**PROXY STATEMENT for the
2007 ANNUAL MEETING OF STOCKHOLDERS
To Be Held On June 7, 2007**

GENERAL INFORMATION

This Proxy Statement is furnished in connection with a solicitation of proxies by the Board of Directors (Board or Board of Directors) of MarketAxess Holdings Inc., a Delaware corporation (MarketAxess, the Company, we or our) to be used at our 2007 Annual Meeting of Stockholders scheduled for Thursday, June 7, 2007, at 10:00 a.m., Eastern Daylight Time (EDT), at The New York Marriott Financial Center Hotel, 85 West Street, New York, New York 10006.

This Proxy Statement and the accompanying Notice of Annual Meeting of Stockholders and proxy card are first being mailed to stockholders on or about May 2, 2007. Whenever we refer in this Proxy Statement to the Annual Meeting, we are also referring to any meeting that results from any postponement or adjournment of the June 7, 2007 meeting.

Holders of our Common Stock, par value \$0.003 per share (the Common Stock), as of the close of business on April 20, 2007, are entitled to notice of, and to vote at the Annual Meeting. On that date, there were 31,074,880 shares of our Common Stock issued and outstanding.

We encourage you to vote your shares, either by voting in person at the Annual Meeting or by granting a proxy (i.e., authorizing someone to vote your shares). If you execute the attached proxy card, the individuals designated on that card will vote your shares according to your instructions. If any matter other than Proposals 1 or 2 listed in the Notice of Annual Meeting of Stockholders is presented at the Annual Meeting, the designated individuals will, to the extent permissible, vote all proxies in the manner that the Board may recommend or, in the absence of such recommendation, in the manner they perceive to be in the best interests of the Company.

If you execute the enclosed proxy card but do not give instructions, your proxy will be voted as follows: FOR the election of the nominees for director named herein, FOR ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the year ending December 31, 2007, and in accordance with the best judgment of the persons appointed as proxies with respect to any other matters which properly come before the Annual Meeting.

Information on how you may vote at the Annual Meeting (such as granting a proxy that directs how your shares should be voted, or attending the Annual Meeting in person), as well as how you can revoke a proxy, is contained in this Proxy Statement below under the headings *Solicitation of Proxies* and *Voting*.

SOLICITATION OF PROXIES

General

The attached proxy card allows you to instruct the designated individuals how to vote your shares. You may vote in favor of, against, or abstain from voting on any proposal. In addition, with respect to Proposal 1 (the election of directors), you may, if you desire, indicate on the proxy card that you are not authorizing the designated individuals to

vote your shares for one or more of the nominees.

Solicitation

We will bear the entire cost of solicitation, including the preparation, assembly, printing and mailing of this Proxy Statement, the proxy card and any additional soliciting materials furnished to stockholders. Copies of solicitation materials will be furnished to brokerage houses, fiduciaries and custodians holding shares in their names

Table of Contents

that are beneficially owned by others so that they may forward the solicitation materials to such beneficial owners. In addition, we may reimburse such persons for their costs of forwarding the solicitation materials to such beneficial owners. The original solicitation of proxies by mail may be supplemented by solicitation by telephone or other means by our directors, officers, employees or agents. No additional compensation will be paid to these individuals for any such services. Except as described above, we do not presently intend to solicit proxies other than by mail.

VOTING

Stockholders entitled to vote and shares outstanding

You may vote your shares at the Annual Meeting only if you were a stockholder of record at the close of business on April 20, 2007 (the Record Date). As of the Record Date, 31,074,880 shares of our Common Stock were issued and outstanding.

How to vote

Submitting a proxy via mail, the Internet or telephone

You may submit your proxy with voting instructions by mail by following the instructions set forth on the enclosed proxy card. Specifically, if you are a stockholder of record on the Record Date you may vote by mailing your proxy card, with voting instructions, to the address listed on your proxy card.

If you hold your shares through a stock broker, nominee, fiduciary or other custodian, you may also be able to vote by calling the toll-free telephone number listed on your proxy card or visiting the website address listed on your proxy card. If you choose to submit your proxy with voting instructions by telephone or through the Internet, you will be required to provide your assigned control number noted on the enclosed proxy card before your proxy will be accepted. In addition to the instructions that appear on the enclosed proxy card, step-by-step instructions will be provided by recorded telephone message or at the designated website on the Internet. Votes submitted via the Internet or by telephone must be received by 11:59 p.m., EDT, on June 6, 2007 in order for them to be counted at the Annual Meeting.

Voting your shares in person at the Annual Meeting

You may also attend the Annual Meeting and vote your shares in person by ballot. If you plan to attend the Annual Meeting, you will need to bring proof of your ownership of our Common Stock as of the close of business on April 20, 2007, the Record Date. If you hold shares in street name (that is, through a bank, broker or other nominee) and would like to attend the Annual Meeting and vote in person, you will need to bring an account statement or other acceptable evidence of ownership of Common Stock as of the close of business on April 20, 2007. Alternatively, in order to vote, you may contact the person in whose name your shares are registered and obtain a proxy from that person and bring it to the Annual Meeting.

Revoking a proxy

A proxy that was submitted by mail may be revoked at any time before it is exercised by (1) giving written notice revoking the proxy to our General Counsel and Corporate Secretary at MarketAxess Holdings Inc., 140 Broadway, 42nd Floor, New York, NY 10005, (2) subsequently filing another proxy bearing a later date or (3) attending the Annual Meeting and voting in person by ballot.

A proxy that was submitted via the Internet or by telephone may be revoked at any time before it is exercised by (1) executing a later-dated proxy card via the Internet or by telephone or (2) attending the Annual Meeting and voting in person by ballot.

Your attendance at the Annual Meeting in and of itself will not automatically revoke a proxy that was submitted via the Internet, by telephone or by mail.

Table of Contents

Broker authority to vote

If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered to be the beneficial owner of shares held in street name. These proxy materials are being forwarded to you by your broker or nominee, who is considered to be the holder of record with respect to your shares. As the beneficial owner, you have the right to direct your broker or nominee how to vote by filling out the voting instruction form provided by your broker or nominee. Telephone and Internet voting options may also be available to beneficial owners. As a beneficial owner, you are also invited to attend the Annual Meeting, but you must obtain a proxy from the holder of record of your shares in order to vote in person at the Annual Meeting.

If your shares are held in street name, your broker or nominee will ask you how you want your shares to be voted. If you provide voting instructions, your shares must be voted as you direct. If you do not furnish voting instructions, one of two things can happen, depending upon whether a proposal is routine. Under the rules that govern brokers that have record ownership of shares beneficially owned by their clients, brokers have discretion to cast votes on routine matters, such as the election of directors and ratification of the appointment of independent registered public accounting firms, without voting instructions from their clients. Brokers are not permitted, however, to cast votes on non-routine matters without such voting instructions. A broker non-vote occurs when a broker holding shares for a beneficial owner does not vote on a particular proposal because the broker does not have discretionary voting power for that proposal and has not received voting instructions from the beneficial owner.

Quorum

The presence at the Annual Meeting, in person or by proxy, of the holders of a majority of the shares of Common Stock outstanding on the Record Date will constitute a quorum, permitting the Annual Meeting to conduct its business. Subject to the rules regarding the votes necessary to adopt the proposals discussed below, abstentions and broker non-votes (as described above) will be counted for purposes of determining whether a quorum is present. Once a share is represented for any purpose at the Annual Meeting, it will be deemed present for quorum purposes for the remainder of the Annual Meeting (including any meeting resulting from an adjournment or postponement of the Annual Meeting, unless a new record date is set).

Votes necessary to approve each proposal

Election of Directors. The affirmative vote of a plurality of the votes cast at the Annual Meeting, either in person or by proxy, is required for the election of directors. This means that the individuals who receive the highest number of votes will be elected as directors, up to the maximum number of directors to be chosen at the Annual Meeting.

Other Items. For each other item, the affirmative vote of the holders of a majority of the shares present in person or represented by proxy and entitled to vote on the item will be required for approval.

Abstentions and broker non-votes will not be voted either in favor of or against any of the proposals. For the election of directors, which requires a plurality of the votes cast, votes withheld from one or more nominees will be excluded entirely from the vote and will have no effect on the outcome. For the ratification of our independent registered public accounting firm, which proposal will be decided by the affirmative vote of a majority of the votes cast, abstentions will be counted for purposes of determining the number of votes cast on the proposal and will have the same effect as negative votes, but broker non-votes will not be counted as shares present and entitled to vote.

Certain stockholder-related matters

We have not received notice of any stockholder proposals that may be properly presented at the Annual Meeting. For information regarding inclusion of stockholder proposals in our 2008 Annual Meeting, see the information in this Proxy Statement under the section heading *Other Matters - Stockholder Proposals for 2008 Annual Meeting*.

Table of Contents

AVAILABILITY OF CERTAIN DOCUMENTS

Householding of Annual Meeting materials

Some banks, brokers and other nominee record holders may participate in the practice of householding proxy statements and their accompanying documents. This means that only one copy of our Proxy Statement is sent to multiple stockholders in your household. We will promptly deliver a separate copy of these documents to you upon written or oral request to our Investor Relations Department at MarketAxess Holdings Inc., 140 Broadway, 42nd Floor, New York, NY 10005 or 212-813-6000. If you want to receive separate copies of our proxy statements in the future, or if you are receiving multiple copies and would like to receive only one copy per household, you should contact your bank, broker or other nominee record holder, or you may contact us at the above address and phone number.

Additional information

We are required to file annual, quarterly and current reports, proxy statements and other reports with the Securities and Exchange Commission (SEC). Copies of these filings are available through our Internet website at www.marketaxess.com or the SEC's website at www.sec.gov. We will furnish copies of our SEC filings (without exhibits), including our Annual Report on Form 10-K for the year ended December 31, 2006, without charge to any stockholder upon written or oral request to our Investor Relations Department at MarketAxess Holdings Inc., 140 Broadway, 42nd Floor, New York, NY 10005 or 212-813-6000.

PROPOSAL 1 ELECTION OF DIRECTORS

The first proposal to be voted on at the Annual Meeting is the election of directors. Except for Mr. Millet, each of the nominees for director was elected by the Company's stockholders on June 7, 2006. Mr. Millet is standing for election for the first time. The directors will be elected for a term which begins at the 2007 Annual Meeting of Stockholders and ends at the 2008 Annual Meeting of Stockholders. Each director will hold office until such director's successor has been elected and qualified, or until such director's earlier resignation or removal.

Your vote

If you sign the enclosed proxy card and return it to the Company, your proxy will be voted **FOR** all directors, for terms expiring in 2008, unless you specifically indicate on the proxy card that you are withholding authority to vote for one or more of the nominees.

A plurality of the votes cast by stockholders entitled to vote at the Annual Meeting is required for the election of directors. Accordingly, the directorships to be filled at the Annual Meeting will be filled by the nominees receiving the highest number of votes. In the election of directors, votes may be cast in favor of or withheld with respect to any or all nominees. Votes that are withheld will be excluded entirely from the vote and will have no effect on the outcome of the vote.

Stephen P. Casper
David G. Gomach
Carlos M. Hernandez
Ronald M. Hersch
Wayne D. Lyski
Jerome S. Markowitz
T. Kelley Millet

CORPORATE GOVERNANCE AND BOARD MATTERS

Directors independence

The Board of Directors has determined that seven of our directors, Messrs. Casper, Gomach, Hersch, Lyski, Markowitz, Rohatyn and Steinhardt, currently meet the independence requirements contained in the NASDAQ listing standards and applicable tax and securities rules and regulations. None of these directors has a relationship with the Company or its subsidiaries which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. Each of these directors is independent as defined within the meaning of the NASDAQ listing standards. In compliance with the NASDAQ listing standards, we have a Board of Directors comprised of a majority of independent directors.

The NASDAQ listing standards have both objective tests and a subjective test for determining who is an independent director. The objective tests state, for example, that a director is not considered independent if he is an employee of the Company or is a partner in or executive officer of an entity to which the Company made, or from which the Company received, payments in the current or any of the past three fiscal years that exceed 5% of the recipient's consolidated gross revenue for that year. The subjective test states that an independent director must be a person who lacks a relationship that, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

None of the non-employee directors were disqualified from independent status under the objective tests. In assessing independence under the subjective test, the Board took into account the standards in the objective tests, and reviewed

and discussed additional information provided by the directors and the Company with regard to each director's business and personal activities as they may relate to MarketAxess management. Based on all of the foregoing, as required by the NASDAQ listing standards, the Board made a substantive determination as to each of the seven independent directors that no relationship exists which, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. After reviewing the

Table of Contents

relationship between the Company and Mr. Hernandez's employer, JP Morgan Chase & Co. (JPMorgan), the Company has decided not to treat Mr. Hernandez as an independent director for purposes of the NASDAQ listing standards and applicable SEC rules. In making this determination, the Board considered that JPMorgan represented 7.1%, 7.4% and 8.5% of the Company's annual revenue for 2006, 2005 and 2004, respectively, and has from time to time provided certain investment banking services to the Company, including acting as an underwriter of our initial public offering in 2004.

The Board has not established categorical standards or guidelines to make these subjective determinations, but considers all relevant facts and circumstances.

In addition to Board-level standards for director independence, the directors who serve on the Audit Committee each satisfy standards established by the SEC providing that to qualify as independent for purposes of membership on the Audit Committee, members of audit committees may not accept directly or indirectly any consulting, advisory or other compensatory fee from the Company other than their director compensation. Also, each of the directors who serve on the Compensation Committee have been determined to be a non-employee director for purposes of the applicable SEC rules and regulations and an outside director for purposes of the applicable tax rules.

In making its independence determinations, the Board considered transactions occurring since the beginning of 2004 between the Company and entities associated with the independent directors or members of their immediate family. In each case, the Board determined that, because of the nature of director's relationship with the entity and/or the amount involved, the relationship did not impair the director's independence. The Board's independence determinations included reviewing the following relationships:

Mr. Casper is an executive officer of Fischer Francis Trees & Watts, Inc., which represented less than 1% of the Company's annual revenue in each of 2006, 2005 and 2004.

Mr. Hersch is an employee, but not an executive officer, of Bear, Stearns & Co., which represented approximately 4.5%, 4.5% and 4.1% of the Company's annual revenue in 2006, 2005 and 2004, respectively.

Mr. Lyski is an employee of Lee Munder Capital Group, which represented less than 1% of the Company's annual revenue in each of 2006, 2005 and 2004.

Mr. Rohatyn is an executive officer TRG Management L.P., the investment manager of the TRG Global Opportunity Master Fund, Ltd. TRG Global Opportunity Master Fund, Ltd. represented less than 1% of the Company's annual revenue in each of 2006, 2005 and 2004.

Mr. Steinhardt was previously an employee, but not an executive officer, of JPMorgan, which represented approximately 7.1%, 7.4% and 8.5% of the Company's annual revenue in 2006, 2005 and 2004, respectively.

How nominees to our Board are selected

Candidates for election to our Board of Directors are nominated by our Nominating Committee and ratified by our full Board of Directors for nomination to the stockholders. The Nominating Committee operates under a charter, which is available on our corporate website at www.marketaxess.com.

The Nominating Committee will give due consideration to candidates recommended by stockholders. Stockholders may recommend candidates for the Nominating Committee's consideration by submitting such recommendations directly to the Nominating Committee by mail or electronically. In making recommendations, stockholders should be mindful of the discussion of minimum qualifications set forth in the following paragraph. However, just because a

recommended individual meets the minimum qualification standards does not imply that the Nominating Committee will necessarily nominate the person so recommended by a stockholder. The Nominating Committee may engage outside search firms to assist in identifying or evaluating potential nominees. We did not employ outside search firms or pay fees to other third parties in connection with seeking or evaluating any of the Board nominee candidates.

The Nominating Committee believes that the minimum qualifications for serving on our Board are that a nominee have substantial experience working as an executive officer for, or serving on the board of, a public

company, or that he or she demonstrates by significant accomplishment in another given field of endeavor, an ability to make a meaningful contribution to the oversight and governance of a company having a scope and size similar to our Company. A director must have an exemplary reputation and record for honesty in his or her personal dealings and business or professional activity. All directors should possess a basic understanding of financial matters; have an ability to review and understand the Company's financial and other reports; and be able to discuss such matters intelligently and effectively. He or she also needs to exhibit qualities of independence in thought and action. A candidate should be committed first and foremost to the interests of the stockholders of the Company. Persons who represent a particular special interest, ideology, narrow perspective or point of view would not, therefore, generally be considered good candidates for election to our Board.

Communicating with our Board members

Although our Board of Directors has not adopted a formal process for stockholder communications with the Board, we make every effort to ensure that the views of stockholders are heard by the Board or by individual directors, as applicable, and we believe that this has been an effective process to date. Stockholders may communicate with the Board by sending a letter to the MarketAxess Holdings Inc. Board of Directors, c/o General Counsel, 140 Broadway, 42nd Floor, New York, New York 10005. The General Counsel will receive the correspondence and forward it to the Chairman of the Board or to any individual director or directors to whom the communication is directed, as appropriate. In addition, any person, whether or not an employee, who has a concern regarding the conduct of the Company or our employees, including with respect to our accounting, internal accounting controls or auditing issues, may, in a confidential or anonymous manner, communicate that concern in writing by addressing a letter to the Chairman of the Audit Committee, c/o Corporate Secretary, at our corporate headquarters address, which is 140 Broadway, 42nd Floor, New York, New York 10005, or electronically, at our corporate website, www.marketaxess.com under the heading *Investors Board of Directors Confidential Ethics Web Form*.

The chairman of the Audit Committee receives a supplemental annual retainer of \$7,500 and the chairman of the Compensation Committee receives a supplemental annual retainer of \$5,000. In August 2006, we granted 5,000 shares of restricted stock and options to purchase 5,000 shares of our Common Stock to each non-employee director. One-half of these awards vested on November 30, 2006 and the balance vests on May 31, 2007. The exercise price of the stock options is equal to the fair market value of the stock (\$9.30 per share) on the date of grant. These awards were made under the Company's 2004 Stock Incentive Plan (Amended and Restated Effective April 28, 2006) (the "Stock Incentive Plan"). The Board of Directors recommends, reviews and oversees the stock option plans for our non-employee directors. Mr. Hernandez, employer, JP Morgan, does not permit Mr. Hernandez to receive compensation for his service as a director and, therefore, he receives no cash payments or grants of restricted stock or stock options from us. In the future, we expect to continue to compensate our non-employee directors with a combination of cash and grants of restricted stock or stock options.

PROPOSAL 2 RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of our Board has appointed the firm of PricewaterhouseCoopers LLP (PwC) as our independent registered public accounting firm to audit our consolidated financial statements for the year ending December 31, 2007, and the Board is asking stockholders to ratify that selection. Although current law, rules and regulations, as well as the charter of the Audit Committee, require our independent registered public accounting firm to be engaged, retained and supervised by the Audit Committee, the Board considers the selection of our independent registered public accounting firm to be an important matter of stockholder concern and considers a proposal for stockholders to ratify such selection to be an important opportunity for stockholders to provide direct feedback to the Board on an important issue of corporate governance. In the event that stockholders fail to ratify the appointment, the Audit Committee will reconsider whether or not to retain PwC, but may ultimately determine to retain PwC as our independent registered public accounting firm. Even if the appointment is ratified, the Audit Committee, in its sole discretion, may direct the appointment of a different independent registered public accounting firm at any time during the year if the Audit Committee determines that such a change would be in the best interests of the Company and its stockholders.

The Board has also determined that both Mr. Gomach and Mr. Casper are financial experts as defined by the SEC.

The Audit Committee appoints our independent registered public accounting firm, reviews the plan for and the results of the independent audit, approves the fees of our independent registered public accounting firm, reviews with management and the independent registered public accounting firm our quarterly and annual financial statements and our internal accounting, financial and disclosure controls, reviews and approves transactions between the Company and its officers, directors and affiliates and performs other duties and responsibilities as set forth in a charter approved by the Board of Directors. A copy of the Audit Committee charter is available in the *Investors Corporate Governance* section of the Company's website.

During fiscal year 2006, the Audit Committee met nine times. The Company's senior financial management and independent registered public accounting firm were in attendance at such meetings. Following at least one meeting during each calendar quarter during 2006, the Audit Committee conducted a private session with the independent registered public accounting firm, without the presence of management.

The management of the Company is responsible for the preparation and integrity of the financial reporting information and related systems of internal controls. The Audit Committee, in carrying out its role, relies on the Company's senior management, including particularly its senior financial management, to prepare financial statements with integrity and objectivity and in accordance with generally accepted accounting principles, and relies upon the Company's independent registered public accounting firm to review or audit, as applicable, such financial statements in accordance with generally accepted auditing standards.

We have reviewed and discussed with senior management the Company's audited financial statements for the year ended December 31, 2006, included in the Company's 2006 Annual Report on Form 10-K. Management has confirmed to us that such financial statements (i) have been prepared with integrity and objectivity and are the responsibility of management and (ii) have been prepared in conformity with generally accepted accounting principles.

In discharging our oversight responsibility as to the audit process, we have discussed with PwC, the Company's independent registered public accounting firm, the matters required to be discussed by Statement on Auditing Standards No. 61, *Communications with Audit Committees* (SAS 61). SAS 61 requires our independent registered public accounting firm to provide us with additional information regarding the scope and results of their audit of the Company's financial statements, including: (i) their responsibilities under generally accepted auditing standards, (ii) significant accounting policies, (iii) management judgments and estimates, (iv) any significant accounting adjustments, (v) any disagreements with management and (vi) any difficulties encountered in performing the audit.

We have obtained from PwC a letter providing the disclosures required by Independence Standards Board Standard No. 1 (*Independence Discussion with Audit Committees*) with respect to any relationship between PwC and the Company that in PwC's professional judgment may reasonably be thought to bear on independence. PwC has discussed its independence with us, and has confirmed in its letter to us that, in its professional judgment, it is independent of the Company within the meaning of the United States securities laws.

Based upon the foregoing review and discussions with our independent registered public accounting firm and senior management of the Company, we have recommended to our Board that the financial statements prepared by the Company's management and audited by its independent registered public accounting firm be included in the Company's Annual Report on Form 10-K, for filing with the Securities and Exchange Commission. The Committee also has appointed PwC as the Company's independent registered public accounting firm for 2007.

As specified in its Charter, it is not the duty of the Audit Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and in accordance with generally accepted accounting principles. These are the responsibilities of the Company's management and independent registered public accounting firm. In discharging our duties as a Committee, we have relied on (i) management's

representations to us that the financial statements prepared by management have been prepared with integrity and objectivity and in conformity with generally accepted accounting principles and (ii) the report of the Company's independent registered public accounting firm with respect to such financial statements.

COMPENSATION DISCUSSION AND ANALYSIS

Compensation objectives and strategy

The Company's compensation program for named executive officers is designed to attract and retain the caliber of officers needed to ensure the Company's continued growth and profitability, and to reward them for their performance, the Company's performance, and for creating longer term value for stockholders. The primary objectives of the program are to:

align personal performance with stockholder value creation;

reward the named executive officers based on their contribution to the overall financial performance of the Company;

support the Company's long-term growth objectives;

encourage high potential individuals with significant market experience to build a career at the Company; and

provide rewards that are cost-efficient, competitive with other organizations and fair to employees and stockholders.

The Company's compensation programs for named executive officers are approved and administered by the Compensation Committee of the Board of Directors. Working with management and our outside compensation advisors, the Compensation Committee has developed a compensation and benefits strategy that rewards performance and behaviors, and reinforces a culture, that the Compensation Committee believes will drive long-term success.

The compensation program rewards team accomplishments while promoting individual accountability. Compensation depends in significant measure on overall Company results, but business unit results and individual accomplishments are also very important factors in determining each named executive officer's compensation. The Company has an annual planning and goal-setting process that is fully integrated into the compensation system, enhancing a strong relationship between individual efforts, Company results and financial rewards.

A major portion of total compensation is placed at risk through annual and long-term incentives. As shown in the Summary Compensation Table, in 2006 the sum of annual cash incentive awards and equity in the form of restricted stock and stock options represented between 63% and 91% of the total direct compensation, defined as base salary, cash bonus and the value of equity awards at the date of grant, for the named executive officers. The combination of incentives is designed to balance annual operating objectives and the Company's earnings performance with longer-term stockholder value creation.

We seek to provide competitive compensation that is commensurate with performance. We benchmark our named executive officer compensation programs with a peer group of financial technology companies discussed below under *Role of the Compensation Committee - Pay Levels and Benchmarking*. We target compensation at the median of the market, and calibrate both annual and long-term incentive opportunities to generate less-than-median awards when

goals are not fully achieved and greater-than-median awards when goals are exceeded.

We seek to promote a long-term commitment to the Company by our named executive officers. We believe that there is great value to the Company in having a team of seasoned managers. Our team-focused culture and management processes are designed to foster this commitment. In addition, the vesting schedules attached to restricted stock and option awards (generally performance-based vesting with a five-year default vesting period and time-based vesting over a three-year period, respectively) reinforce this long-term orientation.

Role of the Compensation Committee

General

The Compensation Committee provides overall guidance for our executive compensation policies and determines the amounts and elements of compensation for our named executive officers. The Compensation Committee's function is more fully described in its charter, which has been approved by our Board of Directors. The charter is available on our Internet website at www.marketaxess.com under the *Investors-Corporate Governance* section.

The Compensation Committee currently consists of three members of our Board of Directors, John Steinhardt (Chair), Wayne D. Lyski and Nicolas Rohatyn, all of whom are independent as defined by the NASDAQ listing standards and the applicable tax and securities rules and regulations.

The Compensation Committee meets on a regular basis for various reasons as outlined in the charter, including but not limited to: approving the formula for the bonus pool at the beginning of the fiscal year; approving the hiring of, and compensation offers to, named executive officers and other senior managers; approving severance terms for named executive officers and other senior managers, when applicable; reviewing and approving any changes to any incentive plan, including the stock incentive plans and the annual performance incentive plan; and reviewing and approving year-end compensation recommendations made by the compensation consultant based on market data for named executive officers and other senior managers, and recommendations made by management for all other employees.

When considering decisions concerning the compensation of named executive officers other than the Chief Executive Officer (CEO), the Compensation Committee asks for the recommendations of both the CEO, Richard M. McVey, and the compensation consultant. No executive officer has a role in determining or recommending compensation for outside directors.

Use of outside advisors

In making its determinations with respect to executive compensation, the Compensation Committee has historically engaged the services of a compensation consultant. Through December 2006, the compensation consulting firm was Venture Pay Group. Beginning in calendar year 2007, the Compensation Committee has retained Pearl Meyer and Partners. The Compensation Committee annually reviews competitive compensation data prepared by the compensation consultant. The Compensation Committee has the authority to retain, terminate and set the terms of the Company's relationship with any outside advisors who assist the Committee in carrying out its responsibilities.

Pay levels and benchmarking

Pay levels for executives are determined based on a number of factors, including the individual's roles and responsibilities within the Company, the individual's experience and expertise, the pay levels for peers within the Company, pay levels in the marketplace for similar positions, and performance of the individual and the Company as a whole. The Compensation Committee is responsible for approving pay levels for the named executive officers. In determining the pay levels, the Compensation Committee considers all forms of compensation and benefits and uses tools, such as the Black-Scholes option pricing model, to value the equity and equity expense in determining the financial impact on the Company.

The Compensation Committee assesses competitive market compensation using a number of sources. The primary data source used in setting competitive market levels for the named executive officers is the information publicly disclosed by a peer group of companies (listed below), which is reviewed annually and may change from year to year.

These companies are in the financial technology marketplace and include:

eSpeed, Inc.
Intercontinental Exchange, Inc.
International Securities Exchange, Inc.
Investment Technology Group, Inc.
Knight Capital Group, Inc.
Labranche & Co., Inc.
Options Xpress Holdings, Inc.
SWS Group, Inc.
TD Ameritrade Holding Corp.
Tradestation Group, Inc.

Table of Contents

Data is also obtained from three different compensation surveys covering financial services, financial technology and general technology firms.

After consideration of the data collected on external competitive levels of compensation and internal relationships within the group of named executive officers at the Company, the Compensation Committee makes decisions regarding individual target total compensation opportunities for each named executive officer based on the need to attract, motivate and retain an experienced and effective management team.

The base salary and target annual incentive opportunity for each named executive officer are generally set at the median salary and incentive amounts paid by the companies in our peer group, as adjusted for the relative financial results of the Company. As an example, if the Company's ratio of compensation expense to gross revenues is greater than that of other companies in our peer group, the Compensation Committee may reduce the amount of base salary and annual incentive opportunity of each executive accordingly.

As noted above, notwithstanding the Company's overall pay positioning objectives, pay opportunities for specific individuals vary based on a number of factors such as scope of duties, tenure, institutional knowledge and/or difficulty in recruiting a new executive. Actual total compensation in a given year will vary above or below the target compensation levels based on the attainment of operating goals and the creation of stockholder value and competitive threats.

Compensation structure

Pay elements overview

The Company utilizes four main components of compensation:

base salary that reflects an individual's role and responsibilities, experience, expertise and individual performance;

annual variable cash performance awards that are designed to reward attainment of annual business goals;

long-term incentives, which are equity-based awards that may include stock options, stock appreciation rights, restricted stock, performance shares and other stock-based awards, including restricted stock units and deferred stock units (to date, only stock options and restricted stock have been granted); and

benefits and perquisites, offered to all U.S. and U.K. employees, including healthcare benefits, life insurance and retirement savings plans; and disability plans (U.S. employees only).

The compensation consultant, together with the CEO and Head of Human Resources, will present the compensation recommendations for all named executive officers (other than the CEO) to the Compensation Committee. For each named executive officer, they evaluate the overall performance of the Company, the results of the business unit that the named executive officer leads and the named executive officer's performance against expectations, in order to make compensation decisions. Changes to the individual components are considered (*i.e.*, base pay increases, percentage increase or decrease in cash bonuses and increases or decreases in equity value) as well as total direct compensation (*i.e.*, the value of the executive's total compensation package for the year). We believe that this process rewards high-performing named executive officers who drive corporate results and stockholder value, and serves as a retention tool by providing an incentive to sustain a high level of performance over a long career with MarketAxess. Additionally, the process seeks to ensure that we are paying our named executive officers competitively.

The compensation consultant works directly with the Compensation Committee to determine the compensation of the CEO. The same criteria are used in determining CEO pay as are used for named executive officers. The CEO does not participate in those discussions. The other executive officers do not play a role in their own compensation determination other than providing results on their individual performance objectives to the CEO as part of a performance review process.

Pay elements details

Base salary

The Compensation Committee annually reviews named executive officer salaries and makes adjustments as warranted based on individual responsibilities and performance, Company performance in light of market conditions, and competitive practices. Salary adjustments, if any, are generally approved and implemented during the first quarter of the calendar year. Salary increases are not made each year; rather, the Compensation Committee reviews all components of remuneration and decides which elements of compensation should be adjusted or granted based on corporate and individual results and competitive benchmark data. This approach is in line with the Company's intentions of offering compensation that is contingent upon individual responsibilities and performance. Of the named executive officers, only the salary of the CEO was increased in 2006 from 2005 levels based on benchmark market data.

Annual variable cash performance awards

Annual cash incentive compensation for named executive officers is paid under the MarketAxess Holdings Inc. 2004 Annual Performance Incentive Plan (the Annual Performance Plan). The Annual Performance Plan is designed to provide cash bonus awards to named executive officers in recognition of their contribution to corporate results, profitability and stockholder returns. Our CEO and Head of Human Resources provide the compensation consultant with performance data for each of the named executive officers and certain other employees. The compensation consultant then reviews this data and, based upon market data and corporate performance, makes compensation recommendations to the CEO and Head of Human Resources, which are then modified based on individual performance data.

Under the Annual Performance Plan, participants are eligible to receive bonus awards that may be expressed, at the Compensation Committee's discretion, as a fixed dollar amount, a percentage of compensation (whether base pay, total pay or otherwise) or an amount determined pursuant to a formula. Bonuses are contingent upon the attainment of certain pre-established performance targets established by the Compensation Committee, including, but not limited to, one or more of the following:

earnings per share;

gross revenues;

earnings before interest, taxes, depreciation and amortization;

net income; and

such other goals established by the Compensation Committee.

In determining the aggregate amount of the cash bonus under the Annual Performance Plan, a corporate level cash bonus pool was created for fiscal year 2006, which was variable based on financial results. Specifically, the bonus pool formula was based on operating income before taxes and before bonus expense. The target cash bonus pool was based on financial targets that were moderately difficult to achieve. Had the financial results exceeded plan, the bonus pool would have been greater than the target. As the financial results were less than plan, the bonus pool that was paid out was less than the target. This formula had two objectives: to align employee bonuses with operating and net income and earnings per share, and to use the operating leverage of our business to motivate employees.

Cash bonuses are paid after the end of the performance period in which they are earned, as determined by the Compensation Committee. Generally they are paid in January after the completion of the previous fiscal year, but in no event would they be paid later than March 15 after the end of the applicable year. Unless otherwise determined by the Compensation Committee, no bonus (or pro rata portion) will be payable to any individual whose employment has ceased prior to the date such bonus is paid.

Table of Contents*Long-term incentives equity-based awards*

The Company and the Compensation Committee believe that equity-based awards are an important factor in aligning the long-term financial interest of the named executive officers and stockholders. The Compensation Committee evaluates the use of equity-based awards and intends to continue to use such awards in the future as part of designing and administering the Company's compensation program. The Compensation Committee may grant equity incentives under the Company's Stock Incentive Plan in the form of stock options (non-qualified and incentive stock options), stock appreciation rights, restricted stock, performance shares, performance units and other stock-based awards. To date, only stock options and restricted stock have been granted. Awards to named executive officers are generally granted at the time of hire and at the end of the fiscal year for corporate, unit and individual performance.

Grants are issued on the date they are approved by the Compensation Committee, except for new hires, whose grant date is either the date of hire or the first day of the month after hire, as recommended to and approved by the Compensation Committee prior to hire. The exercise price for stock options is the closing market price per share of our Common Stock as quoted on The NASDAQ Global Select Market on the grant date. Historically, the Compensation Committee has granted stock options, which generally have time-based vesting and vest over three years. The Compensation Committee has also granted shares of restricted stock with performance-based vesting. The default schedule is usually five years with accelerated vesting if pre-determined performance targets are met or exceeded. The Compensation Committee has not granted other stock-based awards in the past. The Compensation Committee will evaluate the mix of stock options, restricted stock and other stock-based awards in the future to align rewards for personal performance with stockholder value creation.

The salaries paid and the annual bonuses awarded to the named executive officers in 2006 are discussed and shown in the *Summary Compensation Table*.

Other benefits

We provide our named executive officers with the same benefits offered to all other employees. The cost of these benefits constitutes a small percentage of each executive's total compensation. In the U.S., key benefits include paid vacation, premiums paid for life insurance and short-term and long-term disability policies, a matching contribution to the named executive officer's 401(k) plan and the payment of 80% of the named executive officer's healthcare premiums. In the U.K., key benefits include paid vacation, healthcare coverage, life insurance and the Company's match on the salary sacrifice pension scheme. The Company reviews these other benefits and perquisites on an annual basis and makes adjustments as warranted based on competitive practices and the Company's performance.

Pay mix

We utilize the particular elements of compensation described above because we believe that it provides a well-proportioned mix of security-oriented compensation, retention value and at-risk compensation that produces short-term and long-term performance incentives and rewards. By following this approach, we provide the named executive officer a measure of security in the minimum level of compensation that the individual is eligible to receive, while motivating the named executive officer to focus on the business metrics that will produce a high level of performance for the Company and long-term wealth creation for stockholders and the named executive officer, as well as reducing the risk of recruitment of top executive talent by competitors. The mix of metrics used for the Annual Performance Plan and the Stock Incentive Plan likewise provide an appropriate balance between short-term financial performance and long-term financial and stock performance.

For named executive officers, the mix of compensation is weighted heavily toward at-risk pay (annual incentives and long-term incentives). Maintaining this pay mix results fundamentally in a pay-for-performance orientation for our named executive officers, which is aligned with our stated compensation philosophy of attracting and retaining the caliber of named executive officers needed to ensure the Company's continued growth and profitability, rewarding them for their performance and the Company's performance, and for creating longer-term value for stockholders.

Compensation Committee discretion

The Compensation Committee retains the discretion to decrease all forms of incentive payouts based on significant individual or Company performance shortfalls. Likewise, the Compensation Committee retains the discretion to increase payouts and/or consider special awards for significant achievements, including but not limited to superior operating results, strategic accomplishments and/or consummation of partnerships, acquisitions or divestitures.

Severance and change in control arrangements

The provisions regarding severance and change in control are described elsewhere in this proxy statement. Mr. McVey's and Mr. Millet's employment agreements call for severance and change-in-control payments and vesting of restricted stock and stock options under various conditions. In addition, the Company has a severance policy governing termination payments under certain conditions.

Impact of tax and accounting

As a general matter, the Compensation Committee reviews and considers the tax and accounting implications of using the various forms of compensation employed by the Company.

When determining the size of grants to executives and employees under the Company's stock incentive plans, the Compensation Committee examines the accounting cost associated with the grants. Under Statement of Financial Accounting Standard No. 123 (revised 2004), Share-Based Payment (FAS 123R), grants of stock options, restricted stock, restricted stock units and other share-based payments result in an accounting charge for the Company. The accounting charge is equal to the fair value of the instruments being issued. For restricted stock and restricted stock units, the cost is equal to the fair value of the stock on the date of grant times the number of shares or units granted. For stock options, the cost is equal to the fair value determined using an option pricing model. This expense is amortized over the requisite service period or the vesting period of the instruments.

Section 162(m) of the Internal Revenue Code generally prohibits any publicly held corporation from taking a federal income tax deduction for compensation paid in excess of \$1 million in any taxable year to the chief executive officer and the next four highest compensated officers. Exceptions are made for qualified performance-based compensation, among other things. It is the Compensation Committee's policy to maximize the effectiveness of our executive compensation plans in this regard.

Conclusion

The level and mix of compensation that are finally decided upon are considered within the context of both the objective data from our competitive assessment of compensation and performance, as well as discussion of the subjective factors as outlined above. The Compensation Committee believes that compensation for each of our named executive officers is within the competitive range of practices when compared to the objective comparative data, even where subjective factors have influenced the compensation decisions.

(1) Mr. Millet was awarded a total of 350,000 performance-based stock options. Specifically, if certain performance metrics for 2007 are met, options to purchase 175,000 shares of our Common Stock will vest in four equal annual installments on February 1, 2008, 2009, 2010 and 2011, and if certain performance metrics for 2008 are met, options to purchase 175,000 shares of our Common Stock will vest in three equal annual installments on February 1, 2009, 2010 and 2011.

(2) Restricted stock was awarded pursuant to the Stock Incentive Plan. Each share of restricted stock represents one share of the Company's Common Stock that is subject to forfeiture if the applicable vesting requirements are not met. The default vesting schedule for the restricted stock grants is equal annual vesting over five years. Vesting may be accelerated if certain pre-approved performance targets are met or exceeded. Specifically, for awards to the named executive officers other than Messrs. McVey and Millet, 50% of the shares can vest after the first year and 50% of the shares can vest after the second year if the performance targets are met or exceeded. If only one of the two-year targets is achieved, then there is ratable vesting over the remaining period for the balance of the shares. For Mr. McVey's award, 34% of the shares can vest after the first year and 33% of the shares can vest

after each of the second and third years if the performance targets are met or exceeded. For all awards to the named executive officers, if the targets are not met in either year, then the default vesting schedule shall apply. The restricted stock award to Mr. McVey is presently expected to constitute the only shares of restricted stock to be granted to Mr. McVey over the next three calendar years. This three-year approach is consistent with the Company's practice of making three-year grants to Mr. McVey, as it did in 2000 and 2003. Mr. McVey remains eligible to receive future grants of stock options and other forms of equity awards. Mr. Millet's award vests in five equal annual installments. Messrs. McVey and Millet hold unvested restricted stock which vests under certain change in control scenarios.

- (3) Stock option awards were awarded pursuant to the Stock Incentive Plan. One-third of the options vest on the first anniversary of the grant date and the balance vests in 24 equal monthly installments thereafter. The options granted to Mr. Millet vest in five equal annual installments beginning on October 1, 2007.
- (4) The exercise price for stock options granted was equal to the closing price of the Company's Common Stock on the date of grant.

Table of Contents

- (5) The value of a restricted stock or stock option award is based on the fair value as of the grant date of such award determined pursuant to FAS 123R, and disregards estimates of forfeitures related to service-based vesting conditions. The proceeds to be paid to the individual following an exercise do not include the option exercise price, and the exercise price of option awards has not been deducted from the amounts indicated above. Regardless of the value placed on a stock option award on the grant date, the actual value of the stock option will depend on the market value of our Common Stock at such date in the future when the stock option is exercised.

The following table summarizes unexercised stock options, performance-based stock options with performance conditions that have not yet been satisfied and restricted stock units that have not vested and related information for each of our named executive officers as of December 31, 2006. The market value of restricted stock awards is based on the closing price of the Company's Common Stock on December 29, 2006 of \$13.57.

Employment agreements with our Named Executive Officers***Richard M. McVey employment agreement***

In March 2004, we entered into an employment agreement with Richard M. McVey, which supersedes the prior employment letter he entered into with us. The agreement provides that Mr. McVey will be employed by us as President, Chief Executive Officer and Chairman of the Board of Directors, and his employment may be terminated by him or by us at any time. Mr. McVey's annual base salary under the letter is \$300,000 per year, which amount was increased in 2006 to \$400,000. Mr. McVey is also eligible to receive an annual bonus in accordance with the Annual Performance Plan and is entitled to participate in all benefit plans and programs available to our other senior executives, at a level commensurate with his position. In connection with the hiring of Mr. Millet, Mr. McVey agreed to waive his right to serve as President of the Company.

Mr. McVey's employment agreement calls for severance and change-in-control payments and vesting of restricted stock and stock options under various conditions. The provisions regarding severance and change in control are described elsewhere in this Proxy Statement.

T. Kelley Millet employment agreement

In September 2006, we entered into an employment agreement with T. Kelley Millet. The agreement provides that Mr. Millet will be employed by us as President, and his employment may be terminated by him or by us at any time. Mr. Millet's base salary under the agreement is \$300,000 per year. Mr. Millet is also eligible to receive an annual bonus in accordance with the Annual Performance Plan. For the calendar year ended December 31, 2006, Mr. Millet received a guaranteed minimum bonus of \$200,000. For the calendar year ending December 31, 2007, Mr. Millet's bonus will be no less than \$500,000. Thereafter, Mr. Millet's bonuses will be determined by his, his group's, and the Company's performance. He is also entitled to participate in all benefit plans and programs available to our other senior executives, at a level commensurate with his position.

Mr. Millet's employment agreement calls for severance and change-in-control payments and vesting of restricted stock and stock options under various conditions. The provisions regarding severance and change in control are described elsewhere in this Proxy Statement.

Loans to executive officers of the Company

Prior to enactment of the Sarbanes-Oxley Act in July 2002, we made two loans to Richard M. McVey, our Chief Executive Officer and Chairman of our Board of Directors. We entered into restricted stock purchase agreements with Mr. McVey on June 11, 2001 and July 1, 2001, respectively, in connection with his compensation package. Pursuant to these agreements, we sold an aggregate of 289,581 shares of our Common Stock to Mr. McVey at a purchase price of \$3.60 per share. We loaned an aggregate of approximately \$1,042,488 to Mr. McVey to finance his purchase of these shares. Mr. McVey executed secured promissory notes with us to document these loans. These promissory notes bear interest at an average rate of 5.69% per annum. The principal and accrued

Table of Contents

interest on each of these promissory notes is due and payable as follows: (1) 20% of the principal and accrued interest is due on the sixth anniversary of the issuance date; (2) an equal amount is due on each of the seventh, eighth, ninth and tenth anniversaries of the issuance date; and (3) the balance is due on the eleventh anniversary of the issuance date. Mr. McVey may prepay all or any part of any note at any time without paying a premium or penalty. A portion of the promissory notes representing 80% of the aggregate purchase price is non-recourse and the remaining portion of the promissory notes, representing 20% of the aggregate purchase price, is full-recourse. As security for his obligations under the promissory notes, Mr. McVey has pledged the 289,581 shares of our Common Stock acquired by him under the restricted stock purchase agreements described above.

The loans described in the preceding paragraph were entered into prior to the passage of the Sarbanes-Oxley Act. Because of the prohibitions against certain loans under Section 402 of the Sarbanes-Oxley Act, we will not modify any of these outstanding loans, nor will we enter into new loans with any of our directors or executive officers other than as permitted by applicable law at the time of the transaction.

Post-termination compensation and benefits

Richard M. McVey, CEO, and T. Kelley Millet, President, are entitled to various cash, benefits and equity provisions under certain terminations of employment. These entitlements are described below and are included in the table below entitled *Post-Termination Payments*. Other named executive officers who do not have employment agreements with the Company are provided severance as outlined in the MarketAxess Severance Pay Plan.

Payments to Mr. McVey

In the event of a change in control, certain benefits are provided to Mr. McVey if there is a change in control and no loss of employment (Single-Trigger), or if there is a change in control and loss of employment (Double-Trigger). Loss of employment includes a resignation for Good Reason or a termination by the Company without Cause (each as defined in Mr. McVey's employment agreement). A qualifying event in connection with a change-in-control occurs three months prior to or up to 18 months after a change in control.

In the event of a Single-Trigger change in control in which the holders of MarketAxess Common Stock receive only cash, the portion of Mr. McVey's January 31, 2006 restricted stock grant that is exchanged for cash becomes vested and no longer has restrictions immediately prior to the change in control, and the unvested stock option from the January 12, 2007 grant vests immediately prior to the change in control. In the event of any other Single-Trigger change in control, there is no deviation from the documented vesting schedules for Mr. McVey's restricted stock and stock option grants. In a Double-Trigger event, Mr. McVey will receive 24 months continuation of base salary, two times his average annual cash bonus for the three years prior to termination (payable in 24 equal monthly installments), 18 months post-termination healthcare coverage, and accelerated vesting of the entire unvested portion of his January 31, 2006 grant of restricted stock and his January 12, 2007 stock option grant.

In the event Mr. McVey is terminated from the Company for any reason other than in connection with a change in control, for Cause, or due to his death or disability, and providing he does not terminate his employment voluntarily (except for Good Reason), Mr. McVey will receive 12 months continuation of base salary, one time his average annual cash bonus for the three years prior to termination (payable in 12 equal monthly installments), 12 months post-termination healthcare coverage, and accelerated vesting of 67,500 shares of restricted stock (or, if less, the entire unvested amount) under his January 31, 2006 restricted stock grant and the right to purchase 25,000 options under his January 12, 2007 stock option grant. In the event of death or disability, Mr. McVey (or in the event of death, his spouse, dependents or estate) will receive the foregoing benefits, plus accelerated vesting of the entire unvested portion of his January 31, 2006 grant of restricted stock and his January 12, 2007 stock option grant.

Payments to Mr. Millet

In the event of a Single-Trigger change in control in which the holders of MarketAxess Common Stock receive only cash or the Company goes private, Mr. Millet's unvested shares of restricted stock immediately vest and cease to be restricted. In addition, the equivalent of one year of vesting under Mr. Millet's outstanding stock option grant will be accelerated subject, in the case of performance-based options, to the prior satisfaction of the performance

Table of Contents

metrics specified therein. In the event of any other Single-Trigger Change of Control, there is no deviation from the documented vesting schedule for Mr. Millet's restricted stock and stock option grants.

In a Double-Trigger event, Mr. Millet will receive six months continuation of base salary, \$500,000 if termination occurs prior to December 31, 2007 or one time his average annual cash bonus for the three years prior to a termination thereafter (payable in 12 equal monthly installments), 12 months post-termination healthcare coverage, and accelerated vesting of all unvested shares of restricted stock and the lesser of 50% of the stock option granted (including the time-vested and performance-vested portions of the option) or the unvested portion of the option.

In the event Mr. Millet is terminated from the Company for any reason other than in connection with a change in control, for Cause, or due to his death or disability and providing he does not terminate his employment voluntarily (except for Good Reason), Mr. Millet will receive six months continuation of base salary, \$500,000 pro rated for days employed in 2007 if termination occurs prior to December 31, 2007 or one time his average annual cash bonus for the three years prior to a termination thereafter (payable in 12 equal monthly installments), six months post-termination healthcare coverage, and accelerated vesting of 30,000 shares of restricted stock (or, if less, the entire unvested amount) under his restricted stock grant and the equivalent of one year of vesting under Mr. Millet's outstanding stock option grant subject, in the case of performance-based options, to the prior satisfaction of the performance metrics specified therein. In the event of death or disability, Mr. Millet (or in the event of death, his spouse, dependents, or estate) will receive the foregoing benefits, plus accelerated vesting of the entire unvested portions of his restricted stock and stock option grants.

Severance for Other Named Executive Officers

Those named executive officers who do not have employment agreements with the Company are provided severance as outlined in the MarketAxess Severance Pay Plan. All active, regular US-based employees on the Company's payroll who do not have other employment agreements and do not voluntarily terminate employment and are not involuntarily terminated by the Company for cause are eligible for this plan. Severance pay is determined by years of service. For each week of severance pay, the terminated employee is also eligible to continue healthcare coverage if in effect at the time of termination, and the Company and employee continue to pay their respective shares of the premiums in accordance with the respective plans.

The following table estimates the payments we would be obligated to make to each of our named executive officers as a result of his termination or resignation or, in the case of Mr. McVey and Mr. Millet, because of a change in control of our Company pursuant to the employment agreements we have entered into with each of them. We have calculated these estimated payments to meet SEC disclosure requirements. The estimated payments are not necessarily indicative of the actual amounts any of our named executive officers would receive in such circumstances.

For illustrative purposes only, the tables assume that: (a) a notice of termination was received or tendered by the employee or a change in control of our company occurred on December 31, 2006, as applicable, and (b) the price per share of our Common Stock is \$13.57, the closing price on December 29, 2006, the last business day of that year.
