Eaton Vance Corp.

Report for the Three Months and Fiscal Year Ended October 31, 2013

Boston, MA, November 26, 2013 Eaton Vance Corp. (NYSE: EV) today reported adjusted earnings per diluted share⁽¹⁾ of \$0.55 for the fourth quarter of fiscal 2013, an increase of 4 percent over the \$0.53 of adjusted earnings per diluted share in the fourth quarter of fiscal 2012 and an increase of 6 percent over the \$0.52 of adjusted earnings per diluted share in the third quarter of fiscal 2013. Adjusted earnings per diluted share were \$2.08 for the full fiscal year ended October 31, 2013, an increase of 10 percent over the \$1.89 for the fiscal year ended October 31, 2012.

As determined under U.S. generally accepted accounting principles (GAAP), the Company earned \$0.45 in the fourth quarter of fiscal 2013, \$0.45 in the fourth quarter of fiscal 2012 and \$0.18 in the third quarter of fiscal 2013. Adjusted earnings per diluted share differed from GAAP earnings per diluted share in the fourth quarter of fiscal 2013 and 2012 due to adjustments in connection with increases in the estimated redemption value of non-controlling interests in affiliates redeemable at other than fair value, which reduced GAAP earnings by \$0.10 and \$0.08 per diluted share, respectively. Adjusted earnings per diluted share differed from GAAP earnings per diluted share in the third quarter of fiscal 2013 to reflect \$0.28 per diluted share of costs associated with retiring \$250 million of the Company's 6.5 percent 2017 Senior Notes (2017 Senior Notes), \$0.05 per diluted share of charges in connection with settling a state tax matter and \$0.01 per diluted share of closed-end structuring fees incurred in connection with the \$135 million initial public offering of Eaton Vance Floating-Rate Income Plus Fund in June. The Company's GAAP earnings per diluted share were \$1.53 for the fiscal year ended October 31, 2013 and \$1.72 for the fiscal year ended October 31, 2012.

Net income and gains on seed capital investments were negligible in the fourth quarter of fiscal 2013 and contributed \$0.02 per diluted share in the fourth quarter of fiscal 2012. Losses (net of interest and dividend income) on seed capital investments reduced diluted earnings by \$0.02 per share in the third quarter of fiscal 2013.

Net inflows of \$3.9 billion into long-term funds and separate accounts in the fourth quarter of fiscal 2013 were driven by strong flows into floating-rate income and implementation services, and represent a 6 percent annualized internal growth rate (net inflows into long-term assets divided by beginning of period long-term assets managed). For comparison, the Company had net inflows of \$2.2 billion in the fourth quarter of fiscal 2012 and \$8.8 billion in the third quarter of fiscal 2013. Net inflows of \$24.7 billion for the fiscal year 2013 equate to 12 percent annual internal growth and compare to \$0.2 billion of net inflows in fiscal 2012.

"Fiscal 2013 was a period of significant progress for Eaton Vance, as we achieved double-digit organic growth and expanded our capabilities through the successful acquisition of Clifton Group" said Thomas E. Faust Jr., Chairman and Chief Executive Officer. "I see the Company as well-positioned for how our industry is evolving and poised for continued success."

Consolidated assets under management were \$280.7 billion on October 31, 2013. This is an increase of 41 percent from the \$199.5 billion of managed assets on October 31, 2012 and an increase of 4 percent from the \$268.8 billion of managed assets on July 31, 2013. The year-over-year increase in ending assets under management reflects the \$34.8 billion of managed assets acquired in the December 2012 acquisition of the former Clifton Group Investment Management Company (Clifton) by subsidiary Parametric Portfolio Associates LLC (Parametric), net inflows of \$24.7 billion and market price appreciation of \$21.7 billion. The sequential quarterly increase in ending assets under management reflects net inflows of \$3.9 billion and market appreciation of \$8.0 billion.

Average consolidated assets under management were \$271.4 billion in the fourth quarter of fiscal 2013, up 38 percent from \$196.6 billion in the fourth quarter of fiscal 2012 and up 3 percent from \$263.7 billion in the third quarter of fiscal 2013.

Attachments 5 and 6 summarize the Company's consolidated assets under management and asset flows by investment mandate and investment vehicle. Attachment 7 summarizes the Company's consolidated assets under management by investment affiliate.

As shown in Attachment 6, consolidated gross sales and other inflows were \$25.5 billion in the fourth quarter of fiscal 2013, up 77 percent from \$14.4 billion in the fourth quarter of fiscal 2012 and down 9 percent from \$28.0 billion in the third quarter of fiscal 2013. Gross redemptions and other outflows were \$21.6 billion in the fourth quarter of fiscal 2013, up 76 percent from \$12.3 billion in the fourth quarter of fiscal 2012 and up 13 percent from \$19.2 billion in the third quarter of fiscal 2013. Consolidated gross sales and other inflows were \$97.6 billion in fiscal 2013, up 95 percent from \$50.1 billion in fiscal 2012. Gross redemptions and other outflows were \$72.9 billion in fiscal 2013, up 46 percent from \$49.9 billion in fiscal 2012.

As of October 31, 2013, 49 percent-owned affiliate Hexavest, Inc. (Hexavest) managed \$16.9 billion of client assets, an increase of 40 percent from the \$12.1 billion of managed assets on October 31, 2012 and an increase of 8 percent from the \$15.7 billion of managed assets on July 31, 2013. Net inflows into Hexavest-managed funds and separate accounts were \$0.2 billion in the fourth quarter of fiscal 2013 compared to net inflows of \$0.8 billion in the fourth quarter of fiscal 2012 and net inflows of \$0.5 billion in the third quarter of fiscal 2013. Since Eaton Vance acquired its interest in Hexavest on August 6, 2012, Hexavest's net inflows have totaled \$3.1 billion and assets under management have increased by \$6.0 billion, or 54 percent, from \$11.0 billion at the date of acquisition. Attachment 9 summarizes assets under management and asset flow information for Hexavest. Other than Eaton Vance-sponsored funds for which Hexavest is advisor or sub-advisor, the managed assets and flows of Hexavest are not included in Eaton Vance consolidated totals.

As of October 31, 2013, the Clifton division of Parametric managed \$45.6 billion of client assets, an increase of 12 percent from the \$40.7 billion of managed assets on July 31, 2013. Net inflows into Clifton-managed funds and accounts were \$3.9 billion in the fourth quarter of fiscal 2013 and \$5.1 billion in the third quarter of fiscal 2013. Clifton net inflows since the December 31, 2012 acquisition have totaled \$8.9 billion. Clifton-managed assets have increased by \$10.8 billion, or 31 percent, from \$34.8 billion at the date of acquisition. The managed assets and flows of Clifton since the date of acquisition are included in Eaton Vance consolidated totals and reflected as assets and flows of Parametric.

Fourth Quarter Fiscal 2013 vs. Fourth Quarter Fiscal 2012

In the fourth quarter of fiscal 2013, revenue increased 15 percent to \$356.9 million from revenue of \$309.9 million in the fourth quarter of fiscal 2012. Investment advisory and administrative fees were up 18 percent, reflecting a 38 percent increase in average consolidated assets under management offset by lower average effective fee rates, primarily as a result of the Clifton acquisition. Performance fees contributed \$3.4 million and \$3.7 million to investment advisory and administrative fees in the fourth quarter of fiscal 2013 and 2012, respectively. Distribution and service fee revenues were flat in aggregate, reflecting consistent levels of managed assets in fund share classes that are subject to distribution and service fees.

Operating expenses increased 14 percent to \$231.5 million in the fourth quarter of fiscal 2013 from \$203.5 million in the fourth quarter of fiscal 2012, reflecting increases in compensation, distribution fees, amortization of deferred sales commissions, fund-related expenses and other expenses. The increase in compensation expense reflects increases in sales- and operating income-based incentives, stock-based compensation, higher employee headcount and increases in base salaries and benefits, partially driven by the acquisition of Clifton in the first quarter of fiscal 2013. Gross sales

and other inflows, which drive sales-based incentives, were up 77 percent year-over-year, while pre-bonus adjusted operating income, which drives operating-income based incentives, was up 18 percent over the same period. The increase in distribution expense reflects increases in intermediary marketing support payments and discretionary marketing expenses. The increase in amortization of deferred sales commissions largely reflects an increase in Class C share amortization. The increase in fund-related expenses reflects an increase in sub-advisory expenses for Company sponsored funds managed by unaffiliated sub-advisors and increases in other fund expenses. Other expenses increased 15 percent, as increases in travel-related expenses, information technology and professional fees were partially offset by decreases in facilities-related expenses.

Operating income was up 18 percent to \$125.4 million in the fourth quarter of fiscal 2013 from \$106.3 million in the fourth quarter of fiscal 2012.

Non-operating expense was \$14.3 million in the fourth quarter of fiscal 2013 compared to non-operating income of \$4.0 million in the fourth quarter of fiscal 2012. The year-over-year change reflects a decline of \$10.3 million in gains (losses) and other investment income, a \$9.1 million decline in income (expense) of the Company's consolidated collateralized loan obligation entities (CLO), partially offset by a \$1.2 million decrease in interest expense.

The Company's effective tax rate, calculated as a percentage of income before income taxes and equity in net income of affiliates, was 40.1 percent in the fourth quarter of fiscal 2013. Excluding the impact of CLO entities' income (expense) borne by other beneficial interest holders, the Company's effective tax rate was approximately 39.2 percent for the quarter.

Equity in net income of affiliates increased \$3.8 million from the fourth quarter of fiscal 2012, reflecting an increase in gains (losses) and other income on the Company's investments in sponsored funds and an increase in the Company's equity in the net income of Hexavest. Equity in net income of affiliates for the fourth quarter of fiscal 2013 and 2012 includes \$3.0 million and \$1.9 million, respectively, of Company equity in the net income of Hexavest.

Net income attributable to non-controlling and other beneficial interests was \$15.0 million in the fourth quarter of fiscal 2013 compared to \$21.3 million in the fourth quarter of fiscal 2012. As shown in Attachment 3, net income attributable to non-controlling and other beneficial interests in the fourth quarter of fiscal 2013 and 2012 includes \$12.6 million and \$9.9 million, respectively, of non-controlling interest value adjustments relating to our subsidiary Atlanta Capital Management. The year-over-year change also reflects a decline in the net income (loss) attributable to non-controlling interest holders of the Company's consolidated CLO entities and a decline in net income attributable to non-controlling interest holders of the Company's consolidated funds, partially offset by an increase in the income attributable to non-controlling interest holders of majority-owned subsidiaries.

Weighted average diluted shares outstanding increased 7.9 million shares, or 7 percent, in the fourth quarter of fiscal 2013 from the fourth quarter of fiscal 2012. The change reflects an increase in the total number of shares outstanding due to the exercise of employee stock options and an increase in the dilutive effect of in-the-money options resulting from a 42 percent increase in the quarterly average share price of the Company's Non-Voting Common Stock.

Fourth Quarter Fiscal 2013 vs. Third Quarter Fiscal 2013

In the fourth quarter of fiscal 2013, revenue increased 2 percent to \$356.9 million from revenue of \$350.4 million in the third quarter of fiscal 2013. Investment advisory and administrative fees were up 3 percent in the fourth quarter of fiscal 2013 compared to the third quarter of fiscal 2013, reflecting a 3 percent increase in average consolidated assets under management. Performance fees contributed \$3.4 million and \$0.9 million to investment advisory and administrative fees in the fourth quarter of fiscal 2013 and the third quarter of fiscal 2013, respectively. Distribution and service fee revenue decreased 2 percent in aggregate, reflecting a decrease in average managed assets in fund share classes that are subject to such fees.

Operating expenses were flat at \$231.5 million in the fourth quarter of fiscal 2013 as compared to the third quarter of fiscal 2013, reflecting decreases in compensation and distribution and service fees, offset by higher amortization of deferred sales commissions and increases in fund-related and other operating expenses. The decrease in compensation expense reflects decreases in operating income-based incentives and sales-based incentives, partially offset by an increase in stock-based compensation. Lower sales-based incentives reflect the 9 percent decrease in gross sales and other inflows. The decrease in operating income-based incentives reflects lower bonus accruals in the fourth quarter of fiscal 2013. The increase in stock-based compensation relates principally to affiliate equity plans. The decrease in distribution expense reflects the \$1.7 million in closed-end fund-related structuring fees paid to distribution partners in the third quarter of fiscal 2013, partially offset by an increase in discretionary marketing expenses. The increase in amortization of deferred sales commissions largely reflects an increase in Class C share amortization. Fund-related expenses increased 28 percent due to increases in fund subsidies and other fund-related

expense. Other expenses increased 2 percent, reflecting increases in travel-related expenses, information technology and professional services offset by decreases in facilities-related expenses and other corporate expenses.

Operating income was up 6 percent to \$125.4 million in the fourth quarter of fiscal 2013 from \$118.9 million in the third quarter of fiscal 2013.

Non-operating expense was \$14.3 million in the fourth quarter of fiscal 2013 compared to \$71.3 million in the third quarter of fiscal 2013. The improvement in non-operating expense reflects the \$52.9 million in costs incurred on the retirement of \$250 million of the Company's 2017 Senior Notes in the third quarter, a \$3.3 million improvement in gains (losses) and other investment income, a \$1.8 million decrease in interest expense offset by a \$0.8 million decline in income (expense) of the Company's consolidated CLO entities. The improvement in gains (losses) and other investment income reflects the \$3.1 million loss recognized in the third quarter on a reverse treasury lock entered into in conjunction with the retirement of the 2017 Senior Notes. The decrease in interest expense reflects approximately \$0.9 million of additional interest expense recognized in the third quarter related to the accelerated amortization of a treasury lock tied to the retired portion of the 2017 Senior Notes as well as a full quarter of reduced interest expense as a result of the debt restructuring.

Equity in net income of affiliates increased by \$2.9 million in the fourth quarter of fiscal 2013 compared to the third quarter of fiscal 2013, primarily reflecting an increase in gains (losses) and other income on the Company's investments in sponsored products. Equity in net income of affiliates for the fourth quarter of fiscal 2013 and the third quarter of fiscal 2013 includes \$3.0 million and \$2.5 million, respectively, of Company equity in the net income of Hexavest.

Net income attributable to non-controlling and other beneficial interests was \$15.0 million in the fourth quarter of fiscal 2013 compared to \$1.8 million in the third quarter of fiscal 2013. As shown in Attachment 3, included in net income attributable to non-controlling and other beneficial interests in the fourth quarter of fiscal 2013 is \$12.6 million of non-controlling interest value adjustments relating to our subsidiary Atlanta Capital Management. The sequential quarter change also reflects a \$1.0 million increase in the income attributable to non-controlling interest holders of the Company's majority-owned subsidiaries.

Balance Sheet Information

Cash and cash equivalents totaled \$461.9 million on October 31, 2013, with no outstanding borrowings against the Company's \$300 million credit facility. During fiscal 2013, the Company used \$73.9 million to repurchase and retire approximately 2.0 million shares of its Non-Voting Common Stock under its repurchase authorization.

Approximately 1.9 million shares of the current 8.0 million share repurchase authorization remains unused.

Footnotes

¹⁰⁾ Although the Company reports its financial results in accordance with GAAP, management believes that certain non-GAAP financial measures, while not a substitute for GAAP financial measures, may be effective indicators of the Company's performance over time. Adjusted net income and adjusted earnings per diluted share reflect the add back of adjustments in connection with changes in the estimated redemption value of non-controlling interests in our affiliates redeemable at other than fair value (non-controlling interest value adjustments), closed-end fund structuring fees and other items management deems non-recurring or non-operating, such as special dividends, costs associated with retiring debt and tax settlements. See reconciliation provided in Attachment 2 for more information on adjusting items.
