TIMBERLAND BANCORP INC
Form 10-Q
May 06, 2010

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended March 31, 2010

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934
For the Transition Period From _____ to _____

Commission file number 0-23333

TIMBERLAND BANCORP, INC.
(Exact name of registrant as specified in its charter)

Washington 91-1863696
(State of Incorporation) (IRS Employer Identification No.)

624 Simpson Avenue, Hoquiam, Washington 98550
(Address of principal executive office) (Zip Code)

(360) 533-4747
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a small reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated Filer
Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (in Rule 12b-2 of the Exchange Act). Yes No

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

CLASS -----	SHARES OUTSTANDING AT APRIL 30, 2010 -----

Timberland Bancorp, Inc. and Subsidiary
Notes to Condensed Consolidated Financial Statements (unaudited)

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Presentation: The accompanying unaudited condensed consolidated financial statements for Timberland Bancorp, Inc. ("Company") were prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with instructions for Form 10-Q and therefore, do not include all disclosures necessary for a complete presentation of financial condition, results of operations, and cash

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

flows in conformity with GAAP. However, all adjustments, which are in the opinion of management, necessary for a fair presentation of the interim condensed consolidated financial statements have been included. All such adjustments are of a normal recurring nature. The unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended September 30, 2009 ("2009 Form 10-K"). The results of operations for the three and six months ended March 31, 2010 are not necessarily indicative of the results that may be expected for the entire fiscal year.

(b) Principles of Consolidation: The interim condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Timberland Bank ("Bank"), and the Bank's wholly-owned subsidiary, Timberland Service Corp. All significant inter-company balances have been eliminated in consolidation.

(c) Operating Segment: The Company has one reportable operating segment which is defined as community banking in western Washington under the operating name Timberland Bank.

(d) The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(e) Certain prior period amounts have been reclassified to conform to the March 31, 2010 presentation with no change to net loss or total shareholders' equity previously reported.

(2) U.S. TREASURY DEPARTMENT'S CAPITAL PURCHASE PROGRAM

On December 23, 2008, the Company received \$16.64 million from the U.S. Treasury Department ("Treasury") as a part of the Treasury's Capital Purchase Program. The Company sold \$16.64 million in senior preferred stock, with a related warrant to purchase 370,899 shares of the Company's common stock at a price of \$6.73 per share at any time during the next ten years. The preferred stock pays a 5.0% dividend for the first five years, after which the rate increases to 9.0% if the preferred shares are not redeemed by the Company.

Preferred stock callable at the option of the Company is initially recorded at the amount of proceeds received. Any discount from the liquidation value is accreted to the expected call date and charged to retained earnings. This accretion is recorded using the level-yield method. Preferred dividends paid (declared and accrued) and any accretion is deducted from (added to) net income (loss) for computing income available (loss) to common shareholders and earnings (loss) per share computations.

10

During the three months ended March 31, 2010 and 2009 the Company recorded net OTTI charges through earnings on residential mortgage-backed securities of \$1.56 million and \$964,000. During the six months ended March 31, 2010 and March 31, 2009, the Company recorded net OTTI charges through earnings on residential mortgage-backed securities of \$1.88 million and \$2.13 million. Effective January 1, 2009, the Company adopted Financial Accounting Standards Board ("FASB") Recognition and Presentation of Other-Than-Temporary Impairments, which provides for the bifurcation of OTTI into (i) amounts related to credit losses which are recognized through earnings, and (ii) amounts related to all other factors which are recognized as a component of other comprehensive income.

To determine the component of the gross OTTI related to credit losses, the Company compared the amortized cost basis of each OTTI security to the present value of its revised expected cash flows, discounted using its pre-impairment yield. The revised expected cash flow estimates for individual securities are based primarily on an analysis of default rates, prepayment speeds and third-party analytic reports. Significant judgment of management is required in this analysis that includes, but is not limited to, assumptions regarding the collectability of principal and interest, net of related expenses, on the underlying loans. The following table presents a summary of the significant inputs utilized to measure management's estimate of the credit loss component on OTTI securities as of March 31, 2010 and September 30, 2009:

	Range		Weighted Average
	Minimum	Maximum	
At March 31, 2010			

Constant prepayment rate	0.0%	15.0%	13.8%
Collateral default rate	5.9%	62.4%	33.3%
Loss severity rate	15.8%	52.1%	41.6%
At September 30, 2009			

Constant prepayment rate	6.0%	15.0%	10.9%
Collateral default rate	6.8%	59.6%	25.4%
Loss severity rate	14.3%	52.0%	34.0%

The following table presents the OTTI losses for the six months ended March

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

31, 2010 and 2009 (in thousands).

	Six months ended March 31, 2010			Six months ended March 31, 2009		
	Held To Maturity	Available For Sale	Total	Held To Maturity	Available For Sale	Total
Total OTTI losses	\$ 514	\$ 93	\$ 607	\$ 2,759	\$ 124	2,883
Portion of OTTI losses (gains) recognized in other comprehensive loss (before taxes) (1)	(1,269)	- -	(1,269)	749	- -	749
Impairment losses recognized in earnings (2)	\$ 1,783	\$ 93	\$ 1,876	\$ 2,010	\$ 124	\$2,134

12

-
- (1) Represents OTTI losses related to all other factors.
 - (2) Represents OTTI losses related to credit losses.

The following table presents a roll forward of the credit loss component of held to maturity debt securities that have been written down for OTTI with the credit loss component recognized in earnings and the remaining impairment loss related to all other factors recognized in other comprehensive loss (in thousands).

Balance, September 30, 2009	\$ 3,551
Additions:	
Credit losses for which OTTI was not previously recognized	374
Additional increases to the amount related to credit loss for which OTTI was previously recognized	1,472
Subtractions:	
Realized losses recorded previously as credit losses	(252)
Balance, March 31, 2010	\$ 5,145

There were no gross realized gains on sale of securities for the three or six months ended March 31, 2010 and 2009. During the three months ended March 31, 2010 the Company recorded a \$141,000 realized loss (as a result of the securities being deemed worthless) on six held to maturity residential mortgage-backed securities of which \$140,000 had been recognized previously as a credit loss. During the six months ended March 31, 2010 the Company recorded a \$252,000 realized loss (as a result of securities being deemed

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

worthless) on eight held to maturity residential mortgage-backed securities of which \$235,000 had been recognized previously as a credit loss. During the three and six months ended March 31, 2009 there was a \$29,000 realized loss on one held to maturity residential mortgage-backed security of which no prior credit loss had been recorded. Investment securities on non-accrual status were \$3.26 million at March 31, 2010 and \$477,000 at September 30, 2010.

Residential mortgage-backed and agency securities pledged as collateral for public fund deposits, federal treasury tax and loan deposits, FHLB collateral, retail repurchase agreements and other non-profit organization deposits totaled \$14.77 million and \$16.40 million at March 31, 2010 and September 30, 2009, respectively.

The contractual maturities of debt securities at March 31, 2010 are as follows (in thousands). Expected maturities may differ from scheduled maturities as a result of the prepayment of principal or call provisions.

	Held to Maturity		Available for Sale	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Due within one year	\$ - -	\$ - -	\$ 26	\$ 26

(4) FHLB STOCK

The Company views its investment in the Seattle FHLB stock as a long-term investment. Accordingly, when evaluating for impairment, the value is determined based on the ultimate recovery of the par value rather than recognizing temporary declines in value. The determination of whether a decline affects the ultimate recovery is influenced by criteria such as: 1) the significance of the decline in net assets of the FHLB as compared to the capital stock amount and length of time a decline has persisted; 2) the impact of legislative and regulatory changes on the FHLB and 3) the liquidity position of the FHLB. As of March 31, 2010, the Seattle FHLB reported that it had met all of its regulatory capital requirements, but remained classified as undercapitalized by its regulator, the Federal Housing Finance Agency. The FHLB will not pay a dividend or repurchase capital stock while it is classified as undercapitalized. While the FHLB was classified as undercapitalized as of March 31, 2010, the Company does not believe that its investment in the FHLB is impaired. However, this estimate could change in the near term if: 1) significant other-than-temporary losses are incurred on the FHLB's mortgage-backed securities causing a significant decline in its regulatory capital status; 2) the economic losses resulting from credit deterioration on the FHLB's mortgage-backed securities increases significantly or 3) capital preservation strategies being utilized by the FHLB become ineffective.

(5) LOANS

Loans receivable and loans held for sale consisted of the following (dollars

Impaired Loans

A loan is considered impaired when it is probable that the Bank will be unable to collect all contractual principal and interest payments due in accordance with the terms of the loan agreement. Impaired loans are measured based on the fair value of the collateral if the loan is considered collateral dependent. Impaired loans not considered to be collateral dependent are measured based on the present value of expected future cash flows.

The categories of non-accrual loans and impaired loans overlap, although they are not coextensive. The Bank considers all circumstances regarding the loan and borrower on an individual basis when determining whether an impaired loan should be placed on non-accrual status, such as the financial strength of the borrower, the collateral value, reasons for the delay, payment record, the amount past due and the number of days past due.

At March 31, 2010 and September 30, 2009, the Bank had impaired loans totaling approximately \$43.02 million and \$47.62 million respectively. At March 31, 2010 the Bank had five loans totaling \$5.22 million that were 90 days or more

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

past due and still accruing interest. At September 30, 2009 the Bank had five loans totaling \$796,000 that were 90 days or more past due and still accruing interest. Interest income recognized on impaired loans for the six months ended March 31, 2010 and March 31, 2009 was \$496,000 and \$328,000, respectively. Interest income recognized on a cash basis on impaired loans for the six months ended March 31, 2010 and March 31, 2009, was \$328,000 and \$132,000, respectively. The average investment in impaired loans for the six months ended March 31, 2010 and March 31, 2009 was \$44.36 million and \$23.45 million respectively. The Bank had \$18.62 million in troubled debt restructured loans included in impaired loans at March 31, 2010. The Bank had \$1.25 million in commitments to lend additional funds on these loans. The Bank had \$9.24 million in troubled debt restructured loans included in impaired loans at September 30, 2009. The Bank had \$1.43 million in commitments to lend additional funds on these loans.

Following is a summary of information related to impaired loans (in thousands):

	At March 31, 2010 -----	At September 30, 2009 -----
Impaired loans without a valuation allowance	\$31,494	\$35,557
Impaired loans with a valuation allowance	11,523	12,065
	-----	-----
Total impaired loans	\$43,017 =====	\$47,622 =====
Valuation allowance related to impaired loans	\$ 5,543 =====	\$ 3,835 =====

Non-performing Assets

The following table sets forth information with respect to the Company's non-performing assets and restructured loans within the meaning of FASB guidance on troubled debt restructurings.

	At March 31, 2010 -----	At September 30, 2009 -----

	(In thousands)	
Loans accounted for on a non-accrual basis:		
Mortgage loans:		
One- to four-family	\$ 2,685	\$ 1,343
Commercial real estate	3,471	5,004
Construction and land development	12,211	17,594
Land	7,793	5,023
Consumer loans	113	258
Commercial business loans	78	65
	-----	-----
Total non-accrual loans	26,351	29,287
Accruing loans which are contractually past due 90 days or more:	5,216 -----	796 -----

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

Total of non-accrual and 90 days past due loans	31,567	30,083
Non-accrual investment securities	3,262	477

Non-accrual and 90 days or more past due loans as a percentage of total assets	4.36%	4.28%
Non-performing assets as a percentage of total assets	5.95%	5.41%
Loans receivable (3)	\$555,339	\$561,380
	=====	=====
Total assets	\$724,776	\$701,676
	=====	=====

- (1) Includes non-accrual loans, non-accrual investment securities, and other real estate owned and other repossessed assets. Loans considered impaired or classified as troubled debt restructurings are not included if they are still on accrual status.
- (2) At March 31, 2010, \$10,265 of the \$18,623 in troubled debt restructured loans were on non-accrual status and included in total non-performing assets. At September 30, 2009 all troubled debt restructured loans were on non-accrual status and are included in non-performing assets.
- (3) Includes loans held-for-sale and is before the allowance for loan losses.

(6) EARNINGS (LOSS) PER COMMON SHARE

Basic earnings (loss) per common share is computed by dividing net income (loss) available for common stock by the weighted average number of common shares outstanding during the period, without considering any dilutive items. Diluted earnings per common share is computed by dividing net income available for common stock by the weighted average number of common shares and common stock equivalents for items that are dilutive, net of shares assumed to be repurchased using the treasury stock method at the average share price for the Company's common stock during the period. Diluted loss per common share is the same as basic loss per common share due to the anti-dilutive effect of common stock equivalents. Common stock equivalents arise from assumed conversion of outstanding stock options and outstanding warrants to purchase common stock. In accordance with FASB guidance for stock compensation, shares owned by the Bank's ESOP that have not been allocated are not considered to be outstanding for the purpose of computing earnings (loss) per common share. At March 31, 2010 and 2009, there were 329,626 and 370,294 ESOP shares, respectively, that had not been allocated.

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

The following table is in thousands, except for share and per share data:

	Three Months Ended March 31,		Six Months Ended March 31,

	=====	=====	=====	=====
Denominator - weighted average common shares outstanding				
	6,713,958	6,614,216	6,711,950	6,592,257
Effect of dilutive stock options (1) (2)	- -	- -	- -	- -
Effect of dilutive stock warrants (3) (4)	- -	- -	- -	- -
	-----	-----	-----	-----
Weighted average common shares and common stock equivalents	6,713,958	6,614,216	6,711,950	6,592,257
	-----	-----	-----	-----
Diluted loss per common share	\$ (0.51)	\$ (0.24)	\$ (0.52)	\$ (0.19)
	=====	=====	=====	=====

(1) For the three and six months ended March 31, 2010, options to purchase 194,864 and 191,332 shares of common stock, respectively, were outstanding but not included in the computation of diluted loss per common share because the options' exercise prices were greater than the average market price of the common stock and, therefore, their effect would have been anti-dilutive. For the three and six months ended March 31, 2009, options to purchase 201,003 and 168,864 shares of common stock, respectively, were outstanding but not included in the computation of diluted loss per common share because the

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

options' exercise prices were greater than the average market price of the common stock and, therefore, their effect would have been anti-dilutive.

(2) For the six months ended March 31, 2009, the effect of dilutive stock options was computed to be 2,607 shares. However, the dilutive effect of these stock options has been excluded from the diluted loss per common share computation for the six months ended March 31, 2009 because the Company reported a net loss for the period and, therefore, their effect would have been anti-dilutive.

(3) For the three and six months ended March 31, 2010, warrants to purchase 370,899 shares of common stock were outstanding but not included in the computation of diluted loss per common share because the warrant's exercise prices were greater than the average market price of the common stock and, therefore, their effect would have been anti-dilutive. For the three and six months ended March 31, 2009, warrants to purchase 370,899 and 185,449 shares of common stock, respectively, were outstanding but not included in the computation of diluted loss per common share because the warrant's exercise prices were greater than the average market price of the common stock and, therefore, their effect would have been anti-dilutive.

18

(4) For the six months ended March 31, 2009, the effect of dilutive stock warrants was computed to be 1,085 shares. However, the dilutive effect of these stock warrants has been excluded from the diluted loss per common share computation for the six months ended March 31, 2009 because the Company reported a net loss for the period and, therefore, their effect would have been anti-dilutive.

(7) STOCK PLANS AND STOCK BASED COMPENSATION

Stock Option Plans

Under the Company's stock option plans (the 1999 Stock Option Plan and the 2003 Stock Option Plan), the Company was able to grant options for up to a combined total of 1,622,500 shares of common stock to employees, officers and directors. Shares issued may be purchased in the open market or may be issued from authorized and unissued shares. The exercise price of each option equals the fair market value of the Company's common stock on the date of grant. Generally, options vest in 20% annual installments on each of the five anniversaries from the date of the grant. At March 31, 2010, options for 249,738 shares are available for future grant under the 2003 Stock Option Plan and no shares are available for future grant under the 1999 Stock Option Plan.

Following is activity under the plans:

	Six Months Ended March 31, 2010 Total Options Outstanding	
	Shares	Weighted Average Exercise Price
Options outstanding, beginning of period	168,864	\$ 9.35
Exercised	--	--
Forfeited	--	--
Granted	26,000	4.55

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

Options outstanding, end of period	194,864	\$ 8.71
	=====	
Options exercisable, end of period	168,864	\$ 9.35
	=====	

There was no aggregate intrinsic value of options outstanding at March 31, 2010, as the exercise price of all options outstanding was greater than the stock's current market value.

At March 31, 2010, there were 26,000 unvested options with an aggregate grant date fair value of \$34,000, all of which the Company assumes will vest. There was no aggregate intrinsic value of unvested options at March 31, 2010 as the exercise price was greater than the stock's current market value. There were no options that vested during the six months ended March 31, 2010.

At March 31, 2009, there were no unvested options. There were 5,668 options that vested during the six months ended March 31, 2009 with an aggregate grant date fair value of \$13,000.

There were 26,000 options granted during the six months ended March 31, 2010 with an aggregate grant date fair value of \$34,000. There were no options granted during the six months ended March 31, 2009.

The Black-Scholes option pricing model was used in estimating the fair value of option grants. The weighted average assumptions for options granted during the six months ended March 31, 2010 were:

19

Expected Volatility	38%
Expected term (in years)	5
Expected dividend yield	2.64%
Risk free interest rate	2.47%
Grant date fair value per share	\$1.29

Stock Grant Plans

The Company adopted the Management Recognition and Development Plan ("MRDP") in 1998 for the benefit of employees, officers and directors of the Company. The objective of the MRDP is to retain and attract personnel of experience and ability in key positions by providing them with a proprietary interest in the Company.

The MRDP allowed for the issuance to participants of up to 529,000 shares of the Company's common stock. Awards under the MRDP are made in the form of shares of common stock that are subject to restrictions on the transfer of ownership. Compensation expense in the amount of the fair value of the common stock at the date of the grant to the plan participants is recognized over a five-year vesting period, with 20% vesting on each of the five anniversaries from the date of the grant.

There were no MRDP shares granted to officers and directors during the six months ended March 31, 2010.

At March 31, 2010, there were a total of 42,427 unvested MRDP shares with an aggregated grant date fair value of \$501,000. There were 7,431 MRDP shares that vested during the six months ended March 31, 2010 with an aggregated grant date fair value of \$81,000. At March 31, 2010, there were no shares available for future awards under the MRDP.

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

Expenses for Stock Compensation Plans

Compensation expenses for all stock-based plans were as follows:

	Six Months Ended March 31,			
	2010	2009

(8) FAIR VALUE MEASUREMENTS

The FASB Disclosures About Fair Value of Financial Instruments requires disclosure of estimated fair values for financial instruments. Such estimates are subjective in nature, and significant judgment is required regarding the risk characteristics of various financial instruments at a discrete point in time. Therefore, such estimates could vary significantly if assumptions regarding uncertain factors were to change. Major assumptions, methods and fair value estimates for the Company's significant financial instruments are set forth below:

Cash and Due from Financial Institutions and Interest-Bearing Deposits in ----- Banks -----

The fair value of financial instruments that are short-term or re-price frequently and that have little or no risk are considered to have a fair value equal to the recorded value.

Certificates of Deposit Held for Investment -----

The fair value of financial instruments that are short-term or re-price frequently and that have little or no risk are considered to have a fair value equal to the recorded value.

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

Mortgage-Backed Securities and Other Investments

The fair value of mortgage-backed securities and other investments are based upon the assumptions market participants would use in pricing the security. Such assumptions include observable and unobservable inputs such as quoted market prices, dealer quotes, or discounted cash flows.

FHLB Stock

FHLB stock is not publicly traded, however the recorded value of the stock holdings approximates the fair value, as the FHLB is required to pay par value upon re-acquiring this stock.

Loans Receivable

At March 31, 2010 and September 30, 2009, because of the illiquid market for loan sales, loans were priced using comparable market statistics. The loan portfolio was segregated into various categories and a weighted average valuation discount that approximated similar loan sales was applied to each category.

Loans Held for Sale

The fair value has been based on quoted market prices obtained from the Federal Home Loan Mortgage Corporation.

Accrued Interest

The recorded amounts of accrued interest approximate fair value.

Deposits

The fair value of deposits with no stated maturity date is included at the amount payable on demand. The fair value of fixed maturity certificates of deposit is estimated by discounting future cash flows using the rates currently offered by the Bank for deposits of similar remaining maturities.

FHLB Advances

The fair value of borrowed funds is estimated by discounting the future cash flows of the borrowings at a rate which approximates the current offering rate of the borrowings with a comparable remaining life.

FRB Borrowings

The recorded value of Federal Reserve Bank borrowings approximates the fair value due to the short-term nature of the borrowings.

Repurchase Agreements

The recorded value of repurchase agreements approximates fair value due to the short-term nature of the borrowings.

Off-Balance-Sheet Instruments

Since the majority of the Company's off-balance-sheet instruments consist of variable-rate commitments, the Company has determined they do not have a distinguishable fair value.

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

The estimated fair value of financial instruments were as follows (in thousands):

	March 31, 2010		September 30, 2009	
	Recorded Amount	Estimated Fair Value	Recorded Amount	Estimated Fair Value
Financial Assets				
Cash and due from financial institutions and interest-bearing deposits in banks	\$ 75,457	\$ 75,457	\$ 66,462	\$ 66,462
Certificates of Deposit, held for investment	18,108	18,108	3,251	3,251
Mortgage-backed securities and other investments	18,207	17,821	20,558	19,686
FHLB stock	5,705	5,705	5,705	5,705
Loans receivable	538,193	466,378	546,578	471,178
Loans held for sale	459	465	630	648
Accrued interest receivable	2,996	2,996	2,805	2,805
Financial Liabilities				
Deposits	\$551,724	\$553,346	\$505,661	\$507,465
FHLB advances - long term	75,000	78,549	95,000	99,414
FRB borrowings - short term	10,000	10,000	10,000	10,000
Repurchase agreements	445	445	777	777
Accrued interest payable	802	802	965	965

The Company assumes interest rate risk (the risk that general interest rate levels will change) as a result of its normal operations. As a result, the fair value of the Company's financial instruments will change when interest rate levels change and that change may either be favorable or unfavorable to the Company. Management attempts to match maturities of assets and liabilities to the extent believed necessary to minimize interest rate risk. However, borrowers with fixed interest rate obligations are less likely to prepay in a rising interest rate environment and more likely to prepay in a falling interest rate environment. Conversely, depositors who are receiving fixed interest rates are more likely to withdraw funds before maturity in a rising interest rate environment and less likely to do so in a falling interest rate environment. Management monitors interest rates and maturities of assets and liabilities, and attempts to minimize interest rate risk by adjusting terms of new loans, and deposits and by investing in securities with terms that mitigate the Company's overall interest rate risk.

Accounting guidance regarding fair value measurements defines fair value and establishes a framework for measuring fair value in accordance with GAAP. Fair value is the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The following definitions describe the levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2: Significant observable inputs other than quoted prices included within Level 1, such as quoted prices in markets that are not active, and

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

inputs other than quoted prices that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a company's own assumptions about the assumptions market participants would use in pricing an asset or liability based on the best information available in the circumstances.

22

The following table summarizes the balances of assets and liabilities measured at fair value on a recurring basis at March 31, 2010 and the total losses resulting from these fair value adjustments for the six months ended March 31, 2010 (in thousands):

	Fair Value			Total Losses
	Level 1	Level 2	Level 3	
	-----	-----	-----	-----
Available for Sale Securities				

Mutual Funds	\$ 968	\$ - -	\$ - -	\$ - -
Mortgage-backed securities	- -	11,257	- -	93
	-----	-----	-----	-----
Total	\$ 968	\$11,257	\$ - -	\$ 93
	=====	=====	=====	=====

The following table summarizes the balance of assets and liabilities measured at fair value on a nonrecurring basis at March 31, 2010, and the total losses resulting from these fair value adjustments for the six months ended March 31, 2010 (in thousands):

	Fair Value			Total Losses
	Level 1	Level 2	Level 3	
	-----	-----	-----	-----
Impaired Loans (1)	\$ - -	\$ - -	\$ 6,564	\$5,403
Mortgage-backed securities - HTM				
(2)	- -	1,371	- -	1,783
OREO and other repossessed items				
(3)	- -	- -	9,144	346
	-----	-----	-----	-----
Total	\$ - -	\$1,371	\$15,708	\$7,532
	=====	=====	=====	=====

(1) The loss represents charge offs on collateral dependent loans for fair value adjustments based on the fair value of the collateral. A loan is considered to be impaired when, based on current information and events, it is probable the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement. The specific reserve for collateral dependent impaired loans was based on the fair value of the collateral less estimated costs to sell. The fair value of collateral was determined based primarily on appraisals. In some cases, adjustments were made to the appraised values due to various factors including age of the appraisal, age of comparables included in the appraisal, and known changes in the market and in the collateral. When significant adjustments were based on

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

unobservable inputs, the resulting fair value measurement has been categorized as Level 3 measurement.

(2) The loss represents OTTI credit-related charges on held-to-maturity mortgage-backed securities.

(3) The Company's OREO and other repossessed items is initially recorded at fair value less estimated costs to sell. This amount becomes the property's new basis. Fair value was generally determined by management based on a number of factors, including third-party appraisals of fair value in an orderly sale. Estimated costs to sell were based on standard market factors. The valuation of OREO and other repossessed items is subject to significant external and internal judgment. Management periodically reviews the recorded value to determine whether the property continues to be recorded at the lower of its recorded book value or fair value, net of estimated costs to sell.

(9) REGULATORY MATTERS

In December 2009, the FDIC and the Washington State Department of Financial Institutions, Division of Banks ("Division") determined that the Bank required supervisory attention and on December 29, 2009 entered into an agreement on a Memorandum of Understanding with the Bank (the "Bank MOU"). Under that agreement the Bank must among other things, maintain Tier 1 Capital of not less than 10.0% of the Bank's adjusted total assets and maintain capital ratios above the "well capitalized" thresholds as defined under FDIC Rules and Regulations; obtain the prior consent from the FDIC and the Division prior to the Bank declaring a dividend to

23

its holding company; and not engage in any transactions that would materially change the Bank's balance sheet composition including growth in total assets of five percent or more or significant changes in funding sources without the prior non-objection of the FDIC.

In addition, on February 1, 2010, the FRB determined that the Company required additional supervisory attention and entered into a Memorandum of Understanding with the Company (the "Company MOU"). Under the agreement the Company must among other things obtain prior written approval, or non-objection from the FRB to declare or pay any dividends, or make any other capital distributions; issue any trust preferred securities; or purchase or redeem any of its stock.

For additional information regarding the Bank MOU and the Company MOU, see "Item 1A, Risk Factors - The Company and the Bank are required to comply with the terms of separate memorandums of understanding issued by their respective regulators and lack of compliance could result in additional regulatory actions.

(10) RECENT ACCOUNTING PRONOUNCEMENTS

In September 2006, the FASB issued a statement on fair value measurements, which defines fair value, establishes a framework for measuring fair value under GAAP, and expands disclosures about fair value measurements. This statement expands other accounting pronouncements that require or permit fair value measurements. This statement was to become effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. In February 2008, the FASB issued a staff position, which delayed the effective date of the September 2006 statement on fair value measurements for certain nonfinancial assets and nonfinancial liabilities, to fiscal years beginning after November 15, 2008, and interim periods within those years. The delay was intended to allow additional time to consider the effect of

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

various implementation issues that arose, or that may arise, from the application of the guidance. The Company elected to apply the deferral provisions in the February 2008 staff position and therefore only partially adopted the provisions of the September 2006 statement on fair value measurements on October 1, 2008. The Company's partial adoption of the September 2006 statement on fair value measurements on October 1, 2008 did not have a material impact on the Company's consolidated financial statements. The Company more fully adopted the provisions of the fair value guidance with respect to certain nonfinancial instruments on October 1, 2009 and this adoption did not have a material impact on the Company's consolidated financial statements. For further information, see Note 9 of the Notes to Condensed Consolidated Statements included herein.

In June 2008, the FASB issued a staff position on determining whether instruments granted in share-based payment transactions are participating securities. The guidance clarifies that all outstanding unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and are required to be included in computing basic and diluted earnings (loss) per common share under the two-class method. This staff position was effective for financial statements issued for fiscal years beginning after December 15, 2008 and interim periods within those years. The adoption of this staff position did not have a material impact on the Company's consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and ----- Results of Operations -----

The following analysis discusses the material changes in the financial condition and results of operations of the Company at and for the three and six months ended March 31, 2010. This analysis as well as other sections of this report contains certain "forward-looking statements."

Certain matters discussed in this Form 10-Q may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are not statements of historical fact and often include the words "believes," "expects," "anticipates," "estimates," "forecasts," "intends," "plans," "targets," "potentially," "probably," "projects," "outlook" or similar expressions or future or

conditional verbs such as "may," "will," "should," "would" and "could." Forward-looking statements include statements with respect to our beliefs, plans, objectives, goals, expectations, assumptions and statements about future performance. These forward-looking statements are subject to known and unknown risks, uncertainties and other factors that could cause our actual results to differ materially from the results anticipated, including, but not limited to: the credit risks of lending activities, including changes in the level and trend of loan delinquencies and write-offs and changes in our allowance for loan losses and provision for loan losses that may be impacted by deterioration in the housing and commercial real estate markets and may lead to increased losses and non-performing assets in our loan portfolio, and may result in our allowance for loan losses not being adequate to cover actual losses, and require us to materially increase our reserves; changes in general economic conditions, either nationally or in our market areas; changes in the

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

levels of general interest rates, and the relative differences between short and long term interest rates, deposit interest rates, our net interest margin and funding sources; fluctuations in the demand for loans, the number of unsold homes, land and other properties and fluctuations in real estate values in our market areas; secondary market conditions for loans and our ability to sell loans in the secondary market; results of examinations of us by the Federal Reserve and our bank subsidiary by the Federal Deposit Insurance Corporation, the Washington State Department of Financial Institutions, Division of Banks or other regulatory authorities, including the possibility that any such regulatory authority may, among other things, require us to increase our allowance for loan losses, write-down assets, change our regulatory capital position or affect our ability to borrow funds or maintain or increase deposits, which could adversely affect our liquidity and earnings; our compliance with regulatory enforcement actions, including regulatory memoranda of understandings ("MOUs") to which we are subject; legislative or regulatory changes that adversely affect our business including changes in regulatory policies and principles, or the interpretation of regulatory capital or other rules; our ability to attract and retain deposits; further increases in premiums for deposit insurance; our ability to control operating costs and expenses; the use of estimates in determining fair value of certain of our assets, which estimates may prove to be incorrect and result in significant declines in valuation; difficulties in reducing risk associated with the loans on our balance sheet; staffing fluctuations in response to product demand or the implementation of corporate strategies that affect our workforce and potential associated charges; computer systems on which we depend could fail or experience a security breach; our ability to retain key members of our senior management team; costs and effects of litigation, including settlements and judgments; our ability to successfully integrate any assets, liabilities, customers, systems, and management personnel we may in the future acquire into our operations and our ability to realize related revenue synergies and cost savings within expected time frames and any goodwill charges related thereto; our ability to manage loan delinquency rates; increased competitive pressures among financial services companies; changes in consumer spending, borrowing and savings habits; legislative or regulatory changes that adversely affect our business including changes in regulatory policies and principles, the interpretation of regulatory capital or other rules and any changes in the rules applicable to institutions participating in the TARP Capital Purchase Program; the availability of resources to address changes in laws, rules, or regulations or to respond to regulatory actions; adverse changes in the securities markets; inability of key third-party providers to perform their obligations to us; changes in accounting policies and practices, as may be adopted by the financial institution regulatory agencies or the Financial Accounting Standards Board, including additional guidance and interpretation on accounting issues and details of the implementation of new accounting methods; the economic impact of war or any terrorist activities; other economic, competitive, governmental, regulatory, and technological factors affecting our operations; pricing, products and services; and other risks detailed in our reports filed with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended September 30, 2009.

Any of the forward-looking statements that we make in this Form 10-Q and in the other public statements we make are based upon management's beliefs and assumptions at the time they are made. We undertake no obligation to publicly update or revise any forward-looking statements included in this report or to update the reasons why actual results could differ from those contained in such statements, whether as a result of new information, future events or otherwise. We caution readers not to place undue reliance on any forward-looking

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

statements. We do not undertake and specifically disclaim any obligation to revise any forward-looking statements to reflect the occurrence of anticipated or unanticipated events or circumstances after the date of such statements. These risks could cause our actual results for 2010 and beyond to differ materially from those expressed in any forward-looking statements by, or on behalf of us, and could negatively affect the Company's operations and stock price performance.

Overview

Timberland Bancorp, Inc., a Washington corporation, is the holding company for Timberland Bank. The Bank opened for business in 1915 and serves consumers and businesses across Grays Harbor, Thurston, Pierce, King, Kitsap and Lewis counties, Washington with a full range of lending and deposit services through its 22 branches (including its main office in Hoquiam). At March 31, 2010, the Company had total assets of \$724.78 million and total shareholders' equity of \$84.87 million. The Company's business activities generally are limited to passive investment activities and oversight of its investment in the Bank. Accordingly, the information set forth in this report relates primarily to the Bank's operations.

The profitability of the Company's operations depends primarily on its net interest income after provision for loan losses. Net interest income is the difference between interest income, which is the income that the Company earns on interest-earning assets, comprised of primarily loans and investments, and interest expense, the amount the Company pays on its interest-bearing liabilities, which are primarily deposits and borrowings. Net interest income is affected by changes in the volume and mix of interest earning assets, interest earned on those assets, the volume and mix of interest bearing liabilities and interest paid on those interest bearing liabilities. Management strives to match the re-pricing characteristics of the interest earning assets and interest bearing liabilities to protect net interest income from changes in market interest rates and changes in the shape of the yield curve.

The provision for loan losses is dependent on changes in the loan portfolio and management's assessment of the collectability of the loan portfolio as well as prevailing economic and market conditions. The provision for loan losses reflects the amount that the Company believes is adequate to cover potential credit losses in its loan portfolio. Additionally, net income is affected by non-interest income and non-interest expenses. For the three and six month periods ended March 31, 2010, non-interest income consisted primarily of service charges and fees on deposit accounts, ATM transaction fees, gain on sale of loans, increase in the cash surrender value of life insurance, servicing income and other operating income. Non-interest income is reduced by net OTTI losses on investment securities. Non-interest expenses consisted primarily of salaries and employee benefits, premises and equipment, advertising, ATM related expenses, OREO expenses, postage and courier, professional fees, state and local taxes and deposit insurance premiums. Non-interest income and non-interest expenses are affected by the growth of our operations and growth in the number of loan and deposit accounts.

Results of operations may be affected significantly by general and local economic and competitive conditions, changes in market interest rates, governmental policies and actions of regulatory authorities.

The Bank is a community-oriented bank which has traditionally offered a

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

variety of savings products to its retail customers while concentrating its lending activities on real estate mortgage loans. Lending activities have been focused primarily on the origination of loans secured by real estate, including an emphasis on residential construction loans, one- to four-family residential loans, multi-family loans, commercial real estate loans and land loans. The Bank originates adjustable-rate residential mortgage loans that do not qualify for sale in the secondary market. The Bank also originates commercial business loans.

26

Critical Accounting Policies and Estimates

The Company has identified several accounting policies that as a result of judgments, estimates and assumptions inherent in those policies, are critical to an understanding of the Company's Consolidated Financial Statements.

Allowance for Loan Losses. The allowance for loan losses is maintained at a level believed to be sufficient to provide for probable loan losses based on evaluating known and inherent risks in the loan portfolio. The allowance is based upon management's comprehensive analysis of the pertinent factors underlying the quality of the loan portfolio. These factors include changes in the amount and composition of the loan portfolio, actual loss experience, current economic conditions, and detailed analysis of individual loans for which the full collectability may not be assured. The detailed analysis includes methods to estimate the fair value of loan collateral and the existence of potential alternative sources of repayment. The appropriate allowance for loan loss level is estimated based upon factors and trends identified by management at the time consolidated financial statements are prepared.

While the Company believes it has established its existing allowance for loan losses in accordance with GAAP, there can be no assurance that regulators, in reviewing the Company's loan portfolio, will not request the Company to significantly increase or decrease its allowance for loan losses. In addition, because future events affecting borrowers and collateral cannot be predicted with certainty, there can be no assurance that the existing allowance for loan losses is adequate or that substantial increases will not be necessary should the quality of any loans deteriorate as a result of the factors discussed elsewhere in this document. Although management believes the level of the allowance as of March 31, 2010 was adequate to absorb probable losses inherent in the loan portfolio, a decline in local economic conditions, results of examinations by the Company's or the Bank's regulators or other factors, could result in a material increase in the allowance for loan losses and may adversely affect the Company's financial condition and results of operations.

Mortgage Servicing Rights. Mortgage servicing rights ("MSRs") are capitalized when acquired through the origination of loans that are subsequently sold with servicing rights retained and are amortized to servicing income on loans sold in proportion to and over the period of estimated net servicing income. The value of MSRs at the date of the sale of loans is determined based on the discounted present value of expected future cash flows using key assumptions for servicing income and costs and prepayment rates on the underlying loans. The estimated fair value is periodically evaluated for impairment by comparing actual cash flows and estimated cash flows from the servicing assets to those estimated at the time servicing assets were originated. The effect of changes in market interest rates on estimated rates of loan prepayments represents the

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

predominant risk characteristic underlying the MSRs portfolio. The Company's methodology for estimating the fair value of MSRs is highly sensitive to changes in assumptions. For example, the determination of fair value uses anticipated prepayment speeds. Actual prepayment experience may differ and any difference may have a material effect on the fair value. Thus, any measurement of MSRs' fair value is limited by the conditions existing and assumptions as of the date made. Those assumptions may not be appropriate if they are applied at different times.

OTTIs (Other-Than-Temporary Impairments) in the Fair Value of Investment Securities. Unrealized losses on available for sale and held to maturity investment securities are evaluated at least quarterly to determine whether declines in value should be considered "other than temporary" and therefore be subject to immediate loss recognition through earnings for the portion related to credit losses. Although these evaluations involve significant judgment, an unrealized loss in the fair value of a debt security is generally deemed to be temporary when the fair value of the security is less than the recorded value primarily as a result of changes in interest rates, when there has not been significant deterioration in the financial condition of the issuer, and it is more likely than not the Company will not have to sell the security before recovery of its cost basis. An unrealized loss in the value of an equity security is generally considered temporary when the fair value of the security is less than the recorded value primarily as a result of current market conditions and not a result of

27

deterioration in the financial condition of the issuer or the underlying collateral (in the case of mutual funds) and the Company has the intent and the ability to hold the security for a sufficient time to recover the recorded value. Other factors that may be considered in determining whether a decline in the value of either a debt or equity security is "other than temporary" include ratings by recognized rating agencies; capital strength and near-term prospects of the issuer, and recommendation of investment advisors or market analysts. Therefore, continued deterioration of current market conditions could result in additional impairment losses recognized within the Company's investment portfolio.

Goodwill. Goodwill is initially recorded when the purchase price paid for an acquisition exceeds the estimated fair value of the net identified tangible and intangible assets acquired and liabilities assumed. Goodwill is presumed to have an indefinite useful life and is analyzed annually for impairment. An annual test is performed during the third quarter of each fiscal year, or more frequently if indicators of potential impairment exist, to determine if the recorded goodwill is impaired. If the fair value of the Company's sole reporting unit exceeds the recorded value, goodwill is not considered impaired and no additional analysis is necessary.

One of the circumstances evaluated when determining if an impairment test of goodwill is needed more frequently than annually is the extent and duration that the Company's market capitalization (total common shares outstanding multiplied by current stock price) is less than the total equity applicable to common shareholders. During the quarter ended March 31, 2009, the Company's market capitalization decreased to a level that required a goodwill impairment test prior to the annual test. Therefore, the Company engaged a third party firm to perform an interim test for goodwill impairment during the quarter ended March 31, 2009. The test concluded that recorded goodwill was not impaired. The Company updated the interim test for goodwill impairment

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

internally during the quarter ended June 30, 2009 and concluded that recorded goodwill was not impaired. As of March 31, 2010, there have been no events or changes in the circumstances that would indicate a potential impairment to recorded goodwill. No assurance can be given, however, that the Company will not record an impairment loss on goodwill in the future.

Other Real Estate Owned and Other Repossessed Assets. Other real estate owned and other repossessed assets consist of properties or assets acquired through or by deed in lieu of foreclosure, and are recorded initially at the fair value of the properties less estimated costs of disposal. Costs relating to the development and improvement of the properties or assets are capitalized while costs relating to holding the properties or assets are expensed. Valuations are periodically performed by management, and a charge to earnings is recorded if the recorded value of a property exceeds its estimated net realizable value.

Comparison of Financial Condition at March 31, 2010 and September 30, 2009

The Company's total assets increased by \$23.10 million, or 3.3%, to \$724.78 million at March 31, 2010 from \$701.68 million at September 30, 2009. The increase was primarily attributable to an increase in cash equivalents and short-term CDs held for investment.

Net loans receivable decreased by \$8.56 million, or 1.6%, to \$538.65 million at March 31, 2010 as compared to \$547.21 million at September 30, 2009. The decrease was primarily due to a significant decrease in construction and land development loan balances and an increase in the allowance for loan losses during the six months ended March 31, 2010, which were partially offset by an increase in commercial real estate loan balances, multi-family loan balances and commercial business loan balances.

Total deposits increased by \$46.06 million, or 9.1%, to \$551.72 million at March 31, 2010 from \$505.66 million at September 30, 2009, primarily as a result of increases in N.O.W. checking account balances and CD account balances.

28

Shareholders' equity decreased by \$2.33 million, or 2.7%, to \$84.87 million at March 31, 2010 from \$87.20 million at September 30, 2009. The decrease was primarily due to a net loss for the six months, which was partially offset by a reduction in the accumulated other comprehensive loss equity component, due to a reduction in unrealized losses on investment securities.

A more detailed explanation of the changes in significant balance sheet categories follows:

Cash Equivalents and CDs Held for Investment: Cash equivalents and CDs held for investment increased by \$23.85 million, or 34.2%, to \$93.57 million at March 31, 2010 from \$69.71 million at September 30, 2009. The increase in cash equivalents and short-term CDs was primarily due to the Company's decision to increase its liquidity position for regulatory and asset-liability management purposes.

Mortgage-backed Securities and Other Investments: Mortgage-backed securities and other investments decreased by \$2.35 million, or 11.4%, to \$18.21 million at March 31, 2010 from \$20.56 million at September 30, 2009. The decrease was

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

primarily as a result of regular amortization and prepayments on mortgage-backed securities and OTTI charges recorded on private label residential mortgage-backed securities. The securities on which the OTTI charges were recognized were acquired from the in-kind redemption of the Bank's investment in the AMF family of mutual funds in June 2008. For additional information, see Note 3 of the Notes to Condensed Consolidated Financial Statements contained in "Item 1, Financial Statements."

Loans: Net loans receivable decreased by \$8.56 million, or 1.6% to \$538.65 million at March 31, 2010 from \$547.21 million at September 30, 2009. The decrease in the portfolio was primarily a result of a \$26.32 million decrease in construction loan balances (net of undisbursed portion of construction loans in process), a \$2.79 million decrease in consumer loan balances, a \$1.79 million decrease in land loan balances and a \$2.52 million increase in the allowance for loan losses. These decreases to net loans receivable were partially offset by a \$9.97 million increase in commercial real estate loan balances, a \$7.60 million increase in multi-family loan balances, a \$4.40 million increase in commercial business loan balances and a \$2.74 million increase in one-to-four family loan balances. The decrease in the construction and land loan balances was primarily due to loan payoffs and changes in the Bank's underwriting standards for these types of loans, which has decreased the level of construction and land loan originations.

Loan originations decreased to \$96.69 million for the six months ended March 31, 2010 from \$142.22 million for the six months ended March 31, 2009 primarily due to a decrease in the demand for single family home loan refinances. The Bank continued to sell longer-term fixed rate loans for asset liability management purposes and to generate non-interest income. The Bank sold fixed rate one- to four-family mortgage loans totaling \$32.32 million for the six months ended March 31, 2010 compared to \$71.26 million for the six months ended March 31, 2009.

For additional information, see Note 5 of the Notes to Condensed Consolidated Financial Statements contained in "Item 1, Financial Statements."

Premises and Equipment: Premises and equipment decreased by \$295,000, or 1.6%, to \$17.75 million at March 31, 2010 from \$18.05 million at September 30, 2009. The decrease was primarily a result of depreciation.

Other Real Estate Owned ("OREO"): OREO and other repossessed assets increased by \$5.29 million, or 64.7%, to \$13.48 million at March 31, 2010 from \$8.19 million at September 30, 2009. At March 31, 2010, OREO consisted of 29 individual properties and three other repossessed assets representing 25 relationships. The properties consisted of two condominium projects totaling \$4.21 million, three land development projects totaling \$4.19 million, 12 single family homes totaling \$3.54 million, two commercial real estate properties totaling \$951,000 and ten land parcels totaling \$512,000.

29

Goodwill and CDI: The value of goodwill at \$5.65 million at March 31, 2010 remained unchanged from September 30, 2009. The amortized value of the CDI decreased to \$659,000 at March 31, 2010 from \$755,000 at September 30, 2009. The decrease was attributable to scheduled amortization of the CDI.

Deposits: Deposits increased by \$46.06 million, or 9.1%, to \$551.72 million at March 31, 2010 from \$505.66 million at September 30, 2009. The increase was

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

primarily a result of a \$23.76 million increase in N.O.W. checking account balances, a \$21.30 million increase in CD account balances and a \$6.19 million increase in savings account balances. These increases were partially offset by a \$4.76 million decrease in money market account balances. The increase in N.O.W. account balances was primarily a result of the Bank's checking account promotions. The increase in CD account balances was primarily a result of increased demand for CD accounts by customers in the Bank's market areas. The Bank experienced deposit inflows due to a number of customers transferring funds from other financial institutions during the six months ended March 31, 2010.

FHLB Advances and Other Borrowings: FHLB advances and other borrowings (including repurchase agreements) decreased by \$20.33 million, or 19.2%, to \$85.45 million at March 31, 2010 from \$105.78 million at September 30, 2009 as the Bank used a portion of its liquid assets to repay maturing FHLB advances. For additional information, see "Borrowing Maturity Schedule" set forth below.

Shareholders' Equity: Total shareholders' equity decreased by \$2.33 million, or 2.7%, to \$84.87 million at March 31, 2010 from \$87.20 million at September 30, 2009. The decrease was primarily due to a \$2.95 million net loss and the payment of \$699,000 in dividends to common and preferred shareholders and was partially offset by a \$1.15 million reduction in the accumulated other comprehensive loss equity component, due to a reduction in unrealized losses on investment securities.

Non-performing Assets: Non-performing assets consist of non-accrual loans, non-accrual investment securities, and OREO and other repossessed assets. At March 31, 2010, five loans totaling \$5.22 million were 90 days or more past due and still accruing interest. At September 30, 2009, five loans totaling \$796,000 were 90 days or more past due and still accruing interest. Non-performing assets to total assets increased to 5.95% at March 31, 2010 from 5.41% at September 30, 2009, as OREO and other repossessed assets increased by \$5.29 million and non-accrual investment securities increased by \$2.79 million. Partially offsetting these increases to non-performing assets was a \$2.94 million decrease in non-accrual loans.

Total non-performing loans of \$26.35 million at March 31, 2010 were comprised of 65 loans and 43 credit relationships. Included in these non-performing loans at March 31, 2010 were:

- * 27 land loans totaling \$7.78 million (of which the largest had a balance of \$844,000)
- * Six land development loans totaling \$6.64 million (of which the largest had a balance of \$2.34 million)
- * Four commercial real estate loans totaling \$3.47 million (of which the largest had a balance of \$2.84 million)
- * 12 single family home loans totaling \$2.69 million (of which the largest had a balance of \$756,000)
- * Six single family speculative loans totaling \$2.45 million (of which the largest had a balance of \$775,000)
- * Two condominium construction loans totaling \$2.13 million (of which the largest had a balance of \$1.80 million)
- * Two one-to-four family owner/builder construction loans totaling \$991,000 (of which the largest had a balance of \$800,000)
- * One commercial business loan with a balance of \$78,000
- * Three home equity loans totaling \$70,000
- * Two consumer loans totaling \$63,000

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

The Company had net charge-offs totaling \$5.28 million for the six months ended March 31, 2010 compared to \$2.37 million for the six months ended March 31, 2009. The charge-offs during the six months ended March 31, 2010 were primarily associated with construction loans and land loans. In recognition of a real estate market that reflected lower valuations during the period net charge-offs consisted of the following:

- * \$1.55 million on three condominium construction loans
- * \$1.22 million on three commercial real estate loans
- * \$1.12 million on 17 land loans
- * \$488,000 on four land development loans
- * \$414,000 on three single family construction loans
- * \$266,000 on six single family speculative construction loans
- * \$164,000 on six home equity loans
- * \$46,000 on four single family home loans
- * \$11,000 on three consumer loans

For additional information, see Note 5 of the Notes to Condensed Consolidated Financial Statements contained in "Item 1, Financial Statements."

Deposit Breakdown

The following table sets forth the composition of the Bank's deposit balances.

	At March 31, 2010	At September 30, 2009
	-----	-----
(In thousands)		
Non-interest bearing	\$ 49,870	\$ 50,295
N.O.W. checking	141,119	117,357
Savings	64,800	58,609
Money market accounts	57,716	62,478
CDs under \$100	144,957	135,242
CDs \$100 and over	89,262	77,926
CDs - brokered	4,000	3,754
	-----	-----
Total deposits	\$551,724	\$505,661
	=====	=====

Borrowing Maturity Schedule

The Bank has short- and long-term borrowing lines with the FHLB of Seattle with total credit on the lines equal to 30% of the Bank's total assets, limited by available collateral. Borrowings are considered short-term when the original maturity is less than one year. FHLB advances consisted of the following:

	At March 31, 2010		At September 30, 2009	
	Amount	Percent	Amount	Percent
	-----	-----	-----	-----
(Dollars in thousands)				
Short-term	\$ - -	- -%	\$ - -	- -%
Long-term	75,000	100.0	95,000	100.0
	-----	-----	-----	-----
Total FHLB advances	\$75,000	100.0%	\$95,000	100.0%
	=====	=====	=====	=====

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

The long-term borrowings mature at various dates through September 2017 and bear interest at rates ranging from 3.49% to 4.66%. The weighted average interest rate on FHLB borrowings at March 31, 2010 was 4.03%. Principal reduction amounts due for future years ending September 30 are as follows (in thousands):

Remainder of 2010	\$ - -
2011	20,000
2012	10,000
2013	- -
2014	- -
Thereafter	45,000

Total	\$75,000
	=====

A portion of these advances have a puttable feature and may be called by the FHLB earlier than the above schedule indicates.

The Bank also maintains a short-term borrowing line with the Federal Reserve Bank of San Francisco with total credit based on eligible collateral. As of March 31, 2010, the Bank had a borrowing line capacity of \$11.44 million of which, one note in the amount of \$10.00 million was outstanding. The borrowing matured on April 1, 2010 and had an interest rate of 0.75%. As of September 30, 2009 the Bank had \$10.00 million outstanding on the borrowing line with the Federal Reserve Bank of San Francisco.

The Bank has also been approved for a \$10.00 million overnight borrowing line with Pacific Coast Bankers Bank ("PCBB"). The borrowing line may be reduced or withdrawn at any time and must be collateralized. As of March 31, 2010 and September 30, 2009, the Bank did not have any outstanding advances on this borrowing line. As of March 31, 2010 and September 30, 2009, the Bank did not have any collateral pledged for this borrowing line.

Comparison of Operating Results for the Three and Six Months Ended March 31, 2010 and 2009 The Company reported a net loss of \$(3.18 million) for the quarter ended March 31, 2010 compared to a net loss of \$ (1.39 million) for the quarter ended March 31, 2009. Net loss to common shareholders after adjusting for the preferred stock dividend and the preferred stock discount accretion was \$(3.44 million) for the quarter ended March 31, 2010 compared to a net loss of \$(1.60 million) for the quarter ended March 31, 2009. The increased loss was primarily a result of decreased non-interest income and increased non-interest expenses. Diluted loss per common share was \$(0.51) for the quarter ended March 31, 2010 compared to a loss of \$(0.24) for the quarter ended March 31, 2009.

The Company reported a net loss of \$(2.95 million) for the six months ended March 31, 2010 compared to a net loss of \$ (1.03 million) for the six months ended March 31, 2009. Net loss to common shareholders after adjusting for the preferred stock dividend and the preferred stock discount accretion was \$(3.47 million) for the six months ended March 31, 2010 compared to a net loss of \$(1.26 million) for the six months ended March 31, 2009. The increased loss was primarily a result of increased provisions for loan losses, decreased non-interest income and increased non-interest expenses. Diluted loss per common share was \$(0.52) for the six months ended March 31, 2010 compared to a loss of \$(0.19) for the six months ended March 31, 2009.

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

A more detailed explanation of the income statement categories is presented below.

Net Loss: The net loss for the quarter ended March 31, 2010 increased by \$1.79 million, or 128.1%, to \$(3.18 million) from a net loss of \$(1.39 million) for the quarter ended March 31, 2009. Net loss to common shareholders after adjusting for preferred stock dividends of \$208,000 and preferred stock discount accretion of \$52,000 was a loss of \$(3.44 million), or \$(0.51) per diluted common share for the quarter ended March 31,

32

2010, compared to a net loss of \$(1.60 million), or \$(0.24) per diluted common share for the quarter ended March 31, 2009.

The \$0.27 increase in diluted loss per common share was primarily the result of a \$1.48 million (\$978,000 net of income tax - \$0.15 per diluted common share) decrease in non-interest income and a \$1.25 million (\$825,000 net of income tax - \$0.12 per diluted common share) increase in non-interest expense.

The net loss for the six months ended March 31, 2010 increased by \$1.92 million, or 186.5%, to \$(2.95 million) from a net loss of \$(1.03 million) for the six months ended March 31, 2009. Net loss to common shareholders after adjusting for preferred stock dividends of \$416,000 and preferred stock discount accretion of \$103,000 was a loss of \$(3.47 million), or \$(0.52) per diluted common share for the six months ended March 31, 2010, compared to a net loss of \$(1.26 million), or \$(0.19) per diluted common share for the six months ended March 31, 2009.

The \$0.33 increase in diluted loss per common share for the six months ended March 31, 2010 was primarily the result of a \$1.30 million (\$861,000 net of income tax - \$0.13 per diluted common share) increase in the provision for loan losses, a \$1.21 million (\$801,000 net of income tax - \$0.12 per diluted common share) increase in non-interest expense, a \$419,000 (\$277,000 net of income tax - \$0.04 per diluted common share) decrease in non-interest income and a \$292,000 increase in preferred stock dividends and preferred stock accretion which increased the net loss to common shareholders by approximately \$0.04 per diluted common share.

Net Interest Income: Net interest income increased by \$29,000, or 0.5%, to \$6.45 million for the quarter ended March 31, 2010 from \$6.42 million for the quarter ended March 31, 2009. The increase in net interest income was primarily attributable to an increased level of average interest earning assets which was partially offset by margin compression due to an increased level of relatively low yielding cash equivalents and other liquid assets.

Total interest and dividend income decreased by \$644,000 or 6.6%, to \$9.16 million for the quarter ended March 31, 2010 from \$9.80 million for the quarter ended March 31, 2009 as the yield on interest earning assets decreased to 5.59% from 6.20%. The decrease in the weighted average yield on interest earning assets was primarily a result of an increase in the amount of lower yielding cash equivalents and other liquid assets and an increase in the amount of loans on non-accrual status. Total average interest earning assets increased by \$22.88 million to \$655.36 million for the quarter ended March 31, 2010 from \$632.48 million for quarter ended March 31, 2009. Total interest expense decreased by \$673,000, or 19.9%, to \$2.71 million for the quarter ended March 31, 2010 from \$3.38 million for the quarter ended March 31, 2009 as the average rate paid on interest bearing liabilities decreased to 1.88%

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

for the quarter ended March 31, 2010 from 2.58% for the quarter ended March 31, 2009. The decrease in funding costs was primarily a result of a decrease in overall market rates and a decrease in the level of average FHLB advances. Total average interest bearing liabilities increased by \$40.03 million to \$572.71 million for the quarter ended March 31, 2010 from \$532.68 million for the quarter ended March 31, 2009. The net interest margin decreased to 3.93% for the quarter ended March 31, 2010 from 4.06% for the quarter ended March 31, 2009. The margin compression was primarily attributable to the reversal of interest income on loans placed on non-accrual status during the quarter ended March 31, 2010 and an increased level of liquid assets with lower yields. The reversal of interest income on loans placed on non-accrual status during the quarter ended March 31, 2010 reduced the net interest margin by approximately 10 basis points.

Net interest income decreased by \$43,000, or 0.3%, to \$12.84 million for the six months ended March 31, 2010 from \$12.88 million for the six months ended March 31, 2009. The decrease in net interest income was primarily attributable to an increased level of non-accrual loans and an increased level of relatively low yielding cash equivalents and other liquid assets.

33

Total interest and dividend income decreased by \$1.33 million or 6.7%, to \$18.50 million for the six months ended March 31, 2010 from \$19.83 million for the six months ended March 31, 2009 as the yield on interest earning assets decreased to 5.67% from 6.35%. The decrease in the weighted average yield on interest earning assets was primarily a result of an increase in the amount of lower yielding cash equivalents and other liquid assets and an increase in the amount of loans on non-accrual status. Total average interest earning assets increased by \$27.12 million to \$652.02 million for the six months ended March 31, 2010 from \$624.90 million for the six months ended March 31, 2009. Total interest expense decreased by \$1.28 million, or 18.5%, to \$5.66 million for the six months ended March 31, 2010 from \$6.95 million for the six months ended March 31, 2009 as the average rate paid on interest bearing liabilities decreased to 2.00% for the six months ended March 31, 2010 from 2.62% for the six months ended March 31, 2009. The decrease in funding costs was primarily a result of a decrease in overall market rates and a decrease in the level of average FHLB advances. Total average interest bearing liabilities increased by \$34.72 million to \$566.51 million for the six months ended March 31, 2010 from \$531.78 million for the six months ended March 31, 2009. The net interest margin decreased to 3.94% for the six months ended March 31, 2010 from 4.12% for the six months ended March 31, 2009. The margin compression was primarily attributable to the reversal of interest income on loans placed on non-accrual status during the six months ended March 31, 2010 and an increased level of liquid assets with lower yields. The reversal of interest income on loans placed on non-accrual status during the six months ended March 31, 2010 reduced the net interest margin by approximately 16 basis points.

Rate Volume Analysis

The following table sets forth the effects of changing rates and volumes on the net interest income on the Company. Information is provided with respect to the (i) effects on interest income attributable to change in volume (changes in volume multiplied by prior rate), and (ii) effects on interest income attributable to changes in rate (changes in rate multiplied by prior volume), and (iii) the net change (sum of the prior columns). Changes in rate/volume have been allocated to rate and volume variances based on the absolute values of each.

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

March 31, 2010 from \$6.49 million for the six months ended March 31, 2009. The increased provisions for the three and six months ended March 31, 2010 were primarily as a result of an increase in the level of net charge-offs, an increase in the level of potential principal impairment on non-performing loans, and uncertainties in real estate values in certain market areas of the Pacific Northwest.

The Bank has established a comprehensive methodology for determining the provision for loan losses. On a quarterly basis the Bank performs an analysis that considers pertinent factors underlying the quality of the loan portfolio. The factors include changes in the amount and composition of the loan portfolio, historic loss experience for various loan segments, changes in economic conditions, delinquency rates, a detailed analysis of impaired loans, and other factors to determine an appropriate level of allowance for loan losses. Management's analysis for the three and six months ended March 31, 2010, also placed greater emphasis on the Bank's construction and land development loan portfolio and the effect of various factors such as geographic and loan type concentrations. Based on its comprehensive analysis, management believes the allowance for loan losses of \$16.69 million at March 31, 2010 (3.00% of loans receivable and loans held for sale and 63.3% of non-performing loans) is adequate to provide for probable losses based on an evaluation of known and inherent risks in the loan portfolio at that date. Impaired loans are subjected to an impairment analysis to determine an appropriate reserve amount to be held against each loan. The aggregate principal impairment amount determined at March 31, 2010 was \$5.54 million. The allowance for loan losses was \$12.05 million (2.13% of loans receivable and 60.6% of non-performing loans) at March 31, 2009. The Company had net charge-offs of \$5.28 million during the six months ended March 31, 2010 and net charge-offs of \$2.37 million for the six months ended March 31, 2009.

Non-accrual and 90 day past due loans increased \$1.48 million to \$31.57 million at March 31, 2010 from \$30.01 million at September 30, 2009. Non-accrual loans were comprised of 65 loans and 43 credit relationships. For additional information, see the section entitled "Non-performing Assets" included herein.

While management believes the estimates and assumptions used in its determination of the adequacy of the allowance are reasonable, there can be no assurance that such estimates and assumptions will not be proven incorrect in the future, or that the actual amount of future provisions will not exceed the amount of past provisions or that any increased provisions that may be required will not adversely impact the Company's financial condition and results of operations. In addition, the determination of the amount of the Bank's allowance for loan losses is subject to review by bank regulators as part of the routine examination process, which may result in the establishment of additional reserves based upon their analysis of information available to them at the time of their examination. In addition, because future events affecting borrowers and collateral

cannot be predicted with certainty, there can be no assurance that the existing allowance for loan losses is adequate or that substantial increases will not be necessary should the quality of any loans deteriorate. Any material increase in the allowance for loan losses would adversely affect the Company's financial condition and results of operations. For additional information, see Note 5 of the Notes to Condensed Consolidated Financial Statements contained in "Item 1, Financial Statements."

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

Non-interest Income: Total non-interest income decreased \$1.48 million, or 77.5%, to \$430,000 for the quarter ended March 31, 2010 from \$1.91 million for the quarter ended March 31, 2009. Excluding net OTTI losses on investment securities, non-interest income decreased \$890,000, or 30.9% to \$1.99 million for the quarter ended March 31, 2010 from \$2.88 million for the quarter ended March 31, 2009. This decrease was primarily a result of a \$722,000 decrease in gains on sale of loans and a \$141,000 decrease in BOLI income. The decreased income from loan sales was primarily a result of a decrease in the dollar value of residential mortgage loans sold in the secondary market during the three months ended March 31, 2010. The sale of fixed rate one-to four-family mortgage loans totaled \$13.47 million for the three months ended March 31, 2010 compared to \$61.02 million for the three months ended March 31, 2009. The higher loan sales during the three months ended March 31, 2009 was primarily due to increased refinancing activity that was attributable to lower interest rates for 30-year fixed rates loans. The higher BOLI income for the three months ended March 31, 2009 was primarily due to a \$134,000 non-recurring gain associated with transferring a portion of the BOLI portfolio to a new insurance company.

The net OTTI loss on investment securities increased \$592,000, or 61.4%, to \$1.56 million for the quarter ended March 31, 2010 from \$964,000 for the quarter ended March 31, 2009. The increased OTTI loss was primarily the result of using an updated third party model that incorporated harsher assumptions to evaluate the projected cash flows on certain private label mortgage-backed securities in the Bank's investment portfolio and additional deterioration in the underlying loans supporting the securities.

Total non-interest income decreased by \$419,000, or 14.9%, to \$2.40 million for the six months ended March 31, 2010 from \$2.82 million for the six months ended March 31, 2009. Excluding net OTTI losses on investment securities, non-interest income decreased by \$677,000, or 13.7% to \$4.28 million for the six months ended March 31, 2010 from \$4.95 million for the six months ended March 31, 2009. This decrease was primarily a result of a \$554,000 decrease in gains on sale of loans and a \$129,000 decrease in BOLI income. The decreased income from loan sales was primarily a result of a decrease in the dollar value of residential mortgage loans sold in the secondary market during the six months ended March 31, 2010. The sale of fixed rate one-to four-family mortgage loans totaled \$32.32 million for the six months ended March 31, 2010 compared to \$71.56 million for the six months ended March 31, 2009. The higher loan sales during the six months ended March 31, 2009 was primarily due to increased refinancing activity that was attributable to lower interest rates for 30-year fixed rates loans. The higher BOLI income for the six months ended March 31, 2009 was primarily due to a \$134,000 non-recurring gain associated with transferring a portion of the BOLI portfolio to a new insurance company.

The net OTTI loss on investment securities decreased \$258,000, or 12.1% to \$1.88 million for the six months ended March 31, 2010 from \$2.13 million for the six months ended March 31, 2009.

Non-interest Expense: Total non-interest expense increased by \$1.25 million, or 23.0%, to \$6.69 million for the quarter ended March 31, 2010 from \$5.44 million for the quarter ended March 31, 2009. This increase was primarily a result of a \$707,000 increase in FDIC insurance expense, a \$245,000 increase in OREO and other repossessed items expense, a \$95,000 increase in salaries and employee benefits expense and an \$89,000 increase in the Company's general liability insurance expense. The increase in FDIC insurance expense was primarily due to increased assessment rates and a \$503,000 non-recurring accrual adjustment. Without the non-recurring adjustment the FDIC insurance expense would have been \$303,000 for the three months ended March 31, 2010 compared to \$99,000 for the three months ended March 31, 2009. Management

concluded, after

36

performing an analysis, that an adjustment to reported results for prior periods was not necessary for the non-recurring accrual adjustment. The increase in OREO related expenses was primarily a result of valuation write-downs based on updated appraisals received for several Bank owned properties.

Total non-interest expense increased by \$1.21 million, or 11.1%, to \$12.19 million for the six months ended March 31, 2010 from \$10.98 million for the six months ended March 31, 2009. This increase was primarily a result of an \$819,000 increase in FDIC insurance expense, a \$235,000 increase in OREO and other repossessed items expense and an \$88,000 increase in the Company's general liability insurance expense. The increase in FDIC insurance expense was primarily due to increased assessment rates and a non-recurring accrual adjustment which increased the expense for the six months ended March 31, 2010 by \$400,000. Without the non-recurring adjustment the FDIC insurance expense would have been \$605,000 for the six months ended March 31, 2010 compared to \$186,000 for the six months ended March 31, 2009. The increase in OREO related expenses was primarily a result of valuation write-downs based on updated appraisals received for several Bank owned properties.

Provision (Benefit) for Income Taxes: The benefit for income taxes increased \$937,000 to \$1.83 million for the quarter ended March 31, 2010 from a net benefit of \$896,000 for the quarter ended March 31, 2009 primarily as a result of an increased loss before taxes. The Company's effective tax (benefit) rate was (36.58%) for the quarter ended March 31, 2010 and (39.14%) for the quarter ended March 31, 2009.

The benefit for income taxes increased by \$1.06 million to \$1.80 million for the six months ended March 31, 2010 from a net benefit of \$739,000 for the six months ended March 31, 2009 primarily as a result of an increased loss before taxes. The Company's effective tax (benefit) rate was (37.80%) for the six months ended March 31, 2010 and (41.75%) for the six months ended March 31, 2009.

The change in the effective tax (benefit) rate is primarily due to the loss before taxes and the non-taxable BOLI earnings which increases the effective tax benefit in periods with a loss before taxes.

Liquidity

The Company's primary sources of funds are customer deposits, proceeds from principal and interest payments on loans and mortgage-backed securities, proceeds from the sale of loans, proceeds from maturing securities and maturing CDs held for investment, FHLB advances, and other borrowings. While maturities and the scheduled amortization of loans are a predictable source of funds, deposit flows and mortgage prepayments are greatly influenced by general interest rates, economic conditions and competition.

An analysis of liquidity should include a review of the Condensed Consolidated Statement of Cash Flows for the six months ended March 31, 2010. The Condensed Consolidated Statement of Cash Flows includes operating, investing and financing categories. Operating activities include net loss, which is adjusted for non-cash items, and increases or decreases in cash due to changes in assets and liabilities. Investing activities consist primarily of proceeds

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

from maturities and sales of securities, purchases of securities, and the net change in loans. Financing activities present the cash flows associated with the Company's deposit accounts, other borrowings and stock related transactions.

The Company's total cash equivalents increased by \$9.00 million, or 13.5% to \$75.46 million at March 31, 2010 from \$66.46 million at September 30, 2009. The increase in liquid assets was primarily reflected in an increase in interest bearing deposits in other banks.

The Bank must maintain an adequate level of liquidity to ensure the availability of sufficient funds for loan originations and deposit withdrawals, to satisfy other financial commitments and to take advantage of investment opportunities. The Bank generally maintains sufficient cash and short-term investments to meet short-term liquidity needs. At March 31, 2010, the Bank's regulatory liquidity ratio (net cash, and short-term

37

and marketable assets, as a percentage of net deposits and short-term liabilities) was 16.26%. The Bank maintained an uncommitted credit facility with the FHLB of Seattle that provided for immediately available advances up to an aggregate amount equal to 30% of total assets, limited by available collateral, under which \$75.00 million was outstanding and \$98.91 million was available for additional borrowings at March 31, 2010. The Bank also maintains a short-term borrowing line with the Federal Reserve Bank with total credit based on eligible collateral. At March 31, 2010, the Bank had \$10.00 million outstanding on this borrowing line. The Bank has also been approved for a \$10.00 million overnight borrowing line with PCBB, which must be collateralized. At March 31, 2010, the Bank had not pledged any collateral for this borrowing line and there was no outstanding balance.

Liquidity management is both a short and long-term responsibility of the Bank's management. The Bank adjusts its investments in liquid assets based upon management's assessment of (i) expected loan demand, (ii) projected loan sales, (iii) expected deposit flows, and (iv) yields available on interest-bearing deposits. Excess liquidity is invested generally in interest-bearing overnight deposits, federal funds sold, and other short-term investments. If the Bank requires funds that exceed its ability to generate them internally, it has additional borrowing capacity with the FHLB of Seattle and the Federal Reserve Bank.

The Bank's primary investing activity is the origination of one- to four-family mortgage loans, commercial mortgage loans, construction loans, land loans, consumer loans, and commercial business loans. At March 31, 2010, the Bank had loan commitments totaling \$42.49 million and undisbursed loans in process totaling \$18.82 million. The Bank anticipates that it will have sufficient funds available to meet current loan commitments. CDs that are scheduled to mature in less than one year from March 31, 2010 totaled \$191.77 million. Historically, the Bank has been able to retain a significant amount of its non-brokered certificates of deposit as they mature. At March 31, 2010, the Bank's brokered deposits consisted of \$4.00 million in reciprocal brokered certificate of deposit accounts exchanged through the Certificate of Deposits Account Registry Service ("CDARS") program.

Capital Resources

Federally-insured state-chartered banks are required to maintain minimum

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

levels of regulatory capital. Under current FDIC regulations, insured state-chartered banks generally must maintain (i) a ratio of Tier 1 leverage capital to total assets of at least 4.0% to 5.0%, (ii) a ratio of Tier 1 capital to risk weighted assets of at least 4.0% and (iii) a ratio of total capital to risk weighted assets of at least 8.0%. The Bank is currently required to maintain a well capitalized status and a Tier 1 leverage capital ratio of at least 10.0% under terms of a Memorandum of Understanding with the FDIC and the Washington Department of Financial Institutions, Division of Banks (the "Bank MOU"). For additional information regarding the Bank MOU, see "Item 1A, Risk Factors The Company and the Bank are required to comply with the terms of separate memoranda of understanding issued by their respective regulators and lack of compliance could result in additional regulatory actions."

At March 31, 2010, the Bank was in compliance with all applicable capital requirements.

38

The following table compares the Company's and the Bank's actual capital amounts at March 31, 2010 to its minimum regulatory capital requirements at that date (dollars in thousands):

	Actual		Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
Tier 1 leverage capital:						
Consolidated	\$79,605	11.27%	\$28,244	4.00%	N/A	N/A
Timberland Bank (1)	69,952	10.02	69,798	10.00	\$69,798	10.00%
Tier 1 risk adjusted capital:						
Consolidated	79,605	14.04	22,687	4.00	N/A	N/A
Timberland Bank (1)	69,952	12.37	33,916	6.00	33,916	6.00
Total risk based capital						
Consolidated	86,813	15.31	45,373	8.00	N/A	N/A
Timberland Bank (1)	77,147	13.65	56,527	10.00	56,527	10.00

 (1) Reflects the higher Tier 1 leverage capital ratio that the Bank is required to comply with under terms of the Bank MOU with the FDIC and the Division. Also reflects that the Bank is required to maintain Tier 1 risk adjusted capital ratio and Total risk-based capital ratio at or above the "well capitalized" thresholds under the terms of the Bank MOU.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

 There were no material changes in information concerning market risk from the information provided in the Company's Form 10-K for the fiscal year ended September 30, 2009.

Item 4T. Controls and Procedures

-
- (a) Evaluation of Disclosure Controls and Procedures: An evaluation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934 (the "Exchange Act")) was carried out under the supervision and with the participation of the Company's Chief Executive Officer, Chief Financial Officer and several other members of the Company's senior management as of the end of the period covered by this report. The Company's Chief Executive Officer and Chief Financial Officer concluded that as of March 31, 2010 the Company's disclosure controls and procedures were effective in ensuring that the information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is (i) accumulated and communicated to the Company's management (including the Chief Executive Officer and Chief Financial Officer) in a timely manner to allow timely decisions regarding required disclosure, and (ii) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.
- (b) Changes in Internal Controls: There have been no changes in our internal control over financial reporting (as defined in 13a-15(f) of the Exchange Act) that occurred during the quarter ended March 31, 2010, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. The Company continued, however, to implement suggestions from its internal auditor and independent auditors to strengthen existing controls. The Company does not expect that its disclosure controls and procedures and internal control over financial reporting will prevent all errors and fraud. A control procedure, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control procedure are met. Because of the inherent limitations in all control procedures, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns in controls or procedures can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any control procedure is based in part upon certain assumptions about the likelihood of future

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; as over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control procedure, misstatements due to error or fraud may occur and not be detected.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Neither the Company nor the Bank is a party to any material legal proceedings at this time. From time to time, the Bank is involved in various claims and legal actions arising in the ordinary course of business.

41

Item 1A. Risk Factors

Listed below are updates to the risk factors provided in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2009 ("2009 Form 10-K"). These updates should be read in conjunction with the 2009 Form 10-K.

The Company and the Bank are required to comply with the terms of separate memorandums of understanding issued by their respective regulators and lack of compliance could result in additional regulatory actions.

As previously disclosed in the 2009 Form 10-K, in December 2009, the Federal Deposit Insurance Corporation ("FDIC") and the Washington State Department of Financial Institutions, Division of Banks ("Division") determined that the Bank required supervisory attention and on December 29, 2009 entered into an agreement on a Memorandum of Understanding with the Bank (the "Bank MOU"). Under that agreement, the Bank must among other things, maintain Tier 1 Capital of not less than 10.0% of the Bank's adjusted total assets and maintain capital ratios above "well capitalized" thresholds as defined under FDIC Rules and Regulations; obtain the prior consent from the FDIC and Division prior to the Bank declaring a dividend to its holding company; and not engage in any transactions that would materially change the Bank's balance sheet composition including growth in total assets of five percent or more or significant changes in funding sources, such as by increasing brokered deposits, without the prior non-objection of the FDIC.

In addition on February 1, 2010, the Federal Reserve Bank of San Francisco ("FRB") determined that the Company required additional supervisory attention and entered into a Memorandum of Understanding with the Company (the "Company MOU"). Under the terms of the Company MOU, the Company, without prior written approval, or non-objection, of the FRB, may not:

- * appoint any new director or senior executive officer or change the responsibilities of any current senior executive officers;
- * receive dividends or any other form of payment or distribution representing a reduction in capital from the Bank;
- * declare or pay any dividends, or make any other capital distributions;
- * incur, renew, increase, or guarantee any debt;
- * issue any trust preferred securities; and
- * purchase or redeem any of its stock.

Following the effective date of the Company MOU, the Company is required

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

to provide the FRB with progress reports regarding its compliance with the provisions of the Company MOU.

The Bank MOU and the Company MOU will remain in effect until stayed, modified, terminated or suspended by the FDIC and the Division or FRB, as the case may be. If either the Company or the Bank was found not in compliance with their respective MOU, it could be subject to various remedies, including among others, the power to enjoin "unsafe or unsound" practices, to require affirmative action to correct any conditions resulting from any violation or practice, to direct an increase in capital, to restrict growth, to remove officers and / or directors, and to assess civil monetary penalties. Management of the Company and the Bank have been taking action and implementing programs to comply with the requirements of the Company MOU and the Bank MOU, respectively. Compliance will be determined by the FDIC, Division and FRB. Any of these regulators may determine in their sole discretion that the issues raised by the Company MOU or the Bank MOU have not been addressed satisfactorily, or that any current or past actions, violations or deficiencies could be the subject of further regulatory enforcement actions. Such enforcement actions could involve penalties or further limitations on the Company's business and negatively affect its

42

ability to implement its business plan, pay dividends on its common stock or the value of its common stock, as well as its financial condition and result of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Not applicable

Item 3. Defaults Upon Senior Securities

None to be reported.

Item 4. Removed and Reserved

Item 5. Other Information

The Company's 2009 Annual Meeting of Shareholders was held on January 26, 2010 at the Hoquiam Timberland Library, 420 7th Street, Hoquiam, Washington. The results of the vote on the matters presented at the meeting are as follows:

The following individuals were elected as directors:

	For		Withheld		Broker
	No. of Votes	Percentage of Votes Cast	No. of Votes	Percentage of Votes Cast	Non-Votes No. of Votes
Michael R. Sand (three-year term)	2,877,958	97.20%	82,876	2.80%	2,221,986
David A. Smith (three-year term)	2,885,218	97.45%	75,616	2.55%	2,221,986

Edgar Filing: TIMBERLAND BANCORP INC - Form 10-Q

Larry D. Goldberg 2,857,255 96.50% 103,579 3.50% 2,221,986
 (two-year term)

The following directors, who were not up for re-election at the Annual Meeting of Shareholders, will continue to serve as directors: Andrea M. Clinton, James C. Mason, Jon C. Parker, and Ronald A. Robbel.

The compensation of the Company's named executive officers submitted for advisory approval was approved by the following vote:

	No. of Votes	Percentage
For	4,709,204	90.86%
Against	305,004	5.89%
Abstain	168,606	3.25%

McGladrey and Pullen, LLP was ratified as the Company's independent auditor by the following vote:

	No. of Votes	Percentage
For	5,026,532	96.98%
Against	95,925	1.85%
Abstain	60,363	1.17%
