**Item 5.02 Departures of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers and Other Events**

As previously disclosed, a special committee of the Company's Board of Directors has concluded its investigation into the option granting process followed by the Company. As a result of that investigation, the special committee has determined that certain options have been granted using incorrect measurement dates. In these instances, the closing price of the Company's common stock on the grant date used by the Company was lower than the closing price on the correct date for tax purposes. As a result, holders of such options or any portions thereof that were not vested as of December 31, 2004 and not exercised in 2005 ( Subject Options ) may be subject to a penalty tax under Internal Revenue Code Section 409A. This penalty tax will not apply, however, to any Subject Options held by any director or reporting officer that are amended before December 31, 2006 to correct the exercise price to the closing price of the Company's common stock on the correct tax grant date.

The Company's Board of Directors addressed the potential adverse income tax effects associated with certain of the Subject Options by permitting these reporting officers and directors to amend their options to provide for the closing price on the correct grant date.

The executive officers and members of the Board set forth on the schedule attached hereto as Exhibit 99.1 have agreed to modify their options set forth on the schedule.

With respect to Subject Options that were exercised during 2006, the holders may be subject to a penalty tax under Internal Revenue Code Section 409A. The Company anticipates reimbursing for payments that are required by current executive Officers and Directors.
