INDEPENDENT ACCOUNTANTS' REVIEW REPORT

To the Shareholders and Management of
Ultrapar Participações S.A.
São Paulo - SP

1. We have performed a special review of the accompanying interim financial statements of Ultrapar Participações S.A. and subsidiaries as of and for the quarter and six-month period ended June 30, 2006, prepared in accordance with Brazilian accounting practices and under the responsibility of the Company's management, consisting of the balance sheets (Company and consolidated), the related statements of income and the performance report.

2. We conducted our review in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council, which consisted principally of: (a) inquiries of and discussions with persons responsible for the accounting, financial and operating areas as to the criteria adopted in preparing the interim financial statements, and (b) review of the information and subsequent events that had or might have had material effects on the financial position and results of operations of the Company and its subsidiaries.

3. Based on our special review, we are not aware of any material modifications that should be made to the financial statements referred to in paragraph 1 for them to be in conformity with Brazilian accounting practices and standards established by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory interim financial statements.

4. Additionally, we have reviewed the consolidated statement of cash flows, included in Note 23 to the interim financial statements, for the periods ended June 30, 2006 and 2005, which is presented for purposes of additional analysis and is not a required part of the basic interim financial statements. Such statement has been subject to the review procedures described in paragraph 2 and, based on our review, we are not aware of any material modifications that should be made to this statement for it to be fairly stated, in all material respects, in relation to the interim financial statements, taken as a whole.

5. We had previously reviewed the Company and consolidated balance sheets as of March 31, 2006 and the Company and consolidated statements of income for the six-month period ended June 30, 2005, presented for comparative purposes, and issued unqualified special review reports thereon, dated April 28, 2006 and July 29, 2005, respectively.

FOR THE QUARTER ENDED JUNE 30, 2006

(In thousands of Brazilian reais - R\$, unless otherwise stated)

1. OPERATIONS

Ultrapar Participações S.A. (the "Company") invests in commercial and industrial activities, including subscription or purchase of shares of other companies with similar activities.

Through its subsidiaries, the Company is engaged in the distribution of liquefied petroleum gas - LPG (Ultragaz), production and sale of chemicals (Oxiten) and logistic services for chemicals and fuels (Ultracargo).

2. PRESENTATION OF INTERIM FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING PRACTICES

The accounting practices adopted to record transactions and prepare the interim financial statements - ITR are those established by Brazilian accounting practices and the Brazilian Securities Commission (CVM).

a) Results of operations

Determined on the accrual basis of accounting. Revenues from sales and respective costs are recognized when the products are delivered to the customers or services are performed, and the transfer of risks, rights and obligations associated with the ownership of products takes place.

b) Current and long-term assets

Temporary cash and long-term investments are stated at cost, plus accrued income (on a "pro rata temporis" basis), which approximate to the market value. Temporary cash investments include the results from hedge transactions, as described in Notes 4 and 19, that management intends to hold to maturity.

The allowance for doubtful accounts is based on estimated losses and is considered by management to be sufficient to cover potential losses on accounts receivable.

Inventories are stated at the lower of average cost of acquisition or production, market or net realizable value.

Other assets are stated at the lower of cost or probable realizable values, including, when applicable, accrued income and monetary variations or net of allowances for potential losses.

Ultrapar Participações S.A. and Subsidiaries

Depreciation is calculated on a straight-line basis at the annual rates described in Note 11, based on the economic useful lives of the assets.

- Deferred charges

Deferred charges comprise costs incurred in the installation of equipment at customers' facilities, projects to modernize systems, and goodwill on acquisition of subsidiaries, as mentioned in Note 12.

d) Current and long-term liabilities

Stated at known or estimated amounts including, when applicable, accrued charges, and monetary and exchange variations incurred during the period.

b) Notes in the foreign market

In June 1997, the subsidiary Companhia Ultragaz S.A. issued US\$60 million in notes, (Original Notes), maturing in 2005. In June 2005, maturity was extended to June 2020, with put/call options in June 2008.

In June 2005, the subsidiary Oxiteno Overseas Corp. acquired the full amount of Original Notes issued by Companhia Ultragaz S.A., with funds from a syndicated loan in the amount of US\$60 million with maturity in June 2008 and interest rate of 5.05% per year. The syndicated loan was guaranteed by the Company and the subsidiary Oxiteno S.A. - Indústria e Comércio.

In April 2006, the subsidiary Oxiteno Overseas Corp. sold the Original Notes to a financial institution. Concurrently, the subsidiary acquired from this financial institution a credit linked note backed by the Original Notes, as mentioned in Note 4, thus obtaining an additional return on this investment. The transaction matures in 2020, and the subsidiary as well as the financial institution may redeem it early, with the subsidiary having only an annual option of redemption (purchase) in or after June 2008. In the event of insolvency of the financial institution, Companhia Ultragaz S.A. would be required to settle the Original Notes, although Oxiteno Overseas Corp. would continue to be creditor of the credit linked note. Thus, the Company stopped eliminating the Original Notes in its financial statements.

In December 2005, the subsidiary LPG International Inc. issued notes in the amount of US\$250 million, maturing in December 2015, with annual interest rate of 7.25% paid semiannually, with the first payment scheduled for June 2006. The issue price was 98.75% of the notes' face value, which represented a total yield for investors of 7.429% per year upon issuance. The notes were guaranteed by the Company and by Oxiteno S.A. - Indústria e Comércio.

As a result of the issuance of notes and the syndicated loan, the Company and its subsidiaries mentioned above are subject to covenants that limit, among other things:

Ultrapar Participações S.A. and Subsidiaries

- Limitation of transactions with shareholders that hold amounts of 5% or more of any class of Capital Stock of Ultrapar, except upon fair and reasonable terms no less favorable to Ultrapar than could be obtained in a comparable arm's-length transaction with a third party;
- Obligation of having board of directors resolution for transactions with related parties higher than US\$ 15 million (excluding transactions by the Company with subsidiaries and between subsidiaries);
- Restriction of disposal of the totality or near totality of the assets of Ultrapar and subsidiaries;
- Restriction of encumbrances on assets in excess of US\$ 150 million or 15% of the value of consolidated tangible assets.
- Maintenance of financial ratio, between consolidated net debt and consolidated EBITDA, less than or equal to 3.5; and
- Maintenance of financial ratio, between consolidated EBITDA and consolidated net financial expenses higher than or equal to 1.5.

The restrictions imposed on the Company and its subsidiaries are usual in transactions of this nature and have not limited their ability to conduct their business to date.

c) Debentures

On February 2, 2005, the Extraordinary Stockholders' Meeting approved the issuance by the Company and the public distribution in a single series of 30,000 nonconvertible debentures with nominal unit value of R\$10,000.00 (ten thousand Brazilian reais), totaling R\$300,000.

On March 30, 2005, the Company's Board of Directors, as delegated by the Extraordinary Stockholders' Meeting, approved the interest rate determined through a bookbuilding process on the same date.

On April 6, 2005, the Brazilian Securities Commission (CVM) registered the operation, and funds of R\$304,854, net of commission, were received on April 8, 2005.

Characteristics of the debentures are:

Nominal unit value:	R\$10,000.00
Final maturity:	March 1, 2008
Nominal value payment:	Lump sum at final maturity
Yield:	102.5% of CDI
Yield payment:	Semiannually, beginning March 1, 2005
Repricing:	None

The debentures are subject to commitments that restrict, among other things, certain operations of merger or spin-off, as well as the disposal of operating assets that would result in a reduction of more than 25% of consolidated net sales, and also included the obligation to maintain a consolidated net debt to EBITDA ratio less than or equal to 3.5. Thus far, none of these commitments have restricted the ability of the Company and its subsidiaries to conduct business.

d) Collateral

A portion of the financing is collateralized by liens on property, plant and equipment, shares, promissory notes and guarantees provided by the Company and its subsidiaries, as shown below:

	<u>6/30/2006</u>	<u>3/31/2006</u>
Amount of financing secured by:		
Property, plant and equipment	51,456	52,001
Shares of affiliated companies and minority stockholders' guarantees	9,115	8,912
	<u>60,571</u>	<u>60,913</u>

Other loans are collateralized by guarantees issued by the Company and by the future flow of exports. The Company is responsible for sureties and guarantees offered on behalf of its subsidiaries, amounting to R\$1,047,541 (R\$954,399 as of March 31, 2006).

Certain subsidiaries have issued guarantees to financial institutions related to amounts owed to those institutions by some of their customers (vendor financing). In the event any subsidiary is required to make a payment under the guarantees, the subsidiary may recover such amounts paid directly from its customers through commercial collection. Maximum future payments related to these guarantees amount to R\$26,349 (R\$22,555 as of March 31, 2006), with terms of up to 180 days. As of June 30, 2006, the Company and its subsidiaries have not incurred any loss nor recorded any liability related to these guarantees.

Certain subsidiaries have conducted operations denominated "supplier finance" with its suppliers. In the operation, the banks advance to suppliers the proceeds from sales made to the subsidiaries, through acceptance by the subsidiaries with the banks. Those operations have an average term of nine days and are recorded as bank loans, since the suppliers received the funds from the banks, using the subsidiaries' credit. The amount as of June 30, 2006 totaled R\$411 (R\$322 as of March 31, 2006). Financial income related to this operation for the quarter amounted to R\$7 (R\$6 as of March 31, 2006) and is recorded in financial income.

19. RISKS AND FINANCIAL INSTRUMENTS (CONSOLIDATED)

The main risk factors to which the Company and its subsidiaries are exposed reflect strategic/operating and economic/financial aspects. Strategic/operating risks (such as behavior of demand, competition, technological innovation, and significant structural changes in industry, among others) are addressed by the Company's management model. Economic/financial risks mainly reflect customer default, macroeconomic variables such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company. These risks are managed through control policies, specific strategies and the determination of limits, as follows:

- Customer default - These risks are managed by specific policies for accepting customers and analyzing credit, and are mitigated by diversification of sales. As of June 30, 2006, the subsidiaries of Oxiteno S.A. - Indústria e Comércio maintained R\$853 (R\$866 as of March 31, 2006) and the subsidiaries of Ultragaz Participações Ltda. maintained R\$24,055 (R\$24,828 as of March 31, 2006) as an allowance for doubtful accounts.

Ultrapar Participações S.A. and Subsidiaries

- Interest rates - The Company and its subsidiaries adopt conservative policies to obtain and invest funds and to minimize the cost of capital. Temporary cash investments of the Company and its subsidiaries are comprised substantially of transactions linked to the interbank deposit rate (CDI), as described in Note 4. A portion of the financial assets is intended for foreign currency hedges, as mentioned below. Borrowings are originate from the BNDES, and foreign currency financing, as mentioned in Note 13.
- Exchange rate - The Company's subsidiaries use hedge (mainly US\$ to CDI) instruments available in the financial market to cover assets and liabilities in foreign currency, so as to reduce the exchange variation effects on their results. Such hedges have amounts, periods and indexes equivalent to the assets and liabilities in foreign currency to which they are linked. Shown below are the assets and liabilities in foreign currency, translated into Brazilian reais at June 30, 2006 and March 31, 2006:

	<u>6/30/2006</u>	<u>3/31/2006</u>

20. CONTINGENCIES AND COMMITMENTS (CONSOLIDATED)

a) Labor, civil and tax lawsuits

The Petrochemical Industry Labor Union, of which the employees of Oxiteno Nordeste S.A. - Indústria e Comércio are members, filed an action against the subsidiary in 1990, demanding compliance with the adjustments established in a collective labor agreement, in lieu of the salary policies effectively followed. At the same time, the employers' association proposed a collective bargaining for the interpretation and clarification of the fourth clause of the agreement. Based on the opinion of its legal counsel, who analyzed the last decision of the Federal Supreme Court (STF) on the collective bargaining, as well as the status of the individual lawsuit of the subsidiary, management believes that a reserve is not necessary as of June 30, 2006.

The subsidiaries Companhia Ultragaz S.A. and SPGás Distribuidora de Gás Ltda. are parties to an administrative proceeding at the SDE (Economic Law Department), linked to CADE (Administrative Council for Economic Defense), under the allegation of anticompetitive practice in the municipalities of a region of the State of Minas Gerais in 2001. In September 2005, the SDE issued a technical notice recommending to CADE a ruling against the companies involved in this proceeding. In their defense, the subsidiaries' arguments, among others, are that: (i) under the terms of the notice issued by the Company's chief executive officer on July 4, 2000, the subsidiaries' employees were forbidden to discuss with third parties matters related to prices; and (ii) no

Ultrapar Participações S.A. and Subsidiaries

consistent evidence was attached to the proceeding's records, and the SDE acknowledges its failure in the attempt to prove the practice. In view of the arguments presented, the fact that the technical notice has no binding effect on CADE's decision, and their legal counsel's opinion, the subsidiaries did not record a provision for this issue. Should CADE's decision be unfavorable, the subsidiaries can still discuss the issue at the judicial level.

The subsidiary Companhia Ultragaz S.A. is a defendant in lawsuits relating to damages caused by an explosion in 1996 in a shopping mall in the city of Osasco, State of São Paulo. Such lawsuits involve: (i) individual suits filed by victims of the explosion claiming damages from Ultragaz for the loss of economic benefit and for pain and suffering; (ii) lawsuit for reimbursement of expenses by the administration company of the shopping mall and its insurance company; and (iii) class action suit seeking indemnification for property damage and pain and suffering for all the victims injured and deceased. The subsidiary believes that it has presented evidence that defective gas pipes in the shopping mall caused the accident and that Ultramar's on-site LPG storage facilities did not contribute to the explosion. Of the 54 lawsuits judged thus far, a favorable judgment was obtained for 53, with 1 unfavorable decision, which is still subject to appeal, and whose amount, should the decision be upheld, is R\$17. The subsidiary has insurance for this contingency, and the uninsured contingent amount is R\$39,633. The Company has not recorded any provision for this amount, since it believes the probability of loss is remote.

The Company and its subsidiaries obtained injunctions to pay PIS and COFINS (taxes on revenues) without the changes introduced by Law No. 9718/98 in its original version. The ongoing questioning refers to the levy of these taxes on sources other than revenues. The unpaid amounts were recorded in the financial statements of the Company and its subsidiaries, totaling R\$20,415 (R\$21,370 as of March 31, 2006). Recently the Federal Supreme Court (STF) has decided the matter favorable to the taxpayer. Although it is a precedent, the effect of this decision does not automatically apply to all companies, since they must await judgment of their own lawsuits. On 3/29/2006 and 6/14/2006 final and unappealable decisions were rendered on the lawsuits of the subsidiaries Companhia Ultragaz S.A. and Transultra - Armazenagem e Transporte Especializado Ltda., and the subsidiaries reversed the existing provisions in the amount of R\$15,886 and R\$1,331, net of attorney's fees, as financial income in the statement of income for the quarter. Likewise, on 04/11/2006, a final and unappealable decision was rendered on the lawsuit related to the subsidiary Oxiteno Nordeste S.A. Indústria e Comércio. As this subsidiary had not obtained an injunction, it paid undue PIS and COFINS in prior periods. The amount of R\$26,225, related to the favorable outcome in this lawsuit, net of attorney's fees, was recorded as financial income and will be used for future offset of PIS and COFINS. The Company has other subsidiaries whose lawsuits have not yet been judged. Thus, should there be final favorable outcomes for the subsidiaries in all lawsuits, the Company estimates that the total positive effect on income before income and social contribution taxes should reach R\$19,766, net of attorney's fees.

The subsidiary Oxiteno S.A. - Indústria e Comércio and its subsidiary Oxiteno Nordeste S.A. - Indústria e Comércio accrued R\$15,098 (R\$14,824 as of March 31, 2006) for ICMS tax assessments being judged at lower-level and appeal-level administrative courts. The subsidiaries are currently awaiting a decision on the appeals.

Ultrapar Participações S.A. and Subsidiaries

The subsidiary Utingás Armazenadora S.A. has been challenging in court ISS (Service Tax) tax assessments issued by the municipal government of Santo André. Legal counsel of the subsidiary classifies the risk as low, since a significant portion of the lower-court decisions was favorable to the subsidiary. The thesis defended by the subsidiary is supported by the opinion of a renowned tax specialist. The unprovisioned updated amount of the contingency as of June 30, 2006 is R\$31,455 (R\$31,292 as of March 31, 2006).

On October 7, 2005, the subsidiaries of Ultragas Participações Ltda. filed for and obtained an injunction to support the offset of PIS and COFINS credits against other federal taxes administered by the Federal Revenue Service (SRF), notably income and social contribution taxes. According to the injunction obtained, the subsidiaries have been making escrow deposits for these debits and recognizing the corresponding liability for this purpose.

The Company and its subsidiaries have other ongoing administrative and judicial proceedings; legal counsel classified the risks on these proceedings as possible and/or remote and, therefore, no reserves for potential losses on these proceedings have been recorded.

Escrow deposits and provisions are summarized below:

Provisions	Balance on 3/31/2006	Additions	Reversal/ utilization	Update	Balance on 6/30/2006
Income and social contribution taxes	9,764	6,882	-	318	16,964

b) Contracts

The subsidiary Terminal Químico de Aratu S.A. - Tequimar has contracts with CODEBA - Companhia Docas do Estado da Bahia and Complexo Industrial Portuário Governador Eraldo Gueiros in connection with their port facilities in Aratu and Suape, respectively. Such contracts establish minimum cargo movement of 1,000,000 tons per year for Aratu, effective through 2022, and 250,000 tons per year for Suape, effective through 2027. If annual movement is less than the minimum required, the subsidiary is required to pay the difference between the actual movement and the minimum contractual movement, using the port rates in effect at the date established for payment.

As of June 30, 2006, such rates were R\$3.67 and R\$3.44 per ton for Aratu and Suape, respectively. The subsidiary has met the minimum cargo movement limits since inception of the contracts.

Ultrapar Participações S.A. and Subsidiaries

The subsidiary Oxiteno Nordeste S.A. - Indústria e Comércio has a supply contract with Braskem S.A., effective through 2012, which establishes a minimum consumption level of ethylene per year. The minimum purchase commitment and the actual demand for the period ended June 30, 2006 and March 31, 2006, expressed in tons of ethylene, are summarized below. Should the minimum purchase commitment not be met, the subsidiary would be liable for a fine of 40% of the current ethylene price for the quantity not purchased.

	Minimum purchase commitment	Actual demand (real)2 nd quarter	
		2006	2005
In tons	137,900	90,968	98,774

c) Insurance coverage for subsidiaries

The Company has appropriate insurance policies to cover various risks, including loss and damage from fire, lightning, explosion of any nature, windstorm, plane crash and electrical damage, among others, protecting the units and other branches of all subsidiaries, with coverage amounting to US\$244 million.

For the units of Oxiteno S.A. - Indústria e Comércio, Oxiteno Nordeste S.A. - Indústria e Comércio and Canamex Químicos S.A. de C.V., there is also loss of income insurance against losses from potential accidents related to their assets, with coverage amounting to US\$128 million.

A civil liability insurance program covers all Group companies, with coverage of US\$150 million, for losses and damage from accidents caused to third parties, related to the commercial/industrial operations and/or distribution and sale of products and services.

Group life insurance, personal accident insurance, health insurance, and domestic and international transportation insurance are also contracted.

21. STOCK COMPENSATION PLAN (CONSOLIDATED)

The Extraordinary Stockholders' Meeting held on November 26, 2003 approved a compensation plan for management of the Company and its subsidiaries, which provides for: (i) the initial grant of usufruct of shares issued by the Company and held in treasury by the subsidiaries in which the beneficiaries are employed; and (ii) the transfer of the beneficial ownership of the shares after ten years from the initial grant, provided that the professional relationship between the beneficiary and the Company and its subsidiaries is not interrupted. The total amount granted to executives until June 30, 2006, including taxes, was R\$8,940 (R\$8,940 as of March 31, 2006). This amount is being amortized over a period of ten years and the amortization related to the first semester ended June 30, 2006, in the amount of R\$446 (R\$383 in the first semester ended June 30, 2005), was recorded as an operating expense.

22. EMPLOYEE BENEFITS AND PRIVATE PENSION PLAN (CONSOLIDATED)

The Company and its subsidiaries offer benefits to their employees, such as life insurance, health care and pension plan. In addition, loans for the acquisition of vehicles and personal computers are available to employees of certain subsidiaries. These benefits are recorded on the accrual basis and terminate at the end of the employment relationship.

In August 2001, the Company and its subsidiaries began to provide a defined contribution pension plan to their employees. This plan is managed by Ultraprev - Associação de Previdência Complementar. Under the terms of the plan, the basic contribution of each participating employee is defined annually by the participant between 0% and 11% of his/her salary. The sponsoring companies provide a matching contribution in an identical amount as the basic contribution. As participants retire, they may opt to receive monthly: (i) a percentage varying between 0.5% and 1.0% of the fund accumulated in their name in Ultraprev; or (ii) a fixed-monthly amount that will deplete the fund accumulated in the participant's name in a period of 5 to 25 years. Accordingly, neither the Company nor its subsidiaries assume responsibility for guaranteeing the levels of amounts or periods of receipt of the retirement benefit. In 2006, the Company and its subsidiaries contributed R\$1,713 (R\$2,388 in 2005) to Ultraprev, which was charged to income for the period. (2) Performance Analysis:

Net Sales and Services - Ultrapar's net consolidated sales and services in 2Q06 amounted to R\$ 1,197.4 million, almost unchanged in relation to the same quarter in 2005, and 9% up on 1Q06. In 1H06, Ultrapar's net sales and services amounted to R\$ 2,295.1 million, down 2% on 1H05.

Ultragaz: The Brazilian LPG market expanded by 1.7% in 2Q06, when compared to 2Q05, benefited by the improvements seen in disposable income of the Brazilian population and the revision of the use of LPG vis-à-vis natural gas, driven by the uncertainties regarding natural gas supply from Bolivia. Ultragaz's sales volume in the bottled segment increased by 2.7% (7,100 tons) compared to 2Q05, basically due to certain commercial initiatives taken by the company. In the same period, Ultragaz's sales volume in the bulk segment dropped by 1.9%, (2,400 tons) -despite the revision of the use of natural gas by the customers, which in many cases returned to LPG as energy source, in 2Q06 the company lost one large industrial client, this loss been already expected, which consumed approximately 3,000 tons per quarter. Ultragaz's sales volume totaled 393,000 tons in 2Q06, up 1.2% on the sales volume in 2Q05, but below the performance of the rest of the market due to the loss of the industrial client above mentioned. Compared to 1Q06, Ultragaz's sales volume was up 10.7%, basically reflecting the seasonal variation between the two periods. For the 1H06, Ultragaz's sales volume totaled 748,000 - up 0.6% on 1H05. Net sales and services at Ultragaz amounted to R\$ 781.1 million in 2Q06, up 6% on 2Q05, as a result of the repositioning brought about its distribution structure review and the increase in volume sold. Compared to 1Q06, net sales and services were up 13%, basically due to the seasonal increase in sales volume and the company's distribution structure review. In 1H06, Ultragaz's net revenues totaled R\$ 1,475.3 million, up 5% on 1H05.

Oxitenó: Total sales volume in 2Q06 amounted to 134,000 tons, practically the same figure as in 2Q05, but with an improved geographical sales mix - with a higher participation of domestic sales in detriment to exports, and a better product mix, with 74% of sales volume represented by specialty chemicals. In the domestic market, sales volume amounted to 94,000 tons, up 10% on 2Q05, the growth spread among the market segments, reflecting several specific commercial initiatives on the part of Oxitenó, resulting in market share gains with certain clients. The volume sold outside Brazil amounted to 40,000 tons, down 20% in relation to 2Q05, driven by the increased sales in the domestic market. Compared to 1Q06, Oxitenó's sales volume was up 4%, the result of the 9% increase in sales to the domestic market, and a 14% increase in sales at Canamex. Accumulated sales volume in 2006 amounted to 263,000 tons, up 3% on 1H05, basically due to the sales growth in the domestic market. Oxitenó reported net sales and services of R\$ 370.4 million in 2Q06, down 13% on 2Q05, basically due to the 12% appreciation in the Brazilian Real and the drop in international glycol prices in 2005, partially offset by the improvement in sales mix. Compared to 1Q06, there was an increase of 4%, in line with the increase in sales volume, given that the average price and exchange rate remained practically unchanged. Accumulated net sales and services at Oxitenó in 1H06 amounted to R\$ 727.8 million, 14% lower than in 1H05.

Ultrapar Participações S.A. and Subsidiaries

Ultracargo: Average storage volumes at Ultracargo in 2Q06, measured in cubic meters, were 11% higher than in 2Q05, basically due to the start-up of operations at the Santos Terminal, in the third quarter of 2005. In comparison to 1Q06, average storage volumes measured in cubic meters were up by 4%, also due to the increased capacity utilization of the Santos Terminal. In the transport segment, total kilometrage traveled was down 15% and 10% compared to 2Q05 at 1Q06, respectively, as a result of the decision to cease certain operations with lower aggregate value. For the year-to-date, Ultracargo's average storage volumes were up 11%, as measured in cubic meters, while kilometrage traveled was down 9%. Ultracargo reported net services of R\$ 58.7 million in 2Q06, practically unchanged in relation to 2Q05 and 1Q06. The increase in revenues as a result of the rise in average storage levels was offset by the reduction in transport revenues. In 1H06, Ultracargo's revenues totaled R\$ 116.8 million, up 4% on the net revenues reported in 1H05.

Cost of Sales: Ultrapar's cost of sales and services amounted to R\$ 960.7 million in 2Q06, up 1% and 7% compared to 2Q05 and 1Q06, respectively. In 1H06, Ultrapar's cost of sales and services amounted to R\$ 1,859.4 million, up 2% on 1H05.

Ultragaz: Ultragaz reported an increase of 3% in its cost of sales and services in 2Q06, compared to 2Q05, basically due to (i) the increase in volume sold, (ii) the increase in the cost of freight and fuel and (iii) the increase in personnel expenses, due to annual collective wage increase agreement in 2005. Compared to 1Q06, the cost of sales and services was up 10% as a result of the seasonal variation of 11% in sales volume, partially offset by initiatives of the company's distribution structure review. In the first half of the year, Ultragaz's cost of sales and services amounted to R\$ 1,245.9 million, a 3% increase on that reported in 1H05.

Oxiteno: The cost of sales and services at Oxiteno amounted to R\$ 284.8 million in 2Q06, down 4% on 2Q05, due basically to (i) the appreciation of the Brazilian Real, which partially compensated for the rise in the dollar cost of ethylene and (ii) the lower fixed costs, related to the reduction in the finished products inventory in 2Q05. Compared to 1Q06, costs increased by 2%, less than the 4% increase in sales volume, also due to lower fixed costs. The company's cost of sales and services in 1H06 amounted to R\$ 564.0 million, down 1% in relation to 1H05.

Ultracargo: The cost of services provided by Ultracargo in 2Q06 amounted to R\$ 36.5 million, down 1% compared to the same quarter in 2Q05, and 4% lower than in 1Q06, basically due to the reduction in the cost of third parties transport service, in line with the reduction in the volume of services provided. In the first half, the company's total cost of services was 1% higher than in 1H05.

Gross Profit: In 2Q06 Ultrapar reported a gross profit of R\$236.7 million, a decrease of 6% in relation to 2Q05. Compared to 1Q06, the gross profit increased by 19%. The year-to-date gross profit was R\$ 435.7 million, a decrease of 15% compared to 1H05.

Selling, General and Administrative Expenses: Ultrapar's sales, general and administrative expenses amounted to R\$ 147.3 million, up 12% and 5%, compared to 2Q05 and 1Q06, respectively. In 1H06, sales, general and administrative expenses amounted to R\$ 287.7 million, up 7% in relation to 1H05.

Ultrapar Participações S.A. and Subsidiaries

Ultragaz: Sales, general and administrative expenses at Ultragaz amounted to R\$ 79.5 million in 2Q06, up 14% compared to 2Q05, principally as a result of (i) annual salary increases as a result of collective wage agreements, (ii) higher variable remuneration, in line with the expansion in results and (iii) non-recurring claims indemnity expenses of approximately R\$ 1.5 million. Compared to 1Q06, sales, general and administrative expenses increased by 7%, as a result of higher sales expenses, due to the higher sales volume. In 1H06, sales, general and administrative expenses were 8% higher than in 1H05.

Oxitenó: Sales, general and administrative expenses at Oxitenó totaled R\$ 51.3 million in 2Q06, up 4% on 2Q05 and 1Q06, as a result of higher administrative expenses, due to (i) higher personnel expenses, mostly related to salary increases arising from the annual collective wage agreements and increase in workforce, and (ii) IT expenses, mainly related to operational excellence projects. Sales expenses were 15% and 3% lower, compared to 2Q05 and 1Q06 respectively, basically due to the reduction in international freight expenses, as a result of the lower volume sold outside Brazil, particularly the Far East. In 1H06, sales, general and administrative expenses were 1% lower than in 1H05.

Ultracargo: Ultracargo's sales, general and administrative expenses totaled R\$ 17.7 million in 2Q06, up 29% on 2Q05, basically due to the increase in operational workforce (including the Santos Terminal structure, maintenance workforce and internal logistics service staff), due to new operations, as well as salary increases due to the annual collective wage agreements. Compared to 1Q06, Ultracargo saw a drop of R\$ 0.7 million in the SG&A. In the first half of the year, sales, general and administrative expenses were up 33% compared to 1H05.

Income from Operations before Financial Items: Ultrapar reported an income from operations before financial items of R\$ 89.9 million in 2Q06, 24% lower than the operating income reported in 2Q05. Compared to 1Q06, Ultrapar's income from operations before financial items increased by 52%. Income from operations before financial items totaled R\$ 149.1 million in 1H06, 38% down 1H05.

Financial Income (Expenses), Net: Ultrapar's financial result was positive in 2Q06, with a financial income of R\$ 22.4 million, compared to financial expenses of R\$ 16.7 million in 2Q05, as a result of (i) the non-recurring positive effect of R\$ 27 million due to the winning of a lawsuit related to the payment of PIS and COFINS by the company's subsidiaries Oxitenó Nordeste and Transultra, explained in further detail below, and (ii) the increase in the company's net cash position, which amounted to R\$ 162.1 million at the end of 2Q06, compared to net cash of R\$ 105.0 million at the end of 2Q05, which offset the drop in interest rates. Through its subsidiaries, Ultrapar had filed lawsuits questioning the levy of PIS and COFINS taxes on sources of income other than revenues. As occurred in 1Q06, in April 2006 the Federal Supreme Court ruled in favor of Ultrapar, resulting in the addition of R\$ 27 million to the company's earnings in 2Q06. Ultrapar has yet other subsidiaries that are also appealing the levying of these taxes, which has yet to be ruled on. Should the court rule in favor of these subsidiaries, Ultrapar estimates that the total effect on the Company's financial result will be an additional R\$ 20 million, net of legal fees.

Nonoperating Income (Expenses), Net: In 2Q06 Ultrapar reported nonoperating expenses, net, of R\$ 11.1 million. The year-to-date nonoperating expenses, net, totaled R\$ 13.2 million, basically composed by R\$ 7.6 million (R\$ 2.9 million in 1H05) from the sale of permanent assets, especially cylinders and provision for losses on sale of real state property, and R\$ 6.7 million of project analyses.

Income and Social Contribution: Ultrapar's 2Q06 income and social contribution taxes expenses amounted to R\$ 31.9 million, stable compared to 2Q05, when Ultrapar's income and social contribution taxes expenses were R\$ 31.1 million, as a result of the stability in pre-tax income. Compared to 1Q06, Ultrapar's income and social contribution taxes expenses were 39% higher, due to the increase of 46% in pre-tax income. The income and social contribution taxes expenses in 1H06 were 12% lower than the figure in 1H05.

Benefit of Tax Holidays: Ultrapar is entitled to federal tax benefits for its activities in the Northeast Region of Brazil, due to the federal program for development of the region. Tax benefits cover Oxiteno's plant in Camaçari, Bahiana Distribuidora de Gás and Tequimar. Ultrapar's operations generated R\$ 19.4 million in benefits of tax holidays in 2Q06, 5% higher than the figure in 2Q05. The benefits of tax holidays totaled to R\$ 30.8 milhões in 1H06, 22% lower than the amount in 1H05.

Net Income: Ultrapar's consolidated net income in 2Q06 amounted to R\$ 88.1 million, down 2% compared to 2Q05, but up 55% compared to 1Q06. The net income in 1H06 amounted to R\$ 144.9 million, a 24% decrease compared to 1H05.

EBITDA: Ultrapar reported consolidated Earnings Before Interest, Depreciation and Amortization (EBITDA) of R\$ 136.0 million in 2Q06, a 17% decrease on 2Q05, but an increase of 27% on 1Q06. This is the second quarter running that Ultrapar has reported an increase in EBITDA, confirming the positive trend in the company's results. EBITDA accumulated in 1H06 amounted to R\$ 242.6 million, down 27% on 1H05.

Ultragaz: Ultragaz reported EBITDA of R\$ 77.6 million in 2Q06, up 25% and 40% compared to the EBITDA reported in 2Q05 and 1Q06, respectively. For the first half, Ultragaz's EBITDA amounted to R\$ 132.9 million, up 23% on 1H05. The significant improvement in EBITDA is the result of benefits arising from the review to the company's distribution structure, as well as the increase in sales volume.

Oxiteno: EBITDA at Oxiteno in 2Q06 amounted to R\$ 46.2 million, a 47% decrease on 2Q05, due to the adverse operating scenario faced since the middle of 2005, caused by the higher oil price level, pressure on petrochemical commodity prices and the appreciation in the Brazilian Real. Compared to 1Q06, EBITDA increased 14% - through increasing volume and improving its sales mix, the company has managed to minimize the negative effects of the increase in oil prices and the appreciation in the Brazilian Real on its earnings. In 1H06, EBITDA at Oxiteno totaled R\$ 86.7 million, down 56% compared to 1H05.

Ultracargo - Ultracargo ended the quarter with EBITDA of R\$ 10.9 million, an increase of 17% in relation to 1Q06, due to the expansion in operations. However, compared to 2Q05, EBITDA was down 21%, principally due to additional costs and expenses from new operations in the ramp up phase. EBITDA for the first half of 2006 amounted to R\$ 20.2 million, down 15% on 1H05.
