**Item 2.05 Costs Associated with Exit or Disposal Activities**

On September 29, 2004, Computer Associates International, Inc. (CA) announced a restructuring plan that will involve a reduction of approximately 800 employees, which constitutes approximately 5% of its workforce. After an extensive review of expenses across the company, CA is implementing this reduction to reduce and more closely align its expenses with its strategic growth opportunities. Approximately 550 of the 800 anticipated reductions will take place in North America and approximately 200 of these positions will be at CA's world headquarters in Islandia, NY. The company expects to complete the majority of the workforce reductions in October 2004. CA anticipates that as a result of the restructuring plan it will incur cash costs totaling approximately \$40 million, or \$.04 per fully diluted share, principally related to severance and benefits. CA expects to record a charge of approximately \$25 million for these costs in the second quarter of fiscal 2005 and to record the remaining amount by the end of the fiscal year. When fully implemented, the restructuring plan is expected to save the company approximately \$70 million on an annualized basis. A copy of the press release issued by CA in connection with the restructuring is attached hereto as an exhibit and is incorporated by reference herein.
