Note: Same store sales figures include only the stores which have been operating for at least 12 months.

* If deflated by IPCA, total sales in June 2002 presented a 7.8% growth compared to the same period in 2001. Same store sales performance was -4.0%.

We would like to emphasize that CBD attained a positive performance even though there was a decrease in the consumer's confidence level as a result of the instability in the political and economic scenarios during this period. In June, same store sales performance of food and non-food products presented growth rates of 2.3% and 6.1%, respectively, compared to the same period in the previous year.

As part of our expansion plan, we opened 2 Pao de Acucar stores in June, one in Curitiba (state of Parana) and another one in Brasilia (Distrito Federal). At the end of the month we announced the re-incorporation of 12 stores formerly operated by the Comprebem chain in the state of Pernambuco. The stores of the Comprebem chain add 11,840 m2 in sales area, with annual gross sales estimated at R\$ 122.2 million. It is important to mention that this reintegration will provide us the basis on which we will develop the future expansion of the Barateiro format in the northeast region of Brazil.

We would also like to highlight the acquisition of the Se Supermercados chain (informed in a public announcement dated July 1st, 2002), which became part of our store basis on July 1st, 2002. This acquisition added 60 stores, all of them in the state of Sao Paulo, with approximately 96,000 m2 of sales area and gross sales of R\$ 1.0 billion in 2001, according to ABRAS (Brazilian Association of Supermarkets).

With the addition of those 72 stores sales, CBD's sales growth in the first semester of 2002 would have increased by approximately 20.4% compared to the same period in 2001.

All the stores of the Comprebem and Se Supermercados chains will be converted into CBD's operational standards (banners). Those new stores consolidate CBD's leadership and strengthen its market share gain in the Brazilian retail market. Thus, we also emphasize our trust in the potential of the national market and in the gradual recovery of the Brazilian economy.
