERMINATION OF STATUS OF INVESTMENT ADVISER AND DIRECTORS;
TRANSFERS, REPURCHASES, AND REDEMPTIONS

4.1 TERMINATION OF STATUS OF THE INVESTMENT ADVISER. The status of the Investment Adviser shall terminate if the Investment Management Agreement with the Investment Adviser terminates and the Master Fund does not enter into a new Investment Management Agreement with the Investment Adviser, effective as of the date of such termination.

4.2 TERMINATION OF STATUS OF A DIRECTOR. The status of a Director shall terminate if the Director: (i) shall die; (ii) shall be adjudicated incompetent; (iii) shall voluntarily withdraw as a Director (upon not less than 90 days' prior written notice to the other Directors, unless the other Directors waive such notice); (iv) shall be removed; (v) shall be certified by a physician to be mentally or physically unable to perform his or her duties hereunder; (vi) shall be declared bankrupt by a court with appropriate jurisdiction, file a petition commencing a voluntary case under any bankruptcy law, or make an assignment for the benefit of creditors; or (vii) shall have a receiver appointed to administer the property or affairs of such Director.

4.3 REMOVAL OF THE DIRECTORS. Any Director may be removed by: (i) the vote or written consent of at least two-thirds (2/3) of the Directors not subject to the removal or vote; or (ii) the vote or written consent of Members holding not less than two-thirds (2/3) of the total number of votes eligible to be cast by all Members.

4.4 TRANSFER OF INTERESTS OF MEMBERS.

(a) An Interest held by a Member may be transferred in whole or in part only: (i) by operation of law pursuant to the death, divorce, bankruptcy, insolvency, or dissolution of such Member; or (ii) under extremely limited circumstances, with the written consent of the Board (which may be withheld for any reason in its sole and absolute discretion). If any transferee does not meet such investor eligibility requirements, the Fund reserves the right to redeem its Interest. If the Board does not consent to a transfer by operation of law, the Fund shall redeem the Interest from the Member's successor. Any transfer must comply with the Securities Act. The Board generally will not consent to a transfer unless the transfer is: (i) one in which the tax basis of the Interest in the hands of the transferee is determined, in whole or in part, by reference to its tax basis in the hands of the transferring Member (e.g., certain gifts and contributions to family entities); or (ii) to members of the transferring Member's immediate family

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

(siblings, spouse, parents, and children). The foregoing permitted transferees will not be allowed to become substituted Members without the consent of the Board, which may be withheld in its sole and absolute discretion. Each transferring Member and transferee agrees to pay all expenses, including, but not limited, to attorneys' and accountants' fees, incurred by the Fund in connection with any transfer.

(b) By subscribing for an Interest, each Member agrees to indemnify and hold harmless the Fund, the Board, the Investment Adviser, or each other Member, and any Affiliate of the foregoing against all losses, claims, damages, liabilities, costs, and expenses (including legal or other expenses incurred in investigating or defending against any losses, claims, damages, liabilities, costs, and expenses or any judgments, fines, and amounts paid in settlement), joint or several, to which such persons may become subject by reason of or arising from any transfer made by that Member in violation of this Section 4.4 or any misrepresentation made by that Member in connection with any such transfer.

(c) Each transferring Member shall indemnify and hold harmless the Fund, the Board, the Investment Adviser, or each other Member and any Affiliate of the foregoing against all losses, claims, damages, liabilities, costs, and expenses (including legal or other expenses incurred in investigating or defending against any such losses, claims, damages, liabilities, costs, and expenses or any judgments, fines, and amounts paid in settlement), joint or several, to which such persons may become subject by reason of or arising from: (i) any transfer made by such

B-12

Member in violation of this Section 4.4; and (ii) any misrepresentation by such Member in connection with any such transfer.

(d) The Special Advisory Member may not transfer its Interest.

4.5 REPURCHASE OF INTERESTS.

(a) General. Except as otherwise provided in this Agreement, no Member or other person holding an Interest or portion thereof shall have the right to require the Fund to redeem its Interest. The Board of the Fund, from time to time, and in its sole and absolute discretion, may determine to cause the Fund to offer to repurchase Interests from Members, including the Investment Adviser, on such terms and conditions as set forth in this Agreement. However, the Fund shall not offer to repurchase Interests (including the Interest held by the Special Advisory Member) on more than two occasions during any one Fiscal Year unless it has been advised by counsel to the Fund to the effect that more frequent offers would not cause any adverse tax consequences to the Fund or its Members. In accordance with the terms and conditions as are set forth in this Agreement, in determining whether to cause the Fund to repurchase Interests pursuant to written requests by Members, the Board shall consider, among other things, the recommendation of the Investment Adviser and shall also consider the following factors, among others, in making such determination:

- (1) whether any Members have requested that the Fund repurchase their Interests;
- (2) the liquidity of the Fund's assets;
- (3) the investment plans and working capital requirements of the

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Fund;

- (4) the relative economies of scale with respect to the size of the Fund;
- (5) the history of the Fund in repurchasing Interests;
- (6) the economic condition of the securities markets; or
- (7) the anticipated tax consequences of any proposed repurchases of Interests.

(b) Discretionary Repurchases. The Board shall cause the Fund to repurchase Interests on terms fair to the Fund and to all Members or one or more classes of Members (including persons holding Interests acquired from Members), as applicable, in the following manner:

(1) The Board will provide written notice to Members when it has determined, in its sole and absolute discretion, that the Fund will repurchase Interests. Such notice will describe the terms of the repurchase offer, including:

- (i) the commencement date of the repurchase offer;
- (ii) the date on which repurchase requests must be received by the Fund (the "Repurchase Request Deadline"); and
- (iii) other information that Members should consider in deciding whether and how to participate in such repurchase opportunity.

(2) Members must submit, in writing, requests for repurchase to the Fund or its designated agent. The Repurchase Request Deadline will be a date set by the Board occurring no sooner than 20 business days after the commencement date of the repurchase offer and such Repurchase Request Deadline may be extended by the Board in its sole and absolute discretion. The Fund will not accept any repurchase request received by it or its designated agent after the Repurchase Request Deadline.

B-13

(3) Payment for Interests, accepted by the Fund for repurchase will be made in whole or in part in accordance with Section 4.5(b)(6). The amount due to any Member tendering all of its Interest in the Fund will be equal to the value of the Member's Capital Account based on the estimated unaudited net asset value of the Fund's assets as of the effective date of repurchase (the "Full Repurchase Valuation Date"), after giving effect to all allocations to be made to the Member's Capital Account as of such date. The Full Repurchase Valuation Date will be approximately 65 days after the Repurchase Request Deadline. Members who tender a portion of their Interests in the Fund (defined as a specific dollar value) in their repurchase request, and which portion is accepted for repurchase by the Fund, shall receive such specified dollar amount.

(4) The Fund may suspend or postpone any repurchase offer, by vote of a majority of the Board, including a majority of the Independent Directors, including but not limited to:

- (i) for any period during which an emergency exists as a result

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

of which it is not reasonably practicable for the Fund to dispose of securities it owns or to determine the value of the Fund's net assets;

(ii) for any other periods that the SEC permits by order for the protection of Members; or

(iii) under such other unusual circumstances as the Board deems advisable for the benefit of the Fund and its Members.

(5) The Board, in its sole and absolute discretion, shall determine the amount of Interests to be repurchased, if any. If a greater amount of Interests is submitted for repurchase by Members as of the Repurchase Request Deadline than the repurchase offer amount, as determined by the Board in its sole and absolute discretion, the Fund may repurchase an additional amount of Interests not to exceed 2% of the Interests outstanding on the Repurchase Request Deadline. If the Board determines not to repurchase more than the repurchase offer amount or if Members submit for repurchase Interests in an amount exceeding the repurchase offer amount plus 2% of the Interests outstanding on the Repurchase Request Deadline, the Fund shall repurchase the Interests submitted for repurchase on a pro rata basis, disregarding fractions, according to the amount of Interests submitted for repurchase by each Member as of the Repurchase Request Deadline; provided, however, that this provision shall not prohibit the Fund from:

(i) accepting all Interests submitted for repurchase by Members who own, beneficially or of record, an aggregate of not more than a specified percentage of such Interest and who submit for repurchase all their Interest, before prorating Interests submitted for repurchase by other Members; or

(ii) accepting by lot Interests submitted for repurchase by Members who offer all the Interest held by them or who, when submitting for repurchase their Interest, elect to have either all or none or at least a minimum amount or none accepted, if the Fund first accepts all Interests submitted for repurchase by Members who do not so elect.

(6) Repurchases of Interests or portions thereof by the Fund shall be payable after the date of each such repurchase or, in the case of an offer by the Fund to repurchase Interests, after the expiration date of such repurchase offer in accordance with the terms of such offer. Payment of the purchase price for an Interest (or portion thereof) shall be made within five days of the relevant Repurchase Request Deadline, and shall consist of cash or a promissory note, which need not bear interest, in an amount equal to 100% of the unaudited net asset value of the portion of the Interest redeemed. Notwithstanding the foregoing, if a Member has requested the repurchase of 90% or more of the Interest held by such Member, such Member shall receive: (i) cash or a promissory note, which need not bear interest, in an amount equal to 90% of the estimated unaudited net asset value of the Interest (or portion thereof) repurchased by the Fund determined as of the Full Repurchase Valuation Date (the "Initial Payment"); (ii) a promissory note entitling the holder thereof to the balance of the proceeds, to be paid following the expiration of the later of (x) 90 days following the applicable Full Repurchase Valuation Date, so as to effectuate an orderly liquidation of

enough Investment Funds in which the Fund is invested or otherwise, or (y) such longer period as the Board of Directors in its discretion deems necessary to protect the interests of the remaining Members. Notwithstanding anything in the foregoing to the contrary, the Board of Directors, in its discretion, may pay any portion of the repurchase price in Securities (or any combination of Securities and cash) having a value, determined as of the Full Repurchase Valuation Date, equal to the amount to be repurchased; provided that the Board of Directors, in its discretion, may make payment of the purchase price for an Interest by in-kind distribution of Securities held by the Fund. The purchase price of an Interest will be determined as of the Full Repurchase Valuation Date.

(7) The Board may, in its sole and absolute discretion, elect to impose charges on Members or other persons who submit their Interests for repurchase. The Board may also, in its sole and absolute discretion, allocate to tendering Members withdrawal or similar charges imposed by Investment Funds if the Fund has requested withdrawal of its capital from any Investment Funds in order to fund the repurchase of Interests and such charges were imposed on the Fund.

(8) A Member who submits for repurchase only a portion of such Member's Interest shall be required to maintain a Capital Account balance at least equal to \$25,000.

(9) The Investment Adviser may submit for repurchase its Interest as a Member under Section 4.5 hereof.

(10) If the Investment Adviser's status as a Special Advisory Member is terminated, it (or its trustee or other legal representative) may, by written notice to the Board within 60 days of the effective date of such termination, tender to the Fund for repurchase all or any portion of its Capital Account. Not later than 30 days after the receipt of such notice, the Board shall cause the tendered portion of the Capital Account to be repurchased by the Fund for cash.

(c) Mandatory Redemptions. The Board may cause the Fund to redeem the Interest of a Member or of any person acquiring such an Interest from or through a Member in the event that the Board determines or has reason to believe that, among other things:

(1) such Interest has been transferred or such Interest has vested in any person by operation of law as a result of the death, dissolution, bankruptcy, or incompetency of a Member;

(2) ownership of such Interest by a Member or other person will cause the Fund to be in violation of, or require registration of any Interests, or subject the Fund or the Investment Adviser to additional registration or regulation under, the securities, commodities, or other laws of the United States or any other relevant jurisdiction;

(3) continued ownership of such Interest may be harmful or injurious to the business or reputation of the Fund or the Investment Adviser, or may subject the Fund or any of its Members to an undue risk of adverse tax or other fiscal consequences;

(4) for any period during which an emergency exists as a result of which it is not reasonably practicable for the Fund to dispose of securities it owns or to determine the value of the Fund's net assets;

(5) any representation or warranty made by a Member in connection

with the acquisition of such Interest was not true when made or has ceased to be true; or

(6) it would be in the best interests of the Fund, as determined by the Board in its sole and absolute discretion, for the Fund to redeem such Interest.

B-15

ARTICLE V
CAPITAL

5.1 CONTRIBUTIONS TO CAPITAL.

(a) The minimum Capital Contribution of each Member to the capital of the Fund shall be such amount as the Board in its sole and absolute discretion may determine from time to time. The amount of the initial Capital Contribution of each Member shall be recorded on the books and records of the Fund upon acceptance as a contribution to the capital of the Fund. The Directors shall not be entitled to make voluntary contributions of capital to the Fund as Directors of the Fund, but may make voluntary contributions to the capital of the Fund as Members. The Investment Adviser may make voluntary contributions to the capital of the Fund as a Member.

(b) If permitted by the Board, a Member and the Investment Adviser, as a Member, may make additional Capital Contributions of the Fund, effective as of such times as the Board in its discretion may permit, subject to the limitations applicable to the admission of Members pursuant to this Agreement. No Member shall be obligated to make any additional Capital Contribution except to the extent provided in this Agreement.

(c) Except as otherwise permitted by the Board, initial and any additional contributions to the capital of the Fund by any Member shall be payable in cash.

(d) The minimum initial and additional Capital Contributions may be increased or reduced by the Board.

(e) The Fund shall increase the Interest of any Member making an additional Capital Contribution.

5.2 RIGHTS OF MEMBERS TO CAPITAL.

No Member shall be entitled to interest on his or its contribution to the capital of the Fund, nor shall any Member be entitled to the return of any capital of the Fund except as otherwise specifically provided herein. No Member shall be liable for the return of any such amounts. No Member shall have the right to require partition of the Fund's property or to compel any sale or appraisal of the Fund's assets.

5.3 CAPITAL ACCOUNTS.

(a) The Fund shall maintain a separate Capital Account for each Member.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

(b) Each Member's Capital Account shall have an initial balance equal to the amount of cash constituting such Member's Net Capital Contribution.

(c) Each Member's Capital Account shall be increased by the sum of: (i) the amount of cash constituting additional contributions by such Member to the capital of the Fund permitted pursuant to Section 5.1; plus (ii) any amount credited to such Member's Capital Account pursuant to this Article V.

(d) Each Member's Capital Account shall be reduced by the sum of: (i) the amount of any repurchase of the Interest, or portion thereof, of such Member or distributions to such Member pursuant to this Agreement; plus (ii) any amounts debited against such Member's Capital Account pursuant to this Article V.

(e) If all or a portion of the Interest of a Member is transferred in accordance with the terms of this Agreement, the transferee shall succeed to the Capital Account of the transferor to the extent it relates to the transferred Interest or relevant portion thereof.

5.4 ALLOCATION OF NET PROFIT AND LOSS.

B-16

As of the last day of each Fiscal Period, any Net Profit or Net Loss for the Fiscal Period shall be allocated among and credited to or debited against the Capital Accounts of the Members (including the Capital Account of the Special Advisory Member) in accordance with their respective Fund Percentages for such Fiscal Period.

5.5 INCENTIVE ALLOCATION

(a) Subject to the provisions of the 1940 Act and the Advisers Act, at the end of each Performance Period (as defined below), a reallocation (the "Incentive Allocation") will be made from the Capital Account of each Member (other than the Special Advisory Member) to the Capital Account of the Special Advisory Member. The Incentive Allocation will be calculated separately with respect to each Member's Capital Account and will be equal to 10% of the amount, if any, by which (i) the Net Profit, if any, initially allocated to such Member's Capital Account during such Performance Period in excess of the Hurdle (as defined below) for such Performance Period exceeds (ii) the positive balance, if any, as of the beginning of such Performance Period in such Member's Loss Carryforward Account (as defined below). Each "Performance Period" shall commence on either the initial Closing for such Interest and/or the first day immediately following the end of the immediately preceding Performance Period, as the case may be, and shall end on March 31 of each year (beginning March 31, 2005), as of the date of any partial or complete withdrawal of Interests with respect to the portion withdrawn and upon termination of the Fund. The "Hurdle Rate" for any Performance Period with respect to any Capital Account shall be calculated monthly and equals the average of the weekly average 90-day U.S. Treasury bill rates for that month as reported in the Federal Reserve Bulletin H-15 (or other available source) during such month. The "Hurdle" shall be recalculated for each Performance Period and shall be equal to the product of (x) the average of the Hurdle Rates during such Performance Period and (y) the balance of such Capital Account at the beginning of such Performance Period; provided, that the Hurdle shall be adjusted appropriately for additional Capital Contributions or repurchases made in respect of the relevant Member during such Performance Period.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

(b) For purposes of calculating the Incentive Allocation, there shall be established for each Capital Account a corresponding memorandum account each of which shall be designated a "Loss Carryforward Account." Each Loss Carryforward Account shall have an initial balance of zero and shall be adjusted as follows: as of the last day of each time period described in Sec. 5.4, the balance of such Loss Carryforward Account shall be increased by the aggregate amount of Net Loss, if any, allocable to such Capital Account with respect to such time period and shall be decreased (but not below zero) by the aggregate amount of Net Profit, if any, allocable to such Capital Account with respect to such time period. In the event of a withdrawal from or distribution to a Member from a Capital Account, the corresponding Loss Carryforward Account shall be further adjusted as of the date such withdrawal or distribution is effective by decreasing any positive balance of such Loss Carryforward Account (but not below zero) by an amount determined by multiplying (i) such positive balance by (ii) a fraction, of which (y) the numerator is equal to the amount withdrawn or distributed and (z) the denominator is equal to the balance of such Capital Account immediately before giving effect to such withdrawal or distribution.

(c) For the purposes of calculating an Incentive Allocation or a Loss Carryforward Account, Net Profit and Net Loss allocable to any Capital Account for any Performance Period shall be calculated by taking into account the amount of any Advisory Fee debited from such Member's Capital Account for such Performance Period.

(d) The Manager shall have the right to amend, with the consent of the Members, this Section 5.5 so that the Incentive Allocation conforms to any applicable requirements of the SEC and other regulatory authorities; provided, however, that no such amendment shall increase the Incentive Allocation applicable to any Member at the time of such amendment.

5.6 ALLOCATION OF CERTAIN WITHHOLDING TAXES AND OTHER EXPENDITURES.

(a) If the Fund incurs a withholding tax or other tax obligation with respect to the share of Fund income allocable to any Member, then the Board, without limitation of any other rights of the Fund or the Board, shall cause the amount of such obligation to be debited against the Capital Account of such Member when the Fund pays such obligation, and any amounts then or thereafter distributable to such Member shall be reduced by the amount of such taxes. If the amount of such taxes is greater than any such distributable amounts, then such Member and any successor to such Member's Interest shall pay to the Fund as a contribution to the capital of the Fund, upon

B-17

demand of the Fund, the amount of such excess. The Fund shall not be obligated to apply for or obtain a reduction of or exemption from withholding tax on behalf of any Member that may be eligible for such reduction or exemption; provided, that in the event that the Fund determines that a Member is eligible for a refund of any withholding tax, the Fund may, at the request and expense of such Member, assist such Member in applying for such refund.

(b) Except as otherwise provided for in this Agreement and unless prohibited by the 1940 Act, any expenditures payable by the Fund, to the extent determined by the Board to have been paid or withheld on behalf of, or by reason of particular circumstances applicable to, one or more but fewer than all of the Members, shall be charged to only those Members on whose behalf such payments are made or whose particular circumstances gave rise to such payments. Such charges shall be debited from the Capital Accounts of such

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Members as of the close of the Fiscal Period during which any such items were paid or accrued by the Fund.

5.7 RESERVES.

(a) Appropriate reserves may be created, accrued, and charged against Net Assets and proportionately against the Capital Accounts of the Members for contingent liabilities, if any, as of the date any such contingent liability becomes known to the Investment Adviser or the Board, such reserves to be in the amounts which the Board in its sole and absolute discretion deems necessary or appropriate. The Board may increase or reduce any such reserves from time to time by such amounts as it in its sole and absolute discretion deems necessary or appropriate. The amount of any such reserve, or any increase or decrease therein, may be proportionately charged or credited, as appropriate, to the Members' Capital Accounts. The amount of any such reserve, or any increase or decrease therein, may be proportionately charged or credited, as appropriate, to the Capital Accounts of those parties who are Members at the time when such reserve is created, increased, or decreased, as the case may be; provided, however, that if any such individual reserve item, adjusted by any increase therein, exceeds the lesser of \$500,000 or 1% of the aggregate value of the Capital Accounts of all such Members, the amount of such reserve, increase, or decrease shall instead be charged or credited to those parties who were Members at the time, as determined by the Board in its sole and absolute discretion, of the act or omission giving rise to the contingent liability for which the reserve was established, increased, or decreased in proportion to their Capital Accounts at that time.

(b) To the extent permitted under applicable law, if at any time an amount is paid or received by the Fund (other than contributions to the capital of the Fund, distributions, or repurchases of Interests or portions thereof) and such amount exceeds the lesser of \$500,000 or 1% of the aggregate value of the Capital Accounts of all Members at the time of payment or receipt and such amount was not accrued or reserved for but would nevertheless, in accordance with the Fund's accounting practices, be treated as applicable to one or more prior Fiscal Periods, then such amount shall be proportionately charged or credited, as appropriate, to those parties who were Members during such prior Fiscal Period or Periods.

(c) To the extent permitted under applicable law, if any amount is required by paragraph (a) or (b) of this Section 5.7 to be charged or credited to a party who is no longer a Member, such amount shall be paid by or to such party, as the case may be, in cash, with interest from the date on which the Board determines that such charge or credit is required. In the case of a charge, the former Member shall be obligated to pay the amount of the charge, plus interest as provided above, to the Fund on demand; provided, however, that: (i) in no event shall a former Member be obligated to make a payment exceeding the amount of such Member's Capital Account at the time to which the charge relates; and (ii) no such demand shall be made after the expiration of three years since the date on which such party ceased to be a Member. To the extent that a former Member fails to pay to the Fund, in full, any amount required to be charged to such former Member pursuant to paragraph (a) or (b), whether due to the expiration of the applicable limitation period or for any other reason whatsoever, the deficiency shall be charged proportionately to the Capital Accounts of the Members at the time of the act or omission giving rise to the charge to the extent feasible, and otherwise proportionately to the Capital Accounts of the current Members.

5.8 TAX ALLOCATIONS.

(a) For each Fiscal Year, items of income, deduction, gain, loss, or credit shall be allocated for income tax purposes among the Members in such a manner as to reflect equitably amounts credited or debited to each Member's

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Capital Account for the current and prior Fiscal Years (or relevant portions thereof). Allocations

B-18

under this Section 5.8 shall be made pursuant to the principles of Sections 704(b) and 704(c) of the Code, and in conformity with Treasury Regulations Sections 1.704-1(b)(2)(iv)(f), 1.704-1(b)(4)(i), and 1.704-3(e) promulgated thereunder, as applicable, or the successor provisions to such Section and Regulations. Notwithstanding anything to the contrary in this Agreement, there shall be allocated to the Members such gains or income as shall be necessary to satisfy the "qualified income offset" requirement of Treasury Regulations Section 1.704-1(b)(2)(ii)(d).

(b) If the Fund realizes gains for Federal income tax purposes for any Fiscal Year during or as of the end of which one or more Positive Basis Members (as hereinafter defined) withdraws from the Fund pursuant to Articles IV or VI hereof or, in the case of the Special Advisory Member, receives an Incentive Allocation that creates a Positive Basis (as hereinafter defined), the Board, in its sole and absolute discretion, may elect to allocate such gains as follows: (i) to allocate such gains among such Positive Basis Members, pro rata in proportion to the respective Positive Basis of each such Positive Basis Member, until either the full amount of such gains shall have been so allocated or the Positive Basis of each such Positive Basis Member shall have been eliminated; and (ii) to allocate any gains not so allocated to Positive Basis Members to the other Members in such manner as shall equitably reflect the amounts credited to such Members' Capital Accounts pursuant to this Agreement.

(c) If the Fund realizes losses for Federal income tax purposes for any Fiscal Year during or as of the end of which one or more Negative Basis Members (as hereinafter defined) withdraws from the Fund pursuant to Articles IV or VI hereof, the Board, in its sole and absolute discretion, may elect to allocate such losses as follows: (i) to allocate losses among such Negative Basis Members, pro rata in proportion to the respective Negative Basis (as hereinafter defined) of each such Negative Basis Member, until either the full amount of such losses have been so allocated or the Negative Basis of each such Negative Basis Member shall have been eliminated; and (ii) to allocate losses not so allocated to Negative Basis Members to the other Members in such manner as shall equitably reflect the amounts credited to such Members' Capital Accounts pursuant to this Agreement.

(d) As used herein: (i) the term "Positive Basis" shall mean, with respect to any Member (including the Special Advisory Member) and as of any time of calculation, the amount by which the total of such Member's Capital Account as of such time exceeds its "adjusted tax basis," for Federal income tax purposes, in its Interest as of such time (determined without regard to any adjustments made to such "adjusted tax basis" by reason of any transfer or assignment of such Interest, including by reason of death and without regard to such Member's share of the liabilities of the Fund under Section 752 of the Code); (ii) the term "Positive Basis Member" shall mean any Member who withdraws from the Fund and who has a Positive Basis as of the effective date of its withdrawal or, in the case of the Special Advisory Member, receives an Incentive Allocation that creates a Positive Basis for such Special Advisory Member as of the date of receipt of such Incentive Allocation, but such Member shall cease to be a Positive Basis Member at such time as it shall have received allocations pursuant to clause (i) of the Section 5.8(b) above equal to its Positive Basis as of the effective date of its withdrawal, or, in the case of the Special Advisory Member, as of the date of receipt of such

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Incentive Allocation; (iii) the term "Negative Basis" shall mean, with respect to any Member (including the Special Advisory Member) and as of any time of calculation, the amount by which the total of such Member's Capital Account as of such time is less than its "adjusted tax basis," for Federal income tax purposes, in its Interest as of such time (determined without regard to any adjustments made to such "adjusted tax basis" by reason of any transfer or assignment of such Interest, including by reason of death and without regard to such Member's share of the liabilities of the Fund under Section 752 of the Code); and (iv) the term "Negative Basis Member" shall mean any Member who withdraws from the Fund and who has a Negative Basis as of the effective date of its withdrawal but such Member shall cease to be a Negative Basis Member at such time as it shall have received allocations pursuant to clause (i) of Section 5.8(c) above equal to its Negative Basis as of the effective date of its withdrawal.

5.9 DISTRIBUTIONS.

(a) The Board, in its sole and absolute discretion, may authorize the Fund to make distributions in cash at any time to all of the Members on a pro rata basis in accordance with each Member's Fund Percentage.

(b) The Board may withhold and pay over to the Internal Revenue Service (or any other relevant taxing authority) taxes from any distribution to any Member to the extent required by the Code or any other applicable law. For purposes of this Agreement, any taxes so withheld by the Fund with respect to any amount distributed by the Fund to any Member shall be deemed to be a distribution or payment to such Member, reducing

B-19

the amount otherwise distributable to such Member pursuant to this Agreement and, if appropriate, reducing the Capital Account of such Member. If the amount of such taxes is greater than any such distributable amounts, then such Member and any successor to such Member's Interest shall pay to the Fund as a contribution to the capital of the Fund, upon demand of the Board, the amount of such excess.

(c) The Board shall not be obligated to apply for or obtain a reduction of or exemption from withholding tax on behalf of any Member that may be eligible for such reduction or exemption. To the extent that a Member claims to be entitled to a reduced rate of, or exemption from, a withholding tax pursuant to an applicable income tax treaty, or otherwise, the Member shall furnish the Board with such information and forms as such Member may be required to complete where necessary to comply with any and all laws and regulations governing the obligations of withholding tax agents. Each Member represents and warrants that any such information and forms furnished by such Member shall be true and accurate and agrees to indemnify the Fund and each of the Members from any and all damages, costs, and expenses resulting from the filing of inaccurate or incomplete information or forms relating to such withholding taxes.

(d) Notwithstanding anything to the contrary contained herein, none of the Directors or the Members, nor any other person on behalf of the Fund, shall make a distribution to the Members on account of their interests in the Fund if such distribution would violate the Delaware Act or other applicable law.

(e) The amount and times of any distributions will be determined in the sole and absolute discretion of the Board.

5.10 ALLOCATION OF ORGANIZATIONAL, OFFERING, AND CERTAIN OTHER EXPENSES. Organizational Expenses shall generally be amortized over a twelve month period beginning upon commencement of the Fund's operations. Offering Expenses, and any other expenses in connection with offering Interests of the Fund and/or any expenses related to or in connection with any transfer of Interests and/or repurchasing Interests pursuant to Section 4.5, shall generally be treated as expenses of the Fund included in the computation of Net Profit and/or Net Loss (except to the extent that the Investment Adviser or another party determines in its discretion that it will assume, reimburse, and/or waive such expense). The Board may alternatively choose to amortize such expenses over a period of time to be determined by the Board. The Board may also allocate organizational and offering expenses (on an Expense Allocation Date or on such other date chosen by the Board) among the Members in a manner that allocates such expenses to Members purchasing Interests in one or more offerings of Interests. The Board may also allocate expenses of any transfer of Interests to either the transferor and/or transferee and expenses of any repurchase of Interests may be allocated to the Members whose Interests are repurchased.

ARTICLE VI
DISSOLUTION AND LIQUIDATION

6.1 DISSOLUTION.

(a) The Fund shall be dissolved at any time there are no Members, unless the Fund is continued in accordance with the Delaware Act, or upon the occurrence of any of the following events:

(i) upon the affirmative vote to dissolve the Fund by: (i) the Board; or (ii) Members holding at least two-thirds (2/3) of the total number of votes eligible to be cast by all Members;

(ii) upon the failure of Members to elect a successor Board member at a meeting called by the Investment Adviser in accordance with this Agreement when no Board member remains to continue the business of the Fund;

B-20

(iii) if any Member that has submitted a written request, in accordance with the terms of the Operating Agreement, to tender all of such Member's Interest for repurchase by the Fund has not been given the opportunity to so tender within a period of two years after the request (whether in a single repurchase offer or multiple consecutive offers within the two-year period), provided, however, that a Member who intends to cause the Fund to be dissolved must so indicate in a separate written request submitted within the applicable two-year period; or

(iv) as required by operation of law.

(b) Dissolution of the Fund shall be effective on the day on which the event giving rise to the dissolution shall occur or the conclusion of any

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

applicable 60 day period during which the Board and Members may elect to continue the business of the Fund as provided herein, but the Fund shall not terminate until the assets of the Fund have been liquidated in accordance with Section 6.2 hereof and the Certificate has been canceled.

6.2 LIQUIDATION OF ASSETS.

(a) Upon the dissolution of the Fund as provided in Section 6.1 hereof, the Board, acting directly or through a liquidator it selects, shall promptly liquidate the business and administrative affairs of the Fund, except that if the Board is unable to perform this function, a liquidator elected by Members holding a majority of the total number of votes eligible to be cast by all Members shall promptly liquidate the business and administrative affairs of the Fund. Net Profit and Net Loss during the period of liquidation shall be allocated pursuant to Article V. The proceeds from liquidation (after establishment of appropriate reserves for contingencies in such amount as the Board or liquidator shall deem appropriate in its sole and absolute discretion as applicable) shall, subject to the Delaware Act, be distributed in the following manner:

(i) in satisfaction (whether by payment or the making of reasonable provision for payment thereof) of the debts and liabilities of the Fund, including the expenses of liquidation (including legal and accounting expenses incurred in connection therewith), but not including debt and liabilities to Members, up to and including the date that distribution of the Fund's assets to the Members has been completed, shall first be paid on a pro rata basis;

(ii) such debts, liabilities, or obligations as are owing to the Members shall be paid next in their order of seniority and on a pro rata basis;

(iii) the Special Advisory Member shall be paid next any positive balance in its Capital Account after giving effect to the Incentive Allocation, if any, to be made pursuant to Section 5.5(a) hereof; and

(iv) the Members shall be paid next on a pro rata basis the positive balances of their respective Capital Accounts after giving effect to all allocations to be made to such Members' Capital Accounts for the Fiscal Period ending on the date of the distributions under this Section 6.2(a) (iv).

(b) Anything in this Section 6.2 to the contrary notwithstanding, but subject to the priorities set forth in Section 6.2(a) above, upon dissolution of the Fund, the Board or other liquidator may distribute ratably in kind any assets of the Fund; provided, however, that if any in-kind distribution is to be made: (i) the assets distributed in kind shall be valued pursuant to Section 7.3 as of the actual date of their distribution and charged as so valued and distributed against amounts to be paid under Section 6.2(a) above; and (ii) any profit or loss attributable to property distributed in-kind shall be included in the Net Profit or Net Loss for the Fiscal Period ending on the date of such distribution.

B-21

ARTICLE VII

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

ACCOUNTING, VALUATIONS, AND BOOKS AND RECORDS

7.1 ACCOUNTING AND REPORTS.

(a) The Fund shall adopt for tax accounting purposes any accounting method that the Board shall decide in its sole and absolute discretion is in the best interests of the Fund. The Fund's accounts shall be maintained in U.S. currency.

(b) After the end of each taxable year, the Fund shall furnish to each Member such information regarding the operation of the Fund and such Member's Interest as is necessary for Members to complete Federal and state income tax or information returns and any other tax information required by federal, state, or local law.

(c) Except as otherwise required by the 1940 Act or as may otherwise be permitted by rule, regulation, or order, within 60 days after the close of the period for which a report required under this Section 7.1(c) is being made, the Fund shall furnish to each Member a semi-annual report containing the information required by the 1940 Act and an annual report containing the information required by the 1940 Act. The Fund shall cause financial statements contained in each annual report furnished hereunder to be accompanied by a certificate of independent public accountants based upon an audit performed in accordance with generally accepted accounting principles. The Fund may also furnish to each Member such other periodic reports as it deems necessary or appropriate in its discretion.

7.2 DETERMINATIONS BY THE BOARD.

(a) All matters concerning the determination and allocation among the Members of the amounts to be determined and allocated pursuant to Article V hereof, including any taxes thereon and accounting procedures applicable thereto, shall be determined by the Board (either directly or by the Investment Adviser pursuant to delegated authority) unless specifically and expressly otherwise provided for by the provisions of this Agreement or as required by law, and such determinations and allocations shall be final and binding on all the Members.

(b) The Board may make such adjustments to the computation of Net Profit or Net Loss or any components (withholding any items of income, gain, loss, or deduction) comprising any of the foregoing as it considers appropriate to reflect fairly and accurately the financial results of the Fund and the intended allocation thereof among the Members.

7.3 VALUATION OF ASSETS.

(a) Valuation of Securities and other assets shall be made by the Board in accordance with the requirements of the 1940 Act and the valuation procedures adopted by the Board.

(b) The value of Securities and other assets of the Fund and the net worth of the Fund as a whole and the Interests determined pursuant to this Section 7.3 shall be conclusive and binding on all of the Members and all parties claiming through or under them.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

8.1 AMENDMENT OF LIMITED LIABILITY COMPANY OPERATING AGREEMENT.

(a) Except as otherwise provided in this Section 8.1, this Agreement may be amended, in whole or in part, with the approval of: (i) the Board (including the vote of a majority of the Independent Directors, if required by the 1940 Act); or (ii) a majority (as defined in the 1940 Act) of the outstanding voting securities of the Fund.

(b) Any amendment that would:

(i) increase the obligation of a Member to make any contribution to the capital of the Fund;

(ii) reduce the Capital Account of a Member other than in accordance with Article V; or

(iii) modify the events causing the dissolution of the Fund

may be made only if: (i) the written consent of each Member adversely affected thereby is obtained prior to the effectiveness thereof; or (ii) such amendment does not become effective until (A) each Member has received written notice of such amendment and (B) any Member objecting to such amendment has been afforded a reasonable opportunity (pursuant to such procedures as may be prescribed by the Board) to offer his or her entire Interest for repurchase by the Fund.

(c) The power of the Board to amend this Agreement at any time without the consent of the Members may include, but is not limited to:

(i) restate this Agreement together with any amendments hereto that have been duly adopted in accordance with this Agreement to incorporate such amendments in a single, integrated document;

(ii) amend this Agreement (other than with respect to the matters set forth in Section 8.1(b) hereof) to effect compliance with any applicable law or regulation or to cure any ambiguity or to correct or supplement any provision hereof that may be inconsistent with any other provision hereof, provided that such action does not adversely affect the rights of any Member in any material respect; and

(iii) amend this Agreement to make such changes as may be necessary or desirable, based on advice of legal counsel to the Fund, to assure the Fund's continuing eligibility to be classified for U.S. Federal income tax purposes as a partnership that is not treated as a corporation under Section 7704(a) of the Code.

(d) The Board shall give written notice of any proposed amendment to this Agreement (other than any amendment of the type contemplated by clause (i) of Section 8.1(a) hereof) to each Member, which notice shall set forth: (i) the text of the proposed amendment; or (ii) a summary thereof and a statement that the text thereof will be furnished to any Member upon request.

8.2 SPECIAL POWER OF ATTORNEY.

(a) Each Member hereby irrevocably makes, constitutes, and appoints each Director, acting severally, and any liquidator of the Fund's assets appointed pursuant to Section 6.2 with full power of substitution, the true and lawful representatives and attorneys-in-fact of, and in the name, place, and stead of, such Member, with the power from time to time to make, execute, sign, acknowledge, swear to, verify, deliver, record, file, and/or publish:

(i) any amendment to this Agreement that complies with the provisions of this Agreement (including the provisions of Section 8.1 hereof);

(ii) any amendment to the Certificate required because this Agreement is amended or as otherwise required by the Delaware Act; and

(iii) all other such instruments, documents, and certificates that, in the opinion of legal counsel to the Fund, from time to time may be required by the laws of the United States of America, the State of Delaware, or any other jurisdiction in which the Fund shall determine to do business, or any political subdivision or agency thereof, or that such legal counsel may deem necessary or appropriate to effectuate, implement, and continue the valid existence and business of the Fund as a limited liability company under the Delaware Act.

(b) Each Member is aware that the terms of this Agreement permit certain amendments to this Agreement to be effected and certain other actions to be taken or omitted by or with respect to the Fund without such Member's consent. If an amendment to the Certificate or this Agreement or any action by or with respect to the Fund is taken in the manner contemplated by this Agreement, each Member agrees that, notwithstanding any objection that such Member may assert with respect to such action, the attorneys-in-fact appointed hereby are authorized and empowered, with full power of substitution, to exercise the authority granted above in any manner which may be necessary or appropriate to permit such amendment to be made or action lawfully taken or omitted. Each Member is fully aware that each Member will rely on the effectiveness of this special power-of-attorney with a view to the orderly administration of the affairs of the Fund.

(c) This power-of-attorney is a special power-of-attorney and is coupled with an interest in favor of each Director, acting severally, and any liquidator of the Fund's assets, appointed pursuant to Section 6.2 hereof, and as such:

(i) shall be irrevocable and continue in full force and effect notwithstanding the subsequent death or incapacity of any party granting this power-of-attorney, regardless of whether the Fund, the Board, or any liquidator shall have had notice thereof; and

(ii) shall survive the delivery of a Transfer by a Member of the whole or any portion of such Member's Interest, except that where the transferee thereof has been approved by the Board for admission to the Fund as a substituted Member, this power-of-attorney given by the transferor shall survive the delivery of such assignment for the sole purpose of enabling the Board or any liquidator to execute, acknowledge, and file any instrument necessary to effect such substitution.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

8.3 NOTICES.

(a) Notices that may be or are required to be provided under this Agreement shall be made, if to a Member, by regular postal mail, hand delivery, registered or certified mail return receipt requested, commercial courier service, telex, or telecopier, electronic mail, the internet, computer interface, or any other electronic method or device of document transfer or telegraphic or other written communication, or, if to the Fund, by regular postal mail, hand delivery, registered or certified mail return receipt requested, commercial courier service, telex, or telecopier, electronic mail, the internet, computer interface, or any other electronic method or device of document transfer or telegraphic or other written communication, and shall be addressed to the respective parties hereto at their addresses as set forth on the books and records of the Fund (or to such other addresses as may be designated by any

B-24

party hereto by notice addressed to the Fund in the case of notice given to any Member, and to each of the Members in the case of notice given to the Fund). Notices shall be deemed to have been provided when delivered by hand, on the date indicated as the date of receipt on a return receipt or when received if sent by regular mail, commercial courier service, telex, telecopier, telegraphic, electronic, or other means of written communication. A document that is not a notice and that is required to be provided under this Agreement by any party to another party may be delivered by any reasonable means.

(b) If any notice addressed to a Member at the address of that Member appearing on the books and records of the Fund is returned to the Fund marked to indicate that such notice is unable to be delivered to the Member at that address, all future notices or reports shall be deemed to have been duly given without further mailing if such future notices or reports shall be kept available to the Member, upon written demand of the Member, at the principal executive office of the Fund for a period of one year from the date of the giving of the notice.

8.4 AGREEMENT BINDING UPON SUCCESSORS AND ASSIGNS. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, successors, assigns, executors, trustees, or other legal representatives, but the rights and obligations of the parties hereunder may not be transferred or delegated except as provided in this Agreement and any attempted transfer or delegation thereof that is not made pursuant to the terms of this Agreement shall be void.

8.5 APPLICABILITY OF 1940 ACT AND FORM N-2. The parties hereto acknowledge that this Agreement is not intended to, and does not set forth the substantive provisions contained in the 1940 Act and the Form N-2 which affect numerous aspects of the conduct of the Fund's business and of the rights, privileges, and obligations of the Members. Each provision of this Agreement shall be subject to and interpreted in a manner consistent with the applicable provisions of the 1940 Act and the Form N-2 subject to any exemptive relief obtained thereunder relating to the Fund.

8.6 CHOICE OF LAW; ARBITRATION.

(a) Notwithstanding the place where this Agreement may be executed by any of the parties hereto, the parties expressly agree that all the terms and

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

provisions hereof shall be construed under the laws of the State of Delaware, including the Delaware Act, without regard to the conflict of law principles of the State of Delaware.

(b) Unless otherwise agreed in writing, each Member agrees to submit all controversies arising between or among Members or one or more Members and the Fund in connection with the Fund or its businesses or concerning any transaction, dispute, or the construction, performance, or breach of this or any other agreement, whether entered into prior to, on, or subsequent to the date hereof, to arbitration in accordance with the provisions set forth below. Each Member understands that:

(i) Arbitration is final and binding on the parties;

(ii) The parties are waiving their rights to seek remedies in court, including the right to jury trial;

(iii) Pre-arbitration discovery is generally more limited than and different from court proceedings;

(iv) The arbitrator's award is not required to include factual findings or legal reasoning and a party's right to appeal or to seek modification of rulings by arbitrators is strictly limited; and

(v) A panel of arbitrators will typically include a minority of arbitrators who were or are affiliated with the securities industry.

(c) All controversies that may arise among Members and one or more Members or the Special Advisory Member and the Fund concerning this Agreement shall be determined by arbitration in New York City in

B-25

accordance with the Federal Arbitration Act, to the fullest extent permitted by law. Any arbitration under this Agreement shall be determined before and in accordance with the rules then obtaining of either the New York Stock Exchange, Inc. (the "NYSE") or the NASD Regulation, Inc. (the "NASDR"), as the Member or entity instituting the arbitration may elect. If the NYSE or NASDR does not accept the arbitration for consideration, the arbitration shall be submitted to, and determined in accordance with the rules then obtaining of, the Center for Public Resources, Inc. in New York City. Judgment on any award of any such arbitration may be entered in the Supreme Court of the State of New York or in any other court having jurisdiction of the person or persons against whom such award is rendered. Any notice of such arbitration or for the confirmation of any award in any arbitration shall be sufficient if given in accordance with the provisions of this Agreement. Each Member agrees that the determination of the arbitrators shall be binding and conclusive upon the Member.

(d) No Member shall bring a putative or certified class action to arbitration, nor seek to enforce any pre-dispute arbitration agreement against any person who has initiated in court a putative class action or who is a Member of a putative class who has not opted out of the class with respect to any claims encompassed by the putative class action unless and until: (i) the class certification is denied; (ii) the class is decertified; or (iii) the Member is excluded from the class by the court. The forbearance to enforce an agreement to arbitrate shall not constitute a waiver of any rights under this Agreement except to the extent stated herein.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

8.7 NOT FOR BENEFIT OF CREDITORS. The provisions of this Agreement are intended only for the regulation of relations among past, present, and future Members (including the Special Advisory Member), Directors, and the Fund. This Agreement is not intended for the benefit of non-Member creditors and no rights are granted to non-Member creditors under this Agreement.

8.8 CONSENTS. Any and all consents, agreements, or approvals provided for or permitted by this Agreement shall be in writing and a signed copy thereof shall be filed and kept with the books of the Fund.

8.9 MERGER AND CONSOLIDATION.

(a) The Fund, as permitted by the 1940 Act, may merge or consolidate with or into one or more limited liability companies formed under the Delaware Act or other business entities (as defined in Section 18-209(a) of the Delaware Act) pursuant to an agreement of merger or consolidation which has been approved in the manner contemplated by Section 18-209(b) of the Delaware Act.

(b) Notwithstanding anything to the contrary contained elsewhere in this Agreement, an agreement of merger or consolidation approved in accordance with Section 18-209(b) of the Delaware Act may, to the extent permitted by Section 18-209(b) of the Delaware Act: (i) effect any amendment to this Agreement; (ii) effect the adoption of a new limited liability company operating agreement for the Fund if it is the surviving or resulting limited liability company in the merger or consolidation; or (iii) provide that the limited liability company operating agreement of any other constituent limited liability company to the merger or consolidation (including a limited liability company formed for the purpose of consummating the merger or consolidation) shall be the limited liability company operating agreement of the surviving or resulting limited liability company.

8.10 DIRECT INVESTMENT STRUCTURE. Subject to obtaining any required regulatory approval, the Fund may determine to invest its assets directly in non-U.S. Investment Funds that are classified as PFICs for U.S. federal income tax purposes. The Fund may pursue such an investment approach only if it believes that it could avoid generating UBTI by making such investments and the approach is approved by the Fund's Board of Directors. The Fund will provide Members with at least 90 days' notice before implementing such a change.

8.11 PRONOUNS. All pronouns shall be deemed to refer to the masculine, feminine, neuter, singular, or plural, as the identity of the person or persons, firm, or corporation may require in the context thereof.

8.12 CONFIDENTIALITY.

(a) A Member may obtain from the Fund, for any purpose reasonably related to the Member's Interest, certain confidential information regarding the business affairs or assets of the Fund as is just and reasonable

B-26

under the Delaware Act, subject to reasonable standards (including standards governing what information and documents are to be furnished, at what time and location, and at whose expense) established by the Board (the "Confidential Information").

(b) Each Member covenants that, except as required by applicable law or any regulatory body, it will not divulge, furnish, or make accessible to any

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

other person the name or address (whether business, residence, or mailing) of any Member or any other Confidential Information without the prior written consent of the Board, which consent may be withheld in its sole and absolute discretion.

(c) Each Member recognizes that in the event that this Section 8.12 is breached by any Member or any of its principals, partners, members, trustees, officers, directors, employees, or agents or any of its affiliates, including any of such affiliates' principals, partners, members, trustees, officers, directors, employees, or agents, irreparable injury may result to the non-breaching Members and the Fund. Accordingly, in addition to any and all other remedies at law or in equity to which the non-breaching Members and the Fund may be entitled, such Members also shall have the right to obtain equitable relief, including, without limitation, injunctive relief, to prevent any disclosure of Confidential Information, plus reasonable attorneys' fees and other litigation expenses incurred in connection therewith. In the event that any non-breaching Member or the Fund determines that any of the other Members or any of its principals, partners, members, trustees, officers, directors, employees, or agents or any of its affiliates, including any of such affiliates' principals, partners, members, directors, officers, employees, or agents should be enjoined from or required to take any action to prevent the disclosure of Confidential Information, each of the other non-breaching Members agrees to pursue in a court of appropriate jurisdiction such injunctive relief.

(d) The Fund shall have the right to keep confidential from the Members for such period of time as it deems reasonable any information that the Board reasonably believes to be in the nature of trade secrets or other information the disclosure of which the Board in good faith believes is not in the best interest of the Fund or could damage the Fund or its business or that the Fund is required by law or by agreement with a third party to keep confidential.

8.13 CERTIFICATION OF NON-FOREIGN STATUS. Each Member or transferee of an Interest from a Member that is admitted to the Fund in accordance with this Agreement shall certify, upon admission to the Fund and at such other time thereafter as the Board may request, whether he or she is a "United States Person" within the meaning of Section 7701(a)(30) of the Code on forms to be provided by the Fund, and shall notify the Fund within 30 days of any change in such Member's status. Any Member who shall fail to provide such certification when requested to do so by the Board may be treated as a non-United States Person for purposes of U.S. Federal tax withholding.

8.14 SEVERABILITY. If any provision of this Agreement is determined by a court of competent jurisdiction not to be enforceable in the manner set forth in this Agreement, each Member agrees that it is the intention of the Members that such provision should be enforceable to the maximum extent possible under applicable law. If any provisions of this Agreement are held to be invalid or unenforceable, such invalidation or unenforceability shall not affect the validity or enforceability of any other provision of this Agreement (or portion thereof).

8.15 ENTIRE AGREEMENT. This Agreement (including the Schedule attached hereto which is incorporated herein) constitutes the entire agreement among the parties hereto pertaining to the subject matter hereof and supersedes all prior agreements and understandings pertaining thereto.

8.16 DISCRETION. To the fullest extent permitted by law, whenever in this Agreement, a person is permitted or required to make a decision: (i) in its "sole discretion" or "discretion" or under a grant of similar authority or latitude, such person shall be entitled to consider only such interests and factors as it desires, including its own interests, and shall have no duty or obligation to give any consideration to any interest of or factors affecting

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

the Fund or the Members; or (ii) in its "good faith" or under another express standard, then such person shall act under such express standard and shall not be subject to any other or different standards imposed by this Agreement or any other agreement contemplated herein or by relevant provisions of law or in equity or otherwise.

B-27

8.17 COUNTERPARTS. This Agreement may be executed in several counterparts, all of which together shall constitute one agreement binding on all parties hereto, notwithstanding that all the parties have not signed the same counterpart.

8.18 TAX MATTERS MEMBER. The Investment Adviser shall be the "tax matters member" under the Code for the Fund unless another Member is so designated by the Board.

THE UNDERSIGNED ACKNOWLEDGES HAVING READ THIS AGREEMENT IN ITS ENTIRETY BEFORE SIGNING, INCLUDING THE PRE-DISPUTE ARBITRATION CLAUSES SET FORTH IN SECTION 8.6 AND THE CONFIDENTIALITY CLAUSES SET FORTH IN SECTION 8.12.

B-28

IN WITNESS WHEREOF, the parties hereto have executed this Agreement effective as of the day and year first above written.

STATEMENT OF ADDITIONAL INFORMATION

The Topiary Fund for Benefit Plan Investors (BPI) LLC

Limited Liability Company Interests

The telephone number of the Fund, including to request the Fund's Prospectus, is 1-888-262-0695.

Limited liability company interests ("Interests") of the Fund are sold by Scudder Distributors, Inc. ("Distributor"), the Fund's distributor, to clients and customers (including affiliates and correspondents) of DB Investment Managers, Inc. ("DBIM" or "Adviser"), the investment adviser to the Master Fund (as defined herein), and to clients and customers of other organizations. The Fund's Prospectus, which is dated July 25, 2005, provides the basic information investors should know before investing. This Statement of Additional Information ("SAI"), which is not a prospectus, is intended to provide additional information regarding the activities and operations of the Fund and should be read in conjunction with the Prospectus. You may request a copy of the Prospectus or a paper copy of this SAI, if you have received it electronically, free of charge by calling the Fund at the telephone number listed above. This SAI is not an offer of the Fund for which an investor has not received the Prospectus. Capitalized terms not otherwise defined in this SAI have meanings accorded to them in the Fund's Prospectus.

The date of this SAI and the related Prospectus is July 25, 2005.

ADDITIONAL INVESTMENT POLICIES

The investment objective and principal investment strategies of the Fund and the Master Fund, as well as the principal risks associated with the Fund's and the Master Fund's investment strategies, are set forth in the Prospectus. Certain additional investment information is provided below. The Investment Funds in which the Master Fund invests are not subject to the Master Fund's investment policies and may have different or contrary investment policies.

Unless otherwise specified, percentage limitations will be applied at the time of investment. Therefore, these percentages could be exceeded due to fluctuations in the value of the Fund's portfolio securities or liquidation of portfolio securities to pay expenses or fulfill repurchase requests.

Percentage Limitations

Unless otherwise specified, percentage limitations on investments will be applied at the time of investment. Therefore, these percentages could be exceeded due to fluctuations in the value of the Fund's portfolio securities

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

or liquidation of portfolio securities to fulfill repurchase requests (which the Board has, in its sole discretion, authorized) or to pay expenses. The Fund's stated fundamental policies, listed below, may not be changed without a majority vote of Members, which means the lesser of: (i) 67% of the Interests present at a meeting at which holders of more than 50% of the outstanding Interests are present in person or by proxy; or (ii) more than 50% of the outstanding Interests. No other policy, including the Fund's investment objective, is a fundamental policy of the Fund, except as expressly stated. Within the limits of the Fund's fundamental policies, the Fund's management has reserved freedom of action.

The Offshore Fund and the Master Fund have substantially the same fundamental investment restrictions as the Fund; such restrictions cannot be changed without the approval of the Board of the Fund, in the case of the Offshore Fund, and a majority of the outstanding voting securities of the Master Fund, in the case of the Master Fund. The Fund:

- (1) May borrow money or issue any senior security, to the extent permitted under the 1940 Act, and, as interpreted, modified, or otherwise permitted by regulatory authority having jurisdiction, from time to time.
- (2) May not invest more than 25% of the value of its total assets in the securities of a single industry, except that U.S. Government securities may be purchased without limitation. For purposes of this investment restriction, the Offshore Fund, the Master Fund, and the Investment Funds will not be considered part of any industry. The Master Fund may invest in Investment Funds that may concentrate their assets in one or more industries.
- (3) May not act as underwriter of securities of other issuers, except that to the extent that in connection with the disposition of portfolio securities, it may be deemed to be an underwriter under the federal securities laws.
- (4) May not purchase or sell real estate, although it may purchase and sell securities secured by real estate or interests therein, or securities issued by companies which invest in real estate, or interests therein.
- (5) May make loans only as permitted under the 1940 Act, and, as interpreted, modified, or otherwise permitted by regulatory authority having jurisdiction, from time to time.
- (6) May not purchase or sell physical commodities and commodity contracts, except that the Fund may: (i) enter into futures contracts and options thereon in accordance with applicable law; and (ii) purchase and sell physical commodities if acquired as a result of ownership of securities or other instruments. The Fund will not consider stock index, currency, and other financial futures contracts, swaps, or hybrid instruments to be commodities for purposes of this investment policy.

The Fund's investment policies and restrictions do not apply to the activities and transactions of the Investment Funds in which the assets of the Fund are invested through the Offshore Fund and the Master Fund, but do apply to investments made by the Fund directly (or any account consisting solely of

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Fund assets).

The Fund's, the Master Fund's, and the Offshore Fund's investment objective is non-fundamental and may be changed by the Board.

As an additional fundamental policy, the Fund may pursue its investment program through one or more subsidiary vehicles. The establishment of such vehicles and the Fund's utilization thereof is wholly within the discretion of the Board.

Investment Funds Advised by the Adviser or its Affiliates

The Master Fund does not presently intend to invest in Investment Funds managed by the Adviser or any of its affiliates. However, it may do so in the future, subject to obtaining such exemptions from provisions of the 1940 Act as may be necessary.

Futures and Options Transactions

Futures and related options transactions by the Fund must constitute permissible transactions pursuant to the regulations promulgated by the Commodity Futures Trading Commission ("CFTC"). The Fund operates pursuant to an exemption provided by CFTC Rule 4.5 in order to avoid regulation by the CFTC as a commodity pool. Pursuant to regulations and/or published positions of the SEC, the Fund may be required to segregate cash or liquid securities in connection with its futures and related options transactions in an amount generally equal to the entire value of the underlying security.

The Fund May Change Its Investment Objective, Policies, Restrictions, Strategies, and Techniques

Except as otherwise indicated, the Fund, the Master Fund, and the Offshore Fund may change their investment objectives and any of their policies, restrictions, strategies, and techniques if the Board believes doing so is in the best interests of the Fund, the Offshore Fund, the Master Fund, and the Members. The Fund's, the Offshore Fund's, and the Master Fund's investment objective is not a fundamental policy and it may be changed by the Board without Member approval. Notice will be provided to Members prior to any such change.

ADDITIONAL INFORMATION ON INVESTMENT TECHNIQUES AND OPERATIONS OF THE MASTER FUND AND RELATED RISKS

Temporary Defensive Positions. In an attempt to respond to adverse market, economic, political, or other conditions, the Master Fund may invest up to 100% of its assets in cash or cash equivalents including, but not limited to, securities of money market funds, prime commercial paper, bank certificates of deposit, bankers' acceptances, or repurchase agreements for such securities, and securities of the U.S. Government and its agencies and instrumentalities, as well as cash and cash equivalents denominated in foreign currencies. The Master Fund's investments in foreign cash equivalents will be limited to those that, in the opinion of the Adviser, equate generally to the standards established for U.S. cash equivalents. Investments in bank obligations will be limited at the time of investment to the obligations of the 100 largest domestic banks in terms of assets that are subject to regulatory supervision by the U.S. Government or state governments, and the obligations of the 100 largest foreign banks in terms of assets with branches or agencies in the United States. These investments may result in a lower return than would have been obtained had the Fund adhered to its standard investment policies.

Repurchase Agreements. The Master Fund may enter into repurchase agreements with commercial banks and broker-dealers as a short-term cash management tool.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

A repurchase agreement is an agreement under which the Master Fund acquires a security, generally a U.S. Government obligation, subject to resale at an agreed-upon price and date. The resale price reflects an agreed-upon interest rate effective for the period of time the Master Fund holds the security and is unrelated to the interest rate on the security. The Master Fund's repurchase agreements will at all times be fully collateralized.

4

Repurchase agreements could involve certain risks in the event of bankruptcy or other default by the seller. If a seller under a repurchase agreement were to default on the agreement and be unable to repurchase the security subject to the repurchase agreement, the Master Fund would look to the collateral underlying the seller's repurchase agreement, including the security subject to the repurchase agreement, for the satisfaction of the seller's obligation to the Master Fund. In such an event, the Master Fund may incur a loss if the value of the collateral declines and may incur disposition costs in liquidating the collateral. In addition, the Master Fund may be subject to possible delays or restrictions on its ability to dispose of the underlying securities. Repurchase agreements are typically entered into for periods of one week or less. The SEC staff currently takes the position that repurchase agreements maturing in more than seven days are illiquid securities.

Reverse Repurchase Agreements. The Master Fund may enter into reverse repurchase agreements, subject to the Master Fund's limitations on borrowings. Reverse repurchase agreements involve a sale of a security by the Master Fund to a bank or securities dealer and the Master Fund's simultaneous agreement to repurchase that security for a fixed price (reflecting a market rate of interest) on a specific date. These transactions involve a risk that the other party to a reverse repurchase agreement will be unable or unwilling to complete the transaction as scheduled, which may result in losses to the Fund.

Illiquid Securities. The Master Fund may invest in illiquid securities, including restricted securities (i.e., securities not readily marketable without registration under the Securities Act of 1933, as amended (the "Securities Act")) and other securities that are not readily marketable. These may include restricted securities that can be offered and sold only to "qualified institutional buyers" under Rule 144A of the Securities Act. There is no limit to the percentage of the Master Fund's net assets that may be invested in illiquid securities. The Board or its delegate may determine that securities issued pursuant to Rule 144A under the Securities Act are marketable under procedures approved by the Board.

The Fund's investment in the Master Fund through the Offshore Fund is itself illiquid and subject to substantial restrictions on transfer. The Fund has only limited rights to withdraw its investment in the Master Fund. The illiquidity of these interests may adversely affect the Fund if it sold such interests at an inopportune time. See "Repurchases of Interests" in the Fund's Prospectus.

Foreign Securities. The Master Fund may invest in securities of offshore Investment Funds. Offshore Investment Funds may be subject to special risks as foreign entities or as entities subject to foreign jurisdictions, including risks due to economic, political, or regulatory change.

Securities Loans. The Master Fund may lend securities from its portfolio to broker-dealers, institutional investors, or other persons, pursuant to securities lending agreements. During the period of the loan, the Master Fund will be entitled to payments of the interest, dividends, or other

distributions payable on the loaned securities. Additionally, the Master Fund will retain at least a portion of the interest earned on the investment of the collateral or a fee from the borrower or placing agent. However, the Master Fund generally will pay certain administrative and custodial fees in connection with each loan. Any loans of securities must be secured by collateral at least equal to 100% of the value of the loaned securities, marked to market on a daily basis. The Master Fund will generally receive collateral consisting of cash, U.S. government securities, letters of credit, and other similar instruments. The Fund may experience a risk of loss if the other party to the transaction breaches the securities lending agreement with the Master Fund.

The risks in lending portfolio securities, as with other extensions of secured credit, consist of possible delay in receiving additional collateral or in the recovery of the loaned securities or the possible loss of rights in the collateral should the borrower fail financially. In addition, the Master Fund is responsible for any loss that might result from its investment of the borrower's collateral. Loans will only be made to firms deemed by the Board to be of good standing and will not be made unless, in the judgment of the Board, the consideration to be earned from such loans would justify the risk. Subject to applicable regulatory approval, cash collateral may be invested in a money market fund managed by the Adviser or one of its affiliates, and the Adviser or an affiliate of the Adviser may serve as the Master Fund's lending agent and may share in revenue received from securities lending transactions as compensation for this service.

5

Payment in Kind for Repurchased Interests. The Fund does not expect to distribute securities as payment for repurchased Interests except in unusual circumstances, such as in the unlikely event that making a cash payment would result in a material adverse effect on the Fund or on Members not requesting that their Interests be repurchased, or that the Fund has received distributions from the Master Fund via the Offshore Fund consisting of securities of Investment Funds or securities from such Investment Funds that are transferable to the Members. In the event that the Fund makes such a distribution of securities as payment for Interests, Members will bear any risks of the distributed securities (see "Additional Information on Investment Techniques of Investment Funds and Related Risks" below) and may be required to pay a brokerage commission or other costs in order to dispose of such securities.

Suspension of Offerings. Any offering of Interests may be suspended, in the Board's sole and absolute discretion, to the extent required for purposes of compliance with the securities laws or in response to market conditions in the securities markets or otherwise.

ADDITIONAL INFORMATION ON INVESTMENT TECHNIQUES OF INVESTMENT FUNDS
AND RELATED RISKS

This section provides additional information about types of investments and investment techniques of Investment Funds in which the Master Fund invests. Some or all of the Investment Funds may make the investments described in this section. As there is no limit on the types of investments the Investment Funds may make, however, this cannot be a comprehensive description. Any decision to invest in the Fund should take into account the possibility that the Investment Funds may make virtually any kind of investment, and be subject to related risks, which can be substantial.

Equity Securities. An Investment Fund's portfolio may include long and short positions in common stocks, preferred stocks, and convertible securities of U.S. and foreign issuers. An Investment Fund also may invest in depositary receipts relating to foreign securities. Some of the specific risks related to investments in foreign securities, depositary receipts relating to foreign securities, or foreign currency transactions are described below in this section under the sub-heading "Foreign Securities" or "Foreign Currency Transactions." Equity securities fluctuate in value, often based on factors unrelated to the issuer of the securities.

Common Stocks. Common stocks are shares of a corporation or other entity that entitle the holder to a pro rata share of the profits, if any, of the entity without preference over any other shareholder or claims of shareholders, after making required payments to holders of the entity's preferred stock and other senior equity. Common stock usually carries with it the right to vote and frequently an exclusive right to do so.

Preferred Stocks. Preferred stock generally has a preference as to dividends and, in the event of liquidation, to an issuer's assets, over the issuer's common stock, but it ranks junior to debt securities in an issuer's capital structure. Preferred stock generally pays dividends in cash or additional shares of preferred stock at a defined rate but, unlike interest payments on debt securities, preferred stock dividends are generally payable only if declared by the issuer's board of directors. Dividends on preferred stock may be cumulative, meaning that, in the event the issuer fails to make one or more dividend payments on the preferred stock, no dividends may be paid on the issuer's common stock until all unpaid preferred stock dividends have been paid. Preferred stock may also be subject to optional or mandatory redemption provisions.

Convertible Securities. Convertible securities are bonds, debentures, notes, preferred stocks, or other securities that may be converted into or exchanged for a specified amount of common stock of the same or different issuer within a specified period of time at a specified price or based on a specified formula. A convertible security entitles the holder to receive interest that is generally paid or accrued on debt or a dividend that is paid or accrued on preferred stock until the convertible security matures or is redeemed, converted, or exchanged. Convertible securities have unique investment characteristics in that they generally: (i) have higher yields than common stocks, but lower yields than comparable non-convertible securities; (ii) are less subject to fluctuation in value than the underlying common stock due to their fixed income characteristics; and (iii) provide the potential for capital appreciation if the market price of the underlying common stock increases.

The value of a convertible security is a function of its "investment value" (determined by its yield in comparison with the yields of other securities of comparable maturity and quality that do not have a conversion privilege) and its "conversion value" (the security's worth, at market value, if converted into the underlying common stock). The investment value of a convertible security is influenced by changes in interest rates, with investment value typically declining as interest rates increase and increasing as interest rates decline. The credit standing of the issuer and other factors may also increase or decrease the convertible security's investment value. The conversion value of a convertible security is determined by the market price of the underlying common stock. If the conversion value is low relative to the investment value, the price of the convertible security is governed

principally by its investment value. Generally, the conversion value decreases as the convertible security approaches maturity. To the extent the market price of the underlying common stock approaches or exceeds the conversion price, the price of the convertible security will be increasingly influenced by its conversion value. A convertible security generally will sell at a premium over its conversion value by the extent to which investors place value on the right to acquire the underlying common stock while holding a fixed income security.

A convertible security may be subject to redemption at the option of the issuer at a price established in the convertible security's governing instrument. If a convertible security held by an Investment Fund is called for redemption, the Investment Fund will be required to permit the issuer to redeem the security, convert it into the underlying common stock, or sell it to a third party. Any of these actions could have an adverse effect on an Investment Fund's ability to achieve its investment objective, which, in turn, could result in losses to the Fund.

Fixed Income Securities. An Investment Fund may invest in fixed income securities. Investment in these securities may offer opportunities for income and capital appreciation, and may also be used for temporary defensive purposes and to maintain liquidity.

Fixed income securities are obligations of the issuer to make payments of principal and/or interest on future dates, and include, among other securities: bonds, notes, and debentures issued by corporations; debt securities issued or guaranteed by the U.S. Government or one of its agencies or instrumentalities or by a foreign government; municipal securities; and mortgage-backed and asset-backed securities. These securities may pay fixed, variable, or floating rates of interest, and may include zero coupon obligations. Fixed income securities are subject to the risk of the issuer's inability to meet principal and interest payments on its obligations (i.e., credit risk) and are subject to price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer, and general market liquidity (i.e., market risk).

An Investment Fund may invest in both investment grade and non-investment grade debt securities. Investment grade debt securities are securities that have received a rating from at least one nationally recognized statistical rating organization ("NRSRO") in one of the four highest rating categories or, if not rated by any NRSRO, have been determined to be of comparable quality. Non-investment grade debt securities (commonly referred to as "junk bonds") are securities that have received a rating from a NRSRO of below investment grade or have been given no rating, and are considered by the NRSRO to be predominantly speculative with respect to the issuer's capacity to pay interest and repay principal. Non-investment grade debt securities in the lowest rating categories may involve a substantial risk of default or may be in default. Non-investment grade debt securities generally offer a higher yield than available from investment grade issues, but involve greater risk. The returns of non-investment grade debt securities are also subject to: (i) adverse changes in general economic conditions; (ii) changes in the financial condition of their issuers; (iii) changes in interest rates; and (iv) changes in market liquidity. During periods of economic downturns or rising interest rates, issuers of securities rated below investment grade or comparable unrated securities may experience financial stress that could adversely affect their ability to make payments of principal and interest and increase the possibility of default. In addition, the market for lower grade debt securities may be thinner and less active than for higher grade debt securities. Non-investment grade debt securities have historically experienced greater default rates than investment grade securities.

Foreign Securities. An Investment Fund may invest in commercial paper and

certificates of deposit issued by foreign banks and may invest either directly or through American Depositary Receipts ("ADRs"), European Depositary Receipts ("EDRs"), or Global Depositary Receipts ("GDRs") (collectively, "depository receipts") in other securities of foreign issuers. Depository receipts are instruments generally issued by domestic banks or trust companies that represent the deposits of a security of a foreign issuer. ADRs, which are traded in U.S. dollars on U.S. exchanges or over-the-counter, are issued by domestic banks and evidence ownership of securities issued by

7

foreign corporations. EDRs are typically traded in Europe. GDRs are typically traded in both Europe and the United States.

Investment income received by an Investment Fund from sources within foreign countries may be subject to foreign income taxes withheld at the source. The United States has entered into tax treaties with many foreign countries which entitle the Investment Fund to a reduced rate of such taxes or exemption from taxes on such income. It is impossible to determine the effective rate of foreign tax in advance since the amounts of the Investment Fund's assets to be invested within various countries is not known.

Foreign Currency Transactions. A forward foreign currency exchange contract ("forward currency contract") is an agreement to purchase or sell a specific currency at a future date and at a price set at the time the contract is entered into. An Investment Fund might typically enter into forward currency contracts to fix the U.S. dollar value of a security it has agreed to buy or sell for the period between the date the trade was entered into and the date the security is delivered and paid for, or to hedge the U.S. dollar value of securities it owns.

An Investment Fund may enter into a forward currency contract to sell or buy the amount of a foreign currency it believes may experience a substantial movement against the U.S. dollar. In this case, the forward currency contract would approximate the value of some or all of the Investment Fund's portfolio securities denominated in such foreign currency. The precise matching of the forward currency contract amounts and the value of securities involved will not generally be possible since the future value of such securities in foreign currencies will change as a consequence of market involvement in the value of those securities between the date the forward currency contract is entered into and the date it matures. The projection of short-term currency market movement is extremely difficult, and the successful execution of a short-term hedging strategy is highly uncertain. At the maturity of a forward currency contract, an Investment Fund may either sell the portfolio security and make delivery of the foreign currency, or it may retain the security and terminate its contractual obligation to deliver the foreign currency by purchasing an "offsetting" contract obligating it to purchase, on the same maturity date, the same amount of the foreign currency.

Because it is impossible to forecast with absolute precision the market value of securities at the expiration of the forward currency contract, it may be necessary for an Investment Fund to purchase additional foreign currency on the spot market (and bear the expense of such purchase) if the market value of the security is less than the amount of foreign currency the Investment Fund is obligated to deliver and if a decision is made to sell the security and make delivery of the foreign currency. Conversely, it may be necessary to sell on the spot market some of the foreign currency received upon the sale of the portfolio security if its market value exceeds the amount of foreign currency the Investment Fund is obligated to deliver. If an Investment Fund retains the

portfolio security and engages in offsetting transactions, the Investment Fund will incur a gain or a loss (as described below) to the extent that there has been movement in forward contract prices. If the Investment Fund engages in an offsetting transaction, it may subsequently enter into a new forward contract to sell the foreign currency. Should forward prices decline during the period between the Investment Fund entering into a forward currency contract for the sale of a foreign currency and the date it enters into an offsetting contract for the purchase of the foreign currency, the Investment Fund will realize a gain to the extent the price of the currency it has agreed to sell exceeds the price of the currency it has agreed to purchase. Should forward prices increase, the Investment Fund will suffer a loss to the extent the price of the currency they have agreed to purchase exceeds the price of the currency it has agreed to sell. This method of hedging against a decline in the value of a currency does not eliminate fluctuations in the underlying prices of the securities, but rather establishes a rate of exchange at a future date. Additionally, although such contracts tend to minimize the risk of loss due to a decline in the value of a hedged currency, they tend to limit any potential gain that might result from an increase in the value of that currency. The cost of currency conversion may adversely affect an Investment Fund's returns. Although foreign exchange dealers do not charge a fee for conversion, they do realize a profit based on the difference ("spread") between the prices at which they are buying and selling various currencies. Thus, a dealer may offer to sell a foreign currency to the Investment Fund at one rate, while offering a lesser rate of exchange should the Investment Fund desire to resell that currency to the dealer.

Short Sales. An Investment Fund may attempt to limit its exposure to a possible market decline in the value of its portfolio securities, or take advantage of an anticipated market decline, through short sales of securities that the Investment Fund believes possess volatility characteristics similar to those being hedged. In addition, an Investment Fund may use short sales for non-hedging purposes to pursue its investment objective. For example, an Investment

Fund may "short" a security of a company if, in its investment adviser's view, the security is over-valued in relation to the issuer's prospects for earnings growth. Certain Investment Funds may consider short selling to be a significant part of their investment strategy.

To effect a short sale, an Investment Fund borrows a security from a brokerage firm to make delivery to the buyer. The Investment Fund is then obligated to replace the borrowed security by purchasing it at the market price at the time of replacement. The price at such time may be more or less than the price at which the security was sold by the Investment Fund, which would result in a loss or gain, respectively. These techniques are speculative and, in certain circumstances, can substantially increase the impact of adverse price movements on the Investment Fund's portfolio, which, in turn, could result in losses to the Fund. A short sale of a security involves the risk of an unlimited increase in the market price of the security that could result in an inability to cover the short position, and thus a theoretically unlimited loss. There can be no assurance that securities necessary to cover a short position will be available for purchase.

An Investment Fund may also make short sales against-the-box, in which it sells short securities it owns or has the right to obtain without payment of additional consideration. The Investment Fund will incur transaction costs, including interest expenses, in connection with opening, maintaining, and

closing short sales against-the-box.

Derivatives. An Investment Fund may use financial instruments known as derivatives. A derivative is generally defined as an instrument whose value is derived from, or based upon, some underlying index, reference rate (such as interest rates or currency exchange rates), security, commodity, or other asset. The investment adviser of an Investment Fund may decide not to employ any of these strategies, and there is no assurance that any derivatives strategy used by the Investment Fund will succeed, or that a particular hedging instrument will be available for use by the Investment Fund. Examples of derivatives include, but are not limited to, options contracts, futures contracts, and options on futures contracts. A futures contract is an exchange-traded agreement between two parties, a buyer and a seller, to exchange a particular commodity or financial instrument at a specific price on a specific date in the future.

An Investment Fund's use of derivatives involves risks different from, and possibly greater than, the risks associated with investing directly in securities or more traditional investments, depending upon the characteristics of the particular derivative and the Investment Fund's portfolio as a whole. Derivatives permit an Investment Fund to increase or decrease the level of risk of its portfolio, or change the character of the risk to which its portfolio is exposed, in much the same way as the Investment Fund can increase or decrease the level of risk, or change the character of the risk, of its portfolio by making investments in specific securities.

Derivatives may entail investment exposures that are greater than their cost would suggest, meaning that a small investment in derivatives could have a large potential impact on an Investment Fund's performance. If an Investment Fund invests in derivatives at inopportune times or judges market conditions incorrectly, such investments may lower the Investment Fund's return or result in a loss. An Investment Fund also could experience losses if derivatives are poorly correlated with its other investments, or if an Investment Fund is unable to liquidate its position because of an illiquid secondary market. The market for many derivatives is, or suddenly can become, illiquid. Changes in liquidity may result in significant, rapid, and unpredictable changes in the prices for derivatives.

Engaging in these transactions involves risk of loss to the Investment Funds that could adversely affect the value of the Fund's net assets. No assurance can be given that a liquid market will exist for any particular futures contract at any particular time. Many futures exchanges and boards of trade limit the amount of fluctuation permitted in futures contract prices during a single trading day. Once the daily limit has been reached in a particular contract, no trades may be made that day at a price beyond that limit or trading may be suspended for specified periods during the trading day. Futures contract prices could move to the limit for several consecutive trading days with little or no trading, thereby preventing prompt liquidation of futures positions and potentially subjecting the Investment Funds to substantial losses.

Options and Futures. An Investment Fund may utilize options contracts, futures contracts, and options on futures contracts. It also may use so-called "synthetic" options or other derivative instruments written by broker-dealers or other financial intermediaries. Options transactions may be effected on securities exchanges or in the over-the-counter market. When options are purchased over-the-counter, the Investment Fund's portfolio bears the risk that

the counterparty that wrote the option will be unable or unwilling to perform its obligations under the option contract. Such options may also be illiquid and, in such cases, an Investment Fund may have difficulty closing out its position. Over-the-counter options purchased and sold by the Investment Fund also may include options on baskets of specific securities.

An Investment Fund may purchase call and put options on specific securities, and may write and sell covered or uncovered call and put options for hedging purposes and non-hedging purposes to pursue its investment objective. A put option gives the purchaser of the option the right to sell, and obligates the writer to buy, the underlying security at a stated exercise price at any time prior to the expiration of the option. Similarly, a call option gives the purchaser of the option the right to buy, and obligates the writer to sell, the underlying security at a stated exercise price at any time prior to the expiration of the option. A covered call option is a call option with respect to which an Investment Fund owns the underlying security. The sale of such an option exposes the Investment Fund, during the term of the option, to possible loss of opportunity to realize appreciation in the market price of the underlying security or to possible continued holding of a security that might otherwise have been sold to protect against depreciation in the market price of the security. A covered put option is a put option with respect to which cash or liquid securities have been placed in a segregated account on an Investment Fund's books or with the Investment Fund's custodian or prime broker (or similar arrangement) to fulfill the obligation undertaken. The sale of such an option exposes the Investment Fund during the term of the option to a decline in price of the underlying security while depriving the Investment Fund of the opportunity to invest the segregated assets.

An Investment Fund may close out a position when writing options by purchasing an option on the same security with the same exercise price and expiration date as the option that it has previously written on the security. The Investment Fund will realize a profit or loss if the amount paid to purchase an option is less or more, as the case may be, than the amount received from the sale thereof. To close out a position as a purchaser of an option, the Investment Fund would ordinarily make a similar "closing sale transaction," which involves liquidating its position by selling the option previously purchased, although the Investment Fund would be entitled to exercise the option should it deem it advantageous to do so.

An Investment Fund may enter into stock futures contracts, interest rate futures contracts, and currency futures contracts in U.S. domestic markets or on exchanges located outside the United States. Foreign markets may offer advantages such as trading opportunities or arbitrage possibilities not available in the United States. Foreign markets, however, may have greater risk potential than domestic markets. For example, some foreign exchanges are principal markets so that no common clearing facility exists and an investor may look only to the broker for performance of the contract. In addition, any profits the Investment Fund might realize in trading could be eliminated by adverse changes in the exchange rate, or the Investment Fund could incur losses as a result of those changes. Transactions on foreign exchanges may include both commodities which are traded on domestic exchanges and those which are not. Unlike trading on domestic commodity exchanges, trading on foreign commodity exchanges is not regulated by the CFTC.

Successful use of futures also is subject to the ability to predict correctly movements in the direction of the relevant market, and, to the extent the transaction is entered into for hedging purposes, to ascertain the appropriate correlation between the transaction being hedged and the price movements of the futures contract.

The prices of commodities contracts and all derivative instruments, including futures and options prices, are highly volatile. Price movements of forward contracts, futures contracts, and other derivative contracts in which an Investment Fund may invest are influenced by, among other things: interest rates; changing supply and demand relationships; trade, fiscal, monetary, and exchange control programs and policies of governments; and national and international political and economic events and policies. In addition, governments from time to time intervene, directly and by regulation, in certain markets, particularly those of currencies and interest rate-related futures and options. Such intervention often is intended directly to influence prices and may, together with other factors, cause all of such markets to move rapidly in the same direction because of, among other things, interest rate fluctuations. The Investment Fund also is subject to the risk of the failure of any of the exchanges on which their positions trade or of their clearinghouses.

A stock index future obligates an Investment Fund to pay or receive an amount of cash equal to a fixed dollar amount specified in the futures contract multiplied by the difference between the settlement price of the contract on

10

the contract's last trading day and the value of the index based on the stock prices of the securities that comprise it at the opening of trading in such securities on the next business day. A single stock future obligates an Investment Fund to purchase or sell an amount of a specified equity security at a future date at a specific price, or to pay or receive an amount of cash equal to a fixed dollar amount specified in the futures contract multiplied by the difference between the settlement price of the contract on the contract's last trading day and the value of the stock at the opening of trading on the next business day. An interest rate future obligates an Investment Fund to purchase or sell an amount of a specific debt security at a future date at a specific price. A currency future obligates an Investment Fund to purchase or sell an amount of a specific currency at a future date at a specific price.

Call and Put Options on Securities Indices. An Investment Fund may purchase and sell call and put options on stock indices listed on national securities exchanges or traded in the over-the-counter market for hedging purposes and non-hedging purposes to pursue their investment objectives. A stock index fluctuates with changes in the market values of the stocks included in the index. Accordingly, successful use by an Investment Fund of options on stock indexes will be subject to its investment adviser's ability to predict correctly movements in the direction of the stock market generally or of a particular industry or market segment. This requires different skills and techniques than predicting changes in the price of individual stocks.

Rights and Warrants. An Investment Fund may invest in common stock rights and warrants believed by the investment adviser to provide capital appreciation opportunities. Common stock rights and warrants may be purchased separately or may be received as part of a unit or attached to securities purchased. Warrants are securities that give the holder the right, but not the obligation, to purchase equity issues of the company issuing the warrants, or a related company, at a fixed price either on a date certain or during a set period. At the time of issue, the cost of a warrant is substantially less than the cost of the underlying security itself, and price movements in the underlying security are generally magnified in the price movements of the warrant. This effect would enable an Investment Fund to gain exposure to the underlying security with a relatively low capital investment but increases the Investment Fund's risk in the event of a decline in the value of the

underlying security and can result in a complete loss of the amount invested in the warrant. In addition, the price of a warrant tends to be more volatile than, and may not correlate exactly to, the price of the underlying security. If the market price of the underlying security is below the exercise price of the warrant on its expiration date, the warrant will generally expire without value. The equity security underlying a warrant is authorized at the time the warrant is issued or is issued together with the warrant, which may result in losses to the Investment Fund. Investing in warrants can provide a greater potential for profit or loss than an equivalent investment in the underlying security, and, thus, can be a speculative investment. The value of a warrant may decline because of a decline in the value of the underlying security, the passage of time, changes in interest rates or in the dividend or other policies of the company whose equity underlies the warrant or a change in the perception as to the future price of the underlying security, or any combination thereof. Warrants and rights do not carry with them the right to dividends or voting rights with respect to the securities that they entitle the holder to purchase, and they do not represent any rights in the assets of the issuer.

Forward Contracts. An Investment Fund may enter into a forward contract, which is a purchase or sale of a specific quantity of a commodity, government security, foreign currency, or other financial instrument at the current or spot price, with delivery and settlement at a specified future date. Because it is a completed contract, a purchase forward contract can be a cover for the sale of a futures contract.

An Investment Fund may enter into forward contracts for hedging purposes and non-hedging purposes (i.e., to increase returns) to pursue its investment objective. Forward contracts are transactions involving an Investment Fund's obligation to purchase or sell a specific instrument at a future date at a specified price. Forward contracts may be used by an Investment Fund for hedging purposes to protect against uncertainty in the level of future foreign currency exchange rates, such as when an investment adviser of an Investment Fund anticipates purchasing or selling a foreign security. This technique would allow the Investment Fund to "lock in" the U.S. dollar price of the security. Forward contracts may also be used to attempt to protect the value of an Investment Fund's existing holdings of foreign securities. There may be, however, imperfect correlation between an Investment Fund's foreign securities holdings and the forward contracts entered into with respect to those holdings. Forward contracts may also be used for non-hedging purposes to pursue an Investment Fund's investment objective, such as when an Investment Fund's investment adviser anticipates that particular foreign currencies will appreciate or depreciate in value, even though securities denominated in those currencies are not then held in the Investment Fund's investment

portfolio. There is no general requirement that the Investment Funds hedge all or any portion of their exposure to foreign currency risks.

When-Issued and Forward Commitment Securities. Some or all of the Investment Funds may purchase securities on a "when-issued" basis and may purchase or sell securities on a "forward commitment" basis in order to hedge against anticipated changes in interest rates and prices or for speculative purposes. These transactions involve a commitment by an Investment Fund to purchase or sell securities at a future date (ordinarily one or two months later). The price of the underlying securities, which is generally expressed in terms of yield, is fixed at the time the commitment is made, but delivery and payment for the securities takes place at a later date. No income accrues on

securities that have been purchased pursuant to a forward commitment or on a when-issued basis prior to delivery to the Investment Fund. When-issued securities and forward commitments may be sold prior to the settlement date. If an Investment Fund disposes of the right to acquire a when-issued security prior to its acquisition or disposes of its right to deliver or receive against a forward commitment, it may incur a gain or loss. There is a risk that securities purchased on a when-issued basis may not be delivered and that the purchaser of securities sold by an Investment Fund on a forward basis will not honor its purchase obligation. In such cases, an Investment Fund may incur a loss.

Bank Loans and Participations. An Investment Fund may invest, directly or through a private investment fund, in bank loans or participations in bank loans (collectively, "bank loans"), either of which may become non-performing for a variety of reasons. Such non-performing bank loans may require substantial workout negotiations or restructuring in the event of a default or bankruptcy, which may entail, among other things, a substantial reduction in the interest rate and a substantial write-down of the principal of the bank loan. In addition, bank loans are generally subject to liquidity risks since bank loans are traded in an "over-the-counter" market.

Bank loans, like most other debt obligations, are subject to the risk of default. While all investments involve some amount of risk, bank loans generally involve less risk than equity instruments of the same issuer because the payment of principal of and interest on debt instruments is a contractual obligation of the issuer that, in most instances, takes precedence over the payment of dividends, or the return of capital, to the issuer's shareholders. However, in the event of the bankruptcy, receivership, or other insolvency proceeding of a borrower, an Investment Fund could experience delays or limitations with respect to its ability to collect the principal of and interest on the bank loan and with respect to its ability to realize the benefits of the collateral securing the bank loan, if any.

Although an Investment Fund may invest in bank loans that will be fully collateralized with assets with a market value that, at the time of acquisition, equals or exceeds the principal amount of the bank loan, the value of the collateral may decline below the principal amount of the bank loan subsequent to the Investment Fund's investment in such bank loan. In addition, to the extent that collateral consists of stock of the borrower or its subsidiaries or affiliates, the Investment Fund will be subject to the risk that this stock may decline in value, be relatively illiquid, or may lose all or substantially all of its value, causing the bank loan to be undercollateralized. Bank loans are also subject to the risk of default of scheduled interest or principal payments. In the event of a failure to pay scheduled interest or principal payments on bank loans held by an Investment Fund, the Investment Fund could experience a reduction in its income, and would experience a decline in the market value of the particular bank loan so affected, and may experience a decline in its net asset value or the amount of its distributions, which may adversely affect the performance of the Fund. An Investment Fund may invest in uncollateralized bank loans, which may involve a greater risk of loss.

The risk of default will increase in the event of an economic downturn or a substantial increase in interest rates. To the extent that an Investment Fund's investment is in a bank loan acquired from another lender, the Investment Fund may be subject to certain credit risks with respect to that lender. Further, there is no assurance that the liquidation of the collateral (if any) underlying a bank loan would satisfy the issuer's obligation to the Investment Fund in the event of non-payment of scheduled interest or principal, or that collateral could be readily liquidated. The risk of non-payment of interest and principal also applies to other debt instruments in which the Investment Fund may invest. There is no assurance that the sale

of collateral would raise enough cash to satisfy the borrower's payment obligation or that the collateral can or will be liquidated. Some or all of the bank loans held by an Investment Fund may not be secured by any collateral, and such bank loans entail greater risk than secured bank loans.

Swaps. An Investment Fund may enter into equity, interest rate, index, currency rate, and total return swap agreements. These transactions are entered into in an attempt to obtain a particular return when it is considered

12

desirable to do so, possibly at a lower cost than if an Investment Fund had invested directly in the asset that yielded the desired return. Swap agreements are two-party contracts entered into primarily by institutional investors for periods ranging from a few weeks to more than a year. In a standard swap transaction, two parties agree to exchange the returns (or differentials in rates of return) earned or realized on particular predetermined investments or instruments, which may be adjusted for an interest factor. The gross returns to be exchanged or "swapped" between the parties are generally calculated with respect to a "notional amount" (i.e., the return on or increase in value of a particular dollar amount invested at a particular interest rate, in a particular foreign currency, or in a "basket" of securities representing a particular index).

Interest Rate Swap. An Investment Fund may enter into interest rate swaps. Forms of swap agreements include interest rate caps, under which, in return for a premium, one party agrees to make payments to the other to the extent interest rates exceed a specified rate or "cap"; interest rate floors, under which, in return for a premium, one party agrees to make payments to the other to the extent interest rates fall below a specified level or "floor"; and interest rate collars, under which a party sells a cap and purchases a floor or vice versa in an attempt to protect itself against interest rate movements exceeding given minimum or maximum levels.

Equity Index Swaps. An Investment Fund may enter into equity index swaps. Equity index swaps involve the exchange by an Investment Fund with another party of cash flows based upon the performance of an index or a portion of an index of securities which usually includes dividends. An Investment Fund may purchase cash-settled options on equity index swaps. A cash-settled option on a swap gives the purchaser the right, but not the obligation, in return for the premium paid, to receive an amount of cash equal to the value of the underlying swap as of the exercise date. These options typically are purchased in privately negotiated transactions from financial institutions, including securities brokerage firms.

Currency Swaps. An Investment Fund may enter into currency swaps for both hedging and non-hedging purposes. Currency swaps involve the exchange of rights to make or receive payments in specified foreign currencies. Since currency swaps are individually negotiated, an Investment Fund would expect to achieve an acceptable degree of correlation between its portfolio investments and its currency swap positions. Currency swaps usually involve the delivery of the entire principal value of one designated currency in exchange for another designated currency. Therefore, the entire principal value of a currency swap is subject to the risk that the other party to the swap will default on its contractual delivery obligations. The use of currency swaps is a highly specialized activity which involves special investment techniques and risks. If its investment adviser is incorrect in its forecasts of market values and currency exchange rates, the Investment Fund's performance will be adversely affected. If there is a default by the other party to such a

transaction, the Investment Fund will have contractual remedies pursuant to the agreements related to the transaction.

Total Return Swaps. An Investment Fund may invest in total return swaps with appropriate counterparties. In a total return swap, one party pays a rate of interest in exchange for the total rate of return on another investment. For example, if an Investment Fund wished to invest in a senior loan, it could instead enter into a total return swap and receive the total return of the senior loan, less the "funding cost," which would be a floating interest rate payment to the counterparty.

Certain swap agreements into which an Investment Fund enters may require the calculation of the obligations of the parties to the agreements on a "net basis." Consequently, the Investment Fund's current obligations (or rights) under such swap agreements generally will be equal only to the net amount to be paid or received under the agreement based on the relative values of the positions held by each party to the agreement (the "net amount"). The risk of loss with respect to swaps is limited to the net amount of interest payments that the Investment Fund is contractually obligated to make. If the other party to a swap defaults, the Investment Fund's risk of loss consists of the net amount of payments that the Investment Fund contractually is entitled to receive.

Distressed Credits. An Investment Fund may invest in securities of domestic and foreign issuers in weak financial condition, experiencing poor operating results, having substantial capital needs or negative net worth, facing special competitive or product obsolescence problems, or that are involved in bankruptcy or reorganization proceedings. Investments of this type may involve substantial financial and business risks that can result in substantial or at times even total losses. Among the risks inherent in investments in troubled entities is the fact that it frequently may be difficult to obtain information as to the true condition of such issuers. Such investments also may be adversely

affected by state and federal laws relating to, among other things, fraudulent transfers and other voidable transfers or payments, lender liability, and the Bankruptcy Court's power to disallow, reduce, subordinate, or disenfranchise particular claims. The market prices of such securities are also subject to abrupt and erratic market movements and above-average price volatility, and the spread between the bid and asked prices of such securities may be greater than those prevailing in other securities markets. It may take a number of years for the market price of such securities to reflect their intrinsic value. In liquidation (both in and out of bankruptcy) and other forms of corporate reorganization, there exists the risk that the reorganization either will be unsuccessful (due to, for example, failure to obtain requisite approvals), will be delayed (for example, until various liabilities, actual or contingent, have been satisfied), or will result in a distribution of cash or a new security the value of which will be less than the purchase price to the Investment Fund of the security in respect to which such distribution was made.

DIRECTORS AND OFFICERS

The Board of the Fund and the Board of the Master Fund (the "Master Fund's Board") have overall responsibility to manage and control the business operations of the Fund and the Master Fund, respectively, on behalf of their respective members. At least a majority of the Board and the Master Fund's

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Board are and will be persons who are not "interested persons," as defined in Section 2(a)(19) of the 1940 Act ("Independent Directors"). Subject to the provisions of the Operating Agreement and Delaware law, the Directors have all powers necessary and convenient to carry out this responsibility. The Offshore Fund has two members: the Fund (which serves as its managing member); and the Adviser (which holds only a nominal, non-voting interest). The members of the Offshore Fund have delegated the day-to-day management, as well as general oversight responsibilities of the Offshore Fund, to the Fund. The Board of the Fund therefore effectively makes all decisions on behalf of the Offshore Fund.

The Directors and officers of the Fund and the Master Fund, their addresses, their dates of birth, and descriptions of their principal occupations during the past five years are listed below.

Committees of the Board and the Master Fund's Board

Each of the Board and the Master Fund's Board has formed an Audit Committee that is responsible for: overseeing the Fund's accounting and financial reporting policies and practices, its internal controls, and, as appropriate,

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

the internal controls of certain service providers; overseeing the quality and objectivity of the Fund's and the Master Fund's financial statements and the independent audit of those financial statements; and acting as a liaison between the Fund's and the Master Fund's independent auditors and the full Board or Master Fund's Board. The Audit Committee recommends the selection, retention, or termination of the Fund's and the Master Fund's auditors, evaluates their independence, and reviews their fees. The Audit Committee currently consists of each of the Fund's and the Master Fund's Independent Directors. During the Fund's fiscal year ended March 31, 2005, the Audit Committee held 4 meetings.

Each of the Board and the Master Fund's Board has designated the valuation committee of DB Absolute Return Strategies, which is affiliated with the Adviser, to serve as the valuation committee of the Fund and the Master Fund (the "Valuation Committee"). The Valuation Committee's function, subject to the oversight of the Board, is generally to review the Fund's and the Master Fund's valuation methodologies, valuation determinations, and any information provided to the Valuation Committee by the Adviser. The Valuation Committee has been assigned to act in accordance with the Fund's valuation procedures as approved by the Board. Changes in its membership are subject to Board notification. The Board reviews matters arising from the Valuation Committee's considerations. During the Fund's fiscal year ended March 31, 2005, the Valuation Committee held 17 meetings. Members may request information about the members of the Valuation Committee by written request to the Fund.

Each of the Board and the Master Fund's Board has formed a Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee has the power to nominate directors of the Fund and the Master Fund's who are not "interested persons" of the Fund or the Master Fund, as the case may be, as that term is defined in the 1940 Act, and to nominate officers of the Fund and the Master Fund's and appoint officers of the Fund and the Master Fund to serve until the next meeting of the Board succeeding such action. The Committee currently consists of each of the Fund's and the Master Fund's Independent Directors. The Nominating Committee does not currently have a policy regarding whether it will consider nominees recommended by Members. During the Fund's fiscal year ended March 31, 2005, the Nominating and Corporate Governance Committee held 4 meetings.

All actions taken by a committee of the Board or the Master Fund's Board will be recorded and reported to the full Board or the Master Fund's Board at their next meeting following such actions.

18

Director Ownership of Securities

The dollar range of equity securities owned by each Director is set forth below. (1)

Name of Director	Dollar Range of Equity Securities in the Fund as of December 31, 2004(1)	Aggregate Dollar Securities in all Investment Companies in Family
------------------	--	---

Independent Directors

Nolan T. Altman	None	N
Louis S. Citron	None	N
Edward T. Tokar	None	N

Directors who are "Interested Persons"		

Raymond C. Nolte	None	N

(1) The dollar ranges of equity securities reflected in the table above are as follows: None; \$1 to \$10,000; \$10,001 to \$50,000; \$50,001 to \$100,000; or over \$100,000.

Independent Director Ownership of Securities

The table below provides information regarding the ownership by each Independent Director (and his immediate family members) of securities of the Adviser or the Distributor, and the ownership of securities in an entity controlling, controlled by or under common control with the Adviser or the Distributor (not including registered investment companies), as of March 31, 2005.

Name of Director	Name of Owners and Relationship to Director	Company	Title of Class	Value of Securities
Nolan T. Altman	N/A	N/A	N/A	\$0
Louis S. Citron	N/A	N/A	N/A	\$0
Edward T. Tokar	N/A	N/A	N/A	\$0

Director Compensation

The Fund pays each Independent Director a fee of \$1,333 per Board meeting (\$250 in the case of a telephonic Board meeting), plus an annual retainer of \$8,000. Mr. Altman, as chairman of the Audit Committee, will receive an additional annual fee of \$1,000. In addition, the Fund will reimburse each of the Independent Directors for travel and other expenses incurred in connection with attendance at such meetings. Each of the Independent Directors is a member of the Audit Committee and/or Nominating and Corporate Governance Committee, and receives a fee for each meeting attended. Other officers and Directors of the Fund receive no compensation. The Master Fund pays the Independent Directors the same fees as the Fund.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Directors and officers of the Fund also may be trustees/directors and officers of some or all of the other investment companies managed by the Adviser or its affiliates (the "Fund Complex"), including the Master Fund. Mr. Tokar previously served as an independent trustee of various funds in the Fund Complex. He resigned from these positions, effective July 30, 2002.

The following table summarizes the compensation paid to the Directors of the Fund and the Master Fund, including Committee fees, for the period beginning upon commencement of Fund operations through March 31, 2005.

19

NAME OF DIRECTOR -----	AGGREGATE COMPENSATION FROM FUND -----	PENSION OR RETIREMENT BENEFITS ACCRUED AS PART OF FUND EXPENSES -----	ESTIMATED ANNUAL BENEFITS UPON RETIREMENT -----
Nolan T. Altman	\$14,125	N/A	N/A
Louis S. Citron	\$13,125	N/A	N/A
Raymond C. Nolte(2)	N/A	N/A	N/A
Edward T. Tokar	\$13,125	N/A	N/A

- (1) The Fund Complex includes the Fund, the Master Fund, and the DB Hedge Strategies Fund LLC.
- (2) "Interested person" as defined in the 1940 Act of the Fund. Interested persons who are employees of the Adviser and any of its affiliates and who serve as Directors do not receive compensation from the Fund.

Compensation of Portfolio Managers

The Adviser seeks to offer its investment professionals competitive short-term and long-term compensation. Portfolio managers and research professionals are paid (i) base salary, which is linked to job function, responsibilities, and financial services industry peer compensation, and (ii) variable components, which are linked to investment performance, individual contributions to the team, and DB ARS's and Deutsche Bank's financial results. Variable compensation may include a cash and/or stock bonus incentive and participation in a variety of long-term equity programs (usually in the form of Deutsche Bank equity).

Bonus and long-term incentives comprise a greater proportion of compensation as seniority and compensation levels increase. Top performing investment professionals earn a total compensation package that is highly competitive and may earn a bonus that is a multiple of their base salary. The amount of equity

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

awarded is generally based on the individual's total compensation package and may comprise from 0% to 40% of the total compensation award. As incentive compensation increases, the percentage of compensation awarded in Deutsche Bank equity also increases. Certain senior investment professionals may be subject to a mandatory deferral of a portion of their equity compensation into proprietary mutual funds that they manage.

To evaluate its investment professionals, the Adviser uses a Performance Management Process. Objectives are related to investment performance and generally take into account appropriate peer group and benchmark-related data. The ultimate goal of this process is to link the performance of investment professionals with client investment objectives and to deliver investment performance that meets or exceeds clients' risk and return objectives. When determining total compensation, the Adviser considers a number of quantitative and qualitative factors such as:

- o DB ARS's performance and the performance of Deutsche Asset Management;
- o Quantitative measures which include actual pre-tax performance, looking first against benchmarks over different time periods with a focus on trailing one-, three-, and five-year performance. The Adviser reviews performance for both alpha (a measure of risk-adjusted performance) and risk versus pre-determined benchmarks and fund peer groups. Additionally, the portfolio manager's retail/institutional asset mix is weighted, as appropriate, for evaluation purposes;

20

- o Qualitative measures include adherence to the investment process and individual contributions to the process, among other things. In addition, the Adviser assesses compliance, risk management, and teamwork skills.
- o Other factors, including contributions made to the investment team as well as adherence to compliance, risk management, and "living the values" of the Adviser, are part of a discretionary component which gives management the ability to reward these behaviors on a subjective basis through bonus incentives.

For certain investment professionals, total compensation is determined with regard to revenues generated by the funds they manage and not with regard to the foregoing quantitative and qualitative factors.

In addition, the Adviser analyzes competitive compensation levels through the use of extensive market data surveys. Portfolio manager compensation is reviewed and may be modified each year as appropriate to reflect changes in the market, as well as to adjust the factors used to determine overall compensation to promote good sustained investment performance.

Fund Ownership of Portfolio Managers

The following table shows the dollar range of shares owned beneficially and of record by each member of the Fund's portfolio management team in the Fund as well as in all funds in the Fund Complex, including investments by their immediate family members and amounts invested through retirement and deferred compensation plans. This information is provided as of March 31, 2005.

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

Name of Portfolio Manager	Dollar Range of Equity Securities in the Fund	Dollar Range of Share
Steven L. Bossi	None	N

Portfolio Manager Conflicts of Interest

In addition to managing the assets of the Fund, the Fund's portfolio managers may have responsibility for managing other client accounts of the Adviser. The tables below show, for each portfolio manager, the number and asset size of (i) SEC-registered investment companies (or series thereof) other than the Fund, (ii) pooled investment vehicles that are not registered investment companies, and (iii) other accounts (e.g., accounts managed for individuals or organizations) managed by each portfolio manager. The tables also show the number of performance-based fee accounts, as well as the total assets of the accounts for which the advisory fee is based on the performance of the account. This information is provided as of March 31, 2005.

Other SEC-Registered Investment Companies Managed

Other Accounts Managed

Name of Portfolio Manager	Number of Other Accounts	Total Assets of Other Accounts	Number of Other Accounts with Performance-Based Fees
Steven L. Bossi	4	\$912,862,481	2

The Adviser is owned by Deutsche Bank AG, a multi-national financial services company. Therefore, the Adviser is affiliated with a variety of entities that provide and/or engage in commercial banking, insurance, brokerage, investment banking, financial advisory, broker-dealer activities (including sales and trading), hedge funds, real estate, and private equity investing, in addition to the provision of investment management services to institutional and individual investors. Since Deutsche Bank AG, its affiliates, directors, officers, and employees (the "Firm") are engaged in businesses and have interests other than managing asset management accounts, such other activities involve real, potential, or apparent conflicts of interest. These interests and activities include potential advisory, transactional, and financial activities and other interests in securities and companies that may be directly or indirectly purchased or sold by the Firm for its clients' advisory accounts. These are considerations of which advisory clients should be aware and which may cause conflicts that could be to the disadvantage of the Adviser's advisory clients.

In addition, real, potential, or apparent conflicts of interests may arise when a portfolio manager has day-to-day portfolio management responsibilities with respect to more than one fund or account, including the following:

- o Certain investments may be appropriate for the Fund and also for other clients advised by the Adviser, including other client accounts managed by the Fund's portfolio management team. Investment decisions for the Fund and other clients are made with a view to achieving their respective investment objectives and after consideration of such factors as their current holdings, availability of cash for investment, and the size of their investments generally. Frequently, a particular security may be bought or sold for only one client or in different amounts and at different times for more than one but less than all clients. Likewise, because clients of the Adviser may have differing investment strategies, a particular security may be bought for one or more clients when one or more other clients are selling the security. The investment results for the Fund may differ from the results achieved by the Firm and other clients of the Firm and results among clients may differ. In addition, purchases or sales of the same security may be made for two or more clients on the same day. In such event, such transactions will be allocated among the

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

clients in a manner believed by the Adviser to be equitable to each. The Adviser will not determine allocations based on whether it receives a performance-based fee from the client. In some cases, the allocation procedure could have an adverse effect on the price or amount of the securities purchased or sold by the Fund. Purchase and sale orders for the Fund may be combined with those of other clients of the Adviser in the interest of achieving the most favorable net results to the Fund.

- o To the extent that the Fund's portfolio management team has responsibilities for managing accounts in addition to the Fund, a portfolio manager will need to divide his time and attention among relevant accounts.
- o In some cases, a real, potential, or apparent conflict may arise where the Adviser may have an incentive, such as a performance-based fee, in managing one account and not with respect to other accounts it manages.

LIQUIDITY REQUIREMENTS

The Fund's portfolio is not subject to any minimum liquidity requirement.

22

CODE OF ETHICS

The Fund, the Master Fund, and the Adviser each has adopted a code of ethics as required by applicable law, which is designed to prevent affiliated persons of the Fund, the Master Fund, and the Adviser from engaging in deceptive, manipulative, or fraudulent activities in connection with securities held or to be acquired by the Fund or the Master Fund (which may also be held by persons subject to a code of ethics). There can be no assurance that the codes of ethics will be effective in preventing such activities. Each code of ethics may be examined on the Internet from the SEC's website at www.sec.gov. In addition, each code of ethics can be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-202-942-8090. Copies of these codes of ethics may be obtained, after paying a duplicating fee, by electronic request at the following email address: publicinfo@sec.gov, or by writing the SEC's Public Reference Section, Washington, DC 20549-0102.

The Adviser's code of ethics allows personnel to invest in securities for their own account, but requires compliance with the code's pre-clearance requirements and other restrictions including "blackout periods" and minimum holding periods, subject to limited exceptions. The code of ethics prohibits purchases of securities in initial public offerings (the prohibition is limited to U.S. public offerings) and requires prior approval for purchases of securities in private placements.

PERFORMANCE INFORMATION

Advertisements and sales literature relating to the Fund as well as reports to Members may include quotations of investment performance. In these materials, the Fund's performance will normally be portrayed as the net return to an investor in the Fund during each month or quarter of the period for which the investment performance is being shown. Cumulative performance and year-to-date performance computed by aggregating quarterly or monthly return data may also

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

be used. Investment returns will be reported on a net basis, after all fees and expenses. Other methods also may be used to portray the Fund's investment performance.

The Fund's performance results will vary from time to time, and past results are not necessarily indicative of future investment results.

Comparative performance information, as well as any published ratings, rankings and analyses, reports and articles discussing the Fund, may also be used to advertise or market the Fund, including data and materials prepared by recognized sources of such information. Such information may include comparisons of the Fund's investment performance to the performance of recognized market indices and indices, including but not limited to the Standard & Poor's 500, the Russell 2000, or other lesser known indices (including indices of other pooled investment vehicles investing in hedge funds and private equity venture and buyout funds, such as Hedge Fund Research Inc.'s HFRI Equity Hedge Index, or Venture Economics' U.S. Private Equity Performance Index). Comparisons also may be made to economic and financial trends and data that may be relevant for investors to consider in determining whether to invest in the Fund.

INVESTMENT MANAGEMENT AND OTHER SERVICES

The Adviser. Under an investment management agreement (the "Investment Management Agreement") with the Master Fund, DBIM, a registered investment adviser, provides supervisory and administrative services to the Master Fund, including supervision of the Master Fund's investment program. DBIM's address is 25 DeForest Avenue, Summit, New Jersey 07901. As the Master Fund's investment adviser, DBIM makes the Master Fund's investment decisions. DBIM buys and sells securities for the Master Fund and conducts the research that leads to the purchase and sale decisions. As necessary, DBIM is also responsible for selecting brokers and dealers and for negotiating brokerage commissions and dealer charges or other transaction costs.

DBIM is an indirect, wholly owned subsidiary of Deutsche Bank, an international commercial and investment banking group. Deutsche Bank is a major global banking institution that is engaged in a wide range of financial services activities, including investment management, mutual funds, retail, private, and commercial banking, investment banking, and insurance.

23

DB Absolute Return Strategies is the marketing name for the absolute return strategies activities of Deutsche Bank AG and certain of its subsidiaries, including DBIM, Deutsche Asset Management, Inc., Deutsche Bank Trust Company Americas, DB Investment Managers, Inc., Deutsche Bank Securities Inc., Deutsche Asset Management Investmentgesellschaft mbH Frankfurt am Main, Deutsche Asset Management (Australia) Limited, and Deutsche Asset Management Limited. DBIM serves as investment adviser to this Fund and other institutional and privately managed accounts. As of April 1, 2005, DB Absolute Return Strategies (including DBIM) had total assets of approximately US \$8.2 billion under management. As of December 31, 2004, Deutsche Bank had total assets of approximately U.S. \$730 billion under management.

DBIM and its affiliates serve as investment adviser to other registered and/or private investment funds that utilize investment programs similar to that of the Fund and the Master Fund, and DBIM and/or its affiliates may in the future

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

serve as an investment adviser or general partner of other registered and/or private investment companies with similar investment programs.

Subject to the general supervision of the Board and in accordance with the investment objective, policies, and restrictions of the Master Fund, DBIM provides the Master Fund with ongoing investment guidance, policy direction, and monitoring of the Master Fund pursuant to the Investment Management Agreement. The Investment Management Agreement may be terminated by the Board, by a majority vote of the members of the Master Fund, or by the Adviser.

The Investment Management Agreement. The Investment Management Agreement provides that the Adviser will provide (either directly or through its delegate) portfolio management services, place portfolio transactions in accordance with the Master Fund's registration statement, assist the Master Fund generally in the conduct of its business, maintain or cause to be maintained necessary books and records of the Master Fund, furnish office space for the Master Fund's officers and employees, and render services on behalf of the Master Fund (not otherwise provided by third parties) necessary for the Master Fund's operating as a closed-end investment company. Subject to the Board's oversight, the Adviser has agreed, among other things, to: make investment decisions and provide a program of continuous investment management for the Master Fund; prepare, obtain, evaluate, and make available to the Master Fund research and statistical data; obtain and evaluate information and advice relating to the economy, securities markets, and securities; buy, retain, and sell investments, securities, and cash; purchase and redeem securities of Investment Funds; select brokers or dealers to execute transactions; provide on an ongoing basis an evaluation of the Master Fund's portfolio; determine or recommend the extent to which the Master Fund's portfolio should be invested, and what portion, if any, should be held uninvested; and maintain or cause to be maintained for the Master Fund all books, records, reports, and any other information required under the 1940 Act, to the extent that such books, records, and reports, and other information are not maintained or furnished by another service provider of the Master Fund.

Under the Investment Management Agreement, the Master Fund is responsible for its expenses, including fees payable to the Adviser and to any consultants, including an advisory board, if applicable; legal expenses; auditing and accounting expenses; telephone, telex, facsimile, postage, and other communications expenses; taxes and governmental fees; fees, dues, and expenses incurred by the Master Fund or with respect to the Master Fund in connection with membership in investment company trade organizations; costs of insurance relating to fidelity coverage for the Master Fund's officers and employees; fees and expenses of the Master Fund's administrator and any custodian, subcustodian, transfer agent, and registrar, or distribution disbursing agent or any other agent of the Master Fund; payment for portfolio pricing or valuation services to pricing agents, accountants, bankers, and other specialists, if any; expenses of preparing certificates and other expenses in connection with the issuance, offering, distribution, sale, or underwriting of Interests issued by the Master Fund; expenses of registering or qualifying Interests for sale; expenses relating to investor and public relations; freight, insurance, and other charges in connection with the shipment of the Master Fund's portfolio securities; brokerage commissions or other costs of acquiring or disposing of any portfolio securities of the Master Fund or of entering into other transactions or engaging in any investment practices with respect to the Master Fund; expenses of preparing and distributing prospectuses, SAIs, reports, notices, and distributions to Members; costs of stationery; costs of Members' and other meetings; and litigation expenses.

The Adviser is responsible for the payment of the compensation and expenses of all Directors, officers, and executive employees of the Fund and the Master Fund (including the Fund's and the Master Fund's interest on

payroll taxes, if any) affiliated with the Adviser and making available, without expense to the Fund and the Master Fund, the services of such Directors, officers, and employees as may duly be elected officers of the Fund and the Master Fund, subject to their individual consent to serve and to any limitations imposed by law, except that the Fund and the Master Fund are responsible for the fees and expenses (specifically including travel expenses relating to Fund and the Master Fund business) of its Independent Directors.

The Investment Management Agreement further provides that the Adviser will not be liable for any error of judgment or mistake of law or for any loss suffered by the Master Fund in connection with matters to which such agreement relates, except a loss resulting from willful misfeasance, bad faith, or gross negligence on the part of the Adviser in the performance of its duties or from reckless disregard by the Adviser of its obligations and duties under such agreement. The Investment Management Agreement also provides that purchase and sale opportunities, which are suitable for more than one client of the Adviser, will be allocated by the Adviser in a fair and equitable manner.

The Fund pays an asset-based fee to the Adviser for its management services at an annual rate of 1.00% of the Fund's month-end net assets, including assets attributable to the Adviser (or its affiliates) and before giving effect to any repurchases by the Fund. The fee is accrued monthly and paid quarterly. For the period beginning October 1, 2004 (commencement of operations) through March 31, 2005, the Fund paid the Adviser \$227,311 for its services under the Investment Management Agreement. The Adviser has contractually agreed to a waiver of its fees and/or a reimbursement of the Fund's expenses to the extent necessary to that the Fund's annualized expenses do not exceed 1.75% during the period through March 31, 2005. For the period, the Adviser waived management fees of \$227,311 and agreed to reimburse \$37,973 for the expenses the Fund accrued. In addition, the Adviser reimbursed the Fund for \$12,931 for foregone interest on canceled trades.

In addition, the Operating Agreement provides that as of each March 31, upon any repurchase of Interests (solely with respect to the Interests repurchased), and upon termination of the Fund (each, a "Performance Period"), an Incentive Allocation will be made from the Capital Account of each Member (other than the Adviser) to the Capital Account of the Adviser. The Incentive Allocation is equal to 10% of the amount, if any, by which (i) the net profit, if any, initially allocated to such Member's Capital Account during such Performance Period in excess of the Hurdle for such Performance Period exceeds (ii) the positive balance, if any, as of the beginning of such Performance Period in such Member's Loss Carryforward Account; provided, that the Hurdle will be adjusted appropriately for additional Capital Contributions or repurchases made by the relevant Member during such Performance Period. For the six-month period ended March 31, 2005, the average Hurdle Rate was 2.289%. For the six-month period ended March 31, 2005, the Adviser received Incentive Allocations from Members' Capital Accounts totaling, in the aggregate, \$57,188.

The Investment Management Agreement will remain in effect for two years from its date of execution, and will continue in effect from year to year thereafter, but only so long as such continuance is specifically approved at least annually by the affirmative vote of (i) a majority of the members of the Master Fund's Board who are not parties to the Investment Management Agreement or interested persons of any party to the Investment Management Agreement, or of any entity regularly furnishing investment advisory services with respect

to the Master Fund pursuant to an agreement with any party to the Investment Management Agreement, cast in person at a meeting called for the purpose of voting on such approval, and (ii) a majority of the Master Fund's Board or the holders of a majority of the outstanding voting securities of the Master Fund.

In considering the Investment Management Agreement, the Board considered several factors it believed, in light of the legal advice furnished to it by counsel and its own business judgment, to be relevant. The factors considered by the Board in reviewing the Investment Management Agreement included, but were not limited to the following: (i) the nature and quality of the services to be provided by the Adviser; (ii) the fairness of the Investment Management Fee paid to the Adviser under the Investment Management Agreement and the Incentive Allocation to be made to the Adviser under the Operating Agreement in light of the services to be provided; (iii) the personnel, operations, financial condition, and investment management capabilities, methodologies, and performance of the Adviser; and (iv) the expenses to be borne by Members. In reviewing these factors, the Board considered, among other things: comparative data with respect to similar funds, including those for which the investment adviser earns a performance-based fee; factors relating to the Fund's investments in Investment Funds; the fact that the Master Fund is a closed-end fund that may periodically repurchase interests from its members; and other factors bearing on the quality of the services to be provided to the Master Fund and the cost to members. The Board considered the

25

appropriateness of the Incentive Allocation in conjunction with its consideration of the Investment Management Agreement. The Board discussed the fact that the Incentive Allocation, although not paid as a term of the Investment Management Agreement, was a component of the Adviser's compensation, and that accordingly, the Board could refuse to approve such allocation. Based upon its review, the Board has determined that the Investment Management Agreement (and the Incentive Allocation) is in the interest of the Master Fund and its members. Accordingly, after consideration of the factors described above, and such other factors and information it considered relevant, the Board, including all of the Independent Directors, approved the Investment Management Agreement (and the Incentive Allocation).

The Investment Management Agreement may be terminated at any time without penalty, on sixty days' written notice, by the Master Fund's Board, by vote of holders of a majority of the outstanding voting securities of the Master Fund, or by the Adviser. The Investment Management Agreement will automatically be terminated in the event of its assignment, as defined in the 1940 Act, provided that an assignment to a corporate successor to all or substantially all of the Adviser's business or to a wholly owned subsidiary of such corporate successor which does not result in a change of actual control or management of the Adviser's business will not be deemed to be an assignment for the purposes of the Investment Management Agreement.

CONTROL PERSONS

As of April 30, 2005, 43.69% of the interests of the Master Fund outstanding as of that date were owned by DBAH Capital LLC ("DBAH"). In addition, DBAH owns 0.31% of the Interests of the Fund outstanding as of April 30, 2005. Accordingly, as of that date, DBAH may be deemed to "control" the Master Fund (as that term is defined in the 1940 Act) by virtue of its direct and indirect investments in the Master Fund, because interests of the Master Fund held by DBAH constituted more than 25% of the outstanding interests. DBAH is an affiliate of the Adviser.

CUSTODIAN AND ADMINISTRATOR

PFPC Trust Company (the "Custodian"), whose principal business address is 8800 Tinicum Boulevard, 3rd Floor, Philadelphia, Pennsylvania 19153, serves as the custodian of the Fund's, the Offshore Fund's, and the Master Fund's assets pursuant to a custodian services agreement, under which the Custodian, among other things: opens and maintains separate accounts in the Fund's, the Offshore Fund's, and the Master Fund's name; makes cash payments from the accounts for purposes set forth in the agreement; holds securities in accounts; releases and delivers or exchanges securities owned by the Fund, the Offshore Fund, and the Master Fund as set forth in the agreement; collects and receives for the account of the Fund, the Offshore Fund, and the Master Fund all income, property, and similar items; settles purchased securities upon receipt; and furnishes to the Fund, the Offshore Fund, and the Master Fund periodic and special reports, statements, and other information. The Custodian is an affiliate of PFPC, the Fund's, the Offshore Fund's, and the Master Fund's administrator and the Fund's and the Master Fund's transfer and distribution disbursing agent.

PFPC, whose principal business address is 400 Bellevue Parkway, Wilmington, Delaware 19809, has responsibility for providing administrative services and assisting the Fund, the Offshore Fund, and the Master Fund with operational needs pursuant to separate administration agreements with each of the Fund, the Offshore Fund, and the Master Fund (the "Administration Agreements"). Pursuant to the Administration Agreements, PFPC provides the following services, among others: journalizing investment, capital, and income and expense activities; verifying investment instructions before directing cash flows, and confirming receipt of money at Investment Funds in accordance with PFPC's internal procedures; maintaining individual ledgers for investment securities; maintaining historical tax lots for each security; recording and reconciling corporate action activity and all other capital changes; reconciling cash and investment balances of the Fund and the Master Fund with the Fund's and the Master Fund's custodian and providing information about available cash balances; calculating contractual expenses, including Investment Management Fees and Incentive Allocations; preparing financial statements; monitoring expense accruals; controlling all disbursements and authorizing disbursements from the Fund's and the Master Fund's account with the custodian; calculating capital gains and losses; determining net investment income; assisting with the preparation and distribution of portfolio management reports; obtaining net asset values from Investment Funds and calculating net asset values in accordance with this Prospectus and the Operating Agreement; and preparing regulatory filings.

26

In consideration for these services, the Master Fund pays, and the Fund as an indirect investor in the Master Fund bears, PFPC a fee at the annual rate of 0.08% of the Master Fund's month-end net assets. For the period beginning October 1, 2004 (commencement of operations) through March 31, 2005, the Fund paid PFPC \$42,155 for its services under the Administration Agreement.

PFPC also serves as the Fund's and the Master Fund's transfer and distribution disbursing agent, and has agreed to provide the following services, among others: maintaining the register of Members and entering on such register all issues, transfers, and repurchases of Interests; calculating repurchase prices; allocating income, expenses, gains, and losses to Members' Capital Accounts; preparing and mailing tax forms; preparing and distributing interim tax reports; mailing prospectuses; processing payments; and confirming account

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

activity. The Fund compensates PFPC for its services under the Administration Agreements based on the Fund's proportional investment in the Master Fund.

The Fund and the Master Fund also have retained Investment Company Capital Corporation ("ICCC"), an affiliate of DBIM, to provide board-related administration services pursuant to a services agreement. Under this agreement, ICCC, among other things: drafts board meeting agendas and resolutions; prepares and mails board materials; communicates with the Directors; and attends board meetings and drafts board meeting minutes. ICCC is compensated for its services by the Adviser at no additional expense to the Fund.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

PricewaterhouseCoopers LLP, whose principal business address is 300 Madison Avenue, New York, New York 10017, has been selected as the independent registered public accounting firm for the Fund and the Master Fund and in such capacity will audit the Fund's and the Master Fund's annual financial statements and financial highlights.

The Fund will furnish, without charge, a copy of its Annual and Semi-Annual Reports to Members upon request to the Fund. Members may write to Scudder Distributors, Inc. at 222 South Riverside Plaza, Attn: Correspondence 27th Floor, Chicago, IL 60606-1048, or call Scudder Distributors, Inc. at 1-888-262-0695.

DISTRIBUTOR

The Distributor, Scudder Distributors, Inc., 222 South Riverside Plaza, Attn: Correspondence 27th Floor, Chicago, IL 60606-1048, will act as distributor of the Interests during the continuous offering of the Interests pursuant to the Underwriting Agreement. Pursuant to the Underwriting Agreement, the Distributor bears all of its expenses of providing distribution services as described under that agreement. The Fund will assume and pay all charges and expenses of its operations not specifically assumed or otherwise to be provided by the Distributor under the Underwriting Agreement. The Fund will pay (or will enter into arrangements providing that others will pay), among other things: (i) all fees and expenses in connection with the registration of the Fund and the Interests under the United States securities laws and the registration and qualification of Interests for sale in the various jurisdictions in which the Fund shall determine it advisable to qualify such Interests for sale; and (ii) the cost of preparing and printing of sufficient copies of the Fund's prospectus, SAI, and any other sales material (and any supplements or amendments thereto).

The Underwriting Agreement continues in effect for two years from the date of its execution and from year to year thereafter, so long as such continuance is approved at least annually by a vote of the Board, including the Independent Directors who have no direct or indirect financial interest in the Underwriting Agreement. The Underwriting Agreement may be terminated at any time without the payment of any penalty on sixty days' written notice by the Distributor or by the Fund by (i) a vote of a majority of the Board, and a majority of the Independent Directors who have no direct or indirect financial interest in the Underwriting Agreement, or (ii) a "majority of the outstanding voting securities" of the Fund, as defined under the 1940 Act. The Underwriting Agreement will automatically be terminated in the event of its assignment, as defined in the 1940 Act, provided that an assignment to a corporate successor to all or substantially all of the Distributor's business or to a wholly owned subsidiary of such corporate successor which does not result in a change of actual control or management of the Distributor's business will not be deemed to be an assignment for the purposes of the Underwriting Agreement.

EXPENSE LIMITATION AGREEMENT

The Adviser has entered into an agreement with the Fund and the Master Fund whereby it has contractually agreed to waive and/or reimburse the Fund's expenses to the extent necessary to ensure that the Fund's annualized expenses (excluding the Incentive Allocation, if any) will not exceed 1.75%. The initial term of the Expense Limitation Agreement ended on March 31, 2005. The Adviser has agreed to renew the Expense Limitation Agreement for an additional one-year term ending on March 31, 2006. Thereafter, the Expense Limitation Agreement will be automatically renewed for each fiscal year unless the Adviser provides written notice to the Fund and the Master Fund of the termination of the Expense Limitation Agreement at least 30 days prior to the end of the then-current term.

Pursuant to the Expense Limitation Agreement, during the period from October 1, 2004 (commencement of operations) through March 31, 2005, the Adviser waived \$227,311 of its fees, and reimbursed the Fund \$37,973 of its other expenses. In addition, the Adviser reimbursed the Fund \$12,931 for foregone interest on canceled trades.

CALCULATION OF FEES

If, consistent with the provisions of the Operating Agreement and the Fund's currently effective registration statement, the determination of net asset value is suspended or net asset value is otherwise not calculated on a particular day, then for purposes of calculating and accruing any fee payable by the Fund that is based on the Fund's net asset value, such fee will be computed on the basis of the value of the Fund's net assets as last calculated.

LEGAL COUNSEL

Sidley Austin Brown & Wood LLP, 787 Seventh Avenue, New York, New York 10019, acts as legal counsel to the Fund and the Master Fund. Walkers, Walker House, P.O. Box 265GT, Mary Street, George Town, Grand Cayman, Cayman Islands, acts as legal counsel to the Offshore Fund.

PORTFOLIO TRANSACTIONS

Many of the Master Fund's transactions are effected directly with Investment Funds and such transactions may not be subject to brokerage commissions. In some instances, however, the Master Fund may incur expenses in connection with effecting its portfolio transactions, including the payment of brokerage commissions or fees payable to Investment Funds or parties acting on behalf of or at the direction of Investment Funds. Portfolio transaction orders may be directed to any broker, including, to the extent and in the manner permitted by applicable law, the Distributor or its affiliates, and other affiliates of the Fund.

For the Master Fund's period beginning October 1, 2004 (commencement of operations) through March 31, 2005, the Master Fund did not pay brokerage commissions.

PROXY VOTING POLICIES AND PROCEDURES

The Fund invests substantially all of its assets in the Offshore Fund, which in turn invests in the Master Fund, which in turn invests in the securities of Investment Funds, which are privately placed investment vehicles, typically referred to as "hedge funds." These securities do not typically convey traditional voting rights to the holder and the occurrence of corporate governance or other notices for this type of investment is substantially less than that encountered in connection with registered equity securities. On occasion, however, the Adviser and/or the Master Fund may receive notices from the Investment Funds seeking the consent of holders in order to materially change certain rights within the structure of the security itself or change material terms of the Investment Fund's articles of association, limited partnership agreement, limited liability company operating agreement, or similar agreement with investors. To the extent that the Master Fund receives notices or proxies from Investment Funds (or receives proxy statements or similar notices in connection with any other portfolio securities), the Master Fund has delegated proxy voting responsibilities with respect to the Master Fund's portfolio securities to the Adviser, subject to the Board's general oversight and with the direction that proxies should be voted consistent with the Master Fund's best economic interests. The Adviser has adopted its own Proxy Voting Policies and Procedures ("Policies") for this

28

purpose. The Policies address, among other things, conflicts of interest that may arise between the interests of the Master Fund, and the interests of the Adviser and its affiliates, including the Master Fund's principal underwriter.

The Policies describe the way in which the Adviser resolves conflicts of interest. To resolve conflicts, the Adviser, under normal circumstances, votes proxies in accordance with its guidelines. If the Adviser departs from the Policies with respect to a particular proxy or if the Policies do not specifically address a certain proxy proposal, a committee established by the Adviser will vote the proxy. Before voting any such proxy, however, the committee will exclude from the voting discussions and determinations any member who is involved in or aware of a material conflict of interest. If, after excluding any and all such members, there are fewer than three voting members remaining, the Adviser will engage an independent third party to vote the proxy or follow the proxy voting recommendations of an independent third party.

Under certain circumstances, the Adviser may not be able to vote proxies or may find that the expected economic costs from voting outweigh the benefits associated with voting. For example, the Adviser may not vote proxies on certain foreign securities due to local restrictions or customs. The Adviser generally does not vote proxies on securities subject to share blocking restrictions.

Each of the Fund and the Master Fund will be required to file new Form N-PX, with its complete proxy voting record for the twelve months ended June 30, no later than August 31 of each year. The first such filing will be due no later than August 31, 2005 for the period from the commencement of operations of the Fund and the Master Fund to June 30, 2005. Once filed, the Fund's and the Master Fund's Form N-PX will be available: (i) without charge, upon request, by calling the Fund at 1-888-262-0695; or (ii) by visiting the SEC's website at www.sec.gov.

PRIVACY STATEMENT

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

This privacy statement is issued by the Fund, the Master Fund, the Adviser, and their affiliates. The Fund, the Master Fund, the Adviser, and their affiliates consider privacy fundamental to their investor relationships and adhere to the policies and practices described below to protect current and former investors' information.

Internal policies are in place to protect confidentiality, while allowing investor needs to be served. Only employees of Deutsche Bank who need to do so in carrying out their job responsibilities may access investor information. The Fund, the Master Fund, the Adviser, and their affiliates maintain physical, electronic, and procedural safeguards that comply with federal standards to protect confidentiality. These safeguards extend to all forms of interaction with the Fund, the Master Fund, the Adviser, and their affiliates, including the Internet. The Fund, the Master Fund, the Adviser, and their affiliates never sell customer lists or individual client information.

In the normal course of business, investors give the Fund, the Master Fund, and the Adviser nonpublic personal information on subscription documents and other forms, on websites of the Fund, the Master Fund, or the Adviser, and through transactions with affiliates. Examples of the nonpublic personal information collected are name, address, social security number or taxpayer identification number, transactions, and balance information. To be able to serve investors, certain of this client information is shared with affiliated and nonaffiliated third party service providers such as transfer agents, lawyers, custodians, administrators, and broker-dealers, to assist in processing transactions, servicing investor accounts, and operating the Fund and the Master Fund. The Administrator may also share such information with the Adviser. The organizations described above that receive client information may only use it for the purpose designated by the Fund, the Master Fund, the Adviser, or their affiliates.

The Fund, the Master Fund, the Adviser, and their affiliates may also disclose nonpublic personal information about investors to other parties as required or permitted by law. For example, the Fund, the Master Fund, the Adviser, and their affiliates may provide or may be required to provide information to government entities or regulatory bodies in response to requests for information or subpoenas, to private litigants in certain circumstances, to law enforcement authorities, or any time believed necessary to protect the firm.

Investors with questions on this policy may contact the Adviser at (908) 608-3108.

statement (Reg. Nos. 333-111561, 811-21480) on December 24, 2003 (the "Initial Registration Statement").

ITEM 28. NUMBER OF HOLDERS OF SECURITIES

As of June 30, 2005, the Fund had the following number of record owners of Interests:

Title of Class -----	Number of Record Holders -----
Limited Liability Company Interests	231

ITEM 29. INDEMNIFICATION

A policy of insurance covering DB Investment Managers, Inc. its affiliates, and all of the registered investment companies advised by DB Investment Managers, Inc. will be obtained to insure the Registrant's trustees and officers and others against liability arising by reason of an alleged breach of duty caused by any negligent act, error or accidental omission in the scope of their duties. Article III, Section 3.7 of the Registrant's Operating Agreement is as follows:

(a) To the fullest extent permitted by law, the Fund shall, subject to Section 3.7(b) hereof, indemnify each Director (including for this purpose their executors, heirs, assigns, successors, or other legal representatives), the Investment Adviser and Tax Matters Member (including for this purpose each affiliate, shareholder, partner, member, officer, director, principal, employee, or agent of the Investment Adviser and the Tax Matters Member) and the executors, heirs, assigns, successors, or other legal representatives of each of the foregoing, and of any person who controls or is under common control, or otherwise affiliated, with the Investment Adviser or the Tax Matters Member (and their executors, heirs, assigns, successors, or other legal representatives) against all losses, claims, damages, liabilities, costs, and expenses, including, but not limited to, amounts paid in satisfaction of judgments, in compromise, or as fines or penalties, and reasonable counsel fees, incurred in connection with the defense or disposition of any action, suit, investigation, or other proceeding, whether civil or criminal, before any judicial, arbitral, administrative, or legislative body, in which such indemnitee may be or may have been involved as a party or otherwise, or with which such indemnitee may be or may have been threatened, while in office or thereafter, by reason of being or having been a Director, Investment Adviser, or the Tax Matters Member, as the case may be, of the Fund or the past or present performance of services to the Fund by such indemnitee, except to the extent such loss, claim, damage, liability, cost, or expense shall have been finally determined in a decision on the merits in any such action, suit, investigation, or other proceeding to have been incurred or suffered by such indemnitee by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of such indemnitee's office. The rights of indemnification provided under this Section 3.7 shall not be construed so as to provide for indemnification of an indemnitee for any liability (including liability under federal securities laws which, under certain circumstances, impose liability even on persons that act in good faith) to the extent (but only to the extent) that such indemnification would be in violation of applicable law, but

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

shall be construed so as to effectuate the applicable provisions of this Section 3.7 to the fullest extent permitted by law.

(b) Expenses, including reasonable counsel fees, so incurred by any such indemnitee (but excluding amounts paid in satisfaction of judgments, in compromise, or as fines or penalties), may be paid from time to time by the Fund in advance of the final disposition of any such action, suit, investigation, or proceeding upon receipt of an undertaking by or on behalf of such indemnitee to repay to the Fund amounts so paid if it shall ultimately be determined that indemnification of such expenses is not authorized under Section 3.7(a) hereof; provided, however, that: (i) such indemnitee shall provide security for such undertaking, (ii) the Fund shall be insured by or on behalf of such indemnitee against losses arising by reason of such

indemnitee's failure to fulfill his or its undertaking; or (iii) a majority of the Directors (excluding any Director who is seeking advancement of expenses hereunder or is or has been a party to any action, suit, investigation, or proceeding involving claims similar to those involved in the action, suit, investigation, or proceeding giving rise to a claim for advancement of expenses hereunder) or independent legal counsel in a written opinion shall determine based on a review of readily available facts (as opposed to a full trial-type inquiry) that there is reason to believe such indemnitee ultimately will be entitled to indemnification.

(c) As to the disposition of any action, suit, investigation, or proceeding (whether by a compromise payment, pursuant to a consent decree, or otherwise) without an adjudication or a decision on the merits by a court of competent jurisdiction, or by any other body before which the proceeding shall have been brought, that an indemnitee is liable to the Fund or its Members by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of such indemnitee's office, indemnification shall be provided pursuant to Section 3.7(a) hereof if: (i) approved as in the best interests of the Fund by vote of a majority of the Directors (excluding any Director who is seeking indemnification hereunder or is or has been a party to any action, suit, investigation, or proceeding involving claims similar to those involved in the action, suit, investigation, or proceeding giving rise to a claim for advancement of expenses hereunder) upon a determination based upon a review of readily available facts (as opposed to a full trial-type inquiry) that such indemnitee acted in good faith and in the reasonable belief that such actions were in the best interests of the Fund and that such indemnitee is not liable to the Fund or its Members by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of such indemnitee's office; or (ii) the Directors secure a written opinion of independent legal counsel based upon a review of readily available facts (as opposed to a full trial-type inquiry) to the effect that such indemnitee acted in good faith and in the reasonable belief that such actions were in the best interests of the Fund and that such indemnitee is not liable to the Fund or its Members by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of such indemnitee's office.

(d) Any indemnification or advancement of expenses made pursuant to this Section 3.7 shall not prevent the recovery from any indemnitee of any such amount if such indemnitee subsequently shall be determined in a final decision on the merits in a court of competent jurisdiction in any action, suit, investigation, or proceeding involving the liability or

Edgar Filing: TOPIARY BENEFIT PLAN INVESTOR FUND LLC - Form POS 8C

expense that gave rise to such indemnification or advancement of expenses to be liable to the Fund or its Members by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of such indemnitee's office. In any suit brought by an indemnitee to enforce a right to indemnification under this Section 3.7 it shall be a defense that, and in any suit in the name of the Fund to recover any indemnification or advancement of expenses made pursuant to this Section 3.7 the Fund shall be entitled to recover such expenses upon a final adjudication that, the indemnitee has not met the applicable standard of conduct set forth in this Section 3.7. In any such suit brought to enforce a right to indemnification or to recover any indemnification or advancement of expenses made pursuant to this Section 3.7, the burden of proving that the indemnitee is not entitled to be indemnified, or to any indemnification or advancement of expenses, under this Section 3.7 shall be on the Fund (or any Member acting derivatively or otherwise on behalf of the Fund or its Members).

(e) An indemnitee may not satisfy any right of indemnification or advancement of expenses granted in this Section 3.7 as to which he, she, or it may otherwise be entitled except out of the assets of the Fund, and no Member shall be personally liable with respect to any such claim for indemnification or advancement of expenses.

(f) The rights of indemnification provided hereunder shall not be exclusive of or affect any other rights to which any person may be entitled by contract or otherwise under law. Nothing contained in this Section 3.7 shall affect the power of the Fund to purchase and maintain liability insurance on behalf of any Director or other person.

ITEM 30. BUSINESS AND OTHER CONNECTIONS OF THE ADVISER

ITEM 32. MANAGEMENT SERVICES

Not applicable.

ITEM 33. UNDERTAKINGS

1. Not applicable.
2. Not applicable.
3. Not applicable.

4. The Registrant undertakes

(a) To file during any period in which offers or sales are being made, a post-effective amendment to this registration statement: (i) to include any prospectus required by Section 10(a)(3) of the Securities Act of 1933; (ii) to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a

fundamental change in the information set forth in the registration statement; and (iii) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

(b). That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c). To remove from registration by means of post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

5. Not applicable.

6. The Registrant undertakes to send by first class mail or other means designed to ensure equally prompt delivery, within two business days of receipt of an oral or written request, any Statement of Additional Information.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, as amended (the "Securities Act"), and the Investment Company Act of 1940, as amended, the Registrant has duly caused this Registration Statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the Township of Summit and the State of New Jersey on the 25th day of July, 2005.
