ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934
For the fiscal year ended December 31, 2014
Commission file number 000-24498

DIAMOND HILL INVESTMENT GROUP, INC.

(Exact name of registrant as specified in its charter)

Ohio	65-0190407
(State of	(I.R.S. Employer
incorporation)	Identification No.)
325 John H. McConnell Blvd., Suite 200,	43215
Columbus, Ohio 43215	(Zip Code)
(Address of principal executive offices)	
Registrants's telephone number, including area code: (614) 255-3333	
Securities registered pursuant to Section 12(b) of the Act:	
Title of each class	Name of each exchange on which registered
Common shares, no par value	The NASDAQ Stock Market LLC
Securities registered pursuant to Section 12(g) of the Act: None	

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to

Edgar Filing: DIAMOND HILL INVESTMENT GROUP INC - Form 10-K

submit and post such files). Yes ☒ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K ☒

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐ Accelerated filer ☒

Non-accelerated filer ☐ Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

Aggregate market value of the registrant's common shares (the only common equity of the registrant) held by non-affiliates of the registrant, based on the closing price of \$127.72 on June 30, 2014 on the NASDAQ Global Select Market was \$318,644,669. Calculation of holdings by non-affiliates is based upon the assumption, for these purposes only, that the registrant's executive officers and directors and persons holding five percent or more of the registrant's common shares are affiliates.

The number of shares outstanding of the issuer's common stock, as of February 26, 2015, is 3,305,561 shares.

Documents incorporated by Reference

Portions of the registrant's definitive proxy statement for the 2015 Annual Meeting of Shareholders to be filed pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended, are incorporated by reference into Part III of this report.

Item 1. Business

Forward-Looking Statements

Throughout this Annual Report on Form 10-K, Diamond Hill Investment Group, Inc. (the "Company," "we," "us" and "our") may make forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, relating to such matters as anticipated operating results, prospects and levels of assets under management, technological developments, economic trends (including interest rates and market volatility), expected transactions and similar matters. The words "believe," "expect," "anticipate," "estimate," "should," "hope," "seek," "plan," "intend" and similar expressions identify forward-looking statements. We speak only as of the date thereof. While we believe that the assumptions underlying our forward-looking statements are reasonable, investors are cautioned that any of the assumptions could prove to be inaccurate and, accordingly, our actual results and experiences could differ materially from the anticipated results or other expectations expressed in our forward-looking statements. Factors that could cause such actual results or experiences to differ from results discussed in the forward-looking statements include, but are not limited to: the adverse effect from a decline in the securities markets; a decline in the performance of our products; changes in interest rates; changes in national and local economic and political conditions, including the effects of implementation of the Budget Control Act of 2011, the American Taxpayer Relief Act of 2012, the Jumpstart Our Business Startups Act of 2012 and the continuing economic uncertainty in various parts of the world; changes in government policy and regulation, including monetary policy; changes in our ability to attract or retain key employees; unforeseen costs and other effects related to legal proceedings or investigations of governmental and self-regulatory organizations; and other risks identified from time-to-time in other public documents on file with the U. S. Securities and Exchange Commission ("SEC"), including those discussed below in Item 1A. Throughout this Annual Report on Form 10-K, when we use the terms the "Company," "management," "we," "us," and "our," we mean Diamond Hill Investment Group, Inc. and its subsidiaries.

Overview

The Company, an Ohio corporation organized in April 1990, derives its consolidated revenue and net income from investment advisory and fund administration services provided by its subsidiaries Diamond Hill Capital Management, Inc. ("DHCM"), Beacon Hill Fund Services, Inc. ("BHFS"), and BHIL Distributors, Inc. ("BHIL"). BHFS and BHIL collectively operate as "Beacon Hill". DHCM is a registered investment adviser under the Investment Advisers Act of 1940. DHCM sponsors, distributes, and provides investment advisory and related services to U.S. and foreign clients through Diamond Hill Funds (the "Funds"), institutional accounts, and private investment funds (generally known as "hedge funds"). Beacon Hill provides fund administration and statutory underwriting services to U.S. and foreign clients, including the Funds.

The Company's primary objective is to fulfill our fiduciary duty to clients. Our secondary objective is to grow the intrinsic value of the Company in order to achieve an adequate long-term return for shareholders.

Investment Advisory Activities

Clients

The Company provides investment advisory services to a broad range of clients, including corporations, mutual funds, retirement plans, public pension funds, endowments, foundations, financial institutions and high net worth individuals. We strive to expand our client base by attracting new clients and earning additional business from existing clients.

Investment Philosophy

We believe that a company's intrinsic value is independent of its stock price. We also believe competitive long-term returns can be achieved by buying (shorting) companies when the current market price is at a discount (premium) to our estimate of intrinsic value, based upon a discounted cash flow methodology.

The following are the guiding principles for our philosophy:

• Treat every investment as a partial ownership interest in that company.

Investing is most intelligent when it is viewed through the lens of an owner.

Table of Contents

Always invest with a margin of safety.

Our discipline is to purchase (short) securities at a sufficient discount (premium) to our estimate of intrinsic value. We estimate the intrinsic value of the business independent of the current stock market price then compare our estimate to the price to determine if an opportunity exists. When we successfully identify securities trading below (above) our estimate of intrinsic value, it increases the potential reward and serves as the most effective risk control.

Possess a long-term investment temperament.

In the short term, emotion as much as economic fundamentals drives market prices. Over time, the economic performance of the business and the price paid, versus the market, will determine investment return.

Recognize that market price and intrinsic value tend to converge over a reasonable period of time.

Investment opportunity lies in the ability to buy (or short), when the current market price does not reflect a company's intrinsic value, and to sell (or cover) when price and value converge.

Investment Process

DHCM's investment process begins with fundamental research focusing on estimating a company's intrinsic value independent of its current stock price. Bottom-up analysis, which takes into consideration earnings, revenue growth, operating margins and other economic factors, is of primary importance in estimating the intrinsic value of an individual company. A five-year discounted cash flow analysis is the primary methodology to determine whether there is a discrepancy between the current market price and DHCM's estimate of intrinsic value. In order to forecast the amount and timing of cash flows, the research analysts concentrate on the fundamental economic drivers of the business, including competitive positioning, quality of management, and balance sheet strength. Research analysts also evaluate each company within the context of sector and industry secular trends. Key factors in analyzing sectors and industries include relative pricing power, ability to earn excess returns, long-term capital flow, and other fundamental factors. DHCM also applies an intrinsic value philosophy to the analysis of fixed income securities. Only securities selling at a discount (premium) to intrinsic value will be purchased (sold short). A portfolio manager assigns the highest weights to the highest conviction names. A strategy will often not have any exposure to certain industries in which we are unable to find attractive opportunities. A stock will be sold (or covered) if its price reaches DHCM's estimate of intrinsic value, if fundamentals deteriorate, if a more attractive opportunity is identified, or if the holding reaches the stated limit as a percent of the portfolio.

DHCM believes that many investors' short-term focus hinders their long-term results, which creates market inefficiencies and therefore opportunities. In addition, not all investors are valuation sensitive. We believe that we can exploit these market anomalies/inefficiencies by possessing a long-term investment temperament and practicing a consistent and repeatable business appraisal approach to investing. Furthermore, DHCM believes that investing in securities whose market prices are significantly below DHCM's estimate of intrinsic value (or selling short securities whose market prices are above DHCM's estimate of intrinsic value) is a reliable method to achieve above average relative returns as well as mitigate risk.

Investment Advisory Fees

The Company's principal source of revenue is investment advisory fee income earned from managing client accounts under investment advisory and sub-advisory agreements. The fees earned depend on the type of investment strategy, account size and servicing requirements. Revenues depend on the total value and composition of assets under management ("AUM"). Accordingly, net cash flows from clients, market fluctuations in client portfolios, and the composition of AUM impact our revenues and results of operations. We also have certain agreements which allow us to earn variable fees in the event that investment returns exceed targeted amounts during a measurement period.

Investment Strategies

The Company offers several traditional and alternative investment strategies, which are all based on the same intrinsic value philosophy. As of December 31, 2014, we offered the following representative investment strategies to our clients:

1. Small Cap - Pursues long-term capital appreciation by investment in a portfolio of 50-80 small-capitalization U.S. equity securities.
2. Small-Mid Cap - Pursues long-term capital appreciation by investing in a portfolio of 50-70 small- and mid-capitalization U.S. equity securities.

3. Mid Cap - Pursues long-term capital appreciation by investing in a portfolio of 40-60 mid-capitalization U.S. equity securities

4

Table of Contents

4. Large Cap - Pursues long-term capital appreciation by investing in a portfolio of 40-60 large-capitalization U.S. equity securities.
5. Select - Pursues long-term capital appreciation by investing in a portfolio of 30-40 U.S. companies across a broad range of market capitalizations.
6. Long-Short - Pursues long-term capital appreciation by investing both long and selling short U.S. companies across a broad range of market capitalizations.
7. Research Opportunities - Pursues long-term capital appreciation by investing both long and selling short U.S. companies across a broad range of market capitalizations, as well as by investing up to 20% in international equities and up to 20% in fixed income investments.
8. Financial Long-Short - Pursues long-term capital appreciation by investing both long and selling short U.S. financial services companies across a broad range of market capitalizations.
9. Strategic Income - Pursues high current income, preservation of capital, and total return by investing in corporate bonds across the credit spectrum.

Investment Results

The Company believes that one of the most important characteristics exhibited by the best investment firms is excellent investment returns for their clients over a long period of time. We are pleased that, during our history as an investment advisory firm, we have delivered what we believe are strong long-term investment returns for our clients. Investment returns have been a key driver in the long-term success we have achieved in growing assets under management ("AUM"). Driven by an expanding economy, growing corporate profits, and persistently low interest rates, the broad U.S. equity market posted its sixth consecutive annual gain in 2014. Our investment strategies posted positive absolute returns in 2014; however, on a relative basis, most strategies trailed their respective benchmark returns.

2014 was a difficult year for active managers in large part due to lower volatility and lower dispersion. Volatility provides opportunities for active managers to identify mispricings in the market and take advantage of those mispricings. When volatility is low, there are fewer opportunities. Similarly, when dispersion is low, the spread between winners and losers is narrow, making it more difficult to stand out from the crowd. More importantly, as of December 31, 2014, the since inception returns for nearly all of our strategies with at least five years of results exceeded their respective benchmark returns. The exception was the Diamond Hill Research Opportunities Fund, which completed its first five-year period of existence at March 31, 2014. While pleased with the absolute return of the Research Opportunities Fund, the relative return since inception is disappointing. However, we continue to believe the Fund's disciplined approach to capital allocation will deliver satisfactory absolute and relative returns over most rolling five-year periods and over full market cycles. The following is a summary of the investment returns for each of our representative strategies with at least five years of results as of December 31, 2014, relative to its respective passive benchmark.

Table of Contents

	As of December 31, 2014

AUM at end of the year	\$15,656	\$12,186	\$9,429	\$8,671	\$8,623
Capacity					

The Company's primary goal is to fulfill our fiduciary duty to clients. We understand that our ability to retain and grow assets as a firm has been, and will be, driven primarily by delivering attractive long-term investment results to our clients. Once we determine that the size of any of our strategies hinders our ability to add value over a passive alternative, we have closed, and will continue to close, those strategies to new clients, which will impact our ability to grow AUM. We have prioritized, and will continue to prioritize, investment results over asset accumulation. Currently, all of our investment strategies are open to new investors. We estimate our AUM capacity to be approximately \$25-\$35 billion, with AUM of \$15.7 billion as of December 31, 2014.

Distribution Channels

The Company's investment advisory services are distributed through multiple channels. Our institutional sales efforts include building relationships with institutional consultants and also establishing direct relationships with institutional clients. Our sales efforts for the Funds include wholesaling to third-party financial intermediaries, including independent registered investment advisers, brokers, financial planners, and wealth advisers, who utilize the Funds in investment programs they construct for their clients.

AUM by Channel

Below is a summary of our AUM by distribution channel for the past five years ended December 31, 2014:

(in millions)	Assets by Distribution Channel As of December 31,				
	2014	2013	2012	2011	2010
Proprietary funds:					
Registered investment advisers	\$2,363	\$1,678	\$1,258	\$1,049	\$1,080
Independent broker/dealers	1,862	1,400	917	665	815

Table of Contents

Growth Strategy

The Company's growth strategy will remain focused on achieving excellent investment results in all our strategies and providing the highest level of client service. We will continue to focus on the development of distribution channels to enable us to offer our various investment strategies to a broad array of clients. We seek to continue to grow AUM through our proprietary funds and institutional accounts. We have a targeted strategic business plan to further penetrate our existing distribution channels. Our business development efforts are focused on expanding the institutional consultant channel and plan sponsor network on the separate account side, as well as our intermediary network on the fund side.

Fund Administration Activities

Fund Administration Services

The Company provides fund administration services to the Diamond Hill Funds and other third party mutual fund companies and investment advisers. Fund administration services are broadly defined as portfolio and regulatory compliance, treasury and financial oversight, statutory underwriting, oversight of back-office service providers such as the custodian, fund accountant, and transfer agent, and general business management and governance of the mutual fund complex. These services are offered on a stand-alone basis, as well as through a series or "umbrella" trust whereby individual investment advisers can establish a mutual fund under a fund complex sponsored by the Company.

Fund Administration Fees

The Company earns revenue from performing various fund administration activities described above under individual client agreements. The fees earned depend on the type of service, fund size, and/or servicing requirements. Certain client agreements have a fixed fee arrangement while others have a fee derived as a percentage of assets under administration.

Competition

Competition in the area of investment management and fund administration is intense, and our competitors include investment management firms, broker-dealers, banks and insurance companies, some of whom offer various investment alternatives. Many competitors are better known than the Company, offer a broader range of investment products and have more offices, employees and business development representatives. We compete primarily on the basis of philosophy, performance and client service.

Regulation

The Company and our business are subject to various federal, state and foreign laws and regulations. As a matter of public policy, regulatory bodies are charged with safeguarding the integrity of the securities and other financial markets and with protecting the interests of participants in those markets, including investment advisory clients and shareholders of investment funds. Under these laws and regulations, agencies that regulate investment advisers have broad administrative powers, including the power to limit, restrict or prohibit an investment adviser from carrying on its business in the event the adviser fails to comply with such laws and regulations. Possible sanctions that may be imposed include civil and criminal liability, the suspension of individual employees, limitations on engaging in certain lines of business for specified periods of time, revocation of investment adviser, broker/dealer, and other registrations, censures and fines.

DHCM is registered with the SEC under the Investment Advisers Act of 1940 (the "Advisers Act") and operates in a highly regulated environment. The Advisers Act imposes numerous obligations on registered investment advisers, including fiduciary duties, recordkeeping requirements, operational requirements and disclosure obligations. All Diamond Hill Funds are registered with the SEC under the Investment Company Act of 1940 and are required to make notice filings with all states where they are offered for sale. BHIL is registered with the SEC as a broker/dealer and is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). Virtually all aspects of our investment advisory and fund administration business are subject to various federal and state laws and regulations.

To the extent that DHCM is a "fiduciary" under the Employee Retirement Income Security Act of 1974 ("ERISA") with respect to benefit plan clients, it is subject to ERISA regulations. ERISA and applicable provisions of the Internal Revenue Code impose certain duties on persons who are fiduciaries, prohibit certain transactions involving ERISA plan clients, and provide monetary penalties for violations of these prohibitions. The U.S. Department of Labor, which

administers ERISA, has been increasingly active in proposing and adopting regulations affecting the asset management industry. Failure to comply with these requirements could have a material adverse effect on our business. The Company's trading activities for client accounts are regulated under the Securities Exchange Act of 1934 (the "Exchange Act"), as well as as various FINRA rules, including laws governing trading on inside information, market manipulation and a

Table of Contents

broad number of trading requirements (e.g., volume limitations, reporting obligations) and market regulation policies in the United States.

The preceding descriptions of the regulatory and statutory provisions applicable to us are not complete and are qualified in their entirety by reference to their respective statutory or regulatory provisions.

Contractual Relationships with the Diamond Hill Funds

The Company is very dependent on our contractual relationships with the Funds. In the event our advisory or administration agreements with the Funds are terminated, not renewed, or amended to reduce fees, we would be materially and adversely affected. We generated approximately 73%, 71% and 65% of our 2014, 2013 and 2012 revenues, respectively, from our advisory and administrative contracts with the Funds. We consider our relationship with the Funds and their board of trustees to be good, and have no reason to believe that these advisory or administration contracts will not be renewed in the future; however, there is no assurance that the Funds will choose to continue their relationships with the Company. Please see Item 1A for risk factors regarding this relationship.

Employees

As of December 31, 2014, the Company and its subsidiaries employed 107 full-time equivalent employees. As of December 31, 2013, the comparable number was 98. We believe that our relationship with our employees is good and do not anticipate any material change in the number of employees.

SEC Filings

The Company maintains an Internet website at www.diamond-hill.com. Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, XBRL instance documents, Current Reports on Form 8-K and amendments to those reports, filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act, are made available free of charge, on or through our website, as soon as reasonably practicable after such material is electronically filed with, or furnished to, the SEC. The contents of our website are not incorporated into, or otherwise made a part of, this Annual Report on Form 10-K. Our filings with the Commission may be read and copied at the Commission's Public Reference Room at 100F Street, NE, Washington, DC 20549. These filings are also available on the Commission's web-site at <http://www.sec.gov> free of charge as soon as reasonably practicable after we have filed the above referenced reports.

ITEM 1A. Risk Factors

The Company's future results of operations, financial condition, liquidity, and the market price of our common shares are subject to various risks, including those mentioned below and those that are discussed from time-to-time in our other periodic filings with the SEC. Investors should carefully consider these risks, along with the other information contained in this report, before making an investment decision regarding our common shares. There may be additional risks of which we are currently unaware, or which we currently consider immaterial. The occurrence of any of these risks could have a material adverse effect on our financial condition, results of operations, liquidity, and value of our common shares. Please see "Forward Looking Statements" within Item 1 of Part I of this Form 10-K.

Poor investment results of our products could affect our ability to attract new clients or reduce the amount of assets under management, potentially negatively impacting revenue and net income.

If we fail to deliver acceptable investment results for our clients, both in the short and long term, we will likely experience diminished investor interest and potentially a diminished level of AUM.

Adverse opinions of the funds we administer or advise published by third parties, including rating agencies and industry analysts, could decrease our AUM and our revenues.

Investment funds are assessed and rated by independent third parties, including rating agencies, industry analysts and publications. Investors can be influenced by such ratings. If any of the funds we administer or advise receives an adverse report, it could negatively influence the amount of money invested into the fund and increase withdrawals from the fund reducing our AUM and our revenue.

Table of Contents

The Company's success depends on our key personnel, and our financial performance could be negatively affected by the loss of their services.

Our success depends on highly skilled personnel, including portfolio managers, research analysts, and management, many of whom have specialized expertise and extensive experience in the investment management industry. Financial services professionals are in high demand, and we face significant competition for qualified employees. With the exception of our Chief Executive Officer, key employees do not have employment contracts and generally can terminate their employment at any time. The Company cannot assure that we will be able to retain or replace key personnel. In order to retain or replace our key personnel, we may be required to increase compensation, which would decrease net income. The loss of key personnel could damage our reputation and make it more difficult to retain and attract new employees and clients. A loss of client assets resulting from the departure of key personnel may materially decrease our revenues and net income.

The Company's AUM, which impacts revenue, is subject to significant fluctuations.

A large majority of our revenue is calculated as a percentage of AUM or is related to the general performance of the equity securities market. A decline in securities prices (such as that experienced during the last half of 2008 and first quarter of 2009) or in the sale of investment products, or an increase in fund redemptions, generally would reduce fee income. Financial market declines would generally negatively impact the level of our AUM and consequently our revenue and net income. A recession or other economic or political events, both in the United States as well as globally, could also adversely impact our revenue, if such events led to a decreased demand for products, a higher redemption rate, or a decline in securities prices.

The investment results and/or the growth in our AUM may be constrained if appropriate investment opportunities are not available or if we close certain of our portfolios.

The Company's ability to deliver strong investment results depends in large part on our ability to identify appropriate investment opportunities in which to invest client assets. If we are unable to identify sufficient investment opportunities for existing and new client assets on a timely basis, our investment results could be adversely affected. The risk that appropriate investment opportunities may be unavailable is influenced by a number of factors, including general market conditions, and is likely to increase if our AUM increases rapidly. In addition, if we determine that sufficient investment opportunities are not available for a portfolio strategy, or we believe that in order to continue to produce attractive returns from a portfolio, we will consider closing the portfolio to new investors. If we misjudge the point at which it would be optimal to close a portfolio, the investment results of the portfolio could be negatively impacted.

The Company is subject to substantial competition in all aspects of our business.

Our investment products compete against a number of investment products and services from:

- asset management firms;
- mutual fund companies;
- commercial banks and thrift institutions;
- insurance companies;
- exchange traded funds;
- hedge funds; and
- brokerage and investment banking firms.

Many of these financial institutions have substantially greater resources than the Company and may operate in more markets or offer a broader range of products, including passively managed or "index" products. Some of these institutions operate in a different regulatory environment, which may give them certain competitive advantages in the investment products and portfolio structures that they offer. We compete with other providers of investment services primarily based upon our philosophy, performance and client service. Some institutions have a broad array of products and distribution channels that make it more difficult for us to compete with them. If current or potential customers decide to use one of our competitors, we could face a significant decline in market share, AUM, revenues, and net income. If we are required to lower our fees in order to remain competitive, our net income could be significantly reduced because some of our expenses are fixed, especially over shorter periods of time, and other expenses may not decrease in proportion to the decrease in revenues.

Table of Contents

The loss of access to or increased fees required by third party distribution sources to market our portfolios and access our client base could adversely affect our results of operations.

The Company's ability to attract additional assets to manage is dependent on our access to third-party intermediaries. We gain access to mutual fund investors and some retail and institutional clients through third parties, including mutual fund platforms and financial intermediaries. We compensate intermediaries for access to investors and for various services provided. These distribution sources and client bases may not continue to be accessible to us for reasonable terms, or at all. Limiting or the total absence of such access could have an adverse effect on our results of operations. The recent economic downturn and consolidation in the broker-dealer industry may lead to reduced distribution access and increases in fees the Company is required to pay to intermediaries. If such increased fees should be required, refusal to pay them could restrict our access to those client bases while paying them could adversely affect our profitability.

A significant portion of the Company's revenues are based on contracts with the Funds that are subject to termination without cause and on short notice.

The Company is very dependent on our contractual relationships with the Funds. In the event our advisory or administration agreements with the Funds are terminated, not renewed, or amended to reduce fees, we would be materially and adversely affected. Generally, these agreements are terminable by either party upon 60 days written notice without penalty. The agreements are subject to annual approval by either (i) the board of trustees of the Funds or (ii) a vote of the majority of the outstanding voting securities of each Fund. The agreements automatically terminate in the event of their assignment by either the Company or the Fund. We generated approximately 73%, 71%, and 65% of our 2014, 2013 and 2012 revenues, respectively, from our advisory and administrative contracts with the Funds, including 30%, 15%, and 10% from the advisory contracts with the Diamond Hill Long-Short Fund, Large Cap Fund, and Small Cap Fund, respectively, during 2014. The loss of the Long-Short Fund, Large Cap Fund, or Small Cap Fund contracts would have a material adverse effect on the Company. We consider our relationship with the Funds and their board of trustees to be good, and we have no reason to believe that these advisory or administration contracts will not be renewed in the future; however, there is no assurance that the Funds will choose to continue their relationships with us.

Operational risks may disrupt our business, result in losses or limit our growth.

The Company is dependent on the capacity and reliability of the communications, information and technology systems supporting our operations, whether developed, owned and operated by the Company or by third parties. Operational risks such as trading or operational errors, interruption of our financial, accounting, trading, compliance and other data processing systems, the loss of data contained in the systems, or compromised systems due to cyber-attack, could result in a disruption of our business, liability to clients, regulatory intervention or reputational damage, and thus adversely affect our business.

The Company's business is subject to substantial governmental regulation.

Our business is subject to a variety of federal securities laws, including the Investment Advisers Act of 1940, the Investment Company Act of 1940, the Securities Exchange Act of 1934, the Sarbanes-Oxley Act of 2002, and the U.S. PATRIOT Act of 2001. In addition, we are subject to significant regulation and oversight by the SEC and FINRA. Changes in legal, regulatory, accounting, tax and compliance requirements could have a significant effect on our operations and results, including but not limited to increased expenses and reduced investor interest in certain funds and other investment products we offer. We continually monitors legislative, tax, regulatory, accounting, and compliance developments that could impact our business. We and our directors, officers and employees could be subject to lawsuits or regulatory proceedings for violations of such laws and regulations, which could result in the payment of fines or penalties and cause reputational harm to the Company. Such harm could negatively affect our financial condition and results of operations, as well as divert management's attention from operations.

We continue to seek to understand, evaluate and, when possible, manage and control these and other business risks.

Trading in our common shares is limited, which may adversely affect the time and the price at which you can sell your shares of the Company.

Although our common shares are listed on the NASDAQ Global Select Market, the shares are held by a relatively small number of shareholders, and trading in our common shares is not active. The spread between the bid and the

asked prices is often wide. As a result, you may not be able to sell your shares on short notice, and the sale of a large number of shares at one time could temporarily depress the market price. In addition, certain shareholders, including certain directors and officers of the Company, own a significant number of shares. The sale of a large number of shares by any such individual could temporarily depress the market price.

Table of Contents

ITEM 1B. Unresolved Staff Comments

None.

ITEM 2. Properties

The Company leases office space at two locations in Columbus, Ohio and one location in Berwyn, Pennsylvania. The Company does not own any real estate or interests in real estate.

ITEM 3. Legal Proceedings

From time to time, the Company is party to ordinary routine litigation that is incidental to its business. There are currently no material legal proceedings.

ITEM 4. Mine Safety Disclosures

Not applicable.

PART II

ITEM 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

The following performance graph compares the total shareholder return of an investment in our common shares to that of the Russell Microcap® Index, and to a peer group index of publicly traded asset management firms for the five-year period ending on December 31, 2014. The graph assumes that the value of the investment in our common shares and each index was \$100 on December 31, 2009. Total return includes reinvestment of all dividends. The Russell Microcap® Index makes up less than 3% of the U.S. equity market and is a market-value-weighted index of the smallest 1,000 securities in the small-cap Russell 2000® Index plus the next 1,000 smallest securities. Peer Group returns are weighted by the market capitalization of each firm at the beginning of the measurement period. The historical information set forth below is not necessarily indicative of future performance. We do not make or endorse any predictions as to future stock performance.

	12/31/2009	12/31/2010	12/31/2011	12/31/2012	12/31/2013	12/31/2014	Cumulative 5 Year Total Return	
Diamond Hill Investment Group, Inc.	\$100	\$133	\$145	\$149	\$266	\$319	219	%
Russell Microcap® Index	\$100	\$129	\$117	\$140	\$204	\$211	111	%
Peer Group*	\$100	\$102	\$75	\$98	\$151	\$150	50	%

* The Peer Group is based upon all asset managers with market cap of less than \$5 billion excluding firms whose primary business is hedge fund or private equity, and firms with multiple lines of business. The following companies are included in the Peer Group: Alliance Bernstein Holding L.P.; Calamos Asset Management, Inc.; Cohen & Steers, Inc.; Eaton Vance Corp.; Federated Investors, Inc.; GAMCO Investors, Inc.; Hennessy Advisors, Inc.; Janus Capital Group, Inc.; Pzena Investment Management, Inc.; Teton Advisors, Inc.; U.S. Global Investors, Inc.; Virtus Investment Partners, Inc.; Waddell & Reed Financial, Inc.; Wisdomtree Investments, Inc.; and Westwood Holdings Group, Inc.

Table of Contents

The Company's common shares trade on the NASDAQ Global Select Market under the symbol DHIL. The following table sets forth the high and low sales prices during each quarter of 2014 and 2013:

	2014 High Price	Low Price	Dividend Per Share	2013 High Price	Low Price	Dividend Per Share
Quarter ended:						
March 31	\$130.57	\$112.83	\$—	\$79.30	\$67.34	\$—
June 30	\$133.50	\$115.86	\$—	\$85.59	\$72.50	\$—
September 30	\$133.62	\$122.89	\$—	\$113.16	\$86.21	\$—
December 31	\$143.06	\$114.57	\$4.00	\$124.25	\$104.86	\$3.00

Due to the relatively low volume of traded shares, bid/ask spreads can be fairly wide at times and therefore, quoted prices may not be indicative of the price a shareholder may receive in an actual transaction. During the years ended December 31, 2014 and 2013, approximately 1,553,212 and 2,663,334, respectively, of our common shares were traded. The dividends indicated above were special dividends. We have not paid regular quarterly dividends in the past, and have no present intention of paying regular dividends in the future. The approximate number of record holders of our common shares at December 31, 2014 was 264, although we believe that the number of beneficial owners of our common shares is substantially greater.

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

The Company did not purchase any of our common shares during the year ended December 31, 2014. The following table sets forth information regarding our repurchase program of our common shares during the fourth quarter of fiscal year 2014:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet Be Purchased Under the Plans or Programs(a)
October 1, 2014 through October 31, 2014	—	—	—	318,433
November 1, 2014 through November 30, 2014	—	—	—	318,433
December 1, 2014 through December 31, 2014	—	—	—	318,433

(a) The Company's current share repurchase program was announced on August 9, 2007. The board of directors authorized management to repurchase up to 350,000 of our common shares in the open market and in private transactions in accordance with applicable securities laws. Our repurchase program is not subject to an expiration date.

We sold no equity securities of the Company during 2014 that were not registered under the Securities Act of 1933.

ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

In this section, we discuss and analyze the consolidated results of operations for the past three fiscal years and other factors that may affect future financial performance. This discussion should be read in conjunction with our Consolidated Financial Statements, Notes to Consolidated Financial Statements, and Selected Financial Data contained in this Form 10-K.

Business Environment

Driven by an expanding economy, growing corporate profits, and persistently low interest rates, the broad U.S. equity market posted its sixth consecutive annual gain in 2014. The S&P 500 Index finished the year with a 13.7% total return (including dividends), and the Federal Reserve signaled its belief in the economy's ability to grow without assistance by concluding its bond purchasing program known as Quantitative Easing, or QE, in October 2014. Although investors expect the Fed to raise interest rates sometime in 2015, its overall monetary policy remains accommodative, encouraging equity investors.

In the U.S., unemployment fell as a result of the best hiring stretch since the late 1990s. The U.S. consumer benefited from a steep decline in gasoline prices to the lowest levels in five years, adding more buying power beyond modest wage gains. The sharp decline in the price of oil over the past few months is likely to improve household budgets. Globally, central banks remained extraordinarily accommodative in an attempt to provide a backdrop for increased

economic growth. Europe, which has been a clear economic laggard over the past few years, was still only showing modest signs of improvement. Meanwhile, China and India continued to grow at healthy mid-single digit rates, but many other emerging economies around the world are

Table of Contents

seeing decelerating growth rates. The U.S. dollar ended the year strong relative to other currencies as investors were confident that stronger economic growth in the U.S. will lead the Fed to raise rates in 2015 for the first time since before the financial crisis.

Despite the end of the Federal Reserve's Quantitative Easing, we continue to believe the Fed is likely to maintain a very accommodative overall monetary stance well into next year as the domestic economy is lacking signs of robust growth, while inflation expectations have again turned lower. The recent strength of the U.S. dollar is now playing a key role in these developments as its relative appreciation has created a new headwind for growth while also pushing down commodity prices. The modest deleveraging of the U.S. household sector over the past few years continues to be a positive story. These lower debt levels combined with very low interest rates have allowed consumer debt-service burdens to improve to very low levels by historical standards. This healthy debt service picture remains very much tied to historically low interest/mortgage rates, and any sharp, meaningful increase in those rates is likely to present an important headwind for growth.

Although the U.S. economy appears to be healing at a steady pace and set to maintain its 2% - 3% growth heading into 2015, we continue to expect positive but below average equity market returns over the next five years. Our conclusion is primarily based on above average price/earnings multiples applied to already very strong levels of corporate profit margins, which in combination, likely tempers prospective returns. This outlook also seems consistent with the current interest rate environment. We believe that we can achieve better than market returns over the next five years through active portfolio management and stock selection independent of benchmark weights.

A large majority of our revenue is calculated as a percentage of AUM and is therefore impacted by the overall business and economic environment described above. Financial market declines or deterioration in the economic environment would generally negatively impact the level of our AUM, and consequently our revenue and net income.

Key Financial Performance Indicators

There are a variety of key performance indicators the Company monitors in order to evaluate our business results. The following table presents the results of certain key performance indicators over the past three fiscal years:

	For the Years Ended December 31,					
	2014		2013		2012	
Ending AUM (in millions)	\$15,656		\$12,186		\$9,429	
Average AUM (in millions)	13,847		10,817		9,249	
Total Revenue (in thousands)	104,559		81,432		66,657	
Total Expenses (in thousands)	57,099		50,750		42,229	
Average Advisory Fee Rate	0.65	%	0.65	%	0.62	%
Operating Profit Margin	45.4	%	37.7	%	36.6	%
Assets Under Management						

Our revenue is derived primarily from investment advisory and administration fees. Investment advisory and administration fees paid to the Company are generally based on the value of the investment portfolios we manage and fluctuate with changes in the total value of the AUM. Substantially all of our AUM (98.4%) is valued based on readily available market quotations. AUM in our fixed income strategies (1.6%) is valued using evaluated prices from an independent third-party provider. Fees are recognized in the period that the Company manages these assets.

Revenues are highly dependent on both the value and composition of AUM. The following is a summary of our AUM by product, investment objective, and a roll-forward of the change in AUM for the years ended December 31, 2014, 2013, and 2012:

Table of Contents

(in millions)	Assets Under Management by Product As of December 31,

Table of Contents

Year Ended December 31, 2014 compared with Year Ended December 31, 2013

The Company earned net income of \$31.6 million (\$9.67 per diluted share) for the year ended December 31, 2014, compared with net income of \$22.2 million (\$6.94 per diluted share) for the year ended December 31, 2013. Operating income increased by \$16.8 million from 2013 to 2014 primarily due to an increase in AUM, resulting in a \$23.1 million increase in revenue. The revenue increase was offset by an increase in operating expenses of \$6.3 million, primarily related to higher compensation due to staffing and merit increases and increases in incentive compensation. A positive return on our corporate investments further contributed to the overall increase in net income. Investment income of \$2.9 million in 2014 was due to net portfolio appreciation. The income tax provision increased \$5.3 million from the year ended December 31, 2013 to December 31, 2014 primarily due to an overall increase in book income. Operating profit margin increased to 45.4% for 2014 from 37.7% for 2013. We expect that our operating margin will fluctuate, sometimes substantially, from year to year based on various factors including revenues; investment results; employee performance; staffing levels; development of investment strategies, products, or channels; and industry comparisons.

Year Ended December 31, 2013 compared with Year Ended December 31, 2012

The Company earned net income of \$22.2 million (\$6.94 per diluted share) for the year ended December 31, 2013, compared with net income of \$16.9 million (\$5.44 per diluted share) for the year ended December 31, 2012. Operating income increased by \$6.3 million from 2012 to 2013 primarily due to an increase in AUM, resulting in a \$14.8 million increase in revenue. The revenue increase was offset by an increase in operating expenses of \$8.5 million, primarily related to higher compensation due to staffing and merit increases and increases in incentive compensation and restricted stock expenses. A positive return on our corporate investments further contributed to the overall increase in net income offset by a change in the effective tax rate from 35.1% in 2012 to 37.8% in 2013. Investment income increased \$3.3 million from the year ended December 31, 2012 to December 31, 2013 due to net portfolio appreciation. Income tax provision increased \$4.3 million from the year ended December 31, 2012 to December 31, 2013 primarily due to an overall increase in book income and an increase in the effective tax rate as a result of interest expense and additional state and city income tax resulting from the 2013 settled IRS exam. Operating profit margin increased to 37.7% for 2013 from 36.6% for 2012. We expect that our operating margin will fluctuate from year to year based on various factors including revenues; investment results; employee performance; staffing levels; development of investment strategies, products, or channels; and industry comparisons.

Revenue

(in thousands)	2014	2013	% Change	2013	2012	% Change	
Investment advisory	\$89,901	\$69,967	28	% \$69,967	\$57,783	21	%
Mutual fund administration, net	14,658	11,465	28	% 11,465	8,874	29	%
Total	104,559	81,432	28	% 81,432	66,657	22	%

Revenue for the Year Ended December 31, 2014 compared with Year Ended December 31, 2013

As a percent of total 2014 revenues, investment advisory fees accounted for 86% and mutual fund administration fees made up the remaining 14%. This compared to 87% and 13%, respectively, for 2013.

Investment Advisory Fees. Investment advisory fees increased by \$19.9 million, or 28%, from the year ended December 31, 2013 to the year ended December 31, 2014. Investment advisory fees are calculated as a percentage of average AUM at various rates depending on the investment product. The increase in investment advisory fees was driven by an increase of 28% in average AUM year over year. The average advisory fee rate for both periods was 0.65%.

Mutual Fund Administration Fees. Mutual fund administration fees increased by \$3.2 million, or 28%, from the year ended December 31, 2013 to the year ended December 31, 2014. Mutual fund administration fees include administration fees received from Diamond Hill Funds, which are calculated as a percentage of average mutual fund AUM, and all Beacon Hill fee revenue. The increase in the mutual fund administration fee is due to a 36% increase in average Diamond Hill Fund AUM which increased from \$6.3 billion for the year ended December 31, 2013 to \$8.6 billion for the year ended December 31, 2014. The increase was also partially due to an increase in Beacon Hill's administered umbrella trust AUM period over period. The overall blended net administration fee rate for the Diamond

Hill Funds decreased by 1 basis point to 0.14% at the end of 2014.

Revenue for the Year Ended December 31, 2013 compared with Year Ended December 31, 2012

As a percent of total 2013 revenues, investment advisory fees accounted for 86% and mutual fund administration fees made up the remaining 14%. This compared to 87% and 13%, respectively, for 2012.

Table of Contents

Investment Advisory Fees. Investment advisory fees increased by \$12.2 million, or 21%, from the year ended December 31, 2012 to the year ended December 31, 2013. Investment advisory fees are calculated as a percentage of average AUM at various rates depending on the investment product. The increase in investment advisory fees was driven by an increase of 17% in average AUM year over year and an increase of three basis points in the average advisory fee rate to 0.65% in 2013 from 0.62% for the year ended December 31, 2012. The increase in the average advisory fee rate is primarily due to a shift in the overall composition of AUM to higher fee rate strategies.

Mutual Fund Administration Fees. Mutual fund administration fees increased by \$2.6 million, or 29%, from the year ended December 31, 2012 to the year ended December 31, 2013. Mutual fund administration fees include administration fees received from Diamond Hill Funds, which are calculated as a percentage of average mutual fund AUM, and all Beacon Hill fee revenue. The increase in the mutual fund administration fee is due to a 36% increase in average mutual fund AUM from \$4.8 billion for the year ended December 31, 2012 to \$6.3 billion for the year ended December 31, 2013 while the overall blended net administration fee rate remained flat at 0.15% year over year.

Expenses

(in thousands)	2014	2013	% Change	2013	2012	% Change	
Compensation and related costs	\$43,892	\$40,852	7	% \$40,852	\$33,868	21	%
General and administrative	8,099	6,043	34	% 6,043	4,987	21	%
Sales and marketing	2,222	2,099	6	% 2,099	1,817	16	%
Mutual fund administration	2,885	1,756	64	% 1,756	1,557	13	%
Total	57,098	50,750	13	% 50,750	42,229	20	%

Expenses for the Year Ended December 31, 2014 compared with Year Ended December 31, 2013

Compensation and Related Costs. Employee compensation and benefits increased by \$3.0 million, or 7%, due to an increase of \$2.4 million in salaries and related benefits due to an increase in staffing and merit levels and an increase of \$0.6 million in incentive compensation during fiscal year 2014 due to growth in the business. Incentive compensation expense can fluctuate significantly period over period as we evaluate incentive compensation by reviewing investment performance, individual performance, company performance and other factors.

General and Administrative. General and administrative expenses increased by \$2.1 million, or 34%, from the year ended December 31, 2013 to the year ended December 31, 2014. This increase was primarily due to an additional \$1.1 million of charitable contributions in 2014. The remaining increase was due to additional research expenses to support our investment team, additional rent related to the expansion of our office space and non-income related taxes.

Sales and Marketing. Sales and marketing expenses increased by \$0.1 million, or 6%, from the year ended December 31, 2013 to the year ended December 31, 2014. This increase was due to an overall increase in travel and other expenses related to business development efforts. We expect revenue sharing to financial intermediaries who support the distribution of the Funds to increase between \$0.5 million and \$1.0 million in 2015.

Mutual Fund Administration. Mutual fund administration expenses increased by \$1.1 million, or 64%, from the year ended December 31, 2013 to the year ended December 31, 2014. Mutual fund administration expenses consist of both variable and fixed expenses. The variable expenses are based on mutual fund AUM and the number of shareholder accounts. The increase is primarily due to a restructuring of certain servicing contracts for the Funds to shift the expense obligation from the Funds to the Company. This effectively lowered the expense ratio of the Funds by approximately one basis point and increased the mutual fund administration expense of the Company by an equivalent dollar amount. An increase in the average Funds AUM of 36% from the year ended December 31, 2013 to December 31, 2014 also contributed to the increase.

Expenses for the Year Ended December 31, 2013 compared with Year Ended December 31, 2012

Compensation and Related Costs. Employee compensation and benefits increased by \$7.0 million, or 21%, due to an increase of \$1.7 million in salaries and related benefits due to an increase in staffing and merit levels, an increase of \$1.5 million in restricted stock expense primarily due to accelerated vesting of a restricted stock grant during fiscal year 2013, and an increase of \$3.8 million in incentive compensation during fiscal year 2013 due to growth in the business.

General and Administrative. General and administrative expenses increased by \$1.1 million, or 21%, from the year ended December 31, 2012 to the year ended December 31, 2013. This increase was primarily due to additional research expenses to

Table of Contents

support our investment team, an increase in system infrastructure and information technology expenses, additional rent related to the expansion of our office space during fourth quarter 2013, and an increase in corporate legal expenses and non-income related taxes.

Sales and Marketing. Sales and marketing expenses increased by \$282 thousand, or 16%, from the year ended December 31, 2012 to the year ended December 31, 2013. This increase was due to an overall increase in travel and other expenses related to business development and retention efforts and expenses related to a review and update of marketing materials.

Mutual Fund Administration. Mutual fund administration expenses increased by \$199 thousand, or 13%, from the year ended December 31, 2012 to the year ended December 31, 2013. Mutual fund administration expenses consist of both variable and fixed expenses. The variable expenses are based on mutual fund AUM and the number of shareholder accounts. The increase is due to an increase in average Funds AUM of 33% from the year ended December 31, 2012 to December 31, 2013, offset by a reduction in shareholder maintenance expenses during the current fiscal year and a reduction in expenses incurred by Beacon Hill related to servicing clients.

Liquidity and Capital Resources

Sources of Liquidity

The Company's main source of liquidity is cash flow from operating activities which are generated from investment advisory and fund administration fees. Our investment portfolio is primarily in readily marketable securities, which provide for cash liquidity, if needed. Investments in mutual funds are valued at their quoted current net asset value. Investments in private investment funds are valued independently. Equity securities in private investment funds are based on readily available market quotations. Debt securities in private investment funds are valued using pricing techniques which take into account factors such as trading activity, readily available market quotations, yield, quality, coupon rate, maturity, type of issue, trading characteristics, call features, credit rates and other observable inputs. Inflation is expected to have no material impact on our performance. Cash and cash equivalents, accounts receivables, and investments represent approximately 91% and 86% of total assets as of December 31, 2014 and 2013 respectively. We believe these sources of liquidity, as well as our continuing cash flows from operating activities, will be sufficient to meet our current and future operating needs for at least the next 12 months.

Uses of Liquidity

In line with the Company's primary objective to fulfill our fiduciary duty to clients and secondary objective to achieve an adequate long-term return for shareholders, we anticipate our main uses of cash will be operating expenses.

The Board of Directors and management regularly review various factors to determine whether we have capital in excess of that required for the business and the appropriate use of any excess capital. The factors considered include our investment opportunities, capital needed for investment strategies, risks, and future dividend and capital gain tax rates. Evaluating management's stewardship of capital for shareholders is a central part of our investment discipline that we practice for our clients. We hold ourselves to the same standard that we look for when evaluating investments for our clients.

While this is the seventh consecutive year that the Company has paid a special dividend, there can be no assurance that we will pay a dividend in the future. We have paid out special dividends totaling \$53.00 per share from 2008 through 2014. These special dividends reduced shareholders' equity by \$150.1 million over the past seven years. The 2014, 2013 and 2012 special dividend reduced shareholders' equity by \$13.2 million, \$9.8 million and \$16.9 million, respectively. The 2014 and 2013 special dividend was a qualified dividend for tax purposes and was recorded as a reduction to retained earnings. A portion of the dividend paid in 2012 was a return of capital for tax purposes and we elected to record the dividend as a reduction to retained earnings.

Working Capital

As of December 31, 2014, the Company had working capital of approximately \$66.2 million compared to \$35.9 million at December 31, 2013. Working capital includes cash, securities owned, current receivables and other current assets, net of current liabilities. On October 29, 2014, our board of directors declared a \$4.00 per share dividend payable on December 15, 2014 to shareholders of record on December 5, 2014. The payment of the special cash dividend reduced our working capital balance. The Company has no debt, and believes our available working capital

is sufficient to cover current expenses. We expect to have sufficient working capital to cover anticipated capital expenditures that could range from \$0.5 million to \$1.0 million in 2015 related to office expansion to support our growth and \$20.0 million to \$25.0 million for seed capital in new investment strategies.

Table of Contents

Cash Flow Analysis

Cash Flows from Operating Activities

The Company's cash flows from operating activities are calculated by adjusting net income to reflect other significant operating sources and uses of cash, certain significant non-cash items such as share-based compensation, and timing differences in the cash settlement of operating assets and liabilities.

As of December 31, 2014, 2013, and 2012, net cash provided by operating activities totaled \$42.6 million, \$34.6 million, and \$24.5 million, respectively. The changes in net cash provided by operating activities generally reflects net income plus the effect of non-cash items and the timing differences in the cash settlement of assets and liabilities.

Cash Flows from Investing Activities

The Company's cash flows from investing activities consist primarily of capital expenditures and the purchase and redemption of our investment portfolio.

Cash flows used in investing activities totaled \$26.7 million for the year ended December 31, 2014 related to investments in corporate investments and capital expenditures, partially offset by redemptions of corporate investments in the period. Cash flows provided by investing activities totaled \$1.5 million for the year ended December 31, 2013 related to the net redemptions in corporate investments offset by capital expenditures during the period. Cash flows used in investing activities totaled \$7.4 million for the year ended December 31, 2012 related to net purchases in corporate investments and capital expenditures during the period.

Cash Flows from Financing Activities

The Company's cash flows from financing activities consist primarily of the payment of special dividends, the repurchase of common shares, and shares withheld related to employee tax withholding.

As of December 31, 2014, 2013, and 2012, net cash used by financing activities totaled \$13.3 million, \$10.9 million, and \$24.5 million, respectively. The primary cash flows used in financing activities for the periods were special dividends of \$13.2 million, \$9.8 million, and \$25.2 million, respectively.

Selected Quarterly Information

Our unaudited quarterly results of operations for the years ended December 31, 2014 and 2013 are summarized below:

	At or For the Quarter Ended							
	2014				2013			
(in thousands, except per share data)	12/31	09/30	06/30	03/31	12/31	09/30	06/30	03/31
Assets under management (in millions)	\$ 15,656	\$ 14,474	\$ 14,204	\$ 12,986	\$ 12,186	\$ 11,040	\$ 10,427	\$ 10,574
Total revenue	28,471	27,459	25,440	23,189	22,324	20,819	19,914	18,375
Total operating expenses	10,240	16,475	15,766	14,617	12,890	13,350	12,762	11,748
Operating income	18,231	10,984	9,674	8,572	9,434	7,469	7,152	6,627
Investment income (loss)	2,073	(1,006)	1,322	517	1,482	914	729	1,825
Net income	\$ 12,553	\$ 6,351	\$ 6,928	\$ 5,750	\$ 6,750	\$ 5,362	\$ 4,712	\$ 5,331
Diluted EPS	\$ 3.81	\$ 1.94	\$ 2.12	\$ 1.78	\$ 2.10	\$ 1.67	\$ 1.45	\$ 1.67
Diluted weighted shares outstanding	3,292	3,281	3,268	3,231	3,222	3,212	3,248	3,197

Contractual Obligations

The following table presents a summary of the Company's future obligations under the terms of operating leases and lease commitments, other contractual purchase obligations, and deferred compensation obligations at December 31, 2014. Other purchase obligations include contractual amounts that will be due for the purchase of services to be used in our operations, such as mutual fund sub-administration and portfolio accounting software. These obligations may

be cancelable at earlier times than those indicated and, under certain conditions, may involve termination fees. The deferred compensation obligations includes compensation that will be paid out upon satisfactory completion of certain performance-based and time-based criteria (see Note 2: Deferred Compensation Liability). Because these obligations are of a normal recurring nature, we expect to fund them from

Table of Contents

future cash flows from operations. The information presented does not include operating expenses or capital expenditures that will be committed in the normal course of operations in 2015 and future years:

(in thousands)	Total	Payments Due by Period			
		2015	2016-2017	2018-2019	Later
Operating lease obligations	\$6,282	\$697	\$1,392	\$1,228	\$2,965
Purchase obligations	5,402	3,696	1,706	—	—
Deferred compensation obligations	5,679	1,798	—	1,436	2,445
Total	\$17,363	\$6,191	\$3,098	\$2,664	\$5,410

The total operating lease obligations and purchase obligations include \$0.3 million and \$0.1 million, respectively, of obligations resulting from a contractual expense reimbursement agreement ("Expense Agreement") with a third party. Under the Expense Agreement, these amounts are expected to be reimbursed to the Company by the third party. The obligation of the third party to reimburse us for these expenses survives the termination of the Expense Agreement. See Note 2: Contractual Expense Reimbursements.

Use of Supplemental Data as Non-GAAP Performance Measure

Net Operating Income After Tax

As supplemental information, we are providing performance measures that are based on methodologies other than generally accepted accounting principles ("non-GAAP") for "Net Operating Income After Tax" that management uses as benchmarks in evaluating and comparing the period-to-period operating performance of the Company and subsidiaries.

The Company defines "net operating income after tax" as the Company's net operating income less income tax provision, excluding investment related activity and the tax impact related to the investment related activity. The Company believes that "net operating income after tax" provides a good representation of the Company's operating performance, as it excludes the impact of investment related activity on financial results. The amount of the investment portfolio and market fluctuations on the investments can change significantly from one period to another, which can distort the underlying earnings potential of a company. We also believe "net operating income after tax" is an important metric in estimating the value of an asset management business. This non-GAAP measure is provided in addition to net income and net operating income and is not a substitute for net income or net operating income and may not be comparable to non-GAAP performance measures of other companies.

(in thousands, except per share data)	Year Ended December 31,		
	2014	2013	2012
Net operating income, GAAP basis	\$47,460	\$30,682	\$24,428
Non-GAAP adjustments:			
Tax provision excluding impact of investment income	(17,701)	(11,605)	(8,571)
Net operating income after tax, non-GAAP basis	\$29,759	\$19,077	\$15,857
Net operating income after tax per diluted share, non-GAAP basis	\$9.11	\$5.97	\$5.10
Diluted weighted average shares outstanding, GAAP basis	3,266	3,194	3,111

The tax provision excluding impact of investment related activity is calculated by applying the tax rate from the actual tax provision to net operating income.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements. We do not have any obligation under a guarantee contract, or a retained or contingent interest in assets or similar arrangement that serves as credit, liquidity or market risk support for such assets, or any other obligation, including a contingent obligation, under a contract that would be accounted for as a derivative instrument or arising out of a variable interest.

Table of Contents

Critical Accounting Policies and Estimates

Provisions for Income Taxes. The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in an entity's financial statements or tax returns. Judgment is required in assessing the future tax consequences of events that have been recognized in our financial statements or tax returns.

Revenue Recognition on Incentive-Based Advisory Contracts. We have certain investment advisory contracts in which a portion of the fees are based on investment performance achieved in the respective client portfolio in excess of a specified hurdle rate. These fees are calculated based on client investment results over rolling five year periods. The Company records variable incentive fees at the end of the contract measurement period.

Revenue Recognition when Acting as an Agent vs. Principal. The Funds have selected and contractually engaged certain vendors to fulfill various services to benefit the Funds' shareholders or to satisfy regulatory requirements of the Funds. These services include, among others, required fund shareholder mailings, registration services, and legal and audit services. DHCM, in fulfilling a portion of its role under the administration agreement with the Funds, acts as agent to pay these obligations of the Funds. Each vendor is independently responsible for fulfillment of the services it has been engaged to provide and negotiates fees and terms with the management and board of trustees of the Funds. The fee that the Funds pay to DHCM is reviewed annually by the Funds' board of trustees and specifically takes into account the contractual expenses that DHCM pays on behalf of the Funds. As a result, DHCM is not involved in the delivery or pricing of these services and bears no risk related to these services. Revenue has been recorded net of these Fund expenses, as it is the appropriate accounting treatment for this agency relationship.

Beacon Hill has underwriting agreements with certain clients, including registered mutual funds. Part of Beacon Hill's role as underwriter is to act as an agent on behalf of its mutual fund clients to receive 12b-1/service fees and commission revenue and facilitate the payment of those fees and commissions to third parties who provide services to the funds and their shareholders. The amount of 12b-1/service fees and commissions are determined by each mutual fund client and Beacon Hill bears no financial risk related to these services. As a result, 12b-1/service fees and commission revenue has been recorded net of the expense payments to third parties, as it is the appropriate accounting treatment for this agency relationship.

ITEM 7A. Quantitative and Qualitative Disclosures About Market Risk

The Company's revenues and net income are based primarily on the value of AUM. Accordingly, declines in financial market values directly and negatively impact our investment advisory revenues and net income.

We invest in Diamond Hill Funds and our private investment funds, which are market risk sensitive financial instruments. These investments have inherent market risk in the form of price risk; that is, the potential future loss of value that would result from a decline in their fair value. Market prices fluctuate and the amount realized upon subsequent sale may differ significantly from the reported market value.

The table below summarizes our market risks as of December 31, 2014, and shows the effects of a hypothetical 10% increase and decrease in investments.

	Fair Value as of December 31, 2014	Fair Value Assuming a Hypothetical 10% Increase	Fair Value Assuming a Hypothetical 10% Decrease
Equity investments	\$ 35,103,421	\$38,613,763	\$31,593,079
Fixed Income investments	10,324,035	11,356,439	9,291,632
Total	\$ 45,427,456	\$49,970,202	\$40,884,711

Table of Contents

ITEM 8. Financial Statements and Supplementary Data
Report of Independent Registered Public Accounting Firm
The Board of Directors and Shareholders
Diamond Hill Investment Group, Inc.:

We have audited the accompanying consolidated balance sheets of Diamond Hill Investment Group, Inc. and subsidiaries (the Company) as of December 31, 2014 and 2013, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2014. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Diamond Hill Investment Group, Inc. and subsidiaries as of December 31, 2014 and 2013, and the results of their operations and their cash flows for each of the years in the three year period ended December 31, 2014, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2014, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 27, 2015 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Table of Contents

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders

Diamond Hill Investment Group, Inc.:

We have audited Diamond Hill Investment Group Inc.'s (the Company) internal control over financial reporting as of December 31, 2014, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting appearing under Item 9A of the Company's December 31, 2014 annual report on Form 10-K. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Diamond Hill Investment Group, Inc. and subsidiaries as of December 31, 2014 and 2013, and the related consolidated statements of operations, shareholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2014, and our report dated February 27, 2015 expressed an unqualified opinion on those consolidated financial statements.

Table of Contents

Diamond Hill Investment Group, Inc.
Notes to Consolidated Financial Statements

Note 1 Business and Organization

Diamond Hill Investment Group, Inc. (the “Company”), an Ohio Corporation, derives its consolidated revenues and net income from investment advisory and fund administration services. The Company has three operating subsidiaries. Diamond Hill Capital Management, Inc. (“DHCM”), an Ohio corporation, is a wholly owned subsidiary of the Company and a registered investment adviser. DHCM is the investment adviser to the Diamond Hill Funds (the “Funds”), a series of open-end mutual funds, private investment funds (“Private Funds”), and other institutional accounts. In addition, DHCM is administrator for the Funds.

Beacon Hill Fund Services, Inc. (“BHFS”), an Ohio corporation, is a wholly owned subsidiary of the Company. BHFS provides certain compliance, treasury, and other fund administration services to investment advisers and mutual funds. BHIL Distributors, Inc. (“BHIL”), an Ohio corporation, is a wholly owned subsidiary of BHFS. BHIL provides underwriting services to mutual funds. BHFS and BHIL collectively operate as “Beacon Hill”.

Note 2 Significant Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses for the periods. Actual results could differ from those estimates. Certain prior period amounts and disclosures have been reclassified to conform to the current period financial presentation. Book value per share is computed by dividing total shareholders’ equity by the number of shares issued and outstanding at the end of the measurement period. The following is a summary of the Company’s significant accounting policies:

Principles of Consolidation

The accompanying consolidated financial statements include the operations of the Company and its subsidiaries. All inter-company transactions and balances have been eliminated in consolidation.

Segment Information

Management has determined that the Company operates in one business segment, namely providing investment management and administration services to mutual funds, institutional accounts, and private investment funds. Therefore, no disclosures relating to operating segments are required in the annual financial statements.

Cash and Cash Equivalents

Cash and cash equivalents include demand deposits and money market mutual funds.

Accounts Receivable

Accounts receivable are recorded when they are due and are presented on the balance sheet net of any allowance for doubtful accounts. Accounts receivable are written off when they are determined to be uncollectible. Any allowance for doubtful accounts is estimated based on the Company’s historical losses, existing conditions in the industry, and the financial stability of those individuals or entities that owe the receivable. No allowance for doubtful accounts was deemed necessary at December 31, 2014 or 2013.

Valuation of Investment Portfolio

Investments held by the Company are classified as trading securities and are valued based upon the definition of Level 1 inputs and Level 2 inputs. Level 1 inputs are defined as fair values which use quoted prices in active markets for identical assets or liabilities. Level 2 inputs are defined as quoted prices in markets that are not considered to be active for identical assets or liabilities, quoted prices in active markets for similar assets or liabilities, and inputs other than quoted prices that are directly observable or that may be corroborated indirectly with observable market data. The following table summarizes the values of the Company’s investments based upon Level 1 and Level 2 inputs as of December 31, 2014 and 2013:

Table of Contents

	As of December 31,	
	2014	2013
Level 1 Inputs	\$62,595,546	\$32,528,367
Level 2 Inputs	\$14,652,589	3,001,461

Level 1 investments are all registered investment companies (mutual funds) and include \$31.8 million and \$16.8 million, respectively, of money market mutual funds that the Company classifies as cash equivalents. Level 2 investments are all limited partnerships who are valued independently. Equity securities in limited partnerships are based on readily available market quotations. Debt securities in limited partnerships are valued using pricing techniques which take into account factors such as trading activity, readily available market quotations, yield, quality, coupon rate, maturity, type of issue, trading characteristics, call features, credit rates and other observable inputs. The Company determines transfers between fair value hierarchy levels at the end of the reporting period. There were no transfers in or out of the levels.

The changes in fair values on the investments are recorded in the Consolidated Statements of Income as investment income.

Limited Partnership Interests

DHCM is the managing member of Diamond Hill General Partner, LLC (the “General Partner”), the general partner of Diamond Hill Investment Partners, L.P. (“DHIP”), Diamond Hill Global Fund, L.P. (“DHGF”), formerly Diamond Hill Research Partners – International, L.P., and Diamond Hill Valuation-Weighted 500, L.P. (“DHVW”) collectively (the “Partnerships”), each a limited partnership whose underlying assets consist of marketable securities.

DHCM, in its role as managing member of the General Partner, has the power to direct each Partnerships’ economic activities and the right to receive investment advisory and performance incentive fees that may be significant to the Partnerships. The Company evaluated these Partnerships to determine whether or not to consolidate the entities in accordance with Financial Accounting Standards Board Accounting Standards Codification (“FASB ASC”) 810, Consolidation. Certain of these Partnerships are considered to be variable interest entities (“VIEs”) while others are considered to be voting rights entities (“VREs”), both of which are subject to consolidation consideration. The Company would consolidate VIEs where the Company is considered the primary beneficiary or VREs where the General Partner is considered to control the Partnership. For the Partnerships that were considered VIEs, the Company was not deemed to be the primary beneficiary. For the Partnerships that were considered VREs, it was determined that the DHCM in its role of managing member of the General Partner did not control the Partnerships. Therefore, the investments are accounted for under the equity method rather than being consolidated in the accompanying financial statements.

DHCM’s investments in these Partnerships are reported as a component of the Company’s investment portfolio, valued at DHCM’s proportionate interest in the net asset value of the marketable securities held by the Partnerships. The Partnerships are not subject to lock up periods and can be redeemed on demand. Gains and losses attributable to changes in the value of DHCM’s interests in the Partnerships are included in the Company’s reported investment income. The Company’s exposure to loss as a result of its involvement with the Partnerships is limited to the amount of its investments. DHCM is not obligated to provide financial or other support to the Partnerships, other than its investments to date and its contractually provided investment advisory responsibilities, and has not provided such support. The Company has not provided liquidity arrangements, guarantees or other commitments to support the Partnerships’ operations, and the Partnerships’ creditors and interest holders have no recourse to the general credit of the Company.

Certain board members, officers and employees of the Company invest in DHIP and are not subject to a management fee or an incentive fee. These individuals receive no remuneration as a result of their personal investment in DHIP. The capital of the General Partner is not subject to a management fee or an incentive fee.

Property and Equipment

Property and equipment, consisting of leasehold improvements, computer equipment, furniture and fixtures, are carried at cost less accumulated depreciation. Depreciation is calculated using the straight-line method over the estimated life of the assets.

Deferred Compensation Liability

Deferred compensation liability represents compensation that will be paid out upon satisfactory completion of certain performance-based and time-based criteria specified in employee award agreements issued pursuant to the 2014 and 2011 Equity and Cash Incentive Plans. See Note 5.

Table of Contents

Revenue Recognition – General

The Company earns substantially all of its revenue from investment advisory and fund administration services. Investment advisory and administration fees, generally calculated as a percentage of AUM, are recorded as revenue as services are performed. In addition to fixed fees based on a percentage of AUM, certain client accounts also provide periodic variable incentive fees.

Revenue Recognition – Variable Incentive Fees

The Company manages certain client accounts that provide for variable incentive fees. These fees are calculated based on client investment results over rolling five year periods. The Company records variable incentive fees at the end of the contract measurement period. No variable incentive fees were earned during the twelve months ended December 31, 2014 and 2013. The table below shows AUM subject to variable incentive fees and the amount of variable incentive fees that would be recognized if the contracts were terminated as of the twelve months ended December 31, 2014 and 2013:

	As Of December 31,	
	2014	2013
AUM subject to variable incentive fees	\$562,613,027	\$470,726,000
	For the Year Ended	
	2014	2013
Contractual Period Ends:		
Quarter Ended June 30, 2017	\$2,427,031	\$3,900,649
Quarter Ended December 31, 2018	—	—
Quarter Ended September 30, 2019	31,049	—
Total variable incentive fees that would be recognized if contract terminated	\$2,458,080	\$3,900,649

The contractual end dates highlight the time remaining until the variable incentive fees are scheduled to be earned. The amount of variable incentive fees that would be recognized if the contracts were terminated as of December 31, 2014 or 2013 will increase or decrease based on future client investment results through the contractual period end, and there is no assurance that the above amounts will ultimately be earned.

Revenue Recognition – Mutual Fund Administration

DHCM has an administrative and transfer agency services agreement with the Funds, under which DHCM performs certain services for each Fund. These services include mutual fund administration, fund accounting, transfer agency and other related functions. For performing these services, each fund pays DHCM a fee, which is calculated using an annual rate of 0.25% for Class A, C, and I shares and 0.10% for Class Y shares, times the average daily net assets of each respective series and share class.

The Funds have selected and contractually engaged certain vendors to fulfill various services to benefit the Funds' shareholders or to satisfy regulatory requirements of the Funds. These services include, among others, required shareholder mailings, federal and state registrations, and legal and audit services. DHCM, in fulfilling a portion of its role under the administration agreement with the Funds, acts as agent to pay these obligations of the Funds. Each vendor is independently responsible for fulfillment of the services it has been engaged to provide and negotiates fees and terms with the management and board of trustees of the Funds. The fee that each Fund pays to DHCM is reviewed annually by the Funds' board of trustees and specifically takes into account the contractual expenses that DHCM pays on behalf of the Funds. As a result, DHCM is not involved in the delivery or pricing of these services and bears no risk related to these services. Revenue has been recorded net of these Fund related expenses, in accordance with FASB ASC 605-45, Revenue Recognition – Principal Agent Considerations. In addition, DHCM finances the upfront commissions which are paid to brokers who sell Class C shares of the Funds. As financier, DHCM advances the commission amount to be paid to the selling broker at the time of sale. These advances are capitalized and amortized over 12 months to correspond with the repayments DHCM receives from the principal underwriter to recoup this commission advancement.

Table of Contents

Beacon Hill has underwriting and administrative service agreements with certain clients, including registered mutual funds. The fee arrangements vary from client to client based upon services provided and are recorded as revenue under mutual fund administration on the Consolidated Statements of Income. Part of Beacon Hill's role as underwriter is to act as an agent on behalf of its mutual fund clients to receive 12b-1/service fees and commission revenue and facilitate the payment of those fees and commissions to third parties who provide services to the funds and their shareholders. The majority of 12b-1/service fees are paid to independent third parties and the remainder are retained by the Company as a reimbursement of expenses the Company has incurred. The amount of 12b-1/service fees and commissions are determined by each mutual fund client, and Beacon Hill bears no financial risk related to these services. As a result, 12b-1/service fees and commission revenue has been recorded net of the expense payments to third parties, in accordance with the appropriate accounting treatment for this agency relationship.

Mutual fund administration gross and net revenue are summarized below:

	Year Ended December 31,		
	2014	2013	2012
Mutual fund administration:			
Administration revenue, gross	\$22,968,369	\$16,692,093	\$13,074,707
12b-1/service fees and commission revenue received from fund clients	10,514,242	8,481,442	6,868,974
12b-1/service fees and commission expense payments to third parties	(9,102,565)	(7,404,361)	(5,597,757)
Fund related expense	(9,753,359)	(6,321,374)	(5,469,023)
Revenue, net of related expenses	14,626,687	11,447,800	8,876,901
DHCM C-Share financing:			
Broker commission advance repayments	878,105	365,380	217,227
Broker commission amortization	(846,861)	(347,853)	(219,951)
Financing activity, net	31,244	17,527	(2,724)
Mutual fund administration revenue, net	\$14,657,931	\$11,465,327	\$8,874,177

Contractual Expense Reimbursements

During the fourth quarter of 2013, BHIL entered into an agreement with an investment adviser that is part of the umbrella trust sponsored by BHFS to provide staff to support the wholesaling functions and sales support services to distribute shares of the registered investment companies managed by the investment adviser and distributed by BHIL. Under the agreement, the investment adviser is obligated to reimburse BHIL for all expenses incurred in association with these efforts. The amount of expense incurred and reimbursed for the year ended December 31, 2014, 2013, and 2012 was \$1,849,786, \$375,825, and \$0, respectively. In addition, the third party investment adviser is obligated to reimburse BHIL for any contractual obligations entered into by BHIL as a result of this arrangement. BHIL is not involved in the delivery or pricing of these services and bears no risk related to these services. Revenue has been recorded net of these expenses in accordance with FASB ASC 605-45, Revenue Recognition - Principal Agent

Considerations.**Income Taxes**

The Company accounts for current and deferred income taxes through an asset and liability approach. Deferred taxes are recognized for deductible temporary differences and deferred tax liabilities are recognized for taxable temporary differences. Deferred tax assets are reduced by a valuation allowance when it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

The Company is subject to examination by various federal, state and local jurisdictions for various tax periods. The Company's income tax positions are based on research and interpretations of the income tax laws and rulings in each of the jurisdictions in which the Company does business. Due to the subjectivity of interpretations of laws and rulings in each jurisdiction, the differences and interplay in tax laws between those jurisdictions, as well as the inherent uncertainty in estimating the final resolution of complex tax audit matters, the Company's estimates of income tax liabilities may differ from actual payments or assessments. The Company regularly assesses its position with regard to

tax exposures and records liabilities for these uncertain tax positions and related interest and penalties, if any, according to the principles of FASB ASC 740, Income Taxes. As of

Table of Contents

December 31, 2014, the Company has not recorded any liability for uncertain tax positions. The Company records interest and penalties, if any, within the income tax provision on the income statement.

Earnings Per Share

Basic earnings per share (“EPS”) excludes dilution and is computed by dividing net income by the weighted average number of Common Shares outstanding for the period, which includes participating securities. Diluted EPS reflects the potential dilution of EPS due to unvested restricted stock grants with forfeitable rights to dividends. For the periods presented, the Company has unvested stock-based payment awards that contain both forfeitable and nonforfeitable rights to dividends. See Note 8.

Recently Issued Accounting Standards

In May 2014, the FASB issued Accounting Standards Update 2014-09, Revenue from Contracts with Customers, which supersedes existing accounting standards for revenue recognition and creates a single framework. The new guidance is effective for fiscal years beginning after December 15, 2016, including interim periods within that reporting period and requires either a retrospective or a modified retrospective approach to adoption. The Company is currently evaluating the new guidance and does not expect it to have a material impact on its consolidated financial statements and related disclosures, as well as the transition methods. Early adoption is prohibited.

Note 3 Investment Portfolio

As of December 31, 2014, the Company held investments (excluding money market funds, included with cash and cash equivalents) worth \$45.4 million and an estimated cost basis of \$37.1 million. The following table summarizes the fair value of these investments as of December 31, 2014 and 2013:

	As of December 31,	
	2014	2013
Seed Capital Investments:		
Diamond Hill Research Opportunities Fund	\$ 13,143,281	\$ 13,305,830
Diamond Hill Mid Cap Fund	10,729,930	—
Diamond Hill Financial Long-Short Fund	1,222,892	1,131,034
Diamond Hill High Yield Fund, L.P.	9,764,814	—
Diamond Hill Valuation-Weighted 500, L.P.	3,398,035	3,000,328
Diamond Hill Global Fund, L.P.	1,489,740	—
Diamond Hill Investment Partners, L.P.	—	1,133
Total Seed Capital Investments	39,748,692	17,438,325
Deferred Compensation Investments	5,678,764	1,287,745
Total Investment Portfolio	\$45,427,456	\$18,726,070

The deferred compensation investments above consists of Diamond Hill Funds and relate to deferred compensation liabilities from both deferred compensation plans (refer to Note 5) and other deferred compensation arrangements.

Table of Contents

DHCM is the managing member of the General Partner, which is the general partner of the Partnerships. The underlying assets of the Partnerships are cash, marketable equity securities and fixed income securities. Summary financial information, including the Company's carrying value and income from the Partnerships, is as follows:

	As of December 31,		
	2014	2013	2012
Total partnership assets	\$128,182,211	\$122,106,403	\$105,472,952
Total partnership liabilities	21,782,571	25,217,600	17,786,579
Net partnership assets	\$106,399,640	\$96,888,803	\$87,686,373
DHCM's portion of net assets	\$14,652,589	\$3,001,461	\$3,650,561
	For the Year Ended December 31,		
	2014	2013	2012
Net partnership income	\$8,870,418	\$24,294,495	\$15,054,951
DHCM's portion of net income	\$491,951	\$899,958	\$472,659

Note 4 Capital Stock

Common Shares

The Company has only one class of securities outstanding, Common Shares, no par value per share.

Authorization of Preferred Shares

The Company's Amended and Restated Articles of Incorporation authorize the issuance of 1,000,000 shares of "blank check" preferred shares with such designations, rights and preferences as may be determined from time to time by the Company's Board of Directors. The Board of Directors is authorized, without shareholder approval, to issue preferred stock with dividend, liquidation, conversion, voting, or other rights, which could adversely affect the voting or other rights of the holders of the Common Shares. There were no shares of preferred stock issued or outstanding at December 31, 2014 or 2013.

Note 5 Compensation Plans

Equity Incentive Plans

2014 Equity and Cash Incentive Plan

At the Company's annual shareholder meeting on April 30, 2014, shareholders approved the 2014 Equity and Cash Incentive Plan ("2014 Plan"). The 2014 Plan is intended to facilitate the Company's ability to attract and retain staff, provide additional incentive to employees and directors, and promote the success of the Company's business. The 2014 Plan authorizes the issuance of 600,000 Common Shares of the Company in various forms of equity awards. The 2014 Plan also authorizes cash incentive awards. As of December 31, 2014, there were 580,050 Common Shares available for awards under the 2014 Plan. The 2014 Plan provides that the Board of Directors, or a committee appointed by the Board, may grant awards and otherwise administer the 2014 Plan. Restricted stock units and restricted stock grants issued under the 2014 Plan, which vest over time, are recorded as deferred compensation in the equity section of the balance sheet on the grant date and then recognized as compensation expense based on the grant date price over the vesting period of the respective grant. Stock grants issued under the 2014 Plan are recorded as compensation expense based on the grant date price.

2011 Equity and Cash Incentive Plan and 2005 Employee and Director Equity Incentive Plan

There are no longer any Common Shares available for future issuance under either the 2011 or 2005 equity incentive plans, although outstanding grants under these plans remain issued and outstanding. Restricted stock grants issued under the 2011 and 2005 equity incentive plans, which vest over time, were recorded as deferred compensation in the equity section of the balance sheet on the grant date and then recognized as compensation expense based on the grant date price over the vesting period of the respective grant. Stock grants issued under the 2011 and 2005 equity incentive plans were recorded as compensation expense based on the grant date price.

Table of Contents

Restricted Stock Grant Transactions

The Company issues restricted stock units and restricted stock awards (collectively, "Restricted Stock"). Restricted stock units represent shares which may be issued in the future, whereas restricted stock awards represent shares issued and outstanding upon grant with vesting restrictions. The following table represents a roll-forward of outstanding Restricted Stock and related activity during the years ended December 31, 2014 and December 31, 2013:

	Shares	Weighted-Average Grant Date Price per Share
Outstanding Restricted Stock as of December 31, 2012	319,988	\$ 74.22
Grants issued	32,000	85.63
Grants vested	(39,749)) 80.77
Grants forfeited	(140)) 77.81
Outstanding Restricted Stock as of December 31, 2013	312,099	\$ 74.17
Grants issued	60,613	124.05
Grants vested	(28,731)) 63.47
Grants forfeited	(8,213)) 77.23
Outstanding Restricted Stock as of December 31, 2014	335,768	\$ 79.79

Total deferred compensation related to unvested Restricted Stock grants was \$12.6 million as of December 31, 2014. Compensation expense related to the restricted stock grants is calculated based upon the fair market value of the common stock on grant date adjusted for estimated forfeitures. Compensation expense recognition of deferred compensation over the remaining vesting periods, adjusted for estimated forfeitures, is as follows:

2015	2016	2017	2018	2019	Total
\$5,723,105	\$2,708,516	\$2,180,245	\$1,436,301	\$517,966	\$12,566,133

Stock Grant Transactions

The following table represents stock grant transactions during the years ended December 31, 2014, 2013, and 2012:

	Shares Issued	Grant Date Value
December 31, 2014	33,745	\$3,984,816
December 31, 2013	59,006	4,606,008
December 31, 2012	71,949	5,540,792

401(k) Plan

The Company sponsors a 401(k) plan in which all employees are eligible to participate. Employees may contribute a portion of their compensation subject to certain limits based on federal tax laws. The Company makes matching contributions of common shares of the Company with a value equal to 200 percent of the first six percent of an employee's compensation contributed to the plan. Employees become fully vested in the matching contributions after six plan years of employment. The following table summarizes the Company's expenses attributable to the plan during the years ended December 31, 2014, 2013 and 2012:

For the year ended December 31,		
2014	2013	2012
\$1,356,035	\$1,158,354	\$1,057,056

Table of Contents

Deferred Compensation Plans

On April 24, 2013, the Board of Directors approved the Diamond Hill Fixed Term Deferred Compensation Plan and the Diamond Hill Variable Term Deferred Compensation Plan (collectively the "Plans"). Under the Plans, participants may elect to voluntarily defer, for a minimum of five years, certain incentive compensation, which the Company then contributes into the Plans. Each participant is responsible for designating investment options for assets they contribute, and the distribution paid to each participant reflects any gains or losses on the assets realized while in the Plans. Assets held in the Plans are included in the Company's investment portfolio, and the associated obligation to participants is included in deferred compensation liability. Assets held in the Plans are recorded at fair value. Deferred compensation liability was \$5.7 million, \$1.3 million and \$0 for December 31, 2014, 2013 and 2012, respectively.

Note 6 Operating Leases

The Company currently leases office space of approximately 36,700 square feet at three locations, which in 2015 will be expanding to 42,400 square feet of office space. The following table summarizes the total lease and operating expenses for the years ended December 31, 2014, 2013 and 2012:

For the year ended December 31,

2014	2013	2012
\$905,061	\$730,845	\$686,747

The approximate future minimum lease payments under the operating leases are as follows:

Total	Future Minimum Lease Payments by Year					Thereafter
	2015	2016	2017	2018	2019	
\$6,282,000	\$697,000	\$696,000	\$696,000	\$632,000	\$596,000	\$2,965,000

The total approximate future minimum lease payments of \$6.3 million include \$0.3 million of obligations that will be reimbursed to the Company under an expense reimbursement agreement ("Expense Agreement") with a third party. Under the Expense Agreement, these amounts are required to be reimbursed to the Company by the third party. The obligation of the third party to reimburse the Company for these expenses survives the termination of the Expense Agreement.

In addition to the above lease payments, the Company is also responsible for normal operating expenses of the properties. Such operating expenses were approximately \$0.3 million in 2014.

Note 7 Income Taxes

The Company files a consolidated federal income tax return. It is the policy of the Company to allocate the consolidated tax provision to subsidiaries as if each subsidiary's tax liability or benefit were determined on a separate company basis. As part of the consolidated group, subsidiaries transfer to the Company their current federal tax liabilities or assets.

	As of December 31,		
	2014	2013	2012
Current city income tax provision	\$935,612	\$952,957	\$406,814
Current state income tax provision	429,147	268,920	122,704
Current federal income tax provision	15,015,813	17,866,911	8,990,777
Deferred federal income tax expense (benefit)	2,404,433	(5,611,451)	(368,572)
Provision for income taxes	\$18,785,005	\$13,477,337	\$9,151,723

Table of Contents

A reconciliation of income tax expense at the statutory federal rate to the Company's income tax expense is as follows:

	2014	2013	2012
Income tax computed at statutory rate	\$17,628,078	\$12,471,258	\$9,128,915
City and state income taxes, net of federal benefit	887,093	794,220	344,187
Other	269,834	211,859	(321,379)
Income tax expense	\$18,785,005	\$13,477,337	\$9,151,723

In addition to the income tax expense listed above for the years ended December 31, 2014, 2013 and 2012, income tax benefit recorded in shareholders' equity for the same periods was \$1.0 million, \$0.8 million, and \$2.0 million, respectively. Included in 2012 is \$2.0 million which relates to tax benefits not previously claimed by the Company. Deferred tax assets and liabilities consist of the following at December 31, 2014 and 2013:

	2014	2013
Stock-based compensation	\$5,433,419	\$4,433,293
Accrued incentive compensation	2,964,688	4,075,735
Unrealized gains	(2,436,006)	(316,926)
Other assets and liabilities	(303,109)	(128,677)
Net deferred tax assets	\$5,658,992	\$8,063,425

The net temporary differences incurred to date will reverse in future periods as the Company generates taxable earnings. The Company believes it is more likely than not that the results of future operations will generate sufficient taxable income to realize the net deferred tax assets recorded. The Company records a valuation allowance when it is more likely than not that some portion or all of the deferred tax assets will not be realized. As of December 31, 2014, no valuation allowance was deemed necessary.

FASB ASC 740, Income Taxes, prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return and also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Company did not record an accrual for tax related uncertainties or unrecognized tax positions as of December 31, 2014. The Company does not expect a change to the reserve for uncertain tax positions within the next twelve months that would have a material impact on the consolidated financial statements.

The Company files income tax returns in the federal and all applicable state and local jurisdictions. The Company is subject to federal, state and local examinations by tax authorities for tax years ended December 31, 2009 through 2014.

Table of Contents

Note 8 Earnings Per Share

The Company's common shares outstanding consist of all shares issued and outstanding, including unvested restricted shares. Basic and diluted EPS are calculated under the two-class method. Pursuant to the two-class method, the Company's unvested restricted stock grants with nonforfeitable rights to dividends are considered participating securities. Dividends are paid on all common shares outstanding at the same rate. Accordingly, the Company has evaluated the impact of earnings per share of all participating securities under the two-class method, noting no impact on earnings per share. Restricted stock grants with forfeitable rights to dividends and restricted stock units are considered dilutive. The following table sets forth the computation for basic and diluted EPS and reconciliation between basic and diluted shares outstanding:

	Year Ended December 31,		
	2014	2013	2012
Net income	\$31,580,931	\$22,154,828	\$16,930,892
Weighted average number of outstanding shares - Basic	3,196,127	3,142,083	3,111,328
Dilutive impact of restricted stock grants with forfeitable rights to dividends	67,453	52,180	—
Dilutive impact of restricted stock units	2,588	—	—
Weighted average number of outstanding shares - Diluted	3,266,168	3,194,263	3,111,328
Earnings per share			
Basic	\$9.88	7.05	5.44
Diluted	\$9.67	6.94	5.44

Note 9 Regulatory Requirements

BHIL, a wholly owned subsidiary of the Company and principal underwriter for mutual funds, is subject to the SEC uniform net capital rule, which requires the maintenance of a specified minimum net capital. BHIL's net capital exceeded its minimum net capital requirement at December 31, 2014 and 2013. The net capital balances, minimum net capital requirements, and ratio of aggregate indebtedness to net capital for BHIL are summarized below as of December 31, 2014 and 2013:

	As of December 31,	
	2014	2013
Net Capital	\$370,604	\$338,568
Minimum Net Capital Requirement	84,055	90,931
Ratio of Aggregate Indebtedness to Net Capital	3.40 to 1	4.03 to 1

Note 10 Commitments and Contingencies

The Company indemnifies its directors and certain of its officers and employees for certain liabilities that might arise from their performance of their duties to the Company. Additionally, in the normal course of business, the Company enters into agreements that contain a variety of representations and warranties and which provide general indemnifications. Certain agreements do not contain any limits on the Company's liability and would involve future claims that may be made against the Company that have not yet occurred. Therefore, it is not possible to estimate the Company's potential liability under these indemnities. Further, the Company maintains insurance policies that may provide coverage against certain claims under these indemnities.

ITEM 9. Changes In and Disagreements With Accountants on Accounting and Financial Disclosures
None.

ITEM 9A. Controls and Procedures

Management, including the Chief Executive Officer and the Chief Financial Officer, has conducted an evaluation of the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Exchange Act of 1934) as of the end of the period covered by this report (the "Evaluation Date"). Based on such evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures are effective to ensure that the information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and to ensure that the information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

There have been no changes in the Company's internal control over financial reporting during the year ended December 31, 2014 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Management's Annual Report on Internal Control Over Financial Reporting

Management of Diamond Hill Investment Group, Inc. (the "Company") is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act.

The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of its consolidated financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision and with the participation of the Chief Executive Officer and the Chief Financial Officer, management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2014 based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this assessment, management concluded that the Company's internal control over financial reporting was effective as of December 31, 2014.

The Company's independent registered public accounting firm, KPMG LLP, has audited the Company's 2014 and 2013 consolidated financial statements included in this Annual Report on Form 10-K and the Company's internal control over financial reporting as of December 31, 2014, and has issued its Report of Independent Registered Public Accounting Firm on Consolidated Financial Statements, which is included in this Annual Report on Form 10-K.
